## **BEASTIALITY STORIES**

Norma was born on a farm to very loving parents. Being an only child she was always alone; she had no real chores or jobs to do on the farm except for gathering the eggs which were a money-making commodity for the farm, she was annoyed when at the age of ten she was sent away to boarding school; she no longer had the freedom that she enjoyed on the farm. At least when she did have the holidays when she would come home. Her parents had given her a puppy when she was about six years old, for company; every time she came home the pup was always happy to see her.

It was on one of these holidays at home that Norma first saw the sexual act between two animals. Being a young girl going to an all-girls school hadn't helped her with much sexual education. She wasn't supposed to be watching. But that day she just happened to turn up as her father was about to let a young heifer in with one of the young bulls.

The young bull was pacing up and down impatiently. He was for sale. Her father had a halter which he didn't really need because as soon as he opened the gate between the two yards the bull raced through the gate and went to the heifer and sniffed at her cunt to satisfy himself that she was, in fact, in heat. His cock shot to full erection as he heaved himself up onto the heifer; after a couple of quick thrusts his cock found its target and with a jump he shoved his cock all the way into her. The young heifer stood there bellowing as the bull's hot cock tore into her for the first time.

Norma was fascinated as she watched the bull's huge balls tighten as he climaxed deep inside her. Almost immediately he withdrew. Satisfied, his cock hung down limply for a few seconds before it vanished from sight again. A thin trail of semen was dripping from the heifer's cunt. Even before Norma had a chance to turn away the bull heaved himself up onto the heifer once again and shoved his cock into the heifer and climaxed again.

She heard her father mumble, "He's done the job."

As he turned away the bull mounted the heifer again.

Norma felt all wet and sticky between her thighs. As she was out of her father's sight, she pulled her dress up and pushed her hand inside her panties and touched the moist lips of her fanny. She rubbed the tip of her finger up and down her wet slit. As she was fingering her slit she was wondering what the heifer had felt like when the bull had shoved his cock into her. She was also wondering what it would feel like having something like that in her own pussy.

Norma took to going for long walks around the farm during that summer and she was always accompanied by her dog. It was on one of those walks she came to one of the many dams on the farm and, as it was a hot day, she decided to go swimming. Being well out of sight Norma stripped her clothing off and jumped into the cool refreshing water; her dog followed.

Norma and her dog splashed and frolicked around in the cool water for quite some time. When Norma got out of the dam she lay on a grassy spot on the bank to dry off. By this time some of the Hereford cattle had come to the dam to drink. As the cattle milled around the dam Norma noticed that one of the bulls had singled a cow out of the herd. The cow just stood there not attempting to move as the bull sniffed at her cunt. Norma could see his thin red cock poking out from beneath his belly. Then when the bull put his chin on her rump and heaved himself up onto her back his long cock poked out even further and he began thrusting, shoving his long red cock at her; the cow lifted her tail as his long red penis found the opening of her cunt. As the tip of his cock entered her cunt, he jumped forward. As he savagely drove his long cock into her the cow arched her back. With a couple of quick shoves the bull sprayed his hot semen into her.

As Norma lay there on her stomach watching the bull she became aware that something cold was touching her fanny, – it was her dog sniffing at her. Not wanting any part of this she got up and immediately got dressed. And as it was getting late she went home. Norma didn't tell her mother what had happened that day fearing the worst; she never thought about it and never dwelt on what had happened.

She was eighteen when she finished school and got a job in the local township of Clare. Norma was still a virgin when she met a young salesman, named Stan. Norma and Stan got married six months later much to the dismay of her parents; they set up house in Clare. Norma had never seen a man naked before her wedding day; she knew that a man had to have a cock but the only cock she had ever seen was an animal's. When Stan stripped off in front of her and she saw his under-sized erect cock for the first time, she was a little scared of what she knew was going to happen. Stan came over to her and quickly undressed her. As he held her in his arms and kissed her, his hard cock was poking into her stomach. He gently lowered her to the bed, spreading her legs apart he knelt between them. He brought the head of his cock to the lips of her cunt. Exerting a little pressure the head of his cock started parting her opening. As the bulbous head of his cock slid through her virginal pelvic ring he shoved hard and drove his cock all the way into her.

"Get it out! Get it out! You're hurting me," Norma screamed.

As he started sliding in and out of her now relaxing pussy her screams turned to whimpers and then groans, not of pain, but of pleasure. Stan finished just as quickly as he had started and rolled off of her he turned and went to sleep. Norma lay there with his sperm oozing out of her ravished cunt.

After the weekend honeymoon, during which time Stan managed to fuck her twice, he went back to work, as a travelling salesman. For the next year Norma spent a lot of time alone, wondering if that was all her married life was going to be. As Stan was often away for weeks at a time, Norma was always frustrated. Even when he was home his love-making never gave her any of the sexual release that she needed and deserved, her pussy was always hot and ready for a good fucking. When Stan did come home he just rolled on top of her and as she spread her legs for him he shove his cock into her and shot quickly. Leaving her unsatisfied.

For some reason, one afternoon whilst Stan was away she had been daydreaming about sex and more so she was dreaming about the incident with the bull she had watched some years ago. She was so hot and horny that her pussy and not her mind was controlling her thoughts. She had to get relief somehow and she had to get it fast. Her panties were soaking wet and her cunt lips and hairs were sticky from her juices; she wasn't sure what she was doing as she pulled her skirt up around her waist. Lifting her bottom up off the lounge she slipped her wet panties down over her hips and let them slip down her legs to her ankles and then she kicked them off. Norma moved her bottom closer to the edge of the lounge spreading her legs wide she started fingering and rubbing her hot snatch wishing that her fingers were an extremely large, hot cock sliding in and out instead.

She had never contemplated being unfaithful to Stan, even though his cock never gave her satisfaction. She had definitely never contemplated anything like what was to happen to her during that eventful afternoon.

It was then, through half closed eyes, that she noticed Toby, their dog, trying his best to hump the corner of the coffee table. His long red cock poking out further than she had ever seen it before. She had seen and felt it on a number of occasions as she bathed him; a couple of times she had even felt it swell a little when she did touch it accidentally. The sight of his cock was making her hotter and hornier than ever.

Norma closed her eyes again, trying to recapture the daydream as she furiously rubbed her clit and cunt lips. It was the smell of her sexual arousal that had triggered Toby's sexual excitement off in the first place. The dog came over to her and stuck his nose in between her widespread legs and licked at her hot snatch. Her eyes instantly opened wide not wanting to believe what had happened. She shuddered as his rough tongue touched the hot wet lips of her juicing snatch, again.

Norma pushed him away, but having tasted her juices he came back again. The more she pushed him away the more agitated he became. The hair on the back of his neck stood up and he growled at her. Norma thought of all the things she'd used in her slit, like her fingers, the candle, a cold cucumber and so forth and none of them had been as good as the real thing; even Stan's cock would do at that moment. As she looked down at Toby's excited cock she realised that this was the real thing and it was much thicker and longer than Stan's.

Norma had no idea why she did it but she quickly stood up: it was as if she were under a spell, she undid her skirt and let it drop to the floor, stepping out of it. She was completely bare from the waist down. As she spread her legs a little and leaned down to pick the skirt up, Toby jumped up and tried to mount her from behind, thrusting his cock at her, occasionally brushing her leg. Standing up again she removed her blouse and bra and unashamedly stood naked in front of her dog.

Her hot, cock hungry cunt and not her head was now dictating the terms, there seemed to be no turning back. Then, not fully realizing what or why she was doing it and not even stopping to think about the consequences, she got down onto her hands and knees on the floor lowering her chest and shoulders closer to the floor, as her erect nipples brushed against the soft carpet, her ass poking higher into the air. She felt as though she were a bitch in heat.

Toby quickly took the hint. Walking behind her he started licking her ass and cunt. As the dog licked at her cunt, Her juices, still flowed freely. It only took a few seconds before she was on the verge of orgasm as the dog's tongue parted her hot slit and he licked her erect, throbbing clit, slowly licking deeper and deeper into her. Then as he stopped licking Norma was disappointed. Thinking that the dog was finished she lifted her head and was about to get up when Toby mounted her. He thrust his cock at her cunt as he wrapped his front legs tightly around her dainty waist.

His cock missed the mark on the first few thrusts. The poor dog was so anxious he was whimpering and spraying his juices all over her ass and cunt hairs, leaving them wet and sticky. Looking back between her swaying tits Norma clearly saw the length of his cock poking out of its hairy sheath as he jabbed and thrust it at the hairy mound of her hot cunt. She was aching to feel his cock inside her hot cunt.

Then, when Toby's hard cock found her opening he gave a shove that almost sent her sprawling on the carpet as his cock slid into her until his hairy sheath slammed against her opening.

"Oh! God! Oh! My God!" Norma cried as he buried his hot, rod like cock into her cunt, right to the hilt.

At that moment Norma felt like she really was a bitch in heat. Toby pumped his cock in and out of her faster than any man ever could. His cock felt hotter than any cock that she'd ever had her cunt before. As he went deeper and deeper into her his cock slowly expanded and lengthened as no man's could. Stan's cock was no match compared to the thick, hot cock that was sliding in and out of her snatch at that moment.

Looking back between her swaying tits Norma could see the thick red cock sliding in and out of her mound. She would never be able explain her inner feelings to anyone; Norma had never had

anything this deep inside her cunt before; nothing could ever compare with the feeling of that long cock slamming against her uterus.

With each thrust his cock seemed to grow hotter and thicker inside her sucking cunt. Norma could feel the walls of her cunt contracting and relaxing uncontrollably around his piston like cock. She screamed and went into the most shattering orgasm she had ever experienced.

Norma felt a lump forming at the base of his hot shaft as it slid in and out of her. The first time she felt it slide into her cunt it wasn't very big. Each time it brushed against her swollen clit her cunt contracted around the dog's cock. The more he slid his cock in and out of her, the larger the lump grew.

By this time she was cumming so hard and fast that she couldn't have stopped him even if she'd wanted to. She felt the dog's cock swell even more as he sprayed her inner walls with his hot semen. With a final shove Toby slammed his cock all the way into her, her cunt lips stretched to accommodate the huge lump in his cock as he forced it into her. As her cunt swallowed that huge knot the tip of Toby's cock slammed against the tiny opening of her uterus and he started shooting his hot sperm deep into her. Toby stopped shoving and humping as spurt after spurt of his scorching semen deep into her. Norma was suddenly scared as the huge lump knotted itself inside her. What if somebody comes, what will I do?" she was thinking to herself as she felt the dogs cum jetting into her. She could feel his hot sperm running down the insides of her thighs as he pumped more semen into her.

As soon as he finished coming inside of her his cock began subsiding and when it finally slid out of her it came out with a with a resounding pop. Norma collapsed exhausted on the floor. Toby stuck his nose into her snatch and licked her juices and his own sperm from around her burning, contracting snatch. When the dog had cleaned her he went and lay in the corner of the room to lick Norma's juices from his own shrinking cock.

When she finally stood up she felt degraded and dirty so she went and showered, she lathered her pubic hair and mound with soap trying to wash all traces of the dog away. As she came out of the bathroom Toby came bounding up to her and gave her snatch another lick.

"All right," she said to the dog. "I guess I did enjoy it, more than I thought I would."

Norma got down on hands and knees again; the dog mounted her and drove his cock into her again. Norma's knees might get sore but she is no longer frustrated. She had turned into a sexually satisfied woman and if Stan couldn't satisfy her Toby their dog surely could.

Whenever Stan fucked her he left her up in the air so she went straight to the dog on the pretense of going to the bathroom. As Toby licked Stan's semen from Norma's cunt she always had an orgasm, especially when she knew that Stan was in the next room. Before returning to bed she always let Toby satisfy himself. Norma was always happy because Toby's cock remained hard and hotter inside her for long enough to relieve all of the tensions and frustrations her husband leaves with her.

\*\*\*\*

Norma's love for her dog grew stronger and stronger. The love she'd had for her husband died. The dog was more than her pet, he was her lover. She had learned how to control her pelvic and vaginal muscles. She was able to tighten her pussy muscles around the dog's hard cock to keep him inside her pussy longer. All Stan ever did was to roll on top of her, push his small cock unceremoniously into her pussy. After a few quick thrusts he would finish, pull his flaccid cock out and roll over and go to sleep. Stan's cock was so small that she couldn't hold him inside her pussy after he had

finished. The result was that Stan always left her sexually frustrated and unfulfilled.

The result was always the same, leaving her with a craving for orgasmic release. The only way was to wait until she heard Stan snoring. She'd quietly slip out of bed and creep to the laundry, open the back door and let Toby in. Sex with Toby always left her sexually satisfied if it hadn't been for that fateful afternoon she would have continued in an unfulfilled married life. Sex with Toby was to be very different on this particular night.

When Toby entered the laundry he immediately pushed his nose up between Norma's thighs, Norma shuddered as he pushed his cold wet nose against her hot slit, and started licking seconds he forced the tip of his tongue between the lips of her cunt; his rough tongue was driving her toward her orgasm every time his tongue made contact with her sensitive clit. He was licking and slurping at remnants of Stan's cum. Norma spread her legs even wider. She couldn't hold back any longer, she climaxed her harder than ever before. Her legs went all rubbery; it took all the strength she could muster to remain on her feet. After settling down she quickly pulled her nightdress up and discarded it

The whole time Toby kept licking at her pussy, his rough tongue was going deeper into her open pussy; it was as if he was softening her up like he would a bitch, before mounting her. Her vagina was dripping with her juices and his saliva as he kept lapping at her pussy.

Realising that Stan might awaken and find her completely naked with their, so she opened the door, let herself out and Toby quickly followed her out into the yard and they headed for a secluded spot in the far corner of the yard with Toby sniffing and licking her ass and pussy as she walked.

She had never attempted to have sex with Toby outside in the open before. Even though the night air was quite warm Norma shivered a little as if she were cold. In her excitement her arms and legs felt weak as she was sinking to her knees to assume the doggie position Toby was wrapping his legs around her waist, trying his best to get his lengthening cock into her. She hadn't quite reached her hands and knees, when she felt the hot pointed tip of his cock probing between her ass cheeks. Leaning forward she dropped and supported her upper body with her hands planted firmly on the soft grass, in doing so she dislodged Toby's hot cock from between her ass cheeks and it slid between her thighs and briefly brushed against the parted lips of her hot pussy.

Letting go of her, he slid off her back.

Dropping her head down lower, she spread her knees and poked her ass into the air. She knew her pussy lips were gaping open, in anticipation of him getting his cock into her. He quickly mounted her again, wrapping his forelegs tightly around her waist. There was just enough moonlight for Norma to look back between her swaying tits and see her swollen hairy mound nestled between her legs and his hard dripping cock as he mounted her again. She wasn't sure if her pussy was at the right height for him as she watched him thrusting his thickening cock at her pussy. He pumped his hips back and forth as he sprayed her ass and pussy with precum. Several probing thrusts later, he found the entrance to her overheated pussy, with the pointed tip of his hot cock as the tip of his hot cock slid between her pussy lips; he gripped her waist tighter and shoved hard. She felt his long thickening cock savagely driven way up into her. She climaxed again.

She could feel his cum squirting into her as he pumped his thick cock in and out, driving it deeper into her vagina with every savage thrust. Then when she felt his knot pushing against her pussy lips it and she knew what it was, and as it grew bigger and harder with every thrust. She knew he was going to force his knot into her, and empty the rest of his cum laden testicles into her. He gripped her even tighter and savagely thrust his hind quarters forward and upwards again. His shove was so

hard that half of his knot was forced through the outer opening to her soon to be ravished cunt. Pulling back slightly Toby tightened his grip around her waist, his sharp nails digging into her skin. And savagely thrust forward her cunt stretched around the growing knot, Norma had to bite her lip to stop from screaming out. as her cunt closed tightly around it the knot in his cock expanded to an even greater size through the tight opening to her vaginal passage. They were now tied together.

She felt the pointed tip of his cock was pushing hard against the tiny opening in her cervix. The pressure deep inside her cunt was for the first time turning towards pain, his cock thickened deep inside her. He was thrusting back and forth with short rapid strokes. Norma pushed back to meet his thrusts. With a final thrust the pointed tip of his hard cock found the tiny opening in the entrance to her womb. As the tiny entrance was invaded by Toby's cock he pulled back slightly, gripping her waist tighter with his forelegs he thrust savagely forward again. Norma felt something deep inside her give and his cock painfully entered the neck of her womb. The painful thrust brought tears to her eyes again. Then she felt his hot cum squirting, deep inside her. As he continued to empty all of his sperm filled liquid deep inside her womb. She climaxed again. It was as if she were a bitch. Lifting his hind leg he turned on her and they were locked together like a bitch and a dog, his throbbing cock locked tightly inside her cunt.

The only thought going through her mind was, *Stan can't do it, can you?* She knew what she wanted wasn't possible but she still wanted it to happen.

"I wish you could knock me up, that would teach Stan," she whispered to the dog.

Norma had always wanted to have a baby for as long as she could remember. She felt pressure building inside her as spurt after spurt of his hot cum filled her womb and vaginal passage. When he tried pull out of her, but all he managed to do was painfully drag her with him. She tried to stand up without success. There was no way he could pull his swollen cock out of her. The knot locked inside her had almost doubled in size as his cock kept jerking shooting inside her. She climaxed again which was followed by another and then another.

Sometime later the knot in his cock began to decrease until he able to pull his cock came out of her cunt. His cock came out with a loud wet pop followed by doggie cum running freely from her ravished cunt to the ground. Toby turned and licked and cleaned Norma's pussy his saliva bonding her pussy lips together sealing his puppy making cum inside her. She finally managed to stand up on shaky legs, Norma watched briefly as Toby lay down and licked and cleaned his blood engorged wet cock, and then she headed for the laundry to clean herself up, noticing that there was a little dog cum leaking from her cunt. She was satisfied for the time being. Although she knew that the satisfaction she felt wouldn't last for very long.

It was nearly 2 AM when Norma finally went into the guest room to get some sleep. Because her sexual hunger for Toby was growing she preferred to sleep in the guest room. As Stan was a heavy sleeper, but the thought of him waking up didn't impress her at all. If Stan were to wake up he would want to fuck her with his puny little cock. She wouldn't have been able to explain the amount of cum that was still in her pussy.

\*\*\*\*

It was nearly 9.00am before she woke the next morning. Stan had already left for the office. She had been exhausted after the previous night's sexual activities with Toby. Her sexual appetite had been satisfied for the time being. Going to the bathroom she showered and attended to her toiletries, taking great pains in cleaning her pussy lips and pubic hair.

For some time Norma had been considering the prospect of shaving her pubic hair. She knew that Stan would object to her having a naked pussy. The thought racing through her mind was exciting her. Sitting on the toilet with her legs spread she reached between her legs and rubbed and fingered her hairy cunt lips only to find that she was still wet from her shower. Removing her hand she brought it to her mouth and licked her fingers clean. As she was licking her fingers Toby came into the toilet and sat in front of his naked mistress. Norma could see the tip of his shiny cock poking out of its hairy sheath.

"Oh! Toby" she whispered, "You always seem to be ready, why can't Stan be more like you? Especially in the cock department. Maybe then he could knock me up."

Norma made her decision; she quickly stood up and taking Stan's shaving cream she lathered her cunt hairs, picked up his razor she quickly shaved. Once she was finished she washed the remaining her pussy and went into her bedroom laying on the bed she admired her handiwork in the full length mirror. When she was satisfied with what she had accomplished. She got off the bed and got down onto her hands and knees beside the bed and waited.

Toby had followed her into her bedroom and was sniffing and licking at her cunt when she couldn't take his tongue lashings any longer.

She said, "Now Toby."

Toby needed no coaxing he quickly mounted her wrapped his legs tightly around her waist and with one shove he drove his long cock into her bare cunt.

When Norma felt his hairy sheath pressing against her naked pussy lips she orgasmed almost immediately. On this occasion Toby didn't tie with her and as quickly as he squirted his hot cum into her and they came apart. Norma got off the floor showered and decided to do the housework and walk around naked, something she would never have considered had been Stan at home. When it came to nudity Stan had always been the ultimate prude. He wouldn't even make love with the light on and he refused to let Norma sleep naked. He tolerated no panties but total nudity was definitely out.. Norma didn't know how Stan was going to take the fact that she had shaved her pubes; she really didn't care. He had always been against nakedness.

She found out quickly enough that night. As they lay side by side in bed Stan reached out under her nightie feeling for her pussy, he was appalled when he felt her naked pussy, he quickly pulled his hand away; it was as if he had been burnt. Stan jumped out of bed and he was quickly followed by Norma. A heated fight followed where insult followed insult with the bed between them Norma felt a little safety.

"You're turning into a slut," Stan yelled at her. "You think I don't know what is going on, do you?"

"And what do you care," she screamed back at him. "All you care about is how quick you can get your puny little cock into me and empty your balls into me and how quickly you can get to sleep. You are nothing more than a little cocked bastard who can't satisfy a real woman."

Norma stormed out into the lounge room quickly pursued by Stan. As he caught up with her he closed his hand into a fist and raised it as if he was going to strike his now furious wife. Fearful for her safety Norma went to the back door and let Toby inside. The dog sat quietly alongside Norma. Stan raised his fist to her again but thought better of it as the fur on the back of Toby's neck stood up and he snarled menacingly at Stan. It was as if Toby was saying keep away she's my bitch now not yours.

Stan backed off very quickly, not wanting to tangle with Toby as Norma said, "I want a baby but it

seems you aren't even capable of that."

"Well I don't," he roared back at her. "I don't want any kid stretching your cunt out of shape or sucking your tits."

Norma walked out of the lounge room and into the guest room followed closely by Toby; she locked the door to keep Stan out.

Sometime through the night Stan packed a bag and left. Norma didn't know how long he was going to be gone. So the first thing next morning Norma packed all of her things and departed taking Toby with her.

Norma had tears streaming down her cheeks as she drove recklessly out of the driveway. She didn't know where she was going or what she was going to do. She had plenty of her own money; she didn't need any from Stan. Norma knew that the days of marriage were over forever. She knew that there were going to be some difficult questions to answer when she reached her parents farm.

\*\*\*\*

As far as she was concerned Stan was going to become nothing more than an image of incompetence, a failure as a husband and she would remember him as a man with a cock so small that satisfaction was impossible. Looking at Toby sitting in the passenger seat she knew that he could calm the raging fire in her stomach that left her yearning for a hot hard cock. Toby, since that first day had always been able to keep her satisfied. Norma had never known another man's caresses. Stan had taken her virginity. She had never known that sex was a two-way affair with a lot of give and take. All she knew was that Stan had always been all take and no give. His lovemaking had always been brief and unrewarding. Toby on the other hand was more than a lovable pet he was an excellent lover and one who could never tell anyone about their affair.

Norma came to the realisation that Stan had most likely guessed what was happening between Toby and herself. She had always been careful and her personal hygiene and her cleanliness were always above reproach. It was always the same after being fucked senseless by Toby that she had a doggie smell about her. It was the main reason that she always showered after sex with the dog.

As she drove she was thinking about the times she'd had with Toby and how it felt when the dog shoved his hot cock into her. The more she reminisced the hotter she got. Her panties were soaking wet, she could smell the odour of her own excitement. Then looking at Toby sitting in the passenger seat she saw that three or four inches of his cock was poking out. Sideways glances at Toby's emerging cock only added fuel to the fire that was burning inside her pussy. She knew that if she could smell herself that Toby also smelt her arousal.

The dog moved toward her but she pushed him away, saying "No, Toby."

That was when Norma suddenly realised that she had turned off the road and was driving toward her parents; home, six miles from the main road. Toby started howling and jumping around. She stopped the car and let him out. He made his way to the nearest tree and urinated. Norma also realised she needed to relieve herself as well. They were a mile off the main road and still a long way from the farm-house. Norma lifted her short skirt, pushed her panties down and squatted to pee.

The dog had never watched her urinate before. He bounded over to Norma stuck his nose up between her legs and started licking her pussy through the stream of urine. After she finished urinating she stood up pulling her panties up and lowered her and smoothed skirt into place. Toby's

licking had left her so hot. Unlike all dogs Toby was more interested in his mistress's pussy than in any canine bitch. By licking her pussy gave him the chance to get her really worked up and to get himself ready. As she walked back to the car Toby stuck his head up under her skirt, gripped her panties in his teeth and pulled, his attack on her panties was so swift that Norma wasn't ready. With a quick jerk Toby ripped the crotch of her panties to shreds.

Reaching the car Norma took the blanket off the back seat and spread it on the ground.

"I guess I'm not being fair to you, Toby," she whispered.

She had never had sex with Toby out in the open, it had always been when they were always either in the seclusion of the house or in amongst the shrubs and bushes in her garden. This was something different and it aroused her immensely. Norma undid her skirt, let it drop to the ground and stepped out of it. Pushing her torn panties down; she discarded them. Naked from her waist down she stepped onto the blanket and knelt down and leaned forward and supported her upper body with her arms and hands. Spreading her knees wider, she lowered her head and looked back beneath her body. Toby didn't need any prompting pushed his nose against her pussy and started licking again. She knew that her pussy gaping open, the dog was forcing his rough tongue right up into her pussy and teasing her sensitive clit.

It was Toby who decided it was time to mount his white-assed bitch. Jumping onto her back, gripping her slender waist tightly with his forelegs he nipped her on the back of the neck. He knew exactly where her hot pussy hole was, they'd had sex often enough. The moment the tip of his hard cock found her hot opening he squirted precum into her and with hard shove. He rammed his hard doggie cock all the way into her. She had never had sex with her dog in such an open area before and it excited her immensely. She felt more like a bitch than ever.

Toby forced his slightly swollen knot into her on the first shove; her hot cunt swallowed the swelling knot with ease; his knot instantly swell as pussy lips closed around it. His hot cum gushed into her, first a hot thin liquid followed by the thicker sperm laden cum. Norma climaxed uncontrollably. She could feel the pointed head of his cock pushing into the tiny opening of her cervix. They were locked together. She felt the pointed tip of his cock pushing hard against the tiny opening in her cervix. The pressure deep inside her cunt was turning towards pain, his cock lengthened and thickened deep inside her. Pulling back slightly he thrust savagely forward again, she pushed back to meet his thrust. Right at that moment the pointed tip of his hard cock found the tiny opening in her cervix. When he pushed it up into her she closed her legs and clamped down with her pussy muscles. As he filled her cunt with his cum, she felt a strange sensation deep within her abdomen, a feeling that she had never felt before.

Forty minutes later they parted, Norma retrieved her skirt dressed and getting back into the car and they continued their journey.

Norma's pussy felt full and she could feel the dog's cum oozing out of her. She felt a little pool growing in the crack that led to her arse. She was feeling uncomfortable mainly because she hadn't bothered to put any panties on and her ass was sticking to the leather upholstered driver's seat. The feeling she had deep in her stomach was something new to her. She knew that Toby couldn't get her pregnant.

Norma was scared as she was thinking, *What if Mum finds out what I've been doing with Toby. What will she say or more to the point what will she do about it?*

\*\*\*\*

By the time Norma had reached her parents farmhouse, the dogs cum had stopped oozing out, she was still sticky between her thighs and was in desperate need of a shower. Making sure that she held her composure, she got out of her car as her mother, Elsie came out of the house to greet her.

"Hi, honey," Else said. "What brings you all the way out here today?"

"I've left Stan," Norma replied. "I need a shower, Mother, can we talk later."

"Sure baby." Elsey replied.

Norma and her father, Peter, hadn't spoken for some time. He had never liked Stan. After a brief question and answer period her father retired for the night. Norma and Else got down to a quiet discussion which quickly turned into a frank sex talk.

"Alright Norma," Else said, "now that your father has gone to bed you can tell me what's going on."

"Stan's nothing but a mean miserable self-centred fucking bastard," Norma replied. "He just climbs on top of me and spreads my legs open and shoves his useless little cock up me and finishes too quickly. Besides that he's always away when I'm ovulating."

"I thought you two were very happy together," Elsey said.

"We haven't been happy for over three years; mother!" Norma retorted.

"I wouldn't worry too much your father wasn't the greatest lover in the world either." Elsey went on. "Why don't you get a lover?"

"I couldn't do that Mother," she replied. "It wouldn't be right, besides I'm still married to Stan."

"Oh, Norma, don't be silly," Elsey said. "You are young and you still need a man. Besides that I want to be a grandmother."

"That's impossible Mother." She replied. "Stan's cock is too small and besides that he's always away when I'm fertile."

On that note their conversation ended and they retired for the night. In the early hours of the morning Norma awoke with a burning urge to be seriously fucked. Not wanting to get caught she had to be satisfied with masturbation.

The next morning Norma decided to go for a walk around the property, with Toby following, she walked at a fast pace. There was urgency in her step as she headed toward the small wooded area some distance from the farm-house. At the age of eleven Toby wasn't having any difficulty in keeping up with her. His prowess with his cock had also slowed quite a lot but Norma didn't care, for as long as he could satisfy her sexual needs.

Norma knew that someday she would lose Toby. When that time came she knew she would be saddened by the loss of her ever faithful lover. She stopped and removed her top, mini skirt and panties. Her preference was to walk around totally naked. She found the coolness of the morning air invigorating on her nakedness.

Picking up and bundling her clothes she continued on her way to the wooded area with Toby following behind her sniffing and licking ass and pussy. When she reached the seclusion of the trees she dropped her quickly knelt down and got to her hands and knees. As always Toby didn't sniffed

and licked at her cunt and arse. Sensing that his human bitch was ready he mounted her and quickly shoved his cock into her waiting cunt. He drove his cock all the way into her the swelling knot slid into her and swelled to full size locking his cock tightly inside her sucking cunt.

After Toby had finished cumming in her and his cock started shrinking he pulled his cock out of her with a resounding plop. Norma stood up and wiped her cunt with her panties and put her skirt back on. Discarding her cum soaked panties she stiffly walked home. When she arrived home she found that her parents weren't there and her father's old truck was gone. It didn't worry her; she showered, dried and dressed in a clean mini skirt and blouse not bothering without panties or bra.

As she hadn't been home in quite a while, she decided to explore the rest of the farm. Going first to the pig sty then to the barn and beyond to barn to another low building which turned out to be dog kennels. They were a new inclusion to the farm. Then she saw the sign on the gate. The sign reads: *PETER'S BOARDING KENNELS*.

Confused Norma opened the gate and looked into the row of kennels. Nearly all the kennels were empty. One had a sheep dog bitch inside. Another held a huge Great Dane dog. Norma shuddered at the thought of him being loose. Leaving the barn she came to the small house paddock. In the paddock there was about a dozen merino rams and 30 crossbred ewes and few lambs.

Having finished her tour she went back to the house to wait for her parents. It was an hour and a half later when they turned up; they had been into the township to get their weekly groceries. Norma was a little disappointed at not going with them but she was also happy that Stan didn't know where she was.

Over the next few weeks Norma's the sex ritual with Toby was getting to be less and less. Toby was losing interest in his mistress. Most of her walks around the farm were on her own. Then one morning the thing that she had been dreading happened. She came out of the house looking for Toby he was nowhere in sight. She headed toward the barn and as she turned the corner she saw him lying motionless on the ground. The dog in his tenth year had died overnight. Norma was devastated.

She moped around the farm for days after. Visiting Toby's grave every morning. Often talking to the dead dog's grave. She got more and more frustrated. Masturbation did nothing for her she needed a thick hard cock in her hot itching cunt.

Elsey noticed the change in her daughter. Nothing she said or did made any difference to Norma's moods. Peter also noticed the change but said nothing. Had he taken the time to console his only daughter, he would have found that she would have been more than willing to let him fuck her arse off. Norma snapped out of her grieving one morning as she watched the stallion that Peter had recently purchased.

Norma left the house and went toward the stables. The first thing she saw was the mare tethered to the railing of the stable yard. As her father led the stallion over to the mare she could see his huge cock dangling between his legs. As the stallion got to the mare he reared high into the air his huge cock at full erection. When she saw the size of the cock and balls on the stallion. She thought, *Oh my God! They're huge. Those jewels must hold at least a gallon of cum.*

The stallion's cock was at least two and a half feet long. As he mounted the mare, his huge cock was pointing menacingly at the mare's twitching fanny. Norma got to thinking about the small cock and tiny peanuts her husband called balls. *Oh, shit*, she thought to herself as she watched the stallion's huge cock being thrust at the mare's cunt.

“Ooh! Why isn’t that me?” She asked herself quietly.

When the stallion made contact with the mare’s opening he slid forward forcing his cock all the way into her. Right at that moment Norma’s cunt released a flood of her juices which ran freely down her inner thighs. She was so horny! She needed a man or an animal with heavy-duty equipment and she needed either one badly! A glance at the way her father’s jeans stretched tight around his crotch was enough to start her cunt juicing freely again.

A little voice inside her was saying, “Look at that bulge, I’ll bet my father has the right equipment to fill all of your needs.”

Norma didn’t know that her father couldn’t keep an erection long enough to satisfy a woman. He always got hard when a stallion or bull mounted and fucked, however he quickly lost interest.

Elsey had also watched the stallion and she had taken more than interest in what her daughter was doing. She also thought she knew what Norma had been doing with her dog but she didn’t have the courage to bring the subject up for fear of upsetting and losing the closeness that she had built up over the few weeks her daughter had been home. Peter showed no sexual interest in either of the women, his sexual interest in his wife had slowed over a long period of time. Elsey on the other hand wished that she’d at least had a son at home who could maybe quell her burning desires.

The internal fire that was raging out of control deep within Norma’s body was about to be brought under control. She no longer bothered wearing panties, even when she was wearing the briefest of brief miniskirts. Most of her miniskirts were so short that her pussy lips were often open to view especially when she leaned forward. Norma no longer cared who saw her privates.

Norma headed toward the kennels. She had to know if the Great Dane was interested. The closer she got to the kennels the hotter she became and the more of her juices flowed from her cunt. Once in the kennel area she quickly got to the huge dog’s pen. Letting herself in she closed the gate behind her. The huge dog seemed to know why she was there. The dog sat in front of Norma showing some interest in her.

Norma quickly noticed an inch or so of his thick shiny cock was poking out of his hairy sheath. She also noticed the thick swelling within his sheath. Turning away Norma undid the waist band and pushed her skirt down and let it drop to the floor, stepping out of it. Her bare arse left no doubt in the dog’s mind as to why she was there. The dog came up to her stuck his cold nose against her crotch and licked soaked cunt. Norma’s legs went rubbery but she remained standing. Leaning slightly backwards she spread her legs allowing the dog greater access to her hot cunt.

The huge dog jumped up and as he hooked his forelegs over her shoulders he licked her face as he started humping at her.

She felt his hard cock jabbing into her upper thighs searching for her pussy opening. Unlike Toby this dog was big enough to reach Norma’s cunt without her being on hands and knees. The she pushed the dog away and turned around and quickly dropped to her hands and knees, she wasn’t quite ready when the big dog jumped on her back wrapped his legs tightly around her waist as he jabbed his lengthening cock at her pussy. She felt the tip of his hot cock penetrate her opening. Bringing her knees closer together she raised her arse and cunt for him. The dog thrust savagely upward as the pointed tip of his cock parted her cunt lips.

The huge dog drove his cock into Norma’s cunt with such force that Norma shrieked in pain as the dogs thick knot was forced into her. The knot stretched the inner lips of her cunt so wide that she thought he was going to tear her cunt to shreds. As his hairy sheath was crushed against her clitoris

she had first one shattering climax followed by another and another. The dogs cock erupted deep in her cunt. Norma was trapped she couldn't get away.

Toby usually took about 30 minutes to finish. The dog trapped in her cunt had been there for nearly an hour. Norma's cunt was full of cum and cock. Norma had found her new lover.

Norma's new lover was as good as Toby even though she didn't know the Danes name. He was better equipped than Toby, he had more stamina and he was a lot rougher than Toby. Once getting into the pen with the dog and being naked from the waist down, if Norma tried to move away from him he would become agitated and would jump up to nip her on the back of the neck. Having had this dog's cock embedded in her cunt Norma knew that this dog's cock was longer and thicker than Toby's was. Therefore he was able to penetrate deeper into her.

Norma had never bothered to estimate the size of Toby's erect cock. All she had been interested in was having him fuck her. The Great Dane was different. She didn't why, but she wanted to measure the dog's cock. The next time she went to the kennel she took her dressmaking tape measure with her. Before entering the cage she stripped off most of her clothes leaving only her flimsy t-shirt on. The dog was more than happy to see her especially as she was naked from the waist down. Letting herself into the cage she patted the dog on the head and spoke softly to him. Kneeling down she reached beneath him and started gently massaging his hairy sheath.

Within a few seconds she had rubbed the dogs cock to erection. Measuring from the pointed tip of his cock to the opening in his furry sheath where it had emerged from she was stunned by the dimensions of his hard cock. There were 8 inches of hot cock poking out with what she thought was more to come. It had swelled very quickly to be nearly as thick as it was long at its base. The knot in his cock was still within his hairy sheath until Norma squeezed a little harder and the knot finally emerged small at first but quickly increasing in size. His knot stopped enlarging and when Norma measured it was the size of a baseball seven inches around it. She was having trouble keeping the huge dog still.

Norma's pussy was juicing freely and the dog was trying to get to her cunt to lap them up. She had no intention of leaving the cage without having the dog in her. The huge dog started growling and snarling at her. Fearing that he might attack her she let him go. The dog got behind her, pushed his snout between her legs and licked her cunt and at the same time lifted. Norma quickly got to her hands and knees spreading her knees. The dog's rough tongue parted her hot slit as he licked her erect throbbing clit, slowly licking deeper and deeper into her to get at her juices.

Norma knew that when the dog stopped licking her that he would waste no time in mounting her. Without warning the dog jumped up mounted her and wrapped his legs tightly around her waist and started thrusting and shoving his cock at her at the same lifting her to line his cock up for penetration.

The moment the point of his cock found Norma's slit he started pumping his eager cock in and out faster, growling savagely every time she moved. Finally he slammed the entire shaft in. He was humping her with hard thrusts. She felt so full. The dog's cock hadn't this big in her cunt during their other encounters. She now had ten inches of rigid hot dog cock sliding in and out of her cunt. He continued pumping his cock in and out of her tight wet pussy seemingly stretching her vaginal wall out of shape. His thin cum squirted into her with every thrust.

"Oh yes!! Faster, faster, faster... yes!! Yes!!! Yes!!!! Fuck me, fuck me harder; fuck my pussy. Harder." She was screaming out.

The dog stopped, with the knot jammed hard against her burning pussy lips. She wanted the knot inside her as he emptied his testicles into her. The dog pulled back and wrapped his legs tighter around her waist as he jumped forward and drove his cock deep into her again. Norma knew he was going to get his knot into her. She wanted it in her so bad. She started pushing backward meeting his every thrust. The dog shoved even harder, as his huge knot slammed against her ravished pussy lips and spread them wide.

“Oh!! My God!!!!” She cried softly as her pussy opened up and accepted the knot into her cunt.

She felt her vagina close tightly around it, they were tied together with his cock pulsing and jerking deep inside her as spurt after spurt of hot sperm laden cum was forced into her. She could feel the pressure building deep inside her. She felt the pointed head of his thick cock pushing hard against the entrance to her womb. She wanted him to push harder and drive his cock right up into her womb. She wanted him to shoot her womb full of dog sperm. It was his hairy sheath brushing against her clit and the tip of his cock pressing so hard against her womb opening that finally sent her over the edge. Orgasm after orgasm raked through her ravished body.

After she calmed down a little the dog started with short fast thrusts, that had her bra-less breasts jiggling about inside her loose-fitting t-shirt. As she pushed back to meet one of his thrusts, she felt something inside her give. The pointed tip of his cock was suddenly entering the neck of her uterus. Then she felt his thicker sperm laden cum gushing into her womb as again she orgasmed again. She could feel his cum filling her and she wanted every drop she could get. She felt pressure inside her building as he emptied his load inside her. He started to try to pull back. But there was no way he could, they were tied together.

Then he suddenly turned around on her as they remained locked together ass to ass. His cock was jerking and throbbing inside her as he tried to pull out. She had another climax and another and yet another, as they stayed locked together. When the huge knot in the dog's cock finally went down and they finally unhooked from each other, about 45 minutes had elapsed. Some of the dog's cum was freely running down her inner thighs as she got shakily to her feet and let herself out of the cage, dressed and left the kennel.

Over the next few days Norma started looking at other farm animals. So far her only animal lovers were dogs and there had only been two of them. She didn't know what she was looking for. All she knew was that she wanted something more from her chosen lifestyle.

She walked aimlessly around the farm trying to regain her composure before returning to the house. Her thoughts were always the same she wanted children and she was beyond caring about who fathered them. Sometime later her thoughts turned toward her father, could she talk him into becoming her lover or even better convince him that they should live as husband and wife. The whole idea she was thinking about excited her. Her libido was raging at an all-time high. When she came out of a daze she'd been in she found that she had stopped at the pig pens. Looking into the pen she saw a young boar looking and showing some interest in her, so she reached over the railing and patted the young boar on the head. Then turning away she headed back toward the house. When she got to the house she found her father sitting in an easy chair on the veranda and her thoughts went immediately back to her earlier thoughts about him, when she saw the bulge in his pants she wondered what he was thinking about. So as not to embarrass him Norma quickly went inside.

Elsey had noticed changes in her daughter. The change she was sure of was that Norma was wearing shorter and skimpier clothing. Her miniskirts seemed to be getting shorter every day. Later that afternoon Norma was studying some papers when she knocked some of them onto the kitchen floor and instead of kneeling down she bowed over to pick them up. Right at that moment Elsey

walked back into the kitchen, she immediately saw that Norma wasn't wearing underwear and she had a clear view of her daughter's ass and bare pussy. Not wanting to embarrass her daughter she said nothing and tried to move quietly back into the passageway all to no avail, Norma knew someone was behind her.

Standing up Norma smoothed her skirt down, turned to her mother and said, "I was hoping you were daddy."

"Why Norma?" Elsey asked.

"Because I want him to get me pregnant." Norma replied.

Their conversation ended on that note when Peter walked in and asked, "What's the matter Elsie you look like you've seen a ghost?"

"Nothing's the matter Norma and I were only having women talk." Elsey replied.

Exasperated Norma walked out of the house and headed for the kennels and even though she was happy to see the dog she didn't strip off and get in with him. Instead she talked to him saying. "OH God! Why can't you impregnate me, I wouldn't care if I had pups or a normal baby."

The dog tilted his head to one side not understanding why this human bitch wasn't getting in with him.

Leaving the kennel area she wandered aimlessly around the barn and stables not stopping for any length of time in any one area. She wanted to be fucked but she wasn't really interested in being with the dog, she wanted a man.

The next morning things were back to normal. Norma arose just after 5.30 AM as she normally did. Going to the bathroom to pee, sitting on the toilet seat she let forth a great flow of urine. The strong smell of her urine was almost overpowering. As she wiped her pussy she winced because her pussy lips were quite sore and seemed a little swollen. Going back to the bedroom she lay on her back across the bed and inspected her vagina in the mirror on the wardrobe door. She noticed that her pussy lips were very red and a little swollen.

Pushing the pig away she quickly stripped her skirt off and stood naked from the waist down in front of the pig. Norma then got down on her hands and knees and crawled into the boar's domain, his shelter. She knew enough about pigs to know that when sows were in heat wanting to get fucked they were very difficult to move anywhere. They just wanted to stand in one position and wait on the boar. Trying to act like a sow but not being sure if the boar was interested or anything would happen she just waited. The boar walked around her nosed her ribs satisfied that this strange sow wasn't going anywhere. He grunted a little and looking back Norma saw the curled end of his cock poking out and twirling comparable to a corkscrew. He put his head on Norma's back and his cock lengthened twirling as it did. Looking back between her dangling tits she could see his cock dripping piggy liquid as he flexed it up and down.

Then as he mounted her, his cock lengthened as he launched his body forward sliding higher on her back. Norma felt his cock poking and jabbing at her inner thighs as he searched for her pussy opening. He lurched again and she felt his cock enter her pussy. Norma sighed as he walked ahead pushing himself further up onto her back. She could feel the boar's cock was twisting and turning its way deeper into her cunt searching for the entrance to her womb. He lurched again and farted at the same time as he rammed a few more inches of his cock deeper into her. She felt his cock dancing around inside her hot cunt searching for the small opening in her cervix which would allow him into

her womb.

He made weird grunting sounds and he stood still momentarily, flexing his cock inside her. Norma winced and squealed as the tip of his cock found the tiny opening and with a shove he drove and locked his cock in her womb. She felt his cock flex and his hot sperm laden cum gushed into her womb filling her. The boar stood still for less than a minute before he began slowly fucking his cock in and out with short movements.

Peter was working in the cow yard when he heard a loud, long squeal come from the pig pen and he thought: *Shoot, that's the new boar. What's going on with him, is he hungry?*

Peter climbed into the pig pen and looked into the boar's shelter. To his horror saw a pair of legs sticking out from under the boar's body. He immediately recognised them as belonging to his daughter. Peter's heart was pounded rapidly. *My God, he's crushed Norma. Is she dead? I told her never to wander into that pig pen alone*, he thought. He knew that these animals could sometimes be unpredictable.

"It's better to play it safe, and have someone nearby in case you need help," he had always advised both Elsey and Norma.

As he got closer, he was somewhat relieved to see that Norma's legs were moving a bit. Also, he didn't hear any cries of distress.

Finally, all he heard were cries of ecstasy Peter called to his prized possession: "Come on pig, get off of her."

But the pig wouldn't move. Why - well, when you're in a middle of having an orgasm, it's kind of hard to do anything else, isn't it? The fact was that the boar's cock was fully inserted full up inside Norma's womb. The pig and the girl were joined together cunt-to-cock and cock-in-cunt. The boar and Norma were engaging in the act of sexual intercourse. A human female and a pig copulating with each other.

Peter nearly fainted. "Is the boar raping Norma?" He asked himself.

It didn't appear that way. Norma seemed to be deep in the throes of pleasure as she softly moaned and passionately kissed boar's snout. To add to the bizarre spectacle, Peter could see that this mating seemed to be consensual. That was for sure - she wasn't trying in any way to fight him off. Peter waited - he couldn't do anything to interrupt. How could he possibly separate them, but there was just no safe way to do it. He was reluctant to call his wife over.

*What would happen if Elsey saw this*, he wondered? *It would kill her!* He just couldn't tell her. Unbeknownst to Peter, Elsey had just arrived on the scene a few minutes earlier. She was in an apoplectic state. Peter heard a gasp and turned and saw the full expression of horror in his wonderful wife's wide shining teary eyes. He went over to her and put his arms around her - he almost began to cry when their mood was interrupted by another loud and drawn out squeal and another and another. The boar was coming - in torrents!! His sperm, his semen, his cum, whatever you want to call it, was shooting from his loins directly into Norma's uterus.

The squeals seemed to never end - Peter tried to cover his wife's ears so she wouldn't have to hear those blasphemous sounds.

"Oh, how our Lord must be weeping right now!" he rued.

And then it was over – there was silence. All he heard was a few kissing sounds as Norma and the boar smooched before falling asleep from sheer exhaustion and orgasmic fulfilment.

The troubled duo carried their daughter into the house – trying desperately to clean her up and then they gave her a hot bath. They knew that they would have to wipe away the abomination from her soul. But no matter what they did Peter knew it wasn't going to be enough, he knew that there was still a lot of the boar's love juice was trapped in her womb. And her pussy lips were coagulated, with drying piggy cum for that animal shot a few last spurts after his cock exited Norma's vagina. After bathing and drying her they assisted her to her bedroom and put her in bed to sleep. With Norma asleep, Peter and Elsey talked of consulting doctors about this horrific event – but they were terrified that the doctors would have their daughter committed.

The couple decided they'd handle it themselves. They were just so afraid of what would happen if the event became known to any outsiders. They also knew that the Boar couldn't impregnate a human female, and that, in spite of the reputation of the so-called *dirty pig*, The Boar was actually, well cared for and was quite the exception to the rule. He couldn't pass on any disease to their daughter.

Another problem they faced was should they exterminate the boar? Peter reasoned it really wasn't his fault, he was just an animal doing what animals do, with anything they can do it with.

Elsey wasn't so sure. she asked, "Is this a pig a deviant?"

But there was no answer forthcoming. They chose to isolate themselves from the world and would take it from there. Another thought Peter offered to his loyal spouse was whether they should sell him for meat.

Neither could accept either option, the Boar wasn't mature enough nor was he big enough to sell, besides that he had been reared from a weaned piglet size and was like a member of the family. Another factor contributed to the fact that Norma could have intercourse with him without being crushed by a potentially massive weight. And putting him to sleep seemed to serve no purpose. It wasn't the Boar who snuck into Norma's bedroom; it was Norma who'd snuck into his pig pen, to put it into a peculiar context. So they decided they would just keep a watchful eye her so as to prevent this from ever happening again.

Well, that idea was clearly easier said than done. Crafty Norma managed to sneak away while mom and dad were sleeping and their reverie was consequently disturbed by the pig's loud squeals of sexual pleasure ringing throughout the night skies on this old country farm.

To make matters worse, Norma was clearly the seducer here. Norma craved a cock for her bedtime treat and she was right now getting all she wanted, the Boar's cock had jerked around inside her cunt until it's corkscrew like end had found the opening to her womb, (as it would have had she been a sow in heat). Norma squealed as she felt the tip of his cock entered her womb as he fully extended his entire length into her womb. Again, the frazzled hubby and wife waited until the last few throes of her sexual ecstasy to occur before intervening and taking Norma back into the house and ordering her to have long soaking bath.

This occurrence became routine. Quite soon, though, the problem became much worse. Their daughter wanted the Boar's body joined and bonded to hers whenever she could. They were so exhausted from having their nightly sleep interrupted that they now allowed her to fuck the boar during the day. Finally, Peter redesigned the boar's sty so that Norma could sleep with him whenever she felt the need to have him screw her brains out.

One good thing in all of this was that Norma still did her chores and she seemed happier than she

had in a long time. She was such an asset to her parents she was strong and very able-bodied, in spite of her *abhorrent behaviour* with the pig. Peter even speculated, somewhat wryly, the only thing different is that one of the players was of another species. In that light everything else was normal. Peter was so perplexed that he said to himself, "God, what is normal in this crazy, crazy world?!" Even nuttier still was the fact that the boar couldn't seem to get enough of Norma.

\*\*\*\*

Norma's determination turned to domination at dinner one night when, Norma said, "Daddy, you are going to get me pregnant. I can then make out that my piggy lover is the father."

It was if Norma had dropped a bombshell.

Peter sat there red-faced, for several minutes thinking about her words before he said, "Honey I can't it would be incest and that's taboo."

"That's not fair, Daddy," she replied. "You let me go and fuck with the boar whenever I liked was that legal, daddy?"

"No it's not," Peter replied. "Except the difference is, there is no chance of pregnancy."

"But, Daddy I want to get pregnant and you are the only man around here," she replied. "If I had a brother I'd let him fuck me." Norma retorted, angrily.

"That's enough, Norma," Peter scolded her, and as he stood up, Norma saw the bulge his cock made in his pants and as he walked toward the kitchen door.

*I've got you now, daddy*, Norma thought, but didn't voice her thoughts.

Later that night while sitting at the kitchen table having supper, Peter and Elsey talked again about consulting the family doctor about the horrific events that had been happening, but they were still terrified that he'd have their daughter committed.

Then Peter started talking about what had happened in the dining room. "She now wants me to fuck her," Peter said.

"I know she does, so what are you going to do about it?" Elsey asked.

"I don't know" he replied. "It's not right I'm her father and what she wants me to do is illegal."

"So what, she really wants to get pregnant and she doesn't care who the father is going to be." Elsey jibes. "Remember she is our daughter and you are still a sexy and desirable young woman. Would you want her to go into town and jump into bed with the first man she meets and possibly end up with some disease?"

"No of course I don't; but, it's still not right, and I won't do it to her," Peter said.

"Peter!" Elsey snapped. "Just shut up and listen to me for a change, I know it's not right and we all know it's illegal. You also know that I have lost all interest in sex. I also know that you are still interested. I've seen the way you look at Norma, especially after you have been working with the stallion. And I know it isn't easy on you when she walks around half-naked some of the time, and completely naked at other times. And I have watched you masturbating many times since Norma has

been here."

During their talk, Norma had gone for a walk. She had often heard her parents talking, but she had never heard her mother yell at her father before and she was a little embarrassed when she was the main topic of their heated conversation. Without realizing it Norma found herself alongside the boar's sty.

She wasn't interested in climbing into the sty as the young boar came running toward her, she said, "No not this time, mister piggy, I have someone in mind and you can't do what he can."

The boar just cocked his head to one side as if he understood what she was saying.

Norma left the pig sty and went back to the house and headed toward her room, on the way she had to pass the bathroom. The door was half-open and she saw her father standing in front of the wash basin with his pants and undies down around his ankles. Norma gasped as she caught the reflection of her father's thick cock in the bathroom mirror, she had never seen a man jack off, not even her soon to be ex-husband, but then Stan didn't have a cock big enough to really satisfy any woman.

Peter was almost at the point of ejaculation when he heard a stifled gasp behind. Looking up quickly he caught a glimpse of Norma's sparsely covered ass vanishing from the doorway. Norma didn't get a good look at her father's massive cock, but what she had seen in the mirror made her mouth water and her pussy juice all at the same time. She quickly went back to the kitchen and sat down opposite her mother at the kitchen table.

"You look like you've seen a ghost," Elsey remarked.

"Daddy's got the biggest cock I ever seen," she said, "It has to be at least nine inches long."

"Closer to ten; I think," Elsey replied, quietly.

"Daddy didn't know I was there, mum," she said. "He just stood there rubbing his cock like crazy. I couldn't look away."

They sat there in silence momentarily until Elsey finally broke her silence and said, "What if I could arrange it so that you could get your father to fuck you, would you like that?"

"Yes, mum, I would." Norma replied. "I have already tried to talk him into it but he won't listen to me."

"Oh! He will, fuck you," Elsey replied. "And that's a promise I can keep."

"How can you do that?" Norma asked.

"Just trust me," Elsey said. "I'll let you know when the time is right."

"Here's what I want you to do," Elsey said, "I know you like wearing the skimpiest of clothes, so why not flaunt your naked body at him every chance you get."

"Do you think that will work, mom?" Norma asked.

"Yes I do," Elsey replied. "Besides that I have seen how he looks at you with nothing but a terrible lust in his eyes."

"What do you see in me?" Norma asked.

"I see you as our beautiful daughter," Elsey replied tenderly.

Norma followed her mother's instructions over the following five days. At every chance she got. She made sure that her father saw her in her glorious nakedness and at time by bending over in front of her father giving him a full view of her ass and pussy. By the evening of the fifth day; Norma could see the effect that her nakedness was having on her father, the predominant bulge in the crotch of his pants seemed to get larger every time she saw it.

Elsey noticed a definite change in husband's attitude toward their daughter; it seemed to her that he was softening in his attitude and showing more interest in their wayward daughter; also he had given up chastising her because it didn't do any good. All his chastisements seemed to do was to make her more determined to break down his resistance toward her advances.

\*\*\*\*

After the fifth day of flaunting her naked body to her parents; more specifically to her father Norma took her actions one step closer to success. As she was passing her father in the passageway she reached out and briefly rubbed his bulging cock. Peter was stunned at the sudden turn of events. He realised that what Norma was doing was going to end in an incestuous relationship whether he liked it or not.

When Peter entered the kitchen with his eyes bulging and red-faced he confronted Elsey. "I don't know what has gotten into our daughter," Peter said.

"She knows what she wants, Peter," Elsey remarked quietly. Pointing directly at Peter's tented trousers. "And you know quite well what that is; it's you and what you have down there and there was a time when I enjoyed it as well."

"Well I'm not about to give into her to give her what she wants," Peter answered. Then with a sigh he took a sip of his coffee as Norma casually walked into the kitchen still totally naked.

As Peter stood up, Elsey said, "Oh for god sake Peter sit down,"

Taking no notice Peter picked up his coffee and went out the door to the veranda and sat down.

"Mom," Norma said. "Dad will never relent and give me what I want, will he?"

"Oh yes he will," Elsey said. "I can see his resistance is weakening even if you can't see it."

"But mother, how can I win with him?" Norma asked.

"Wait till your father goes for his shower," Elsey replied. "Then you can sneak into the bathroom and get into the shower with him and if I know your father he will already have an erection, once you get in with him you just need to reach out and take his cock in your hand and stroke it. Then the rest will be up to you, but you must become the dominant one."

Later in the afternoon, after he and the still naked Norma had finished all of the chores together, Peter entered the kitchen, followed by his naked daughter, he said, "I am going for a shower."

"Here's your chance, Norma, the rest is up to you. Don't waste this opportunity" Elsey whispered as Peter headed for the bathroom.

Norma left the kitchen and went to the bathroom door and crept in. Peter heard someone enter the bathroom but he couldn't see who it was through all the steam.

"Who's there, is that you Elsey?" he asked.

"Just me, Peter," Norma whispered as she stepped into the shower. "I thought I'd join you in here."

"Norma! I don't think this is a good idea," Peter said, as he attempted to hide his throbbing erection.

Looking down Norma said, "This looks like this its real glad to see me, Peter."

"Norma," he said, "We shouldn't be doing this its wrong."

Norma just looked at him and said, "I've lost count of how many times you've said that to me; daddy. But this time it isn't going to put me off."

Then without any warning she grasped his throbbing cock and pushed it down, and at the same time she moved closer his cock slid neatly between her thighs, the movement was so quick that Peter didn't have the chance to ward her off. With his cock nestled tightly between her thighs she reached up and wrapped her arms around his neck and kissed him passionately, as she moved her hips back and forth along his cock. Several seconds later he groaned and Norma suddenly stopped and let go, stepping back from him, she knelt down grasped his cock and started kissing and licking the swollen head. Just as he started to moan with pleasure, Norma stopped, looked at the elongated piss slit, then stood up and walked out of the shower savouring the taste of her father's pre-cum.

As she was towelling herself off, she said, "Well, daddy you know you are going to join me, don't you?"

Then once she was dry she walked out the bathroom door and entered her parent's bedroom and flung herself crossways onto her parent's big double bed, her father walked in still naked after his shower and stood just inside the door, his cock still erect and pointing upwards.

"Come on. Daddy; don't be bashful, this is all for you," she said.

She spread her legs and held her pussy lips open and fingered her clitoris.

Peter walked over to the bed and stood in front of Norma and stared down at her pussy as she frigged herself. His thoughts switched to the male farm animals sniffing females of their species and watched dogs licking a bitch's cunt and also licking their own cocks. He couldn't reach his own cock so that was out of the question. He had read about men kissing and sucking a woman's pussy. He had approached Elsey, many years before, but her answer was an emphatic *NO* because she decided that it was unhygienic.

Thinking about it, he wondered if his naked daughter would be receptive to oral sex, not bothering to ask, so he dropped to his knees took hold of her knees and spread them as wide as he could and pushed his face into her cunt. Pushing his open mouth against her opening he kissed and sucked the moist tissues, she giggled and told him it tickled. In less than a minute his lips and tongue caused a series of bubbly moans, to escape her lips. Every time his tongue flicked her sensitive clit she squirmed and squealed loudly.

"Oooh Daddy you're wonderful please don't stop!!" Norma screamed out.

Norma's scream and pleading bought Peter back into reality, pulling his mouth away from Norma's

pussy and letting go of her knees, he stood up.

"Norma, this is still wrong," he said. "Are you sure about this?"

"Yes Daddy I am sure, I wouldn't be lying here as naked as a jaybird like this if I wasn't" she replied.

Raising her upper body she grasped his shoulders and dropping back she forcefully pulled him on top of her, Peter knew he had lost the fight against his incestuous daughter as the bulbous head of his thick cock pressed against her hot pussy slit. Unable to resist her advances any longer and as he shoved his hips forward, her cunt opened out around the bulbous head of his thick cock and it slipped into her. The feeling of her hot labia surrounding his cock head gave him the feeling of excitement that he hadn't felt in a long, long time.

Unable to resist temptation any longer he lifted Norma's ankles up onto his shoulders and gripped her hips and thrust his hips forward; the movement was so sudden that his whole length speared into her well lubricated pussy. Norma gasped and held her breath as she felt the walls of her vagina stretching to accommodate his larger than normal cock head and shaft. Norma looked up at her father's face, and she saw a look of love and tenderness that she had never seen before. They were so wrapped up in their incestuous way that they unaware that Elsey had been standing in the doorway the whole time, watching them from the time Peter had entered the bedroom completely naked. She stared wide-eyed, as she watched as her spouse's thick cock vanished into their daughter's cunt. With her face was flushed and her nipples stiff and tingling, she felt an excitement between her legs she hadn't experienced for many years.

Elsey walked over to the bed and whispered, "Holy shit! Norma I didn't think you could take it all. I couldn't take all of it until after you were born."

It was then that Norma realized that Peter's thick knob was so deep inside her it was pushing against her cervix. Then he started pumping his thick cock in and out of her at first slowly gradually getting faster and faster, and then when he felt his scrotum tighten he knew he was on the verge of ejaculating into his daughter's body.

"Norma, I have to pull out of you before I cum," Peter said.

"Oh no you don't, daddy," she yelled at him. "You're staying right where you are."

Then when felt his cock pulsing and flexing inside her cunt and she knew he was almost ready to rocket his baby making juice into her.

"But I have to, I just have to," he said as he continued thrusting his cock in and out. "If I keep going I will probably make you pregnant."

"Ohhh Daddy your cock feels so good and I'm not going let you to stop," Norma cried out. "So please don't stop."

Peter again reached for and held her hips as he thrust his hips forward again, no longer making any moves or signs that he wanted to pull his cock out of her cunt. Peter now actually wanted to fuck her; he wanted to fill her with his spermy stuff.

"Go for it, Norma," she heard her mother say. "Suck him dry."

Looking down at his daughter he saw her twisted face and clenched teeth as she groaned then screamed, "I'm cumming, I'm cumming."

Although Peter was lost in the passion and excitement of fucking his only daughter, the feeling of her cunt around his cock and the fact that she wanted him to impregnate her, was more than he could handle. At that point he couldn't have stopped the orgasm that was already its way.

Norma felt his cock swell, twitch and jerk inside her until he spat his thick creamy load into her, spasm after spasm pushed more cum out of his cock into her cunt. As he did, he could feel the head of his cock pressing tightly against the opening to her uterus, as he ground his hairy groin against her shaven cunt.

"Keep it up her Peter, pump your cum into her," Elsey said. "See, Norma, I told you he couldn't resist you for very long," Elsey remarked.

"Thanks, mom," Norma replied. "I think the timing was right, mom because my next period is due in four or five days."

As Peter pulled his wilting cock out of her cunt and stood up, spun around and lay across the bed alongside her. Norma drifted into a daydream, relaxed and contented; knowing that her father had taken her. It had been nice to screw so vigorously. With his sticky semen between her inner thighs, she rubbed them together as she lay in her half awake, daydream.

Peter just lay there feeling remorseful and sorry for not stopping himself from cumming inside his daughter's vagina. Elsey on the other hand was ecstatic at the prospect of maybe becoming a grandmother.

Some fifteen minutes later Norma stood up and went into the bathroom and prepared to take a shower, and when Peter heard the water running he got up and joined Norma.

Norma reached down and gently handled Peter's hardening cock. "I guess mom was right when she said once you tasted my goodies, you would be hooked Daddy," she whispered in his ear.

"Yes I guess your mother were right all along," Peter said. "But I still think it's wrong."

"Oh stop worrying daddy, no one is going to find out, because I won't tell and I'm sure that mom won't either." Norma said. Ten minutes later they were dry and laying naked side by side on the double bed with Norma stroking peter's hard cock while Peter fingered Norma's cunt lips.

"Alright Norma," Elsey said, "This is now your room, so I'll move my stuff into yours and Peter, you and Norma will live as husband and wife whether you like it or not."

Norma spread her legs and beckoned Peter to get between them as she said, "Come on, daddy, fuck me again."

Elsey looked on, happy that her husband's revulsion towards sex with their daughter had weakened.

So it was with Elsey's permission Norma and Peter made love several times through the evening and early morning that eventful day and night. From that day on all of her thoughts and escapades with animals ceased, she had a new man in her life even though he was her father. Her only interest was how long it would take her husband/father to get her pregnant.

The next morning Norma was warm and snug in bed, and she had just been loved. She pulled a pillow over her head and listened to the vague sounds in the bathroom next door, where her father was getting ready to work outside. She drifted back into sleep, relaxed and content, knowing that her father loved her and wanted her as much as she wanted him.

Their incestuous lifestyle would continue to broaden from missionary sex to doggy style sex over the next few weeks. Six weeks after they had consummated their incestuous affair, Elsey discovered the truth when he was passing the bathroom and heard Norma throwing up in the toilet, looking through the door Elsey saw Norma on her knees with her head in the toilet bowl.

Elsey smiled as she headed for the kitchen where Peter was having coffee, standing alongside him she said, "It didn't take long to get her pregnant, did it?"

"You don't mean she's pregnant, do you?" Peter asked.

"Oh yes she is," Elsey replied.

"How are we going to explain the baby after the birth?" Peter asked.

"We'll think of something, when the time comes." Elsey replied. "Besides that I suspect that you are not the only one around this area that is sleeping with their relatives."

"It still doesn't feel right." Peter said.

"Get over it Peter," Elsey snapped at him. "I don't hear you complaining when you are sleeping with her and treating her as your wife."

"That was your idea, anyway wasn't it," Peter replied.

Their conversation ceased as Norma re-entered the kitchen and said, "It must have been something I ate mom."

"When was your last period Norma?" Elsey asked.

"Six weeks ago mom." Norma replied.

"Well that's the answer then you are pregnant." Elsey said.

Norma sat quietly for a few moments and then said, "Thank you, Daddy."

Peter just sat there in silence

The months passed slowly for the twenty-eight year old Norma.

\*\*\*\*

When she was in the sixth month of her pregnancy the inevitable happened, Stan, her estranged husband turned up on the farm with his latest girlfriend a petite nineteen-year-old.

Getting out of the car he confronted Peter and asked, "Where is that slutty wife of mine?"

Right at that moment Norma walked out onto the veranda and confronted him. Stan took one look at her swollen abdomen and said, "So you finally did it you got knocked up you stupid bitch. Who's the father?"

"It's definitely not you; you little dick bastard." Norma retorted.

Stan's latest girlfriend was standing by the car trying not to laugh at the tirade going on between Stan and Norma.

"Where are you from, honey" Norma asked.

"From the office where he works, I'm supposed to be his secretary and confidant." She replied.

"What's your name honey?" Peter asked.

"Georgina," She replied.

"Well Georgina you can stay here for the night and we'll take you to the bus station tomorrow morning to catch a bus home." Peter said. "And as for you Stan get back into your car and leave right now."

When he saw Elsey standing the doorway with a double barreled shotgun pointed at him, Stan quickly got back into the car and sped away. He made it safely to the main road but not back into the township, he was involved in a head-on collision with a heavily laden semi-trailer, his car was written off and Stan died instantly on impact.

True to their word Peter, Norma and Elsey drove Georgina to the bus station on the way Elsey asked, "Georgina why did you become involved with that idiot Stan?"

"He seemed nice when I first met him," She replied. "But he isn't much in bed."

"What makes you say that?" Norma asked.

"He certainly isn't the greatest lover in the world because he couldn't satisfy me." Georgina replied.

"That's why I left him." Norma said.

They were at the crash site when the police were stopping everyone at a road block .

"Do any of you people know a Stan Miles?" The officer asked.

"We all do," Peter replied, "he is my son-in-law or should I say was because my daughter is divorcing him."

"Follow me," the officer said. "There's something you may be able to help us with."

Arriving at the police station Peter went inside and identified the broken body as Stan Miles.

Then with Georgina safely on the bus they returned to the police station and made the arrangements for Stan's funeral. Five days later Stan was interred in the local cemetery. There would never be a head stone on the grave.

Two months later another man turned up on the farm. When Elsey answered the door he asked for Norma Miles.

"Who are you?" Elsey asked.

"I am Stan Miles solicitor, Simon Banks." He replied.

"Yes Norma's here," Elsey said, "what do you want with her?"

"I have a will here, can we discuss it inside?" he asked.

"Yes we can, come in," Elsey said. "Sit here for a minute."

Simon Banks sat down. Once he was settled Elsey went to Norma and Peter's room and told Norma to get dressed and come into the kitchen. When Norma entered the kitchen she recognised Simon Banks immediately.

"What do you want, Simon?" Norma snapped at him. "Stan's dead and good riddance I say."

"He left a will," Simon said. "And it names you as his beneficiary."

"Why should I care?" Norma retorted. "I left him because he wasn't man enough to admit his short comings and I knew he was threatening to change his will."

"He knew about your application for divorce proceedings and he was determined to reach reconciliation with you." Simon said.

"That was never going to happen, I wanted babies and he didn't." Norma retorted again.

"Alright," Simon said, "let's get down to the facts; if you hadn't left he was willing to consider fathering kids."

"I'm sorry to say it, Simon but the only thing he was interested in was how quick he could finish having sex and get to sleep," Norma retorted hotly.

"Alright, let's get down to the will," Simon said. "The first item is the house it is yours to do with as you wish, second is his bank account containing five hundred thousand dollars. Next was that the furniture should be donated to charity and the last item is that the shares he held in the company he worked for should be sold, although the decision remains in your hands."

Norma thought for a while and then said, "I don't know what to say. And in saying that I think the shares should be kept for my children's futures."

That ended the conversation. And Simon banks left to finalize the contents of the will.

\*\*\*\*

A month later the will was finalised and Norma was several hundred thousand dollars richer and the share value wasn't known although Norma had a thirty per cent holding. She was offered a position on the board of directors which she refused.

\*\*\*\*

Eleven months after Peter and Norma's first love session Norma's labour started then in the middle of the night her water broke saturating her side of the double bed. After seventeen hours of labour, their baby a daughter was born with Elsey acting as a midwife. They named her Amanda. Eight weeks after the birth they resumed their love-making with a fury that Peter had never experienced with Elsey.

"When is all this going to stop, Norma?" he asked.

"When we have a son to help you around here," she replied. "Come on, daddy, I'm ready."

Within seconds of entering Norma's pussy Peter was shooting his baby laden cum into her cunt again. Norma groaned as she shuddered through a second and third orgasm.

As Peter pulled his limp cock out, Norma said, "I think I'm knocked up again."

However Norma was wrong it took several weeks of sexual activity before she got pregnant again and when she told her father, he couldn't have been happier.

Eight and a half months later Allan their son was born.

\*\*\*\*

A year later twin girls Cheryl and Helen were born.

After the birth of the twins both Peter and Elsey suggested that Norma go on the pill.

Norma flatly refused and said, "At thirty two I'm still young enough to get pregnant and at fifty-five, daddy you are still a young man in my eyes." Peter's face reddened at his daughter's remarks while Elsey laughingly said "I know you are still interested in Norma because I have watched you rubbing your cock through your pants every time she flashes her ass at you."

"Maybe I'm getting too old to satisfy you, Norma," Peter said.

"Daddy, I just told you that you're still a young man in my eyes," Norma said.

\*\*\*\*

Over the next two years Peter's sexual appetite had flagged to three and sometimes four times a week; however Norma was hopeful of getting pregnant again. Then the inevitable happened Norma missed another period and nine months later Adam was born. Elsey had played the midwife for all of the births and not only was she the children's doting grandmother; she was also their baby sitter and son became their school teacher.

All five children were home schooled and did their exams on computers. Their exam papers were set by the home schooling group and were identical to the rest of the country's exam papers.

Norma's sex drive had always been insatiable and after the birth of her second son, at the age of thirty-six, her sexual appetite seemed to increase, and at fifty-nine Peter's sexual activities was slowly decreasing their father daughter relationship wasn't as sexual as Norma would have liked it to be.

All through their young lives and into their teens they were unaware that their father was also their grandfather. Nudity with the children around had become a thing of the past.

Amanda in her mid-teens had gone from a gangly youngster into a well-developed teenager. Allan on the other hand was muscular and well-proportioned and had taken to farm life easily. The twin's only thoughts were for their dolls and doll prams and often let Adam join in with them in their games.

Elsey having learned from her lack of teaching Norma about sexual matters when she was growing into womanhood had no misgivings about including sex-education into her grandchildren's classes.

Then the time came when home teaching for Amanda and Allan was no longer viable, so they were enrolled in secondary schools, Amanda went to an all-girls school whilst Allan was enrolled in an agricultural college where he excelled.

Cheryl and Hellen continued their education at home and were up to the level of normal schooled six graders. While Adam level of education was equivalent, to grade three; so Norma decided to send to a local school so that he could mix with boys his own age.

By going to the local public school Adam made friends with several boys and one girl in particular in his class, Melissa. None of the boys knew anything about Adam's and Melissa's parentages. While Adam was the offspring of a father daughter relationship he was unaware of it and Melissa was the result of her mother's rape by an uncle when she was nineteen. It came to pass that even though they didn't know each other's background and upbringing they each formed a bond that would bind them as close friends all through their schooling.

*The End.*
