## BEASTIALITY STORIES

(c) 2011 by TheRealLukeOzvik

The Minogue family is close, really close. Although they may not appear in public together all that often Kylie and her little sister Dannii are very much 'close'. When Dannii had her breast implants Kylie was the first person there to see how real they felt, how soft they were to the touch.

When Michael Hutchence died, it was Dannii who consoled her big sister with hugs and kisses.

Of course, many sisters are close, but few are as close as these two Australian entertainers - after all, how many sisters have kissed on live national tv? How many have taken nude photo's of one another to carry around in pocket-books? And, how many have had sex with each other, tongued, fingered and fisted each other? How many? Not many, I'll tell you!

On this occasion, the fun was hotter and harder than usual. It was Kylie's birthday and because of that, Dannii had agreed to let her big sister do whatever she wanted. Kylie's wicked smile had immediately alerted Dannii to lie face down on the bed and arch her back, pushing her pussy between her smooth thighs. She grabbed her thighs and butt, spreading the flesh wide to expose her pussy further and allow Kylie's large rubber strap-on cock entrance to that hot pussy.

Dannii lay on the bed, her ass in the air as her big sister Kylie slammed hard into her pussy from behind. Ten inches of transparent rubber dildo slid in and out of her wet wet pussy.

"Oh yeah, dont stop, Sis." She begged, her face being pushed into the mattress, her hands squeezing her surgically enlarged tits hard.

"Cum on my cock!" Shouted Kylie, thrusting deeper, leaning forward and biting her sister's shoulder, her hands gripping her hips.

Dannii felt her sisters small boobs press against her back, it always made her feel good. The fat rubber cock in her pussy made her feel even better.

Feeling the bulbous head thrusting deeper into her cunt, stretching her out...

Kylie pushed up Dannii's body, changing her angle of penetration, pushing the dildo down against Dannii's g-spot - every stroke ran a huge length of rubber across the front wall of her pussy.

The pleasure was almost unbearable for Dannii, who always had multiple-orgasms, as she came for the first time that day. Her sister sliding slow and easy now, in and out of her pussy.

"I'm cumming..." Moaned Dannii.

"Oh yeah!" Kylie grinned, she loved getting her little sister off.

Dannii felt the great power building up between her legs, she felt waves beginning to pass through her body beginning with each fast thrust of Kylie's hips - she could feel the bulbous head of the dildo sliding up and down her vaginal shaft.

Suddenly it stopped, Kylie pulled out - totally removing the long dildo, and rolled Dannii onto her back... She slowly inserted the dildo again... For Dannii, now on her back with her knees in the air and her big sister between them, the orgasmic build-up began again immediately.

Kylie now leant in toward her sister's mouth, which opened to take her tongue... The girls kissed each other quick and wet, lots of tongue, licking each other's lips, kissing again then keeping their

faces close as Kylie stroked into her pussy. Kylie's small breasts flattened against her sister's large implants, their flat bellies together, pelvis's grinding hard - dildo pushing deeper.

Dannii's hands moved up and down her sister's back, across her buttocks, gripping her thighs, back up her back and round to her breasts, pushing her slightly away...

"I want to suck them..." She whispered.

Kylie didn't need asking twice. She shifted her position, easing forward so that Dannii could suck on her nipples whilst she continued to stroke the strap-on into her pussy.

Kylie loved the feeling of a tongue flicking over her nipples, of lips sucking them, and of teeth gently nipping them - especially the feeling of a woman's mouth... And her sister was one of the best she had known.

By now Dannii was close to ecstasy, one hand holding the tit she was sucking, the other guiding the dildo in and out of her pussy, the tit in her mouth muffling her moans... Her big sister supporting her own weight on her outstretched arms.

"Oh yeah... That's it... Suck my little titties!"

As she came, Dannii bit down on her sister's tit... One nipple trapped inside her mouth. It hurt Kylie, but she loved knowing that she'd got her kid sister off - and this was a sure sign to her. She pumped extra hard, speeding up into a frenzy... The dildo almost coming out before she rammed it all the way back in... Dannii's legs wrapped around Kylie, her thighs squeezing in tight.

"Shit!" She screamed, releasing Kylie's nipple. "You're so fucking good!"

"Come baby... Come for Sis..."

Dannii squealed with delight as the full strength of her orgasm flowed over her, through her, and out of her...

Totally satisfied, Dannii fell into a deep sexy sleep. Kylie stood up and unfastened the strap-on then jumped back astride her little sister... She shook her Dannii by the shoulders. "Wake up, wake up... Remember my birthday.." She said excitedly.

Dannii came round slowly, "What? You aren't finished? she asked, sleepily.

"Of course not..." Kylie started, "I haven't had no cock yet!" She giggled.

Dannii rolled over and sat up, supporting herself on her elbows. "Okay, take it off, let me strap on."

"Oh no sis, you've got it all wrong... I don't want that rubber shit inside me..." Kylie grinned, a nasty grin. "I want a real cock, that comes for real... I want Demon's cock!"

This took Dannii by surprise. Demon was the Doberman Dannii kept at her home in Melbourne. She breathed deeply, it was disgusting - but, the image of Demon mounting her sister Kylie and fucking her just turned her on like nothing on Earth.

"Are you for real?" She gasped as her heart pounded.

"Of course I was, I want his cock!" Moaned Kylie, "I've wanted it since you first brought him home."

Dannii stood up and staggered out of the room, her legs still weak from the fucking Kylie had just given her. Whilst her sister was out of the room Kylie unstrapped the dildo and held it to her mouth,

she sucked on the Dannii flavoured rubber cock until her sister returned leading Demon.

Demon was a big dog, made to look even bigger by the smallness of the Minogue's, both just five feet tall in bare feet (and they were totally bare, not just their feet!). Demon's eight inch cock was like a ten or eleven inch cock to any average sized women, so for the girl's it was huge.

Kylie tossed the dildo aside and licked her lips, her heart pounding so hard she was sure it was about to pop out of her chest.

Dannii stood next to Demon, looking nervous.

Kylie slipped off the bed and crawled, sexy like a pussy cat, over to her sister and the dog. She looked up at Dannii as she reached under Demon's torso and gently took hold of his cock - it was small, barely out of its sheath, but it started growing as soon as the tiny singer started to massage it. Demon could smell Kylie's dripping pussy, and that sure helped in getting him hard.

Dannii crouched to look under Demon, "Go lay down on the bed." She said softly, "I think he's ready."

Kylie lay on the bed, on her back with her legs spread wide, whilst Dannii walked Demon over to between her thighs and turned him round, backing him up to her sister's neat pussy. She took hold of Demon's now fully erect cock and held it back between his thighs so it was pointing backwards... She eased the tip of his cock against Kylie's pussy lips. "You sure you want this inside you?"

"Oh yes, don't you dare stop now!" Pleaded Kylie.

Kylie felt her sister slide Demon's hot cock between her pussy lips. He was big but she had had bigger things in her cunt (her sister's fist for one!) and he felt so good. Dannii held Demon by the knot of his cock and slipped him in and out of her sister's pussy - pumping his cock into Kylie's cunt nice and slow.

Kylie felt waves of pleasure flowing over her body, combined with the pounding of her heart it was amazing, like somebody was using her as a musical instrument - playing with her. Dannii stroked her other hand over Kylie's flat stomach and small breasts, pausing to pinch her nipples, squeezing hard and twisting each one in turn. Kylie winced from the pain, but enjoyed the way it contrasted with the hot pleasure coming from her pussy.

"You like that doggy cock in your cunt, slut?" Asked Dannii, an evil tone in her voice.

Kylie moaned her reply, unable to form words in her state of pleasure.

"You nasty girl! Your dirty dirty cunt!" Spat Dannii, a smile on her face, enjoying seeing her sister do the nastiest of nasties. "You fucking love it, don't you?"

"Uh-hu" moaned Kylie, a huge smile on her reddened face, sweat pouring off her neck and chest. She was grabbing hand-fulls on sheet with both hands, struggling for breath as Dannii eased Demon's cock in and out of her pussy.

God, this was good.

Dannii checked Demon to see how he was. Bending back from his hindquarters she looked at his face to see how he was and she was greeted by a long wet tongue slapping across her face.

Instinctively she opened her mouth and allowed him to kiss her properly. A second slap from his tongue, this time hit her open mouth and went inside, she closed her mouth and sucked his tongue, allowing it to slide slowly out - it was hot, wet and soft - she knew where she wanted it.

"Kylie, you're going to have to take over the cock duties!" She said, leaving go and shuffling around in front of Demon. Kylie reached down with one hand and took hold of Demon's dogcock, she started pumping it into her pussy, faster and harder than her sister had - it didn't seem to bother the dog.

Dannii lay down on her back in front of Demon and spread her legs, reaching down between her thighs she spread her pussy lips with her fingers and encouraged Demon to start licking, he did. Immediate pleasure shocked through Dannii, starting at her clit and spreading through her belly and chest - this was incredible, even better than having Kylie suck her pussy.

The two Australian stars - probably the two biggest stars and most attractive women ever to come out of Australia - stayed in that position for some time. Kylie on the edge of the bed, her legs spread with the Doberman's cock in her cunt, Dannii on the floor with her legs spread and the dog's tongue probing her vagina. A photograph would have been worth a fortune. Both girls writhed and moaned from the dogsex pleasure they were getting.

Kylie sat up as she came for the fifth time, she looked down and watched Demon's red and veined cock as she slowly pulled it from her cunt. As the tip popped out she held the cock gently in her hand and watched as pre-cum dripped onto the sheets. She smiled, looking down at her sister writhing under Demon's oral skills.

"On your knees bitch!" Kylie ordered Dannii. "I think it's time you felt this hot cock in your cunt!"

Dannii needed no more instruction, she rolled over and pushed her ass in the air, after watching her sister take that big cock she couldn't wait to take it herself.

Dannii reached backwards and grabbed her butt-cheeks, she spread them wide, exposing her puckered little asshole, looking back over her shoulder, her face flat on the floor she moaned, "Don't put it in my pussy... I want it in my ass!"

"Are you sure?" Kylie grinned, knowing Dannii's love of anal sex.

"Don't ask stupid questions, just put it in, please!"

Kylie eased the end of Demon's cock into Dannii puckered little asshole, as she fed more cock into the hole she watched as it stretched out taking it all. She smiled as she heard Dannii moaning from the pain of anal penetration. "Oh shit, that's so nasty!" She moaned.

Demon stood astride Dannii, his chest against her slim human back, his cock held tightly in her tight asshole. He was the king of all dogs and looked like a God.

Dannii bucked back gently against him as Kylie massaged his knot and eased him a little deeper into her kid sister's asshole, she looked up at Kylie with begging eyes, "Put your fingers in my cunt!"

Kylie did as she was asked, she slipped three, then four fingers into Dannii's hot wet cunt and started to finger fuck her hard. She could feel Demon's cock through the thin vaginal membrane. Dannii was now out of control in ecstasy, licking the carpet, imagining it was another girl's pussy, any girl.

After a few minutes, Dannii felt Demon arching his back and trying to pump deeper into her asshole. She knew male behaviour, she could tell what was coming... "He's going to cum!" She moaned.

Kylie immediately ripped Demon's cock from her sister's ass and gripped him firmly, allowing him to fuck her fist. Dannii struggled out from under the Doberman and rolled over, getting her face in front of his cock just in time to be splashed full in the face with a load of fresh, hot, dogcum. Kylie leant in and pressed her face against Dannii's as the second load spurted catching both of them across the cheeks and lips. Both girls lay stayed there, pushing heads against one another as they tried to catch each spurt of dog spunk in their mouths. After a minute of non-stop ejaculation both girl's faces were covered in Demon's dogjism.

Kylie and Dannii looked at each other and giggled. Their hearts were still pounding, thinking about what they had just done, about what was all over their faces.

Kylie broke the stillness, leaning forward and swiping her tongue across Dannii's cheek, licking all the cum off that she could. She savoured the flavour and grinned. Then both girls launched into a licking frenzy, licking each others face clean of Demon's Doberman ejaculate.

Once finished they collapsed on the floor in each other's arms.

"That was soooo good." Moaned Kylie, hugging up close to her little sister. "I'll never fuck a human ever again."

Dannii frowned, "Never?"

"Well, except for you," said Kylie, "of course!" She added, before kissing her sister long and wet, their tongues in each other's mouths swapping what dog cum they had left, savouring the flavour, wondering how long it would take Demon to be ready to go again.
