BEASTIALITY STORIES

This is the story of how Lisa found out about K9 sex but she is not the one who wrote this story. The story is written by the man who made it all happen as he had a unique perspective of the events as they unfolded.

Lisa is 23 years old and reminds me a lot of the actress Kate Hudson. She is 5ft 6in, long-blond hair, blue eyes with 34-B bust and this is her story:

~~~~~

My name is Eugene and I met Lisa when she was 20 years old. Both our fathers were single, my mother divorced my father and Lisa's mother died. Our fathers became business partners and my father and I had to temporarily move in with Lisa and her dad when their business opened. Lisa is a hot one, so sharing a house with someone like her was no problem. They had a large house and the best part was that our fathers were almost never there while their company was in its infant stage. Lisa didn't pay me much attention, I think she felt we were more of an inconvenience than anything else, so she didn't talk much to me. At the time I was 23 so I decided to focus on my studies, which was in the field of Information & Communication Technologies (ICT).

Before I continue any further, I must stress that I was young and naive, I was learning about all sorts of neat technology, computer tricks, gadgets and had no concept of privacy violation. So what I did back then is not something I recommend.

I had recently learned about security camera software and hardware as well as developing need driven solutions in this regard. My friends and I got a few cameras, developed our own software and had to develop a stand-alone system for video surveillance and recording as an assignment. After completing our assignment, there were a few odds and ends remaining which I took home with me, this included 2 lipstick cameras as well as the software my friends and I developed for the project. I didn't really have a plan for these things, I was just going to put them in my closet if I ever found a need for them. When I was walking upstairs to my room, I bumped into Lisa who had just come out of the shower. She moved around me and went into her room, closing and locking the door behind her. Seeing her wet and knowing that there was nothing beneath her towel, sent my mind into overdrive. I would love to see her naked. For the rest of the day I couldn't stop imagining her naked and just wished her towel had dropped when I bumped into her, what I wouldn't give to be a fly on her wall when she was changing. That's when I remembered the two cameras I had brought home. I thought I could place one in the bathroom and get a full view. My cameras were wireless so my only issues were water proofing for the steam and power supply. After solving these two issues, I set up my camera to have the best view of the bathroom and disguised it so I wouldn't get caught. I set up my software to record whenever there was movement in front of the camera.

When I came home the following day, after a rough day at college, I immediately logged into my computer to see if it had recorded anything. I found a video clip of over 10min in the file I had allocated for these recordings. I locked my door, put on my headphones and prepared to see this hot women take a shower. In the video, she opened the taps, looked for something in the cupboard and then finally tested to see if the water was just right. By now the camera was almost completely steamed over, when she finally got naked I couldn't see a thing. This got me all worked up, I was frustrated that I missed out and had a hard on from expecting to see this goddess naked. I decided to put a camera in her room. After her shower, Lisa left to visit her friend so I took the opportunity and set up a camera in her room. Lisa's bed was at the centre of the camera view and I could see almost her entire room. When Lisa returned, I watched her live on my screen hoping she would

disrobe and finally, before she went to bed, I got to see her change into her sleepwear. It was over very quickly, but at least I saw her naked for a few moments.

Lisa is a creature of habit, she always showers at the same time every afternoon when she returns from college, then she goes to her room where she stays for about half an hour behind a locked door and finally she goes downstairs to make herself something to eat. I could set my watch by her movements, so I set my video surveillance software to record motion at certain times of the day. Over the next two days, I was away, but when I returned I found I had some videos waiting to be viewed. In the first video I saw Lisa come into her room and put her things down, she sat on her bed and wrote in her diary and then she left the room. In the second video Lisa entered the room in her towel, this was the video I was after, she lay on her bed with her feet over the edge and made a call on her cell. After a few minutes, she ended the call and just lay there, still in her towel, with her eyes closed but not sleeping. There was about 10min of her just lying there and then finally, she stirred. Lisa raised her feet from the floor and put them onto her bed with her knees up, this exposed her pussy to the camera

“Finally” I said to myself

I didn't realise that I was about to see more than I had hoped for. Lisa opened her towel and exposed the rest of her body. This was great, the camera was angled almost directly between her legs and at an elevated angle, I could see everything. Then Lisa started rubbing and squeezing her breasts and pinching her nipples, that's when I realised that she must have been fantasising while she was just lying there doing nothing. I was already completely erect at this point, hoping that nothing would disturb her from completing what she had just started. Eventually, her right hand slid slowly down her belly and over her thigh and then back towards her shaven pussy. I was on the edge of my seat by now, I'm sure my mouth was hanging open with a stupid grin on my face. Her hand found her pussy and she started rubbing her clit. I could hear small moans escaping her mouth as her breathing became deeper and her body started to writhe. She continued rubbing her pussy, increasing the speed gradually until her breath became shaky and her back arched in a beautiful orgasm. I kept that video and the others I just watched but were not worth keeping. Over the course of the next 4 weeks I continued to record and watch Lisa, she masturbated almost every third day but it was always the same as the first video. The best was when I got to watch her live as she masturbated, sitting in the next room, but even that became a repeat of the same thing after a while. I wanted more, and if I was going to get more I had to make it happen.

I started looking at different porn sites to get some inspiration for a plan of action. That is when I came across a K9 sex site. I only went through the site out of curiosity, I mean, no one actually does that sort of thing. Before I knew it, I had been looking at animal sex sites for over an hour and was completely aroused. By this time it was really late, so I watched Lisa's masturbation video one more time, got myself off and had a shower before going to bed. While I lay there trying to sleep, I couldn't stop thinking about the images and videos I saw on the net with women and their dogs. As I drifted off to sleep, I dreamed of Lisa standing naked in front of her Bullmastiff (Bull), I woke up with a throbbing hard-on. That's when I decided to formulate a plan to get Bull into her room as she just starts masturbating, just after her 10min of fantasising.

The next day, I stayed home from college so that I could prepare to make it happen and after everyone had left, I got up to inspect Lisa's room to come up with my plan. To cut a long story short, I lubricated her door hinges and handle so she wouldn't hear me open it to let the dog in, I went to the hardware store and had a duplicate key made for her door and I upgraded and relocated the camera so I could get a better view and footage as well as tilt and zoom if I needed to. The layout of her room was in such a way that she couldn't see the door if she lay on her bed as the door led into a small hallway of about 3m which led to her room. I spent a lot of time for the rest of that day with

Bull in the hope that he would follow me when I called him to Lisa's room, I also made sure the camera and software were working properly.

Finally the time had come to put my plan into action, Lisa went through her normal routine but didn't fantasise or masturbate so I had to wait for the next day. The following day, I arrived home from college before Lisa and got Bull into my room so we could be ready to spring into action if the opportunity presented itself, and this time it did. I waited impatiently, watching her motionless on her bed and finally, she started touching herself. Quietly, I took Bull by the collar and coaxed him to Lisa's door, we didn't have to be too quiet since she always played her music while she was in her room. I unlocked her door with my key, my heart was in my throat, I held my breath and pointed into Lisa's room to try convince Bull to enter. He didn't need much convincing, as he often went into her room when she let him and she was his human, I mean he was her dog. As soon as Bull was in, I slowly closed the door leaving it open just a bit in the hope that she would think she hadn't closed it properly herself and I then went to my room to watch the show. By the time I sat down, Lisa was well on her way with her masturbation and Bull just sat there looking at her

"No you stupid dog, do something" I whispered to myself

For about 3min, the only difference to this scene was the fact that there was a dog in the room. When Lisa was approaching her orgasm and she began to breathe harder and squirm from the pleasure, Bull stood up to take a closer look at the strange behaviour he was witnessing. I could see him sniff the air as he slowly moved closer until his muzzle was only an inch away from her pussy and then just before her climax, Bull licked her pussy. Lisa shot up straight with the fright of her life and a small scream escaped her lips and she just sat there looking at Bull with wide eyes. I realised that in order to seem like everything else was normal I'd better do something so I yelled

"Is everything ok?"

"Um... everything's ok, Bull just gave me a fright" she replied

Then Lisa got up and took Bull by the collar and led him to the door. I panned the camera toward the door to watch. Lisa inspected the door and her body language told me that she was probably thinking she should have double checked the door before she started masturbating. Then Lisa pulled Bull's collar to lead him out and closed the door behind him. Bull simply lay on the floor in front of her door as if nothing had happened. Then I watched as Lisa sat on her bed and chewed on her thumb nail, she only ever did that when she was nervous. I could see that she was thinking about what had just happened and was quite uncomfortable. I was quite pleased with myself, my plan worked just as I hoped as I didn't think she would just let Bull lick her without a reaction. That is when Lisa surprised me. She went back to the door and called Bull back into her room. This time she double-checked the door to make sure it was locked then went and sat on the edge of her bed

"You gave me quite a fright you know" she told Bull while she rubbed his head

"Can you do that again my big boy?"

"HOLY SHIT!" I said looking at the screen in astonishment

Lisa removed her towel and spread her legs and shoved two fingers into her cunt and then offered them to Bull. Bull licked her fingers and wagged his tail

"You want more? Come and get it"

Lisa tapped her pussy and leaned back onto her elbows. Bull came forward and sniffed for a few

seconds and she started to lick. Lisa's head went back as she groaned in pleasure, Bull licked her like a champ. I zoomed the camera in for a close up and it was awesome. Bull's tongue was covering every inch of that pussy and Lisa's body would jerk every time he found her clit. It only took 2min for Lisa to orgasm, but this time was different than before. She fell back flat onto the bed and put a pillow over her face to muffle her loud moans of pure ecstasy. Her body shook uncontrollably and finally she put her hand over her pussy to stop Bull so she could compose herself

"Lie down boy" she muttered while she tried to catch her breath.

Bull obeyed while Lisa lay there with beads of sweat rolling off her well-tanned skin. It took almost 10min for her to recover enough to just sit up

"What the hell did you just do to me boy?"

Lisa had a second shower and didn't talk to anyone for the remainder of that evening.

The following day, Lisa asked me to help her in her room. I got hard almost instantly as I entered her room, this time by invitation. On a new study table and on the floor were a few boxes with her new computer in them

"Will you set these up for me please?"

"Sure" I replied

"Make sure I can also get onto the internet for when I need to do research for my studies"

"No problem. Give me about an hour and you'll be set"

"Don't worry, I'm spending the night at Trish's place, so take your time. Bye"

I set up her computer and added some software a friend gave me so I could also tap into her webcam whenever I wanted as well as view her computer activity.

After that I watched Bull lick Lisa another three times and watched her browse the internet viewing animal sex sites. Only about 10% of her time spent on the computer was actual study work. On one particular occasion, I found her reading a "How to" site. I also tapped into her camera to watch her expressions as she read. Lisa was in the habit of whispering while she read and being so close to the mic and camera I could hear everything she was reading while I watched her expressions. As she read she smiled, bit her lip and even made comments in between. I could see that she wanted to move to the next logical level with Bull and was making sure she knew what she was doing before she got started. I really enjoyed watching her read about when the dog knots with the women he is fucking, she was quite in shock and muttered

"Holy shit! I gotta try this"

I could see that she wanted to try this now. So I got up and knocked on her door

"Lisa? I'm going to the shops, want anything?"

"No thanks"

Then I left the house and went round to the rear entrance and snuck back into my room, I wanted Lisa to think she was alone. By this time, Lisa already had Bull in her room and was completely naked. I adjusted the camera angle as the show was going to take place on the floor next to the bed

this time. Lisa got on her hands and knees in front of bull and presented her ass to him. Bull licked her pussy and ass for a bit and then his instinct kicked in and he mounted her. He did this unsuccessfully three times. On the fourth try, Lisa reached between her legs and grabbed his cock in an attempt to help him, Bull started humping the air and Lisa edged herself back until his cock made contact with her pussy. When he slid into her I heard a low grumble come from Lisa, she was in seventh heaven. Bull fucked her hard and fast and Lisa could only quietly say

“yes, yes, yes, yes”

With every penetrating thrust from Bull. Lisa erupted in a very loud orgasm and her arms gave way below her sending her chest crashing into the floor below. Bull carried on fucking like a sailor on shore leave. Lisa just stayed there with her butt up in the air and her breasts on the floor. Eventually Bull also stopped and I could tell he was pumping his load into her because she lifted herself back up onto her hands and orgasmed again. For about a minute they were both motionless. Then Lisa put her chest back onto the floor and Bull then turned to face away from her. They were now butt to butt and obviously stuck. I watched them for another 5min until I couldn't take it anymore, so I walked over to her room and let myself in

“WHAT THE FUCK EUGENE? GET OUT!”

I took out my camera and took some quick snaps of her tied to Bull

“WHAT THE HELL ARE YOU DOING? WHAT ARE YOU GOING TO DO WITH THOSE PHOTOS?”

I just stood there, looking at her with a huge grin on my face

“Please Eugene, you have to delete those photos. This is so embarrassing. You can never show anyone. I'll do anything, just delete those photos”

“Anything?”

I knelt in front of her, unzipped my pants, took out my cock and put it in front of her face. She looked at me and said

“OK. Just promise you'll delete those photos”

“I promise”

Lisa looked at my cock, took it in one hand, looked back up at me and then slid my cock into her mouth. I have had blowjobs before but this was the best ever. She sucked me the best she could and before I reached my climax, Bull's knot popped out of her cunt. She stopped sucking my cock and stood up, snatched the camera out of my hand and deleted the photos. I thought that she would chase me out now that I had no leverage so I stood up, then she pushed me onto her bed and got on top of me. She took my cock in her hand again and slid it into her cunt. I was completely surprised. She started rocking back and forth and rode my cock while squeezing her breasts. It took me only two more minutes before I came, I couldn't have wished for a better outcome.

“I've been thinking of doing that with you since you moved in” she told me

“Why didn't you say something? I have also been thinking about it”

Over the next two months, we had plenty sex and often with Bull. Eventually I confessed about the cameras and even showed her the videos I recorded. She was upset with me at first but got turned

on when she saw herself in the videos so she forgave me. We now both have jobs, live together and are engaged. Bull stayed with her dad so we got our own big dog, he is a Ridgeback (as big as a Great Dane) and we named him Max. We still have lots of sex and have trained our dog Max to please Lisa in many ways. We are now thinking of getting a second big dog, a bitch, Lisa wants to see me shove my cock into a dog and I quite like the idea.
