## BEASTIALITY STORIES

(c) 2021 by unknown

Even before my wife and I got married we played with toys. I always let her pick out the sex toys and the new dildos she'd buy kept getting bigger. Before we got married we bought a house just down the road from her sister and I ended up having an affair with her niece (Confession of an Uncle). My wife (girlfriend at the time) knew her little niece and I was fucking around, she didn't mind because she was into huge dildos.

10 years later we were married, with her niece, and 3 kids living with us. I was fucking our nieces living with us and my wife was using huge dildos because my cock is only 7".

It was around the time my niece moved into our home that my wife had bought a 17.5" horse cock dildo and it was hot watching her ride that monster horse cock causing her belly to bulge.

This story was a few months after her niece moved in with her kids, her niece and I continued our affair.

My wife told me she started looking around if any other women were into the horse cock dildo, she says not only are women into it, she found a couple of dykes who like using the horse dildos which she has been emailing them, and they own a horse ranch. She told me they was just a couple hours away from us and not thinking about it, I said; "ummm, okay???"

My wife says; "two women who are into horse dildos that own a horse ranch!" and it clicked, I said; "oooooh, they let the horses fuck them"? My wife just smiled and shook her head yes. Then she says; "they told me that the real flesh of a cock feels so much better than a plastic dildo", and she pauses a second, looks up at me with them I want something eyes, and then says; "they want me to come for a visit but I don't want to go unless you go with me".

I say; "how the hell do they let a 1,000 pound animal mount them"? She said they told her that they have a fake horse which holds the horse's weight. After some basic WTF questions back and forth I agreed to go with her.

We get out to this ranch, do the meet and greet, now inside with the three women fucking around with horse dildos as I'm setting on the sofa jacking my cock watching this unfold.

Then one of the dykes says to my wife; "you're ready sweetie, let's go get some real cock" and she looked back at me saying; "you ready", I replied (looking at my wife); "let's do this". My wife was smiles from ear to ear as we walked to the barn, we get in the barn, and it has stables with stallions in the stalls, and then they lead us into a real large stall.

In this stall there it was, the fake horse which I'll try to describe, it was a wooden horse but the underside was hollowed out, and the back end was open (no ass or tail), then it had what looked like a sex swing in the hollowed out underbelly.

One of the dykes told my wife she can lay on the sex swing forward so she's standing on her feet and her torso is resting on the swing. Or they can lower it so she can lay on her back in the swing, she said that she likes the standing up, and bent over position.

My wife said' YES I like that position too", so my wife gets behind this wooden horse, bends over, and rested her torso on the sex swing, which put her ass right where the wooden horse's ass would have been.

One of the dykes came into the stall with a couple stallions and their cocks were hanging low too.

The other dyke left and came back with a rag. She says; "this has an in heat mare pussy juice it and will get the studs going", she walks up to my wife, and wiped the rag all over her ass as she's bent over under the wooden horse.

A stallion came over to my wife's ass, sniffs it, and his cock started growing instantly. Then I watched the horse jump up on the fake wooden horse, his monster cock was now stiff, and rock hard. As the horse's cock was bouncing around trying to find my wife's pussy, one of the dykes grabbed the horse's cock and guided it into my wife's cunt.

As soon as the horse felt her wet pussy, it lunged his hips forward sinking his monster cock into my wife's pussy, and my wife about screamed; "oh fuck YES".

The horse just started drilling my wife's gaped cunt, she said; "oh fuck I can feel his cum spraying inside me", this stallion fucked my wife for almost a minute, when his cock shrank back, his cum was leaking out in a steady stream, and when his cock head unplugged my wife's pussy, a GUSH of horse cum poured out of her gaped pussy.

The horse dismounted the wooden horse, my wife said; "oh fuck that was intense", just as she said that the other stallion jumped up on that wooden horse, and his cock didn't need any guiding, it found her dripping pussy, and then he too sank his monster cock into my wife's cunt.

This horse fucked my wife a little longer, as his huge cock was slamming her, the last horse's cum was dripping from her pussy. Then this horse slowed, his cock started shrinking back as his cum started pouring from my wife's pussy and when the horse's hung cock unplugged my wife's pussy, again there was a GUSH of cum, and when my wife pushed the horse cum out, it again just fucking gushed from her opened pussy.

By time the second horse dismounted the fake wooden horse my wife was under, the first stallion was ready again, and it mounted the wooden horse, his monster horse cock found my wife's pussy, and then the horse sank his cock into her.

It was around the time the first horse was fucking my wife for the second time is when one of the dykes lead in two more horses, now there was four horses in the stall, and all their cock were hanging.

I watched my wife get gangbanged by four horses for at least 2 to 3 hours straight, it was about halfway through my wife's horse gangbang, one of the dykes pointed to a goat in a stall over, and said; "she hasn't been fucked in a while if you want some pussy".

Well I was honey as fuck watching my wife getting fucked by horses, so I said; "okay I'll try it", and the dyke lead me into the stall, then ties the goat up to a board, and put some food down saying; "there you go". I squatted down behind the goat, rubbed my cock up and down it's pussy, which was already wet, and then I sank my cock into the goat's pussy.

I could still see my wife getting fucked by the horses and could still see their cum pouring out my wife's gapping pussy as she's being fucked. I didn't last long, actually the goat's pussy felt rather good, it was like fucking a woman's pussy, and I soon started filling this goat's pussy with my seed.

To be honest, I would have rather been home fucking with my nieces, but I did have fun watching my wife get fucked by them monster horse cocks, and the goat pussy was pretty good.
