BEASTIALITY STORIES

(c) by Cynthia B.

You'd be surprised how many women and their dogs have sex. My Sam is a great lover. The story that I am about to relate really happened to me in last summer. I lie to you not...

I was in the back yard of my house one summer day and lying naked by the pool as I usually do... (I live on 40 acres. No one is around). With the warm summer sun baking my naked body, I started to get a little turned on...The warm sun, a cool breeze, and a couple of drinks will do that. ☐

I have had a relationship with my dog, Sam, for quite some time now, and we are both very in tune with each other's needs. So I called Sam over to me while I was lying by the pool, and he came up to me between my legs and proceeded to lick me.

After a short while, we walked out to the lawn (the pool deck is kind of hard to kneel on). I bent down on all fours so Sam could mount me. Sam came over to me, jumped up on me, and started humping me as he usually does...I felt his cock ramming in and out of me, and then I felt his knot pop inside of me...I knew we were tied. After a few minutes, he slid off of me and turned around as all dogs who are tied do.

I could feel his cock pumping his hot liquid into me. With each jerking spasm, I could feel another load of his cum shooting into me. I, of course, was masturbating away, as I usually did. Sam's cock (when fully erect) is about 8 inches, not including the 3" knot. Having that much cock inside of you has to be the best feeling in the world.

After about 25min, Sam started to go soft on me and eventually slid out of me. I turned over and lay on the grass, watching his cum run out of me.

That's when it happened. I heard a rustling in the bushes behind me. As I turned around, three other male dogs emerged from the bushes!!! A Lab, a mutt, and a Great Dane!

I must admit I was scared laying there naked. I figured they must have caught my scent or have seen Sam fucking me!! I started to get up from the grass, but as I did, the Great Dane grabbed me from behind and started humping me!! I tried to fight him off, but he was too big and too strong. Finally, I felt his cock enter me, and I became even more terrified!!

He was HUGE!! I reached back to get him out of me, and the dog forced my shoulders to the ground. After that, he entered me time and time again. He must have been at least 10" with his knot being as big around as a ripe orange. As he fucked me, the other 2 dogs kept trying to mount me anywhere they could. Sam tried to fight them off of me, but he was too tired from his experience with me.

After the Great Dane tied with me, all of my strength to fight him off had gone, so I decided to enjoy this experience. I had never had a cock that big in me before, and it did hurt, but because he had stretched me to the limit, I could feel every vein in his cock. I could actually feel his cum shoot down his long shaft and then into me each time it happened.

At this point, the other 2 dogs were overcome with excitement, and I could tell they wanted me next. The mutt found his way under me and started licking me, which I enjoyed very much. Next, the Lab came up to me, so I started jerking him off while the Dane kept pumping his load into me. I started to get more turned on by the minute...I was getting raped by three dogs!!! The thought of it excited me to no end!!

After the Dane had finished with me, he pulled out and licked his cum out of me, and as soon as he stepped away, the Lab hopped on me and started humping away!! He was determined to have me

next. It was easy for him to enter me since the Dane had stretched me and left me soaking!!

The Lab pumped away, and I felt his knot slipping in and out of me until it finally grew big enough to get stuck in me. At this point, Sam was really getting pissed and tried to defend me again, but I told him to stay and sit. So he did and continued to watch his mistress getting mounted over and over again by these three strange dogs.

After a while, the Lab finally slipped out of me, I was totally exhausted at this point (this had been going on for over an hour now), but I thought it was only fair to give the mutt his chance in me also.

Now before I describe this experience, I must describe the mutt. He was a mix of what I have to guess as Mastiff, Dane & Lab. He didn't look as large as the Dane in size, so I didn't pay much attention to him. Well, he came behind me and grabbed onto me with his front paws and started to mount me. I decided to make this quick as I was getting tired, so I reached back to help him into me and speed things up.

When I reached back to grab his cock I got the surprise of my life!! He had the biggest cock I had ever seen in my whole life...he was almost the size of a small horse!! He must have been at least 5" around and 11" long. His knot was the size of a softball!! I guided him into me as quickly as I could, but I held back the knot. (If that got in me, I thought it would kill me). So I held onto his knot and thrust him into me again and again until he reaches his full size.

I thought to myself I had already had enough cock in me for one day, so I slowly pulled him out and turned around so I could see this beautiful cock of his. My god, was it huge!! So I decided to let him keep cumming as long as he could, so I lay on my back and let him cum all over me while I rubbed it on my body and genitals.

He kept shooting load after load onto me. I would have to guess he came close to enough to fill an 8-ounce soda bottle. After he finished cumming on me, he went soft, but he came over to me and proceeded to start licking his cum off of me. When he started doing this, the other 3 dogs (including Sam) started helping him, and I came one last time in a tongue bath by these dogs. After they finished, they ran off into the woods, never to be seen again, and I collapsed onto the grass next to Sam.

I hope they return someday ☐

The End.
