## **BEASTIALITY STORIES**

I have been married for 10 years to a wonderful man who satisfies me well in bed but in a very traditional manner, no new positions or heaven forbid, toys etc. I have always been curious as to other methods and have a hidden collection of toys that I use on myself when my husband is on business trips. One day I was surfing the net for toys when I saw an ad for women who fucked dogs and horses and I was curious but hesitant to look. My curiosity got the better of me one day and I did a search for dog fucking videos. I rented one and was amazed at how turned on I was, yet felt it was such a taboo, I felt guilty. It was weeks before I thought about it again.

I work for a seniors complex and run the activity program, one day I received a call from one of my neighbors who has a large male Bouvier and a male Golden Labrador, he read in an article that seniors enjoy pets and it was good therapy to have them visit. He asked if I was interested in starting a pet visit program. I thought this was a good idea and once it started it was a great hit with the seniors. There were many volunteers from the community that brought their pets in one day a week. My neighbor asked if I could take his dogs with me one week as he was too busy and if I could keep them until after supper that evening. That is when the idea letting a dog fuck me entered my head again.

After work that day I loaded the two happy dogs into my van and drove to a local "no-tell motel" on the edge of town. I was nervous as I registered under a fake name and paid my fees. The man behind the counter just gave me a good leering up and down, staring at my cleavage and giving me a suggestive smile as he handed me the key. When I got in the room I called my husband to say I would be late, then went to the van and took the dogs out. As I was walking them to my room I saw the motel clerk peeking through the blinds at the office at me, it kind of creeped me out but I thought nothing more of it and closed the door behind me.

The dogs were jumping around the room, sniffing everything. I turned on the TV as the room seemed too quiet and I was nervous, wondering what I was doing there. Before I lost my nerve I quickly took off my skirt and blouse, leaving on my thigh-high black stockings and black lace bra. I wasn't wearing any panties. My pussy was so wet I sat on the bed and started to finger myself.

First Joe, the black Bouvier, came over and started to sniff my crotch, his wet nose and furry snout felt so good against my crack. I spread my legs and he quickly started to lick my pussy like he had done this before. I lay back on the bed with my legs hanging over the edge and spread my legs apart. Joe continued to lap at my pussy, his rough tongue probing deeper into my cunt. I was on the edge of cumming and started to gyrate and moan loudly. I needed to be fucked badly and wanted to wait to cum until he was in my pussy with his big cock. I climbed off the bed and onto the floor, I looked for Toby, the Golden Retriever and saw him sitting licking his red tip sticking out of the sheath. Joe was bouncing around me and I reached under him and started to stroke his red tip and he stood still, enjoying the jacking he was getting. His cock felt so warm and smooth, I couldn't believe how big it was getting as it grew out of the sheath. It must have been about 10 inches and thicker than anything I ever had in my cunt before.

I was shaking with excitement and bent over on my hands and knees and Joe quickly came behind me and started humping me hard, trying to find his mark. Toby came sniffing around us and Joe growled a deep growl as if to say, "She's my bitch". Toby came and sat near my face. I reached behind me and guided Joe to my pulsing hole and he thrust hard and penetrated deep. I sucked in my breath and groaned at the size of him, it kept growing inside me, it was the most erotic feeling I ever had, I came with a shocking orgasm and bucked against his cock, feeling the knot at my hole. It was as if he felt the intense pulsing of my cunt that made him f\*\*\* me harder, he was panting in my ear and kept a steady hard and fast rhythm like I had never experienced.

I opened my eyes and saw Toby sitting in front of me, his cock sticking out. I reached out and started stroking him. His red pointy cock was sticking out now about 5 inches and growing. I was being fucked by one huge beast and jerking off another, it was incredible. I started to scream at Joes fucking, his cock was so big I could feel it hitting my womb, just then I felt a big bulge pop in my cunt, it was his knot inside of me and I almost panicked. We were tied together and the thrusting was not as intense but his cock continued to throb, growing thicker still and I could feel it getting harder as Joe was close to blowing his load in my cunt. He shuddered and growled a low growl as he came and pushed all his weight on my back. Toby was humping my hand harder now and the big red cock was slick.

Joe's load filled my cunt and was oozing from my pussy lips as he still bucked me around, as the knot was still hard in me. It slowly got smaller and I could pull away. He sat right down and started to lick himself.

I turned around and Toby wasted no time in climbing on, he panted and whined as he frantically tried to stick his cock in my cunt where Joe has just been. My pussy was sore from the previous fucking but I was still incredibly horny. I couldn't get enough. Toby was pounding a steady rhythm and I knew it wouldn't take him long as he had to wait his turn. His cock was not as big as Joe's but was still large and felt so good as it thrust in and out bringing me to another climax.

I started to cum, screaming, " fuck me, fuck me, fuck me" over and over. Toby's knot penetrated my cunt as he unloaded his spunk in me, I reached behind me and rubbed his nubs and he started to hump me again. I couldn't believe it, he was going to fuck me already again and we were still attached. He started to drag me across the carpet as he geared up for round two, I was his bitch now and he wanted to make that known to me and to Joe who was watching the show from a few feet away. He fucked me for what seemed like an hour. Toby came over and over before he relaxed and pulled away. I fell on the floor totally spent, cum pouring from my pussy. Joe came over and sniffed my pussy and started to lick me again. I rolled on my back and spread my legs one more time. He licked me clean and lapped his big tongue in and out of my now sore hole, I felt my clit start to tingle again, I kept saying " Good Boy, Good Boy" and the praise kept him going until I came once more. I never had orgasms that intense before and knew it was going to become an addiction.
