BEASTIALITY STORIES

My wife, Kate (26), and I went on holiday to Bath earlier this summer. We stayed in a lovely bed and breakfast in a town house on the edge of the town. The B&B was run by a middle aged couple in their mid fifties called David and Maria, who lived at the address together with their three dogs.

There were two grey coloured Great Danes and a black Labrador. The dogs all lived in kennels at the end of the garden and generally didn't come into the house.

We spent the first couple of days looking around the town enjoying the sights and the sunny weather, returning to the B&B after our evening meal. We were the only guests at the B&B. Whenever we returned to the guest house David and Maria were extremely polite and welcoming.

I noticed that David seemed to fancy Kate and on a few occasions spotted his view roving over her gorgeous figure.

On the third night we went out for a meal and, having consumed rather a lot of wine, returned to the B&B mid evening rather the worse for wear. David was in the lounge enjoying a beer in front of the television, Maria having gone out for the evening. He had let the dogs into the house for a bit of company and they were laying contentedly on the rug.

David asked if we would like to join him for a night cap, to which we agreed. David poured us all whiskies and we settled down on the settee.

As Kate settled down her skirt rode up her legs revealing long tanned legs and a glimpse of her white knickers. David did not miss the opportunity and started flattering Kate telling her that she could be a model, etc.

Kate was obviously flattered and her face blushed a deep red. David told us that he was a keen photographer and took photos at wedding and other social events to make a little additional money. Then he asked if Kate would like him to take a few photos of her. To my surprise Kate agreed and David suggested that she may wish to freshen up, perhaps reapply her lipstick, etc.

With that Kate disappeared to our room and reappeared shortly having changed into a dark red wrap around top which tied at the front. The top exaggerated her ample cleavage and her long natural blond hair spilled down over her shoulders. She was wearing a dark red lipstick which matched her top. She was also wearing a short pleated black skirt, black sheer stockings and red high heels which accentuated her long slender legs.

Again David took every opportunity to praise and flatter Kate. This time she seemed less embarrassed and slow began to lap up the compliments.

David prepared his digital camera and other equipment (tripod, etc). Shortly he told Kate poses to strike and she dutifully followed his suggestions. Things started off tame with Kate standing showing side profiles, sitting on the settee, etc. After 15 minutes or so and another couple of glasses of whisky things became more risque. Kate was adamant that whilst she was prepared to pose for more risky shots but she did not want to reveal her identity. David left the room and returned with two Venetian style half face masks which covered the nose and eyes.

Kate put one on and David handed me the other in case my image was caught in the background.

Kate posed with her top untied, then with her top removed but with her bra on, then with her bra removed and her hands cupping her ample breasts, then topless without attempting to cover her

breasts, reclining on the settee with her skirt pulled to her waist revealing her black see through knickers, stockings and suspenders on show.

Before long David had persuaded Kate to model wearing only her stockings, suspenders and high heels. Kate was like putty in his hands posing in any pose he suggested. He shot her on her knees her firm arse confidently pointed to the camera revealing her perfect pink pussy lips lightly covered with blonde pubes and a huge smile on her face. Then laying on the carpet with her legs wide open and her hands holding her pussy wide open giving a view deep into her dark red inners. Then she lay on the table with her legs drawn up revealing both her pussy and her tight arsehole.

At this point one of the Great Danes (named Paddy) whom had been watching the proceedings strolled over and began sniffing at her pussy and anus. After initially jumping at the shock of the dogs cold wet nose, Kate started giggling and then announced that it was unusual but not unpleasant sensation. She made no effort to move and the dog began to lick at her pussy and arsehole. All of the time David continued snapping shot after shot.

Kate dropped her legs back to the floor and stood up. Her nipples were extremely hard indicating just how turned on she was by the whole experience. The Great Dane jumped up and placed his paws on her shoulders. As he did so his cock was starting to harden and come into view. It was a good 5 inches and not even fully erect yet. Kate noticed Paddy's cock and took hold of his cock in her and slowly wanked it up and down. The dog began to lick her face clearly keen to encourage her efforts. Soon Paddy's cock was enormous, easily 9-10 inches long but very thin and slender.

Kate sat on the edge of the table and continued working the dog's cock. Fast as anything he repositioned himself close between her legs and tried repeatedly to mount her. Being a large powerful dog Kate was in little position to prevent him in his efforts and before long I could see his cock brushing against her vagina perilously close to penetrating her vagina. Kate gasps in a mixture of surprise and pleasure. With all of her might she pushed Paddy away and dropped to her hands and knees on the floor, offering her arse and pussy to his gaze.

Paddy sniffed around her arse again before working his way so he was over the top of her is front legs and paws alongside her arms and back legs level with her stocking clad legs. Kate stayed still as he tried to mount her four or five times with no success. On his next attempt Kate was also becoming frustrated and she moved her arse around until finally the tip of his long slender dog cock entered into her pussy. Paddy was away and rammed her cock straight into her body until his bollocks and legs were slapping against her arse.

Kate let out a scream the first time he rammed forward. However, she soon changed and I could soon hear her moaning and groaning as the beast drove his cock fast and deep into her vagina. Kate dropped to her elbows, her face against the rug and eyes closed as Paddy rutted away at her.

I was so turned on by the sight which met me. My petite wife Kate being used as a bitch by this huge dog who completely swamped her tiny frame.

Before long Kate began to moan and thrash as she reached her orgasm. Paddy's motions became faster and faster and he tried to bite her neck, presumably trying to prevent his bitch escaping. Then his jackhammering suddenly stopped and Kate announced that he was flooding her with what felt like pints of hot liquid.

As I watched I could see a see through liquid seeping from her vagina alongside his penis and onto the rug. David continued snapping away with his camera taking shots of Kate with Paddy's penis embedded deep in her vagina and the liquid pooling below them.

Kate tried to pull away from Paddy but announced that he was stuck hard and fast inside her. David explained that when dogs have sex the male dog's penis forms a knot to ensure that the penis did not withdraw from his bitch too soon and that Kate would need to wait 10 or 15 minutes for the knot to subside.

Kate stayed on all fours waiting for the dog's knot to go down. She began to slowly move her arse backwards and forwards presumably testing whether she could yet get free. As she did so I could tell that she was becoming excited again and before long she began to ram her arse hard back against Paddy's legs seeking more pleasure from his cock. Before his knot deflated and he was able to withdraw Kate experienced a couple more orgasms courtesy of his long cock.

When Kate and Paddy had parted David persuaded Kate to lean against the table with her legs wide apart and proceeded to photograph the dirty slut with the dogs white sperm trickling out of her pussy and down her black stockings.

The smell of the dog sperm and her vagina soon attracted the attention of the other two dogs and shortly Kate had two more dogs sniffing at her pussy. The second Great Dane was becoming increasingly aroused and his cock was increasingly erect. Kate knelt down and began to lick the tip of his penis tentatively with her tongue. She seemed to forget that David and I were there and before long she was lost in her lust taking a good 4 inches of the dogs penis deep into her mouth while David took more photographs.

Before long Kate stood in front of the table, facing it and lent forward. With that the Great Dane tried to mount her from behind. Obviously turned on and not wishing to spend ages with the dog trying to mount her Kate reached around and guided his hard cock into her pussy which was still dripping wet with the sperm of the first beast.

The dog forced himself forward and Kate grimaced, announcing that his cock was even longer than the first and had pushed into her womb as he sought to impregnate his bitch. Again Kate became extremely turned on and as the dog thrust into her body she worked her suspender clad arse back against his hairy groin.

Soon the second Dane ejaculated into Kate's womb and she had another 15 minute wait as his knot deflated before she could draw away from him.

Afterwards Kate lay on the floor with her stocking clad, red high heel wearing legs wide open, dog spunk running out of her red raw vagina onto the rug and carpet. The labrador began licking the spunk from her vagina, his cock already hard, obviously sizing up my bitch of a wife.

Kate announced that she was too sore for any more rutting. She firmly grasped the labrador's cock and worked it over her breasts until he too ejaculated over her nipples. David stood taking more photos as the sperm trickled down the side of her body and into her belly button.

Not wishing to be seen in this state by Maria, Kate and I quickly made our way to our room to tidy up. I was so turned on and there was absolutely no way I would be able to sleep without some relief. After some persuasion, Kate let me fuck her softly whilst she stood in the bath with her arse to me. It was an amazing sensation and I did not last long before I added my spunk to the concoction in her womb. Dog spunk matted her pubes, my pubes and plastered the bath.

A couple of days later before we left, out of sight of his wife David handed us a photo album full of prints of Kate's night with the beasts and a CD rom. We sometimes watch the pictures on the PC whilst I fuck Kate or she fucks herself with a long rubber dildo pretending we are reliving the experience.
