## **BEASTIALITY STORIES**

Note from Jen: Emma and I just interviewed Cindy at our home as she wants to join our K9 sex club, she is sitting here with us right now as I am typing this. She entered herself and Randy (3 year old Boxer) at our K9 training school this morning after she found out about our private club. She is 20 years old, has pitch-black short hair, brown eyes, when I asked her what her cup size is she lifted her top and showed Emma and I her very perky B-size breasts. We don't usually have someone request to be in our club that is this forward, so I asked her if she has ever had intimate relations with her Randy so she lifted her skirt and revealed her beautiful shaved pussy and let Randy lick her in front of us to prove that she is into K9 sex. Emma and I were very turned on by this so we all took turns being licked by Randy and each other, we also watched Cindy fuck Randy only moments ago. I think Cindy is going to be a wonderful member for our club. Cindy just told me the following story of her first time.

By the way, we are all still naked and sweaty from the interview. Cindy has agreed to spend the night, so we will be fucking each other and our three boys until late.

I was always very conservative when it came to sex until I met my ex (Richard) at the beginning of this year who introduced me to a few different sex activities that made me more open to trying new things, we spent most nights together and had a lot of sex.

One Saturday morning while I was preparing breakfast (still in the nude), Richard came up behind me, bent me over the kitchen table and fucked me from behind (I loved it when he just took what he wanted like that). Because of a car accident I was in when I was very young, I can't have kids, so I let him come inside me. When we were done, we sat down and ate the breakfast I made and I could feel some of his come leaking out of my pussy. Richard liked to watch the news or sports while we ate so his attention was distracted for the moment. Richard's Boxer (Randy) was lying under the table and as I felt some come running down my leg, Randy started licking at it and before I had time to react he was licking my pussy. For a moment I just sat there and let him lick me, but when I let out a small groan, I looked at Richard who luckily didn't notice and I stopped Randy. For most of the day after that, I thought about what Randy did to me and eventually decided to forget about it and act as if it never happened. About three days went by and I didn't give it a second thought.

Richards and I always sleep in the nude and usually have sex before we go to sleep (he always wants to try something new, make love or just fuck). One night, after a good hour of fucking, we went to sleep with only a bed sheet to cover us in our hot room that only had a fan and no air conditioner. I woke up that night with the glorious sensation of having my pussy licked. As I was waking up I thought it was Richard (he has done things like that before) but soon I realised that this was not the way Richard goes down on me. I lifted the sheet and saw Randy between my legs licking me again. I turned to Richard, he was fast asleep (sleeps like the dead) and the looked at Randy again. This time I let him lick me until I orgasmed. I felt a bit guilty about how much I enjoyed it but thought that since I didn't force him (in fact it was his own doing) then there was no harm. I noticed that his dick was erect and decided that the next time we were alone that I would return the favour.

On Friday I called Richard's best friend Alex and asked him to take Richard out a bit as he was quite stressed from work and needed some guy time. Alex thought it was a great idea and immediately made arrangements with Richard. Richard called me moments later and told me he was going fishing for the weekend. I was quite pleased, now I had more time to myself and to explore with Randy.

Before 6 that evening, Richard and Alex left and I was left to my own devices. I poured a glass of wine, got naked and made my way to the living room. Randy was lying on the carpet and perked his ears and wagged his tail when I entered, hoping for some attention. I sat down next to him on the floor and started petting him

"You were so nice to me the other night, I'm gonna be nice to you now"

My heart began to flutter, I almost forgot what that was like, I slowly moved my hand down to his hidden dick and started rubbing it. Randy rolled half way onto his back with one leg in the air, he was obviously enjoying it. After a minute or two his red dick began to immerge. I touched it with my fingers, this made my pussy tingle, then I leaned forward and gave the tip a lick. I felt so wild, I was really enjoying the naughtiness of it. His dick got bigger and bigger until it was a very impressive size. I took that cock into my mouth and gave him a blowjob like I would give to Richard. Randy definitely enjoyed it and eventually sprayed a bit into my mouth. I took his cock out of my mouth and started thinking that I wanted it inside me. I pushed Randy gently to get him completely on his back and then kneeled over him. I held his dick upright in my hand and lowered my pussy onto it. As it entered my cunt I was filled with lust and wanted this animal so bad. I rocked back and forth on his impressive cock until I could feel evidence of an orgasm building. I wanted to be fucked hard so I got off Randy and kneeled in front of the sofa with my arms on the seat

"Here boy, come fuck me"

Randy got up and approached me, I was actually a little nervous. He mounted me without and coaxing and started thrashing behind me. I felt his cock make contact, but he was just not finding my pussy. I reached between my legs and took hold of his cock then slowly guided it to my pussy. Finally, he made contact and drove his cock with surprising force deep into my cunt. I let out a grunt from the initial force and then lay my head down on the sofa seat in front of me with my eyes shut so I could focus on what I was feeling. It was the best sex I ever had, Randy fucked me hard and fast the way I like and no man has ever fucked me like that. My orgasm approached quickly and before long it ripped through my body. Not long after my orgasm Randy sprayed his hot load inside me. It felt sooo good. That time we didn't get stuck, but I fucked Randy at least five times that weekend and he knotted me twice (I love being knotted).

When Richard returned late on Sunday evening (almost catching me in the act, getting a last quick pussy lick from Randy), he told me we needed to talk

"Cindy, the reason I have been so distant lately is because I had to make a tough decision. I've been offered a job in Australia and was trying to decide if I should go or not"

"Well, what did you decide?"

"It's a really good offer, a once in a life-time opportunity"

"So you're going then?"

Richard paused for a moment

"Yes, I can't let this opportunity pass me by"

Richard explained the details which included that he would have to leave Randy behind, so I offered to take him which pleased Richard. I was already thinking that our relationship was coming to an end, so I wasn't all broken up about it, besides, I got the best lover I've ever had out of it so I wasn't going to become depressed too easily.

It's been two weeks since this happened and I have fucked Randy almost every night and tonight I get to fuck two new dogs, Emma and Jen's boys.

Last note from Jen: These last two paragraphs were very difficult to write, Emma and Cindy have been taking turns licking my pussy as I tried to finish... wait...
