## BEASTIALITY STORIES

## Chapter One

It felt weird going to work after quite some time not having a job. No gym in the morning. No flirting with Toni. Sadly, no Randy as well. However my new job was training dogs to mate with humans. I had watched those videos. You know the ones. The dogs run around not knowing what is going on. Videos where some guy has to physically push the dog onto a woman. Of course there were those where the woman is moaning and dog hasn't even entered her. Fake, all of it fake. I was determined to make sure that any dog I trained was the real deal. I wanted it and I suspected Cindy, the boss, expected it.

She had bought two new dogs, both black Labradors. They had never been trained before so I was starting from scratch. Cindy had given them names. One was Roger and the Brad. I laughed when she told me they were the names of two past boyfriends. "I hope the dogs fuck better than those two guys" she said. Having seen the crap passed off as bestiality in videos I decided that the first job was to make them comfortable with me. From day 1 I fed them by hand to get used to me. Then I spread pet food on my hand and got them to lick it off. They enjoyed that and after three days they would come up to me wagging their tails and looked excited.

After work I would meet up with Toni at the end of her day. We would work out together and then head home to have dinner and engage in passionate love making. She always made me feel so good. Back at work, and with the dogs eager to lick my hand, I slipped off my knickers and spread the pet food on my pussy. Roger was particularly eager and actually pushed me to the ground. I was hoping he would go further but he just licked of the pet food and wandered off. Brad, on the other hand, lapped up the pet food but kept on licking. I guess by then I was getting very wet and my scent was stronger. "Oh Brad my lovely boy" I moaned "we are going to have so much fun".

By Friday I had both dogs licking my pussy without the pet food. I reported this to Cindy and she got very excited. "I have another dog coming tomorrow" she said "he has been partly trained but is a bit of a hand full. He is a Great Dane called Oscar. Do you think you can handle him as well as the Labs?" I nodded enthusiastically. I had seen a video of a woman with a Great Dane. As well as being a big dog he was very energetic and his doggy cock was huge. My pussy tingled just thinking about it. "Now Beth you mentioned you would like to buy a dog" Cindy continued "are you still interested?" "Yes" I said "very much so. Both I and Toni are very keen". "Ok" replied Cindy "let's talk next Monday honey. I am sure we can come to some arrangement". I had no idea what she had in mind but whatever it took I would do to get a dog of my own.

Saturday morning Toni suggested we go shopping. A good idea as we needed groceries. We had a work out first and then hit the shops. We got the necessary items and Toni suggested we have a cup of coffee. We sat down and she seemed uneasy. I was wondering what was up. "Remember you told me about Becky and that giant strap-on?" she said "it sounded so exciting". Her eyes were sparkling and her face was turning red. By heavens she was turned on by it. "I was wondering, umm, you know" she began. I smiled. "You want to be fucked by a big dildo don't you" I whispered. She went ever redder and nodded. "Ok" I said "I don't know where you would buy such a thing but I will check around". Of course I knew. The same place I had bought my vibrator. But I thought I would tease her a bit before I magically found what she obviously wanted.

Toni had bought her vibrator on-line but I had bought mine from a toy shop. A REAL toy shop that had a secret. While selling toys and games in the front of store the owner had put in a false wall at the back in that section he sold sex toys, etc. He thought it was funny that he had kid's toys in the front and adult toys in the back. I told Cindy I had something to do at lunch time and needed an

extra half an hour. She said ok so as soon as 12pm arrived I hurried off. Fortunately there was no one in the shop and the owner, Derek, knew I wasn't there to buy a jigsaw puzzle. Unlocking the door he let me into the back room. I knew what I was looking for and grabbed a 10" dildo with harness. I took off the tags and put the "items" in a bag. I came out, handed the tags to him and paid for my purchase. He smiled "enjoy honey. Come again" he said.

The afternoon I spent working on the two Labs. Brad continued to show interest and Roger was slowly starting to also show signs. I started to think about Toni's reaction to my new toy. I could feel my pussy twitching in anticipation. "I need a cock" I said to myself. I called Brad over and began to rub the sheath until his cock began to show. "Come boy. Let me show you a secret" I whispered. I had already removed my knickers. I decided missionary position would be best as I could take control. I pulled him on top of me and reached down and began to stroke the tip of his cock. It grew quickly and he began to hump my hand. I smiled "good boy" I said "let's see if you can back that up" and I pulled him up further until the tip of his cock was rubbing against my pussy lips. He trust forward and growled. "Yes boy, you can feel it can't you?" I sighed.

Brad the Lab was so close to fucking me but he wasn't fully trained. After an initial interest he broke away and stood looking confused. I imagine he couldn't understand what this strange animal (me) wanted. Frustrated as I was I placed him back in his cage. I went back into the breeding room and got myself off before I settled down. Both Brad, and to a lesser extent Roger, were both now trained well enough to lick pussy on command. I had learnt from my experience with Randy that a pat on the head was the best signal to get a dog started. Once they picked up the sweet smell of a wet and ready pussy it wasn't too difficult to go the whole way. Once they knew your pussy was ready they would be ready too. It was just practice, practice, practice until it became second nature.

I finished work and went to the gym to work out. I didn't say anything to Toni about my shopping trip. I would get her worked up and then spring my surprise. I must admit that seeing her made me so wet. By the time we got home my knickers were soaked. I just hoped I could keep my hands off her long enough to put the strap-on on. We had dinner and Toni remarked that my nipples seemed to be erect. "A good day at work?" she asked. I told her about the two dogs and how they were enjoying licking my pussy. "I can understand that darling" she said and winked at me "I just love licking that delicious pussy". "Well then, maybe I will let you if you are a good girl" I said and chuckled. "And what do I have to do to be a good girl?" she asked. "Well for a start you can get naked and wash the dishes" I said. She looked at me a bit shocked. "You want me to wash dishes Naked?" she exclaimed. I laughed "of course I do sweetheart" I said "like a slutty maid".

She stripped off and started to clear up. "I will be right back" I said. I rushed to the bedroom, stripped off my clothes and retrieved the strap-on from my bag. I put it and looked at myself in the bedroom mirror. "Oh shit I look so hot" I said out loud. I walked back to the kitchen and stood there. Toni hadn't heard me. "Toni" I said and she turned around. Her eyes bulged, her mouth fell open. "Fuck Beth. Oh shit" she cried.

## **Chapter Two**

*Beth gets her perfect job. Working as a dog trainer. But Toni doesn't want to be ignored either. Beth has a special surprise for her.*

I stood naked except for a 10" dildo strapped around my waist. I walked up to Toni who seemed in a state of shock. "I thought I told you to wash the dishes" I yelled "you haven't even started. You are very naughty and you know what happens to naughty girls don't you". I think she was speechless. I

turned her around and lent her over the kitchen bench and smacked her bum. She squealed so I did it again. "Spread your legs" I told her "spread them wide". I looked down on that lovely arse and her glistening pussy. My God, she was already getting wet. I rubbed the end of the dildo along her pussy. "Tell me what you want, you horny slut" I growled. Without hesitation she found her voice and said "fuck me Beth. Fuck me NOW".

Dipping slightly I aimed the dildo into her gash. She squealed. I had only pushed in maybe two inches but she was so ready. I started to press harder and each thrust pushed another inch or so into her love tunnel. "Oh Beth" she moaned and gripped the bench. Another couple of inches and she started to moan loudly. "Yes I am a bad girl. Bad girls deserve to be fucked hard" she yelled. I didn't need any more encouragement. Grabbing her hips I gave the last few inches and held it there. Her body quivered. "Fuck me" she screamed "I want it" and I began to hump her like crazy. She squealed, she moaned, she babbled obscenities as I worked her over. She began to push back against my thrusts. "Oh God Beth that feels so good" she mumbled as she had her first orgasm.

It was almost 10 minutes before I pulled that dildo out of her punished pussy. She turned and kissed me. "I love you darling" she whispered. I took the strap-on off and placed it on the bench. I did help her with the dishes and she kept glancing at the dildo and moaned. I had a feeling that it would get plenty of use. I hope she would use it on me if the occasion presented itself. Right now her pussy was tender and there was no more shenanigans that night.

My work with the dogs was paying dividends and ever Roger was showing promise. Time to show them what to do for real. I got the Rottie out of his pen and then the two "trainee" Labs. I tied the Labs up in the shed and concentrated on the Rottie. Knickers off and I had him lick me while staring at the Labs. They were getting excited and tails wagged. I then knelt down over the bench and the Rottie mounted me. Like a real pro he found his target and thrust into me. I squealed as I felt him inside me and looked over at the Labs and began to moan. They were certainly taking it all in. "See how this bitch likes doggy dick" I said "wouldn't you like to have this bitch too?" They both looked at me. I was hoping the answer was "yes please".

The Rottie disengaged and gave me a couple of licks. I put him back in his pen and returned to the Labs. I stood in front of each of them and pat their heads and each of them licked me. Brad was very excited and I was about to untie him so I could see if he learned anything when Cindy came into the shed. "How are the boys?" she asked. "I have just shown them what is required of them" I said "I think Brad might be getting the idea. I was just going to check". "Belay that honey. That bloody Animal Inspector has just arrived with his wife" she said, showed her displeasure "he will want her to take a dog and he will want to fuck me. The price of survival my dear. Just stay out here and I will send her to you. OK?" "Yes fine Cindy" I said. I hurriedly put the two Labs back in their pens. Just in time as our guests appeared. Apparently Cindy had said she had an employee and they wanted to check me out.

"Very nice" this voice said and I turned to see a couple standing by the shed door. Cindy said "this is Beth. She will take care of your wife Gus". "Maybe she can also take care of me Cindy" he said, leering at me. "Oh Gus, I couldn't allow that. We have so much fun together. Come along honey. I already horny" said Cindy and led him away. I turned my attention to the wife. "Hello, I am Beth" I said. "Hello. I am Claudia" was the reply. Claudia was my height, mid-30s like me and very shapely. Her top revealed what was obviously a pair of enhanced tits. "Do you have a preference?" I asked. "Oh you just pick a dog. I really don't care which one" she said "I only do it to please my husband". "Have you ever had the Rottie?" I asked. "No, I haven't" she replied. "Well come along and I will get him. He is wonderful. I always enjoy him myself" I said. She looked surprised. "You like it with dogs?" she queried. "Oh yes Claudia. I love it" I replied.

I got the Rottie and I hoped he had recovered. I didn't need to worry. Claudia took off her knickers and immediately knelt over the bench. The Rottie saw her arse bare and waiting and immediately mounted her. She screamed and shook her head as he soon found her opening and filled it. She gave low groans but it was obvious that she wasn't really enjoying it. By the time he pulled away she was flopped over the bench with tears in her eyes. I was a bit worried. "Are you ok?" I asked. "Yes I am fine. Now I can tell my husband that I was fucked by a dog". I began to ask questions. "You are not really into it are honey?" I asked. She stood up and leaned against the bench. "No Beth. I just do it because my husband wants me to". "So have you told him?" I asked. "No he would be really upset. He doesn't care, he will be in the office fucking Cindy".

I could see the tears welling in her eyes. "Tell my Claudia, does he lick your pussy? Lick your clit?" I asked. "No he doesn't do anything to me. I suck his cock and he fucks me. That's it" she said. "So Claudia would you like ME to lick your pussy? Lick your clit? Make you cum?" I asked. She started to smile and then checked herself. "I am not that way inclined" she whispered, as if not thoroughly convinced. I knelt down and lifted her skirt. Her pussy was oozing dog cum. "Mmm very nice" I said "I like pussy and I would gladly showed you what my tongue could do. Your husband will never know sweetheart. It will our secret". "No I couldn't" she gasped but made no attempt to cover up or pull away. "I moved closer and flicked my tongue over her pussy and clit. She gasped and then moaned. "Please Beth I am not like that" she cried. I stood up and kissed her. If you ever change your mind just let me know. I grabbed a piece of paper and a pen and wrote down my phone number. "Remember sweetheart" I whispered in her ear "I will make you cum and cum and your husband will never know. Now take this towel and wipe your lovely pussy, put on your knickers and tell your husband you were fucked by the Rottie and loved it".

She smiled and put her knickers back on. Straightening her skirt she said "thank you Beth" and leaned over and kissed me. For someone who was "not that way inclined" I had a feeling that I would soon get a phone call. We walked to the office and Gus had a big smile on his face. Claudia smiled broadly. "Did you have a good time" he asked. "Yes Gus. Beth here got out a Rottie and he mated with me. It was very nice". He seemed satisfied. As they were leaving Claudia looked over her shoulder and winked. "Oh yes" I thought "I will definitely get a phone call". "Thanks for taking care of her" Cindy said "that gets him off my back for another month. At least the creep only lasts 5 minutes. Pathetic". I laughed "yes from what Claudia told me he is pretty useless" I said. "My, you really got to know her hun. But I don't think she is gay". I smiled and walked back to the shed. If she rang me I would make sure she had a day to remember.

### **Chapter Three**

*Beth surprises Toni with a toy. At work she continues the training but is interrupted by visitors. Will there be more adventures ahead?*

That night I told Toni about Gus and Claudia. "Poor Claudia" I said "she only gets fucked by a dog to please her husband and she lies and says how good it was". "You can't get involved honey" Toni warned. "Well I gave her my phone number. I think she would like some real fun" I said "you and I could show her how sex can be fun". Toni laughed "well you are very bad and you know what happens to naughty girls?" she said. "No I don't know" I said, playing dumb. "Well they are made to get naked and get on their hands and knees and be punished". "Oh dear. Punished how?" I continued the ruse. "Well someone might fuck their naughty pussy with a huge cock" she said, her eyes getting bigger. "I don't believe you" I said. "Right" was the response "come with me". For the next half an hour Toni fucked me twice with the strap-on and made me suck that dildo. We certainly slept well that night.

My life had settled into a routine. Dog training during the day. Then linking up with Toni after work for our work-out then home for dinner, a quick look at the TV and then love-making before going to sleep. I was beginning to think nothing out of the ordinary would happen until my phone rang. "Hello Beth, this is Claudia. How are you?" the voice said. "Hi Claudia. I am fine love. How are you? Still telling fibs to your husband?" She laughed "you heard that" she said "yes he thinks I can't live without it. He even wants to get a dog. I am panicking honey". "Why don't we get together and we can make a plan together" I said. Silence followed. "Are you still there? I asked. "Yes I am here. It is difficult because he likes to know what I am doing all the time" she said. "OK" I said "does he like shopping for clothes for you?" She laughed again "no he hates it". "So tell him next Saturday you are going to buy shoes. You don't know exactly what type. You will have to look around and see" I suggested. "You are so evil Beth" she said "that will definitely turn him off". I gave her the address of my doggy house and made an appointment for 10am next Saturday. Then I clicked off before she could change her mind. I told Toni that night and insisted she come with me. She wasn't that keen but said ok she would come with me.

Friday morning I told Cindy that I had a date with Claudia and wanted to borrow the Rottie. "My God how did you swing THAT?" she said. "Oh I just want to make her feel less worried about pleasing that dud husband of hers" I said "Toni is going to help me". Cindy looked at me and gave me a grin. "I wish I was going to be there honey" she said "you and Toni together. I am so jealous". It was the first time Cindy had shown any interest in me. Maybe she didn't only like men. I made a note to investigate another time. "So I can pick up the Rottie about 9am Saturday?" I asked, getting the conversation back on track. "Yes dear. That would be fine" she said.

Saturday morning I talked Toni into coming with me. She wasn't that happy but she did. We picked up the Rottie and headed to my dog house. I took the dog inside and put him in the play room. Then we waited. Claudia arrived right on time. She looked apprehensive but I told it was all good. I introduced her to Toni which made her more apprehensive. I had made coffee and we talked. "I don't know why I am here really" she said. "It is because your husband wants you to be fucked by a dog" I said "not for your pleasure but his. Cindy told me he is a pathetic fuck, lasts five minutes. You poor woman. Well today you are going to get the time of your life". "Beth I don't know if I can, you know, do it with you" she said. I put my arm around her. "Come with Toni and I and let's find out".

We went to the bedroom and kissed Claudia. She gasped. I kissed her again and she moaned. I looked at Toni and Toni kissed her. Toni and I started to undress her. She was shaking like a leaf. "Relax honey" I said "you just let it happen". It didn't take long to get her naked. It was me who gasped now. She was stunning and her boobs were huge. I mentioned it and she said her husband had insisted she got implants. While I got undressed Toni began to rub her shaved pussy. Once I was naked I took over while Toni got undressed. Toni was starting to warm to the situation. "Get on the bed sweetheart, Toni and I are going take you to heaven.

Stretched out on her back Toni and I took turns licking her pussy, teasing her clit and sucking on her nipples. She had totally surrendered to us and was moaning and squealing. When she came she screamed and then yelled "don't stop, please don't stop". Of course we had no intention of stopping and she came twice more before I called a halt. "Now you are nice and relaxed come with us" I told Claudia and led her to the play room. "Oh Beth you have the Rottie" she sighed "I really don't like dogs honey". "Just relax honey. Let him lick you" I said. She leaned against the bench and for a moment the dog didn't know how he was supposed to mount. "Call him Claudia" I said "call him and spread your legs".

The Rottie moved in and started to lick her already aroused pussy and clit. Claudia moaned and looked at me. "It feels so different" she said giggling "I like it". As his tongue probed her more she moaned louder. "Oh yes doggy, lick me harder" Claudia whispered. She opened her legs wider and

she started to rock back and forth. She looked down at him. "Fuck me boy" she screamed "fuck me and make me your slutty bitch". With that she dropped to her knees "fuck me NOW". The Rottie probably didn't understand a word she said but he knew what a woman on her knees bent over a bench meant. He mounted her and after a couple of false starts found the comfort of her warm wet pussy and drove his cock in as hard as he could.

The Rottie pounded her mercilessly while she squealed and moaned. Toni grabbed me and we started to kiss and touch each other. The room was filled with sexual energy and we all felt it. The Rottie stopped moving but Claudia was still rocking back and forth. He had tied with her, sealing her tight and was pumping his juices deep inside her. He remained tied for maybe six or seven minutes during which time Toni and I enjoyed each other with fingers and tongues. Finally the dog disengaged and Claudia gave one last moan and collapsed on the floor. I went over and hugged her. "Are you ok sweetheart" I said. She gave me the widest grin ever. "I never thought I would enjoy a dog that much" she said softly "thank you Beth, thank you Toni, I am so happy"

The shower wasn't big enough for three so Toni waited while I soaped Claudia. "My trip to the kennels will never be the same darling" she said as I slipped two soapy fingers across her clit making her cum one more time. Showered, dry and dressed she kissed Toni and I with a promise to do it again and left. I looked at Toni. "Well honey that was funny and now what can we do to pass the time" I said and we both ran back to the play room and the Rottie. He was going to have to earn his keep and then some.

## **Chapter Four**

*A woman customer. Claudia, isn't really into dogs. But Toni and I get her ready and the Rottweiler causes her to rethink fun with a dog.*

Toni and I spent time after Claudia left amusing ourselves with the Rottie and each other. We returned the dog to Cindy and headed home, satisfied with our work with Claudia. I had a feeling that the next time her husband asked about getting a dog she would totally agree. "See Toni" I said "she only needed to have dog sex without the pressure from her husband". Toni chuckled "yes and being set upon by two horny women also helped" she said. I had to agree. We had certainly got her worked up, not to mention us as well.

Sunday was hot and so we decided to sun bake on the beach. There was a clothing optional beach further down the highway and Toni insisted we go there. Of course we finished up getting naked. It felt great. Once home I stripped off and teased Toni until she did too. Wandering around the face au naturel was so invigorating. Of course we did "interact" several times during the late afternoon and evening. A lovely hot shower together and then asleep cuddled together. Life didn't get any better than that.

Back at work on Monday and Cindy wanted a full report on the progress of the two Labs. Both had become more used to mounting me and were ready for the final exam. Cindy came to the shed to watch as I took them, one at a time. They performed perfectly, both licking my pussy and then tying with me. I loved that part. Being trapped under them while they filled me with dog cum. Cindy was well pleased and I put the Labs back in their pens. "I am expected that Dane today" she said. I got super excited as I had seen videos of Danes. Big muscular dogs with huge cocks. "He is supposedly trained" she added "but I am wary. I think the guy just wanted to get rid of him". "It's ok Cindy. I will check him out and let you know" I said. "I am sure you will my dear. I am sure you will" she replied.

It was 2pm when a van arrived. "I have a delivery for Rowdy Pooches" the driver said. Out came the Dane. He was huge. "My God Cindy. Look at him. Is it a dog or a small horse?" I gasped. The driver heard me. "Yes he is a whopper all right" he said "pity help any bitch he mates with". I had to smile. "Pity me driver. I am the bitch" I thought. I snapped a lead onto his collar (the dog not the driver) and led him down to the shed and the pens. Cindy followed. "I don't think the pen will be large enough" I said "he will be too cramped". Cindy agreed "Tie him up in the shed and I will ring the guy who made the pens and get him to make a bigger one. "Come on boy. I will tie you up until we fix up a home for you" I said. I tied him and stepped back to look at him. "My God I hope you don't kill me" I said. Just then Cindy walked in and heard me. "I am more worried about him" she said and laughed.

Cindy made a call and two hours later Ralf arrived with a bigger pen. "Boy he is a big one isn't he" Ralf said, staring at the dog. "I bet he will make your eyes pop" he added. Obviously he had a fair idea of what "extra activities" went on. I tried not to respond, looking at him blankly. He set up the pen and walked back to the office. I led the Dane into his new home. "Better get you settled" I said. Cindy came down, having paid Ralf and also fended off his comments. "He knows doesn't he?" I said. "Well I think he suspects at least" Cindy replied. Turning to the Dane she asked what my plan was. "I will let him settle down a bit before seeing how much training he has done" I said. "Have you got any plans later?" she asked "a bit of overtime maybe?" I said I would ring Toni and tell her I would be late home. "Very good Beth" she said and returned to the office. I looked at the Dane who in turn was staring at me. "Overtime boy. We are going to do some overtime".

I rang Toni who was surprised but said she would see me when I got home. I spent the rest of the afternoon grooming and feeding the dogs. I was getting very excited about how the Dane would act. Cindy was worried he wasn't as trained as she had been told but I saw how he was looking at me. I swear he was giving me that "I want you" look. I certainly wanted him. If he was anything like the Danes in those videos I so wanted him. Five o'clock came and Cindy came down. "Well let's get him out Beth and see if he performs" she said. I opened the pen and led him into the shed. I had already shed my knickers. "Come on boy. Let's show Cindy what a good dog you are" I said. He looked at me and then padded up to me. "Yes, that's a good boy. Now lick me" I said.

He heard the word lick and his ears pricked up. I was leaning against the bench with my feet spread. He had obviously been trained to act on the command "lick" because he pushed his nose into my crotch. "Oh yes" I squealed as his tongue went to work. I looked over at Cindy and she was smiling. "Well that is one thing he can do" she said "how about the next thing?" "Can we wait a minute?" I asked "he tongue feels so good". She laughed "come on honey. Another time. Get on your knees". I reluctantly pushed him away and got on my knees bending over the bench. "Come on boy, come and get it" I said. He stood there, seeming unsure. I slapped my bum and immediately he mounted me. I thought I may have to help him but it only took a couple of thrusts for him to find the target. I squealed as I began to take the biggest dog cock ever.

With each thrust by the Dane his cock seemed to grow larger. He was growling and grunting and I was moaning and urging him on. The initial pain of his huge cock now turned to immense pleasure as my pussy accepted this new intrusion. "Oh fuck Cindy he is so big" I wailed and then I felt his knot swelling and rubbing against my clit. I squealed again as I orgasmed. He was trying to tie with me. "Come boy, bury that knot inside me" I moaned and then squealed again as pain returned as the knot was stretching me further. Then, with one final thrust, he succeeded and my pussy was sealed tight. I continued to moan as he began to fill me up with his doggy cum. And how he filled me up. My God his cock must have been like a fire hose. I lost track of time but Cindy told me he was tied for nearly 6 minutes before, after several painful attempts he managed to disengage. I looked around and groaned when I saw the length of his cock.

I stood up on rather shaky legs. Cindy's eyes were locked on the Dane's cock as he licked it clean. Finally she said "well I think we can say he is trained. And it looks like you enjoyed it honey". I smiled broadly "Yes I did Cindy. He is so big and strong. He has been very well trained". "Well Beth, get cleaned up and you had better get home" Cindy said. "I will just put him away before I go" I said. "Oh don't worry honey" she said "I will take care of him. You just get home and thanks for staying". I smiled. I knew what she meant by saying she would take care of him. "Get ready boy. There is another bitch you have to service tonight" I thought as I cleaned myself up and headed home. "What was the overtime about" asked Toni as I walked into the kitchen. "We got a new dog delivered" I said "a Great Dane". She smiled "was he good?" she asked. "The best" I said.

## Chapter Five

*I show a client just how good doggy love can be. Cindy takes delivery of a Great Dane and of course I have to give him a trial to make sure he is trained.*

Cindy called me into the office. "I have had a special request from a friend of mine" she said "she would like some special loving but she can't come here. Would you be ok to go to her?" I said I would be happy to. "What dog would she like" I asked her. "Well I know she used to be into dogs" Cindy replied "so maybe one of the labs or even the Great Dane if you think he is ready". I told Cindy that he was more than ready but was the client ready for such a big dog. Cindy smiled "oh I think she would be overjoyed" she said "but just a word of caution. This is strictly secret and you must never tell anyone about your visit, and I mean ANYONE". I assumed she meant even Toni.

After feeding the dogs and grooming them I had lunch and then loaded the Great Dane into my car. He filled up the whole back seat. I had the address and immediately saw it was a top end of town. Obviously this woman certainly didn't want her "desire" to be made public. I was instructed to drive to the house and into the garage so what I was delivering could not be seen. I was a little concerned as I really didn't know the full story about the need for absolute secrecy. But I did as I was instructed and as soon as my car entered the garage the door was closed behind me. A side door opened and this attractive, well dressed woman appeared. "Please come inside my dear" she said.

I followed her into the house with the dog on a lead. "Please just put him in that room" she said pointing "and then follow me. You may call me Sharon". I followed her into what was obviously an office. On the bookshelf I realised why she wanted secrecy. There was a photo of her and her husband. I recognised him as our local MP. She placed a piece of paper in front of me and asked me to sign it. It was a Non-disclosure Agreement. "I always get these signed when I have certain things done that I don't want anyone to know" she said "you will notice the section outlining the judicial results if word getting out". It was not wonder she wanted secrecy. I also wondered what other "certain things" she meant.

Having signed the paper I followed her back to where the Great Dane was waiting. "Mmm he is very big" she said as she licked her lips "it was been a number of years since I enjoyed a dog. Before I married in fact" she said "but I certainly have never had a dog this large. Is he fully trained?" I told her he was. "OK let's go down the hall my dear and let's see". We walked into this large lounge room and Sharon sat on the couch. "Come here boy" she said and the dog padded over to her. She lifted her skirt and I could see she wasn't wearing knickers. The dog immediately pushed his nose between her legs and began to lick her pussy. She moaned as he pleased her. "Oh God it has been so long" she sighed "that's a good boy. Get me nice and wet and ready for you".

Her moaning intensified and I surprised when she threw head back and squealed. "Yes Yes Yes" she

squealed as she obviously had an orgasm. "I so want you boy" she said breathlessly and immediately got down on her knees with her body resting on the couch. "Take me boy. Make me your bitch" she shouted, the urgency in her voice was unmistakable. My pussy with trembling as I watched the Great Dane mount her, thrust a couple of times and then, finding the target, hammered home his growing cock. The scream she gave echoed around the room as he plunged his cock into a pussy that was so welcoming. My well educated and upmarket client began to moan and whimper as her "lover" continued to pound her furiously. She squealed as his growing knot began to rub against her clit sending her into other orgasm. Thrusting harder he pushed that knot into her, sealing her tightly. He stopped moving but she continued to rock back and forth and then groaned as she felt his hot cum flooding into her. Several times she groaned as he emptied his juices into his bitch.

She moaned quietly as she savored her first dog for also 15 years. She was clamping her pussy muscles tightly trying to hold him inside her but he struggled and growled as he tried to escape her. Finally, after a good 6 or 7 minutes she released him. He stepped back and began to lick cum oozing from her. She lay over the couch limp from the experience. Finally she looked over to me "Oh Beth honey that was so amazing" she sighed "that the biggest cock I had ever had. No man could ever fuck me like that". I walked over and helped her to her feet. "Thank you darling" she said "please help me to the bathroom". She held her hand between her legs as we walked so she wouldn't drip on the carpet.

We got to the bathroom and she began to get undressed. "You were right darling" she said "he is very well trained. Have you had the pleasure?" I just smiled. "Yes, Cindy told me that you liked to train dogs. She also told me something else about you" and she kissed me. I guess the fact that I was so turned on watching her made me return the kiss. "Get undressed Beth. Have a shower with me" she said. I didn't need to be asked twice. I hurriedly stripped and joined her in the shower. We soaped each other and then began to fondle each other. "Will you make love to me Beth" she whispered as she fingered my pussy. "It will be my pleasure Sharon" I said. "Darling my real name is April. Sharon is a name I use before I know I can trust someone".

We quickly dried ourselves and she took my hand and led me into the bedroom. It was huge with a king-size bed which she dragged me onto. "Lick my pussy darling" she whispered in my ear "make me cum and cum and cum". I did my best and she indeed had three orgasms before turning the tables and going down on me. It was no surprise when she said "I want to doggy again honey. I am so horny". Still naked we went back to the lounge. As soon as he saw us he began to wag his tail. "I like a dog who is eager" she said laughing. Dropping on her knees she smiled at me. "I don't need any more licking darling. Now I just want cock". Moments later the Great Dane was again humping his bitch. He grunted, she moaned and I sat in a chair opposite and watched as I got myself off.

"Oh Beth it feels so good" she squealed "why did I wait so long to do this. Promise me you will come again darling. I want him and I want you". I said any time she wanted I would be come. "Maybe bring Cindy too" she said "it has been many years since we enjoyed each other" and then she resumed moaning and whimpering as her doggy lover ravaged her. Again she tried to delay him withdrawing and again he growled with frustration. She chuckled as he tried several times to escape but finally she released him. She looked over at me and smiled. She crawled across the floor and buried her face in my crotch. "Tongues are better than fingers" she said as she licked my clit getting me off twice more before we showered and dressed.

I put the Great Dane back in the car and April and I kissed passionately. "I had a wonderful time darling. Please say hi to Cindy and I will definitely call you again and soon". Then she handed me a copy of the Non-disclosure Agreement. "This is your copy Beth. I know I can trust you to keep my secret. I drove back to work. Cindy met me. "Everything ok?" she asked. "Everything went perfectly" I replied. "I thought it would. She loved dogs back in the day" she said. "Not only dogs" I said "I

have a feeling you and she were close". "Yes" said Cindy "we had our moments. Like you and her today I suspect". I just smiled and said she wanted both of us next time. This time she smiled broadly.

I never told Toni about my adventure. I felt badly not telling her but signing that Agreement meant I had to remain silent. Anyway, it was just work and didn't really effect Toni and I. That is how I rationalised it anyway. I did take special care to make her cum several times that night though.

## **Chapter Six**

*A home visit turns into a pleasurable experience for all of us, including the Great Dane.*

I felt bad about not telling Toni about my adventure but the thought of ending up in jail tempered my feelings. After all, it was work and not some random sexually situation. I did take extra care to treat Toni with pleasure, which she naturally enjoyed.

It was back to work with the labs, both of which now know how to perform. Training them was always a pleasure and I was happy to report to Cindy that they were quite ready for sale. I did have a suspicion that she already knew that. I could only imagine what she did after hours. I also continued to enjoy time with the Rottie and the Dane, both of which pleased me on a daily basis.

Excitement peaked when Gus and Claudia arrived unannounced. I was interested to see if her attitude had changed or if Gus was still forcing her for some weird reason. I need not have worried as soon as Gus disappeared up to the office with Cindy she hugged me and kissed me passionately. "I have been looking forward to this darling" she said "I have realised just how wonderful being a dog lover can be. Can I have the Rottie?" "Of course honey" I replied "he is always ready to pleasure a bitch on heat, and I suspect you are". "You better believe it Beth" she said "I have already got myself off twice this morning thinking about it".

I went to the pen and led out the Rottie. I could see the desire in her eyes as I led him into the shed. "Hello darling boy" she said "do you remember me?" His tail wagged furiously. There was no doubt he remembered and he was ready to renew acquaintances. Claudia hurriedly took off her knickers and, forgoing any foreplay, knelt over the bench. "Take me" she moaned "fuck me". He didn't hesitate as she pulled up her skirt and he smelt her already soaked pussy. He mounted her and after a couple of attempts found the opening he sought. Feeling the warmth and constriction of Claudia's pussy he began to drive his growing cock deep inside her.

Claudia squealed and mumbled obscenities as he grew larger with every thrust. Then she moaned as he humped her wildly. She had surrendered once more to her base desires. My pussy twitched as I watch the Rottie totally command his bitch. Soon his knot was rubbing against her clit causing her to wail and orgasm. Rottie wasn't done and pushed hard to bury his knot into her so he could impregnate his bitch. It matter little that she would never be impregnated he just began to fill that pussy with his hot juices. The moans of the bitch under him just re-enforced his dominance. "Squeeze your muscles Claudia" I whispered "clamp down on that cock you love so much". She tried her best but he was powerful enough to be able to pull away.

Claudia lay across the bench in an air of post-fucking bliss. "Oh shit that was so good. I just wish he could have fucked me longer" she gasped. I smiled. I knew what she needed. Leaving her for a minute or two I locked up the Rottie and led out the Dane. "Stay there honey" I said "I have a little surprise for you". The Dane saw her over the bench and smelt her scent, enhanced by the Rottie's deposits. He rushed up and mounted her. "What is happening" Claudia yelled but then she felt the

Dane's already showing cock. A couple of stabs and he found the target. Claudia screamed as she felt a second doggy cock being thrust into her. "Oh fuck Beth" she squealed "he is so big" but I knew he would get bigger as he began to pound her mercilessly. She wailed and squealed as the full length of his cock grew inside her. Soon she just moaned and groaned with pleasure as he asserted his domination of this bitch. A feeling I had also experienced and enjoyed. The knot had the desired effect of making her cum before he pressed hard and her pussy stretched to accept it. Now tied he began the impregnation of this very willing bitch.

As he began to fill her up with his juices Gus, having finished fucking Cindy, walked into the shed. He found his wife moaning and muttering obscenities as the Great Dane did his best to fill her to overflowing. Of course, with his huge knot sealing her, there was little chance of that. "My God honey that dog is huge" he shrieked as he watched his wife completely dominated by the dog laying on top of her. "Fuck Beth he is cumming again" she squealed and her husband stood there with a shocked look on his face. It was several minutes before the dog pulled away and proceeded to lick up cum oozing from her tortured pussy.

She slowly regained her senses and looked around and smiled at me. I would have loved to lick her pussy too but not with her husband standing there. He still have a shocked look on his face as Claudia struggled to her feet. "Oh Gus darling" she said "I want to get a dog. I want the Rottie. He is so good at fucking me". Her husband turned to Cindy "is he for sale?" he asked. "Yes" replied Cindy "all our dogs are". So the deal was done. Cindy and Gus went up to the office to make it official. Claudia turned "sorry Beth but I really want him honey" she whispered "and anytime Gus is away you are welcome to come and say hello to him". Then she kissed me passionately "and you are welcome to play with me like last time my darling".

Gus and Claudia left with the Rottie and I cleaned out his pen. I was feeling a sense of loss but it was tempered by the thought of visiting him and Claudia. Cindy came down all smiles. "Wow you certainly changed her mind Beth" she said "I always knew she wasn't all that enthusiastic about dog sex but you sure changed her into a total dog slut. Well done". I tried to smile. "Don't worry honey. There are always more dogs around for you to train" she said. "I guess so Cindy" I replied "at least I still have the Labs and that lovely big Great Dane to keep me entertained.

"Funny you should say entertained honey" she went on "I have a husband and wife who want to see what dog sex is all about. I knew you would be up for it. This Saturday night hon". "OK, no worries" I said. "Oh by the way" she continued "April also wants to arrange another visit. I will join you". It was obvious that I would not have to pine for the Rottie for very long. My calendar was filling up nicely. I finished the day feeding and walking the dogs and had time for a romp with one of the labs. Just to take my mind of the missing Rottie you understand...

## **Chapter Seven**

*The Rottie had gone to a good home. I knew he would be looked after. I also knew Cindy would get more dogs for me to train and she had new customers lined up for me to entertain.*

All week I looked at the empty pen and felt a sense of loss. Finally I decided to stop being sad. I knew Claudia would look after him and give him plenty of "exercise". I wondered if her husband realised that he would be always number 2 from now on. The weekend was coming up and I told Toni I was working Saturday night. She accepted the fact that I was required to work at odd hours. "That's fine honey" she said "we still have the rest of Saturday together".

Cindy had told me this couple wanted to see what dog sex was all about. I was sure they had viewed it on line so I suspected the wife might be more interested in doing it rather than watching me do it. Still, if they wanted to see it first hand, I was more than willing to perform for them. I had worked extensively with the Labs as I suspected that as first timers the wife may not be ready for the Great Dane. I would keep him as either back up or as an encore. Either way I would enjoy him even if they left early. I was always happy to go that extra mile to please clients.

Saturday afternoon I went to work and prepared the dogs. The labs seemed very frisky as if they knew something was afoot. The couple, Allan and Sharon, arrived around 6pm. Allan explained that they had been watching dog videos for several months and Sharon had wondered if they could see something live. They found Cindy's business on the dark web. I gave them a quick look around. Sharon squealed, actually squealed, when she saw the Dane. "It is ok honey" I assured her "you should stick with the Labs I think". She actually looked disappointed. I don't think she really understood just how big he was.

Allan said they wanted to see some action live. I think he just wanted to look. Sharon, on the other hand, seemed keen to participate. I don't think she had made that clear to her husband. I think he was in for a shock. I got one of the labs out of his pen and led him into the shed. I got them both to side on a couple of chairs that Cindy had put in place. I had already explained the simple commands that I had been teaching the dogs. "Lick" and "mount" were the words they recognised. I slipped of my knickers and leaned against the bench. "Lick" I said and the Lab padded over and buried his head into my crutch. I gasped as I felt his tongue pleasuring my pussy. Allan stared closely and Sharon shifted in her seat and licked her lips. There was no doubt that she was getting into it.

I tried to tell them both what the dog was doing and how it felt in between lustful moans. I could see Allan too was getting excited. I smiled at Sharon. "A dog tongue is wide and rough and so much better than a human tongue" I explained. Just then I yelped as he made me cum. I guess doing this in front of them had me turned on as well. They both realised what had happened and Sharon moaned. There was no doubt that she wanted to experience it too. But I still had more to show them. Pushing the Lab away I quickly got on my knees and bent over the bench facing them. "Mount" I said loudly and my doggy lover climbed onto my back. A couple of fresh air thrusts and then he found what he was seeking and started to hump me furiously.

"Oh God Allan he is fucking her" Sharon exclaimed. She wasn't wrong. His cock now sliding into my soaked pussy and growing with each intrusion. Sharon was leaning forward as was Allen. Then she said "I want to see" and she got up and walked around behind me and the Lab. I couldn't see her but Allen was staring wide-eyed as I moaned and squealed as I could feel the knot rubbing against my clit. That sent me over the edge again as he struggled to push it all the way home. Then he pushed a little harder and I was tied to him. He stopped moving and Sharon walked around in front of me. "What is happening" she gasped, as if she didn't know. "He is cumming honey" I said as I moaned and felt the hot juice being sprayed deep inside my love canal "he is cumming and cumming".

Sharon sat down and turned to Allen "I want to do it darling" she said "please let me do it. I will do anything you ask afterwards. Just let me do it". I don't know if he had planned to let her or if her pleading worked. A bit of both I suspect. But he nodded and she hugged him. She waiting patiently has the Lab finished and his knot shrunk. He pulled away and licked at cum oozing from my pussy. "My turn" said Sharon excitedly "I want to do it Beth honey". I never doubted it really. I stood up and led the Lab back to his pen and got his brother. "Come on boy. I have got a nice fresh pussy for you" I said. By the time I got back to the shed Sharon had already shed her knickers and was leaning up against the bench. I could see her pussy was already wet and ready.

"You know what to say Sharon" I said. "Lick" she cried "please lick me". The Lab just heard the work

lick and zeroed in on Sharon's crutch. She squealed as he went to work. "Oh shit" she cried "it feels so strange". "Are you ok love" said Allen, showing concern. "Yes darling, better than alright and she spread her feet further apart to give him better access. "I want to cum" she moaned "make me cum doggy" and moments later she squealed "oh God yes" as she climaxed. "I want his cock" Sharon declared. "Are you sure darling?" asked Allan. "I have never been surer in my life. I want him to fuck me" and without she got on her knees, leaned over the bench and yelled "mount me now".

True to my training the lab mounted her and I was relieved then he found the warm embrace of her pussy without any help. She squealed as he found the target and proceeded to do what came naturally. She moaned and groaned as she was fucked like never before. I suspect no human could be that vigorous as he ploughed her while she moans grew loudly as his cock grew larger. "Oh God I feel the knot Allan. Just like those videos" and she squealed as he forced it inside her. The moan was now quieter now as she took his doggy cum, filling her up more and more with little chance of it escaping her sealed love tunnel.

Finally, having satisfying himself his bitch was impregnated he pulled away and laid on the floor cleaning his cock. She looked around and gasped. "My God, did I take all that?" Allen stood up and looked "bloody hell Sharon, I can't compete with that cock" and we all laughed. I handed Sharon a towel to clean herself up a bit and she put her knickers back on. The crutch was immediately wet but I suspected she didn't mind a bit. "Oh Allen it was amazing she said and hugged. She then turned and hugged me. "Thank you Beth. Thank you so much. We have been watching videos for weeks but never thought it could be that wonderful". Turning back to Allen she said "I want to get a dog honey. I will do anything and everything you ask me to do. Just let's get a dog".

"Well Sharon" I said "the Lab who just had you is for sale. Talk to Cindy about what you need to get for him and how much he will cost". Allan smiled as Sharon headed to the office. "Thank you Beth. She gets a dog and I get whatever I ask for" and he winked at me. I had a feeling Sharon would regret saying she would do anything. I was sure Allen was already thinking of things for her to do. As he turned to walk away he turned back and said "we will be in touch". My pussy tingled.

## **Chapter Eight**

*A couple come to watch and end up buying one of the Labs. My lovers were reducing rapidly.*

I went to work on Monday and Cindy called me into the office. "I know you only have two dogs left and they are fully trained" she said. I panicked. Was I about to be declared redundant? "I have had a couple of contacts who we can go and see Beth. Go and feed the dogs and then come back and we will close up and go to see what is available". I breathed a sigh of relief. I certainly didn't want to be separated from my boys. I feed and watered them and went back to the office. Cindy locked up, put a sign "back in two hours" and we headed off.

"I have been very pleased honey" she said as we drove "not only selling dogs but making money for my business. Just offering stud fees really just makes me break even. Your activities is a very thick icing on the cake. Now we need to find at least two more dogs for you to train to keep the money coming in". We drove for just over half an hour and turned into a council pound. "I think this will be a good place to start" she said. We parked and went into the office. Cindy obviously knew the manager and they chatted away but now and then he glanced at me. A glance men do when they are undressing you with their eyes. I played dumb but I knew what he was thinking. One thing he didn't know was that the dogs were to be my lovers.

"We have a couple of non-neutered dogs" he said "one is a large German Shepard and the other is a Husky. Come and take a look". We all went down to the pens. The German Shepard was brown with a couple of dark spots. He looked quite powerful and had my pussy tingling. The Husky was mainly white and was gorgeous. "What a handsome fellow" said Cindy, giving me a smile. "Yes" said the manager "this guy brought him in. Apparently he and his wife split up and he didn't want it anymore. Shame really as he is a fine animal". I agreed. I could wait to get him back to the shed and start training him. "OK" said Cindy "I will take them both and that Black Lab over there as well. Can you deliver them today?" He said he would have them delivered that afternoon. Cindy paid for the dogs and we headed back. "That was easy" she said "they will do nicely, both as breeders and as our little side business. I really love that Husky".

I was on tender hooks as I waited for the dogs to be delivered. I cleaned out the empty pens and put in new dishes for water and food. By the time the delivery guy came I was so excited. Cindy and I helped the guy unload them and we put them in their pens. The pens were bigger than those at the pound and they settled in right away. Cindy and I stood admiring them. "That should keep you busy honey" she said "but I know I can count on you" and she returned to the office. I looked the dogs over, one by one, and I was drawn to the Husky. "My My" I said "you are a handsome boy". He looked at me and wagged his tail. "Ooh you like me do you" I said "well my darling I like you too and I can't wait to show you how much I like you". I checked my watch. It was knockoff time. "Damn, you will have to wait until tomorrow" I sighed and headed to the gym and joining up with Toni.

The next day I couldn't wait to get to work. I fed and watered the dogs and cleaned the shed, basically just sweeping. I got the Husky out of the pen and took him into the shed. I had on a short skirt and he immediately pushed his nose up my skirt and licked me through my panties. I squealed with surprised. I stepped back and looked at him. I was really surprised. But not too surprised not to slip off my knickers. "Come to mummy, boy" I said and he repeated his intrusion. This time his tongue found my pussy and I leaned back against the bench and spread my legs. "Wow, you are a nasty boy" I laughed and then moaned as he pleased me. "What other tricks do you have" I said. Down on my knees I waited to see what he would do. I didn't have long to wait.

The Husky took my invitation and immediately mounted me. With no help from me he found his target and plunged his growing cock into my pussy. I squealed and moaned as this obviously well trained K9 had his way with me, tying with me and spilling his doggy cum into me. He finally pulled away after several minutes and gave me some loving licks as his seed oozed from me. Regaining my composure I looked at him and I swear he was smiling. "My God where did you learn that?" I said out loud. I led him back to his pen and went up to the office to tell Cindy my news. Unbeknownst to both of us we had bought a dog obviously already trained.

It was several days later when a woman came to the office and Cindy brought her down to me. "This is Donna" said Cindy "she has an explanation as to the origins of the Husky. Donna was medium height, quite attractive with a nice figure. She would have been 35 or so. "Can I see him?" asked Donna. "Of course" I said and led her to the pens. As soon as she saw him her eyes welled up. "Hello darling" she cried "it has been so long. I thought you were lost for ever". The Husky was getting very excited and I just had to ask. Donna then told me her sad story.

Donna and the Husky (she called him Rowdy) had been "an item" and he pleased her constantly. One afternoon she was on all fours and Rowdy was tied with her. Suddenly her husband appeared having come home unexpectedly. He had thought he would catch her with another man. In fact he caught her being rogered (her word) by the family dog. The upshot was that he threw her out and divorced her and gave the dog to the pound. She wanted to take him back but she lived in an apartment that didn't allow pets. I put my arm around her and told her not to worry. We would work out something.

I took her into the shed and then got Rowdy. When I returned she was naked, which was both surprising and exciting. She had pert breasts and a shaved pussy. "I always fuck with him naked" she explained. I just said it was fine. Rowdy saw his bitch and padded up to her and began to lick her crotch. She moaned saying how much she had missed him. I watched as he got her off with a squeal and then she knelt down and he immediately mounted her like he had with me. He was soon pounding her and she was moaning and groaning. This couple were together again. "Oh darling, yes, fuck me you sweet doggy" she moaned as he tried and then succeeded to tie with her.

Finally, having left his deposit, he pulled away and first licked her and then laid down and licked himself. Donna turned around and grabbed his still extended cock and began licking and sucking it. It so turned me on I began to rub my clit as I gazed down on the two of them re-united. Donna looked up at me as I peaked. "Yes Beth honey, it is so sexy isn't it". Finally she released him and I put him back in his pen. When I returned to the shed she was already dressed. "That was so good Beth. I would like to visit again sometime" she said. I told her she was welcome but Cindy would expect some payment. She said she understood and was happy to pay to be with her handsome Rowdy. I did ask her how come she had called him that. She laughed "because he is anything but rowdy" she said "it was my little joke". Then she hugged me and went up to the office to talk to Cindy. Moments later Cindy came down all excited and said Donna wanted to come once a week. "He is already trained isn't he?" she said excitedly. I told her the story and she nodded. "Same thing happened to me" she said "I got caught but MY husband loved it". The things you learn.

## **Chapter Nine**

*Cindy gets three new dogs. One of them surprises us both.*

After my surprise at finding out the Husky was already trained I worked on the others. The German Shepard was quite powerful and was a perfect breeding dog but also had the makings of a wonderful plaything. It didn't take long to get him to lick me. In fact I was quite surprised at how quickly he learned that. I just thought he was smart and a natural. Cindy's business was also picking up and I spent quite a bit of each day doing normal breeding duties. But every time I watched the various dogs impregnating real bitches I got horny and had to relieve the feelings by a session with the Great Dane. A perfect way to ease my tensions.

The German Shepard and the new Lab seemed to be getting the licking down very quickly. It was wonderful and they both got me off multiple times. I tried the next step and they hadn't quite got the idea of mounting me. I left work one night and headed for the gym. I thought my gym bag was in my car but I realised that I had taken it out to wash my towel and shorts. It was still back in the shed at work. I muttered to myself and did a U turn. Get back to work I parked and headed to the shed. I noticed the lights were on and I could hear funny noises. Thinking there was a crime going on I crept silently until I reached the shed. What I saw shocked and excited me.

Cindy was naked and lying on the bench. The German Shepard and the Great Dane were there. She was rubbing something on her boobs and pussy and the two dogs were licking whatever it was. She would spread more when they began to stop. I glanced sideways and there was a guy standing there also naked. He was stroking his cock as he watched the show unfolding in front of him. "Oh Derek it feels so good" Cindy moaned. I realised the guy was her husband. I had never met him but she had mentioned him several times. I also knew that he was apparently ok with her love of dogs. Very obvious from his erection.

As I watched she patted her crotch and called out "mount" to the Great Dane. True to his training he

climbed on top of her missionary position and he thrust his already growing cock into her already pleased pussy. She squealed as he began to pound her. She had her hand down and somehow stopped him tying with her. The German Shepard stood, head on the side, watching. A technique I used on new recruits to get the idea of what to do. Cindy was moaning louder as the Dane became more frustrated. Finally he pulled away but Cindy quickly got on her knees and the dog renewed his attack, this time with no resistance from Cindy he forced his huge knot into her and relaxed.

As he began to pump his seed into her Derek walked over and stood in front of her and pushed his cock into her mouth. He closed his eyes and moaned as she began to suck his cock. She didn't take long to make him cum in her mouth and the Dane finished his work and withdraw. A goodly dose of cum in both ends. Cindy stood up with cum dripping down her thighs and all over her chin. I couldn't sneak away as I still needed my gym bag. I stepped out of the shadows and they saw me. Derek was surprised but Cindy just smiled. "Been watching long?" she asked "just long enough" I said "now I know why the German Shepard learned to lick so quickly".

Cindy introduced me to Derek who was still standing there somewhat surprised. It was a little difficult for him to remain calm standing there naked with his cock at half-mast. "Umm hello Beth" he said "it is a bit embarrassing to meet like this". I just laughed "well I guess we can say that I understand why you may think that. I was just here to pick up my gym bag I forgot. But I certainly didn't expect to get a show as well. I will go now. Pleased to meet you Derek and lovely to see you Cindy". I grabbed the bag and headed off to the gym. "You are late" said Toni. I apologised and said I would explain when I got home. I had trouble concentrating on my workout. My pussy was buzzing and I just wanted to get off. Toni did that for me when we got home.

The next day I arrived at work to find Cindy smiling. "Did you enjoy the show last night?" she asked, obviously already knowing the answer. "Yes I did Cindy. Very surprising but very stimulating" I replied. "Derek is most disappointed you don't like men" she added "he would have liked you to stay". I laughed "well after the Rottie and the Dane men just couldn't fill me like they do. Toni and my 10" strap-on also trumps anything a man can offer". Her smile grew wider "10" darling" she said "that would be so nice". I made a note to remind her about that one day. Maybe when we finally went to see April next time.

I returned to the pens, feeding and watering the dogs. I looked at the German Shepard and wondered if he had learned anything from last night. Then looked over at the Husky and sighed. He was just so gorgeous. I could understand why Donna was so in love with him. I checked the two Lab. The latest addition seemed to be excited. Was he also trained? I would have to check that out later. Just then Cindy came down with a bitch and her owner. The bitch was a Lab and the owner picked out the dog she wanted to service her pooch. I watched her face as the Lab went about his work. She stood wide-eyed as he humped the bitch. "I wish my husband was that vigorous" she said to no-one in particular. Cindy and I looked at each other and chuckled.

I put the Lab away and the client left with her bitch. Cindy smiled as she put the money in the register. "Silly woman" Cindy said "we could have fixed her up with a dog if she asked". I laughed "well maybe she will come back again" I said. I went down to the pens. I was already horny and the Husky was so handsome. As Cindy had said the next breeding appointment was not until 2pm it gave me time to work the German Shepard. I had already seen him licking Cindy's boobs so I took him into the shed and dropped my knickers. "Lick" I said. No response. "Lick" I said again and again no response. I retrieved the goo Cindy had used the night before and got some on my fingers. "Lick" I said again and offered my fingers to him. He responded immediately.

Having allowed him to lick my fingers I got some more goo and spread it only my pussy. "Lick" I said and this time he pushed his head between my legs and licked. It felt so good. It repeated it several

times and had an orgasm in the process. He was proving to be a fast learner. I had barely put my knickers back on when the 2pm appointment arrived. This time it was a guy with a Lab. Apparently they were the preferred breed in the town. He led his bitch to the shed and I tied the German Shepard up so he could watch. I got the other Lab out and he soon mounted the bitch who was on heat. The guy kept looking at me and I could see the lump in his pants. He was obvious enjoying the show and lusting after me. "Sorry" I thought "you are not my type. You don't have fur".

The dog did his work and I put him away. "Thank you young lady" he said "you have a couple of fine dogs here". "If you only knew how right you are" I thought but didn't say. He led his bitch up to the office and paid the stud fee. Cindy declared it had been a good day. I left the German Shepard tied up and retrieved the Husky. Watching the dogs servicing bitches always turned me on. I urged the Husky to lick me and then mount me. I hoped the German Shepard would get the idea. Afterwards I put them back in their pens and tidied up ready to knock off for the day. As I said goodnight to Cindy she announced that April had contacted her and wanted both of us to come and see her on Saturday. Finally I might get a chance to enjoy Cindy. I would take my 10" strap-on just in case.

## **Chapter Ten**

*I am excited to find Cindy enjoying my dogs after hours. I am also excited about the possibility of enjoying her and her friend April.*

I knew it was coming. April had contacted Cindy and asked her to bring the Great Dane and me to her house the next Saturday. Apparently her husband would be away. I could tell Cindy was excited as she gushed about the fact that had been years since they got together. She never mentioned it but her excitement on hearing I had a 10" strap-on made me know she wanted it come too.

I headed for the gym after work to find Terri strangely quiet. "We have to talk" she said. It sounded ominous. Back home she explained that she had been promoted and so she would have to move interstate. I think she was waiting for me to say I would come with her. That wasn't going to happen. I had organised my life, owned two homes and had my dog breeding job. I think we both realised that this was the parting of the ways. We made love that night and the next morning she said she was going to pack. I was sad to be losing a lover but such is life. People come and go. I skipped gym and headed home. She had already left. Not even a note. I guess she was annoyed I didn't go with her.

As Saturday got closer the excitement built. Now my only relief was time with my boys. The German Shepard sort had the idea of mounting me but still I had to assist. But once embedded in my pussy he did what dogs do, he fucked me furiously. The new Lab too was beginning to get the idea. I left the Dane alone leading up to Saturday so he was primed and ready. After all he had three horny bitches to service. Every time I went to the pens he would get excited and then growl when I ignored him. "It is ok boy" I would say "you will be busy soon". Of course he didn't understand and I felt a bit sad to deny him what he really wanted. Time with his bitch.

Saturday arrived and it felt strange not having Terri there. I really missed her. I put on a skirt and loose fitting top, grabbed the strap-on and headed off to pick up Cindy and the Dane. I saw her husband waving good-bye as we drove away. "Does he know where we are going?" I asked. "Yes he knows. Not that happy but he knows" Cindy said. We got to April's home and drove into the garage as before. The door closed behind us and April appeared. "Darling" she cried "and embraced Cindy. They kissed passionately. Obviously it was more than mere friendship. "Hi Beth" she said and then gave a little moan as I got the Dane out of the car. I retrieved my bag and we all went inside.

The Dane was getting very excited. I am not sure if he recognised April or was just horny. His tail was wagging a mile a minute and he was looking at each of us. Perhaps he was deciding who he was going to fuck first. Of course April's home so April first. It was only fair. First we had coffee while the Dane lay down watching us intently. "Oh God I can't wait" said April suddenly "come on darling. Come and show me you love me". Dispensing with any sort of oral foreplay she got on her knees, lifted her shirt to reveal a bare bum and ordered the Dane to mount her. He was on her in a flash and found his target and made up for his days of celibacy. April screamed as he began to hump her furiously. "Yes darling. Fuck your bitch" she yelled and then moaned and groaned as he went to work.

Having tied with her he pumped her tormented pussy full of doggy cum. It was several minutes before he decided his work was done and he pulled out. I took the strap-on out of my bag and showed her. "Oh Beth, yes I want it" April cried. I stripped naked and fitted the strap-on. She was still on her knees, her pussy oozing dog juice. A perfect lubricant for me fake cock. How she howled as I drove it all the way into her fuck hole. I glanced over at Cindy. She had shed her knickers and was rubbing her clit as she watched me take care of April.

April showed no sign of wanting to stop. She kept begging me to go harder and faster. Cindy got impatient and called the Dane over. After a short oral session she dropped to her knees and he mounted her. His energy did not seem to be diminished as he pounded her while she squealed and moaned, almost in unison with April still impaled on my dildo. April was madly rubbed her clit and her orgasms were accompanied by a string of obscenities. Cindy was released by the Dane and I released April. Both of them were puffing and panting. "Oh dear" said Cindy "look at Beth. She missed out" and they grabbed me. Pulling off the dildo one licked my pussy and the other kissed and fondled my boobs. Cindy proved to be a great clit teased and made me cum big time.

We had fun squeezing into the shower together. It was quite large but never made to fit three horny females. Still we did our best and lots of giggling and wonton moaning ensued. Finally we got out, dried and rolled around the bed. But we all knew what the main event was. However oral sex together felt good nothing compared to the feeling of the Great Dane lying on top of each one of us and spilling his doggy seed deep inside a willing bitch. We managed to space our enjoyment out so as not to overload the Dane. For his part he performed perfectly. Of course my dildo was able to fill the gaps (pun intended) when needed.

It was dark when we finally had to leave. Long hugs and kisses all 'round as Cindy and I said a sad goodbye. Of course promises were made to visit again whenever she called. I drove Cindy home and she invited me to come inside but I declined. "Don't worry about the dog" I said "I will take care of him until Monday". She just smiled. She knew what I was planning. She wasn't wrong. I got him home and then took him for a walk around the park. Back home I feed him some food from the fridge and then had him lick me, fuck me and then I thanked him by sucking him. Dogs don't cum from oral stimulation but their output of pre-cum makes up for that.

Sunday he serviced me three times as I was in a permanent start of sexual bliss. Cindy rang to say how she had enjoyed Saturday. "How about your husband?" I asked. She laughed "he did try" she said "fucked my dog fashion. I told him it was wonderful. It is ok to lie sometimes". Monday I got to work and put the Dane back in his pen. I think he might have been glad to be left alone. He had had quite a weekend. Cindy called me up to the office. She too had had quite a weekend. Apparently her husband would not leave her alone on Sunday. "We fucked like horny teenagers" she said "it was fun". She put her arm around me. "I know Toni has gone" she said "but I am still here". Obviously our games on Saturday had reawaken her lesbian feelings. "Just tell me if you need so loving that the dogs can't give darling" she added. We kissed passionately.

So it came to pass that one door closes and another opens. Cindy and I enjoy each other often but my really satisfaction is training a dog to lick me and then mount me. The training continues. Dogs are sold and new ones are purchased. I love my job.
