BEASTIALITY STORIES

(c) 2010 by mandawg

I am by no means a great writer of any means at all... And while this story does not delve into the depths of actually seeing anything.. It sure is one the mental thoughts of knowing something had happened!!!

Since retiring as I have I do the lawn upkeep for my son and daughter in law and a few others around where I live at during the mowing season per say.

And it was on one such occasion that I discovered a petluvr thing between a lady and her dog.. Well actually their dog..

I mow a few yards for several different people and since this young lady is the daughter of some very dear friends of mine in this area I mow her and her boyfriends yard as well..

Now I'll not divulge her name in anyway shape of form I will say that I had gone over to mow their yard and without thinking a thing I just unloaded my mower and set out to mow their yard as usual.

Well what I was going to discover surely has many things turned up on it's head now...

She and her boyfriend have two pittbulls neither of which would hurt a soul in this world in the least except knock you down to get a petting and scratching.

Ones name is rambo and the others name is princess since she's female and rambo is male.

But I paid no attention at all when i opened the gate and got my mower etc. in the backyard to begin and as usual got attracted by princess for that ever important pet and scratch as she ran off to fetch a ball and play as I began to get ready to mow the yard..

Then it suddenly dawned on me where is rambo and looked around and found him nowhere at all.. Well he has been known to get out a few times and so now i'm like dammit now I've got to go search for his lost ass..

So off I sat to see first where did he get out this time and discovering nowhere he did or could have at all and began to look in the front and side yards for him hoping he had stayed at least in the yard and still no rambo...

Then bam it hit me as I was by their driveway and saw her car there and was like she must be home sick today from work since she and her boyfriend work at the same plant and such..

Well I went to the front door knocked and rang door bell to tell her that rambo was loose on the town and I would try and find him if I could.. But no one answered the door and I could hear her voice but not plain enough to understand what she was saying from outside..

I thought maybe she had him inside since she was home and hated to be alone in the least due her fears of such.. So I went back to my lawnmowing and got it all done and had mower etc. back at my pickup and decided I'd knock once again just in case rambo was not with her to tell her he had gotten out or was out..

Once again I knocked several times and could only hear her voice inside but could not make out what she was saying at all.. So I went and loaded up my mower and weed eaters etc. and went back and knocked again..

And this time I could hear her much plainer and heard her saying just a minute.. several times over so I waited at the door and she opened it and let me inside and was drying her hair and had a skimpily thrown on robe on and looked like she'd just been drug through the mud so to speak..

But obediently sitting right beside her was none other than rambo.. Up until that moment I'd not given one thought to the realmafications of anything going on except she most likely had him inside the house!!

Well there was certainly more to it than his just being inside since I could a bit of slobber on her neck and noticed she wasn't out of the shower at all and what she was using the towel for was to wipe off what rambo had put in her long blonde hair.

It hit me like a rock then and there just what had gone on.. And I was greatly dissapointed in myself for not trying to do a bit of peeping and seeing what she and rambo where really doing..

There certainly was not a doubt left in my mind at that point knowing what had gone on and her inner thighs were soaked from their previous action.

She was trying to convince me she'd just showered but I'm no fool to the knowing of what is water and what is cum juices..

Of course she has not one clue about the things I am into with the beastiality stuff at all though certainly her mom sure has full knowledge of the pleasure and enjoyed it many times with me and my lab has sure tagged her a few times..

But there this beauty was standing before me all but naked since it was damn sure clear she had nothing on under her flimsy robe at all and it being just hurriedly thrown on as well let me know the truth of it all..

I saw no visual evidence of scratch marks and such on her waist but her tight little belly damn sure a noticeable bulge in it.. And as well I looked down at rambo who was sitting obediently beside her and he had juices all over his far underbelly and sheath.

I was a bit embarrassed having busted her in such a way and wished my damn mandawg thoughts had hit me way earlier and got a glimpse or looked to see if perhaps I could have seen them getting it on..

And I certainly made the comment about how male dogs were womans best friend only watch as she shivered all over and shakily said she had to go finish cleaning up and thanked me for mowing their yard and keeping it well kept..

Although I have not said a word to her about what I know was going on that day between her and rambo I certainly have when given the opportunity said to her when no one else could hear or listen "male dogs are a ladies best friend huh"

Well she certainly yes they are and no one will ever truly just how much as she winked at me.. So I think she's catching on to my knowing things just a bit afraid to really come out and discuss with me privately about it all..

And I know this when mowing season starts again I'll most surely as hell be keeping a watchfull eye on that house and someday hope to get involved with her and rambo getting it on...

I know this story really had no actual sex in it or my seeing anything of sorts but I just wanted to

share my own account of something like this happening and who knows someday maybe I will have the rest of the story to post to you all...

~~~ Part 2 ~~~

Anyway since it's about time to get back to cutting yards as this season opens I went to their home to spread some weed and feed fertilizer on their yard to give it a good quick robust growing start..

Well I guess as luck would have it if that is the proper way to say it; I noticed her car at home again meaning she'd taken off work that day as well.

So I went to their door and knocked wanting to tell her to be careful and not walk on the lawn and not get any fertilizer on shoes etc. and it be entered into their house and having a 4 month old child now I really wanted to make sure of that..

But I knocked and heard no answer and just sat out to do what I was going to do and not disturb her in case she might be sick or asleep.

So I get my fertilizer spreader and bag of weed and feed out of truck and proceed to do her front lawn first since they have two large pitt bulls in backyard as I described in my story above..

Neither are anything of sorts mean except they may about knock you over for a pet or a hug when you see them. But you have to be careful entering the back yard since they will indeed see you open gate and bam they charge at you and get out by knocking you down to do so..

Anyway I finished the front and headed into the backyard and only saw the female dog there and not the male..

So here's my instant thoughts again that "oh shit" he got out and then as sudden as that thought flew through my head: "Bam" my secondary thought took right over and I was like "Do you think she is"? Well I certainly put aside spreading anything except myself around that house to see if I could peek into a window like a damn perverted peeping tom!!

Well I went from window to window and saw nothing until I got to their spare bedroom and that's when I got the view of my life!!

For there she was naked as hell and on all fours and on top her was their huge male pitt bull now pumping her like a locomotive train!!

Her head was thrashing around like a mop of tangled blonde mass and length hair that was for sure in dissaray as she was crying out though I could not really hear screams or moans from outside but from her facial expressions she was lost in a complete and total world of pleasure from what he was doing to her..

Suddenly I saw him stiffen and just begin to short jab at her with his tongue hanging out in complete showing that he'd wore himself out screwing her as he laid over onto her back and was shaking all over.

And she herself was so totally knocked into orgasmic land of some kind as she just seem to melt to the floor her head turned towards me and her mouth wide open and her eyes looking as if she was in some dream land somewhere as her whole body was shuddering and shaking as they were indeed now fully together..

I didn't stay there looking much longer since I had seen and had my true questions answered about her and the male dog..

But I will add this as I knocked on her door later on when I had finished doing the entire yard she answered the door in her bathrobe and was holding a hand over her now plumped out belly and I could see little glimpses of her winching in not really pain but some more stranger thing as if something was stirring inside her look.

Of course no doubt to me what all that meant in the least since I am wise per say to the whole beast thing if that makes sense.

But no doubt at all that he sure as hell screwed her hard and mighty and gave her that so loved feeling a woman gets from sex in this manner..

~~~ Part 3 ~~~

Anyway several days after the true seeing her get plowed to no end by the male dog They had come over for a bit of a party at my house!! kinky dungeon parties::

Well as the nite wore on and the drinks flowing like water in a river everyone was happy and pretty much drunk as well.

So at that just right time I caught her off totally alone with absolutely no one else in hearing distance at all.

And then said to her; I need to tell you that I saw something at your house the other day and let's just say you were playing with the male dog!!

Talk about her mouth dropping open and nearly spilling her drink!! She just looked at me and said "you" "you" saw him and I doing it?

I told her not to worry and no one else would ever know a thing.. She just stared at me with that oh shit i've been busted as hell look on her face;

But taking the situation in hand to let her know I truly was very damn o.k. with it; Hell I was more than o.k. with it!!!!

That's when I said hell girl I just want to come over and watch him give you the pleasure I know you sure as hell as got from him!!!

Well she just looked at me and was without words of any kind wondering how she'd gotten herself in such a thing as this!!

Then once again I gave her my solemn promise that I'd not tell a soul one about this.

And just gave her a big ol' hug and said damn girl he sure gave it to you didn't he?

She just looked at me still with this I can't believe this look and finally said " I didn't let him do it!!"

I then said so you mean he raped you?? Well her reply was this long silence then she said " I was naked and he pushed me over and did it to me!!"

My thing was to tell her I knew what it was all about and my "knowledge" of it and experience of helping several women achieve their secret desire for it.

The look on her face could have said a thousand words of how in her mind she was absolutely bringing back the absolute pleasure he'd given her!!

So wanting to get her fully aware it was perfectly o.k. with me I said look I go to a forum and such and your not the first female by any means that's ever had this pleasure by no means!!

And told her to sneak over someday and I'd log on and show her all she'd ever want to know about the subject and that it's nothing to be freaked out about in the least!!!

Having her full attention now she said " I will come over and talk with you" But please oh please never tell anyone about it!!

Well my promises issued I then said "So did you get that little belly all bloated up by him?" She was looking straight at me and shivered all over like a earthquake and said after a brief pause " yes he did something that I'll never forget"

That's when I broke in and said "There's a reason for that little belly to get all filled with that hot cum!"

She was looking at me in this how can u know this fashion still shuddering all over and her face getting flusher and flusher from the recalling it going on in her mind.

To make all the rest of this short I'll say she did come by the other day and I logged on to the forum and showed her things and she was sitting in her chair squirming and had to be dripping wet from what she saw!!!

And to end this update I'll say that while she hasn't agreed to my seeing her and him I certainly have broken the ice very well and have gotten her to at least open up about it and talk to me..

I think more because she knows I know the all of it.. And realizing the things that happened are from the various things that do happen!!

But as more stuff becomes available like my possibly getting to hear this all on the phone!! She's agreed to that already!!

~~~ Part 4 - I Watch and Rambo Knotts ~~~

n my previous update/chapter I had once again been there to mow and do the yard upkeep etc.

And had busted her and one of their pitbulls getting it on once again.

Well this paticular day I was at home and had her call me and wanted me to come over immediately and see what was wrong. It seemed that she had a hotwater heater leaking so I rushed over there and sure enough that's what it was.

So I turned off the water heater and shut the inflow side down by closing a valve on it and told her that their hot water heater indeed was bad and leaking.

I then did all the things one does with such a problem and drained it and such to keep the water from flooding and ruining their hardwood floors.

Well this day the baby was at her moms and she was just taking one of those days off for herself from work.

As the old saying is nothing like a perfect opportunity and said as we were just small talking to each other "damn girl here all alone today and your not enjoying rambo's luv?"

Prior to all this she and I had talked about it all and so she knew I had busted her getting it from rambo. I had been waiting for this perfect moment to be totally alone with her and talk about this privately and openly.

Of course she shunned it off and was wanting to know what to do about her heater. Well I told her that I had it drained and had the water cleaned up on the floor and such and that once her old man got home we'd go get one at the major hardware store.

So all that being said and taken care of I was sure right back to my true thing of her and rambo getting it on.

I asked her if her computer was on and said to her that I would luv to show her a few sites I'd found that had all kinds of different bestiality stories and pics and such on them which brought her to say "will anyone be able to find out that we've even looked at this?" Which for sure meant her old man getting on it and discovering that she'd been such sites.

And I explained to her that once we'd done so I'd make damn sure no traces at all would be on the computer from it at all which eased her mind and we went into the back room and got on the computer.

I'll not disclose which sites we visited for the rules and regulations part of this forum per-say but the moment I brought the site up and took her right to the section of females with male dogs mounted on them her eyes opened like saucers, as the complete excitement of it hit her through and through as she shuddered and said "I had no idea so many women were into this".

I began to tell her that I was into it from hell and back and had in my own life helped several other females achieve their deepest desires for it which had her in total captivation of it all as I told her that I'd be damn glad to show her all the ins and outs of it which we had already talked about but in just capturing the moment of being alone to do so.

So to break the ice and set free a huge iceberg I told her that I'd be proudly glad to assist her and rambo and help her achieve the knowledge of it first handed.

She thought several moments and then said "I can't do that with anyone else around!"

It was that awkward moment of silence that compelled me to say to her that I'd not be involved in any way or fashion except to show her the proper things and ways to go about it.

Well moments later she said "damn I need a drink" which told me she sure as hell was this day going to get fucked by him with me there in the room with them!

I followed her back into the living room after closing out of the site and erasing every single bit of what we'd done on the computer so no traces of it would be found by her old man.

So I told her I'd gladly mix her any drink she wanted and decided nothing like a good margarita to get a womans labido in high gear. And together we got their blender,tequilla,ice, and my recipe for making frozen mountain dew ritta's.

She said make them strong which gave me the full indication this was going to not just be a wish anymore this was going to damn well be a reality!! whewwww doggies!!

And I sure enough put plenty of tequilla in the blender with the mountain dew and ice and gave it a churn and had it combined into a frozen drink concoction and poured her a glass of it and she gulped it down and wanted one more!

The second one we both had gone into the living room and just small talking as she sipped this one and I said "so do you luv it when rambo pleasures you?"

She sat there quiet a moment or two then staring at the floor said "yes" in a half hushed sort of way, and I said "it's alright to talk me openly and freely" "This is our thing and our thing only!" Which seemed I guess to ease her mind and now at last be able to fully talk to anyone about it.

So to not sit there and destroy the foundation of at last being fully involved in this I said "I'll show and teach you the right things to do with him and it's totally between us and us alone!"

And with that I went to the back door and outside and got rambo and brought him right inside the house with no problem at all since he gladly followed me right into the house and sat obediently off to the side as I sat down and saw her shudder as she now knew full well what he was there for and what was going to happen!

I broke the ice of the moment and said go get me a pair of your daughters socks which she said "her socks?" and I said yes a pair of infants socks are the perfect thing to use on their front paws to keep from getting your sides scratched all to hell.

The look I got from her at this moment was one of those kodak moment kinds as there was this deep look in her eyes of disbelief this was even happening as her long stare and quietness told of her complete thoughts that she could not believe this was taking place.

My knowing all to well sometimes one can think themselves out of things, so I got up and said "come on follow me and let's get the right size ones" as she got up and followed me into their babies room and to the dresser and she opened the drawer that had the all the socks,booties,etc. in it and I said "you'll want to find one certain pair that you can train him to know when you bring those out he knows what it's for" She dug around in it with her hands shaking from fear and excitement of knowing what it was for.

I then said get a pair that you will never use or a pair that you were given that isn't for your baby. So she pulled out some blue ones that were somehow given to her and of course sure not for a girl to ever wear since they were blue.

Then we returned back into the living room and sat down with the booties in her hand and she still shaking from the fear/anticipation of it all as I said "no reason to be afraid in anyway form or fashion" just relax and I'll help you.

With that said I then asked her if she had any sort of ottoman or a coffee table that was strong and she pointed at the ottoman in front of a chair in the corner of the room so I got up and grabbed it and said "follow me" as I knew from the two past times that their mating per say had happened in the back bedroom or guest room. As she got up and followed behind me with blue booties in hand and I sat the ottoman down and said "go get a couple thick towels or something that's soft and comfortable" which she left the room and came back with a baby comforter that was another miscue from the baby gifts she'd gotten and for a boy and not a girl.

So I took it from her and laid it down and moved the ottoman over it and said "you'll sure want something to cover your ottoman up" so once again she left and returned with a big beach towel which I took and spread over the ottoman and said "he will know when you bring all this in here and

set it up what it's all for" as i guess her confidence in my knowing all this and such seemed to kick in with her, since she looked at me and said "I never thought of this at all".

It was as if she were a student and I were the teacher and her quest to now learn was fully imbedded in her which for sure made it far more comfortable between us and her at last relaxing and learning the things about it.

At that moment I then took the booties and said "Why don't I go get rambo ready" "While you get undressed" and then "lay over the ottoman".

Well she nodded her head o.k. and so I left the room and went into the living room where Rambo was laying beside the sofa and sat down and grabbed his front legs and began to put the booties on him and telling him "Are you ready to fuck the hell out of her boy?" He just looked at me with those huge dark brown sullen eyes and did nothing as I got the booties on his front paws and soundly attached so that they would not come off. And got up and got him to his feet as he seemed to shake his front paws with the strange feeling of them being on his feet and adjusting to that which he didn't try and taken them off with his teeth or anything just had this new founded feeling of something like this on his front legs. And led him to the back bedroom his legs sliding and such from the slickness of the hardwood floor which he seemed to try and adjust to which actually was a bit awkward and sort of funny actually.

I wanted to bust out laughing about it but knowing that would disturb the whole of things getting accomplished so I kept it at bay and got him at last to the door of the back bedroom and lightly knocked and said "are you ready?" Well she said "yesss" in a somewhat fearful and yet a wanton way.

So opening the door and half leading and dragging poor Rambo in as he still tried to get his feet to work on this slick floor way and took him in front of the ottoman as he sat right down obediently and was looking at her laying there now totaly naked resting her upper body over the ottoman and her beautiful ass in the air as it all but took my own breath away seeing such a hot young woman as herself now fully naked before me and it was damn tough to not want to jump right in enjoy her body and pleasures myself. Damn even the thought of it now stirs me to hell and back..

But my sole responsibility and having pledged that I'd not do anything but show and teach her the true ways to get pleased by him that I kept my personal desire to get down and eat that pussy myself and to hell with the damn dog!! And her uncomfortable feeling of being not only naked in front of me but being so in this manner also gave me the instant feeling that first things first.

So I corraled my man dawg desires and leaned down beside her and said "are you totally comfortable" of which she said "yes" and I then said "o.k. now spread your legs open and put most of the weight of your body on your shoulders and arms on the ottoman" So she shifted her body about and scooted down some and her shoulders and arms on the ottoman and more of her lower body and such hanging off it.

There was no doubt she was still trembeling with fear and desire of the situation as her beautiful round little ass shook and her body as well and those nice firm titties of hers now hanging and shaking under her told of the fact of it all.

And no doubt at all that she was damn sure ready to be fucked by him as her nipples were hard as rocks and showing their desires fully and wholly. So I then said "is that better?" and she said "yes" "i'm still comfortable" As I noticed she'd lifted her head and now was staring right directly at rambo sitting there before her and her body shuddered all over with the thought and desire of what was

about to happen!.

There was no doubt that Rambo was sure anticipating his desire and knowledge of what was going to happen because his front legs began to prance about and no doubt by his sitting there as he was that the very tip of his penis was now showing from his sheath as the sexual desires between the two of them seemed to connect fully and wholly.

So I told her get ready because I was going move him behind her and get him to get her ready for pleasure beyond her wildest dreams. The instant I said this her body shuddered all over and a gasp of pleasure escaped her lips.

I reached over and took Rambo by the collar and got him back behind her now as at last a full view of that beautiful pussy of hers up close and personal was now my beholding and those swollen lips of her were pouty and sweaty looking with just a whisp of golden blonde pubic hair over them and her clit hung from them and was swollen out in full attention and desire!! Damn it about drove me to say fuck it i'm having this first!! And it was all I could do to not just dive down there and eat the hell out that thing and show her how a real man can eat pussy!!

What a damn shame to have that golden moment and not do it !! But I just got Rambo closer now between her open and shaking with desire legs and within a moment he knew what to do!! He just pushed his head right up between her legs and licked that pussy from clit to asshole!! She flung her head up and gave a loud cry of "ohhmmm" as he repeatedly gave her a licking this way..

So I sat down beside her and leaned to her and said is it "good?" As her head was now moving about wildly and her body shaking with full desire as he was licking her from asshole to appetite and she said "oh please don't talk toooo meeeee" Which sort of made me feel like damn I have shown you this and I can't get to hear you tell me how good it is!! Oh well.. I just reserved myself to sit there and watch how her head tossed about and her body shuddered as he was licking the outside of that pussy from one end to the other.

But I knew from experience that sometimes a woman has to give a helping hand in getting one of them to actually lick their pussy from inside out and said "now reach back with your hands and open your butt cheeks and he'll be able to lick you far better!!

She was trying to hold herself still and balanced on the ottoman as her body was being rocked with the pleasure of a lifetime and slowly and shakily and clumsedly she moved her arms down her side and grasp her beautiful firm round butt cheeks and spread them open and imediatey shot her up and cried out as he began then to push his huge tongue up into those tight beautiful pussy lips of hers and tongue her pussy out good and propper!!

All she could say was "ooohhhh ittt's so sooo bigggg" "Ohhhh itttts goinnnggg deeper" and at that moment her little body rocked about wildly and her face turned a beet red and she had one hell of a orgasm as I looked back and saw that Rambo was driving that huge ass rough tongue of his as far up into that pussy as he could!! Raking back all the juices she was giving him as a treasure for his pleasuring her so!!

I could absolutely see his thick tongue curling up and driving into her pussy making it stretch open to take his tongue assault and come right back out full of her juices of pleasure.. As he sped up his tonguing her to hell and back and she squeeled out and her body was shaking all over and her orgasm getting so strong her hands let go of her ass cheeks and her whole body stiffened and shuddered!! Damn what a site!!!

Even her small but nice proportioned titties were jiggling and shaking under her and her little belly

was spasming wildly and her chest breathing heavily as he was now in full throttle eating that sweet young pussy out for all it was worth.

As she was lost to the world now just squeeling out gruntal moans of pleasure and shaking and shuddering all over and her head suddenly fell to the ottoman in complete satisfaction from his tonguing that pussy out as never before.. While slowly he began to slow his tongue assault in it down and finally stopped leaving her a heap of mass confusion and complete satisfaction!!! And backed his huge head up from her pussy and the full evidence of her all but squirting for him was all over his snout and dripping from his mouth as he licked at it all getting every last drop of it off his snout!!

Which left her laying there now her arms fallen to the side and completely limp as she all but fell forward onto the ottoman and her legs buckling behind her as he had undoubtedly just given that girl the orgasm of her whole young life!! And she just lay there breathing heavily and deeply with complete groans and moans of satisfaction coming from her as she was in another world... the complete world of total pleasure!!!

Rambo just sat there licking off the remains of her huge and powerful orgasm looking at me as if to say damn that's some good ass pussy!!! It just seemed to show by how he looked at me and back at her and at that now wet as hell pussy of hers still itself swollen outwardly from what he had just done inside it and quivering and cluthing like hell at the very opening to her tight vagina, her clit now swollen out from hell and back and dripping with juices of such a powerful orgasm as she had just had..

Of all my other times of helping females with their pent up and hidden desires for this never had any of them been anything like this!!! And I say that from the point of it just being that she'd only been licked out by him as yet!!

So as she lay there in another world of pleasure from hell I and rambo enjoyed the full site of seeing that pussy still quivering for however long it was as if time stood still as she totally out of it and the length of it undscribable to anyone. But slowly she began to get her senses back and her shaky and befallen legs were once again arising back up and putting that nice ass of hers back up in the air and that pussy back up for even more pleasure!!

All she could do at that moment was finally raise her head and turn it towards me and the look of total and complete gloss eyed pleasure showed in her beautiful deep blue green eyes as her breathing became more normal and less burdened with the heavy deep desire she'd breathed earlier... As she could barely even speak and just muttered words of "she'd never cum like that before" came from her..

I just looked at her and said "are you ready for him to mount and give you even more pleasure?" She just shuddered all over and slumped back down her ass lowering again and sitting on her legs and thighs as she was still trying to get any sort of strength back into her body and she said "I'mmm t tooo g gggive out"!!

So we all just sat there I beside her she sitting on her legs her shoulders hanging from the mere edge of the ottoman her arms still dangling limply from her sides on the spread out baby comforter and she finally was able to push herself up and sat on her legs and was still half foggy minded from such a huge pleasurable orgasm as she'd had and at last she just leaned over to me and hugged me and said "oh thaaannnk yooouu" as I felt her body shaking from being well pleased and wore out..

She was just hugging me and saying shakily "oh he's never done that like that before" As I said see "I told you I'd show and teach you the right way"

The thoughts then hit me like a brick about it all since after all this young beautiful woman was my best friends daughter and like a daughter to me as well and here I was in this situation with her and teaching her how to get pleased by her pet!!!

I guess you could say emotions of it all filled the room like a glass being filled to overflowing by a faucet as she held to me tightly laying her head on my shoulder and my being the father figure of her coming to and knowing no matter what it was i'd be there for her sort of way if that makes sense..

And I almost hated myself for doing this to her in this sort of way since she truly was this daughter figure to me.. damn what perversion...

We seemed to hug like this until she gained way more strength and control of her body and she moved her head off my shoulder and then and there gave me a kiss of mind blowing proportions and broke away and said " I can't believe I just did all that with you"!

My man dawg mind kicked right back into full gear and I said "was it good"?

And she just looked me right into the eyes and said " thhhat wasss the beesst i hh have ev ever came in my life". My instant thought was damn little hubby ain't taking care of this at all!!! Damn what a pitty!!

This seemed to go on for ever in this way and position as there beside us sat Rambo in total obedience still once in a while licking the remains of what she gave him to drink and enjoy and just turning his head about looking at us hugging and such as if saying damn I did all the work and you get the hug human!!!

So I looked at her and said "damn he needs a big ol' hug and thank you for doing so well for you girl"!! So she just leaned over and gave him a big hug and pet him and I could see her beautiful young body shuddering and shaking as it seemed her mind was recalling in full detail what he had just done to that pussy!!

Rambo just took it all in and gave her face a licking in his way of saying "that was damn good bitch and i'd luv to share it with u" .. That just seemed to hit me in the way he responded and looked at her as she hugged and pet him.. so now that all the luv was spread around it was time to get this show back on the road!!

I just looked at the two of them and said "you two make a great couple".

She just turned to me and laughed as she was still hugging him and petting him.

And I siezed the moment by saying "So are U ready for the rest of it?"

She just shook all over and looked at me then Rambo and finally said "damn I don't know if I'm capable of more" "he's already wore me out"!

I just half heartedly laughed and said " no he didn't wear U out" but "he damn sure did eat U out" As she shuddered all over and I could see her legs and ass squirming about at my saying that and she said "he's never gotten his t ttongue in meeee th that far" Of course my reply then was "so did I teach you right or not for that?" While she just rolled her eyes in mere total pleasurable thought of it all and said "I'm so glad you are tt teaching me" "I was so afraid of it all when we started!"

Poor Rambo just sat there being hugged and petted and just looking at she and I as if to say what to hell here!! I just said "So did U like that huge rough tongue of his all inside you?" She just glanced at

me then at Rambo and said "Oh that was the first i've ever been eaten like that!" So I questioned her about the fact if her old man ate her pussy, which she said he doesn't do that for me at all!! what a loser!!!

Well no doubt now that we all were just enjoying the moment of her pleasure together and it finally being openly discussed and talked about. Since at the start she was so reluctant to even describe or say a thing except to have it happen.

I finally said "So do U want to continue your lesson?"

She just looked at me a moment and then finally said "I'm just to wore out from what he's done already to go on".

I just just sat there with her hugging and petting her new founded secret luvr Rambo and sitting on her knees and legs totaly naked before both him and I alike and asked her if she'd ever really known about the true facts of what their dicks are designed to do? She just sat there still hugging him and looking at me and said " Wh whhat do you mean by that?"

So I began describing in detail about what their dick will do inside a woman as she began to breathe heavier and heavier in coming back into full desire once again and would gasp out as I would say this and that and say "oh that's h how it feeels" When I finally got to the part of their knotting and tying with a woman she really gave a desirous moan out and said " Thhhat's whh what hh he dddid to meee!" and you were knocking on my door and he couldn't get out!!

I apologized for even intruding at such a pleasurable moment for her and him alike as she was telling me how he had gotten so damn stuck inside her and she felt him swelling all up in her and that she'd never in her life had something so damn hot and throbbing like that before. And I admitted to her as well that when she came to the door and I saw her belly I knew all to damn well what he had just done inside for damn sure!

She just looked at me in stunned eyed disbelief and said "yy you kkknew wwhat hhe had ddone to meee?" I said "why hell yeah girl!" "This ain't my first rodeo with all this!" And your certainly not the first woman i've ever helped get pleased like this either!

All she could do was sit there hugging and still petting Rambo who was still like what to fuck here humans when do I get to mate with this hot little bitch again!! That just seemed to be how he was looking and acting to me at that point.. While she was saying " you mean you have helped other women dddo this beffore?"

I wanted so damn badly to say why hell yeah and in fact as innocent and unsexual as your own "Mom" seems to you she's damn sure discussed an interest to be bred like this with me!!

But not wanting to disclose one ounce of that and open that can of worms I just said "Why hell yes I've helped numerous women do this"

I guess she'd thought she was the first ever that I'd even had anything like this to do with this very unspoken and so hidden a desire and pleasure to have had other women explore it with me..

I did however tell her that hell yeah even my dog "yellar" had got him some of that woman pussy several times which made her jaw drop open and she said "you meeann yellar hhhas sscrewed women?" She knew yellar all to well and luvd to come over and play with him as a younger girl at the time not even knowing that even then he had dishing out pleasure to different women in my life..

Well I told her that yes he'd given pleasure to several women and she was like whhoo were they? And I told her that was personal just as her thing was and left it at that..

But what she didn't know nor will ever know is that her own oldest sister some years older than she is sure as hell got her some of yellar one nite!! And luvd it!!!

The whole thing was truly starting to get awkward for me as she and I were sitting here with her young naked ass and her dog luvr right there and discussing this matter in depth with a young woman barely over 19 and an almost daughter of sorts to me!!

And it did seem to occupy the time and let her be more relaxed as we discussed this and be more open about it all as opposed to how it all started.

At last I again said "So are you ready for rambo to breed with U?"

She just again shuddered all over and i guess more so by the way I now said it to her that she looked at him and then me several times and finally said "I thhink i'mm rready nnow"

So I just told her get back on the ottoman as you were before and get relaxed and your being bred will happen..

I guess my words of saying bred to her seemed to make it all different as she got up on her knees and leaned back onto the ottoman with her shoulders on the edge and resting her head in her arms now that were folded under it. As she spread her legs and adjusted her beautiful rounded ass above her slightly in perfect position now to get fucked by their huge pet pitbull..

As she lay there in position and was looking first at me right beside her and then back at Rambo who still sat obediently behind her and watching everything going on..

I just left it as it was wanting to see what would occur naturally without my being involved in initiating it and at last leaned over to Rambo and grabbed him by the collar and led him up between her spread open legs as his eyes seemed to once again start devouring that sweet young tasty pussy he'd just earlier tongued to hell and back.. As she was letting out these little anticipated moans and trying her best to see what was going on behind her upraised and ready for a good fucking ass.

Her ass was shaking with anticipation of it as I had Rambo first between her legs and then grabbed his collar and pulled up to get him to mount this hot little bitch and fuck the ever living shit out that tight little pussy of hers.. As she began to squirm and move her ass more and was breathing heavier and heavier with what she knew was about to happen..

I stood up then and got a better grab of his collar and hoisted him right up onto her back and he then knew all to well what to do then..

Because the instant he mounted her he flung his socked front legs around her tiny waist just above her hips as she was now shaking all over and her head was now churning about knowing she was about to get fucked by him!! As Rambo was getting into position to do just that as he scrambled his hind legs up and their joining at her legs and his midsection occured as she was gasping and now breathing heavily of anticipation to be bred like a bitch in heat was about to happen and with a man right there for it all!! A full father figure that had watched her grow into the beautiful young woman she was and now was helping her get fucked and bred by her own pet!!

Rambo was just starting the thrusting of his huge and muscle filled hips now lodged fully between the legs of this beautiful young woman and trying to seek out entry into her tight pussy that just had

been readied for this by his tonguing it to hell and back..

As each thrust moved her small body about as her head was now moving more wildly and lustly about and her mouth opening and her gasp of pleasure and air were starting as it was about to happen in my full view and absolute being there for it at last.. As he began to thrust wildly and seemed to be moving his hips randomly about as if trying to find her pussy she was so willing to let him have.

Then closer in his hind legs danced as the gap between them closed to seeing nothing but their full body joining as her ass cheeks seem to push upwards as his body made her move into position to get fucked by his red hot cock as finally she flung her head up and gasp out "Ohhh heee's trying tto get ittttt innn meeee" as he thrust more wildly about moving his sheathed cock between them and trying to find her tight pussy opening as she was crying the words over and over.

And suddenly her whole body shook and her back arched like she was thrust upwards against the ottoman she was resting her shoulders and arms and head on and she gave a wicked and wild crying out of "oh itttt's ggggoing in meeee" "ittt's ssso hhhhot" as her head was flinging wildly about now and her ass was shaking wildly about and twisting now to meet his first full thrust into her.

As Rambos own head was moving back and forth over her moving back and his hips were giving a full thrust of all he to sink his red hot cock as far into this wanton mating little bitch as he could get it as she absolutely was now crying out "Ohhhh itttt's innnnnnn meeeeee" While Rambo seemed to just let her keep what he had in her now and backed his powerful hips up and then gave another beastial lunge that for sure was making sure she was going to get all the hot cock she could handle as she was thrashing her head wildly about and gripping the ottoman with her small hands as tightly as she could..

By the way she was reacting and showing both with her cries of it all and her body wildly shaking and such and her hands gripping ever harder to the thick towel on it and her head flinging up and giving out a loud cry each time he backed up and gave and buried more of his hot cock into her it was obvious that her little pussy was getting rent assunder by his red hot dog cock.

As suddenly she flung her head up like a wild warrior in full battle and cried out as her back arched up and her ass was now fully moving upwards and downwards and she let out a wild cry of "itttt's aaalllll theeee wayyy innn meeeeee" and then after one other lunge backwards from Rambo she was about to try and scream even more wildly but her mouth opened in complete wanting to scream to the top of the earth way only to have a loud sound of as if the wind was knocked out of her as Rambo drove forward again getting his hind legs now ever closer to her legs and at last the full fact of his being as far as she could take him was obvious.

While he now sat out to start to fully fuck her hard, mighty and fast and building up such steam of it that her body was being tossed forwards and backwards with his powerful thrusting action and yet his front paws were clasping and clamping to her small waist ever harder holding her ass steady to take his now driving his cock like he was possessed and bred and his beastial way of doing it was taking over..

As she was thrusting her head about now trying to scream out yet by the way he was fucking her so hard and fast she could not get anything out but shaky gasp and open mouthed cries as here I sat beholding seeing at last in right before me way of their luvmaking together..

I sat back and the mere moments of their first woman and dog joining did nothing but be awestricken at how he was performing his duty to fuck and mate her and her womanly cries of it at

first and now the full affect that no doubt he was inside her to no end and back that I finally leaned up to where her opened mouthed head was thrusting about wildly as he was starting to fuck her hard and mighty hearing each breath of it as he stroked. And said "Is he all the way in yet?" Only to have her try to fling to her up to answer and her only answer was a wild nod of yes as her every being was trying to say something yet only the gasping of their thrusting could be heard from her..

As her small body under him was being rocked like waves against a tiny ship in an ocean as Rambo was now in his absolute full stride and fucking her like a demon in some posessed way as his head was moving across her back and I could nothing but the pure wanton pleasure right there in his eyes as each turn to me showed that he had but one thing in mind now and that was to fuck the hell out of her which he was damn sure doing..

She was trying her best to keep herself in some still manner for it but Rambo had her bouncing back and forth like an accordion and I looked up at her as her beautiful head was thrashing about in some trance manner and saw her eyes start to flutter and then all but roll into the back of her as a loud gasping "Oooohhhhh" came from her open mouth and her head fell onto her clutching hands and arms and her body was shuddering all over and shaking wildly under him still being bounced like a ball by his huge powerful thrust as I could absolutely now hear his cock fucking that pussy like never before as little moans began to come from her of "NNNNghhhh" "nnngh" as if in some tribal way of talking but yet it was the full of her being fucked to no end that was the cause of it all..

Even her little titties hanging down under her were being bounced like little tether balls and that's when an Idea hit me to do something i'd never done before. I scooted onto the floor and lay on my back beside the mating of a lifetime going on and scooted my head under where she was being fucked to no end at and looked up to see it firsthand at their joining and his huge knot was just now starting to loudly pop against her gushing like hell pussy lips slapping them like a child being spanked!!

As I could see her tight little belly quivering and moving like in some posessed way as if her muscles were accordianing up and down and out and back as he was now starting to drive even harder against her bouncing body and then suddenly as if she were opening her cunt to him like a flower awaiting for a bee to fly in and gather all it's nectar and his knot shot into her pussy and her whole body shuddered and squirmed and twisted about as she gave an instant gasp of air out!!

Then Rambo was thrusting harder and harder still but his cock was locked inside her pussy and only the back portion of it beyond where his knot was embedded in her and it was at first bending and twisting then it to went in her gushing pussy as he couldn't move his cock at all now but just began to give short but strong and feverent thrust as her whole body instantly shook all over and a cry of "ahhhhhhhh" was all I could hear as her little belly was now starting to churn and move even wilder and starting to fill outwards as just beyond her mound of beautiful blonde pubic hair a huge swell occured and she seemed to just slump over in total beyond this world care and pleasure.

All the while Rambo was still fucking her fast and hard as hell but his cock was lodged in that pussy as far as she could take it and he as far as he had cock to get it as his huge hair covered nut sack began to jerk up and down and I could see her little belly quiver in unison to it and her little loud gasp as it happened each time.. And knew he was shooting his red hot cum in her little belly like hell and back..

And it was damn obvious he was doing just that because her belly was now ballooning outwards and still doing this sort of accordianing movement and she was now loudly gasping as I could see his ball sack jerk upwards and that instant her belly would quiver and fill out more..

This seemed to go on for minutes on end of which I knew that they came from hell and back inside a woman and had far more cum and red hot cum to give a woman than a man ever could.. But damn to be under it and looking right up and seeing it all happening was the wildest and best thing i'd ever seen!!

Their coupling lasted a good 20 or 30 minutes of this with her just gasping each time he would shoot that red hot dog cum in that pussy further and in deeper places than any man ever could!!!

Finally Rambo got off her back and turned ass to ass with her and tried to move forwards only to know he was stuck from hell and back inside this tight young woman pussy still coming from time for him and him for her. As if each were rewarding the other for the pleasure they were receiving from each other...

I finally got out from under her as she all but fell forwards still held up by Rambos swollen hot cock in her from end to end and I leaned up where her beautiful head now lay in total submission and totally out of it from the fucking he'd given her and whispered in her ear "Is he in your womb" having heard and known from time to time this does happen with just the right this and that happening for it to be so..

And her head only half heartedly gave me a nod of yes as the full of all was for sure as she gave out a lustfull moaning half gasp and I then said "is his cum hot" and she just shuddered her entire body as I said this telling me hell yeah it was hot and that little womb was about to damn well bust from it all to...

Finally Rambo had finished his seeding her little belly to hell and back and at last pulled free of her and she just fell onto the ottoman her legs folding under her and her head and shoulders still limply on the ottoman as her pussy was gushing wave after wave after wave of their combined juices out of it her little belly still swollen out but going down slightly as each gush of cum from her pussy helped it slightly.

Until it all stopped and yet she still was a bit swollen out as every once in a while her belly would quiver from hell and she'd just moan out..

I know she lay this way at least a full hour!!!

Until at last she began to come to and her body was like a limp dishrag and she could barely move at all so I gathered her up in my arms and took her into their bathroom wishing now they had friggin' hot water which had started all this in the first fucking place!!

But I heated some water up in a stock pan they had and got it in the tub and placed her in it and gave her now gaped from hell pussy that was red and swollen like everything from the fucking Rambo had given her as each swipe of my fingers and the wash rag through her cunt lips brought out a loud gasping sound from her.

And finally she was back with us and she reached up with all the strength she could gather up and hugged me and said "Ohhhhhh he fucccked mee like never befffore" As I said yeah I know I got my first ever first handed view of him knotting you and damn your belly took his cum like crazy!!

Well after getting a douche out of her bathroom cabinet for her and helping her douche that swollen pussy out and still seeing that it was damn sure in no shape for any more action and still gaped open from hell and leaking his hot dog cum out of it still. I told her she'd leak for at least the rest of the day and she probably would be best served to not let her old man touch her for a couple days.. And she said he doesn't pleasure me...

So I put Rambo back outside and moved the ottoman back where it came from and cleaned up the mess they made and put the comforter in a closet and hid the beach towel with it and her still soaking in the tub and said tell your old man to call me when he gets home and we'll go get the new water heater and I'll install it so you can clean yourself up and take a much needed bubble bath...

So at last I was involved in it and no doubt involved from hell and back!!!

But she and I plan more of this now and you can bet that when it happens a story will be on the way!!!!!!

~~~ Part 5 - The Saga continues ~~~

The winter months sat in so wasn't there all that much to accomplish another per say breeding.

But time certainly has a way of repeating itself and very much true to that saying in this matter!

As it all turned out her husband and baby had themselves gone to visit his mom and dad so leaving her absolutely alone for days was the time and place once again for her to get ever more pleasure from her pet!

All I could get was an occasional and brief and alone time to have her just smile knowing good and well that meant she'd gotten "bred" once again.

With family and friends constantly around the whole of the winter it was very hard to even mention or speak a word about the "secret adventure"!

But now with hubby and baby both gone the perfect storm was on the horizon.

Anyway she calls late one evening knowing that everyone was out of pocket per say since her Mom had moved in and helped care for the baby while she and her husband worked.

But Mom was back home now and with hubby and baby both gone for days it was time for her to be "Bred" again.

Even when it was known that all this was taking place she got that fleeting moment alone enough to give me a "wink" and said I can't wait for it again!

There was absolutely no doubt what "again" meant. She wanted their male pit to screw her brains out!

And this time I was absolutely determined to see if I could get a bit of "breeding" in myself.

There was no "doubt" that she was a true "one man" woman but having seen her beautiful body fully naked about any man would out the window with a care about the situation or anything like that.

If 10 is a way to describe her she's an 11!

O.k. sorry i'll leave the "blah" "blah" blahs" out and the so on and so forths and get to my story!

Anyway she calls this late afternoon it nearing dark and says "Will you come over I have a problem I need you to help me with"!

Well certainly "no problem" in "knowing" what the "problem" was!

So we exchange “back” and “forths” conversation wise and she ask me to go by and please get her “favorite” liquor on my way over.

I hightail it out barely caring to even take a moment to lock my doors or grab anything except my keys, wallet, and cell phone(this would prove a problem later in the story)“Damn cell phones”!

I was like a young man out to have his “first” date, as I beelined into the liquor store getting her favourite liquor and mix to go along with it.

The whole of it running through my “mind” wildly and erracticly as I grab up all that I knew would “loosen” things up once I got there.

And all the while “hoping” things would “loosen” up enough that I’d get a crack at getting some of that fine “pussy” myself!

So as I’m speeding across town to get there in a mad rush she calls me on my cell and says we need somewhere to “leave” your car so no one “sees” it parked here at nite!

Well damn smart idea right there for sure. And now that it is “dark” we decide on leaving my vehicle at the nearby convience store since many used it to leave their vehicles and ride together for work.

Something that is no problem in a small community except that those who know my vehicle will be like what to hell is he up to!

Well if they had only “known”!

So I pull to the side where everyone parks to leave their vehicle and commute together for work at a nearby big city.

She arrives moments later and unlocks the doors to her vehicle and says get in the backseat and hide so no one can see you in the car.

I have an arm load of liquor and a damn “hard on” that was about hurting like hell at this point and jump in the back seat and lay down putting the “courage water” in the floor board as she beelines for home.

So she stops the car a block from their home and says: “get out” and come through the alley and use the backdoor so no one sees you come to the house from the front. Well that made sense.

I get out with liquor in tow under arms and off she speeds and heads home.

Well as luck would have it here I am after dark walking down a street with “liquor” in arms and guess who drives right by?

None other than the local police on patrol and he pulls over to me and ask first of all where are you heading and secondly ask have you been drinking?

So here’s more wasted time and telling him I was just headed to a friends house and just walking instead of driving since I was staying the nite there and so he is satisfied with that and goes off on his regular runs of the nite.. whewww got out of that one!

Well all that I had so “anticipated” was surely by now vanished into thin air by that scare!

I head down the alley and through the back gate and knock on the back door and she instantly opens

the door and says "hurry up" before someone sees you and then secondly says "that" scared the shit out of me when I saw that the cop had stopped you!

I said "well it certainly scared the shit out of me"!

There was no waste of time as she took the liquor and made her own "batch" of margaritas and swiftly made her drink and all but "gulped" that one down.

It was at that "moment" that I'd realized "Rambo" was not in the backyard when I'd come thru there.

Then secondly was the fact that now here she was standing before me in hottest little negligee with her robe on over that but open and allowing me to see her beautiful body.

But before my mind could take in the beauty of the sight of her like this she makes another drink and tears into it like it's the last one available.

All that happened in their kitchen was simply her swallowing drink after drink and my looking at this beautiful young woman clad in a purple negligee exposing her perfect body before me. And seeing how beautiful her small tight belly came into contrast with her perfect womanly hips and seeing that indeed her large marble like nipples were all but trying to break themselves out of her nightie.

Her now dutch boy style blonde hair shining like a beacon on her head and her deep greenish blue eyes showing of that deep inner look of absolute lust in them.

A pure "lust" I didn't know if it were for "me" or for her pet "lvr"!

There was no doubt that she'd sure became more relaxed and less shy about her being this way over the "last" time her trying to "conceal" and cover up her beautiful body.

And to was the feeling she was very comfortable now around me in whatever it was she wore knowing I'd not touched her in anyway shape or form except what it took to "help" her and pet "lvr" at last have their pleasure.

She was already on her third drink before even thinking or asking me anything and then asked if I wanted a beer?

Well I certainly was feeling far more "awkward" than she was and I needed about as much "courage water" as she seemed to need to get the "ice broke" and on our way into this matter.

So with half a blender pitcher left of her drink she takes it and I grab a couple more beers from their fridge following her through the dinning room and into the living room admiring the whole damn time how beautiful her "rounded" little butt jiggled as we stroll to the gathering place per say.

She sits down on the sofa her robe opening vastly more giving me more of that hot body of hers to behold and wish I could absolutely give that what I knew her young hubby couldn't!

We then exchange subtle small talk as ever increasingly the "drinks" take their hold and free our minds per say from being withdrawn in our thoughts to now being much more "open" minded as she then says " I have something I want to discuss with you and please never tell anyone"!

Well no doubt enough had already happened which had been the absolute "secret" of secrets already as she sits there of wanting to say something "yet" not knowing how to "say" it.

Then she looks me right into the “eyes” and says I “luv” my husband and it’s been great and he “luvs” me “But” for some strange “reason” our “sex life” has become more “routine” than actually being a very “fulfilling” pleasure of any kind and I’m glad when he’s done and turns over and goes to sleep.

I using my “philosophy” about life said “ Well it’s like a new saddle once the New is wore off it there is but the comfort it left”!

She seemed actually to be “somewhat” distraught over this and then said: “Yes but, but, I think it’s “me” and not him”?

Here is this “beautiful” young woman sitting before me and saying that “some” jerk can’t take the time to “ensure” that her thoughts of herself should be “heavenly” not belittled and certainly not in the sense of “feeling” as if she’s “inadequate”!

And before I could think what to say I “blurt” out: “Well there is no damn doubt that I’ve got the damndest hardon in my life for you right now”!

She just gave me this strangest “look” as if that were “tmi” and yet “another” even stranger look came over her as if this was “her” way of seeing if it was her or just her young dumb minded husbands ignorance.

The whole of the “conversation” then was about how “he” came home and cared “little” about her and even at times their own “baby” and just wanted to sit and “play” his damn “video” games!

If there is one thing a “Man” learns in aging it’s that you must “take” those moments to make sure the “woman” in your life is “satisfied” and knowing she drives you “insane” with “desires” of wanting to luv her and “pleasure” her!

I got up from the chair went right over to that sofa sat down right beside her and just grabbed her right up in my “manly” arms and that “gal” melted right there and then in them!

And it was as if “time” itself had “turned” back when in her younger years she’d come to me and “gotten” those same hugs when life was tearing her child life apart.

But “now” it was all “different” she was no longer the “child” who had seeked out and found the more “fatherly” figure of luv I had been to her all these years.

Actually I found “myself” thinking “why am I acting this way towards a still near child woman although her age no doubt was that of a “young woman” at now 21 years old”

I was her “godfather” I was her entire “father” figure!

Her Dad was nothing more than a “looser” and in and out of prison after prison for heavy drug use all these “years” so I was the “father” figure she’d so often come to for a “hug” and “cuddles” as only a “Dad” can provide!

She was not in any way shape or form “my child” but in regards to my being the “man” that was around for her “yes” I was that!

Maybe it were the “moment” in which “she” now wanted to be “held” but not as the young child seeking “solice” or comfort but as an all out “woman” now seeking the “pleasure” of it as she just then and there “absolutely” leaned right up and “began” to “kiss me”!

And this was not that “little” peck on the damn cheek kind either!

This was a “woman” wanting the instilled “pleasures” that a good kiss can provide!

While parts of my mind “struggled” with oh hell “I can’t do this” My manly side said give this young woman the “pleasure” she deserves!

It damn sure got “heated” and “steamy” as hell as I “marveled” at the way she “shuddered” and intensely “moaned” as we “kissed” like two animals trying their best to “devour” each others tongues with the “pure” intent of giving the other “pleasure” beyond their wildest dreams.

That finally came to an end as she then sat there in my arms now totally in the “throes” of complete pleasure from it and said: “I-I- I’ve nev-v-ver be-eeen Kissed l-l-like that”!

I felt like a young school boy who had just conquered his first ever piece of ass!!

And I guess in ways it damn sure was that.

I just absolutely grabbed her right back up into my arms and began “kissing” her young womanly neck all over as she “shuddered” and “whimpered” in moaning pleasure I knew she’d never “gotten” from her young husband.

One thing led to another and before it was said and done that little “nightie” was off her beautiful womanly body and I at last was getting “down” to sucking the hell out of those “firm” small breast with those “huge” nipples being my mouths target as she “absolutely” orgasmed then and there!

After getting that done and taking a “breather” she said: “Heee nev_never dddoes that tooo mee”!

I absolutely told her: “Don’t even count him as a man”! He’s no more than a damn ignorant sperm donater.

To be perfectly honest the complete “heat” of the moment was far beyond the what the moment of time could endure since “before” I knew it I had her beautiful long legs “opened” and I was face to mound with that beautiful fully “swollen” and sweaty set of cunt lips as she “gasped” loudly the very moment my lips “planted” right over her lightly “furred” ones and I gave that now “hard” and swollen clit the ride of it’s life!

The whole time she was flinging her head about “crying” out “OOOhhhhhh IIIIt’ssss sssooooo ggggggood”

As her legs were thrashing about and her beautiful round little ass “shooting” up off the sofa as she “twisted” and “writhed” wildly about as a “man” gave that pussy what it needed!

In no time at all she was “cuming” like a broken “dam” as I marveled at the fresh taste of her juices and swallowed every single bit I could down.

Driving my tongue up into her “feeling” her walls “clutching” and she trying ever “greater” to drive her pussy into my “face” harder and harder!

Then she all but went “limp” as no doubt the poor young woman had never had such a powerful “orgasm” from a man as yet!

She just lay there “collasped” onto the sofa as I cleaned the “last” remnants of her juices from within her and gave that “clit” one more going over!

I then just stood up and sat down as I could “hear” her heavy breathing and “trying” to regain her senses from such a powerful orgasm as she had.

But this was by no means “done” not even in the slightest!

I just then and there grabbed her up and “said” as I carried her off into the bedroom your going to get your “brains” fucked out tonite!

~~~ Part 5 ~~~

I now had this raving young beauty in my arms and opened the bedroom door to be greeted by none other than “Rambo” who had been in there the whole time.

She had I guess gotten him in the house and had put him in the bedroom and now here I was carrying her off to the bed for a “sound” and very throughout fucking!

After had just gotten to taste her most “delicious” pussy and having had at last gotten to lay my mouth and lips on those to good to describe tits I now had her “ready” to be fucked and fucked good!

I carried her right over to their matrimony bed and lay her out on it totally naked and still in her state of confusion and not having yet gotten her head back into the world of reality.

she just lay there “limp” as a dishrag as I was contemplating at last giving her a mans dick she’d scream for!

But my senses got the best of me and so I left her right there and got “Rambo” and rummaged through her dresser drawers finally finding what I wanted “socks”!

And even better was the fact I’d found some “booties” that had never been used that were blue and had indeed turned out wrong since they had a daughter.

So I took them from the package and stretched them right over “Rambos” front paws and a perfect fit at that!

All the while she was finally starting to come back into the world from her “orgasm” earlier as now I brought “Rambo” right over to the bed where she lay sprawled out and now leaning her head up and seeing “both” he and I there before her naked body.

This served to cause her to “shudder” all over as she was so trying to get her senses back together and only managed to “turn” halfway over on the bed a full indication she knew what was “next” but her strength gone that’s all she could do.

But I had entirely different “plans” this time!

And realising this wouldn’t work as it was looked about to find the perfect item for what I “really” wanted to see!

I even left the room wandering about the house looking for that perfect item to make this even more “pleasurable” for her and at last found what would certainly do the trick in their baby room.

So I grab it up and carry it back into the bedroom where she lay half turned over and “Rambo” sitting right there obediently before her.

My guesses where this was some sort of a play pen but it seemed a bit different than the ones I

remember having to grudgingly be with my own wife to buy when our children were that young and such.

It was made of wood and very sturdy at that and the sides folded down leaving it more like a bed than a playpen.

So I got all that done and out of the way and lay a comforter over the bed part and grabbed a pillow knowing that was going to be needed.

She was now gathering more of her wits per say about her and managed to turn all the way over and half slid off the side of the bed her feet now touching the floor as if she were going to get into "position" for "Rambo"

And he certainly was now up and "prancing" about as she was trying her best to get ever more of her body off the bed but to give out to do it very fast.

Then right at that moment I spotted something else and had a whole new "idea" for this "breeding"!

As I grabbed up one of those lounge pillows that people use to sit up in bed and read etc. with and has a back support and two arms on it.

I then moved the play pen thing up against the back of the bed just as I heard her suddenly give out a "loud" moan to then catch a "glimpse" of "Rambo" having shoved his snout between her legs and now setting out to himself give her yet "another" licking!

She was trying to squirm and move on the bed but to give out still to do anything but "moan" loudly as I could "hear" Rambo's giving her a good licking.

At that moment I wanted to "stop" him. Because my plan was for it to happen but not in the way it was happening!

So I hurriedly adjusted everything again then went over beside the bed as Rambo was driving his huge tongue as far up into her as he could, trying his "best" to get all those "sweet" tasty juices of hers out!

I leaned over the bed grabbed her now writhing and shuddering body and lifted her back up leaving "Rambo" there licking her juices from his choppers per say.

As he was getting a bit "rowdy" now in fact giving me a "growl" or two because I had taken his pussy away from him!

He absolutely was "growling" and following my every move with her in my arms as I carried her down to the end of the bed and this time "lay" her on her "back" and left her upper body and shoulders on the "lounge" pillow and before I could reach and spread her legs "Rambo" was already pushing his way through them to get right back at that pussy!

She just half heartedly opened her legs and that let "Rambo" get up into them enough to start "licking" again.

I just reached down and grabbed her leg only to hear "Rambo" pause a moment and look up at me and shine his teeth and growl as I saw his snout was "covered" in her juices.

Evidently he realised I was trying to help him as I moved her right leg open more and went right

back to getting his tongue at that pussy.

I reached over her now trembling and shuddering body and grabbed her other leg and moved it out now opening her legs fully out and "Rambo" was now really going at that pussy!

There was no doubt it was a full "affect" on her as well as I could see her starting to writhe and squirm ever more her head steadily now thrashing ever more and more as her once "jumbled" moans now were ever more becoming fully understandable!

She was trying her best now to move her spread open legs "up" but her energy so vastly drained from my giving that pussy my own tongue lashing she'd only get them moving up and they'd fall back down.

I leaned over to her head now swinging back and forth her once beautiful head of blonde hair now in a heap of tangled mess her eyes opening and yet as if they were off in some lust filled dreamland glassy eyed looking and aiming towards the back of her head!

Her moans were getting stronger and stronger now as her mouth lay wide open and gasping breaths of lust filled pleasure came from deep within her.

So I saw her trying her best to get her beautiful trim and fit legs up but to no avail and then whispered into her ear not a low whisper but none the less in her ear so no doubt I was speaking directly to her and said: "Do You want your legs pulled up for him"?

All she could do was give a nod of "Yes" as her mind was so far gone to answer any other way!

So I reached back down and grabbed her right leg still trying it's best to move up and pulled it up planting her foot now onto the make shift breeding pens mattress as I got yet another "growl" from Rambo and leaned over her now squirming and twisting body and grabbed her other leg bringing it and that foot up onto the mattress now fully exposing her being licked to hell and back pussy widely opened for his tongue assault!

Her being on her back in this manner exposed what I wanted to see as I could clearly see her cunt stretch open and her lips part tightly out around his huge tongue curling up and shooting into ever deeper depths of her making her now go even wilder as he was certainly getting way up into that pussy with that long thick tongue of his.

Each lash up into her netted a tongue full of her juices as it retreated and his trying his best to get all the drink he could from fountain.

I could even see her tiny lower belly churning and spasming as he drove his whole tongue as deep as he could into her.

And suddenly she reached and grasp my arm with her hand and as she squeezed it to hell and back her whole body shot up off the make shift breeding pen her ass off the whole of the thing in the air as she gave out a "loud" gruntal scream of sorts and her face contorted into a turning red squinched up feature her mouth wide open as her whole body shuddered from hell and back and then she fell totally silent to the breeding pen as I could hear "Rambo's" now loud as hell slurping sounds as he collected every last drop she could give him from her pussy depths.

Rambo continued to clean her out as she just lay there ever more limp now her legs so given out that in fact they were folded to each side as limply spread open as can be.

After he had finished his tongue lashing pleasure he just sat back on his hunches looking at me and then her twisting his head side to side as if asking what to hell did I do to her?

As he cleaned the remnants of her juices off his snout and I could clearly now see what looked like a tiny little pinky finger poking out of his sheath attached to the wider part of red hot looking cock.

It was about 2 inches long itself and a full indicator to me what he plans for that tiny little long tip to do later!

There was no doubt that she was so far gone at the moment that had he fucked her then and there she'd not been one ounce able to even enjoy it except in the way her pussy would have reacted and I had other plans when that was to happen and that was her being fully awake and back into the world to hear her "screams" and cries of agonized pleasure when he at last gave her what she really wanted... His huge red hot dog dick buried to the depths she'd never felt before!

~~~ Part 6 ~~~

It took some time for our "little" miss beauty to come around fully and at last have all of her wits about her and including all of the strength she could muster up to have.

I sat on the bed right there where she was still laid out on the breeding bed her legs still wide open as hell and I could see that no doubt at all "Rambo's" huge tongue had opened that tight little pussy up good and proper now and "ready" for her next "pleasure"!

Her cunt lips were swollen out and open and juices were covering every ounce of her beautiful blonde mound. Her clit was swollen and redish white looking just above where Rambo had given her the best tonguing of her life!

Her legs were still raised up and feet still planted on the breeding pens mattress and comforter as she was now back to life and looking around but her eyes still glazed over from being tongued by two "males" myself and their own pet Rambo!

At last she turned her head to me and said:

"OOOHHH I I I've nevvvver been eaaattten lllliikkkeee tthat beeeefffore"!!!

No doubt that was damn sure true as I now wondered if "I" and "Rambo" had made her cum so much she was dried up?

Even as she lay there her whole body shook from being just totally and completely given out and this young woman was once a beautiful cheerleader and a gymnast and loved to play basketball and other sports in school.

And even out of school and into life as a young woman she was still damn fit and very well physically fit! But no doubt "I" and "Rambo" had taken the piss and vinegar out of her per say!

So we all sat there her spread "nakedly" wide open before "Rambo" and I !!

Rambo now sitting between her legs pulled up onto the "breeding" bed and spread wide open legs to give out to put her legs down and her thighs and legs leaning widely spent to each side.

And I sitting on the bed above where all the action had happened helping to get her that way so he could plow his huge tongue even deeper and for better pleasure for them "both"!

The three of us each in our own world so to speak though actually “Rambo” and I had our senses about us,” but” our “animalistic” man minds tuned in to the female in heat between us.

And her the beautiful female spread out before us and the female in heat for us both!

All she could say for the longest time was:

“TTTTThhhat wwwasss tttooooo mmmmuch ffff for meee”!!!!

But it wasn’t going to be to much as yet because the next thing was that “Rambo” was going to mount her and give her something way up in that “little” belly that no doubt as yet he’s the only one that had been that far!!

As my prior updates etc. to this story had come along she had herself never known what the all of it was.. Until I had at last become involved and had told her and saw her take it!!

She was now back into the world enough that she tried to get up but was so far spent physically that she merely slid right back down her legs still wide open as hell though now unfolded and her feet on the floor instead of pulled up onto the breeding pen.

Though she finally was able to look around and see just what I had brought into their bedroom and just what she was laying on propped up on the lounge pillow with and laid out with the rest of her body.

She just shuddered all over and said: “TTTTThhhhisssss issssss mmmmyyyy ddddaughters pppllayyyypen”!

Well it certainly weren’t no more!!!

She did say it was a pain in the ass to use and she had even thought of either selling it or giving it away to someone that needed one. My instant thoughts were I bet this stays around now!!!

She was in desperate need of something to drink and no doubt she’d needed that by now since “Rambo” and I had drained that pussy all but dry!

So I let her there to gather her strength I knew she’d need for the next part of this “pleasure” journey and went and got a picture of water and grabbed what was left of her frozen margarita mix knowing she was going to need more of that for sure. And Rambo followed me into the kitchen and himself divulged his own self into his water as if he knew he needed to replenish his own supply for the next more physical bout for him. So I got another couple beers myself and came back into the bedroom.

Of course Rambo followed suit right along with me his back paws clicking against the hardwood floor and his front ones just sliding along as he walked this way.

I poured her a glass of their cold already mixed energy drink from it’s pitcher and she gladly swigged that down and drank a couple more then asked for her margarita again.

As yet she hadn’t gotten drunk in the least during all this though she had drank enough earlier to loosen the mind belt and give in to what she wanted and what she got from me in the living room.

So we sat there for sometime her resting and “Rambo” steadily giving more and more hard long glances at that pussy and I watching the two of them in all this from the beds edge I sat on.

After this “rest” time out per say, and her now getting more together and her strength returning and now moving everything more freely about and yet just still lay there and leaving her legs wide open as both “Rambo” and I was surely taking every chance we could to look at that pussy of hers!

She had finished all of her mixed and frozen margarittas by now and was sure feeling more and more the affects of the alcohols subtle way of loosening up a persons thoughts and morals alike for that matter.

And then finally looked up at me and said: “OOOOhhhhhh TTTTThhhank YYooouuuu Ssssooo much for cccoming over”!!

Well no damn doubt it was my “pleasure” to have done so!

She then began to get a bit loopy headed as drunks often do and was saying oh how happy she was now and how this was the best moment of her life outside of her daughter being brought into the world by her and such.

And I knew the start of her “next” pleasure was working itself up a hell of a storm in her mind at this point!!!

Because now she was taking long glances herself right at “Rambo” sitting there nearly right up between her legs and constantly looking at her pussy!!

She began to shudder all over and looked up at me and said:

“II I I tthhiinnnnk hhheee wwwants ttttoooo fffuccckkk meeee”!!

The way she had said it and the way her whole body shuddered and the fact of her being now into a bit of drunken state made it all the more sort of funny as hell “yet” damn serious enough because she knew he was looking at that fine beautiful pussy!!

And then she drunkedly said and I know “you” want to fuck me to!!

Well you damn right I did as well!! Sometimes a drunk may act stupid but damn if some of the things they say aren’t right on the money!!!

She then stammered out “Myyyyy hhhussssbannnd hhhhattes mmmmy pusssy buuutt mmmmyyy godddffather aannnnndddddd mmmmyyyy ddddogggg want it”!

I couldn’t hold back any longer that shit was just to damn seriously funny and she and I both had one hell of a laugh about that!!

Then she just looked back down at “Rambo” sitting right there ready to mount and fuck her brains out and then back up at me and said: “SSSsooooo wwwhoooo wwwanttts itttt fffirrrest”!

There was indeed no doubt she’d never heard about sloppy seconds and that’s yet another thing altogether and yet another story altogether as well.

I just looked down at her and said: “The question is which of us do you want pleasure from”?

She just looked right into my eyes those big beautiful bluegreen eyes shining with pure absolute lust from hell and back and said:

“IIII’vvve nnneeevvver hhhaddd bbbbut onnnneeee mmmans dddick”!

"AAAAnnnddd ittt aaainnn't wwworth aaaa ssshittttt"!

I then said: "Yes that's true "his" probably isn't; But another man's may put you over the top of the world"!

She just looked dead right into my eyes and said: "BBBBbbbuttt mmmmyyyyy ddddogggsss mmmakkksss mmmeeee cccraazzy"!

I just seized the drunken moment of her world and said:

"Well to be honest with U if I were to fuck you that would just only stir up more shit than to just leave it be as this and just "help" you and "Rambo" pleasure each other"!

She just smiled and stammered out: "Wwwwhyyyy cccannn't mmmmyyyy mmman bbbeee like yyyouuu"?!!!

And then said: "Iiii'dddd lllluuuuvvv iiiitttt ifffff hhhheeee cccould wwwwatch hhhiiimm fffuuuckkk mmmeeee lllliikkkeee yyyouuuu dddooo"!! As saying that she was pointing at "Rambo"!!

So I then just said: "Well he's certainly going to fuck you tonite"!!!

At that very instant and moment she absolutely just turned right over onto the breeding bed now on her belly and was trying to get her legs into position to push that tight round beautiful tiny ass of hers up and get it "but" I stopped her and said:

"Oh no tonite it's altogether different"!!!!

She just looked up at me and said: "Dddiiifferrrent wwwhhhhat ddddoou yyyouuu mean diiifferrent"?

I just then got on the floor right beside her and grabbed her and flipped her right back onto her back again and said: "The difference is that this time, tonite your going to fuck him missionary"!!

She was now questioningly looking at me and said: "Wwwhatttt tttoooo fffuccck iiissss misssionary"?

My mind exploded now in the thought that she didn't know one damn position from the other during sex!!

So I said: "Missionary means your on your back and he's on top fucking you"!!

She just looked at me in this dumbfounded as hell way and said: "HHhhheee's aaaa aa fffuuucccking ddddooggg tttheeee only waaayyy he'llll fffuuuccck mmmeeee iiissss lllliikkkeeee IIIII wwwaaasss trying tttooo dddooo"!!

I just looked at her and said: "Trust me he'll fuck the hell out of you missionary to"
"And if neither he doesn't nor you don't like it we'll do it the other way"!

I knew I wanted to see it happen this way and I had my full reasons for it!!

She just now lay there on her back and had her legs spread wide open her ass to far up on the breeding bed for him to get a good stroking action and in that pussy as deep as he could so I said: "Put your legs back up onto the bed like you were when he ate you and open them wide open"!

So as she grumbled out she pulled her legs up and had her feet back on the breeding bed and spread her thighs wide apart and I reached and scooted her down until her ass was right on the edge of it and her shoulders and head resting into the lounge pillow.

“Rambo just seemed to sense then and there she was surely ready for him because he just stood right up and got right inbetween those open legs and reached his snout out and started to once again lick her pussy!

She just absolutely then and there went bezerk and shoved her beautiful round little ass up off the bed pushing her pussy to tongue lashing at her and was crying out;

“IIIIII cccaaannn’ttttt ttttttakkkkeee mmmmmuuuccch offfff ttthhissss”!

And I just leaned over as her head was thrashing about and said: “He’s just getting you ready”!

She was just thrashing and “crying” out “Oooohhh iiittt’ssss ttttoooo sssennnssittive”
“IIII cccannn’ttt ttttake mmmuchhh of ttthiiiiissss”!

I just then said; It won’t last long he’s just getting you back into heat so he can fuck you really good like you want it”!!

She just was thrashing her whole body wildly about her ass swinging in the air her pussy was once again succumbing to his tongues lashing of it as “Rambo” was trying his best to follow her pussy around and keep tonguing at it!!

Then suddenly he stopped and she just fell back onto the breeding bed breathing hard and heavy and saying;

“HHHeeeee ssssttttoopppeed oooohhhh hhhheeee stttopped”!

I just again said: “Yes he did and now that your ready he’s going to mount you”!

She just lay there shuddering and quivering all over as I then said: “Now I want you to open your eyes wide and watch him mount you”!

Her eyes opened and she was now just staring at the “man” creature about to mount her and destroy her pussy good and proper and just gave “gruntal” moans out as she watched and awaited for what she wanted!!

I just sat there right beside her wanting “Rambo” to hopefully jump up on his own which as yet he hadn’t done though he was sitting right there between this “beauties” wide open and readied to be bred by him legs that all to familiar long little finger at the end of his cock shinning from the sheath now as I then said;

“I want you to look between his legs and see what’s showing”!

She just pushed her head up at the shoulders and as she stared down her beautiful body and right where she had her legs spread and ready and saw what I wanted her to see!

She just shuddered all over and her mouth seemed to open in disbelief of what no doubt she hadn’t even as yet got see and that’s the very tip of his red hot dog cock!

I then just blurted out: “That long little finger thing at the end of his dick is going to absolutely give U what no man can tonite”!

All she could do was shudder and look at it as if at last now seeing what her little belly had felt when he knotted her the last time.

And that was what my full intention was of course there were other things yes but I wanted her to see what had caused all that stir up inside her belly the last time.

It damn sure had it's desired affect on her because she was damn well recalling every single moment of having felt what it did and this damn time I was right there and was going make damn sure to hear and see every single of moment of their "mating"!

I gave her those moments of this and then arose up and got "Rambo" by the collar and he needed no prodding to go than pulling on it as he rose right up and walked right up to that now "ready" and "willing" to be "Bred" pussy as she was now breathing in heavy breaths knowing it was about to happen for damn sure!

He just gave it a good long "sniff" and then and there leaped right up atop her landing squarely on her upper belly and small tits and then his front legs found their way down and grasp her young rounded hips and curvy waist as she herself gave out a "Loud" Unnnghgghh from his weight landing on her and then her little hips themselves raised up allowing his front paws to dig right into her tiny waist.

I just sat right back down beside her and watched the two of them as he was ever more grabbing and pulling her tiny waist to him and she was raising her beautiful hips and ass and hips up allowing his paws to get their firm grip and the whole time now she was staring right into his huge pitt bull face and he right into her beautiful young womanly one !!!

And I watched as each in their own way tried to get the other into that just right spot for what both wanted!!

"Rambos" huge tongue was already hanging slightly out the evidence of her juices falling from it in droplets and right onto her chest and shoulders as he was now drawing his huge hind legs up closer and closer now rubbing and pushing her already spread wide open thighs further apart as she was now "grunting" and "groaning" and breathing "heavier" and "heavier" and her body looking so small under his huge ff.gif one!!

That's why I wanted her mounted this way!!

Then at long last he was drawn right up against her and her head flung to my side as his huge one hung right there with her small beautiful womanly one rubbing against his huge thick neck and then just as each were in this position it happened!!

The very"instant" I saw his huge hips flex "forwards" her head shot ever higher up and against his huge neck and her arms shot from the bed like cannons "reaching" into the air and then absolutely around his huge "front" torso wrapping themselves around it "tightly" as her mouth flung widely open and a "loud" scream out of;

"Ohhhhhhhhhhhh itttt'ssssss ssssoooooo hhhhottt ooohhh itttt's ggggoinnnng in meeee"!!!

Then as I watched "Rambo" just slightly humping his hind legs back and forth and her gripping to him for dear life "screaming" out;

"Ddddeeeepeer oh it's ggggoinnnngggg dddddeeeepeer"!!!

And hearing her “grunting” out like a hog would as it wallowed and her head thrashing about against his huge neck and her arms trying their best to now stay “gripping” at his “shoulders” and over onto his back trying to grasp themselves together yet his huge size wouldn’t allow that in the least.

And her screams of how deep it was getting and how hot it was now changed into into “cries” of: “BBBiiiigggger ohhhh ittt’ssss gggettingggggg bbbbiggggger”!

And no doubt “Rambo” was now having a hell of a time trying to shove more of that “red hot” dog cock further and further into her he just swelling fast as hell now and I knew this was going to now be something to see for damn sure!!

His huge hind end was trying harder and harder to shove more cock into her beautiful and tight pussy but it just wasn’t going as planned!!!

And the reason for that soon became very damn obvious as she really began to “shake” her head about and her “arms” that once tried to grip him to her now were trying their best to push him back!!

As all I could hear now was her crying out: “Nnnnnoooooooo mmmmmrrrrreeeeee ooohhhh nnnnnooo mooorreee”!

But “Rambo” had a plan of his own now and that was shove all that red hot cock as far up into her until she busted wide open from it!!

And then she really went absolutely bezerk as her head thrashed wildly now under him and then back up against his huge neck and chest and her hands now there at his front legs trying their best to stop him from going any further!!

As suddenly as all that occurred she gave out a loud ghastly scream: “OOoohhhhhh nnnnnoooooooo ooohhhhhh iiiittttt wwwwon’ttttt ggggoooo innnnn therre”!

And that was all she wrote; the final huge “Tsunami” to wipe the village off the face of the earth as suddenly her whole “entire” body “shuddered” and shook all over from hell and back her legs trying to shove up off the “breeding” bed and her ass wrocking wildly as “Rambo” himself now gave a huge “growling” grunt and then and there she fell limply onto the “breeding bed” only now crying out;

“Grunting” and incoherent “groanings” as “Rambo” was using even more hip force to drive his cock even deeper!!

It took many moments of this until at last “Rambos” whole hind legs where shoved nearly flushly up against her inner most thighs they themselves spread “assunder” from his hugeness.

Then he just seemed to know she was to far gone to care a bit in the world now and he sat out once and forever to fuck her like she had not been fucked yet!!

As each powerful “full” thrust into and out of her only netted loud “groans” and “moans” from her limp body and now her ass was absolutely being driven forward and back as “Rambo” was at last now giving her a fucking her pussy was never gonna’ forget!!

I tried my damndest to get between them but “Rambo” just turned that huge ass head to me and “growled” like bear at me and snarled his teeth to me and went right back to fucking the bitch that

he knew was absolutely his!!

He got “harder” harder and more forcefull with his huge powerful strokes drving her like a wet doll back and forth under him as all I could hear was her “gasping breaths and loud gruntal groans come from her!!

This seemed to go on “forever” yet was mere moments of time as he was more and more able to fuck her stronger and harder and far more powerful !!

I was in absolute “fear” that he had hurt the hell out of her but then I began to hear sounds from deep between them at their coupling that said entirely different!!

Whether it was his amount of pre-cum per say or her so far gone into “orgasmic land” I couldn’t tell but one things for certain the sounds of hot wet fucking were now filling the room good and proper!!

And the fact that her once pulled up legs had themselves now in their own mindful way somehow had moved from feet planted solidly on the “edge” to now unfolding like a mind of their own and were now rubbing against his hind torso thrusting like a “runaway” trains driving pistons at the front wheels and then seemed to work themselves up and now over the top of his huge hind end!!

As her beautiful ass now began rocking around under him and driving forward each time he slammed hard up against her inner thighs and her legs were shaking and trying to hang on for dear life as he was absolutely fucking the shit out of her!!

I’ve seen several female/male dog encounters but “Rambo” at that moment had the most hellacious powerful stroke I’d ever seen or have seen!!

Now the whole of it was settling in for a long hard fuck for her and from him as it seemed slowly she began to come back to earth from wherever it was she’d gone and I had so wanted to be able to reach down and suck those beautiful marble sized nipples while he fucked her good and proper and drive her to even new heights but she was already there!!

Finally she seemed to get at least enough senses about her as he was bucking her body under him wildly up and back as his powerful front legs had all but a death grip on her tiny waist forcing her back each time he drove forwards and making her bounce wildly like that as he was fucking her now like as hard and fast as he could!!

I could absolutely hear the sounds of his huge cock trenching out her small pussy to new heights and could hear what sounded like his huge set of all black balls banging against her now writhing and twisting ass and suddenly that seemed to end as if someone had been spanking her ass loud and hard and then it stopped altogether!!

But the moment that happened other things kicked into high gear because her small legs shot right into the air and she gave out a huge “grunt” like that of a hog!!

And her whole body then and there shot up off the bed her ass clearing the air but “Rambo” forced it right back down using his huge body and weight as he was started “himself” to grunt loudly and I knew he’d for sure at last finally got that knott into her!!

It was damnded abvious to because he was having more and more hell fucking her as hard and powerful as he was and now was just seemingly shoving it deeper and deeper as I could see that they now were solidly tied to each other his hind legs and torso pushed into her thrashing and squirming inner thighs and his huge balls were not swinging like pendulums anymore but she was

starting to “grunt” ever more and more!!

Then out of the blue right up between them at the near sight of what would have been her belly button her little belly began to grow out and grow out and grow out!!

And I could see clearly now that her whole body was “sweating” like she’d been in a hell of a workout but this was no workout this was an absolute fuck to hell and back for her!!

Even her small titties were sweating and sweat rolling off her head and face from hell and back and she was turning a beet red color on her face as it was contorted all up like somewhere in all this the pain was showing from hell and back on her beautiful face.

Rambos thrust had stopped now and he was laying over the top of her himself spent to no end from the “pleasure” no doubt that tight pussy had given him!

He was just laying on her now his heavy panting breath making his whole body shake and his hind legs were just thrusting at her still though nothing more than a reaction of his huge muscles it seemed as now it seemed her head was starting to thrash about a bit more as if she was coming back from wherever it was she’d been and her legs were shaking like hell each time his hind legs thrust.

But above all that was the fact of seeing how her small little belly was ballooned way to hell out because no doubt he’d seated up into her young womanly womb once again and this time even deeper doing it!!

This went on for minutes on end and I had so wanted to catch that perfect moment and time just how long he had that “knott” planted solidly up into her but I didn’t.

One thing for certain this “breeding” was far stronger and way, way, way, longer than when she’d taken him on all fours!!

They had to be tied together at least a damn hour that’s how well he’d got that pussy!!

And no doubt he had because that little belly of hers was swelled out and could take no more hot come from him at all!!

It took her nearly half the time from when he stopped really fucking her good that she was coming back around and her head was thrashing about and she was trying her best to get words out but whatever was happening between them inside her was causing her to do no more than grunt loud as hell each time he seemed to shudder or pump his hind legs!!

Finally at last as if he knew it was time he tried to pull out only to drag her still nearly limp body with him and this went on for a good 5 minutes or so and at last he had freed of her depths and his whole cock was swollen to hell and back and looked the size of a damn lemon or bigger and his knot well it was like a tiny fist all attached to the very back of his cock and even the little finger like tip was nearly twice as big around as it was and about twice as long!!

So yeah he got her good alright!!

And once he’d gotten out of her and swaggered over to lay down I could not help myself but get a good look and survey the damage to that beautiful once tight little pussy!!

She was gaped open to hell and back her lips swollen widely open still and his hot cum pouring from her like a river gone wild!!

As she still lay there limply grunting and groaning and it was then and there that I noticed why!!

Her little belly was still swollen way out and his hot cum all locked up inside her little womb!!

It took about as long for her to come back to earth per say as the entire “breeding” had lasted and when she did she was crying out that her belly felt like fire inside her and she lay there and it seemed to some degree eventually the red hot come seemed to cool and was ever more leaking from her still destroyed to hell and back cunt!!

~~~ Part 7 - Truly busted ~~~

After “Rambo” had just finished with her and now himself wore out and over to the side of the room laying and licking what was all over his underbelly and cock off!!

She on the other hand was laying herself with “troubled” things having going on inside her belly at this point!!

Even now telling me she needed to go “pee” really bad and trying to get up but the “pain” in her “small belly” was to great to hardly even move!!

So I helped her up “cum” still “leaking” from her freshly fucked by him pussy and all but have to carry her to the bathroom!

The whole time she was holding her belly grunting out painful cries as she took each step holding onto me for all the support she could while going there!

I sat her down on the stool and left her be while she did her business and could hear her saying “damn” he “really fucked me this time” and no doubt this time he indeed had done that!!

And after that “chore” accomplished I had to help her right back to the bed and she just lay on it and still so “sore” and “exhausted” from being fucked like she’d never been in her life just collapsed on the bed and rested.

So I figure this party is over and about to leave and “walk” to where i had my car parked and hidden when starting to go through the bedroom door and on my way everything changes then and there!!

Because I suddenly “hear” her give a wild “scream” out of: “NNNNoooooooo NNnoooooo MMMooooore”!

Only to turn and see “Rambo” was right between those beautiful “thighs” of hers now setting out to “clean” her up!!

She was going absolutely crazy now as his tongue was giving that “abused” pussy another good going over!! but she had not one ounce of strength left to fight him off!!

I go back over to “stop” him to only have him ‘turn” his huge head to me and “snarl” at me!!

And I mean he was absolutely doing it to say “oh no you won’t stop me” or I’ll eat your ass up this “pussy” is “now” mine and all mine!!

I was yelling at him “No Rambo” “No”!! But he just “growled” and “snarled” at me from hell and back!! And when I tried to get “closer” and try to break it up he nearly “lunged” at my ass!

The very moment he had me “stopped” in my tracks he just right back to that “pussy” and began “licking” the hell out of it!!

With her laying on the bed trying to get any sort of “strength” enough up to “fight” him off!! And screaming out!!!

“Ohhhh NNNoooo OOOhhhhhhh PPPleaaaaaseeee SSStttttoppppp”!!

Then “pleading” with me to help stop him!!

I tried again to “step” in and help but “again” he just “snarled” and “growled” like hell at me and went “right back” to licking her pussy really good!!

And while he was right back at that pussy and her crying out how she could take no more “ring” “ring” “ring” goes her home phone!! Oh shit this “ain’t” good atall!!

No doubt I couldn’t answer it and she sure as hell was in no position to do it either!!

Finally it stopped!!

Then after moments later of it “stopping ringing” My damn cell phone starts!!

I left the room so the loud “pleas” from her could not be heard and trying to close the bedroom door and answer my phone I didn’t get it done in time!!

And “who’s” on the phone! None other than her Mom!!

Telling me how she tried to “call” her daughter and got no answer!!!

Then as I was trying to run through my “head” an answer to that one!

She says: “Is that my daughters voice”!!! Oh “shit”!!!

I just hurriedly got the door closed “still” hearing “her” pleading from inside the bedroom but now more subtle sounding!!

As I then tell her Mom: “ Oh hell no i’m watching a damn porn right now”!!!

So her mom says: “Will you go check on her and make sure she’s o.k.”!!

Then my mind finally kicks in and I say well she called and “said” something about going to a friends house or something, so she’s probably over there..

I give a huge ass “sigh” of relief when her “Mom” accepts this as why she didn’t answer her home phone!!!

Well that taken care of and finally ended.. It was time to get my ass back in that bedroom and try to stop “Rambo” from licking her pussy anymoreS!!

But as I turned to go through the door I noticed that “her cries” were far more subtle now and only could “hear” more of a “moaning” going on than anything else.

Opening the door and going back into the bedroom I “see” her now writhing to hell and back on the bed and “Rambo” licking her pussy for all it was worth!

Her pleas of “wanting” him to stop were now “full” moans of pleasure!

He finally stopped and then just lay down on the floor right between her legs leaving her now to “lay” there herself trying to get an ounce of energy up to move onto the bed and away from him!

I go over to “help” her and what happens? “Bam” “Rambo” snarls like hell at me!!

Absolutely “saying” in his way of expressing it “This Is My Pussy Now”!!!

She finally gets enough strength gathered up and gets in the middle of the bed and finally covered up and looks at me and says: “PPPPllllleeeeeaaassseeee gggetttt hiiiiimmm ooouutttside”!

So I walk over to him and at last he “allows” me to get his collar and I start to get him up and then if that “situation” weren’t enough!! “BAM” an even worse one “HAPPENS”

Because suddenly “through” the bedroom door “guess” who has come to call!!!

Yeppers it’s none other than good ol’ “MOM” !!!

Now before I go any further into this I’ll explain something!!

Her “Mom” and I have been friends for years, and years, and years!!

And in that we have also “been” luvrs and friends!!

So to give you the complexity of this situation is that her “Mom” and I have “ourselves” talked about this very thing!!!

She knows that “this” is my true “Pleasure”!!

So now standing there in the “doorway” not saying a “word” just this puzzled as hell look on her face as she “sees” me getting “Rambo” up off the floor!

Her daughter naked as hell and thank upstairs under the covers!!

And has this now “fully hatred look” on her face!!

As if “knowing” but somehow not wanting to “grasp” in her mind what she is seeing!!

She then just looks “puzzled” as hell and says “What are you doing here”?

I told her that her daughter called and said she couldn’t get “Rambo” to go outside and called me to come over and get him to go outside where he belonged!!

Well her mom certainly gave me this “It damned sure better not be what I think it is look”! and said: “ I told them to get rid of those damn dogs”!!!

Well outside I go with “Rambo” as I hear “Mom” saying: “Are you alright”?

And her “daughter” saying: “I’m o.k. Mom just tired as hell and want to go to sleep”!!!

Well finally having “Rambo” back in the backyard I go back into the house to say i’m leaving when I meet “Mom” in the living room and the “bedroom” door now closed and she looks at me and says: “This had better not even be what I think it is”!!!

I then said: "Oh hell no not even close to that"!!! yeah right!!!

She then said: i'll talk to you later I was just worried about her and came over here to check on her"!!

Well I left as "Mom" had gotten into her own car and was still "giving" me this strange you son of a bitch it better not be that look and drove away!!! Oh shiiittttt!!

So I get to my car at last and get home and guess what happens?

Yeah you got it!!! Mom calls my house!!

I don't know if I ever convinced her in anyway shape or form that what I was doing there was getting the damn dog outside or not?

But one things for damn certain. And that is it "took" her daughter days to recover from "Rambo" fucking her and fucking her damn good!!

And now for "reason" Mom has started "talking" way more and more about this subject!!

Oh she's confessed her own "thoughts" once about an "episode" in her own life.

Though nothing happened outside of their then own pet trying to lick her one time!

But sure as hell when we discuss this now "she" sure as hell says: "Did my daughter do it that Nite"!!!

Well that's the end of this story! But as one "journey" ends another "begins" !!!

Yes "Mom" does finally get it to!!! and that folks, is yet "another story"!!
