## BEASTIALITY STORIES

## Part I

My name is Loretta and my husband and I own a large Kennel and boarding establishment in San Fernando Valley. We raise Great Danes, Mastiffs, Rottweilers, Irish Wolfhound and Anatolian Shepherds. These are special dogs for guarding and hunting. We have 65 dogs at the moment. We do a little cross breeding for ourselves just to see how they turn out. Six of those 65 are cross breeds. Two are half Great Dane & Anatolian Shepard, two are half Mastiff & Rottweiler and two are half Great Dane & Akita. In addition we also boarder between ten and twenty dogs a month.

Every other day I choose four dogs from the group to fuck me. But I am getting ahead of my story. My love of dogs started when I was ten years old. My Dad bought me a Border Collie for my tenth birthday. He was beautiful and I called him Border. He was only eight months old and was fully trained not to pee or poop in the house. We became buddies and he followed me everywhere. Being a Border Collie caused him to try to herd me to the areas he thought I should go.

I had just turned twelve and started my first period. Mom had told me about such things She bought me some tampons to have on hand whenever I started. Mom Was next door at our neighbor's house and Dad was at work. When I started. I got some blood on my dress and panties so I took off my clothes and went into the bathroom to get a tampon. I reached up to get them out of the cupboard when Border stuck his nose between my legs and licked my pee hole. I jumped a foot and stumbled over him falling to the floor. My legs were apart and Border shoved his nose back between them and began to lick.

I tried to push him away but it felt so good I just leaned back against the tub and let him lick me. He kept licking and licking and I got a funny feeling in my stomach so I raised my butt up so Border could stick his tongue inside my little hole that Mom called my vagina. When his tongue would sweep across the top part of my vagina it caused my legs to shake and I suddenly had a sensation that I had never had before. It caused me to suck in my breath and I trembled all over. I didn't know what had happened but I knew it was a wonderful feeling. I let Border continue to lick me and I had two more of those same sensations. Each time I did Border would lick harder and faster which would then cause me to have more of those sensations.

I finally pushed him away and tried to stand up but my legs were so weak that I sat back down on the floor. Border kept trying to lick my hole. I turned around and put my hands on the toilet to get up when Border jumped on my back and began to hump me. Suddenly I felt something enter my vagina and he shoved real hard. The pain in my vagina clear into my stomach was terrible. I screamed but then I must have fainted. When I woke up Border had tied me (I didn't know at the time what was happening.). I was hurting real bad down there and I couldn't get away from Border and I began to cry. Finally after quite awhile He pulled out of my little hole. There was blood running out of my vagina and it scared me. I got up and sat on the toilet and I could feel some kind of goop running out my hole. I peed and wiped myself but I kept bleeding. I stood up to get the tampon and Border again stuck his nose between my legs and began to lick me. I remembered how good it had felt before so I sat down on the edge of the tub and let him lick me some more. Suddenly I didn't hurt down there any more and Border made me have another one of those sensations. It made my legs weak and I slid to the floor and as I turned around to get up Border jumped on top of me again and his thing went into my hole again. It was going in and out of me so fast and I felt something big and round being shoved up into my pee hole and it took my breath away. It hurt at first but then I had another of those wonderful sensations. Border stopped pushing in and out of me and just held me tight. I felt something warm shooting into my insides and it caused me to have another one of those sensations. Boarder tied me again and we stayed like that for about fifteen minutes. Finally the

big round thing came out of me and a whole lot of liquid came pouring out of my hole all over the floor.

I heard Mom come into the house so I hurriedly cleaned the bathroom and put the tampon inside my pee hole and got dressed. I told Mom I had started my period and she told me that her little girl was growing up. That night after dinner Border kept trying to stick his nose between my legs. Mom noticed and said looks like old Border is a little horny tonight. Just push him away he does the same thing when I have my period. She gave Border a whack and told him to lie down. That night I waited until I was sure Mom & Dad were asleep before I got up and let Border into my room. I got a towel out of the dirty cloths hamper and sat on the edge of the bed. I took out the tampon and let Border lick me again. After he had given me two more of those great sensations I laid the towel on the floor and got on my hands and knees and let Border enter me again. It was even better than before. At twelve years old it is hard to describe the feeling as I felt his dick slide deep into my vagina. When his knot entered me he made me have three more of those wonderful sensations. It felt so good that I let him do it two more times before I finally made him leave my room.

My legs were so weak I could hardly walk. The towel was soaked with doggy goop so I rinsed it out and hung it on the shower bar to dry and went to sleep. For the next two years I let Border fuck me almost every day. I had taken a mandatory sex education class and learned a lot about sex and what you called certain parts of the body. However my friends said that a vagina was also called a pussy, cunt or a twat. And a man's penis was called a dick, a prick, a cock, a rod, and a pole. The class said it was intercourse when two people were having sex, my friends said it was getting fucked.

Just before my sixteenth birthday I stayed late at the library helping the librarian do their inventory before Christmas vacation for extra credit. It was almost dark when I left for home. I was crossing the senior lawn when a bunch of dogs came running towards me. This big German Shepard jumped on top of this lab and began to fuck her while the other dogs were waiting their turn it looked like. I was fascinated as I watched that big dogs cock pound the smaller lab. Then they were tied together butt to butt. It took about eight minutes before the knot came out. The lab hardly had a chance to move before a Collie jumped on her and shoved his dick into and began to fuck her. My pussy began to get all wet and I wondered if any of those dogs would fuck me if I got down there beside the lab. I looked all around and couldn't see anyone around and it was almost dark anyway. I removed my panties and got down on my hands and knees. I reached over under the lab and rubbed her pussy where cum was dripping out and I rubbed it into my own pussy. I felt a tongue go into my pussy and another smaller dog came under me and began to lick my pussy. There I was with two dogs licking me. The dog behind jumped on my back and shoved his cock into me and began to fuck me very fast. I felt his knot enter me and swell up causing me to have a climax. I felt him shooting his doggy cum deep inside me. We laid there for awhile and then his knot came out and before I could even take a breath that big German Shepard jumped on my back and shoved his cock deeper than anything I had ever had up there. It felt like the tip of his cock was almost into my stomach. He was shooting his cum way up inside me and it felt wonderful, He made me cum three times before he stopped.

For the next two hours every one of those dogs fucked me at least twice. The Bull dog fucked me in the ass and it hurt like hell when his knot went inside my sphincter muscle. I finally got to my feet and sat down on a bench to catch my breath when the German Shepard jumped up on my shoulders and was able to shove his cock into me from the front. It was a completely different sensation and he made me cum several times. He wasn't able to get his knot inside me so he fucked me four times trying to get his knot inside me. The lab took off and her pussy looked all bloody and puffed up. All the dogs chased after her.

I picked up my panties and looked at my dress. It was torn on the sides and I had scratch marks up and down my sides. There was dog cum all over my dress and legs. I thought how was I was going to

explain this to Mom. I was lucky dad was out of town attending his high school reunion. I came up with an idea so I punched a hole in the center of my panties and the tore the hole wider. I wiped cum from my dress into my panties. When I got home I rushed into the house crying.

Mom, Mom I sobbed, "What's the matter" she asked and then she saw me and exclaimed "Oh my god Loretta what happened to you." I told her about the dogs omitting the part about deliberately letting them fuck me. I said I tripped over one of the dogs trying to get at the Lab who was trying to hide behind me and a big German Shepard jumped on my back and shoved his dick through my panties and into my vagina. I said Oh mom every one of those dogs screwed me several times before I could finally get away. "Oh my poor baby" and she took me into her arms. She gave me a bath and rubbed some oil into my vagina.

The following night I was letting Border fuck me when Mom walked in. She just starred at me. I began to sob and I said I'm sorry but I liked what the dogs did. They made me cum so much. She asked me if I had let Border do that before tonight. I finally admitted I had been letting Border Screw me since I was twelve and told her the whole story. To my surprise she didn't get mad. She lifted up her gown and knelt down beside me and let Border mount her and I watched as Border fucked my Mom. My mouth was wide opened as I watched and it made me horny. She said "Now I know why Border was tired all the time. I trained him to fuck me and I see you gained some of the benefits. Tomorrow you and I are going to my College friend's tea party. It was something my Mother did every Saturday for as long as I could remember. "We will bring Border with us and you must promise that what ever you see or hear you will never tell anyone" She said. I promised.

The next morning about ten we got in the car and drove to her friend Maurine's house. When we got there I noticed there were several cars parked in her circular drive way. When we walked around to the back yard and entered her house through the door that led to a very large Den. In side there were five of my mother's old college friends in a semi circle. Each one sat on a bench like seat. In the middle of the room was a massage table that could be elevated up or down. Each of Moms friends had a dog. Maurine's dog was a giant Great Dane, Next to her from left to right was Francine who had a large mastiff, Then Jeannine had a large Rottweiler; next came Bobbett with a large German Shepard. And last was Teri who had a large skinny Afghan. Then there were two empty benches. Mom took one and brought Border with her and motioned for me to take the last empty bench.

Maureen served us Tea and cookies and the women made small talk. I noticed that all the women were naked from the waist down but each had a leather sleeveless jacket. Maurine handed one to Mother and one to me. Each of the dog's paws had short stockings with elastic bands to hold them on. Mom reached into her bag and put one on each of Borders feet. Maurine said to me, "if you decide not to participate it is ok." Each person but only one at a time will select a dog and the rest will watch them perform. When she is finished the next person will select a dog but cannot take one that has already performed. Since it is Loretta's first time her Mother has agreed to begin. Then we will draw peas to see what the order should be.

Mom selected the Mastiff, a large powerful looking dog. She adjusted the table and then bent over laying her head and chest on the table. The Mastiff sure seemed to know what to do. He first licked Moms pussy for a couple of minutes and then mounted her. He drove his huge cock deep into Moms pussy and I watched with fascination as he pounded Mom cunt. I noticed that each of the women watching Mom being fucked were finger fucking themselves, so I began to rub my pussy and inserted two fingers and started finger fucking myself. I had never seen a dick that big around. When I saw his huge knot I thought he will never get it inside Moms vagina. My mouth fell open as that huge not disappeared inside her and the dog pumped her hard. I saw her cramp her ass and pussy muscles tight and shifted her weight so that the dog was high on her back with its feet off the

floor. His cock was shoved deep inside her and I watched her Ass begin to milk that dog's cock by moving down and back. He was giving her short quick jabs as he shot his sperm inside her. I came just watching her. I let out a moan and all the women looked at me and smiled. I felt myself turn red from embarrassment. She kept milking that big knot inside her for almost fifteen minutes not letting the dog's cock out of her. All the time Mom was moaning and saying all kinds of crazy things like "That's nice, OH YESSSSS, ohhhh yes fuck me, fuck me Ahhhhhhh Ohhhh uhhhhhhhh. You could see she was cumming over and over. Her moaning made me cum again but I did it quietly.

When she finally let him out of her I watched the biggest knot I had ever seen come sliding out along with a huge amount of doggy cum. That dog's dick had to be at least eight or nine inches from the back end of the knot to the tip. I thought Mom was through but what she did was push the dog onto its back and then she knelt down between his front and back paws and slid that cock back inside her pussy. She began riding up and down that dog's cock for another fifteen minutes cumming several times. I loved to see the look on her face each time she came. Her head would look up and her eye lids would flutter and she would grin from ear to ear. I also noticed that she was able to drive that knot of his back inside her. When she did that she would just rocked her Ass back and forth. She told me later that doing it that way it caused the knot to rub her "G" spot and when she came she came a cup full I think. When Mom got up she had a big smile on her face. "Wow, Francine you have trained your dog well" She said. She led the dog over to her seat and let him lick the cum from her pussy. He made her cum again within minutes.

We then drew peas and I drew #3. Next was Teri and she chose the Afghan. She did exactly as Mom had done, but when she bent over and the Afghan shoved his dick deep inside her. I could not believe that it could be longer than the Mastiff but it was. A good two inches longer maybe more, but not as big around as the Mastiff. As he began pounding her I heard her say "OH MY GOD HIS DICK IS IN MY CERVIX. OH SHIT IS HE MAKING ME CUM. I can feel him shooting into my cervix OHHHHHH shit OHHHHHHHH god yesssss. And you could see her pushing her Ass back into the dog's pounding cock and her whole Ass shook when she came.

She did as Mom did when the knot entered her and the dog stopped shoving his dick in and out of her. She milked his cock and kept him inside her for about ten minutes shouting Oh Yessss, I can feel him shooting his hot cum straight into my cervix. When his dick came out it seemed like it took for ever to finally fall out and a stream of cum came pouring out of her cunt. The Afghan's knot was not as big as the Mastiff's. She also put the dog on its back and she fucked him for nearly twenty minutes before getting up. But then she did something I could hardly believe. She got on her knees and bent over and began to suck his cock. I wasn't sure what I felt, kind of between revulsion and excitement. After about ten minutes she led him to her seat and let him lick the juices from her pussy.

Next was Maurine. I was surprised when she chose Border because he was so much smaller than the rest of the dogs. She told us that it had been awhile since she had been fucked in the Ass and had decided this was a good time to do it because she figured Border's knot was not as big as the others. She let Border lick her hairy pussy for about five minutes before turning around and guiding Border into her Ass. He did a good job on her giving her Ass a good fucking. When his knot slipped past her Sphincter muscle she exclaimed OH god that feels good. She held his knot inside her Ass for a good ten minutes and I could see Border giving little jerks as he came inside her. He must have kept cumming the whole ten minutes his knot was inside her because when he finally pulled out of her a great deal of cum came squirting out her Ass. She then led Border lick her Ass hole clean.

Now it was my turn. I was a little embarrassed because I had never had anyone watch me fuck a Dog, especially five women and my own Mother. I was afraid to select the Great Dane. He was huge. I remembered how the German Shepard felt after the previous night so I decided on the Rottweiler

because of the short hair. He was a powerful looking dog with big shoulders. I was horny as hell from watching the previous three being fucked and my pussy was wet from cumming. Maurine adjusted the table for me and I bent over and he began to lick my pussy. He was able to stick his tongue about three inches into me and the sensation made me cum which made the Rottweiler lick me harder deeper and faster. He must have licked me for a full five minutes before he mounted me.

When he jumped on my back he crushed the breath out of me. I hadn't realized how heavy he was. When he shoved his cock up into me I thought my pussy would split. His cock was much bigger around than I had ever had up my hole. It hurt at first but then began to feel real good and I came again. He began to pound my pussy like a jack hammer. I began to cum one, two, three times in succession. My vagina was on fire as I felt his knot begin to swell. It covered the whole outside of my pussy hole and I knew I would never be able to get it in side me. He kept pushing and it wouldn't go in but I didn't care that knot was way too big for me any way. Boy was I wrong.

He moved his front paws to my shoulders and gripped me real tight and gave a big shove and that huge knot slipped inside me. For just a moment there was a pain that shot up my back and I could have sworn my eyes crossed. Very soon the pain went away and a feeling like I had never felt came over me. I thought I was in heaven as I felt that huge knot slipping up and down the inside of my vagina. I had the strongest climax of my young life. He stopped shoving his cock in and out of me and I tried to shift my weight to get him higher like I had seen Mom do but he was just too heavy. I felt him making short little jabs into me and I felt his cum shoot deep inside me. About every third squirt made me cum again. He stayed like that for almost twenty minutes shooting his doggy cum up inside me. When He was able to finally withdraw from me I could not believe how much cum came pouring out of me. I soaked the floor. When I looked at his cock hanging there I was amazed at the size. It was bigger around than the Mastiff and about the same size. I later found out he was eight and a half inches from the back of his knot to his tip. When I sat back down and let him begin to lick my pussy clean I almost fainted from ecstasy.

Next was Jeannine and she took the German Shepard. I heard Bobbett mumble "OH SHIT that means I get the Great Dane. He nearly killed me the last time." Jeannine got fucked just like the rest of us. She fucked him on the floor afterwards just like Mom had and then sucked his cock like Teri had the Afghan.

Then it was Bobbett's turn. Now Bobbett was about my size, which is 5'6" tall and a 122 lbs. She had about the same sized tits as me and I'm a 34c. The Great Dane came up to her waist when she was standing. I watched with fascination as the biggest tongue I had ever seen began to lick her pussy. He made large sweeps from her Ass hole to her clit. He made her cum about the fifth lick. She shuddered all over as she came. She turned around and bent over and he mounted her. Maurine helped guide him into her pussy. He looked like she was putting a telephone pole up her vagina. I later learned he was 11 plus inches from the back of the knot to his tip. At first he was ramming only about 2/3rds of his cock inside her. Then he gave a big shove and buried his cock to the hilt. Bobbett screamed "OH MY GOD HE'S IN MY CERXIX." He began to drill her pussy with long hard jabs. Pulling almost out and then ramming it back deep inside her. She was screaming I'm not sure if it was from pain or ecstasy. I marveled that she could get his knot inside her as I watched it slip inside her pussy. It was by far the biggest knot of all the other dogs and she screamed again, "OH SHIT I SWEAR HE'S IN MY UTERUS." She fainted as he was jabbing short hard thrusts into her shooting his cum deep within her stomach. When she came to he was still shooting his doggy cum inside her. She was moaning oh my god, oh shit I have never cum so much even through the pain. It took about twenty minutes before she let him slip out of her. There was some blood and a lot of cum that came pouring out onto the floor. I thought, I'll bet Mom can handle him with her big pussy.

That left Francine without a dog. Maurine who owns a kennel smiled and said she had a surprise for

Francine. She told us one of her boarders had left his dog with her while he and his family went to Europe. She said that because she was not familiar with how the dog might be around other dogs she decided to put all the other dogs in the back yard. She went into her bedroom and brought out this beautiful large dog. She said it was half White Shepard and half Akita. He was larger than the Mastiff and the Rottweiler. He weighed a hundred and sixty pounds. Now Francine was a big women, almost six ft. and weighed about a 180lbs. She had huge tits. Mom told me later that she was a 46ee. She fell in love with the dog. She let him lick her pussy for quit awhile before bending over the table. Later I found out his cock measure nine and a half inches. It was about the same size in girth as the Rottweiler.

When he shoved his cock deep into her fuck hole she grunted and pushed back at him. He really fucked her hard and fast. She was moaning and groaning and I swear when she came her eyes went back into her head and all you could see was the whites of her eyes. She did that about five times while he fucked her. He buried his large knot inside her and shot his cum into her belly. She could not get him up high enough to trap his knot so within a couple of minutes he slipped out of her and like the rest a large amount of cum came pouring out. I looked at the floor and thought it was a good thing the floor was covered with a large rubber like covering about 10X10. From a spectators point of view what I liked about watching the Akita, Rottweiler, Great Dane and the Mastiff was you got a perfect view of everything that was happening.

Every one was completely exhausted. It was four thirty when we got ready to leave. Maurine asked me if I would like to work at the Kennel week-ends and some holidays provided it was ok with my Mom. Mom said it was ok by her provided I kept my grades up. I suggest to Mom on the way home that maybe we needed another dog. She smiled at me and said "I think your right."

That night I dreamed of fucking ten or twenty dogs at a time. I woke up about 2am and my pussy was all wet so I let Border fuck me before going back to sleep.

~~~~~

## **Part II**

In the Morning I couldn't find Border so I looked in Moms room and there he was fucking Mom. She smiled and said "I wanted one before your Dad comes home tonight." I sat down on her little sofa and watched Border fuck her. I reached over and pulled his tail up so I could see his cock inside Moms pussy. There was dog cum oozing out of her and I could feel my pussy starting to warm. I asked her if she had ever eaten a pussy. "Why do you ask" she said. Oh I read about it in sex education and when I saw you fucking the dog I felt like I wanted to eat your pussy. "Hmmm, well yes when I'm done here I can douche or you can eat my pussy while I suck off Border. You do that? I asked. Yes I love to suck a cock I didn't want to suck that dogs cock in front of you at Maurine's but I'm going to suck Borders when I'm through. I would love to have you eat my pussy." Is Dad a good lover? I asked. "Yes, in many ways but he is so straight lased and only will do it in the missionary position. I would like to suck his cock but he doesn't think that is right and he has never tried to eat my pussy.

I sat there shaking my head because I never new my Mother at all. All these years I thought she was such a puritan. I took a good look at my Mom. She is 36 years old as Border was held inside her pussy and she was rocking back and forth with his knot inside her. I reached around her and began to fondle her breasts. She gave a little moan and it was then I decided to get on the bed and slide my pussy under her face. I took her head and shoved her face into my vagina. She didn't say a word she just started licking and running her tongue up and down my slit tickling my clit with the tip. When she shoved her tongue up into my cunt I came and then I came again. The idea of having my Mother

eating my pussy excited me so much I just kept cumming. I looked in her mirror and I almost started laughing seeing Border with his cock in her pussy and her face in my cunt.

When I had had enough and Border had pulled out of her she just put Border on the bed and began sucking his cock. She kept squeezing his knot and Border kept shooting into her mouth. "Want a taste?" she asked. I hesitated for just a moment and then I bent over and took him into my mouth and began to suck. As I did Mom would gently squeeze his knot and Jizz would squirt inside my mouth hitting my throat. I don't know why sucking a dog's cock excited me but it did. Borders jizz didn't have a lot of tasted and I'm not sure it tasted like anything I had ever tasted. Mom shoved two fingers up my vagina and I came all over her fingers. I sucked Border for about five minutes until he stopped shooting his Jizz.

I was so turned on that I shoved Mom onto her back and spread her legs and buried my face into her hairy pussy. I could taste Borders cum along with Mothers. I licked and sucked on her clit just like Mother had me. She began to moan, Oh god baby that's nice, yes, oh yes that's it just like that ohhhh shit yes, ahhhhhhh and she grabbed my head and shoved my face deep into her pussy. I could not believe how wide her pussy became, half my face went inside her. I took my fingers and began to finger fuck her. Two then three and finally all four fingers and my thumb went in.

I began to pump my fist in and out of her. She was screaming OH MY GOD, OH MY GOD BABBY YOU ARE MAKING ME CUM SO HARD I CAN HARDLY BREATH AHHHHHHH, OHHHHHH SHIT. Her Ass was shaking and she was thrusting her hips up as my hand drove in and out of her. I felt her cervix with my fore finger and couldn't believe how open it was so I shoved my finger inside and she screamed OH GOD HONEY YOU ARE DRIVING ME CRAZY, AHHHHHHHHH and I felt her cumming again. For the next five minutes I fisted her and drove my finger even deeper into her cervix until she fainted. I bent down and licked her cunt and sucked her juices out of her hot wet hole.

When she came out of her faint I said, I never suspected you were like this. I always though you were such a puritan. She smiled, there is a lot you don't know about me and neither does your father. When I was in college the five women you met were all friends and we used to eat each other all the time. One day Maurine brought in a dog. He was a big German Shepard and she let us watch him fuck her. After that we all let that Shepard fuck us. We got addicted to it. Maurine Whose Dad had the Kennel before she inherited it. let us come over on the week-ends and after every one went home we would let several dogs fuck us. We all learned that if you let three or four dogs fuck you one after the other you will have the most orgasms. She showed us how after a dog fucks you, you can continue to use his dick just like a dildo but much better.

"Why don't you let Border fuck you and then I will show you how to keep fucking him. He looks like he is ready to go again," she said. I bent over the bed and Border immediately began to lick cum from my pussy. When Mom gave the command mount he jumped on my back and shoved his dick into my hot hole. It felt so good and when his knot went inside me I came. I locked him inside my vagina and felt him squirting his doggy juices up inside me making me cum again. As soon as he pulled out of me Mom made Border lie on his back and sat down on him. She put just enough pressure to allow his knot to slip back inside her pussy. She began to rotate her Ass back and forth and she fucked him like that for about ten minutes before she came and got off. "See he is still hard, now you try" I did just like she had and sat down on his cock. I was not able to get his knot back inside so I just moved up and down his shaft until I came. When I got off mom told me that if I wanted to suck his cock that was always a good time. She also told me that if I really wanted to receive his full load of cum I would have to let him fuck me in the mouth instead of my pussy. But that I had to be very careful;

Just listening to Mom turned me on. I pushed Mom back down on her back and inserted my fist back

inside her pussy and I fucked her with my fist for over twenty minutes. The last five I inserted my finger into her cervix and was able to shove it to the second knuckle. I thought Mom was going to go nuts the way she was raving. When I took my hand out it was soaked from above my wrist to my finger tips with her cum. I then bent down and sucked all her cum out of her hot wet hole making her cum twice. She then got between my legs and sucked my clit and ran her tongue all over my pussy inside and out. I came four times before she quit. I was glad it was Sunday because we fell asleep.

About noon we woke up and ate lunch. Mom fed Border and added a bowl of milk. About one o'clock Mom said "Bring Border I am going to show you how to suck his cock and receive his full load of cum. She sat on the floor with her back to the bed. She told me to put Borders paws on the bed above her head so that his cock was right in front of her face. She began to jack him off, pushing his sheaf bank and taking his little cock in her mouth. He was already shooting liquid on her face and in her mouth. It only took about four or five more strokes before he started humping. I got down on my hands and knees to watch. His cock was going in and out of her mouth just like it might in her pussy. She pursed her lips so that she had a firm grip. She had placed her hand in front of where his knot began to swell. She sucked his cock as it went in and out of her mouth. Just as the knot became fully enlarged she allowed it to enter her mouth and she sucked his knot. He had stopped his rapid fucking motion and now was just giving short little jerks. A white creamy milk like substance came pouring out of her mouth as she tried to swallow as much of his cum as she could. She choked a little but kept swallowing.

I couldn't believe how horny that made me watching her suck that cock and swallowing that cum. I stood up and straddled Moms face and pushed my pussy into her. She grabbed me by the cheeks of my ass and stared sucking my pussy and clit. After about eight minutes my legs became so weak I had push her away and sit down on the bed. The rest of the day we ate each other six more times and let Border take turns fucking us every two hours. Mom looked at the clock and it was going on five. "Shit your Dad will be home in an hour. I need a shower and a douche because he will want to fuck me at least twice tonight. If you want to watch him fuck me I will leave the night light on and the door ajar. He usually starts about nine after he know your in bed. It will help me get excited knowing your watching. After today I'll need something to turn me on.

Dad came home and after dinner we watched TV for awhile. About 8:30 I told them I was tired and went to bed. I got kind of excited thinking about the possibility of watching my Dad fuck Mother. I had never seen my Father naked. I finger fucked myself for awhile but then I heard Border pawing at my door so I let him in and fuck me while I waited. He really made me cum a bunch because of my anticipation as to what I was about to witness.

About nine o'clock I left Border in my room and snuck up to Mom & Dad's bedroom door. It was ajar so I peeked in. Mom was in bed naked lying on top of the sheets with the covers pulled down to the bottom of the bed. Dad had just come out of the bedroom and I had to admire him. At 39 His body was still fit. He had a little pouch but not much. What kind of took my breath away was the size of his semi hard cock. It looked almost as big as the Rottweiler, at least seven plus inches and about the same size around. He laid beside Mom and began to suck on her nipple while massaging the other one. I realized that Moms tits were about the same as My 34c's They were kissing as dad began to finger fuck her with four fingers using his thumb to rub her clit. He then got between her legs as she spread them and he inserted that beautiful cock into her hairy hole and began to fuck her. He fucked her for about seven minutes before grabbing her Ass and jamming his cock deep inside her and I knew he was Cumming. I went back to bed and let Border fuck me again. As I fell asleep I wondered what it would be like to be fucked by my Dad or any man.

The following Morning I got up and had breakfast with Dad. Mom seldom ate breakfast. After he left

for work I went to Mom's room. She was getting ready to go to work. She was in her crotch-less panties and bra sitting on the bed doing her toenails. "Well, what did you think honey." It made me horny and I had to let Border fuck me before I could go to sleep. He was worn out when we were done. Do you think I could fuck Dad? I asked. "No, he is too straight for something like that. I wish he would then we could have some real fun." What if you got him drunk and I came to your bed and he woke up in the morning after he had fucked me thinking it was you? He would probably commit suicide he's so straight but it might be worth a try. We could maybe get him drunk enough and put him in your bed."

That reminds me my sorority sisters are having a party this Friday and your Dad and I are going so let's see what happens." Oh Mom that would be wonderful and I fell on top of her and gave her a big french kiss. I shoved my hand between her legs and into her pussy and fisted her for almost ten minutes before she finally stopped me. She was gasping for breath and said "Slow down honey I have to go to work and now I'm going to smell like a pussy." I laughed and said it would make the men horny and the women envious. I could hardly wait and the week went so slow. It was hard to concentrate on school because I kept thinking about the possibility of Dad fucking me. I fisted Mom almost every morning after Dad went to work and before Mom had to leave. I let Border fuck me every night.

I was looking forward also to the following Monday when Xmas vacation started. At the end of summer my friend Darcy who moved into our neighborhood three doors from us. She was the same age as I was and we became close friends. I didn't have any boy friends and no close girl friends just girls I knew at school. We walked home together after school every day. She lived with her Dad because her mother died of a blood clot when she was born. Darcy had bigger tits than I did she told me they were 37D's. Because our parents worked we got to spend a lot of time together alone. We started experimenting with each other about two weeks ago. We first played with each other's tits, sucking them and fondling them. We were frenching kissing each other and last week we finger fucked each other. After what just happened with Mom I knew I was going to eat her pussy and maybe get her to eat mine on Monday. Darcy had a dog named Pudge, he was a Boxer. When we started experimenting Pudge would try to stick his nose between Darcy's legs and sometimes mine. She always turned red when he did that. I began to wonder if maybe she had let him fuck her. I decided I wanted Pudge to fuck me which made me horny so I let Border have his way with me.

\*

On Friday Mom & Dad left about eight o'clock. I heard them come in about one. I snuck down the hall and saw Mom staggering with Dad on her arm. She told me to go to the bedroom and in the bathroom cabinet get one of the Viagra pills that were in there. When I brought it to her she sat Dad on a dining room chair and crushed it into a cup of coffee and stirred it. Then she talked Dad into drinking the coffee. We let him sit there for about twenty minutes and then I helped her take Dad to my bedroom and put him to bed.

As soon as I got in bed with him she started sucking his cock. She whispered that the only time she got to suck him off was when he was drunk. He was fully hard in about five minutes so I straddled him and sat down on his cock. It took a little doing to get his cock inside my pussy but when I did I began to slide up and down his cock my god but he felt good inside me. My whole pussy felt full. Mom sat at the edge of the bed and watched. I fucked him like that for almost five minutes when suddenly he rolled me onto my back and began to fuck me hard sucking one of my titties. I started cumming in bunches. He fucked me for over thirty minutes before he finally came deep inside my pussy. I had so many climaxes I lost count and Dad fell right to asleep. Mom kissed me and went to bed.

I snuggled up against Dad. At about five thirty I felt Dads hard cock slide between my legs. I lifted my leg and guided him into my pussy. He was half asleep but he fucked me like that for about fifteen minutes before I felt him cum in me for the second time. We laid like that with his cock still in me. As it slipped out I rolled onto my back and looked at him. He looked at me and his eyes got big and he said, "Oh christ what have I done." He started to get up and I threw my arms around him and hugged him and said it's Ok Daddy, I liked it. I have wanted you to fuck me ever since I watched you fuck Mom the night you came home. "Oh baby it's not right, I don't know how I got in your bed."

Just then Mom walked in and acted real indignant shouting, "What is going on. How long have you been fucking Loretta? You were in our bed when we went to sleep last night and now I find you in here for god's sake." Dad was stammering and you could tell he was confused. "Honest honey I don't remember, I don't know how it happened. I'm so sorry and so ashamed." She looked at me and winked so I took the cue and screamed Mom leave him alone, I liked it and I want him to fuck me some more. Dad said "I can't baby its wrong its incest. Well if you won't fuck me I'll tell my teachers that you molested me. He just looked at me and shook his head. And besides if Mom can eat my pussy why can't you fuck me? I shouted. He looked up at Mom and she pretended to look guilty by lowering her head. He said, "What's happening to us for god's sake" There is nothing wrong I said I like Mom eating my pussy and you fucking it. So from now on that's the way we are going to be or I will tell my teachers that you both have been molesting me. I have the proof if I tell because I have your sperm inside me.

Since it was Saturday we kind of sat around for a couple hours. Mom called Maurine and told her we wouldn't be there this week. Finally I said, Dad don't you find me attractive? "That's not the point, I'm your Father and it is wrong for a man to have intercourse with his daughter." There is nothing wrong with it if every one consents to it and know one finds out. "It's still wrong" he said. Mom piped in and said what's done is done so no use crying over it. I'm Ok with it as long as we share. Dad just looked at her and shook his head. Well Dad what about it. Why don't we all go into your bedroom and make the most of it. I took him by the hand and led him to their bedroom. He followed in a daze. He was still naked so I took his cock into my mouth and began to suck. He just stood there looking at me. Soon I said well Mom you always wanted to suck his cock, now is the time. She didn't hesitate a second but came over and knelt in front of him and took his cock deep into her mouth and throat and began to suck.

It took Dad about four minutes before he was shooting a load of cum deep down her throat. She never lost a drop. Then Mom and I got on the bed and began to sixty nine each other. As soon as I came I inserted my fist into her cunt and began to fist fuck her. I looked over at Dad and he was sitting on their sofa just staring at us. Mom was moaning and groaning. Shortly I felt Dads hands on my hips and he lifted my Ass up and shoved his cock deep in my pussy and began to fuck me like a mad man. I kept on fisting Mom as he fucked me hard. Mom and I were cumming ever minute or so. I took my fist out of Mom and she rolled over and let her feet and knees go to the floor. That's when I saw Border leap on her back and began to fuck her. I heard Dad say "christ," but kept on fucking me. After a few minutes Dad came, I came, the dog came and Mom came.

We laid there all together, Dad, Mom, Border and me. Dad asked Mom how long she had been letting the dog fuck her. She told him about three years and she told him I have since I was twelve but she had just found out. By the way Loretta and I are going to get another dog from Maurine. He said "This has turned into a regular paten place hasn't it?" I really liked the way Dad made love to me the last time. He kissed me and fondled my breasts making me really hot before he fucked me.

Before the day was over Dad fucked me two more times and Mom once. I fisted her and then Dad fisted her and Mom just about went insane. Dad seemed to enjoy doing it. Border fucked me twice and Mom twice before we all went to bed in Mom & Dads king sized bed about eleven. Sunday we

didn't get up until noon. Dad fucked each of us and watched Mom and I eat each others pussy. Mom let Border fuck her in the Ass while she was eating my pussy. We had lunch and then went back to bed. Dad fucked each of us again and I let border fuck me in the Ass while I ate and fisted Mom. It really hurt when his knot went through my sphincter. When the pain went away I found I kind of liked it.

We had dinner and Dad took a Viagra and fucked both Mom and I without stopping. Later Dad was fucking me doggy style when Border jumped on Dads back and began to fuck him in the ass as he fucked me. To my surprise he let him, later telling us it was kind of nice. Mom told Dad it was nice that he finally came out of the sexual closet. We all laughed.

As we were getting ready for bed Mom asked Dad if he would like to fuck all her sorority sisters. Are you kidding he asked. No she told him all her friends think he is a fox and would love to fuck him. "Hell I've come this far, so hell yes I would love to fuck them." Mom told him that starting next Saturday she would educate him into the world of sex. I fell asleep with Dads cock in my pussy and Moms tit in my mouth. I dreamed of dogs fucking me and Moms friends eating my pussy while Dad fucked me. I woke about four and felt Dads cock in my pussy and he slowly fucked me and I fell back to sleep just as he came inside me.

~~~~~

### **Part III**

I woke up Monday morning with my pussy full of my Dad's cum. I went into their bathroom since I had slept in their bed and took a long hot shower. I douched my pussy and my ass since it was full of Borders cum with the shower head off. When I went to the kitchen Mom was singing to herself. You're in a good mood this morning I told her. Why shouldn't I be my husband has come out of the sexual closet and I can now be my true self. I am going to stop off at the local porno shop and get you a butt plug since I watched you enjoy letting Border butt fuck you. I will call Maurine from the office and talk to her about what kind of dog we should get.

After Mom left for work I called Darcy to see if she wanted to get together. I left about 9:30 and went over to her house. Darcy let me in and I could see she was still in her little short night gown. It just barely covered her Ass and I could see she didn't have any panties on. It made me a little hot just seeing her like that so I kissed her and she frenched me back. We went into her bedroom and began to play with each others tits after I took off my dress and panties. As we laid there I began to finger fuck her. It was then that I realized her pussy opening was much bigger than someone her age might be if they had never had sex. I asked her if she had ever let Pudge fuck her. She turned red and said, "No, he has tried to fuck me a lot of times but I have been afraid too. I looked down at her pussy and I had three fingers inside her. Well then has your Dad ever fucked you?"

The look on her face said it all. Tears came into her eyes and she said, "Why would you ask me something like that? Because your pussy hole is to big not to have not been fucked by something or someone. Since you live alone with your Dad I just guessed. Tell me about it Darcy as she began to cry. She sobbed, "Dad and I have been sleeping in the same bed since I was three years old. Just after we moved here Dad went out with some of his new friends and got pretty drunk. I put him to bed but I couldn't get his pajamas on so I just covered him up naked. When I got into bed about an hour later it was pretty cold and Dad felt so warm that I took my night gown off and snuggled up against him.

As I laid there next to him I felt his penis getting harder and harder. I opened my legs and it went right between my legs. I reached down and felt his warm hard penis. Loretta It made me all warm down there. I began to finger fuck myself. I wondered what it would be like to have his penis inside

me so I pushed him on his back and got on top of him. He was snoring something awful. It took me almost twenty minutes to get it in. It only went in about three inches because I felt it up against my hymen. I gritted my teeth and pushed down as hard as I could. Loretta, the pain as it went all the way up inside me almost made me faint. My Dad woke up and started to push me off. I grabbed him around the neck and hugged him hard. I just sat there for minuet or two until the pain stopped. Then I began to move my pussy up and down his penis. Loretta it felt so good.”

He said, Ohhh honey this is so wrong, and then he rolled me over and lifted my legs and began to fuck me hard with long slow strokes. He fucked me for a long time and I came several times before I felt him shove his dick hard into my pussy and I felt his warm cum hitting the bottom of my pussy. Loretta it was so good I came twice after he stopped fucking me because his cock felt so good inside my cunt as we laid there breathless. He fucked me two more times before morning. He got me some birth control pill and has fucked me at least twice every night since. On the weak-ends he fucks me tow or three times a day and eats my puss too. I like to sucking his cock and make it hard so we can fuck.

I became so horny I pushed her back and got between her legs and began to eat her pussy. I licked and sucked her clit like a mad women. I heard Pudge come into the bed room so I swung me Ass over the bed and Pudge began to lick my wet pussy. The more he licked the harder I sucked her cunt. When He mounted me and shoved his cock into my hot pussy hole I moaned “That’s it Pudge fuck me good. And he sure did, he pounded my hot wet pussy like there was a dick on the end of a jackhammer. When his knot entered me I groaned again and came for the third time. He hammered me for about three minutes when that knot rubbing up and down my “G” spot caused me to cum a bucket full all over the carpet. I collapsed with my face buried in Darcy’s crotch as I felt Pudge’s jizz shooting into my pussy cavity.

When we both got our breaths Darcy said, “Did Pudge really fuck you? What was it like?” Wonderful I gasped. You need to give him a try. “Ok, when?” she said. Lets give him an hour and then he will be ready. We laid there for the full hour kissing and frenching each other. She ate my pussy and it was Ok but not as good as Mom. Of course Mom has had a lot more practice than Darcy. I went and got a dirty bath towel and laid it on the floor next to the bed. I had Darcy lay on the bed with her knees on the floor spread apart. It took Pudge about ten seconds before he was licking her pussy. Darcy started giggling and then moans as his tongue went up and in her slit. He licked her for almost five minutes before he mounted her. I guided his cock into her wet pussy and Pudge began to pound her cunt like a piston.

Darcy began to moan and babble, “Ohhhhhhh god ohhhhhh shit ohhhhhh shit I’mmm coming. Yessssssssssss ohhhh god Loretta I can’t stop cumming. Just then I saw his knot enter her pussy and Pudge began to give those short jerks as he shot stream after stream of his cum up into her fuck hole. Ohhhhh shit Loretta I can really feel him squirting inside me and it is making me cum even more Ohhhhhh myyyyy god.” And she had one of those intense “G” spot climaxes. Just like I had and my Mom had. It took about fifteen minutes for Pudge’s knot to extract and when it did it made a loud popping noise and her cum and the dogs cum came pouring out of her onto the towel.

We had a late lunch and then for the rest of the afternoon we took turns letting Pudge fuck us. Just before I left I asked Darcy if she liked fucking her Dad? She told me yes, she enjoyed it but she has never climaxed as much with him as she has been having with Pudge. Then I asked her if it would upset her if I let her Dad fuck me. She hesitated for almost a minute and then said, “Wow, I think a threesome would be exiting and wonderful.””

When does your Dad usually like to fuck you? “Usually when we go to bed and first thing in the morning.” Not good I said. What if we let him catch us eating each others pussy or fucking Pudge? “I

don't think it would be a good Idea to let him know about Pudge just yet. Let's take one step at a time," she told me. What time does he usually get home from work I asked? "About 5:30 give or take fifteen minutes." OK, tomorrow we will get all set up and we will pretend we lost tract of time and when he comes home we will let him catch us. Just thinking about it is making me horny and its 4:45. We won't have time for another session with Pudge. "Your right, but my pussy is all wet thinking about it. I pushed her down and began sucking her pussy cleaning all her cum and Pudge's doggy cum out of her pussy. I left at 5"20.

Mom came home about 6:15 and called me to her bedroom. When I arrived she told me to bend over and when I did she inserted a butt plug into my Ass. It was about two and a half inches in diameter and about three and a half inches long. It made me get kind of excited. Mom pulled out this butt plug that was at least three and a half inches wide and four inches deep and shoved it up her own Ass. I was still horny from thinking about tomorrow with Darcy's Dad so I gave Mom a big French kiss and shoved three fingers into her pussy. I pushed her onto the bed and pulled her panties off and reinserted my whole hand up her snatch and began fisting her. I fisted her until Dad came home a little after seven. Mom was moaning and screaming as Dad walked in. "Ohhh my god, ohhhhh yes baby, Ohh shit AHHHHHHHH" and she came all over the bed.

Dad took his pants down and jumped between Moms legs shoving his cock into her pussy. He fucked her hard and fast. It took him about four minuets and he lifted Moms legs up high and drove his cock down deep and came. "What a home coming," he exclaimed. After dinner Mom told us that it was all set for Saturday and we can leave Bruno home as Maureen will provide us with the necessary replacements. I was ecstatic. Dad woke me about 6:00 with his cock in my pussy. I was getting real use to having my Dads wonderful prick wake me each morning. It was such a leisure fuck and when he came inside me I always came too.

After Mom and Dad left for work I went over to Darcy's about 10:00. We planned how we would set up her Dad. Then we ate each others pussies. I really enjoyed her pussy. She had these cute puffy little pussy lips and I enjoyed how her clit would get bigger as I sucked on it. It was not near as big as Moms but her pink little shaved pussy tasted real nice. We took turns letting Pudge fuck us and he was learning fast. He seemed to last longer each time he fucked me with his knot inside me, making me cum more. About 3:30 we took a shower together and then douched with a strawberry flavored douche.

We put Pudge outside in the back yard and Darcy sat by the front room window waiting for her Dad to come home, it was 5:15. I laid on her bed playing with my clit getting my pussy ready for Darcy's mouth and tongue. Darcy was doing the same thing. I only had to wait about ten minuets before Darcy came running into the bedroom whispering "He's here." I was so excited over the prospect of what was about to happen. I came almost immediately when her tongue entered my vagina. We heard him come in the front door as he hollered, "I'm home Darcy." I could hardly contain my self in anticipation. Darcy's Dad was a good looking man not as big as my Dad but about 5"10" and very muscular. He was only thirty five Darcy had told me. We heard him wondering around in the kitchen and I sucked in my breath as he came down the hall toward Darcy's bedroom.

"WHAT THE FUCK ARE YOU DOING DARCY?" he shouted. We pretended to be startled as if we had forgotten the time and were caught. "Dad," Darcy exclaimed. "GET YOUR ASS UP FROM THERE, AND THE TWO OF YOU GET DRESSED. I'M GOING TO MARCH YOU OVER TO YOUR PARENTS HOUSE LORETTA AND TELL THEM WHAT I CAUGHT YOU DOING." HE SCREAMED.

It was not the reaction we expected. As soon as I got dressed he grabbed me by the arm and said lets go young lady. Darcy suddenly marched over in front of him and shouted, "Dad leave her alone, you're not going to do anything. She knows about us." "What" as he stopped dead in his tract. "What

are you saying," he whispered. "I told her you have been fucking me since we moved here." "OH Darcy how could you. Don't you realize I could go to Jail?" Don't worry I said, I'm not going to tell anyone. I paused for effect and then provided you fuck me too. He just starred at us with his mouth half open. "What are you saying," he asked. Darcy said, "what we are saying is that we want you to fuck us both, you know a threesome."

He sat down on the bed and put his head in his hands, saying, "Darcy do you know what your asking? You are not only my daughter but your both minors. If anyone were to find out I could go to jail for a very long time." "No one is going to find out," Darcy told him. "You say that now but what if you too get in a fight and then what is going to stop her from telling on us?" I swear I would never ever tell anyone, I have my own secrets that I don't want anyone to find out about, I told him.

Darcy winked at me and nodded toward his crotch and then she pushed him onto his back. She straddled him and then sat on his face. I unbuttoned his fly and pulled out thick dick and began to suck him. It took me almost five minutes to get him hard. I think it was because he was still stunned. He was not as big as Dad but a little thicker. I heard Darcy begin to moan so I knew he must be eating her pussy. When he came he filled my mouth with his creamy cum and I swallowed most of it. I then sat up and watched for the next ten or fifteen minutes Darcy getting eaten by her Dad.

I had left a note on the kitchen table telling Mom that I was having Dinner at Darcy's. We let him rest for about a half hour and then we took his clothes off and Darcy began to suck his cock. When it got hard she told him to fuck me. I expected him to just shove his dick inside me but instead he got between my legs and started eating my pussy. He had a very nice tongue. He was better than Dad but not as good as Mom. He sucked my clit and ran his tongue up and down and then deep inside my wet hole. He made me cum twice before he scooted up and took one of my breasts into his mouth and began sucking. With the other hand he fondled my other nipple pinching and rolling it between his thumb and forefinger. I was so hot I came as he put about two inches of his fat cock into my cunt. He gave a big push and buried his cock all the way in. My pussy felt completely full and it felt wonderful. He had great control and fucked me for almost half and hour before drove his cock deep and came. I felt his warm cum shoot into the bottom of my womb. I came at the same time. After a short time he fucked Darcy and then he fucked me again before I left for home about nine.

For the rest of the week I got fucked by my Dad in the Morning and occasionally at night. Darcy and I would eat each other and get fucked by Pudge during the day. Her Dad would fuck me as soon as he got home from work so that I could get home in time for dinner. It was a toss up between my Dads longer cock and Darcy's Dads fatter one. Sometimes before Dad got home from work late and before dinner I would usually eat Moms pussy and fist fuck her. Then just before bedtime Mom would eat my pussy as I fisted her. Also I noticed that Dad was now letting Border Fuck him in the Ass everytime he fucked Mom. It was a wonderful time. I was also anxiously awaiting Saturday to see what was in store for me.

*The End (?)*
