

READBEAST BEASTIALITY STORIES

Delia runs a modelling school as she used to be a model herself. She has actually been on magazine covers. She is 32 years old, has light brown hair down to her middle back, she is 5ft 8in, has piercing blue eyes and a set of voluptuous D breasts. She is by no means anorexic like most models today, she has a very curvacious body - very sexy! This is her story:

~~~~~

My story is short and to the point. At the time of this story I was 27 years old. I was at a photo shoot where three of my girls were posing for three billboard ads for the same client. We had to shoot in different locations so the job would take four or five days. The first two days of shooting went off without a hitch and we were very pleased with the job so far. That night the client took us all out to an exclusive party where we got to rub shoulders with the rich and famous of LA. We had a wonderful time and when most of the guests had left, we took the party to the client's home. His home was a beautiful mansion and we continued to enjoy ourselves there for a few more hours. The client, Robert, told us that we should stay at his place that night as it was getting late and we were all showing signs of intoxication. We agreed and partied for a while longer. I had been chatting to every one there but had more conversation with Rob as we actually had a lot in common. Rob eventually made a sexual advance, which I usually would have accepted from someone as dynamic and sexy as him, except he was a client and I had a strict policy against dating clients or providers like photographers. He took me to one side and stood very close to me so no one else would hear him and then he put his hand between my legs and rubbed my pussy. I didn't push him away, I simply told him about my policy while he rubbed my pussy and he removed his hand and apologised.

"When the job's done, give me a call" I told him

He smiled and winked at me and we continued to talk as if nothing had happened. By 1:30am I told the girls it was time to call it a night and we went to our guest rooms to get some sleep. The three girls decided to share a room and sleep on the same bed as the beds were so big you could comfortably fit four people in them. I like my privacy so I went to a separate room. I took a shower before retiring for the evening and when I was done I checked in on the girls and they were all asleep. Since we didn't plan to stay for the night I didn't have anything to sleep in so I decided to sleep in my underwear. I was wearing a white two-piece, partially see-through lingerie which always made me feel extra sexy. As I lay down I started to think about Rob's hand on my pussy and how much I wanted him. I got so wet and excited that I couldn't sleep. So I decide to masturbate to a fantasy involving him so I could have a sexual relieves and would hopefully then be able to sleep. I sat up on the edge of the bed with my feet on the ground, leaned back onto my left hand and slid my right hand into my soaked panties. I tilted my head back, closed my eyes and started rubbing my clit in circles as I imagined fucking Rob me in his beautiful mansion. Then I heard a shuffle nose at my feet, I thought that Rob must have walked in and had kneeled between my legs but when I opened my eyes and looked down it was his Boxer Duke sniffing at my pussy

"Duke, how'd you get in here?" I calmly asked him

Duke was no threat and I didn't think anything of him being in the room with me. The thought of any sexual contact with him never entered my mind, that was until he licked my pussy through my wet panties. I didn't get a fright, move or even close my legs, it felt nice

"Duke, that's naughty boy"

I still wasn't considering any sexual act that involved him, that started changing when Duke grabbed my left leg with his front paws and started humping. I watched him for a few moments and felt my heart begin to race as what I was watching started to turn me on even more than I already was

"Oh Duke, are you horny too?"

Duke continued humping at my leg and I felt his dick make contact. I stood up and started to remove my bra

"Wanna see me naked boy?"

I let my bra drop to the floor. I couldn't believe that I was thinking about having sex with this dog but we were both so horny I couldn't stop myself. Duke started circling me, very excited with anticipation, I'm sure he knew what was about to happen. I removed my panties and tossed them aside and then kneeled with one leg on the chair in my room and the other foot on the floor with Duke behind me and I leaned forward. I put my hand between my legs and continued to masturbate. Duke came closer and started licking my pussy

"Oh Duke... that feels sooooo good"

I moved my hand away from my pussy as Duke was doing a really good job. I let him lick me like that for about five minutes before I decided

"I'm going all the way"

I turned round to face Duke and got down on my haunches and he continued to lick my pussy. While he licked I put my hand under him and found a surprisingly big cock hanging under him. When I started stroking it he lay down and lifted his leg. Looking at his cock in my hand as I jerked him off made my mouth water. I hopped up onto the bed and called Duke to join me. He immediately jumped up and licked my mace. I opened my mouth a little and let his tongue go inside, I even licked back in a cross-species kiss. I took Duke's cock in my hand again and stroked it like I did before. Duke rolled onto his back and spread his legs exposing himself completely. I lay down on my chest with my face close to his dick

"I'm gonna suck you now big boy"

I licked the tip of his cock and was surprised that it wasn't slimy like it looked, so I slid it into my mouth and began to bob my head up and down. As I lay there sucking this K9 cock I thought how sick I must be to be doing this and that I'd probably regret it in the morning. But even with those thoughts in my mind I was unable to stop myself, I sucked him hard and deep. I got up onto my hands and knees with my butt closest to Duke and slapped my butt calling him over. Duke stood up and started licking my pussy again. This time he could lick my ass as well and snaked his tongue quite deep inside my cunt. It didn't last long until Duke hopped up onto me to mount me. He started humping behind me and I so desperately wanted his cock inside me that I took his cock in my hand and positioned it at my cunt's entrance. The moment Duke felt the warmth of my pussy his humping became more urgent and he shoved all nine inches into me

"AAAAAGGGGGHHH!... FUCK YES!"

It felt so good as he penetrated me and without hesitation began fucking me at a pace no man can match. It was rough, dirty, taboo but oh so exciting. He fucked me like that for almost ten minutes when I felt his knot slamming into the entrance to my cunt. I was still thinking that there is no way I could fit that in me when he shoved it in

“AAAAAGGGGGHHH!”

It hurt for a few seconds but the pain subsided and it added a whole new sensation to this encounter. Duke's thrusts were shorter now but that knot of his was stimulating my G-spot like I had never felt before. I could feel a Goliath orgasm approaching and knew that I would scream when it happened. I lowered myself so that my ass was still up in the air but my breasts were on the bed and I could push my face into the mattress when the inevitable orgasm hit. The orgasm hit me like a tidal wave, I lost all control of my body but managed to direct my screams of pure pleasure into the mattress as planned. It was the longest, hardest orgasm I have ever experienced. I came so hard that I lost conciseness for a few seconds. As I regained conciseness I felt Duke shooting his hot load into the depths of my womb. This triggered an aftershock orgasm which was very enjoyable. As the last orgasm began to subside, Duke turned around with his cock still firmly wedged in my cunt, it felt like he was turning me inside out. I realised that we were stuck together because he was facing the other way now but his cock wasn't going anywhere. My pussy had a vice grip on his cock and was milking him dry, I could feel that he was still spewing hot come into me and this lasted for quite a while. As I lay there on my chest, stuck to this pulsating cock, I had another two smaller orgasms. Finally Duke pulled his cock out of my cunt with a plop and I felt all his come run down my inner thighs onto the bed. My pussy was a bit sore but I have never felt so sexually satisfied before. I just stayed in that same position for a while basking in the glow of the moment. Duke was licking his dick clean so I turned my head to watch, then he got up and licked me clean too. It was the best sex of my life and I couldn't believe I got it from a dog. Duke stayed with me till morning and I woke up with a smile on my face. Fortunately our day would only begin at about 11:30, so we all slept in a little. Duke started licking my face so I tossed the covers aside and let him lick me to another orgasm. My pussy was a bit too sore for sex so I sucked him off until he was also satisfied.

Later I found out that Rob had specially trained Duke to fuck women and I asked him if I could buy Duke from him. Rob gave Duke to me as a gift as long as I let him watch Duke fuck me when our business was concluded. Duke now lives with me and we have had many nights like the first time we fucked.
