BEASTIALITY STORIES

(c) 2007 by Ebb_tide

First, I would get to know her cunt by gently massaging it with my moistened fingers — sliding one or two of them inside of her just to see how she would react. I want to see how wet her pussy gets and how deep I can slide my fingers inside of her. After doing this for period of time — and getting her tight, virgin cunt stretched out a bit — I would start to finger fuck her to see if I could get her hot, doggie juices to cover my probing fingers.

Then I would let her lick my wet, cum-covered fingers while I played with her pussy. Hopefully this will make her cunt soaked with her cum and coat my eager fingers with her sweet juices. I'd lick her cum from my fingers, and taste the inside of her pussy. It's a good taste—bittersweet and musky—that makes my cock drip with anticipation of what's to cum. At this point I take and lay her out on her back, rubbing her belly and her pussy—keeping her happy and horny.

Cleaning her wet pussy and ass with a warm water and some soap, seems to please her, but I'm hoping to please her and myself even more. After I gently dry her with a towel I insert my finger into her pussy and start to finger her very slowly. She raises her hips from the floor and softly whimpers, wanting me to go deeper, but I just keep it so my finger goes in just a bit and then out again.

Then I spread her legs and go down on her wetness with my mouth. At first I just lick at her pussy lips, teasing them with long strokes from the bottom of her cunt to the top. Oh, the taste is great and I go a little deeper with the tip of my hot tongue. Her pussy and ass are moving up and down—thrusting towards my mouth. I give her what she seems to want—a deep, thrust of my anxious tongue into her hot cunt.

I lick her pink insides and feel the warm juices flow into my mouth as I push my tongue in as deep as it will go. She is soaked and making gentle yipping sounds as I lick her pussy and play with her ass. I eat her pussy for a while and then finger fuck her once again—this time using more fingers and going even deeper than before, in preparation for the future.

Now I've been eating out this hot female dog's pussy for about a week now. Her cunt seems to flow with more cum each time I bury my tongue in her. I've jacked off for her several times and she likes to lick at my cock and get the pre-cum.

Once while I was eating her, with my cock in her face, she started to lick my cock while I had my tongue buried inside her cunt and a wet finger slid up her ass. I didn't even have to touch my rock hard cock because her tongue did the job well. Her pussy was soaked and I slid two or three fingers deep inside her. She bucked and whined as I fucked her with three fingers, with my tongue in her sopping pussy and a finger in her tight ass.

I couldn't hold it any longer. My cock exploded with streams of cum which she eagerly licked from my dick— from her face—her lips, and anywhere else it may have went. I wanted to fuck this dog so bad, but it wasn't time yet. Soon I thought, soon!

Several days had gone by and I was getting very eager to feel this pooch's pussy wrapped around my cock. It was a cold winter evening when I decided that I couldn't take it any longer. I got her ready by gently playing with her. Rubbing her belly and talking to her— telling her that I was going to make her feel really good and that she wasn't going to be a virgin for much longer.

My cock was dripping with anticipation as I pictured it slowly popping into her untapped cunt. I rubbed her a bit more and then let my fingers slide down to her waiting cunt. It was already wet. Maybe she knew something was about to happen. I started to play with her slit and inserted one finger—then another—then three, stretching her sweet pussy so I wouldn't hurt her tight, little cunt.

Then I went down on her and tasted her cunt just like I had done so many times before, but I wasn't just eating her pussy, I was making sure there was plenty of lubrication so I could get my cock into what seemed like a very tight and small hole. I lifted her onto the couch, something I hadn't done before, and laid her on her back spreading her legs wide open. Her hot little cunt was dripping from my tongue and her doggie cum.

I stroked my dick with the juices from her pussy and took the head up to her waiting snatch. At first she wasn't sure what to make of this and started to twist about and whine. I again started to rub her belly to calm her down. She stopped moving around and I again spread her legs wide open.

This time when I moved my cock towards her opening, she didn't move—she made just a quiet little whine as I put the head of my cock onto her hot pussy lips. It was so hot I thought I would cum right there and then but I wasn't going to let that happen. I wanted to see and feel my throbbing cock going deep inside of her virgin cunt. Slowly I pushed the head of my cock into her.

At first it was tight but I knew that a dog's cunt is very tight when it is first entered but once you get past that point—well I was going to find out. I put one hand on her leg and guided my rock hard member with the other. In it went! As the head popped inside of her she let out a yip and to my surprise, thrust her hips forward, forcing my cock to go deeper inside of her cunt.

That was all it took.

I started to push my cock into her deeper and deeper. My head was swimming as I shoved my throbbing cock into her. It was so tight and I pulled back and once again thrust into her, this time it went in more easily and I buried my cock-head into her hot pussy. I looked down and watched as my head slid into this bitch's cunt faster and faster.

She was making sounds I had never heard before and it really turned me on. I buried the full length of my cock into her. In and out of her virgin cunt I thrust with my rock hard dick before I exploded a huge load of cum deep inside her throbbing cunt. Her pussy lips seemed to tighten and she sucked every drop of cum out me. Slowly I pulled my sopping cock out of her and sat back on the couch. She lay there on her back, legs spread with her tongue hanging out of her mouth.

Then I looked down and saw her dripping cunt. I could see my cum as it oozed out of her. I could not control myself. My cock got an instant hard on and I went down on her it with a passion. I started to lick and suck at her freshly fucked pussy—tasting her sweet doggie cum along with the salty streams of my own. It filled my mouth and I swallowed every last drop.

Once again I spread her legs and this time my cock got past the tight spot rather easily and it slid inside her twat—slowly at first, but it eventually went clear up to my balls. Her pussy seemed to tighten in spasms, as I fucked it slowly.

Watching my cock go in and out of her was totally fucking amazing. I fucked her much longer than the first time — all the while watching my head cum to the edge of her hot cunt and then disappear deep inside. I could feel the jism building up inside of me. I shot another load deep inside her, jamming her pussy tight against my balls for several wild spasms. Soon my cock exited her cunt with a slight “pop”.

I fell back onto the sofa once again. She rolled over and got down on the floor. I just relaxed—contemplating what had just happened and enjoying the moment. Oh, how I wish my wife could see this. See would go fucking crazy, watching me fuck this hot bitch's pussy and then eating her out afterwards.

Then this horny dog did something that I and (I'm sure many others wished they could do). She swung around and started to lick at her pussy—sopping up the juices that I had just put into her and licking at her ass. This really fucking turned me on.

She came over to me and (to my disbelief) and started to lick at my soaked dick.

At first I pushed her away. I wasn't in the mood for this. But she continued to nudge at my cum covered hands. Her tongue rolled on my fingers while she licked my cum and her pussy juices from them. I got so turned on that I let her have her way.

She licked at my cum covered cock until it was clean and once again hard. This time I put her on the sofa on all fours and slid my fingers into her very soaked cunt. Lifting her tail, I guided my rock hard member right into her sopping wet pussy. There wasn't much time for her to react, as I quickly put it into her well-lubed snatch. It went in surprisingly easy and I felt her spasm again. Was she cumming?

That made me even hotter, and I slowly slid my dick deep into her throbbing lips. Her hips were bucking, but I had a grip on her thighs and wasn't going to let go. Faster and faster I fucked this hot little bitch's cunt. She yipped and I thrust as deep as I could inside of her. The hot cum rolled once again—shooting deep inside her panting body.

I filled her with my cum, grabbing her ass and pushing my cock into her as far and as deep as I could. I fell onto the sofa, totally spent after cumming three times inside of this hot canine excellent cunt. She lay on the floor looking quite content. "Good dog," I said, as I rolled onto my side, "Good doggy."

END
