## **Part 1: Dogs are one thing - but a horse?**

I have had a fantasy about being fucked by a dog ever since coming across a book which had nothing to do with bestiality, but had a brief section about a young boy who got fucked by his dog. I have yet to realize that fantasy but still hold hopes it might happen. I am not gay in any way. I have used dildoes on myself, however. This all started when I used to send away for sex magazines, most always having to do with lesbians. Upon receipt of some magazines one time, I received a free gift which when I opened it saw it was a dildo. I was like, yea right. But for some reason, my curiosity about it made me get a hard-on. I had seen all these lesbians using them on each other all the time and wondered what it would feel like if I shoved it up my ass. Well I got the courage to try it and have been hooked on fucking myself with various different types of dildoes. When I learned about bestiality I have always had the fantasy of being fucked by a dog, especially after seeing lots of videos of dogs fucking women, and then seeing a few of dogs actually fucking guys.

I have also seen videos of horses with women but I only like the ones where I have actually seen a pony/horse mount a woman and fuck her like the dogs when they mount someone. Those videos have been rare for me to find. Anyway upon seeing those humongous cocks on those horses and even the ponies, I was like "no way I would let a horse put that thing up my ass". I have always tried to go bigger and fatter with dildoes I have fucked myself with.

So after finding a video of a pony mounting and fucking this chick I was like, "damn do I dare do that"? It gave me a hard-on thinking about it and now I need to find out if I will let it happen. I have a friend (Kyle) that has a farm with dogs, horses, and ponies. I will have to pay him a visit and see if they ever leave the farm unattended. I called Kyle who was surprised to hear from me since we hadn't talked in a long time. I told him I was thinking of coming over and we agreed for me to come over on the weekend.

I went by on a Saturday and as I drove up I noticed 3 dogs: a doberman, a shepherd, and a great dane. They were all sitting on the porch and immediately stood up barking and approached the car when they saw me. I stayed in the car til Kyle came over and called the dogs. When I got out, Kyle told me his 3 dogs are trained to attack strangers, especially if he isn't around. So he told me to walk up with him and he introduced me to them. He told me to let them smell me so they would know I was ok to be around. As they took turns sniffing me they sniffed around my crotch and ass which gave me an instant hard-on. It seems the doberman noticed because he stuck his snout in my crotch pretty aggressively until Kyle called him off. We went inside and talked about the good old days and about some of our old friends. Kyle married his childhood sweetheart, Karen. She was with their 2 kids visiting with her mom and Kyle was supposed to join up with them next weekend. I asked him who tends to the farm and animals when he isn't around and he said he usually leaves the dogs at a kennel and another farmer who lives a mile away comes around to tend to the horses. I mentioned I could house sit if he wanted. He said that would not be a bad idea and suggested maybe I come around a few times during the week so the dogs could get used to him and recognize him.

I came over 4 days that week and the dogs were already used to me and would greet me as I drove up. The

doberman was always sniffing at my crotch noticing I always had a hard-on when they sniffed at me. I told Kyle I could drive him to the airport and would then return to the farm and stay that week. Once I dropped him off I went back to the farm and although I wanted to get fucked right away I wanted to see the horses and the ponies. The 3 dogs followed me as I walked to the barn and went by the stalls to see the horses. Kyle had a male horse, a mare, and a male pony. He told me the mare was in heat and the horse and pony were trying to mate with her but she hadn't allowed it yet.

As I looked at the pony I noticed he had the stall next to the mare and apparently sensing her condition, had his cock hanging out. It must've been 15 inches long. I got an instant hard-on which made me want to get fucked so I went back toward the house with the dogs following. The doberman again was sniffing at my crotch and I figured he would be the one I would let fuck me. The nearest neighbor was a mile away so no one should be around all week.

I went and smeared some oil around and inside my ass to prepare for my fucking. I changed into some shorts and as I walked out and down the stairs, the doberman followed me. I took my shorts and underwear off and got on my hands and knees. The doberman immediately started sniffing my crotch and gave my dick a few licks. My cock was throbbing. The doberman then went around behind me and started licking my ass which almost made me come on the spot. I was watching him when I noticed he backed up a moment then climbed up on me. "Oh yea, here it comes". The doberman gripped me and started humping. I tried to align my ass with his humps and felt him suddenly find the entrance. He drove his cock in with a passion and I groaned. The doberman was fucking me good and hard. "Oh yea fuck me dobie". After only 15-20 seconds the dobie pulled out and shot precum onto my ass and legs. After licking that off he mounted me again and drove it home easily this time.

The other dogs had noticed what was going on and walked down to watch the action. I came as the dobie drove it into me for the second time and started fucking away gripping me tighter. "Uhhhhhh oh fuck - do me dobie". The dobie gripped me tighter and I felt he was probably going to try and shove his knot into me. I wasn't ready for this so I moved forward some and the dobie slipped out shooting some more precum on me. I decided to get up real quick before he could mount me again. As I gathered my shorts and underwear and started to walk up the stairs to the house the 3 dogs were following me. They all had their cocks hanging out. "This is going to be a fun week". I washed up and had some lunch.

I walked back out to the stalls later with the dogs following me. I was trying to figure out whether or not I was going to let the pony try to fuck me. I also had to figure out how he could mount me like the dogs do because I wanted to feel the fucking motion and not grab his cock and shove it in and out like the women on most videos I saw do. I noticed there was a bench in his stall. I saw a woman lean over a bench and a pony was able to mount her. The other woman I saw appeared to be on her hands and knees when the pony was able to mount her. I am not sure how she was able to align herself that way but she did. If I tried it I would see if I could somehow use the bench to where the horse could put his front legs on it as he tries to mount me. In any event I hadn't gotten up the courage yet. I went back to the house and stopped in front of the stairs. I took my shorts off and the dogs started to get excited. The dobie was already standing behind trying to mount me before I even took off my underwear.

As I stood there and took my underwear off, the shepherd suddenly jumped up on me and was able to knock me to my hands and knees. He immediately mounted me and I waited for him to find my asshole as I moved with him. On one lunge the shepherd was in me as I moaned. "Ok boy - your turn to go to town". The shepherd was fucking away and I was meeting his thrusts. He seemed to be so excited that he pulled out within 20 seconds and shot some precum. Before I knew it the dobie had taken his place and drove it home. I figured if he holds out I will let him knot me this time. As the dobie fucked away I was already shooting a load. I felt the dobie grip me tighter and felt the knot at the entrance to my ass. With a hard lunge I felt the knot go inside and I just kept squirting come on the ground as the great dane began to lap it off the ground. He also saw the source of it and started to lick my dick. "Oh my god. fuck me dobie. Cream me". The dobie was suddenly still in my ass as I felt him shoot his load inside me. I pushed back trying to milk all his come. When he was finished with me and his knot slipped out, I quickly got up as cum was dripping down my legs. The shepherd managed to knock me back down on my hands and knees and quickly drove his dick deep inside me.

I wasn't going to take another fucking right now but decided I owed him since he was left high and dry when the dobie took his place earlier. As the shepherd was driving it hard and deep inside me I felt him grip me tighter and knew he was going to shove his knot inside me also so as I felt him grip me tight I met his thrust and pushed back. The knot slipped in and the shepherd fucked away. "Uuuuhhhh - fuck me - fuck me - cream me". The shepherd stopped humping and I felt his cum shooting deep inside me as I kept pushing back on his dick. I came again and the great dane was again licking the cum off the ground and from my dick. When the shepherd slipped out I got up quickly and bolted up the stairs and into the house leaving the dane with his dick hanging out. The dobie and shepherd were off cleaning themselves. I figured if I was going to let the pony do me, I would let the great dane fuck me to get me ready for him. I am sure he has the biggest cock of the three dogs and a bigger knot which would get my ass wide open and ready for the pony.

The next morning after I fed the dogs I went and let the horses and pony out of their stalls so they could roam around the farm a bit. I went back inside and came back out later in the afternoon to put the horses away. I then noticed that the horse was following the mare around with his 18 inch cock hanging out. The mare suddenly stopped and the horse climbed on her and mounted her. I saw that humongous cock drive into the mare's cunt and got a raging hard-on. "Damn that is a monster cock". The mare seemed to be enjoying the fuck as much as the horse was. I could see the horse thrusting and could tell he was apparently shooting his seed into the mare. After awhile the horse slipped out and the mare moved away and headed for the stall with the horse and pony following. I led each of them into their stalls with no problem and figured since the pony had a hard-on the whole time watching the horse and mare in action it was now or never for me and the pony. The dogs were with me so I figured I would let the dane fuck me with the horses watching so I could keep the pony excited. I took off my shorts and underwear after making sure the dane was the closest dog to me.

The dane didn't even wait for me to get down and knocked me to the ground. I fell onto my hands and knees as the dane quickly mounted me and started humping his cock trying to find a hole for it. I moved around til he was able to drive his cock home. "Damn boy you're huge. I guess you should open me up pretty good for the pony". I wanted to put on a show for the pony so I made sure not to let the dane knot with me. As he slipped out of me the first time he shot some precum on my legs and after licking it up some he quickly mounted me again. I started to meet his thrusts but again did not want him to knot with me yet so when I sensed he was ready to drive his knot in me I moved forward and the dane shot some more precum. I saw the pony's cock hanging out and felt it was time to get ready. The dane mounted me again and as he drove it home I began to moan "uuuhh - uuuuhh - uuuhh". I felt the dane grip me tight and he drove that softball of a knot up my ass which made me grunt. Once I got used to it I thrust back as I felt the dane stop humping and shooting cum inside me for what seemed like a hole minute. As the dane was breathing hard on my neck I waited for him to slip out of me.

Once he did I quickly got up and walked into the pony's stall before the other 2 dogs could get a turn at me. I walked over toward the bench with the pony following, his cock hanging out. I leaned forward with my hands and as the pony walked up behind me I suddenly got cold feet and moved away. The pony snorted. I kept looking at that 15 inch cock and wondered if it was going to tear a new asshole in me. I got back into position and the pony snorted and walked up behind me. As he climbed up and tried to mount me, his front legs landed on the bench which is what I was hoping for so I wouldn't have his weight on me. The pony started thrusting, and his cock being as long as it was, I could feel it hitting around my ass. "Oh my God am I really going to do this"? I stayed still as the pony frantically tried to get his cock in me. Once I felt where most of his lunges were hitting I adjusted myself and before I knew it the pony had driven his cock in me. "Arrrggh". The pony gave some 4-5 quick thrusts inside me and then fell back to the ground. This gave me a chance to breathe.

I moved out of the way again as the pony looked at me impatiently. I decided to go for it again and

got back into position. The pony quickly climbed up and started humping again. I positioned myself to help him and the pony was able to drive his cock inside me again. As the pony began to fuck me I suddenly came which got me excited and as the pony thrust into me I pushed back to see how much of that 15 inch cock I could get in me. The pony gave another few quick hard thrusts and suddenly pulled out. I felt cum hitting my ass and shooting onto my legs. I had no idea if horses stayed tied as dogs do to empty their balls into their bitch so I decided to stay in position to see if he was finished. After snorting and prancing around for a bit I saw the pony come back for a third time and mounted me. He humped and was in me on the first thrust. The pony started thrusting in earnest. "oh my god - oh my god - arrrgh - uuuhhhh - uuuhhh - damn what a fucking '. The pony thrust hard and I took all he had to give enjoying every moment. Suddenly I felt like i was being sprayed with water from a hose up my ass as I felt the cum shoot inside me. I came again as the pony got in some last good thrusts and held his cock deep inside me shooting his seed into what he must've felt with his mare.

Once the pony pulled out, it seemed like a gallon of cum leaked out of my ass. The horse was snorting and prancing around in his stall and the 3 dogs had their cocks hanging out as they all started lapping up all the cum from the floor. After resting a bit I headed back toward the house with the dogs following me. They had their cocks hanging out and I said "oh what the hell doggies". I got on my hands and knees and all 3 dogs took their turns with me and shot their loads deep in my ass. I came 3 more times as they fucked me. When they had finished I went inside, washed up and went to bed.

I dreamt the horse took his turn with me and I woke up with a raging hard-on. "Damn do I let the horse drive his monster cock into me"?!?

## **Part 2: The Stallion's turn**

When I went to stay at my friend Kyle's farm to look after his dogs and horses, I never said anything to my girlfriend Jen. I really like her and we have great sex and all but I have never let her know about my thing FOR bestiality, I got hooked on that during my college years, which is where I met Jen. She is a beautiful 30 yr-old brunette, about 5-7, 125 lbs. and has a great body. I love fucking her and eating her sweet pussy.

Anyway after I stayed the week at Kyle's farm where I got fucked by his 3 dogs and his pony, I called Jen. She came over that night and I was hornier than usual. When she walked into the house I was all over her. "Whoa slow down stud. What's gotten into you"? "I missed you and I'm sorry I didn't tell you I had to go away for a week. I didn't have sex and you look so beautiful I just want to make love to you now". Jen sat down on the couch and I quickly sat next to her and started kissing her neck, She had on a mini skirt so I ran my hand up her leg under her skirt and cupped her pussy. Jen spread her legs and I kept kissing her easing her down on the couch. I kissed her hard on the mouth and stuck my tongue in her mouth.

She got up suddenly saying, "hey let me at least take my clothes off". She got up and took her clothes off. I did the same. Damn she looked great. As she sat back down on the couch I eased her into a lAying down position and got started making out with her again shoving my tongue into her mouth. She kissed me back hard as I slid a finger into her cunt. It was wet and I finger-fucked her as we kept kissing. I then broke the kiss and started to kiss my way down her body still finger-fucking her. I sucked on each nipple like a little kid sucking a lollipop. I kissed my way down her belly til I got to her pussy then started to eat her out all the while still finger-fucking her.

As I chewed on her clit, she went into the throes of an orgasm, wetting my fingers even more. I kept

eating her pussy and running my tongue all over her clit. In a matter of a couple minutes she was cumming again. I got up and laid between her legs and without warning shoved my cock hard into her cunt. "OMG, you are making me cum so much". I began to fuck her fast and hard not wanting her to come down from her climax. I was plowing hard in and out when she yelled out "I'm cumming again". This triggered my orgasm and I shoved my cock as deep as I could get it and pumped my load deep into her cunt and stayed there til my cock quit squirting.

As I lay on her, spent, she said "wow you should go away more often". We both laughed. But her saying that actually led to my telling her I had to go away again next month but that I wanted her to come with me. I told her about my friend Kyle's farm and that I was watching over it and his dogs and horses while he and his family were away. I told her she could help me take care of the animals. She said she happened to be off that week and she could go. "Ok that will be great". Jen spent the night and we made love again then drifted off to sleep.

During the couple of weeks leading to my staying at Kyle's again, I told her about the 3 dogs, the pony, the horse, and the mare he had. I told her the dogs were always horny and that they might try to hump her leg. I laughed so it would sound like a joke. She laughed also which I took as a good sign. I told her that the mare was in heat so she might see the pony and/or the horse trying to mount her. "Oh wow. That should be some show". I was pleasantly surprised how easy she took all this.

When the day came I picked Jen up at her house and we drove to Kyle's farm. I introduced Jen to him. He was with his wife and 2 kids and he introduced us to them. They left an hour later and it was just me and Jen and the animals now. The dogs had come up to me wagging their tails. "They remember me from when I took care of them last month". I quickly took Jen into the house since the dogs were looking horny. We watched some TV awhile and then I made love to her making her cum about 4 times while cumming twice myself. Thinking about the dogs and the pony had me horny as hell. We then went to bed.

The next morning I made breakfast for the both of us. After eating I said "let me show you around the farm". We went outside and the 3 dogs were on the porch. The Doberman quickly came over to me and sniffed at my crotch. The German Shepherd was sniffing at Jen while the Great Dane was walking behind me nudging at my ass. "I told you they were some horny dogs". We both laughed. I saw the mare being followed by the stallion and the pony and pointed them out to Jen. Just as she saw them the stallion was able to mount the mare and began fucking her. "Wow that is some cock on that stallion", Jen said. "Yeah. It's a monster". I got an instant hard-on. I noticed Jen had taken a hand to her pussy and it looked like she was stroking it. "Gosh that is making me horny as hell Joe".

This was it. I took Jen in my arms and eased her down to the ground. I knew the dogs were here and expected they were going to try to get into the action. I had to pretend I didn't know that. We took our clothes off and I put my mouth on Jen's mouth and kissed her hard. As I did this and slid a finger into her pussy I suddenly felt something on my hand as Jen jumped. The Shepherd started to lick Jen's pussy. "Let it happen". I kissed her again and pushed her back down. Jen's legs were thrashing so I knew the dog was getting her off. I started to suck on Jen's tits. Jen was moaning now. "OMG, how can a dog know how to eat pussy? I'm ready to cum - aaaaaaaaaaaaaahhhhhhhhhhh".

Jen started cumming. Suddenly the Doberman attacked her pussy. Now there were 2 dogs eating her out. I got on my hands and knees and kept stroking her tits. I noticed the Dane walked behind me. I saw his cock was out. I knew what was coming. The Dane mounted me and started humping. After a few humps he hit the mark and drove his cock into me and started a fast paced furious fuck. I sucked on Jen's tits. The Doberman and the Shepherd were lapping away at Jen's pussy and she kept moaning and cumming.

"Jen, get on your hands and knees and one of the dogs will mount you". Jen got up which didn't please the dogs until they saw her on her hands and knees. The Shepherd was quick and mounted her. He found the mark like he has been fucking her all the time. "OMG - I can't believe a dog is fucking me. He is fucking me so fast. He is filling my cunt up with so much cock. Fuck meeeeeeeee....yessssssssss....uuuh...uuuh". Jen was facing me now as I was being knotted by the Dane. From the expression on her face I could tell the Shepherd was knotting her also. I leaned forward and kissed Jen. I sloshed my tongue around in her mouth. Just as I felt the Dane shoot his cum deep inside my ass, I came squirting my cum on Jen's legs. The Shepherd was shooting his load into Jen's cunt and I could see her pushing back on his cock.

"OMG Joe. This is fantastic. Look at the poor Doberman. He has his cock out and no one to fuck". "You can stay in position and he will mount you as soon as the Shepherd pulls out". Five minutes later the Dane and the Shepherd pulled out of us. Sure enough the Doberman quickly mounted Jen and started humping. Once he found the mark he started fucking her at a furious pace. He looked like he had something to prove. Jen began to moan again. "uuuhhhh....uuuhhhh....fuuuuccckkk meeeee". I stood up and stood in front of Jen and pushed my cock into her mouth. She started sucking away and pushing back on the Doberman's cock. When I saw the Doberman grip Jen tighter I knew he was going to shove his knot inside her. Once he locked with her he shot his load. That made me cum as I shot my load down Jen's throat.

I pulled out of Jen and when the Doberman was finished I told her to get up quickly before one of the other dogs mounted her. We quickly got dressed and went back to the house. "Did you get fucked by these dogs last month"? "Yep - all week. All 3 of them". Even the pOny fucked me". "Whhhaaaaaaaaatt? Are you serious"? "I was afraid to at first but I let the Dane fuck me before I tried it since the Dane has a big knot and got my ass wide open for the pony. It was fantastic. I came twice while he was fucking me. The first load came just from the first penetration I was so excited".

"I was too scared to let the stallion fuck me. Maybe you should try him". "Oh shit I don't know. I saw how big his cock was when he put it in that mare. I sure got wet watching though and imagining it was me being fucked". "If you let the Dane take you first he will prepare you for that monster cock". "Damn Joe. I'm wet just talking about it. I'll try it if you think I will be ok". "It will all be ok Jen. I promise. Let's get some rest, watch some TV, fuck around a bit and then go to bed. In the morning we will feed the animals and then set things up for the afternoon. I will put the horses in their stalls so they can see you get fucked by the Dane. This will get them excited when they smell sex in the air".

The next morning I made love to Jen to get her ready for what was coming. I ate her pussy and finger-fucked her til she came 3 times. Then I fucked her and shot my load in her. I told her to wash up and I went out to feed the animals. The dogs were all excited but this wasn't their day although I am sure they would all get lucky anyway. I let the horses out for awhile. The stallion and pony were following the mare around with their cocks hanging down. She didn't let either of them have her which was good. I went in and washed up then went back later in the afternoon to round up the horses. I put them in their stalls. With the dogs following me, I then went to get Jen. "It's time honey".

We went to the stalls with the dogs following us. I had the horses tied up so I had Jen go into the stall where the stallion was and let the Dane in with her. I told her to masturbate and let the Dane and the stallion smell her sex. Soon the Dane and the Stallion had their cocks hanging out as the Dane walked over to Jen and licked her pussy. Jen spread her legs and let the dog go at her and 30 seconds later she was cumming. The Dane kept licking the juice leaking from her pussy and Jen came again. After that she got down on her hands and knees. The Dane walked around behind her and after licking her pussy a few more times mounted her. Jen made sure she faced the stallion so he

could see her get fucked. As the Dane penetrated her she moaned. The Dane gave her a hard furious fucking. I saw his knot slip inside Jen's pussy so he would soon lock and shoot his load. Jen had already cum again as the Dane started shooting his cum in her. Jen came again as she felt the Dane fill her pussy with more cum than she has ever had inside her.

When the Dane untied, cum leaked out of Jen's pussy and fell to the floor. The stallion was snorting with his cock hanging out. I went in the stall and told Jen to put her hands on the table so the stallion could put his legs on it and be able to fuck her. I let the Doberman and the Shepherd in also figuring I may as well let them fuck me. I led the stallion to Jen. His nostrils were flaring and he was snorting. His cock was huge, Get ready Jen. The stallion sniffed Jen then stood up on two legs. His front legs fell on the table and he positioned himself as he started humping trying to find a hole for his cock. I guided his cock to Jen's entrance. The stallion lunged forward. "Aaaaaarrgg. He's too big Joe". After a few quick thrusts the stallion pulled back and shot precum all over Jen's legs. She got up and away from the table.

"Honey you can do this. Jen looked at the monster cock that was in her knowing that probably not even half of it had been inside her yet. Jen positioned herself again as the stallion quickly got up on his hind legs and mounted her. He started humping his cock again and was able to find Jen's pussy on his own and quickly started thrusting. "Uuuuuhhhh...oohhhhhhhh...uuunnnhhh". The stallion thrust again a few more times than pulled back again and shot more precum on Jen's legs. This time she stayed in position. The stallion snorted then walked back behind Jen and mounted her for a 3rd time.

The stallion was in her quickly and was humping harder now. I couldn't believe I saw Jen push back. She obviously wanted all his cock in her. The stallion thrust and got at least 3/4 of his cock in her. "OMG I can feel him growing bigger inside me. Is he gonna tie with me? Oh shit fuuuccckkk meeeeeeee you stud". The stallion gave some more heaves and apparently was shooting his cum into Jen as I heard her cry out "I'm cumming.....he's cumming in me...OMG". As the stallion pulled back I couldn't believe how much cum came out of Jen's cunt.

As I was looking on in disbelief the doberman quickly mounted Jen and since her pussy was so stretched he found the mark right away and started to fuck her. I was suddenly knocked down by the Shepherd so I pulled my shorts down and got on my hands and knees. The Shepherd quickly mounted me and fucked me hard. I came as soon as he penetrated me. I was already hard from watching Jen get fucked by the stallion. Jen and I watched each other get fucked and smiled. Both dogs shot their load into us. I saw the Dane heading my way but got up quickly and pulled my shorts up. Jen looked spent but satisfied. "Maybe you can do the pony tomorrow". "Tomorrow???? Hell bring him in. I can't get enough cock"!
