BEASTIALITY STORIES

I recognize that it's been a while since I've shared anything with you all but honestly, my sex life has been pretty routine. Not a whole lot to write about that you already haven't heard about me and Duke. Until last weekend.

Last week I decided I needed to do something worth writing about so I don't leave you all hanging. Here's what I decided I'd do. For Friday, Saturday and Sunday, I'd have sex with Duke, a girl and a guy at least once each day.

This probably isn't that exciting to everyone reading, but having sex with a combination of Duke, a girl and a guy, individually over the course of each day. So, sex three different times, with three different people, on three different days. For the purpose of keeping my activities with Duke a secret, I'd do him last in each day.

~~~~~

## **Friday**

To make sure there's no trace of Duke's prowess with me, I'd let him fuck me before I shower, so I can shower, then call up a friend nice and clean and get down to business with them.

I wake up and have some breakfast and some sort of caffeinated drink so I can be nice and energized. As some of you may know, I tend not to have sex with Duke on the weekends to somewhat deprive ourselves of each other so Monday can be more exciting and so we don't get bored. So this morning he's not expecting anything.

I go through most of my normal routine minus the shower, but I still go back to my bedroom, get undressed and choose my outfit for the rest of the day. Satisfied with my choice, still naked, I call Duke to the bedroom, sex towel having been placed on the bed already.

He lazily trots over to the bedroom and is greeted with his bitch on the bed, legs spread, pussy generously available for the licking. He apparently is very much in the mood to have a taste of hairless human pussy this Friday morning because he digs right in.

I use my fingers to hold my lips more open and to expose my clit for him to incidentally stimulate in the course of his vigorous licking. I must not have fed him enough breakfast or something or he's just taking advantage of this gift he doesn't get on Fridays. Either way, his tongue is all over my pussy and I'm loving it. I feel his tongue more easily sliding along my lips from being really wet now and I can't help it, I have to start rubbing my clit a little. After a fair number of small orgasms he and I both want something else.

I want his dick to part my lips and get as far into my vagina as he can get. He wants this too, because as soon as I turn around onto my knees, he's hopping up on me and getting his front paws in position to hold his bitch right where he wants her. I feel the tip of his sheath quickly thrusting back and forth into my ass cheeks and thighs as he tries to find the sweet spot. A lend him a quick hand and we have penetration! Holy shit do we have penetration! His dick comes out from hiding very quickly and he does indeed try to get his dick as far into my vagina as he can get.

Whether or not he's in as deep as he can be he's thrusting away like no tomorrow. If I wasn't laying on a pillow, my boobs would be totally swaying back and forth with the rest of my body as his hips dictate. And trust me, his hips are dictating my body do a lot of back and forth rocking.

Because I've already experienced a few orgasms, however small, it only makes my pussy more sensitive and his dick is doing a lot more stimulating than his tongue did and I'm in heaven for it.

My eyes are closed, my head turned and laying on the pillow with my hands cluching it in pleasure, mouth open for easier heavy breathing and light moaning, ass high in the air for him to have a good angle, legs spread for easier access. Duke is standing on his back feet, placed between my legs. Front paws are on my hips, holding his bitch in place. His protruding dick is at the perfect angle to enter my pussy, which it is doing, repeatedly. His balls, like my body, are swaying back and forth quickly, ever so slightly tapping my clit as the base of his dick keeps pounding the outer lips of my pussy and as his dick keeps sliding in and out of my vagina. This is what you'd see if you were to be able to see through my bedroom window. A young girl letting herself be thoroughly fucked by her German Shepherd dog and enjoying it.

Duke's knot swells up and ties the alpha male with his bitch as his dick shoots sperm into her vagina for 15 minutes, give or take. That bitch is me, that vagina is mine and I wouldn't have it any other way. The knot only lasts about 10 minutes today since we've been tying all week. So only about 10 minutes worth of sperm are inside me, but that's enough to turn the small, slow streams of semen running down my thighs and stomach into small, fast rivers.

As mentioned above, I have been thoroughly fucked and the accompanying orgasms have left me breathless. Normally I'd lay on my back, legs held to my chest to keep his sperm in me for as long as possible but not today. I get the sex towel situated and stand up and I notice an increase in semen that comes out of my pussy. I put the towel to use and clean up a bit. After that, still naked, I wrestle with Duke and a chew toy all around the apartment for 15 minutes or so until I'm tired. I let him win and he claims victory over the chew toy. I lay out the outfit I pulled out earlier, jump in the shower and get clean before I start texting Jessica.

Since I had come up with this plan earlier in the week, I made sure to reserve some time with everyone that's going to be involved. Jessica didn't have any plans for the middle of the day anyway so this works out.

We go out to lunch with a few of her friends, people I've met before at lunches and stuff like this but don't hang out with unless I'm with Jessica. During the lunch, us girls plan to hit up a mall together and the guys decide they'll go to something I wasn't paying attention to.

We finish up lunch, parting hugs are had between the guys and girls and Jessica, me, and two other girls go to the mall. We're the typical group of four girls in their early 20s, wearing our shorts, skirts, dresses, tank tops, t-shirts and sandals that you'd see at a mall in the middle of a Friday in the Summer.

We spend a few hours at the mall together laughing and having a good time and after we've hit every clothing store we decide what we're going to do afterwards. Jessica and I already know what we'll be doing. We subtly take the conversation to the direction that we should all go our separate ways. This is agreed upon and we break up. I follow behind Jessica as she drives to her apartment.

We're both really horny because we had been sending each other dirty text messages throughout the time at the mall. I even managed to sneak a quick pinch of Jess's ass when the other two girls had gone into a store's dressing room section. She got me back later at a different store.

We go into her apartment, close the door behind us and immediately beging kissing each other. Our tongues smoothly rubbing on each other's as our hands run up down each other's body. She doesn't waist any time and unbuttons my shorts. Before she can get to my zipper though, I stop her and pull of her shirt, then let her back to my shorts. She unzips the zipper and undo her bra and my shorts fall to the floor and are soon joined by her bra.

At this point, we move to the couch. Her just in her shorts, B cup breasts exposed for me to lust after, nipples pointing sky high. I'm just in my shirt, bra and underwear. She's laying on the couch and we both finish what the other started, we get naked for each other. She sits up, moves her now exposed pussy to the edge of the couch. I know what this means and get on my knees in front of her and start kissing and gently licking the inside of her knees and thighs. Moving slowly close up her legs and to her pussy, the smell of wet pussy is very strong to me from my position. I can even just look at her pussy and see that her lips are naturally opening up from being so damn aroused. I can't take it anymore and move my mouth to her pussy.

I use the tip of my tongue to part her lips a little more and slide it into her pussy as much as one can get their tongue in there. Slide my tongue in her pussy and lick upwards, with my fingers gently rubbing her outer lips between licks. Judging from her enthusiastic moaning, she was enjoying herself. Well, enjoying what I was doing to her.

I continue only licking her inner and outer lips, with some assistance from my fingers, intentionally ignoring her clit throughout. I use my fingers to get a better look at her clit and it's dying for some attention. Reminds me of a dog actually, it will love me forever if I just pay positive attention to it. So it begins. I keep her clit exposed with my fingers holding the hood back and start giving it lots of quick flicks with the tip of my tongue. Now and then I'll take it between my lips and use the tip of my tongue on whatever slight part of it is in my mouth.

She eventually starts cumming from just me licking her but I know her orgasms could be stronger if I used my fingers to stimulate her g-spot. So I keep licking her clit for the first few orgasms but quickly switch to my middle and ring finger and slide them inside her vagina. Curl them up a little and vigorously rub her g-spot for about ten minutes straight. She has about one orgasm every 20-30 seconds during that 10 minute period.

After I stop she just lays on the couch, exhausted. Eyes closed, chest noticeably expanding and contracting from her breathing. As she recovers from her orgasms I gently start trailing my lips up her stomach and to her breasts. I just gently kiss and suck on her nipples as she regains her composure.

After she regains said composure and gets her breathing back to normal, she stops me from playing with her breasts and begins kissing me on my lips. Then, as she's kissing my neck, we're both switching positions. Her lips go down my chest and she kisses and sucks all around my right boob, but not my nipple.

She finally stops teasing me and starts sucking and even gently biting my nipples and I beg her to use her mouth on my pussy. She knows I've been dying for it since we got to her apartment, so she goes down and starts licking my pussy.

Before she gets too into it, I tell her that I want to squirt in her mouth. She says okay and goes back to licking me. Not much more needs to be said between us, because we've both built up good experience getting each other to squirt, so we both know what needs to be done once the time comes (hehe).

Fast forward a little bit and I'm starting to cum. I use my fingers on my clit and she uses her fingers on my g-spot and each orgasm hits me like I hadn't had an orgasm in a long time.

She feels me starting to contract certain muscles and removes her fingers from my pussy but gets her mouth in position and once I feel she's right where she needs to be, I let loose with my female ejaculate directly into her mouth. Now, as far as I can tell, a woman that can squirt more than a

couple of inches is really rare and possibly just a product of fake squirting porn videos. So it's not like Jessica is taking a stream of fluid that had the pressure to go five feet across the room. It probably gets shot right into the back of her throat and that's it.

I can only give about three squirts or so before I'm just way too spent. Jessica, the good host that she is, helps clean up the mess her guest made and keeps licking all around that area except for my clit, knowing it's too sensitive for much more right now.

Once I regain some energy Jessica and I decide to take a quick shower together. We clean each other up and I promise that tomorrow I'll let her squirt in my mouth and she's excited for it.

We finish up the shower, get dressed and hang out in her living room, cuddling and watching TV for a bit before I take off. I still have more plans for the day.

Once I get to my apartment I start sending some texts to my secondary male friend with benefits. It'd been a while since we had done anything and considering he'd been asking me when we were going to have some fun again, I know he was still interested. Today is his lucky day.

I tell him to come over around 7:30 and we'll have some fun for an hour or so and he can still hit up whatever parties he had plans for.

Close to 7:30 he sends me some text messages asking if our plans are still on and I confirm that they are. Shortly after that, he's knocking on my door. I let him in and then put Duke into the kitchen and put up one of those baby gate thingies. Yes Duke is a large enough dog that he could just walk forward and through it but he's obedient and I tell him to stay. He's got his old, undersized doggy bed in there and his food and water dishes, so he's set.

After I get Duke situated in the kitchen, I go over to my friend who's sitting on my couch. I stand in front of him and take off my shorts and shirt and stand in front of him in just my underwear. I lean down and we start kissing. As we're kissing I start undoing his shorts and he doesn't stop me. I open up his shorts and see that he's really damn hard and figure it's been a while since he's had some fun which would be why he's been asking me for some lol.

Put yourself in his shoes and maybe you can tell me why he was so hard. He's sitting there, shorts and boxers pulled down, dick out and ready. I use my pointer finger and thumb to make a ring around his dick, right in the middle of the shaft. I put my lips on the head and together with my fingers start moving up down his dick. I feel him get even harder just a few seconds after I start sucking on him.

Like most guys, he's not moaning or even saying much of anything, but his body language shows he's really enjoying the feeling of my mouth and fingers on his dick. I can already taste his precum and now I'm sure it's been a while since he's had any fun. Since I never really have Duke ever cum in my mouth, I really do enjoy sucking off guys and letting them cum in my mouth and my friend knows this and definitely does not stop me as my hand moves faster up and down his dick and my mouth more tightly sucks on the head.

Despite his hard breathing he manages to whisper, "I'm close" and that's my cue to get my mouth ready for him to cum. I take his dick further into my mouth so when he starts coming it'll shoot as far back into my throat as possible and keep using my hand to stroke him faster. I think he was trying to prolong it but he couldn't do it any longer and he start cumming, right into my mouth. I give a quick swallow to the first shot but keep rubbing his shaft and keep my lips working the top end and take another one or two shots, both of which I swallow. I can feel him losing the hardness indicating he's done. But before I stand up or do anything else I see there's still a little extra that's

late to the party, so down I go again and lick that up for him.

I take off his shoes and slide his boxers and shorts off and pull off his shirt as he's still sitting on the couch. He stands up and we start making out just right there in the middle of the living room. He inconspicuously pushes the edge of my underwear down and they eventually slip off and to my feet. We keep kissing and now he undoes my bra and we're both naked in my living room, kissing.

I stop us and lead him to the bedroom. I lay on the bed and spread my legs for him. He climbs in bed with me and we start making out again. This time one of my hands his gently and slowly stroking his dick and one of his hands his rubbing my outer pussy lips. We stop kissing and I spread my legs for him and he starts fingering me. Uses his fingers to rub my clit and brings me to a few orgasms all while my hand is still rubbing his dick, which I notice started getting hard again as I started moaning and cumming.

After he's done fingering me, I look down at his dick, still in my hand and he's ready to go again. I lay him on his back and he looks down, sees me spreading my legs and getting on top of him. I use a hand to guide him into the tip of my pussy as I lower my body down on top of him. I make sure to spread my legs wide so I can take him in as deeply as possible. Once I feel like he's as far in me as possible I get right to business and quickly move my hips and pussy back and forth, with one hand keeping my balance and the other gently rubbing my clit some more.

Faster and faster I thrust my pussy back and forth over his dick and I feel him just get harder and harder. When he tells me he's close again, having gotten my fill of orgasms, I use both hands to steady myself as I now start moving my pussy up and down his dick quickly. Once he gets really close to cumming he uses his hands to hold my thighs and now I know to keep his dick fully inside me and go back to the back and forth thrusts. I do so and very soon afterwards I feel his dick get its most rigid and feel it start pulsing as he once again starts to cum. This time he's shooting up and into my vagina. I keep moving my pussy forward and backwards along his dick to help make sure he gets it all out and in me.

I lay down next to him and we catch our breath together. It might sound like it went kind of quickly but it's been about an hour. Once we've got some of our energy back we hang out in the living room and play with Duke and just catch up on each other's lives. He eventually takes off and I'm too exhausted from my day to go with him to any parties or to any of the ones I know about. He leaves and I chill at home and that was my Friday.

~~~~~

Saturday, Duke

So I sleep in a little bit on Saturday but nothing too drastic. Duke seemed content to sleep in a little too after getting a little something extra the day before that he normally doesn't get. Little does he know, he's going to need that extra energy very soon.

I get some breakfast and caffeine, sometimes one and the same, to get nice and awake for my busy day.

Back to my bedroom to choose my outfit for the day, like yesterday. And again like yesterday, I choose what I'm going to wear and keep the clothes off to the side. I get naked and lay out a towel. Under more normal circumstances to other people, they'd be seconds away from getting into the shower. Me, I am seconds away from having a canine cock in my pussy.

I lay on the edge of the bed and call Duke into the bedroom for a snack. He likes what he sees and

digs right in. I have some hair growing in again down there and even though Duke doesn't mind, I'll still be getting a waxing done in a few days. It just looks and feels so much cleaner and nicer when there's no hair down there.

I use my fingers to open my lips up a little for Duke so he can taste exactly how wet he's making me and let me tell you, I'm wet. I do not give myself any orgasms today while Duke is licking me though. I want it all to get built up for when he's pounding me.

And speaking of pounding me, I'm really dying for it now so I pry Duke away from my pussy and get on my hands and knees like a good bitch. He keeps his snout at my pussy and asshole area and satisfies his desire to lick the area. His tongue feels pretty gross on my ass but I don't stop him because he is also licking my pussy.

He gets his fill and jumps on me. Front paws holding his bitch in place and hips starting to thrust forward trying to find that small and wet hole he loves so much. I feel the tip of his dick poking around trying to find it and since I'm dying for it as much as he is, I give him a hand.

I point him in the right direction and he's in, oh god is he in! I hold on to a pillow and get ready for the ride. Soon my whole body will be rocking back and forth as it gets pounded by a full grown German Shepherd. His 7 inch dick is fully inside my vagina, getting thrust deeply in and out, moving my body back and forth as mentioned. If you listen closely you can hear the sloshing sound of my pussy's wetness getting all over Duke's dick as he moves in and out of me. My pussy lips so widely spread open for him to have his way with me, I can smell my pussy with each of my deep breaths.

Don't forget, now my fingers are rubbing my clit because it feels so damn good. My vagina having a large dick moving in and out of while my clit gets firmly rubbed, mmmmm heaven. As I start cumming Duke seems to pay no mind to my vagina contracting with the beginning of the orgasms and just keep his thrusts going.

After I've had my wave of orgasms, Duke seems to think it's his turn and begins to knot up with me. His knot has to be at least six inches round. A ball, six inches in diameter, right at the base of my vagina, pushing against my g-spot the whole time. Hoy shit do the orgasms roll in now!

My pussy's wetness combined with his sneaky leaky sperm make my clit very well lubricated as I keep rubbing it, not having my fill of carnal pleasure.

He fills up my pussy and pulls out and out comes the flood of his sperm. I stay in doggy style for a while and let him clean up his mess. Won't be letting it stay inside me since I'll be getting freaky with Jessica again later.

Duke finishes being a gentleman and cleaning up his bitch and begins to clean up his dick, the he proudly had far into the vagina of his bitch.

I clean up a little and hit the shower.

After the shower I text Jessica and see what she's up to. Luckily for me she's not up to anything. She's got some plans to hit a party or two later tonight, but nothing for dinner/evening time. I tell her we should have some fun together before she does out so she's not super horny and goes to bed with just any guy. She agrees and I'll come over to her apartment before dinner.

## **Saturday, Jessica**

I get to Jessica's apartment and she invites me to her bedroom so I can help her decide on her outfit for the night. I'm having trouble concentrating because she just happens to be naked. Be honest, if you had a naked woman asking you to think about something that isn't sex with her, you wouldn't be able to. Didn't think so.

My clothes come off with little effort and we start making out. We end up on her bed, kissing and fingering each other, but only teasingly, not trying to get each other off just yet. When we can feel the other is very aroused Jessica stops us and in a move that's familiar to me, she urges me to get off her and lays on her back and spreads her legs. Giving me the universal signal that she's giving herself to me.

Much like Duke did with me earlier, I dive right in. She had showered recently and all I taste is sweet taste of her pussy's wetness. I lap it up like Duke vainly tries to and she loves every second of it. I suck on every part of her pussy. Each lips gets the attention it deserves with licking, rubbing and sucking and so does her clit. It takes about 20 minutes but I finally start bringing her to climax. Watching her grip the bed and buck her hips up into my mouth and listening to her moan in so much pleasure makes me dripping wet. I give her a good number of orgasms but my selfishness kicks in and I just have to stop and assume the position to indicate it's my turn.

She catches her breath and goes to town on my pussy. Giving me the full combination of her fingers, lips and tongue. She gets me off in about 10 minutes and is able to keep going for a bit longer since she's already had her fill.

We lay in bed together for a while before getting dressed. It had been a while since I had gone to a dance club since we don't really have any in my city and I ask her if she wants to hit one up in a nearby city with a more active night life. She agrees, we get ready together and off to a nice techno dance club. And that was my Saturday.

~~~~

Sunday

It's a late morning, dancing it up to techno music takes a lot outta you ya know.

No plans to do anything with Duke this day, still gotta build up some desire for Monday.

Had been with Jessica plenty as well, so I just figured I'd get in touch with my number one male friend with benefits so he knows I'm still around for some fun.

I send him some text messages letting him subtly know what's on my mind and as luck would have

it, he's not doing much today. We decide that I'll go to his place and we'll spend the afternoon and evening together.

I get dressed in a nice short-ish, low-cut dress, the poor thing can barely hold my boobs in lol.

I get over to my friend's place and his attention is caught by my boobs and mine is caught by his chest, as he wasn't even wearing a shirt when I got there. We pretty much right off the bat start making out, one of my hands on his back and the other on his chest. One of his hands is massaging one of my boobs and his other hand his on my ass, holding our hips together. As we're kissing I feel his dick getting really hard and pushing up against my body.

We stop kissing and go to the bedroom. Once there, he lays on the bed and I stand at the side of it. I slowly slide my dress's straps down my shoulders and let my dress fall to the floor, leaving me in my lacey Victoria's Secret underwear and bra. A view he seems to appreciate, because now he takes off his pants, to reveal a familiar bulge in his boxers.

I take off my bra and drop it on the floor, my breasts now finally free, I look down and blush a little because my nipples are probably as hard as his dick. I slide my thumbs under the edge of my underwear and wiggle my hips from side to side as I slowly pull them down and off. Before fully removing my underwear I turn my back to my friend and bend over at the hips to take off my underwear, giving him a rear view of my ass and pussy.

When I turn around he has take off his boxers and is as hard as I've ever seen him.

I get on the bed with him and take his dick in one of my hands and start rubbing the shaft. He lays back and enjoys my hand, once his eyes are closed I lean forward and take the head of his dick in my mouth. Working together, my hands, mouth and lips move together up and down his dick. He is so horny that I can already taste his precum.

This guy tends to like to take control and that's what he does now, before I make him cum with my mouth. He rolls me onto my back, spreads my legs, holds me down and slides his dick into my pussy in as swift of a motion as you can think of.

I wrap my arms around him and pull our bodies tightly together as I feel his dick get pushed far into my pussy.

I tend never to do doggy style with guys and he's okay with that, says missionary feels better for him. I'm okay with being dominated by a guy though as long as it's in missionary. If you want or allow me to take control though, you'll end up on your back and I'll ride you.

Not now though. He's on top of me, holding me down, thrusting his dick hard and fast into my vagina. I can feel his balls moving back and forth, slapping against my body. My boobs being squished, but not painfully, from him laying down right on me (because I'm holding tightly onto him remember).

He's kissing and biting my neck and I'm doing the same to him, with my legs spread wide and curled around his legs.

It feels so good to be able to moan loudly while being fucked, whereas with Duke I have to keep quiet. I take advantage of the fact I don't need to be quiet and moan and scream for him to fuck me harder. My friend listens and drives his dick into me as far as he can get it.

He says he's about to cum and I feel his dick get even harder and start spasming as he starts

pumping his semen into my vagina. I can feel his dick contract with each spurt of cum. I can't really feel his cum inside me, since with humans there tends not to be a whole lot, but what I do is my pussy lips get even more wet. This isn't from my body lubricating itself more, it's from his sperm. Frequently when a girl has a dog or guy cum inside them, all they'll feel is the sensation of themselves getting more wet, but it's usually just the semen already at the entrance, making things wet.

My friend knows the drill and knows that since I haven't had any orgasms yet, he's still not finished. Now he either has to finger me or eat me out. He unsurprisingly chooses to finger me. He gets two fingers in me and starts rubbing my g-spot while I rub my clit. 10-15 Minutes later I start to cum and grip his arm tightly as he keeps rubbing my g-spot and I keep rubbing my clit. We give me a good 10 orgasms before I stop rubbing my clit, now he stops rubbing my g-spot and moves to my clit. Does this sound familiar?

It should, because it's the method me and Jessica use to make each other squirt. So now he's rubbing my clit and I'm left to focus on actually contracting the relevant muscles and squirting my female cum.

It doesn't take long, less than five minutes and I grip the bed tightly with both hands and I let out a good six inch stream of my own cum.

Now my friend knows to stop and he does. I lay relaxed on my back and lays next to me. He brings the fingers he used to finger me to my mouth and I clean off his fingers for him.

Watching me cum and squirt has turned him on again and he guides one of my hands to his dick to let me know what's on his mind. I'm too exhausted to really get on top of him or even move much, but I spread my legs to show him it's okay and he gets on top of me again.

His dick slides even easier into my pussy now that it's got my own wetness, his cum and my squirting juice to lubricate the whole area. I put my hands on his strong back and close my eyes as he begins to fuck me again.

Despite how tired I am, my body is still able to muster the strength to moan and say "yes, fuck me, it feels so good" and so on. Because he's young and horny as fuck, despite cumming not long ago, he's still is about to cum pretty quickly after about 15 minutes of fucking me. And again, I feel his dick get very rigid and start twitching as he starts shooting his second load into my vagina. Since I've already taken one load and done my own squirting, I don't feel much different when it comes to feeling his semen. What I do feel though is it leaking out of me not long after he pulls out. The air in the room cools it off and I can feel it dripping out of my pussy and down to my ass.

We lay in bed for another half hour or so before getting up and just hanging out watching TV and having dinner.

I leave before it gets too late since I still have Duke to take care of after all and that concludes my weekend, three days, three different sex partners. Four if you include Duke.
