BEASTIALITY STORIES

So I am just going to dive right into this!

My second summer college; I got a job as a farm hand on a farm in rural Iowa. The farm is primarily a Dairy Farm with two barns. One for the Milk cows the other for various farm animals. The Owner's home is down by a local road that leads to a town about 30 miles away. There is a small drive that leads to the owners home and then snakes its way up a small hill to a much smaller employee dorm house. The road then turns and goes down into a small valley where the barns are located. between the barns is a enclosure where the dogs reside at night.

I arrived there in the early afternoon and parked my car in front of the large house. As I walked up I was greeted by Mrs Hoeller.

"good evening my deer!" she said

"why hello there, good afternoon." I replied.

" I hope the drive wasn't too bad. Todd one of the three of you who we hired is already up there." she pointed to the Dorm house. "I am sure you will find it comfy. As I am sure your wondering why your here. Well my husband has recently fallen ill, and is having some back surgery so he is in Florida for the Summer. So I will be leaving for there and Trusting in you three to run the farm. Now A good friend will be stopping by to ensure everything is in tip top shape and he will give you the run down starting tomorrow morning. As long as the cows get milked and the other Animals are fed you all have free rein with your down time."

" So what exactly will I be doing?" I asked.

" Well you will be in charge of feeding the dogs, horses, chickens, goats, and tending to the fences." she replied. " your two co workers will be in charge of the cows."

"So should I expect my duties to be explained to me by your friend?" I asked.

"No, your duties I wrote out and put in an envelope. Its on the kitchen counter with your name." she answered. " It shouldn't be too difficult ounce you get the hang of everything. My sister Edith will stop by on Fridays and will give you your pay in cash. My number is on the fridge in the dorm house and give me or Nathan a ring if you have any Questions."

"thanks ma'am." I said.

"well I hope you enjoy your time here." she answered.

I walked back to my car and drove up to the dorm house. I walked in and found an empty bed room and loaded my stuff in. I found the envelope and scanned over what I was to do this summer.

I heard the door open and close and met Todd. He was an average looking guy a little shorter than I am but he seemed an agreeable guy. We talked for a while and walked around the farm. Mrs Hoeller came down and introduced us to Ryan our other farm hand. She then left for the town and presumably would be leave for the airport tomorrow morning. We spent the night playing cards and talking about just about everything.

I went to bed fairly late that night. On my way here I stopped at a sex toy store and bought a whole bunch of stuff. Several large bottles of lube, a few pairs of hand cuffs, a big dildo, a large sized butt

plug, a vibrator, a pussy sleeve, a bunch of condoms, a cock cage, a inflatable dildo, and a inflatable mouth gag. I spent most of my money but I figured i might get tired of my hand.

I put my stuff in the closet and even though I was turned on I was tired and needed some rest. In the morning I woke up early and made myself a bowl of cereal. Todd and Ryan came down as I was reading over my instructions. A man walked in just as they were about to fix themselves a bowl of cereal.

"good morning good morning to you alls.!" He bellowed, "SO, my name is Nathan and I am supposed to show Todd and Ryan how to mild the cows and give em the run down on everything else they need to do."

"Mornin" Todd said"

"SO I assume you two slept in a bit?" Nathan asked. Well No time for food now, I have my own farm to run, I'm just doing this as a favor to mah neighbor. So lets head out, the faster you learn this the faster you can slack and take a lunch break!"

They trudged out and headed off to the Dairy Barn. I walked over the hill to the other barn. The barns are on opposite sides of the dorm house about half way down a hill. I got into the barn and grabbed the fence repair kit and hopped in the Gator and headed out to the fence path to inspect the fences. After mending most of the fences, which was no easy task considering nobody had done it for a few months I drove back to the barn. After putting my tools away, I walked back up to the house and noticed nobody was back yet.

"hahaha, they must be having a long day." I mumbled.

I grabbed some lube and a fake pussy and went back down to the barn to feed the animals. After all the animals we munching, I unzipped my jeans and threw off my shirt. I took out my good size six inch boner and lubed up the fake pussy. I started to fuck it hard and cummed after a few minutes.

"fuck" I shouted, "that was fucking nice."

I took a look at the sheep pen and noticed there was one still inside. I walked over, and hoped into the pen. My mind started to swim with naughty ideas. My cock instantly got hard again and I walk behind the sheep, found its pussy and slowly inserted my dick. I went balls deep and just held it there for a moment taking in the sensations. I began to slowly fuck her little sheep pussy and soon she began to try and wiggle away so I slowed down a bit and petted her. Just slightly gyrating my hips I exploded into her cunt.

After my sinfully delightful encounter I felt ashamed slightly but that evening while eating dinner I thought of a way to rectify my guilt. For every animal that I received pleasure from i must pleasure two. after making some small talk with the guys we all went to bed, or at least they did. I loosened up my anus with the dildo and then forced my hard cock into the cock cage. I locked the padlock on it and winced from the pain that result in forcing the cage closed that extra mm. I forced the but plug in grabbed some lube and went back down to the barn. There were 3 stallions, 2 mares, 7 boars and 9 sows, 1 donkey, a pony, 7 sheep, and out by the equipment shed is the kennel with 2 male German Shepherds, a Black Lab, a Great Dane and a Dalmatian. In a separate enclosure is the female pen with 3 female German Shepherds, and a female yellow lab.

I walked over to the first stallion's stall, stroked him calmed him down. I turned on the hose and walked back to him gently washing his balls, and sheath. I turned the hose off, stripped down to nothing and reluctantly started to message his sheath. He seemed a little nervous at first but sure

enough his massive horse cock began to grow.

“time to nut up or spend my time in a cock cage” I said.

I began to suck on the cock taking the entire head into my mouth. It wasn't as large as I had thought it was going to be. I swirled my tongue around its head, and began to try and take more of its cock into my mouth. I choked a little bit and began to bob my head on it's penis. My dick was rock hard, oozing precum, and straining at its metal cage. As I bobbed on his amazingly long cock, I gently messaged his balls. My hand could barely cup one. After only a few minutes the horse shot a stream of cum down my throat, I gagged and threw up. It kept squirting all over my head as I retched. Finally I calmed down, the horse was fighting and so I scrambled. I was wiping cum off my face, and head when I heard the pigs stirring.

Now in order to get to their area I climbed down into a small pit in the corner of the barn. In one side is a door, I opened it and crawled a through a short passage at the end was a mud filled room with a ramp to the outside. What I saw before me was a bit of an orgy the male pigs were each in a sow. I saw a sow near by who had just had a boar climb off her. I was so horny and my cock was so hard; I quickly unlocked my cage and began to wildly hump that sow. After cumming into her I pulled out and fell to my hands and knees as she strolled away. I shoved my cock back into its cage felling a little over whelmed that I now had to please 3 animals now. So I pulled the but plug out of my ass, BIG MISTAKE. As I was turning for the passageway out a pig mounted me and I felt him force his cock into me.

“Ohhhh Fuck my life, shit, this hurts.” I yelled.

He just began to thrust harder. His prick began to enter the depths of my bowel suddenly my cock was throbbing to be released. The boar kept thrusting fairly fast, and he started to bit my neck and shoulders. With one hard thrust his entire cock was in me, he began to cum. his thrusts slowed and then I started cumming without ever touching my dick think I squirted 7 or 8 times. After kneeling there for 20 minutes the boar slowly slide off me as he pulled his cock out. As he did I became hard again and just exploded with another enormous load of 5 squirts. I just collapsed into the mudd, shit, piss, and cum. I felt my ass and didn't feel any cum nor did I see any on my legs.

“hmmm must has been tapped out.” I murmured to myself.

After just laying there for a minute I realized I only had to please two more animals. After a few minutes I went back up to the barn and walked past the horses over to the donkey. I picked up the hose and washed the filth off of me and the Donkey's sheath. After calming him down by rubbing his shoulders, Inside of back legs and mane, I started messaging his balls and sheath. His cock began to grow. I soon had a 14 inch monster cock in my hands. It wasn't too thick, a little bigger than dildos I have fucked but still manageable. I began to suck his cock head, as I squirted bunch of lube up my ass. I took a brief break to get a hay bail, and covered it with a blanket.

The Donkey's cock was still hard when I positioned the bale underneath him. I maneuvered myself into position and slowly guided his cock into me. As soon as the head popped in he began to thrust. I was able to only allow 7 or 8 inches of him in me at first. With his slow thrusting, and a few more squirts of lube soon his entire cock was moving in and out of me. Suddenly I began to cum, again and again. With one last fast thrust of his entire cock into me he exploded his cum into me. With a slight pop his cock flopped out of me, I just collapsed onto the hay bail. With cum drizzling out of me I got up and stumbled over to a milking stool. I sat down and just took a breather for a moment.

“hmmm, just one more to go” I said.

I could not decide who to please next. I could feel the donkey's cum dripping out of me. I let out a short moan, and just fingered my tender, destroyed asshole. I went out of the barn, in the nude for a quick smoke. I took the cock cage off and to my surprise I was instantly hard again. This night had been so new for me, and yet as I took a drag. I could not help but feel ashamed. I just decided to put those thoughts on hold for the time being on focused on pleasuring another animal. I walked over to the Kennel where the dog pens are. There was only one dog awake, A male German Shepard. He was sitting licking himself. I could see his cock was fully out. Must had been at least 5 inches. I forced my cock back into the cock cage, man I was so sore. Always buy something a little bigger than youd think you need. I walked into the pen and just played with him a little bit. We nipped each other a a few times and wrestled.

"ohh your so frisky boy!" I told him as we rough housed.

He turned his attention to my imprisoned, precum oozing penis. He was lick it and then my face and chest, then back to my cock. So I began to rub his sheath and balls. He instantly slide out and humped the air a little bit. So I got on my hand and knees and pointed my ass toward him. He jumped on me and wham! He began to fuck me hard. His paw scratching my thighs and cock punishing my asshole, I wish I could be jerking myself. After just about a minute, I felt something new, it was a little bigger than his cock, but it was growing.

"Shit, thats right dogs have knots on their cocks." I said "I wish I had paid attention to some of the things my freind would say when we would jerk off to porn after school.

His knot be gand to grow and then I clenched down when it went back into my ass. It flared up to the size of an Orange. I saw stars from the pain, and didn't even notice him cuming or the spunk running down my leg. Nor did I care the knot had shocked my prostate and was causing me to orgasm. My cock throbbing without cum. My balls were drained. I was on another world when suddenly I felt him get off my back, and then he was ass to ass with me. He was trying to walk away but the knot was not shrinking. After 20 minutes it pooped out of me and a river of spunk went with it. He went over to a corner and continued licking himself.

I just crawled back to the barn and I hosed myself down again. I walked back to my room. "shit I am already walking funny" I said as I walked.

I just collapsed into my bed and fell asleep incredibly pleased with myself.

"I am going to fully enslave myself to those animals for a month" I murmured as I drifted off.

~~~~~

I would Like to apologize for taking so long to continue my story. I have just been so horny lately that when I would sit down to write something I would just start watching porn. But here it is!!!

The next morning I woke up due to a great pain from my cock. My morning wood was in full swing. I got up and began to frantically search for the key. After a good few minutes I found the spare key to the pad lock that lock the tube containing my cock to the ring around my cock and balls. Even though I didnt have an enormous cock A 3inch tube does not make for a comfortable 6 inch boner. I whipped out the lube and my fake pussy and went to town on it.

As my cock slide in and out of the soft fake pussy the little squishy sound it made was actually quite distracting. But soon enough I began to feel that overwhelming sense of pleasure about to erupt. I love that feeling, just before I pop every part of me is on edge then after I cant stand it.

"Ahhhhhhh, shit thats good" I said as cum dribbled out of my cock. "Man I cant get that animal cock out of my head."

I had been envisioning a girl I knew from a past job I had, until I was about to when the horse cock that I had blown the night before came into my brain. I cleaned up and went to the washroom. After a nice long shower I threw on a pair of jeans and a t-shirt, and went down for break fast.

Ryan was already up making breakfast for himself, we chatted for a little bit before heading out to work. Todd and him walked off to the dairy barn and I loaded up the gator with the dog food and drove off to the dog kennel. Now I had been fine till I fed the dogs. My ass was really sore and causing my to walk slower. As the dogs ate I grabbed the tools from the equipment shed and put them in the gator. That day just dragged on and on. All I could think of was sucking a horse cock or fucking a sheep. I craved being naked in mud and shit with the pigs. After a full day of work I drove back to the dorm house.

"Man I smell like shit" Ryan mumbled as we sat in front of the house talking.

"Well my back is killing me, I lifted a fallen branch off the fence and I think I fucked my back." I told a half truth.

" Well dude at least you dont have to deal with those fussy cows" Ryan laughed.

"Seriously some of them are mean, one stepped on my 4 times while I was milking her, and I think the same cow tried to run me down while I was letting them out to graze." Todd added.

"Hey do you want to join our little road trip this Saturday?" He asked me.

"where are you too going?" I replied.

"well I'm from a town just outside of Cedar rapids, and todd is over by Iowa city. we both forgot stuff, and we are gonna go back and get it and come back Sunday." Ryan said.

"Nah I got everything I need." I answered. My head began to swim with ideas and my balls ached at the thought of an entire day with all the animals.

The rest of the week dragged by, my ass went back to normal and the weekend arrived. They left early in the morning after letting the cows out, and of course promising me a case of beer for making sure they were all in that night. I instantly went out to the barn with a butt plug in my ass, my cock in its cage, and a tube of lube in my hand. I was completely naked, seeing as how there were no neighbors in viewing range. I took a few minutes to feed all the animal and wash them off. I let the pigs outside and cleaned them too. I ultimately decided that the pigs would be my reward for a day of service. I took the butt plug out and rubbed down the donkey.

I went underneath him and began to cup his balls and message his sheath. As he slowly began to get hard I squirt more lube up my ass and laid stomach down on a hay bail underneath him. I guided his now hard member into my waiting anus. With a whine and a stomp he began several hard and deep thrusts. I must have made an impression last time. He kept thrusting and thrusting hard and deeper I think nearly his entire cock was forcing its way in and out. I was hold on for dear life to the hay bail while my cock strained against its metal prison for relief. But within a few minutes he slowed to a stop as his cum pumped into my ass. I couldn't stop panting, I was hoping for a nices sensual fuck, what i got was the ride of the century. His cock popped out and he went back to his food, I just laid there for a moment messaging my broken anus. His cum dribble out of me, and onto my waiting hand. I licked it up as I sat up and up and just moaned. I almost wish he had fucked me long.

After relaxing for a minute the noise of the horses got me to continue on with my morning. I walked over to them, only two of the stallions were inside I went over to the one I had previously give a blowjob. I walked around him and petted him I calmed him down. Eventually I got under him and rubbed his sheath but just as he started to get horny he started to pis. It got all over my face, hair and body. I just shrugged it off and began to suck on his Kingly member. I was bobbing back and forth first taking and inch in then two, then three, then four, and at five was hitting the back of my throat. I was gagging and tearing up. But just like a good whore I kept sucking. In no time His cock head flared up and He squirted away. I was choking, and luckily he shrank before I passed out. All that semen went straight into my belly I just hugged him, and let him relax.

"thank you for my breakfast, noble sir" I joked.

After him I went to the stall with the other stallion that had remained inside. I went through the whole ritual before getting under him and servicing him. He was calm and I held his balls as his manliness began to grow in my other hand. When his cock was fully hard, he was definitely longer than the other but he was also not as big around. took him into my mouth and began to suck him dry. I was able to fit 6 inches in of him but alas he came just as fast as the other horse. I swallowed every drop of his load and didnt stop until he had lost his wood.

By that time it was noon, and my cock was so sore, but I refused to release it. I knew that I would run for the nearest animal pussy I could find and so I took the key and put it in a glass of water, and stuck it in the freezer. Luckily they had a old fridge in the barn. I went out and check on the cows and took a nap in the warm sun.

When I awoke I went to the dog kennel. Only the great dane was in his dog house the others were out in the enclosure. I walk up to him he got up licked me all over from my cock cage to my face. I noticed his member slowly sliding out and as he licked me I began to suck him. He humped my face a bit and then got playful he must be at least 10 inches from tip to knot, and his knot was about the size of an apple. No matter I had to have him inside me. I got on all fours and he sniffed me. After some kind licking he mounted me, at first he stabbed my but cheeks but then hit his mark, and I screamed, no howled at the top of my lungs. That long member slid right up me in one thrust. For 30 seconds the world wasn't there, we were one and in nirvana. As he pumped faster and faster. I was cumming and praying for it all to last forever. After a minute his knot popped in and exploded, I came again and nearly fainted as his hot load filled me up. I held him there as we panted in the hot sun.

Eventually he was able to pop out of me and I just collapse as he licked my hole. After an hour of just laying there I got up and rinsed off the filth and grime. I herded the cows in, and made myself some dinner. It was going to be a long night but I knew my servitude to the animals had only begun. I rested and watched the sunset as I readied myself for the night.

~~~~~

The Sun was just starting to set as I began to plan my next move. I had pleased the donkey, two of the stallions, and the great dane. I walked out to the field where the other stallion and the mares were and rounded them up. Ounce they were comfortable back in their stables I took my now frozen key out of the freezer. I could not decide what to do next, I had gotten ready for anything though. I wanted some more cock in my mouth but I picked up the glass containing my frozen key and went outside to the pig enclosure. There were a few female pigs outside, and I could hear the orgie starting down below. I walked down the ramp and into their muck pit. I saw one sow getting mount by a boar and the others were just anxiously pacing. Behind me another sow came down and as she passed I rubbed her pussy and goes juices all over my hand.

I rubbed it on my ass and butt. I got down on all fours and waited. It didnt take long for one of the boars to come up and mount me. His cock poked me everywhere then wham he was in and thrusting. His cock was long and searching for a cervix I didn't have and as he fucked me he bit my neck a little. He just kept going finally after 20 minutes he let up and came in me. I didn't even have time to move as he jumped off me and another one jumped on. His cock went straight in and he was a little thicker than the other one. And he thrusted much harder and came quicker. And so my night continued this way.

I fucked all of them once and then 3 of them again. I stood up as none of the boars were interested in me anymore, the females had all come in. I went back up the ramp and washed the pig shit and mud off my body. My ass was full of pig sperm and it was running out like a river. The ice had melted releasing the key. I quickly unlocked my chastity device and freed my cock. As I took the tube off I was instantly hard. I walked right back into the barn.

I walked over to one of the mares and calmed her down. She was a little frigidity at first but she was soon still. I stood on a stool behind her and went for it. I still get hard thinking about that exact moment I slide into her. Each thrust made my balls ache, and it took everything I had to not cum right then. I wanted this feeling to last. Then on my fifth slow thrust I had a mind blowing orgasm right into that horse pussy. I must have squirted 12 times into her. with each squirt my entire body convulsed in ecstasy.

I just stood there for a minute with my not softening cock still in her pussy. Finally I stepped down that is when it happened, I kicked the stool off toward a corner, and the noise spooked her. Well She kicked and it hit the side of my thigh. Luckily nothing was broken but I fell and laid there in considerable pain.

I stood up and quietly walked back to the house. I took a long shower and let some of that cum run out of me. I had a huge bruise on my leg, and was not too happy. Still horny I got out of the shower completely hard, I stroked my cock and even though my leg was hurting I was just so horny. Exhausted from a bizarre and mind blowing day I went to bed.

~~~~~

The next 2 weeks flew by I had sex with a few mares and sows. Racking up some cocks that I owed access to my hole. I couldn't find enough time to get fucked though, a series of bad storms had rolled through and everyday was a twelve hour day. Leaving very little time for me to get fucked. I figured if Ryan or Todd walked in on me screwing a mare that would be easier to explain than a donkey cock up my ass.

The Three of us went into town one Friday night to hang out and chill. I had almost no desire to have sex with either of them or any human man. I did have a desire for some good ole pussy though. We found a few college kids partying at a house on the edge of town, and stopped in. The place was packed and nobody even cared who we were. There must have been at least 100 people in this relatively small house. We stayed there for most of the night and around 2am we walked back to Todd's car.

"so, did anybody score?" Ryan asked.

"Huh, I wish! I struck out." Todd responded

"Yeah, well not to gloat I did get a number. I think shes a local." I said.

"How did you do Ryan?" Todd asked.

Ryan searched through his pockets and pulled out a clump of paper, "ha, I got two numbers and part of a third but she passed out before she finished writing it."

"And so were the other two barely conscious or were they actually somewhat sober?" I joked, "I noticed you were hitting up the ones who were circling the drain."

"Alright laugh it up you two, and to prove that," Ryan fell over and passed out.

"What a light weight, I mean seriously he did like five shots." I said as me and Todd picked him up and carried back to the car by his arms.

"Well I am not surprised." Todd said.

We drove back and only had to stop once so Ryan could puke. I was horny as fuck, so when we got back to the house, I got Ryan into his room and then quietly went out to the kennel. I woke up one of the German Shepards and walked her around. After playing I took off my pants and underwear. She sniffed and lick my cock, I just moaned, her big tongue running up and down my member. After a few minutes I got behind her and inserted myself into her pussy. I slowly thrust my cock in and then out. Making every sensation count.

"Oh man" I said as I started to cum. When I finished I held my cock in for a minute. Normally I can last for hours when I jack off, and 15 minutes with a girl, but this whole animal taboo thing I can't go for long. It just makes me so horny I want to cum the second I enter an animal, or when one enters me. □

I pulled out and walked over to the Great Dane. I woke him up and he became very playful. I think he knew that he was gonna get his rocks off. After just a few minutes, his cock was out of his sheath. I wrapped my lips around it as he began to fuck my mouth. I love the taste of his doggie cum. I was so turned on I put my ass in the air, he turned around and sniffed me. Then he mounted and hit his mark the first time.

"Oh crap" I said perhaps a little too loudly, but I just didn't give a fuck.

He thrust harder and harder, then I could feel his knot growing as it slid in and out of my ass. I tensed up as it slid in and wham it exploded in me. The mix of pain and pleasure almost made me faint. I was cumming and my ass felt as if it were being ripped apart. I layed there on the ground forever, at least that's what it felt like. I could have sworn I heard some rustling nearby, but I figured it's the country, and it's probably an animal disturbed by our sex noises. Eventually his knot popped out and I felt incredibly empty.

~~~~~

That night was just the tops, and it turned into a nightly thing. I could not help myself, I craved dog cock as much as I did pussy. Then after a glorious week of amazing night time sex, work got much harder. A severe storm rolled through and wrecked large parts of the fences. All three of us worked through the weekend and much of the next week. We had to rebuild several hundred feet of fences, so the cows could graze. Then after the fences we had 8 downed trees that needed to be turned into firewood, and then on top of all that we had to repair part of the dairy barn roof.

Needless to say I didn't have much time to continue my sexual activities. I didn't even have enough energy to jerk off. That Thursday we had finished almost everything that needed fixing in addition to our daily duties. We sat around a bonfire of some of the firewood that the storm gave us.

"Hey so I know its on all of our minds, but I'm planing on going home tomorrow." Todd said as we starred at the dancing flames.

"Yeah Me too" I said, I did really want to go home. It had been a long week and I needed some rest from the farm life.

"Well this is awkward, I was hoping to go home too." Ryan continued " see this girl wants to jump me, at least that's what I get from her texts."

We sat silent for a moment until I said " alright I'll stay here and look after the joint but you both better bring me back some beer."

Ryan literally jumped up and down with excitement and then they both thanked me several times over and over again. We continued talking and then went to bed. I was disappointed I wouldn't be going home but on the other hand my head began to fill with all sorts of nasty thoughts.

In the Morning Todd and Ryan left, I did their chores, luckily I only had to milk 9 cows today. Then in the afternoon I went out and inspected the fences. I returned to the barn after finishing my work for the day, and put away my tools. I walked back to the house to shower and eat before my night began. The sun was still in the sky as I hauled all my sex toys to the barn. I was already hard when I positioned some hay bales in the Donkeys pen and in the stallions stall. I made sure the pigs were inside and I rounded up the sheep. It took everything I had to not fuck one right there.

I had given myself a couple enemas and then prepared my ass for some extreme fun. I lubed up and work the but plug in and out of my anus. It was pleasurable but still not without pain. Then I set the plug down put some more up my hole and jerked my cock a bit. I decided to serve the male animals tonight and then reward myself tomorrow. I picked up my cock cage and began to force my member into it. To temper the pleasure of getting fucked with some additional pain I rubbed some ben gay on my dick. Then with a click I was locked in, and as usual I tossed the key in a glass of water and put it in the fridge. The Ben Gay really started to work on my cock in no time at all. The I started think that was a mistake, my cock felt like it was on fire. So I immediately handcuffed my hands together.

I practically ran over to the donkey and began rubbing his sheath. His cock lazily slid out and I began to lick it up and down the length. Swirling my tongue around the cock head, I lapped up every drop of pre-cum that dribbled out. In no time he was completely hard. I took his cock head into my mouth and stated bobbing my head on his tool. Slowly taking an inch then two, and then three. Soon I was taking 9 inches and deep throating him.

I Couldn't take it anymore I laid down on the hay bail with my ass in the air. he came and stood over me with his cock pushing on my anus. Suddenly he started wildly thrusting and hit his mark with the first thrust.

"Oh, shit, Fuuuck" I screamed, not yelled or moaned but screamed as the donkey fucked me hard.

"Oh I agree" said a voice.

The Hair stood up on the back of my neck, I couldn't look up as the donkey was still on top of me.

"Oh shit" I said, the fear and the ass ramming caused me to cum.

"Well, I must say I was wondering if you were going to put on a show this weekend. I have been watching you those nights the other week, must say you sure like it kinky" I could tell by the voice now that it was Todd.

Suddenly The Donkey made some noises and his thrusting slowed. I could feel his warm cum being pumped inside me. All of a sudden he took a half step forward.

"OH shit, what the hell!" I could feel his balls bounce against my ass. The pain was tremendous, I started seeing stars.

Then Todd spoke again "As I see it you have a choice, you and I could help each other out, or I can call the owner of these animals who you've been mating with."

"What do you mean, help each other out?" I replied.

"Well it would mean you and I would be Fuck Buddies. Well not exactly, you would be my slave, we could have a contract of sort" he replied.

The Donkey's Cock was completely in my ass and was starting to soften but it would twitch every few seconds and another squirt of cum would enter my ass. It seemed like an eternity passed before I said "Ok I'll be your slave as long as this stay between us."

"Good, I'm glad you made the right choice." Todd responded as he entered the Donkey's stall and shooed him off me.

~~~~~

The donkey's cock slid out of me with a pop. As I was standing up Todd said "Nice Chest, but your abs could use some work. As always I'm very jealous of your Biceps. You don't even need to ask, I'm BI, and I am proud of it. Now normally I do prefer pussy but I just need a easy way to get my rocks off care free out here."

He held the key to my metal cock cage in his hand. The water didn't even have time to freeze. He unlocked my cock cage and pulled the tube off my member. Unfortunately my dick betrayed me, it became instantly hard.

"I may like animal cock in my ass but I really am not attracted to dudes. I got interested in anal stuff because of my last girlfriend. She would play with my ass during sex." I said.

Todd replied "well your dick ain't bad, nice six inches and thick end of average. I could care less if you are into dudes or not." As he slapped my balls and jerked my cock he continued "So the deal is you are going to do what I want sexually when I want it sexually. I am sure you know about bondage and all that kink stuff so pretty much I will be your master and you my slave. Pretty straight forward, ok?"

"yes" I replied, although it came out as more of a moan.

He kept jerking my cock and slapping my balls. Then he attached my handcuffs to a chain that was hanging down from an over head rafter. He turned around and unbuckled his belt and dropped his pants. When he turned around I was stunned, his cock was huge.

"How, um." I mumbled as I starred at it.

"oh about 10 inches long and almost as thick as that donkey cock you've been fucking and sucking." He smiled as he talked "So what have you been screwing around here other than the dogs?"

His chest and abs were completely cut, and he was just amazing to look at, I replied " well I've

blown the horses, the dogs and the donkey. I've been fucked by the Donkey, the dogs, and the boars. I have Fucked a mare, the sows, and a bitch or two."

"Ok" he said as he got behind me and inserted his hard cock into my ass. He went balls deep into me and then thrust, hard several times. Only after a minute or two he pulled out. "Well your still tight enough for me."

I felt empty and even though it made my skin crawl a bit I wish he had cum in me. Without saying another word he left the barn. came back with a male German Shepard and a jar of something. the dog walked over to me and began sniffing and lick my cock with his or her tongue. I couldn't see the G. shep's underside. Tod came over to me and unhooked my cuff from the over head chain.

"Doggie position" He said.

I got down on all fours, he knelt in front of me and shoved his cock in my mouth and nearly down my throat. The Dog walked around behind me, but I wasn't aware he was even in the room as I sucked the giant cock that was forced down my throat. Suddenly the German Shepard mounted me, It was one of the Dogs I had not yet fucked. This one seemed to have an average dog sized Cock but it was hard to tell, my ass was a little stretched and pretty sore. Then I felt the Knot starting to grow as it slid in and out of me.

"oh my god" I moaned, well perhaps it was more of a noise through some choking as ten inches of dick went back into my throat. After another minute the dog's knot popped in with one big thrust. Tod pulled his cock out of my mouth as I screamed in pain. This dog's knot was enormous, like the size of a softball or grapefruit. I may be exaggerating a bit, but you get the idea, it was BIG.

"What the, shit, I'm being torn apart" I yelled.

"I saw you a couple of nights so one night after you finished up, I jacked off some of the male dogs looking for the one with the biggest knot." He had a huge smirk on his face, but i wasn't even listening.

My heart was pounding and i was starting to faint. Then I felt myself cum, I squirted over and over again. Thick white ropes of cum, I lost count how many times I shot. Then Todd jerked my cock a little using my own cum as lube and I had a mind blowing orgasm. Again i starting shooting stream after stream, except now it was very watery, and then I would feel myself shoot but nothing came out. Finally I fainted. The next thing I knew the knot was no long in me but Todd was now fucking my ass, I had no idea how long I was out but it must have been at least an hour. It must have taken some time for that knot to pop out.

"yes yes yes." Todd mumbled as he came inside me.

We were both spent, me much more than he, but who cares? The night did not progress much beyond that, I could not walk straight so I just found an empty stall filled with hay and laid down for the night. The German Shepard laid down next to me. I messaged my hole as I laid there, feeling all the sperm slowly ooze out of me. In no time at all I was asleep.

~~~~~

In the morning I awoke with a massive erection. To my pleasure the dog who had slept in the stall with me was licking the pre cum that was oozing out.

"Aren't you just wonderful," I groaned.

I wanted to let him keep going but I needed to take a piss. So sad for me when I got back he wasn't interested in licking me off anymore. Just then Todd walked in.

"Hey there, how's your ass feeling?" He said as he walked in eating an apple.

"Well it hurts but I think I will live" I replied.

"Good because we are going to have a whole bunch of fun. Ryan called and left a message; he won't be back till late on Monday." He said as he took off his pants.

"Great, just great," I said as I rubbed my butt hole.

"So today I have so much more fun for you." His voice changed to that of a master, "Come here."

He took me outside and laid me stomach down on a hay bail. He attached leather cuffs to each of my wrists and ankles. He hooked a chain to each cuff and then after pulling each chain taught he attached each one to stakes had driven into the ground.

"Ok, get ready for some real pleasure and pain." He said.

He disappeared and after a few minutes came back with the Great Dane. The dog ran up to me, and began to sniff and lick me all over. Todd walked up with a tube of lube. He squirted some on my hole and worked his fingers in and out. My hole was still very sore but it still felt good.

"So I'm going to let the cows out and get some sweet cow pussy!" his cock started to get hard, "I let the door open to the pig sty and so is the donkey's pen. I will be back in a while so have fun."

"What? are you fucking kidding me?"

He already started walking toward the dairy barn. as he walked away the Great Dane licked and sniffed my ass. He walked around in front of me and laid down. His hot red prick was out and he was licking it. Then I felt something mount me, sure enough it grunted.

"oh great a pig."

It's long cock entered my hole and he bit my neck a few times. The weight of the pig ruined any pleasure I got from it's cock. It forced my hard cock into the prickly hale bale.

This pig was the older one who really liked to thrust and had a mean twang when he fucked me. after he was done another pig mounted me. This went on and on. I would strain at my restraints but to no avail. I could feel multiple pig cum plugs inside my ass.

Soon I got a break and fell asleep in the sun again. This time when I awoke the Great Dane had decided to fuck me. He was really working my hole over. Then His knot began to grow, this time it grew kind of slowly. With each thrust he forced it in and out of me. Until finally it went in and exploded. I pulled at my restraints and screamed in pain and pleasure. We were both breathing heavy, as he pumped his cum inside me. With each of his spurt my cock pulsed. Even though I could feel myself cum I didn't get any pleasure from it My cock ached to be stroke when suddenly I realize something that scared me. I dont know why but it did.

I liked this, I really did. But most frightening was that I wanted cock in my mouth right now; I had to have it. Soon the dog went ass to ass with me and his large member slid out as his knot shrunk. Then Todd came back he walked around me and undid my restraints.

"Have a good time?"

"Well no" I lied.

"Oh bullshit you liked it and you know it."

His cock was still wet from the cow pussy. I so wanted to just suck it but I with held that new desire.

~~~~~

Todd fucked me hard to try and free some of that pig cum. His cock worked me over good. I couldn't help but moan and gasp. It was electric, every fast thrust of his cock, every sound, and every smell only added to the experience. We were lying in the empty stall I slept in the night before. Pre-cum dribbled from my rock hard cock. Todd moaned, soon he shoved his member in me faster and faster.

"ahhhhhhhhhh fuck!" he screamed.

He grabbed onto my shoulders with both of his hands, as he pulled his cock out of my gaping, dripping hole. Then he thrust all 10 inches into me, and pulled me by my shoulders towards him. I cried out in some pain, as he grunted like a pig as he dumped his load into me. We just stayed there for a minute, we were both gasping for breath and sweating like crazy. After a minute he let go of my shoulders and just laid on my back with his cock still twitching inside me.

"whoa," Todd said in between heavy breaths " that was pretty hot"

"Yeah,"

I was exhausted from everything that had been going on the past two days. My ass was gone, it felt as I imagine road kill would feel. We just laid with his cock in my ass. His cock was slowly getting soft, and hearts were still pounding. Pre cum was oozing from my hard cock. As bits of hay, sticking out of the dry hay bail we laid on, poked my dick. With almost every breath, or movement I would wince from the twinge of pain.

"Man I havn't had a fuck like that in a long time."

"Neither have I" I was ready to sleep for days.

We heard a stomping in front of the stall that we laid in. We both looked up to see the donkey was standing in the opening. His cock was somewhat hard and every few seconds it would get fully hard and slap against his stomach.

We both laughed.

"He's masturbating" Todd said in between laughs.

He got up and slid his member out of my hole.

I let out a moan, "Man am I sore."

"Yeah you have taken a pounding, but it seems our freind here would like to join the action."

"What," I said as might heart started pounding again, as my cock became even harder.

"You know, he wants a piece of your sweet ass." Todd let out a small laugh.

He picked up a tube of lube and lubed up my ass, again.

"Todd come on give me a break."

"Sorry man, who am I to cock block a another member of the brotherhood of men," He flipped me over on my back, " Oh come on your harder than a rock, in fact I have seen rocks that are softer than your cock right now."

With that he bent over and put my entire cock into his mouth and down his throat.

"Oh my god," I cried out.

He went to town on me, up and down his head bobbed. Sucking and kissing my cock head. Running his tongue up and my shaft. Then with his lubed hand he started jerking off my cock, his mouth went lower to my balls. He ran his tongue all over my sack.

He spoke softly almost whispering with his deep voice "you know I have a dick many guys wish they had, but your balls make me ridiculously jealous."

Breathless I mumbled out a few words "I love my balls, but why do you?"

"They are perfect not too big, but still big not average." He took them into his mouth and sucked on them.

I writhed in pleasure, "that's nice"

He continued to suck on my balls when I began to feel the mother of all orgasms coming on. Suddenly he stopped jerking me and one nut at a time my sack slide out of his mouth. Without a word his head went lower, he began to lick and poke my asshole with his tongue. My orgasm was ruined and I just starred at the donkey's cock, he was still trying to masturbate, but with all the stimulation I had given him he was a long way off from nutting.

"So if I fuck the donkey, again, I have some new terms. First I want to do anything I want to you for a day."

As if coming up for air he replied "counter offer, an evening."

He put my balls back into his mouth "twelve hours, Half a day."

I let out a shudder as again one nut at a time my sack slide out of his mouth "I'm definitely think with my little head but I agree."

"Good, my second term is that we meaning mainly you, will get us some girls in here after we introduce Ryan to our games."

He smiled "I love how you think, done and done."

With that he flipped me over and put a little more lube up my ass some more. Next thing I knew the donkey was standing over me, its cock was right up against my balls. Todd backed him up and then guided him into me. He was off and fucking me. His large dick worked me over good. I I was hanging onto the hay bale for dear life. With a small step forward his entire cock was in me.

"Fuck," I shouted "Back him off a little"

He only laughed, what an asshole. The donkeys dick was in me good I hoped he would cum soon, it had been nearly two minutes. Then his thrusts began to slow, then i felt it. With a snort he began to gush cum into me. After a minute his cock was shrinking and then it popped out. He just walked off, back into his stall.

"Wow what a show"

I looked up at todd put a video camera down.

"what the hell," I shouted "Please tell me you didn't record this."

"It is just a little insurance, since I will be your slave for a while I thought you might also try to take some video and then turn the tables on me. Besides I am going to work it into our seduction of Ryan."

I was exhausted as I laid there., then Todd came over and handcuffed me. he took out the cock cage he had freed me from, and forced my hard dick back into it.

"I can't have you cumming while I go and make us some dinner." He spanked my ass and walked off.

I quickly realized that I my handcuffs were chained to the hay bale I was laying on. Then as if sensing I couldn't refuse the great dane came sniffing around.

~~~~~

I laid there as as the great dane mounted me. He panted as strings of drool dripped on my back. His cock was fully out of his sheath and being in an over excited state his member poked and prodded my but cheeks and lower back. then he hit his mark and thrusted his entire member inside me.

"Fucking Hell" I screamed.

While my ass was pretty loose it was still very sore. Every thrust seemed like it took forever, though the greatest pain was from my cock. I was as hard as I could be in that chastity cage, ironically in the past few hours I had been more of a whore than in my entire life.

The great dane was really going at me, his large cock moving in and out of my already pummeled ass hole. Then something familiar began to grow. His knot began to pop in and out of me. he let out a few barks as his front paws scratched my back. Finally I clenched by hole around his cock just as his knot slid in. It exploded in my ass, and then a very odd feeling came over me. My cock was under stimulated and yet I began to shoot rope after rope of jizz. After all that anal my prostate had given up and triggered an orgasm.

Even though I was cumming I didn't get too much pleasure out of it. His thrusts slowed down as his hot seed filled me up. Then as usual he hopped off me and went ass to ass with me.

Then he tried to just walk away, "No, no, no," I cried.

Then oddly enough his knot just popped out, and he went to a corner to lick himself. I just laid there until Todd returned. I felt helpless and very exposed. Eventually he did come back and release me from the hand cuffs but not the cock cage.

"So we have one more game to play tonight before bed."

"ok what is it?"

"Well stay with me on this, and trust me you are going to love it." he said as he struck a match and lit a cigarette.

"How do you know what I'm going to love?"

"Well here we go," he said as we left the barn.

We went out to the dog kennels and went into the male pen. Then to my surprise we both got on our hands and knees and got mounted by a dog. Except Todd's long cock was hard and he was jerking it.

"so why can't I be released from my cock cage?"

"well cause your my slave still, remember?"

We kept going until we both got knotted. My dog's knot popped out pretty quick, he was tied for a pretty long time. So I crawled over to him, laid on my back and started sucking his pre-cum oozing cock. The more of his cock I took into my mouth and eventually down my throat the more he moaned. Quickly he had an orgasm but very little cum came out. Soon the dog's knot had shrunk enough to slide out of Todd's ass. We both went back to the staff house to take a shower together. To finish the night off we then went to bed together in my room. It was one strange weekend.

That week was also strange, Ryan returned and Todd was acting weirder than normal. He would walk around the house naked, and as that week slowly went by he began to try and get Ryan's attention. He would come into my room and we would fuck, loud, really loud, top of our voices loud. Then the next night he would yell things out while he mercilessly screwed me.

"OH yeah take my cock like you take that donkey dick."

or

"Im gonna fuck you like you let those dogs fuck you."

There was no possible way that Ryan couldn't have known what we were doing or what Todd was talking about. Then toward the end of the week we would just fuck for hours before going to bed. The house didn't have air conditioning so we sweated a lot. One night Todd and I were fucking on my bed as usual, this was round two or three. I noticed my door was open very slightly when we started but then as we fucked the night away I saw it swing open a bit, and I could barely make out Ryan in the hall.

We had gotten more than his attention this time we had the attention of his prick. The corruption of Ryan had begun.

~~~~~

Another week flew by, without much change. Me and Todd would fuck for hours before bed, going for three, four or even five rounds until we would collapse into my bed. Almost every night Ryan would be watching us. Then Friday had rolled around, it had been two weeks since Todd had caught me, how time flies. Ryan would be back Saturday evening, he had to attend an uncle's funeral. So this was the night that Todd would be all mine. Which was good because my ass was not broken but it had been stretched out. Ryan was pulling out the driveway as we watched from the kitchen.

"Ok, so in one hour I will be all yours, until 6am. Well, let's just call it noon tomorrow, I'm all horned up and I want to see what you can throw at me."

"It's a deal, Be in the barn in an hour, find yourself an empty stall. Also I would warm yourself up with a dildo or a butt plug, I won't take time to break you in." I said as we shook hands.

"Ha, Ive been working my ass since Wednesday, when Ryan told us one of his Uncle's had died."

Todd went off to take a shower, I went to my room. I surfed the internet but after a few minutes I was just so tied up and excited I needed a release to calm myself. I had already set up the barn for tonight so I clicked on a porn site in my bookmarks and started jerking off. It only took a few minutes till I was about to spew everywhere but I stopped short. I decided to wait and use this energy for tonight. I went outside and had a drink and a couple cigarettes. The summer heat was not letting up but the breeze today made it tolerable.

After a few cogs, and a couple beers, I saw Todd making his way down to the barn. His massive cock swinging in the wind. I waited a minute, until he disappeared into the barn, then I got up and went down to start the fun.

When I got there I found Todd in a stall just as I had asked.

"Hey Todd, you ready for this?"

"Well not really, but fair is fair."

I got started, first I hand cuffed him, and then I leaned him face on a hay bail. He grunted as I gave his balls a few good slaps. I spanked him hard several times until his ass was good and red. I then took the butt plug out of his ass, and worked some more lube into him.

"Ok Im going to chain you down now, and then we are going to start the show."

After chaining his hand cuffs to the floor, I had a tough choice to make, who should start it all off. I now had a raging hard on and i was dripping pre-cum constantly. Todd had no idea what was about to enter him.

~~~~~

I really could not decide how the evening should start out. I had run different scenes in made head of how I wanted things to go but I didn't really think about how I should start it all off. So I decided for a little payback, that only seemed fitting after how Todd had caught me. Todd was panting and was rock hard as I walked away to get his first animal lover.

I came back in with one of the more strict lovers of the farm the largest pig we had. I had isolated him from the other female pigs and so he was pretty horned up and ready to go.

"OK, Todd, since you we such a pig to me that night you walked in on me, I think its fitting that a pig fuck you."

"What, hey now what a second," his words turned to mumbles as I gagged him and led the pig in.

The pig I had nick named "Macho" because he was the largest and more demanding lover in the pig pen. Well Macho went right to work he walked up behind Todd and gave his hole a sniff and bit his ass a couple times. Then he got the Idea and mounted Todd, grunting and nipping as he slid up Todd's back. His cork-screw cock was out and searching for a hole then, boom, Macho hit his mark. His cock began the search for Todd's non-existent cervix. His nearly 15 inch was thrusting away, as foam from his mouth dripped onto Todd's head. Macho started to fill Todd's hole with piggy jizz.

Todd's beautiful cock and body, sandwiched under a muddy old pig that was using him like a whore. The whole thing was making me ridiculously horny. I'm fairly certain there are baseball bats less hard than I was that day.

Almost 15 minutes later Macho's cock came out and he dismounted. I knew he would be ready to go again soon so I led him into a near by empty stall that had some food and water for him. Todd on the other hand would not be so lucky. Without a word I got behind him and started fucking him with all my might. He let out muffled moans as I went to town on him.

"Don't worry dude, this is just a little payback for all those nights this last week that you rammed that club between your legs into my ass without so much as a reach-around. Ill be done in a few minutes and you can get back to whoring it up with your stall makes."

Harsh words I know, but I think they were a fair assessment. I would pull my cock out for just a second to see his hole close slightly then I would ram myself back in and tried to really power fuck him like a dog would. Then to my embarrassment after only 9 or ten minutes I felt that urge climbing up from my balls, I tried to fight it, I behind to squirt inside him.

"OH, SHIT, Yes, Holy fuck!" I shout as squirt after squirt of my hot jizz left my big balls and filled him up.

I must have put 10 or 12 shots in him, I was spent, I wanted to desperately roll off him and take a nap.

"Well, no rest for the horny." I said as I slapped his ass and pulled my cock out of him.

I got up and went out to get the next animal, the Great Dane. Just upon enter the barn he got really excited and his red rocket was fully out. I opened the gate to Todd's stall and he right to work. He licked Todd's useless, helpless cock, and he lapped up my sperm that was leaking from his waiting hole. Then he mounted Todd and quickly got to work fucking him.

I knew he was in very capable paws but just in case I took the gag off, and walked away. I went back over to where the stallions were. There was still one stallion's cock I had not seen yet. He was smaller physically than the other two, as I approached he was a little frigidity, but I petted him and he quickly calmed down. He was by far the most tame of all the horses on this farm.

I made my way to his cock and I first cleaned it off with some soapy water I had ready. Then after giving it a good rinse I began to rub and lick it. He slowly became nearly fully aroused. That's when it hit me, he is the Goldilocks horse. I ran my eager mouth up and down his shaft, he must only be 14 or 15 inches long and a little thicker than the Donkey. I needed to know how big his flair was, so I kept licking and sucking. As I sucked and swirled my tongue around his cock I ran my hands up and down his shaft. After doing this for a while he began to leak pre-cum, and I continued to jack him off and suck on his now flaring head. Without warning he fully flared and erupted his sperm into my mouth and down into my throat.

His flare was small enough to fit into my mouth once again dirty, un-Godly, thoughts sprang into my mind. My thoughts turned back to Todd, the Great Dane had knotted him and was trying to pull out.

I finished taking the stallions cum and walked back over to Todd. Sure enough he was ass to ass and the Dane was having a little bit of fun.

"Oh, stop complaining, he isn't going to pull out yet."

"He keeps pulling on the tie though!"

"Yeah, just to mess with you stupid."

Todd let out a defeated sigh/moan, as I came over to his mouth. My cock was rock hard, again. He opened his mouth to say something but I shoved myself in and started to face fuck him.

"Yeah bitch, how do you like this dick, you whore." What can I say, could not resist.

I continued to rail his mouth and throat for twenty minutes, all the while he would gag and moan. I would pull out to let him take a few deep breaths and then continue. Just as the Dog's knot shrunk enough to slide out I came in Todd's mouth. I collapsed in the hay looking at the slut Todd had become. Literally cum oozing from both holes, his cock stiff as a rock, and muscles straining at his bindings.

"You want some more" I asked.

He knew I didn't care what he said but he said it anyway "Yup, like a loose lipped milf or a gaping ass whore."

We both laughed as I wen to get another fuck buddy for him.

~~~~~

The Boar was grunting again and he was very horny. I mean if for the majority of your adult life you had a whole bunch of sexy woman to have sex with every night wouldn't you be too? So I let him back into Todd's stall and he got right down to business. He grunted and foamed as he mounted Todd. His corkscrew cock began to search for Todd's waiting hole. Within a minute that cork screw disappeared into his ass. I started getting hard again just watching, my hole even ached a little. I focused instead on queuing up another contestant.

I had returned from the field and found the boar just finishing Todd up.

"Well I hope you are ready for something a bit bigger."

The Donkey was behind me trying his best to masturbate. I led him in and he didn't even need to be guided in. Normally when I would take the donkey's cock I would make sure I could raise or lower my ass to control how much cock he could fuck me with. I made sure Todd was good and lubed up. I put him on a large hay bale and made sure he was tied down. Next I led the donkey over him, and placed his manly cock on the opening of Todd's hole.

Todd let out a little tear as he braced for impact, "Come on dude."

The donkey went from partial chub to being fully erect in a second and started fucking Todd. Nearly every inch went into him on the first thrust. He let out guttural moan/grunt of pain and pleasure. Todd's cock was rock hard as well. I'm pretty sure his prostate never had so much attention. The Donkey was fucking more vigorously than ever before, he had a taste of ass and liked it.

"oh crap" Todd shouted, "im, im, going to cum!."

"No, you better not, those are my balls, my cock, my cum; I own them." I commanded.

"oh, please, Im going to cum." he cried back.

I let out a little laugh, as I rubbed my cock. Sadly the donkey thrust harder and deeper. I knew in moments the donkey would unleash his seed. I also knew that with the donkey's flare Todd would cum like a fountain.

"Please" he screamed.

"mhmhhh, no, hold it in."

The donkey gave another harder thrust and then stopped I could tell he had enjoyed his piece of ass as he emptied his balls into Todd.

"Im, Im, I" Todd mumbled then he let out a long deep moan for a short while.

The Donkey pulled out of Todd and again Todd moaned, and yelled again. I knew he had cum, who would be able to hold it in. I had something very serious lined up for him. All those nights during the week he had fucked me, and held down my arms. He had cum so many times, and not ever did he jerk me off or even let me jerk off. He would cum and then lay on me before pulling out or going again. His cock was magnificent but the reality was he cums way too fast. Only after he was finished pummeling my hole would I be able to jerk off. Then we would fall asleep, and sometimes in the morning I would wake up to his cock being stuffed in my ass or shoved in my mouth. This happening once or twice is exciting, and dirty and kinky. But every day for five days straight is boring and annoying. The fun part was shouting and screaming about wanting cock or hearing Todd shout about wanting to fuck my hole. Tonight was going to turn the tables and upend everything.

"Ok I am going to untie you and then you are going to enjoy another session for a half hour. Then we are going to take a break.."

Breathing heavily he responded "Sounds perfect bro."

I let him free and walked him over to a work room in the corner of the barn. I had cleared a table of tools earlier, and I laid Todd down. I used rope to tie each foot down and tied them off under the table. I did the same to each hand, so each limb was tied to a corner. When I was sure he was secure I took a towel and wiped off the cum from his cock and belly. I was really horny and wanted to suck a cock any cock, but I resisted. I then tied a string around his balls, I then pulled the string tight. Feeding it under the table I kept it tight, very tight. I tied it to his head, not neck but head. First in a loop around his head at the forehead level then I looped it under the ear, under the jaw, and under his other ear. Making sure it wouldn't come loose I tied the end off to the lead that went to his balls. This effectively meant that he would not be able to lift his head or talk without tugging on his balls and causing some pain.

The other day I had found a clear plastic bottle that was a little taller than a foot and had a tapered neck to the opening. It was just big enough to fit Todd's massive cock when it was erect. I cut out the bottom of the bottle as well. I picked it up and walked back to him. He had a partial chub which I help a little by massaging his cock for a minute. With a little lube I slipped the bottle onto his member. Then I got another bottle from the fridge this time. I rubbed some of the liquid from the bottle all over his cock. I then went out of the room and came back with a good sized jar that was wrapped in a towel. I un-screwed the top and dumped the contents in the bottle that held his cock. I shook the bottle a little to stir them up.

Todd tried lifting his but quickly remembered his balls, so barely moving his mouth he asked "What did you put into the bottle?"

"Well I coated your cock in sugar water, and then I poured in 30 very hungry crickets" I laughed.

"What" he shout, and winced.

"Yes you have 40 minutes to go after the first bite" I responded.

He yelped and I saw a cricket had bitten the base of his cock.

"bingo 40 minutes starting now." I set the timer.

At first that was the only bite for nearly ten or fifteen minutes. Then I rubbed on a little more sugar water and soon they we in a frenzy. His whole body was struggling and squirming. Through the pain his cock was still rock hard. Only the small ones were biting, more like nipping him. Then with fifteen minutes left on the clock the ten or so big ones got in on the action. A couple were climbing up his cock and the other were biting the base and lower shaft. I each time one bite in a little drop of blood showed up.

He was tense all over, every muscle, his body was shiny with sweat in the evening sun. I rubbed myself with one hand, and in the other I picked up one of the big guys and put it on his cock head. I was disappointed when it didn't bite. Then at the five minute mark, it happened. It bit near the ridge of his helmet. He shrieked and swore but then I nearly came as I watched what happened next. It crawled to his Urethra and bit one of the lips of his piss slit.

"FUCK, Shit," He shouted struggling at his restraints to be free, "LET ME OUT, I CAN NOT FUCKING TAKE THIS. PLEASE I JUST CAME I DIDN'T KILL SOMEONE."

He kept struggling as another had crawled up and bit his cock head.

"YOU SHIT"

"Hey I told you not to cum" I responded trying not to laugh.

Then the timer rang out and he let out a big sigh of relief. I Placed the jar and lid on his abs, and began to take our each cricket very slowly. I started with the small ones at his base.

"OH fuck you man." He caught on to what I was doing.

Eventually I took the big one off his mushroom, last of course. I put the lid on the jar, and took the bottle off his cock. I untied his head and balls before I cleaned him up. He looked at his cock and let out a whimper. I took a few alcohol wipes and wiped off the blood, it looked much worse than it was. He'd be a little sore for a day or two. Before I let him go and rest for a while I took out another toy.

"Oh no come on," he said.

"I bought this just for you, after all you lock me up in a chastity cage a few times."

It was the biggest cock cage the sex shop by the interstate sold. I put the ring on and then worked his cock into the tube portion. Then with a click he was locked in tight, he filled the entire metal tube, there was no hope of escape without the key. So I untied him, and we ate some burgers I had made earlier, he chugged water as we sat resting.

"So what is coming up, can I get a preview?"

I laughed and said he was going to have much more fun. The sun was starting to set in the west when we finished and got back at it.

~~~~~

After watching the sunset and eating I sent him back to his stall while I took a brief walk to clear my head. Everything I had planned out and really wanted to do was done. I was quickly trying to think of something new to do to Todd. Then it hit me that what I needed to do was just humiliate him mentally like he had been trying to do with me. I wanted to turn him into a slut for cock, but not emasculate him completely. While its not my first sex choice all the time, I would like his cock hard and in my ass every now and then. so i threw on a pair of sweat pants and walked back up to the house to get a few things.

On my way back I also grabbed two of the male German Shepard's. I knew the Great Dane would be a little tapped out. I returned to find Todd laying on a hay bale. I pulled from my pocket a mp3 player, in ear noise reduction headphones, and a blind fold. I decided to be nice and release his cock from its prison. I then hand cuffed him and secure him to a hay bale in the center of the stall. I blindfolded him, and put the earphones in his ears. I Decided to play some classical music at a loud but not uncomfortable volume. I duct taped the MP3 play to his so it wouldn't get stepped on.

"nice" I admired my handiwork.

But time was ticking and we had more to do. I led the German Shepards in and put each one on a leash. Each leash was tied to a support on either side of the stall so they couldn't go anywhere but still could lay down or move around. The Great Dane was sleeping in an adjacent stall and the Donkey was eating his dinner. I lubed up Todd again, putting plenty up his hole I messaged his anus and prostate. He let out a moan but I stopped long before he was close to cumming.

I released the first German Shepard, I wasn't sure which one had the enormous knot, so i just let one off his leash. He knew how to treat a bitch; he walked over and licked Todd's hole and balls. After a good minute or two his cock was out of it's sheath and he mounted Todd.

"God, fucking good." Todd shouted.

I just enjoyed the scene, by now the other Shep was pretty aroused his rocket was out of his sheath and he was very anxious. He would whine and let out a bark as his fellow dog pounded Todd.

"Holy Shit" Todd screamed not in pleasure but in pain.

The Dog had knotted with him and this apparently was the one with the huge knot. Todd's cock erupted with cum but I could tell he wasn't getting as much pleasure as he might have from it. I up close and watched as the dog went ass to ass with him. I was inches away from the action, jerking off, and rubbing Todd's balls. Then the knot began to come out. Todd screamed again as his hole stretched more than ever before. It was about to come out when the dog backed off and took a small step back. This made Todd clench down and push up against his anal captor slightly. The Dog barked as his knot grew slightly. My mouth and cock watered at the thought of how much doggie jizz was being pent up in there. Twenty something minutes went by before the knot shrank even a little. Exhausted the dog began to pull on the tie until it was free from Todd's hole. Todd was crying now, and understandably so. I leashed the dog up again, but before releasing the other I gave Todd a little TLC. I rubbed his back with one hand and messaged his hole with the other.

After just relaxing for a moment I went over and unleash the other Shep. he went straight to business and mounted Todd. This dog was a piece of cake compared to the other. As this dog went about his business the other one was now whining and barking. Thats right I was going to run a train on Todd. Things went pretty well I switched between the Shepards and even threw in the great Dane. Todd's hole was really stretched out now.

I lead the dogs back to their kennel and came back in to again cool Todd down. He was struggling and strain trying to get free. I came over and again calmed him down. I put one finger in him, then two, then three. Slowly I pushed my fist in to the wrist. Again Todd jizzed, hands free.

He was moaning and having a pretty good time. I pulled my hand out and nearly had a heart attack. Standing in the barn doors was Ryan.

"Fuck, what? What the hell are you doing here?"

He was as stunned as I was.

~~~~~

"What are you doing here?" I asked.

"Well, i was curious, don't be mad." he replied.

I suddenly realized I was naked. I walked toward Ryan, near the doors were my sweat pants. I quickly put them on and turned my attention back to him. He was very embarrassed and bright red.

"So what's the deal? I thought you were gone, we saw you drive off."

He laughed and leaned on a post "Well after the show you guys put on this last week, some of the things you two were saying made me curious. So I went to town, and after a bite I came back. Parking my car by the gate of course, I snuck up to the house just in time to seeing Todd heading off to the barn."

"Wow so you got the whole show" I said as I walked to the hose to wash the lube off my arm.

"I watched from behind those Hay bales for most of it. I was backing out so I could get something to eat and go take a leak when you caught me."

"Ok, well I'm going to fist him again, don't worry he can't hear a thing. So why don't you go and get some food and hurry back you won't want to miss whats next." I said as I walked back over to Todd, and gave him a friendly slap on the ass.

"Finally Dude, wanting hole here ready for more!" Tod shouted.

"Cool, I will be back fast then." Ryan said as he ran for the house.

I turned back to Todd, inserting two fingers into his loosening hole. I rubbed his prostate and with my other hand I massaged his balls. He let out squeaks and would jerk slightly when I pulled down on his balls. Again I put a third finger in, and continued to get him horned up. His cock was hard and up against his belly. The hay was poking and roughing up his poor cock head, and frenulum. I shrunk my hand into a shape that made it as small as possible, and added some more lube. I slowly inserted my fist into his wanting hole. Once I was in I made a fist, and slowly began to pump him. After a few minutes i pulled out, he was gasping, I could tell he was so close to another orgasm.

I got up and walked around him, very impressed, even proud. He had done a good jobs stretching his hole and now he was going to be in for the ride of his life. I took out the head phones but left him blind folded. Ryan came back in but stayed silent.

"Thank god" Todd exclaimed.

"You are still my slave, your holes, your cock, your balls, and your cum are all mine." I whispered into his ear.

"Yes master" he replied.

"Good boy, I'm going to move you to a larger hay bale, and then secure you again." I went about doing that.

Once Todd was down and secure I put the headphones back on and played the music. I went and got the horse I had given a blowjob to a few hours earlier.

"You are going to love this Ryan," I spoke as I walked the Horse to Todd, "Don't worry this stallion won't kill him, His cock is a little smaller than my arm. A better comparison is that he is a little bigger than the Donkey."

"I was gonna say something, but if your sure then." he walked over and sat down in a spot with a view.

I stopped and rubbed my hand in a mare's pussy. and then entered Todd's stall. After rubbing the pussy juice on his ass, I petted the stallion and once again slowly made my way to his package. He sniffed Todd and it wasn't hard to, well get him hard. He didn't need to be told how it goes, the horse reared up and came down with his belly hair just touching Todd's back.

"what the hell" Todd shouted.

The stallion was trying to thrust and find the hole. I quickly applied more lube to Todd's ass, and when the stallion backed up I grabbed his cock. I put the head at the tip of Todd's hole. With one thrust the big guy let out a loud whinny and so did the horse. I was once again rock hard, one moment the Horse's cock was just rubbing up against Todd's wanting hole, then wham! It disappeared and the horse was fucking, bucking, and pumping his hole. For me that went by in slow motion. Inch by inch that cock went in and I almost came in my pants as it did.

The whole thing was over quickly but I'm sure for Todd it was a lifetime. Even Ryan got much less shy, I glanced behind me; Ryan's eyes were locked on that horse dick, and he was slowly getting undressed. I was oozing precum, so I started to masturbate. With each thrust Todd let out a guttural sound, as if he were driving too fast over a speed bump. As that mighty cock pounded and pounded his ass, I took in every thrust, and quiver. I stroked my cock, filling myself with every visual and sound.

Then it ended. The horse let out a noise, and stopped thrusting. At the same time Todd was yelling/screaming "YES." he made all sorts of noises, I could tell he had another hands free orgasm. Soon the horse's once mighty hard cock, that any size queen would beg for, softened and came out with a slight pop. I stopped jerking it and walked over to take the horse back his stall. I came back to Todd to find Ryan fully nude and moaning. I walked straight to him pulled his hand off his dick and I lowered myself to cock level. My tongue had just touched the tip of his dick.

"Oh Fuck, me" Ryan shouted

He jizzed on my face, we laughed it off but I could tell he was very embarrassed. For those of you who want to know, his cock was longer than mine. About 7 inches, but not as much girth.

"sorry" he said.

"it happens to everyone, but you were watching a horse fuck a dude, so no worries." I replied as I rubbed his spooge off.

"Oh please let me touch my cock, I just want to jerk off. I jizzed everywhere and I'm still fucking hard. PLEASE," Todd begged.

Instead I found the Great Dane near by and brought him over. He knew exactly what to do and mounted Todd.

"I figure he needs a cool down fuck after that plowing." I said to Ryan.

The Dane fucked away as his Knott grew he became more and more frustrated. Finally Todd clenched down after a nip on the neck and his Knot exploded. But quickly popped back out. The Dane dismounted and was squirting out his cum everywhere.

"Hey Ryan why don't you help a fellow man out?"

"What?"

"Don't act surprised just suck on it for him."

I was actually pretty surprised when he got down and went over to the dog and started sucking that big doggie dick.

He took a breather to say "His cum tastes like rusty nails."

Ryan kept sucking as I put my cock in Todd's mouth, to shut him up. Todd was not happy his teeth would rub against the top of my dick head with every thrust, I just thrust harder and made him gag. I kept thrusting as I watched Ryan suck off the Great Dane. I wanted to cum every time time a inch of cock disappeared into his mouth. Before I did I pulled out, I wanted to save it up and enjoy the feeling.

The dog had finished cumming and turned and found a corner to lick himself and rest in. Ryan wipe the sperm off his mouth, and began to furiously masturbate.

"Oh god," he moaned as more sperm erupted from his cock.

Breathing heavily I walked over to one of the sheep. She was standing there drinking some water. I walked up beside her and then snuck around behind. I thrust my dick into her hot pussy. I would pull out halfway and then thrust all the way in savoring every inch of each thrust. I couldn't take it my whole body was tingling, I just slowly kept moving my cock in and out until my balls tightened and then released. I pumped spurt after spurt of jizz into her.

"Fuck Yes," I said through breaths My hard cock was shrinking now.

"Dude this was so much fun, I have been aching for a good release." Ryan said as he put his clothes on.

"Anytime," I said, still a little light headed from the orgasm.

"I'm gonna hop in my car and pay a visit to a Friend at Ames, I am pretty sure he has summer school," he zipped up his fly and made his way to the doors "Also I don't think I want Todd to Know I was here, he has that weird macho thing going on."

"Drive safe," I pulled my softening cock out of the sheep and went to Todd who was struggling to touch himself.

I laughed and removed the head phones.

"Thank you" he shouted

I flipped him over, no surprise his club was still hard. I knelt down and took as much as I could into my mouth. I deep throated him a little, letting out a few Gags. I could feel him getting ready to cum. I was actually really sad, when he came. He squirmed and shouted but Only a little trickle of cum came out of his massive tool.

"Yes" He said in between deep breaths, "thank you so much."

I kept jerking him as his cock softened. He kept breathing heavily, and sweating, it was fucking hot in that barn. Before I released him so we could both take a break I got the metal chastity "cock and ball trap" cage out. The ring around his cock and balls was still on. So I slipped his penis into the metal tube and lock it on with a small padlock.

"Come on dude, I'm tapped out. I don't want to even think about jacking off."

"Oh please you be hard in five minutes. Besides your penis and balls are still mine. Time is not up," I replied.

He kept whining and complaining but I ignored it. I wen out side and after a little while I returned.

"Ok so here is what is happening Todd, pay attention. I have hidden the keys to your chastity device in a cow pie out in the cow pasture."

"WHAT!? Fuck you, you asshole!" He was fuming mad.

"Also I have recorded every we did tonight with me skillfully behind the camera. So we are even and considering I have the keys to you cock I think I am ahead at this point."

I let out a laugh as he kept swearing straining at his restraints. I actually hid one key on a hidden ledge in the corner of the pig's space in the basement of the barn. I hid the other in a pile of horse shit in their feild. I know, Im devious. Soon Todd calmed down, he even got excited to have to serve in order to touch and feel a hard cock. That evening went on, we took a shower. Then he gave me a pretty good blowjob, followed by me fucking him bare back and jizzing in his wide open hole.

We fell asleep completely naked in my bed, my soft cock completely wet and his locked away, how the tables have turned.
