## BEASTIALITY STORIES

I met Betty a school gym teacher when I was a senior in high school. In my senior year I was getting extra credit working in the library after school. One late afternoon I was delivering some books to the girl's gym. I entered the office but no one was there so I laid the books on the gym coach's desk and as I was leaving I heard some giggling coming from the locker room. I heard someone say, "god that feels good, you're making me cum." I sneaked into the locker room and heard some more giggling by the showers. On a bench outside the showers was this girl lying on a table. She was completely naked. She was on her back with her knees up and spread wide open. Right in front of her and bent over eating the girl was the gym teacher Betty Longshore, who every one called miss Betty. I couldn't believe my eyes. Miss Betty had those legs spread wide apart and was running her tongue in and out of the girl's pussy and at the same time she had two fingers in the girl's ass. She would suck on her clit and at the same time shove her fingers in and out of her ass. Miss Betty had a real talent for running her tongue first on the clit and then would insert her tongue back into her pussy and lick away the girl's juices. The girl was moaning and almost whimpering as she enjoyed multiple climaxes.

I realized the girl was an eleventh grader I had seen around school. She was a real looker with nice firm tits. Miss Betty was stark naked and bent over like she was I could see her ass and her pussy which was wet and dripping with cum. Miss Betty had long athletic legs, tapering to slender ankles, but what an ass. She had two beautiful mounds that formed a deep crack in the middle. The girl was telling the teacher she couldn't stand much more of it she was so hot. I got so turned on that I undid my pants and began to stroke my cock. Finally I could not stand it any longer; I walked up behind the teacher and grabbed her around the waist, and lifted her off her feet. I shoved my seven inch cock deep into her pussy. She freaked out and said, "Shit, what's going on, who is it?" she cried. I didn't say a word. I tucked my chin into her neck and plunged my red hot cock in and out of her pussy. She stopped struggling after a short time and began to push back at me. I could feel her cum and her cunt was dripping pussy juice all over her leg, my leg and the floor. At the same time the girl had sat up and the look on her face was sheer fright. I increased my tempo in and out of the teacher's pussy faster and faster I pumped. I looked up at the girl and slowed my strokes down and I told her to lye back down and enjoy her teachers tongue. She did and the teacher began to eat her just as if I wasn't there. I made sure I didn't ram her too hard so her teeth wouldn't hurt the girl's pussy and clit. I fucked her for about eight minuets and I swear that teacher must have cum ten times she was so hot. Finally I grabbed her waist and plunged my hot cock as deep into her as I could get and came. I could feel the teacher's ass quiver as she came with me. As I pulled out of the teacher the girl sat up and looked at my cock and said, "Oh my god, I have never seen one that big". "I have got to have some of that," I said. why don't you change positions with Miss Betty and eat her beautiful cunt. "Oh I want to and you can fuck me at the same time, right?" she panted. I said, "Well Miss Longshore what do you think? She said your Jason aren't you? I nodded. She then said I think that sounds wonderful but just call me Betty.

Betty laid down on the table and the girl began to lick her cunt and she turned her head and said "I can taste your cum and it's nice. By the way my name is Gloria. She went back to kissing and massaging Betty's pussy with her tongue. Betty began to moan and I looked at Gloria's young ass and got hard again. I parted her legs and tried to insert my wet cock into her pussy. It would only go in about three inches because of my girth and I couldn't get it in any further. She was game because she kept trying to push as hard as she could against my cock but it wouldn't budge. I pulled out and she said where are you going? You are going to fuck me aren't you? I said just a minuet I said and I went to the shower room and grabbed a bar of soap. I began to massage her pussy with the soap and I inserted two fingers and began to finger fuck her. Her pussy relaxed a little and I was able to insert two fingers. I also inserted my little finger into her ass and she began to rock back and fourth

against my fingers.

Betty was now Cumming like a fountain and Gloria was sucking up her juices as fast as Betty would cum. Finally I soaped my cock real good and re-inserted it into her pussy. This time with the combination of the soap and her own juices I was able to shove about six inches into her. She grunted but kept right on eating Betty's pussy. I began to move in and out of that real tight pussy. She came and her pussy relaxed a little more, so I buried my cock deep into her stomach. I could feel her cervix as I slammed her hard. She let out a soft whimper but kept on eating. I really began to thrust my cock in and out of her. She was pushing back at me, and I could feel my balls slapping at the under part of her pussy. Just then Betty grabbed Gloria's head and forced her face tight against her cunt and I could tell she had one of those big climaxes and she shot her liquid all over Gloria's face and tits. Gloria was choking and spitting out the liquid. She screamed, "you peed on my face" Miss Bettie said, "it's not pee its water and cum. I was really turned on now and I reached around and began to massage Gloria's tits. I squeezed her nipples and Gloria let out a soft moan as I drove my cock deep inside her. I began to fuck her in earnest now, shoving my cock in and out of her; in and out always increasing my tempo until I was fucking her in frenzy. I felt my balls fill and I grabbed her tits and shoved my cock as deep and as hard as I could inside her pussy and came directly into her cervix. Gloria said, "Wow, I have never been fucked like that before. I may never go back to my boy friend. Betty also echoed Gloria saying she hadn't been fucked that good in a long time either. It sure made me feel good.

That is how I met Betty. I fucked Gloria every day until summer vacation started. She was not as good at sucking my cock as the Betty the teacher but she had a wonderful sweet pussy and those lovely tits made up for it. Unfortunately Gloria moved away that summer. I started seeing and fucking Betty as often as I could. I was still fucking her four years after I graduated. One evening after dinner at her house she said I have to tell you what happened two weeks ago. You aren't going to believe this. I stopped by this friend of mind who teaches English at school. I was going to see if she wanted to go to a special seminar for teachers with me. Her doorbell wasn't working but I new she was home because her car was in the driveway and the TV was on, so I tried the door. It was open and I went in. The TV was a little loud but I heard this moan coming from her bedroom. I walked into the hall and Jason you could never guess in a million years what I saw. There was my friend (she never would tell me her name) with this great big dog humping her. He seemed to be hung up inside her and every time that dog would hump into her she would moan and I could see her push against the dog.

I said for gods sake what are you doing? My friend tried to get up but that dog just held her in that position. When she finally was able to get that dogs dick out of her I saw it had a great big knot in it and that was what seemed to have kept her from moving while it was inside her. My friend started crying and caring on something awful. She said "Oh Betty please don't tell anyone about this my reputation would be shot and I think I would just kill my self." I said, "When did all this start." She told me how she had done a favor for one of her neighbor friends when they had a chance to go to the Far East about four months ago. She said the friend had an Afghan. A thoroughbred afghan is a huge dog. She said she agreed to take care of it for her. She said she kept it in the back yard but left the slider open so the dog could come in and out at night. She said she came home after school one afternoon and it had been a trying day. She said she started to draw a bath, and stripped and laid down on the bed and dozed off while waiting for the tub to fill. She said the next thing she new she felt this warm feeling between her legs and she had a climax as she woke up. She said there was the Afghan licking her pussy. She said, "That dog had the longest tongue, he penetrated about three inches into my vagina and had made me cum within a minute of my sitting on the bed..

I jumped up and pushed him away but tripped over my shoes and fell flat on my face as I had tried to stand. I got into a kneeling position to get up and that dammed dog mounted me and stuck his dick

into me and began to fuck me like a rabbit. His dick swelled up and filled my cunt like it had never been filled. Betty, I never felt anything like it when that dog shot his cum inside me. With every thrust I could feel him shooting into me. I began to cum like I have never cum before. I couldn't stop Cumming. I must have cum a dozen times without stopping. It was then that I realized I had started my period and that's what must have triggered the dog to do what he did. The dogs knot began to reduce and I remembered my bathwater was running. I jumped up and ran into the bathroom and turned it off. I was sure glad for the relief drain or it would have been overflowing. I felt so ashamed of myself. I showered twice and took two douches.

About four that morning I woke up thinking about what had happened and how turned on I got from that dog fucking me. I began to rub my pussy and I climaxed almost immediately. Betty, I couldn't help myself I let that dog come back into the house and I took out my Kotex to see what the dog would do. Sure enough he started licking me. I spread my legs and lifted them up and I swear that dogs tongue went in me a good three inches and it licked and licked and I came and the dog licked even harder. I got down on all fours and it mounted me again. His dick almost went up my ass but I pulled back and guided him into my pussy. Like before he fucked me rapid fire until its dick swelled up again. That knot again filled the whole inside of my pussy and I began to feel him shoot its sperm into my vagina. I was Cumming again like a fountain over and over with each spurt of his cum. What a feeling. I didn't go to work for the next five days. I called in sick and said I had the flu. Betty I let that dog fuck me every few hours for the next three days. I hardly slept. I couldn't get enough. The dog started getting a little weak and so I fed him a lot of milk and yogurt as well as his regular dog food; and spaced out the time to about every five hours between fucks. He stopped fucking me as soon as my period stopped. No matter what I tried I couldn't get it to fuck me after that.

When my friends came home and took the dog back I was devastated, she continued. I couldn't get that dog out of my mind. a couple of weeks later I saw an add in the paper about a couple who were moving back East and were looking for someone to take their Great Dane and give it a good home. What timing, I called and asked to see the dog. When I got there the owners were a nice young couple that had bought a Townhouse in New York and they didn't allow pets. The Dog was two and a half years old, not quite fully grown. It weighed about one hundred and twenty pounds and stood as high as my waste. They told me he might gain another twenty pounds and grow a little bigger. They said he was a thoroughbred and I could with the papers they would give me breed him and get all the cost back and then some. They were asking \$500.00 for him. I told them on a teacher's salary I just couldn't afford that much money. The women asked me about the place I lived in. I told them about my home and the big back yard I had. They said what do you think you can afford? I said about \$300.00 was the best I could do. They countered and said we will accept the \$300.00 on the condition that if you breed the dog you will send us the other \$200.00. I agreed and they signed the papers giving the dog named General to me.

I could hardly wait for my period to start. Finally ten days later I started. Just like the other dog he started licking my vagina; his tongue is not as long as the other one but is much fatter and stronger and General would put that wide tongue about two inches inside me and make me cum in minuets. At first when I got on all fours he didn't know what to do, he just kept licking me. Betty it was hard to stop him from just licking he is so big, but I managed to get him on top of me and I began to jack him off. He started humping and I guided his dick into my vagina. General is not quite as long as the other but much bigger around. She said, when General swells it is even bigger than the afghan. He was about five and a half inches from the tip to the knot. When the knot grows too the size of a tennis ball it totals around nine inches.

When I felt that huge knot inside me I came even more than before. I remembered about how the dog would quit fucking when my period was over so I bought a bunch of condoms. And filled them with my blood and put them in the freezer. I always had a heavy flow during my period, and as long

as I space out the time in between bouts with him, around six hours, I can get General to fuck me any time I wanted. I just defrost one of the condoms and put the blood on my pussy and General does the rest.

Jason I was shocked but fascinated. She asked me if I would like to fuck him. I think she thought if I would then she was safe. I said no I don't think so but do you think you could get him to do it again; I'd like to watch. She said sure but we would have to wait about an hour. We went in and had coffee and I told her about the seminar and she agreed to go. We went back into the bedroom and she took off her pad and I could see she was flowing pretty good. General went right to work and began to lick that blood off her pussy. I watched as his tongue went in and out of her in a big scooping motion. I started to get hot. She got down on all fours and rested her head on the bed and that dog jumped up on top of her and began to hump her like a rabbit. I could tell when that knot was inside, because she would rock back and forth from the motion of the dog inside her. I could see her eyes were rolled back in her head and all you could see were the whites of her eyes. I got so excited I lifted her head and shoved my pussy into her face I was just starting my period but My friend didn't hesitate a second, she began to lick my pussy and suck on my clit. Jason it took me about thirty seconds before I came all over her. She continued to lick all the juices in my pussy and made me cum again in about another minute. I must admit I was real curious but was afraid that I might get hooked like she was. I am glad I didn't even though it made me hotter than hell. I said that's pretty sick, but I might have gotten turned on myself if I'd been there. I was and I fucked her one more time before I left. She was real hot from telling the story and wanted me to fuck her doggy style. I bent her over her chair and fucked her long and hard. When I left she was as weak as a newborn calf. Her legs shook and she could hardly walk me to the door. She was completely drained, as I was pretty much shot myself.

I called Betty the teacher at school and told her I was in town. She said it was Friday and invited me over for dinner and said pick up a bottle of wine and then let me take your mind off things. She said she had bought a house in the hills and gave me the new address. The house was cute and set back from the road. I guessed it was on about a half acre. You can imagine my surprise when she let me in; there stood two of the biggest dogs I had ever seen. A Great Dane and you guessed it an Afghan. Betty blushed and turned red as a beat. I think it was at that moment she remembered telling me the story of her friend and the dogs. I didn't say anything; I just gave her a kiss and hugged her. We went into the living room where she had drinks prepared. We had dinner and she asked "will you stay the night?" I said yes, if you would like me too. I noticed that wherever she moved those two dogs would move behind her or to her side. She put the dogs outside and we went to bed.

She seemed a little nervous at first but as soon as we began frenching she loosened up and we fucked after eating each other. I noticed that her pussy was not quite as tight as I remember it being, but she still had good muscle control and milked my cock dry when I came. While I was eating her pussy I kept visualizing those dogs fucking her. Finally I couldn't hold back any longer, I said, how long have you been fucking those dogs? She froze for a moment and then saw my grin and she giggled.

Well, she said, "I kept thinking about the look on my friends face when I saw that dog fucking her. Every time I thought about it my pussy would get all wet. I'm getting up there in age and don't get those young studs making passes at me anymore. You arn't around that much any more either. Any way I finally went to my friends house when I new she was in her period. When I got there I had convinced myself that I just wanted to watch that dog fuck her again. After we had a couple of drinks I told her I was dying to watch her dog fuck her. She said, no way, only if you let one fuck you too. At first I said no, but when I saw she was not going relent I said well maybe. She asked me which I

would prefer. I was shaking I think a little from anticipation and a little from fear, maybe the Great Dane. She said Ok. Are you having your period? Yes, I said, you know we always have it about the same time. She put the Dane in the kitchen and we both got undressed. There we were standing with nothing but the strings hanging out of our pussies. She pulled hers out and let the Afghan start to lick her pussy and said, "Ok now let him lick yours and see how it feels.

I couldn't believe the sensation as his tongue began to lick my pussy. I still had the tampon in so I pulled it out and the dogs tongue went inside me just like she had mentioned about three inches. When its tongue swiped across my clitoris what a feeling, I couldn't help myself I came right then. She then got down on all fours and let that dog mount her. I got down on all fours too and watched. That dog's dick went in and out of her like a piston and I could see that knot begin to swell. The knot snapped in and out of her pussy until it wouldn't come out anymore because of the size. The dog started shoving into her in sporadic jerks, and I knew it was Cumming inside her. I looked into at her face and I swear she was somewhere else. Her eyes were in the back of her lids and all you could see were the whites of her eyes and a pleasant smile. She was shuddering and Cumming with each spurt of that dogs sperm. The dog held her like that squirting his jizz for about fifteen minuets before he subsided and got off. She collapsed on the floor and the dog started licking her pussy again.

Her pussy was really flowing brought on I'm sure by the dogs fucking her, so I took her tampon and reinserted it into her vagina. Then that dog came over to me and started licking me while I was bent over. I became paralyzed and couldn't move. Without realizing it my friend had gotten up and went into the kitchen and gotten the Great Dane. She put the Afghan away and the Dane began to lick me. I hadn't turned around so I didn't see her switch. I only new I could not move. That dogs tongue scooped out my vagina juices as I came and came and came. Suddenly thet Dane mounted me and its entire six-inch dick slammed into my pussy fucking me in a rapid motion. In and out, out and in as he hammered my pussy. I began to feel his knot start to swell and it started hurting because as it got bigger it was snapping in and out of my pussy. I was scared and excited all at once. Then his knot swelled up and stayed inside my pussy. Jason, I went crazy. He locked me so tight I could not move and I felt his dick jabbing at my insides and Squirting his sperm deep inside my vagina. Jason, I couldn't stop Cumming. If it weren't for the dog holding me in position I would have collapsed. When he finally dismounted me I was so weak I just laid there on the floor. My friend smiled down at me and said "now you know what I meant when I said it was a sensation like none you will ever have.

I must admit it made me hotter than hell, so I said how about a demonstration? She said I don't know I'm afraid of what you will think of me. I said "You must know I won't think anything negative about you, I'm just curious. So she went to the refrigerator and took out a rubber and put it into hot water until the blood defrosted. She then rubbed some blood over the lips of her vagina and let some run inside. She sat on the edge of the sofa and General began to lick her pussy. I watched the expression on her face as she closed her eyes and put her head back. I could tell she was really turning on from the dogs tonguing. She wiped more blood on her pussy and got down on all fours and that dog mounted her and began fucking her. I could hardly believe a dog could fuck that fast. The knot after about five minutes of pounding swelled up inside and he was holding her real tight but giving short little jabs into her. I new he was shooting his cum into her because she was shouting OHHHHHHHHHHH god OHHHHHHHHHH Jason, I'm Cummmmmmming.

It made me so horny that I got on my knees and pulled my cock out and shoved it into Betty's mouth. When I realized I was face to face with that dog and not wanting him to think I was a competitor and getting my face bit I leaned back and laid down allowing Betty to bend lower shoving her ass higher and letting the dog penetrate even deeper. Betty was sucking and licking my cock but the eyes were back in the sockets like she was out of it. There I was looking up at that dog as he shot his juices into her and I came into Betty's mouth within minuets. I couldn't believe something like that could arouse me so. I left after assuring Betty I did not think she was a sicko. She said she still like fucking

me best, but I wondered.

Betty's letter

I had not heard from Betty the school teacher since she sent me a letter about eight years ago telling me that that she had gotten married and moved to San Diego.

*Dear Jason,*

*Just to let you know what has been happening. We bought a Kennel situated on about five acres. And we are raising champion Great Danes for breeding. Oh I know what you're thinking and the answer is yes. I train the males when they are about two to fuck on command. I learned that if a women can make herself cum first the dog can be taught to respond to the smell. About a year after we bought the place I caught my husband fucking one of the female's we used for breeding our giant breeds. I got turned on watching him plunge his cock into her cunt. She took all seven inches. What always excites me about my husband Jason like you he not only has the same seven inches but it is three inches in diameter. When he saw me watching him he said, "well, why not, I saw you letting our pet Dane Oscar fuck you two weeks ago. I got so turned on watching you enjoy his cock I decided to fuck one of the females to see what it was like, but Daisy bit me the first time I tried it, but then Daisy became in heat several days later and I put a muzzle on her and began to fuck her twice a day for two weeks. Usually a female will not let you fuck them unless they are in heat but for some reason Daisy liked me fucking her and since then she throws her ass at me whenever I come near her."*

*I said Tim (that's his name) I'm so dam hot watching you poll ax that bitch that I need you to fuck me right here and now. He pulled out of her and stuck his wet cock deep into my ass as I bent over Daisy's dog house. Jason, I was on fire. I came three times before I felt his hot cum deep in my ass cavity. He keeps Daisy away from the rest of the dogs but still uses her to breed. With the fear of getting caught gone I began to teach all the dogs to fuck on command. I would get so turned on thinking about it that my pussy would reek of cum and it didn't take long for each dog to learn to fuck with that smell, or when I was in my period. They now sell for twice the price a Dane would normally sell for.*

*The interesting thing is almost all the women want a demonstration prior to buying. Mostly they want to make sure the dog will really fuck on command. I always let Oscar fuck me because he has been doing it for so long. The women get so turned on when they see how much I enjoy it that that they immediately let the dog they have chosen fuck them right then and there. We take moving picture of them getting fucked and file it with their paperwork in case they try to black mail us. I had one women from Sweden give us an extra thousand bucks if I would let her fuck four of our dogs one after another. I took her out to one of the pins and picked four dogs including Oscar. I brought out a bench and had her lay across it. I started to massage her pussy to get it ready, but she was so hot she came in about sixty seconds of my probing her cunt. Oscar did the rest. He fucked her good. He has a pretty good size dick and when that knot swells it gets as big as a tennis ball. I measure him once and he was nine and a half from the back of his knot to the tip. After the swelling went down the next dog jumped her and I thought she would go crazy. She was moaning and caring on in a frenzy of passion. Then the third & fourth dog took their turn. I started to go in and get her when Oscar Jumped back on and fucked her again. Her pussy was a fountain of dog cum mixed in with her own orgasms.*

*I got so turned on I straddled the bench and placed my dripping pussy in front of her face to see what she would do. She reached over and grabbed my ass with both hands and pulled my pussy to her face and began to ream me with her tongue as Oscar continued to fuck her. My juices were*

running all over her face and the bench. I came several times before she finished. I asked her if she had had enough? Jason can you believe she just nodded no. I said do you want more and she nodded yes because she couldn't talk she was breathing so hard and I swear her eyes glowed. I said tell me when you have had enough so I let them continue. I kept each on a leash so they wouldn't fight over her and would release each one in turn as the other dog finished. I lost count how many time she got fucked by those four but I know each one fucked her at least twice more and Oscar 3 times while I was there, I became so hot watching her getting fucked like that so I let the dogs off leash and I went into the training pen and let two of the trainees fuck me, but when I tried to get up to go see if the women was done The biggest of the two jumped me and knocked me over and fucked me again. I even think he was bigger than Oscar because that knot swelled up inside my swollen pussy and he dragged me about ten feet by my pussy. I grabbed one of the poles and held on until his knot subsided and I got out of there before the second one could fuck me again.

When I got to the women she was passed out, but the dogs kept right on fucking her. One at a time I took the dogs out. But old Oscar saw what I was doing and jumped her again before I could get a leash on him. I was scared the women was hurt bad but had to wait until Oscars knot went down. I swear Oscar had a smile on his old face when I took him out. I said OH shit, when I looked at her. Her ass was wide open with cum and blood oozing out of her. The dogs must have gotten into her ass somehow. Maybe after she passed out. The lips of her pussy were swollen to about four times their normal size. I took a bucket of cold water and bathed her swollen pussy and ass. She finally came around and I helped her into the house because she couldn't walk by herself. After a shot of bourbon she said she had never cum so many times and with such massive orgasms that she just passed out. I apologized for leaving the pen, I told her that I had a phone call that took longer than I realized.

She asked me how many times she got fucked after she passed out. I said I'm not sure but I think each one fucked you at least three times before I could get control of them. She said wow and gave me an extra five hundred bucks. She told me that was the greatest demonstration she had ever witnessed or participated in. She has since sent me a dozen or more buyers and bought two more dogs. Three months later two very rich women came at the same time and wanted to get fucked like their friend I just told you about. We went to one of the pens and I pulled a long low table in and told them to lean over the table about three feet apart. I took a vibrator and got them to cum a couple of times before I brought in six of the dogs. Jason ,they really worked them over. Five of the dogs fucked them at least twice, and the biggest of the six fucked each of them four times over about six hours before they cried uncle. Their pussy's wouldn't close for about two hours until I put an ice pack on their pussy's because they were so swollen. They gave me five thousand bucks for the demonstration, and have since sent me eleven more clients.

We bought two more bitches to breed because we could hardly keep up with the demand.  
Will right again soon.  
Betty

~~~~~

Jason,

Thanks for giving me your E-mail address it's safer than a letter that might get in the wrong hand's.

I just got out of the hospital ten days ago and I needed to tell someone what happened to me. Since you were always a good listener and never made any judgments. Remember I told you about my husband and me raising pure Great Danes? Well we now have about sixty of the finest Danes in the world. Anyway one morning about three weeks ago my husband woke me up at about six am by fucking me in the ass (he loved fucking me there and did so quite often). We had not had sex for

about five days and when he came he really unloaded in me, after words he told me he had to go to town to pick up some things and would be back about three. I went back to sleep and woke up about eight. I put on a robe and went into the kitchen and fixed myself a pot of coffee some of my husbands cum was oozing out of my ass. I looked out into the back yard and could see my husband had let the males out into the outer yard area to get some exercise. We had 33 males and 27 females. I took my pot of coffee and went out into the yard and set at our picnic table, it was such a gorgeous sunny day so I took my robe off so I could get some sun.

I was admiring how beautiful our dogs were and especially one called Tiny. We had been special breeding for some time for size, and Tiny was our pride and joy. He was almost six feet from his nose to his tail and weighed one hundred and ninety pounds. He was only three and we were using him for special breeding. I had never let him fuck me because he was so big. His cock was over 7" inches and when his knot would swell up to the size of a baseball would add another 3 & ½ inches.

I was kind of day dreaming and my ass was hanging over the bench. Oscar, who was my constant fuck companion started to lick the cum in my ass hole still there from my earlier ass fucking by my husband. It felt really nice and when his tongue went inside my ass I came. That got old Oscar trying to hump me. I said what the hell it was a beautiful warm day so I got up and leaned over the low table and let him enter me. Oscar's dick began to fuck my pussy like he always did. I soon felt his knot swell up in me and held me tight as he began to cum deep in my pussy. When he was finished I just laid there until the knot subsided. As he jumped off a gush of cum squirted out of my hot pussy. I was thinking how good I felt. Suddenly I became aware of all the other dogs were around me sniffing and licking my pussy. I was enjoying the licking until I realized they might treat me like I was in heat.

Before I could move though Tiny jumped on my back and his weight forced me back on the table and his big sausage went into me like a jack hammer. Tiny was fucking me like a steam engine and I felt that huge knot begin to swell. I thought oh shit this is going to hurt. Boy It did but mixed with the pain I felt the excitement well up in me and I began to cum. The knot was huge and it stretched my insides to the breaking point. I felt huge amounts of dog cum squirting into my insides. The tip of his dick hit my cervix and I felt him slid partially into it, maybe an inch, all the time shooting his juices into me. It hurt but excited me at the same time. By then I was so wild with passion I couldn't seem to stop Cumming. When he finally stopped I couldn't seem to get enough so I reached back and grabbed his hind legs and began to rock back and forth. I could feel that big knot sliding back and forth inside me. The knot began to rub my G spot and a new sensation welled up in my insides and I came with almost a 1/4 pint of liquid cum. I fainted from the thrill of it.

The next thing I new Tiny was dragging me across the yard by my pussy. His knot was still tightly inside my bruised cunt. My knees were skinned and I was really scared because I remember what happened when I let the two dogs fucked me during the demonstration I had made for those women. With 33 dogs sniffing and trying to fuck me I new I could be in deep trouble. Finally Tiny's knot came out, but before I could get up another dog jumped on my back and shoved his meat into me. I was becoming weak and my pussy was squirting those dog juices out my pussy like a fountain. I couldn't move as the next four dogs took a turn at me.

I tried to inch myself toward the table so I could stand up. I got about three feet from the table when the dog that was knotted in me at that time dragged me by my pussy away from it. I finally made it to the table and it proved to be a mistake. As I pulled myself up to the table Tiny nipped the dog that was in me and the dog pulled his knot right out of me. The pain was excruciating. Tiny jumped on my back causing me to bend over and again slammed his huge dick into my already swollen pussy. It seemed like he fucked me for an hour and that huge baseball of a knot swelled my pussy walls to the limit of endurance. I don't know where it came from but I began to cum again one after another. as

*he completely filled my insides. I fainted from exhaustion.*

*I was suddenly pulled awake when I felt a big dick shoved up my ass. Thank god it wasn't one of the giants, but his knot swelled up and filled my ass chamber and a pain went up my back because his knot kept pulling out and then he would slam it back inside me. The pain was so bad I passed out. I woke up in the hospital. My husband told me that when he got home and saw what was happening to me he vomited. I guess I was lucky he came back early because he said when he got there I was slumped over the bench and the dogs were in a fucking frenzy taking turns fucking me. He said one of the dogs had some how gotten in front of me and shoved his cock into my mouth and my jaw became unhinged when his knot swelled up in my mouth. He said he had a hell of a time getting him out of my mouth. My husband estimated that based on the time frame and each dog lasting maybe ten minuets minutes I probably got fucked by all 33 dogs at least once and maybe several times especially by the biggest and most dominate males like Tiny.*

*I had reconstructive surgery on both my pussy and my ass. They also had to readjust my Jaw. The Dr. said I couldn't have any sex for at least six months. I don't know if I will ever be able to let a dog fuck me again, but then I would remember how it felt when Tiny fucked me the first time, It makes me wet just thinking about it and I wonder.*

*Well Jason, I hope you will come see us some time you may even want to fuck one of our beautiful females. Since my ordeal Tim has been fucking Princes or one of the new bitches almost every other day.*

*Betty.*
