BEASTIALITY STORIES

(c) 2014 by utopias

My story begins in a small grocery store in a small farm town. my first job was at simple foods grocery i had just turned 19 and had ben working their for nearly a year today was a big event sale. All the farmers in town were gathering outside the store to show off their produce so the customers would get to know where their food comes from and who was making it. It was a happy small town and everybody was friendly. except for the store manager my boss. He was such a hard ass. always giving me such a hard time. Today was so busy for the big event i did not even have time to take my morning break and was working furiously to get the place in order. I have had trouble with that manager sense i started working their he had it out for me from the beginning. As I was stoking the shelves in a hurry i had tripped and dropped a box of pickle jars that than broke all over the floor. The manager herd the commotion and made his way to me. "I figured it was you" he said. "Clean up this mess immediately than get back to work. We will discuss what you owe later. if i catch you screwing up one more time you will have to find another place to work".

The event had begun it was my duty to make sure all the farmer booths were prepped and ready. "Hey you kid you mind giving me a hand with that barrel of apples their" said one of the farmers, "sure" I replied. as I picked up the barrel and started to move with it. I than saw out of the corner of my eye my friend emely which i knew from high school. She approached me and asked how my day was going. At first i did not know what to say seeing as how i had a crush on her. we knew each other and were best friends but after high school we separated and did not see each other as much. I told her i was doing well and that it was good to see her, she than told me she came all this way just to see me and did not care about the event. she gave me a hug and told me we should hang out more. than left.

Surprisingly the manager was watching our conversation and had approached me and said "that's the last straw i cant have you flirting with the other customers your fired". as i put down the barrel of apples i tried to explane but he did not want to here it. The apple farmer had seen what was going on and approached the manager and said "this boy has done nothing wrong you should be ashamed of yourself talking to him like that". the manager stormed off with an angry look.

"Hey kid how would you like to work on my farm" he said. I replied "sure I could use a job seeing as how i just got fired". "My name is bill nice to meet you we can begin tomorrow if you like. just meet me at my place bright and early at 8:00 am tomorrow morning. here is my address" he wrote on a small piece of paper.

The next morning I arrived at his farm house. he had opened the door and invited me in for cofe. He told me he needed help with the stables and asked if i had any exp with horses. well no I said but i have always wanted to work around them.

He told me that the first thing I had to do was clean the stalls and feed them. now and then I can let them out to grase once and a while so you could clean their stalls easier "their is allot about horses i can teach you" he told me. As he led me into the stable he pointed out his horses by name. the first one he introduced me to was named buddy he was a large Clydesdale stud clean and well mannered. He is my show horse he told me so you better take extra care with him. he is a big boy so be careful he said with a strange looking smile on his face. The next one he showed me was his two miniature stallion paint ponies. he named nimbus and stratus. than he showed me his younger stallion crossbreed he named lightning.

He was magnificent to look at he was a zorse a cross between a zebra and a horse.

I gazed at his long shaft hanging down beneath him. bill saw the way i was looking at him and said

“eyup they get that way sometimes”. with yet another strange smile. The last one he pointed out was trixe a small poteet caremel color’d pony mare. yea that’s a good girl he said petting her head. well that’s all of them 4 stallions and 1 mare. it is important you don’t let the stallions get into the mares stall he told me. im not ready for any more horses at the moment.

For a week every day seamed the same clean the stalls and feed the horses, i would occasionally help him with some house work as well, seeing as how he lived alone and took care of the apple orchards all by himself.

I absolutely loved working on bills farm, being around horses all day. This had ben the best job i ever had.

The time came for him to show off his Clydesdale and produce at another market in the next town over. Today im going to teach you about some grooming, and sheath cleaning. OK I replied not knowing anything about what i was going to do.

Ok look here the first thing you need to do is groom him than when he is aroused we can clean his sheath. I was a little confused at first but than realized their was no reason to be grossed out it was a good job after all so i would do my job whatever the task. i had seen horse cocks before and was not surprised by them however when buddy drooped his enormous cock I was in awe. As I groomed him bill had brought a bucket of warm water a sponge and soap. I see he likes you bill said as his cock began to swell. he than took his enormous dick in his hand and began to stoke it. I realized he was enjoying himself by the bulge in his pants. he took the sponge and began to wash up and down the long massive shaft.

“You can touch it if you like” he said. No thanks i said back to him secretly wanting so much to play with that big horse penis. He than told me you don’t have to but it sure would make my job allot easier if you wanted to help me with this. here just hold him while i clean around his balls. Well ok I said with such a secret desire to do just that. As i got closer to him he began to belly slap his enormous 3 foot long dick and shot streams of precum.” just try and hold the head of his penis so i can get all his shaft clean” bill said. I had to grab the head of his cock with both hands just to hold him still. I could feal him swelling in my hands bigger and bigger. I began to get horny myself. He was sooo big and wet. His dick shot so much precum it was like lube in my hands. He began to buck a few times and than to my surprise shot his load all over the floor.

A stream shot out between his front legs about 5 feet ahead of him than several smaller streams of cum with each throbbing pulse. his cock flared up he was so big and wet. I could smell his cum and saw the puddle of sperm on the floor with his throbbing cum soaked member hanging down in front of it. I was sooo horny i let out a quiet moan and creamed my pants totally forgetting that bill was right their standing next to me. he than put his arm around my shoulder and said “well that was not to difficult now was it. looks like you got quite the mess to clean up” He looked at me again with the same strange satisfied smile. Than took buddy’s reigns and walked him out the stable leaving me their all by myself hands soaked in horse cum trying to get my mind around what I had just done and how i enjoyed it.

The next morning i met bill at his farm house as usual 8:00 in the morning. He had a hot cup of cofe ready for me and as usual told me the list of daily chores I needed to do. The only thing different about this morning was the way he was looking at me and speaking to me. Their was a softer tone in his voice and that strange smile on his face. He was a hansom man around 37 years old. I began to

realize he was flirting with me and got nervous seeing as how i was unsure of my sexual orientation. He had ben so kind to me i did not want to offend him and I needed the job to pay rent so I smiled back at him and told him how much I enjoyed working for him.

He than said you know what! It might make it easier if you come and stay with me at my house i have lots of empty rooms seeing as how im all alone on in this big place my parents left me with. And besides you got rent coming up so why don't you move in with me and save your money I wont charge you anything seeing as how you help me so much and I can still pay you as long as you need me to. Wow how lucky can a boy get I thought to myself. I would love that bill I replied. He sat down next to me put his hand on my leg and said to me im so glad that you will stay with me. i get lonely around here and would like some company now and then. he than stood up and said well looks like we got some work to do. We walked out the door and went our separate ways. I had knew he was going to be gone in the orchard all day and he left me to take care of the horses all by myself. Trixi was out grassing so i could clean her stall as i was cleaning i looked over at buddy and saw the way he was looking at me. awe you want some attention don't you big boy i said to him. his ears perked up and he began to swish his tail. I walked over to him and began to pet him. he reached back with his mouth and started to lick my hands. awe your good boy i said giving him a hug and a pat on the shoulder. I started petting him more and than began to here a strange familiar sound. I looked under him and saw his big throbbing cock belly slapping beating against his chest. each horny throb making a thumping noise as his 3 foot cock beat against his furry abdomen now wet with precum.

"you big stud do you want me to touch you as i did last time" I whispered to him than reached under him and pet his soft underbelly. I could feal his warm fleshy cock slapping my hand as i pet him. This made me sooo horny. He was such a big stallion and was so gentle. I cuped his big horsey dick in my hand and began to rub his full three feet of cock from the tip of his penis to the base of his shaft. he was oozing out so much precum it lubed his cock and he began to gently thrust back and fourth in my hand. I was once again finding myself with a rageing hard on this time i was all by myself. I slid my pants off and began to stroke myself with my hand wet with horse precum.

A wave of ecstasy rushed over my body as i was fully caught in the moment. I wanted to feal him in my mouth so I knelt underneath him and put my mouth on his big veiny throbbing horse dick. it was way to big to fit in my mouth so I licked his shaft up and down and worked my way to the massively flared head of his penis. It was at least the sise of a grapefruit. I could taste his jiss. It was warm wet and tasted kinda like slimy salt and pepper. I loved the taste and tried to fit as much of his hot flesh as i could in my mouth while with the other hand reaching as far back as I could along his shaft. he was getting bigger and began to gently thrust back and fourth. My lips and mouth firmly sucking on the end of his penis barely holding on. I could feal him leaking out in my mouth what seamed to be a cup of precum. I swallowed it loving every drop. than sudenly he let out a grunt tensed up and shot his full load of hot seamen right down my throat than another pulsing squirt filled my entire mouth and than another.

It was so much cum i could not keep my mouth on him anymore i released my mouth as cum was pouring out all over my shirt than more pulsing squirts. hot loads of horse cum shot all over my face and body some even got in my eyes. it seamed as if someone had taken a bucket of seamen and dumped it on me. once again i could smell his cum and felt it dripping down lubing my cock. i began to cum all over myself mixing the stallions hot seamen with my own. As i knelt under him in bliss i realized i was totally gay for this horse. he had given me a cumbath and i liked it. Ohh crap! I thought to myself I cant let bill see me like this. my clothes were soaked and I reeked of cum. Then seconds later to my suprizе bill came through the stable doors to see how I was doing. my heart raced as he saw what i had done. I thought to myself for sure he was going to kick me off his farm but before I could say a word he spoke.

~~~~~

Look at you underneath my horse covered in cum. Why it looks like yawl decided to have all the fun and did not invite me to join in. I figured you would be doing this kinda stuff. That's why i really hired you. A young horny buck like yourself with nowhere to go. Now what am i going to do with you. Ohh i know what I will do with you. He approached me with that same strange smile put his arm over his horse buddy and unzipped his pants.

I was still in shock kneeling under the stallion with bill standing over me with his pants unzipped. His big floppy uncut farmer dick poking out through the slit of his jeans. Well what are you waiting for you must be good at giving head. Why look what you did to ma horse I have never seen him cum so much. This was certainly a day of strange events. At first I thought i was going to be in serious shit but to my surprise bill was happy to see what i had done.

The first words out of my mouth was thanks for not being upset with me. He than softly spoke and said I would never be upset with you you remind me to much of myself when i was younger and experimenting with horses. You know seeing you soaked in cum like that is a fantasy of mine come true. You will be my little stallion and what I want right now is to feal your sexy little mouth around my cock. mmmnph I took his penis in my mouth and could feal him getting hard and pushing toward the back of my throat. Awe that feals good he said bucking back and fourth between my tight lips.

I could still taste the horse cum as it dripped down my face onto his cock being thrust in my mouth. ohh almost their he said ramming deep down my throat. I began to gag he puled out and asked are you alright my little stallion. ohh yes i said with delight. he than took his long 9" dick and began to face fuck me using the horse cum as lube than put it back in my mouth and said you like the taist don't ya. mmmmm I said with his cock in my mouth. As he began to thrust himself back and fourth in my mouth i could feal him tens up much like buddy did i knew he was close. ohh im gona cum he shouted than thrust himself deep in my throat once more. I could feal him pulsating as he shot load after load of hot cum down my throat. He then got limp and puled out of my mouth. and began petting my head with his limp cock in frot of my face. You are very special he said. I want you to take it easy the rest of the day. go on in and take yourself a hot shower and i will have clean clothes and a dry towel waiting for you when you are done.

Sure enough when I came out of the shower he had cloths and a towel ready for me as he stood outside the bathroom door." Here you are ma little stallion, I will have diner ready soon make yourself comfortable". The room you will be staying in is right down the hall to the right. Although I prefer you stay in my room with me if you like. At the diner table he began to speak to me about how he had ben alone to take care of his farm after his parents had died in a car accident. he told me how he had ben living alone all his life and had only his horses as friends. he had wanted someone like me to stay with him so he could have more human interaction. After diner I left to my new room.

And shortly after herd bill knocking at the door. come in I said. He gave me a deep desiring look sat down next to me on the bed and asked if I have ever had sex with anyone before. I replied other than sucking on your cock I was still a virgin. Shockingly enough he told me he had never had sex with another person before. I knew where he was going with this conversation. He asked so would you be willing to try anal with me. Nervous but wanting to try i said yes. He put his hand over my cock and began to gently play with it. He told me how his small pony stallions nimbus and stratus had fucked his ass before and how much he enjoyed it. He said it was painful at first but he did not give up and wanted their cocks inside him. After a while it began to feal sooo good he said but in the beginning it was no fun. at this time we were both hard and horny for eachother. he laid me down spread my legs and began to suck my hard dick.

I never received any attention like that before ohh yes it feels good i cried. he stopped before i could cum and began to kiss my knees working his way down to my ball sack than started to tong my ass hole. Ohh what what are you doing i said it feels so good yet this is so strange. It is ok he replied.

My little stallion has such a tight clean little asshole. He then positioned himself on top of me and began to kiss my neck and nibble my earlobes. than whispered in my ear my sexy little stallion I want to fuck your tight little ass so bad. i could feel him pressing up against me waiting for me to let him in. ohhh yes fuck me i moaned. Caught in the moment. It may hurt a little but i promise i wont injure you. He said. Ok im redy as i looked him in his deep green eyes. He then pushed the head of his penis inside me. ohhh owe it is so big i cried. Please go slow he paused for a moment not wanting to hurt me than pushed his way deeper. ohh my god it hurts so much I yelped. are you ok do you want me to stop he said. I remembered what he had told me earlier and knew that if i did not give up it would eventually feel good. No don't stop i said.

He slowly began to thrust back and fourth in my tight asshole deeper and deeper with each thrust. i could tell he was really enjoying himself at this point and wanted him to cum. the thrusting got faster and i noticed i was sweating profusely. it actually was beginning to feel kinda good but still painful. he started to tense up and thrust all the way deep inside me. I held him tight to my body and felt him pulsing inside me. I could feel his hot cum filling me up ohh yes I can feel it I shouted. he went still for a moment than puled himself away from me. ohh that was good he said. I could feel the cum dripping out of my ass down the small of my back.

His shiny cum covered floppy cock dangling in front of me. he laid down next to me and began to suck my cock once more now I want you to cum in my ass, im not just gonna leave you hangen you know. I was once again rageing hard with a sore ass. He positioned himself on top of me and started to ride my cock. yes it feels sooo good pleas dont stop I cried. I could tell he wanted my cum ohh yes it feels good. I could not hold back any longer and started to cum. he did not stop his pace one bit . I was cumming while he was bouncing up and down my wet shaft. I noticed the cum starting to ooze from his ass as he was riding me. He than got himself off my wet cock and laid their next to me wow that was good he said holding me safe in his arms as i fell blissfully asleep.

~~~~

The next morning as I woke I hugged my pillow knowing this was my new home and I was very comfortable and felt safe and wanted. I got up got dressed and walked into the dining room where bill was making breakfast. Hey sexy did you sleep well he said to me. Yes i sleped very well I told him. He than set a plate of bacon, eggs, and hash browns on the table and said eat up we got a big day ahead of us.

Today I want to try and train lightning he is just now turning the right age to start breeding and with your help I have wanted to see if I can get him to mount me. As we made our way into the stables bill first went over to trixis stall and took her out in front of all the stallions. He than said I want you to fuck her good in front of the males. They will smell her and watch it would be torture for their horny cocks.

Trixi knew what was happening as I could tell she has done this before many times with bill. She began to back into him and swished her tail as her pussy began to wink. She took a stance and began to pee than started to wink more as i could smell her estrus. The stallions one by one also noticed the cent and began to stick their noses up in the air as they took in breaths of the little mares flowing pussy juices. I had ben getting horny just watching her wink in front of me. Bill began getting undressed than came up behind me and puled my shirt off over my head and puled down my pants. He began to wrap his strong muscular arms around me and hug me from behind. I could feel

his big dick getting hard between my ass cheeks he reached around and began to stroke my cock. Trixi looked back at me and then began to back into me. See how she wants you bill whispered in my ear. Its ok she is a good mare as he took my hard throbbing dick and rubbed the head up and down on her clitoris. she then backed up a few more inches to get her pussy around my dick.

As I slid in I moaned, "ohh she is so warm". I began to slowly thrust back and fourth as I could still feel bills hard prick precuming against my tight little ass hole and suddenly he pressed into me. Ahhhh I cried still bucking into the mare. With each thrust bills big cock kept getting deeper and deeper. He whispered in my ear again and said to me "fuck her my little stallion fuck her so good". I was beginning to like the feeling of bills cock in my ass and was thrusting in and out of trixis wet winking pussy.

I could feel her clinching tight around me then suddenly she went loose and began to pulsate around my cock as a flood of hot estrogen began to shoot all around my hard dick flowing out soaking my legs and the ground beneath me. The stable reeked of mare juice and the stallions at this point were making loud noises as they banged against their stalls. I realize bill was right, this was torture for them. I looked around and each one of them was fully erect. At this point bill tensed up held me tight and began to cum. I could feel him once again throbbing cumming in my ass.

He squeezed his hand around the base of my cock as I was still inside trixis sloppy wet pussy. My senses seemed to overload and then I came shooting several squirts into the small little mares vagina. Ohh yes I said loudly ,as I began to get limp. Bill puled his now flaccid penis from my loosened ass as trixi walked off, pussy dripping with cum and estrus juices. Now lets see if I can get my ass lubed by buddy's big dick over their.

We made our way to the enormous clydesdale stallion fully erect cock 3 feet in length and about five inches wide. Bill bent over next to him and said to me I want to use his cum as lube I think you know what to do. I took the big cock in my hands and led the flared head of it between bills ass cheeks and began to stroke him, my hands still wet with mare juice I rubbed back and fourth the full length of his massive veiny cock. Bill was rearing himself to where the stallions urethra was pressing against his asshole.

He was obviously way to big to fit inside. I continued to stroke his long shaft with one hand then reached back with the other hand to fondle his enormous swollen horse balls. As I rubbed and stroked I could feel his balls starting to retract then he tensed up gave out and adorable grunt as his cock swelled. splurt, splat, squish were the sounds made when he shot his messy load all in and around bills ass. I could feel the cum pumping through his enormous shaft with each pulsating throb. It seemed as if he was cumming for a full minuet as a puddle of white seamen pooled on the ground. The smell and sight of so much stallion cum was making me horny again. Buddy's hard dick turned limp and dropped from bills buttcheeks still streaming loads of cum as he grew smaller with each squirt. Bill stood up, stallion cum flowing down his legs and said wow i think im well lubed now I need to loosen up before I get lightning to mount me. I gave buddy a kiss on the nose told him he was a good boy and then we made our way to the next stall where nimbus and stratus were.

~~~~~

Bill opened the gate to nibus's stall and then told me to put trixy back in her stall and to let buddy out of the barn to graze. After I did just that I walked back over to bill. He was holding nimbus and passionately petting him whispering sexual loving things in his cute little pony ears. I could tell this was his favorite out of all of them. "Good boy" he said as he began to erotically pet his hind quarters and underbelly. "good horny pony. you know I love you don't you nimbus" he said as he gassed at nibus's throbbing little horse cock.

He looked at me and said "you know this little pony was the first I ever had relations with. He is soo smart and gentle. I have had him for about 14 years now and we love each other very much" then he began to stroke his adorable little penis. His cock was much smaller than the other horses. It was black at the base and hot pink half way down his shaft towards the tip, he was only about 13 inches long and about 2 inches wide. Bill looked at me and said you know i think this might be a good time to break you in. I don't know if im ready yet I said.

Bill then genitally smacked nibuses but and said down boy. Sure enough nimbus sat and laid down on his side. I could still see his black and pink little cock limp on the hay as he laid in front of me. "Your such a smart sexy boy" he said to his well trained little pony as he knelt down to hold his head in his arms. "Would you like to lay with him" he told me in a soft voice. I laid down next to him and began to play with his cock, he then got hard and started to drip precum from his urethra. My mouth began to water and i put my lips around his pink tip. It fit in my mouth perfectly and was so fun to suck on. He thrust and his head swelled in my mouth "mmmnnphf" I could taiste his hot precum running down my throat.

Bill stuck his finger in my ass and said "I want to see him cum in you". I took my mouth off the adorable pink knob and then turned my body so I had my back to his chest in the fetal position. I could feel his hot wet cock touching me. I moved my head up in between his front legs and held on to his cute little hooves. Bill was guiding him to me, and with a few short thrust he found his way into me. "auaaaah" I screamed as he began push deeper and deeper into my ass. Bill positioned himself kneeling in front of me, his dick brushing against my face. "That's it just let him in" he said. It felt like he was pushing his way through my intestines. "ohhh" it hurts i yelped. Bill worrying about me asked if I was ok. "Yea im alright it is just soo big" I replied. Don't worry he is all the way in you are taking all of his cock now. I looked down at my abdomen to see a slight bulge in my tummy.

I took my hand and pressed on it and began to feel it move back and fourth a few inches with every thrust. I looked at bills hard dick and began to suck on it while his little pony was fucking the shit out of me. Then I felt his front legs pushing me down on his shaft as deep as he could get it in. The end of his penis swelled and flared deep inside me as the bulge on my tummy got even bigger. "mmmmphf" I moaned with bills cock in my mouth. then nimbus started to cum. I could feel him pulsing shooting me full of his hot horse semen he pumped load after load deep in my ass, then went loose. His body limp laying next to mine. His once hard dick now turned soft and began to feel sooo good inside me. Bill took his dick out of my mouth and began to softly rub my belly noticing I was loving his pony's soft dick in my ass. "It feels good doesn't it" he said. As I lay in a blissful state holding nimbuses hoof in one hand and bills cock in the other I told bill "yes it feels so good I want to hold onto his cock as long as I can. Bill began to pet his well trained pony saying your such a good boy I love you soo much. his limp little cock puled from my ass as I herd a slight pop noise and then I felt his hot cum running out of me over my asscheek. I had been fully pony fucked and loved it. Bill let me lay their for a few more moments holding and petting his prized pony, then he began to help me up. nimbus stood up shook himself off and walked satisfied back to his stall.

"Now I know why you love them so much" I told bill as I stared in his ever so happy eyes. "Yea its not something most people know about or are willing to accept but at least now you see and understand". "Im so proud of you, you took his cock like a champ, and now it is my turn". He went over to the stall stratos was in and told me that nimbus and stratos were half brothers and how he bought them from the same owner who owned a pony farm not to far away. stratos I could tell was younger than nimbus and had a bit of a wild side to him, his erect dick was bigger than nimbuse's and hung down about 18 inches or so. He was a pretty little paint horse and his cock was painted with black, pink, and brown splotches.

Bill opened the stall door letting him out and bent over clutching the side of the stall. stratos quickly noticed bills desire for him and mounted him. He thrust once sliding his dick on bills back shooting precum on his ass than reared back and thrust again nailing his target. "uhhhh" bill shouted as stratos shoved half the length of his cock into him. Than he began to buck back and fourth deeper and deeper with each thrust. Bill was still well lubed from buddy's huge cushot so it was easy for stratos to slide in and out. He thrust about five times and came quickly. His tail twitching with each spurt. I could see the base of his cock throbbing delivering load after load of hot cum into bill. "That's a good boy" he said to stratos with a satisfied voice. Stratos then hopped off of him to the side and his still squirting cock fell from in between bills legs. Cum oozed from the now used hole making a puddle on the ground. "ohh yea he sure knows how to fuck good" bill said. as he put him back in his stall. "ok one more task left he said"
