BEASTIALITY STORIES

This is the true story of how I lost my beast-virginity!

I met the owner of a Rottweiler & a pitbull and we talked, negotiated, exchanged information...and tonight he invited me over to his place. His dogs greeted me with great enthusiasm. The pit in particular was clearly VERY happy to meet me. I could tell by the way he kept wrapping his forelegs around me, among things, that he wanted to get right down to business!

But being my first time I was nervous...their master picked up on this easily, so we chatted a while until I was comfortable & ready to take the next step. Between the 2 dogs the Rottweiler has more experience & the bigger cock while the pitbull is a less reliable lover with a more manageable cock. I decided that since this was my first go with a dog that experience was more important. I think I chose well.

I disrobed & got on my hands & knees on a section of the room prepared for play. The Rottie was on my back in a heartbeat with his master there to guide his cock to the right place. Pretty much as soon as he found his tip inside me he hammered the rest inside! Holy shit, the stretch!! I knew I was tearing for sure! For a moment there, his master tells me, I got the entire knot, but it soon slipped back out of me. It wasn't long before his rod had swelled up and stiffened enough to fill me right out. It was a really tight fit at first...it hurt some...since it's been so long since I've had anything really up there. But it was a good kind of pain. Soon it didn't hurt at all...I was just very comfortably full. It felt so nice. Like my cunt was made to take dog dick.

It helped that the dogs' master was going wild on my clit. Testosterone shots have made it frankly huge, almost like a micropenis. We both lost track of how many times I came on the Rottweiler's cock. Each time I came I thought "This is it, this is as much as I can cum," but nope! They made me cum again!! I've NEVER come so many times during a single session of sex before!

I was a little disappointed to find that I could not in fact feel the individual shots of semen the Rottie was pumping into me. However I could feel his cock twitch pleasantly inside me every time he dumped another load into my cunt, and I could feel a growing, gently swirling liquid pressure growing inside me.

Tonight I also learned that my upper body strength is crap. That's a heavy dog!! I couldn't hold his weight up for long! Try as I might I slowly sank down more & more until I was rather squished beneath him with my ass in the air. It was a lot of strain but it was also really gratifying to be pinned in place like that. His hot, furry body was bracketing mine, keeping me in place tethered by the long, solid column of his cock buried deep inside me, while his master tweaked my cocklet deliciously and stroked my thigh.

Even though we weren't tied the Rottie did a quarter-turn & stood like that for a while to pump me full of his cum for a few more minutes. Eventually he pulled away...I felt just how long his cock was as it slid wetly out of my pussy, followed by a GUSH of semen! The biggest load I've ever taken several times over! While I was still on all fours the dogs' master took his turn with me: he fed his thick cock into my hole all wet with dog cum and gave me a good second fucking...what a delicious stretch.

When I stood up even more cum ran down my legs. I was an absolute wreck and felt FANTASTIC. Finally...at long last...after so many years of fantasies, I had been fucked by a dog for real. A Rottweiler made me his bitch and I loved every minute of it. As his master put it...someone's addicted!!

After some relaxation & conversation I was ready to let the pitbull have his way with me too. He was

so excited he got himself stuck in his sheath at first! We let him calm down some before I took my place on all fours for him. For a moment his cock poked my asshole & I felt a thrill of arousal. Someday I'll take his cock there...someday I'll exclusively take his cock there, once I've had the surgeries to seal up my pussy and give me a cock & balls. But tonight I wasn't prepared for anal sex so I arched my ass up higher for him. He mounted me and fucked his way inside partway, jumped off, & then gave it another go. This time I was pretty sore inside so there was more discomfort...nothing I couldn't handle. I came a few times though I didn't quite have those great rolling orgasms left in me this time. Unfortunately he didn't stay on long, and he didn't do much licking afterward, but it's okay, he just got ahead of himself. I did get to taste his cock though. It felt weird in my mouth & tasted like (his master's words) old copper pennies. I'm not sure if sucking dog dick is for me but it bears further investigation.

By then the dogs' master was hard again himself so I offered him another go & he gave me another very pleasant pounding. I loved the contrast of his girth and thrusting to the dogs' humping-then-stillness.

Afterward the pitbull became very calm & cuddly. He laid on top of me as I sat in an armchair and even fell asleep there a few times. We rounded out the night with more talk & their master sharing the photos he'd taken of my cunt all full of Rottie dick (yes I am going to post them!). I got out of his hair so he could get to bed & I could get home to my mountains of laundry.

On the way home I stopped by a 24-hour grocery store for some celebratory ice cream. It was pretty thrilling walking around in public knowing that under my clothes, my skin was streaked with the semen and saliva of two big horny dogs. Even if someone smelled dog on me as I passed by they would never guess that I'd been on my hands & knees moaning like a whore for beast cock just earlier that night.

I'm alive. I'm addicted. I can't wait to play with those three again.

~~~~~

UPDATE: Just had my 2nd play session with the same 3. This time neither dog was willing to stay on me but a good time was had by all nevertheless. I'm now sporting a handsome new collar, too. The Rottie jumped my back a few times...his knot popped out of me pretty much as soon as it was swollen up; I think he's longer than my pussy is deep. I'm determined to practice until I can get it though! He did at 1 point stay on me for a few minutes while their master brought me off repeatedly. I could feel the cum flowing. It was amazing. Then their master had me...it was great getting to bounce on his cock the way I kind of can't with the dogs.

A little rest later he let the pitbull out. The pit was ready to tackle me on the spot & pulled with all his might in protest of being held back to get boots on so his dewclaws wouldn't shred me. Unfortunately once again he worked himself up so much that he knotted his own sheath trying to get at me! Next time he'll get his boots put on before I arrive so we can just let him tackle me like he wants. I love the way he comes at me like he's desperate to bowl me over and fuck me senseless... He tried his best but man that is a goofy dog. He did manage to fuck me some but at one point he confused himself so much he ducked right under me. He's fun. I'm looking forward to the two of us getting more experienced together so he can tie me.

Afterward when I was sitting in an armchair the pitbull climbed up to cuddle some. He jumped back down...but when his master gave him the command to go to his crate, he turned & jumped right up into my lap! Twice! That sweet boy loves his bitch.

Then the Rottweiler came back out for a bit. When I stood up to head for a shower he got all excited so I gave him a chance to show his stuff...but just as his master predicted, he got on my back and then wouldn't hump, the tease! Even guided right up against my pussy, then my asshole (which felt a-ma-zing btw), he wasn't going to do anything with it. He did some EXCELLENT licking though before my shower!

This morning was 100% worth staying up for.
