BEASTIALITY STORIES

CHAPTER 1

The drive home from picking you up at the airport to our secluded 150 acres of paradise didn't take long as it was only 1pm and traffic out of the city was minimal, still it seemed to take forever for you. You had been away visiting your parents for the last two weeks and missing me, home and probably most of our two purebred stud Labs, we have a chocolate one Franky and a golden Ralph.

We have other animals as well that I'm sure you missed too but knowing you wouldn't have the slightest opportunity of getting any doggy lovin at your parents house for the last 2 weeks, I knew you only had 2 things on your mind by this stage and those 2 things were hanging very proudly under Franky n Ralf.

I mention I have been busy and made a few changes around the place while you were away so be prepared for a surprise or two, now I can really sense your excitement growing with every passing kilometer.

Eventually we drive through the automatic security gates and down our driveway which winds its way through the dense rain forest for half a klm or so to our home nestled in a grassy clearing among the beautiful rain forest overlooking a crystal clear creek. As we pull in to park the Labs are at your door tails wagging madly very excited, I tell you I'll take the bags in, while you get re acquainted with your boys.

As I'm getting your suitcases out of the boot I have to yell to you over all the excitement to take them to your special spot down by the creek, I'll put the bags in and meet you down there. There is a nice little patch of lawn on the creek bank that we keep manicured, it's only accessible along a little path, we designed it to be very secluded for obvious reasons, family n friends think it's the picnic area, if only they knew. I quickly drop the suitcases and run out the back to stop you before I'm too late, as I do I see you and the boys running like 3 youngsters who have just been given the keys to every ride at the royal show, how you managed it is beyond me mid stride your panties come off and go flying off into the air. It's a shame but I have to stop you now in or it could ruin your surprise for later.

I yell for you to stop and wait, as I catch up I apologize but remind you of the surprise's, and that now you need to trust me for a bit even if it doesn't make sense, as I do I grab hold of your hand and lead you in the direction of the shed.

Standing at the shed door I tell you too close your eyes for a bit while I open up and turn on the lights, when I say to you open your eyes and walk in to the shed, the first thing you notice is that the end section where we are standing has been sealed off into a smaller room about the size of a decent master bedroom, the next thing you notice is that right in the middle of the room there is a padded breeding bench, with soft leather cuffs where your ankles and wrists will be.

Instantly your face lights up and you can't thank me enough, I tell you to stop and go have a closer look, I'll get all the thanks I need later, "much later" I think and have a little chuckle to myself. You walk over to the bench shaking your head with a grin you say now you understand why insisted on measuring your arms n legs before you left for your parents, yep, so you should fit into it perfectly baby. I give you a good firm slap on the arse and say what are you waiting for, the boys are dying to get into that tight little pussy of yours, let's christen it, but before I can finish my sentence you clothes are off and you're climbing on to your new toy.

You confirm I got all the measurements right by saying it feels very comfortable and you're body

position is perfect for presenting to the studs as a bitch ready to be bred with your ass up in the air and pussy perfectly exposed.

I put a lot of time and thought into getting it so your body position is perfect and having your pussy exposed as much as possible because now you won't be able to reach around and guide the boys cock's into you like you usually do.

I was a bit worried but now that you in position I can see they just can't miss and damn you look so fucking inviting like that, I'm sure if a gay bishop walked past and saw you he would forget it all and fuck the shit out of you like a porn star.

Anyhow, while I'm admiring my handy work at the business end, you notice there is a hole for your face like a massage table has, through the hole there is 2 small flat screens TV built into the base. The boys are getting excited I can hear them whining at the door so I quickly explain to you that there are two camera's linked to the TV's one will show all the action from underneath, penetration, pullout's etc (don't stress it's waterproof) and the other will show you the side on view, I thought it would help pass some time while you're knotted.

At this point you a little bit gobsmacked and before you even realize I have the cuffs around your ankles and wrists, the TV's are turned on and you hear say from behind you that this is not even half of what I have in store for you today baby, then you hear the door open and me calling Franky, the younger and least patient one of the boys, but little do you know, Franky and Ralf have now got some serious competition.

~~~~~

## CHAPTER 2

As I'm getting Franky, the anticipation of what's about to happen sends a deep wave of excitement mixed with pure animalistic lust through your whole body, your head feels dizzy like you're about to faint as you bury your face into the padded hole and try to focus on the two TV's directly below you. Your focus comes back and you can't help but admire how incredible you look from the side view completely exposed and totally helpless like that, just so purely, ready to be fucked, in the perfect position to be presented for breeding with your sexy arse all up in the air begging to be used, abused and bred. You then shift your gaze across to the screen showing your exposed vagina and before you even get the chance to admire your perfectly shaven, pouting pussy, Franky's big hairy chocolate snout appears and soon your pussy is lost in a mess of his slobber and frantic licking. Once again you go all fuzzy and the familiar tingling of pure animal lust washes through you sexy naked body, but this time it's way beyond anything you have ever experienced before as you realize the gravity of your predicament.

I come around and quickly check the monitors to make sure I got the positioning of the camera's right, then kiss you on the head and ask "sure you're ready for this baby"? A muffled but very clear "oh my god YES" is the reply, followed by "just get him on me"!! Immediately I pat your hot little arse and encourage Franky to hop up, he usually never needs any encouragement whenever you present too him outside, naked or not he's usually on you like shot, but this time he just tilts his head sideways, looks at me with a look of confusion and desperation that says "for fuck sake, help me Dad" Ahh then I realise you are slightly too high for him, I tell you to spread you're legs a bit and as you do the back of the bench where your soaking wet and waiting cunt is , lowers slightly, the further you spread them the more it lowers and vice versa when you close your legs. I designed it like this for a couple reasons, firstly because this way when your tied to one of the dogs for long periods you will still be able to have some control and movement at the ever so important point of union, but the second reason you won't understand until later, let's just say, different dogs are

different heights.

The second Franky sees this he's up and on you, by now you couldn't give a fuck about the camera's, it's been 2 long weeks and you just desperately need to feel that big hot dog cock inside you, and Franky obliges in spades, he finds your hungry little cunt immediately and drives his hot dog cock into you about halfway, then back out and then in again this time driving himself home, as deep as he can possibly get, you moan deeply and I can tell how relieved you must feel to finally have a nice hot doggy cock buried deep inside your tummy again. I encourage Franky as he continues pistoning in and out like a jackhammer "Good boy Franky, fuck Mummy good n hard buddy, she needs it" and he doesn't disappoint, I can hear you're muffled voice moaning and saying "I'm cumminnnng, I'm cumming" over n over, the volume comes n goes to the rhythm of Franky's thrusting as his power compresses your chest against the bench.

Now Franky is a couple years younger than Ralf, and probably has similar fucking style to a 20 year old human male, mountains of energy and power but somewhat frantic thrusting that doesn't usually last that long. He has still a long way to go before he learns to knot you and tie like the older Ralf does so well. This is why I let him at you first; I figured you would probably need a good hard pounding first off after being away for 2 weeks. This time he seems faster with much more energy, the incredible speed of his thrusting is amazing to watch. Your sexy little butt ripples like jelly every time he drives himself deep into you, the whole room is filled with the sound of your moans and the loud slapping sound of Franky's balls against your tummy, every time also slapping your clitty as they do. You can feel his knot growing quickly and really enjoying feeling these precious moments where it's still small enough to go in and out but still big enough to stretch your entrance slightly with every frantic in and out thrust.

You haven't stopped moaning and mumbling that your cumming since he started breeding you, but after about 5 minutes, as usual he swells too big on the outside and stops the pounding with his big swollen knott pressed firmly against your cum covered entrance. "fuck me you look amazing, so fucking hot baby" I tell you as I pull Franky's furry brown leg aside so I can see his swollen, red veiny dog cock in that amazing, beautiful little human cunt of yours, I get down for a closer look and can see a mixture of Franky's doggy juice and your delicious girl cream running down both your inner thighs as you feel him unload more of that hot puppy seed into your deprived womb.

I had been hard all afternoon from the anticipation of all this but now seeing you in action being used like that has got me about ready to explode, I probably should let you enjoy the view on the monitors at this point but I know there will be plenty of time for that later. Right now I desperately need to unload a huge load of my cum into you, so I quickly drop my pants, as my rock hard hard 8 and a bit inch cock springs out like a diving platform. I walk around to where your head is and say "baby, QUICK, I need to cum so bad" you lift your head from the padded hole and turn to the side and there it is right in front of your eyes, begging for your lips. It's no coincidence that when I'm standing there my cock is the perfect height for you to suck; it's not ALL about you. You take me deep immediately as you feel Franky spasm and pump more hot puppy seed into you, it doesn't take long before I reach down and cup my balls (only because you cant) and explode violently into your mouth with 2 weeks' worth of built up frustration and cum. There's more than you can swallow with your head tilted like that but you do a great job and lick the spillage from your lips and the bench like it's your last meal on earth. You look up at me and our eyes meet for the first time since this session started and I see pure love and contentment, it's at this point that I am again reminded that I am the luckiest man on the planet.

Our loving gaze is broken as Franky decides he has completely emptied his balls and done what he needed to do, so he hops down and runs around to say hello, happy as a pig in shit with his tail wagging out of control. I let you have a little post mating moment and walk to the small door which

is in front of you, open it and say ok Franky, time to go buddy at which point he runs over to me and through the door. I close it and now walk to the door which is behind you as I do I tell you to get comfortable again, I guess because we were all too tied up in what was happening with Franky we didn't notice, but now we can really hear poor Ralf whining and pawing desperately at the back door. You bury your face into the padded bench again and here the click as I open the door.

~~~~~

CHAPTER 3

Once again the anticipation in your tummy is building as you hear Ralf's footsteps running toward you from behind and you realize you are about to be used again and even though Franky fucked a lot of that pent up frustration out of you, you are still as hungry for more hard dog sex. Not only that, this time it will be the old stud, your first ever doggy lover who has been making you happy for the last 5 years, he knows exactly what he's doing and he's not all about wham bam thank you Ma'am like he's younger mate. Ralf's all about actually breeding, when he's fucking you he's purpose is to knot you for as long as possible, inseminate you with as much of he's puppy seed as possible and as far as he's concerned, knock you up with a belly full of his puppies. If Franky's a Ferrari then Ralf's a Rolls Royce, not as aggressive but smooth, powerful and slightly bigger. I love seeing either of the boys breeding you but you and Ralf just seem to look so much more natural together.

As he nears you I say to you to try and focus on the screens this time, but you already are and you can't believe that the whole time Franky was fucking you, you didn't manage to see a thing. Ralf takes one little sniff of your exposed pussy still dripping with Franky's sperm, smells the competition and it's like a switch is flicked in his head. I don't know if it's jealousy, more instinct telling him that he must breed this bitch right fucking now and make sure he inseminates her with more of his puppy seed than the last dog so it's his puppies that she will be having. With that he's on you and you can see the pink tip of his cock spaying a little precum over your already cum soaked and swollen pussy, you also see for the first time how amazing it looks as he drives his dog cock into your sweet tight human pussy.

With the anticipation and being able to see him enter you like this you are sent over the edge and you feel another huge orgasm building inside you, trying to focus on watching his very rapidly growing dog cock invade your human body as he begins his powerful, deep thrusting becomes too hard as another incredible full body orgasm takes control of your helpless body. Ralf is also a bit bigger than Franky, in all areas, the extra strength and size feels amazing and stretches your pussy walls just that little bit more and goes just that little bit deeper than Franky could reach. Even Ralf now is fucking you like a frantic teenager, must be punishing you for leaving him outside while Franky had his way first.

You haven't stopped cumming the whole time and then you feel that wonderful familiar feeling of his knot starting to grow, and after Franky your dying to be totally knotted but you know Ralf knows what he's doing and won't let you down. "oh my god, that's it Ralfy, make mummy your bitch"!! "knot me good n tight" I hear you mumble. With that he has one last power full thrust and you feel him drive his now swollen knot home. It's such a relief to know he can still knot you while you are cuffed to the bench like that, as usually when you's fuck outside you help him by pushing back on to his cock to make sure it all in. Well he certainly didn't need any assistance this time, he's got it in you and it's not coming out for quite a while, you can now focus and you look down at the screen and can see his swollen knot making your mound bulge and dog cum dripping from his furry balls and oozing out of your pussy around his cock.

I ask you how it looks to you and you reply "his doggy cock looks so fucking amazing inside me", to

which I respond "oh I know it does babe, now you know why I love watching you's mate" , "you are such a good bitch baby, you look fucking amazing all knotted up like that" these words send you into another moment of orgasmic bliss and you realize he just won't stop cumming either. I can tell how much he is because it's running down your legs and I can see his arse clench with every time he sprays more doggy seed into you.

Usually Ralf likes to turn around and be butt to butt with you but this time it could be a little hard due to your position and height so I hold him on your back and let him finish there which he eventually does after about 40 minutes and gallons of sperm later. He slowly slides out of your well used pussy and its at this point that I'm glad I thought to make the bottom camera waterproof because an amazing amount of cum gushes out after his cock does. He then quickly has a bit of a sniff and cleans you up with his big tongue, then runs around the front to thank say thank you with a big lick on the face. Now your face is covered in a mixture of the two dogs come and your girl cream and judging by the smile on your sexy face you don't mind at all.

"C'mon Ralfy boy" I say as I walk to the door at the front of you, "time to go buddy". He runs through the door like a good boy and I close it, then instead of coming over to undo the cuffs like you were expecting me to, I walk straight past you to the back door and open it, then you hear me yell out, "Rex, c'mon boy", "c'mon mate it's your turn now boy".

~~~~~

## CHAPTER 4

"What tha fuck?? Who's Rex??" you yell to me, as you hear his footsteps trotting up behind you, however this time the footsteps seem louder, obviously being made by a considerably heavier dog. This is correct, I start explaining to you that while you were away I finally got the work finished on the Boarding Kennel that I'd been working on for months and Rex is one of our first Boarders. "Baby meet Rex the Rhodesian Ridgeback, he's going to be here for a month."

You don't know whether to be happy or really scared, but this situation is really starting to excite you more than you already were. A strange dog, a BIG strange dog, we had often talked about the size and power of Ridgebacks and you always wanted to meet one day, well now you have and hopefully he's going to fuck the shit out of you and make you his bitch too. You think to yourself "fuck I'm a total dirty little dog whore, 3 in a row, if he fucks me too, hope he does".

I don't know if he is experienced or not or if it's just animal instinct, but he goes straight for your dripping pussy and starts have a sniff and lick, also making whining noises like he's anxious. "Good boy Rex" I say and give him a pat, "wanna fuck that pussy boy, like the other 2 just did?", "Go on mate, make that sexy little doggy whore your bitch, she wants it bad." I hear you say "fuck yesss I do", "please make him fuck me, please". He has another sniff then runs around you all excited checking you out, he looks like he just can't believe his luck, probably thinks "fuck is this actually happening to me" like all his Christmases have come at once.

He must of thought "well I'm not waiting around any longer in case my luck changes." I can see he has part of his cock out now. He trots around to your hot little behind and jumps up, but he's a little high so you pull your legs together and raise up to meet him. Then you feel it, it's already huge, a moment of panic rushes through you like a lightning bolt , but leaves you just as fast as you feel that huge warm cock easily slide into your well lubricated pussy. "Oh fuck ,oh fuck oh fuck YESSSS", you look at one of the monitors and see how big it is and your wet little pussy lips stretching around it girth, holding it tightly as it enters you. "Fuck , feels, amazing, oh FUCK ME REX"!! I hear you say as he starts building up some rhythm and obliges your request with much enthusiasm, he fucks you hard and fast like Franky, but so much deeper and with much more power than Ralf. Now you really

do just feel like a total doggy fuck toy, being totally used and abused by a big powerful animal that you or I cannot control, at this point you are in for the ride of your life , like it or not.

You have a look at the other monitor and from the side view you can't believe how tiny you look under this big tan beast, but you also look so hot under him like that, your dark skin looks great against his yellow, you sexy little arse in the air, and you long shiny black hair all over this strange dogs face as he buries his head into the back of your neck to get deeper. You feel him slow down a bit and his knot starting to swell fast, he is so big he can only just fit it all inside you and still have the knot in enough to tie, it does feel a bit awkward at first to you but soon feels nothing but pure pleasure as your tight little pussy stretches to accommodate what is by far the biggest object it has ever had to accommodate before.

After he settles down a little bit he starts trying to turn around, so I help him and make sure he doesn't yank that huge knot out of you as that would be dangerous. Luckily because of his height he turns around and is standing there butt to butt with you. You feel amazing like this, almost just hanging off this huge cock which is joining you to this beautiful animal that is sending wave after wave or hot dog sperm into your tiny little body and womb. You look at the screen and admire yourself again, looking so natural butt to butt with a big dog like nature intended.

Now I tell you to move your legs in and out and you can move around and grind on him a bit, which you do, "that's it, milk that big doggy cock baby", "Get all that puppy juice inside you like a good little bitch" "he's not going anywhere for quite a while" me saying this and the feeling of being able to move around on his cock sends you into orgasmic bliss , I also see an opportunity as your arse is not exposed, I rub my finger in some of the messy dog cum around your pussy, then move the dogs tail a bit and slowly start fingering your arse, it's extremely tight in there but I slowly work my finger in deeper until I can feel past his knot , "fuck it's huge" I say as I start really fingering your tight little arse now. This just make the big long orgasm you're having continue longer and way more intense, you feel like you're going to pass out, your continuous moans make me ask if you're OK, but you're unable to answer, I doubt you could even hear me, it's like you're on another planet, or in a trance.

Eventually after being tied butt to butt for over an hour the big dog slowly subsides and pulls his huge member from you bruised and battered sopping wet little cunt, again gallons of dog cum gushes out, however because of your position there must still be gallons from all the dogs still inside you, we both like knowing this. I love seeing you completely satisfied like this and I know how much you love doggy cum inside you. I lead Rex around so you can see the size of the huge cock that just fucked you, you can't believe your eyes, and it's not even fully hard anymore, but it would have to be 9 inches so it must have been monstrous inside you. "fuck baby, you're such a good little bitch" I say as I lead Rex to the front door and let him out.

The End , for now!

This is a fantasy i would love to make a reality one day...
