BEASTIALITY STORIES

Part I

My parents got separated when I was a little girl. I don't have much memories of my mother except for her beautiful body and long blonde hair.

She would often roam around naked in the house, flaunting her big butt, beautiful breasts and the curvy waist. I admired her like people would often do to a Goddess or an art piece. But dad often yelled at her which didn't make any sense. Before I could understand what's going on, I found myself left alone with my dad and never met mom for a long time after that.

My dad has always been a hot headed man and raised me with too much restrictions. I hated every bit of it and missed my mom so much. To escape all his bullshit, I pretended to be a nice girl and rebelled behind his back. My best friend Rebecca had a sort of similar background. She was being raised by horrible parents. The only difference was that she was being sexually assaulted by her own father.

Rebecca and I started to stay out more and went around having sex with random boys. Later, we got tired of providing non-profitable sex and stopped all these sexual charity shit. We decided that taking money for sex would make more sense.

We started selling sex to older men with cash and I suddenly found out that I liked doing it with much older men than the boys my age. Rebecca wouldn't give a shit about the customer's age but I would select only those in their 50's or older than that. I would often do them raw if they offered a little more than the usual rate.

Becca told me suck off the cum or take it on my face if I didn't want to get pregnant. But I liked the thrill so I wouldn't even take birth control pills. Those old men liked it more that way so it worked for all of us. I could always clean out the cum from my pussy with a little help from Becca. She would furiously finger fuck my pussy, every time I told her that I had cum saved in my belly. I later found out that she had once gotten pregnant by her father and her mother forced her to have an abortion.

A few years later, my dad got married to his girlfriend and I didn't like her at all. She would always look at me like I was some kind of dirt. So I fucked her father on their wedding night. The very next morning, they found out and immediately kicked me out of the house.

I went to Rebecca's apartment where an unknown woman showed up later that night. "You're Alexa right? I'm your mother..." that's what she said and I lost all words. I had no idea who she was and yet she claimed herself to be my mother. She looked almost like me so there was no doubt we are related.

Turned out, it was my dad who called her pick me as he had thrown me away, like I was some trash. She told me that, she knew why I was kicked out and how I was living my life until then. She told me that she was constantly fucking other men even after I was born and the time she fucked dad's own father, made him loose his patience and kick her out. She thought it would be bad for me to grow up around her bit later she regretted not taking me with her.

She started sobbing while talking about how much she missed me. "You were born a whore Alexa. Just like me, your mother. There's no way of escaping it. We can only embrace what we are and enjoy what we have, while we can. That's all we can do." she said and I agreed.

Rebecca let my mom stay at her apartment for the night and the next morning , I found them naked,

together in the bed next room. I didn't think much of it as I had been guessing that Rebecca was a Lesbian. I thanked Rebecca for letting me and my mom stay for the night and left with my mom.

After a long drive, she took me to a big house with a pool and big walls around it. Two dogs came out of the house barking loudly and panting. One of them was a Black German Shepherd and the other one was a Bulldog. They looked like predators.

I was kind of shocked and stepped back but mom seemed to be used to it and opened her arms for them. They jumped on my mother and started licking her cheeks and breast. Only then I realised that she was actually wearing a very small bikini top that didn't even cover her areolas. The ripped shorts didn't cover much of her big ass either.

A few minutes later an old man who seemed to be in his sixties, came down the stairs. He was a fat man with bald head and chubby cheeks. I immediately felt horny and kept staring at him. He came to my mother and kissed her on her neck. I thought she was dating him but I was wrong as within a couple of minutes, a few more old men came out kissed my mom like they were used to fucking her regularly.

There were seven of them. "What are you mom? The Snow Whore with the Seven dwarfs?" I asked her in a very serious expression but she laughed it off. She just introduced me to them and they were already touching all over my body. Not that I minded.

Later that night, they brought in a few more friends and they all gangbanged me and my mom at the same time. We were lying on the same bed side by side and those men took turns, fucking our mouth, pussy and ass.

We became rod sisters on the very first night and started living the raunchiest life one could ever imagine.

My mornings would start with those old folks standing around my bed and jerking off their morning woods. I would gladly suck them off dry and swallow their cum. Sometimes my mom would collect all the semen from them in a baby bottle and feed it to me like feeding milk to a baby.

We would fuck all day and sometimes lick each other's sore pussy for those men to watch. My mom would often tie my legs up on the ceiling, spreading them apart from each other and hang me upside down. The men would ride me like a bicycle and pour loads of thick cum into me.

Sometimes she would spread my pussy wide, like she would open a packet of chips and let those men spit cum into my pussy like I was some trash can. She would later put corkscrews in my pussy to trap all the semen in. I later found out that she wanted me to get pregnant by one of them to get the money from child support. Or maybe even force them to hand over a huge portion of the money they would leave behind soon.

I was actually enjoying my life and having so much fun that my dad would never allow me to have. Mom let me pierce my belly button and nipples. She would even let me smoke and drink as the men in the house loved gangbanging me when I was high.

She let me play with her toys and I gradually learned taking in her one foot long dildo and two cocks in my pussy at the same time.

One night I was high on some shit one of those men brought for me and two of them started pulling me by my nipples. They pulled me up the stairs and took me to one of the rooms that I had never been to before. It was where the dogs stayed and it always seemed to be locked. Although I had

sometimes heard screams and moaning of my mom but I never paid much attention to it.

They pulled me into the room and I was shocked at what I was seeing. "Mom?"

~~~~~

## Part II

I couldn't believe what I was witnessing. My mom was on the bed, on all her four and one of the dogs was on top of her! "Go on! Have a good look!" the old man who brought me in the room, whispered in my ear.

I was curious and slowly walked to my mom. She moaning like she had never felt like this before. The entire thing amazed me. "Ahh...aahh.ung W-Why are you here? Oohhh.." she shouted at me. "Get the fuck out of here, Ahh Unng...right now or I'm gonna...Ahh... Spank your ass" she kept crying in pleasure and shouting at me. I still went to her. "O my gosh! Is he fucking you? Is the Dog fucking you? What the fuck!" I asked in disbelief.

One of the old men lead my head under them and I saw them connected for real. I never knew women could fuck Dogs. Rebecca once told me that some women like getting fucked by animals but that was beyond my imagination. But there was my mom, right in front of my eyes, on her hands and knees. Her big, round boobs swinging at a rhythm. She was taking the fucking from a Dog like it was her Master, not otherwise. I was watching the hole getting ravished by a dog, where I came out of. It gave me a tingling sensation in my own pussy.

All of a sudden, the dog took a turn, while he was still in my mom's pussy and my mom screamed. Now they're facing to the opposite direction from each other, while still joined at the him. The old men explained the situation to me. They won't be separated until the dog's knot doesn't shrink. It took quite awhile and they splashed all the salty cum on my face when the knot popped out from my mom's pussy. The dog ran off as soon as he was finished and one of the old men laid mom down as she looked very tired.

Her pink pussy was red and swollen. The dog's cum was running out of her. Few of the old men proposed that I lick my mom's pussy to make her pain go away quicker. I was more than willing to help my mother. They spread out mom's legs and I sat them. She was still moaning. My tongue wiggled into her cum filled pussy and started licking her Holy Tunnel. She started moaning loudly, again and I nibbled on her clitoris. She screamed in pleasure and held my head tightly to her pussy as she cummed in buckets. After that, the old men suggested I suck of the dog as well.

I went between his legs enthusiastically and started touching his balls. I wanted to learn how to pleasure and the instructions from the men were very helpful. I had just started sucking it off and making it cum again but I felt someone grabbing my hair from behind my head and pulling me up. It was my mom! "Don't even dare to touch them, Bitch! They're mine. You're not allowed to fuck them!"

To be honest, that was the first time getting angry at her, after meeting her again, so many years later. "So you can fuck them but I can't?" I questioned her. She slapped me on my boobs and said "No you can't bitch. Hell N-O ! Go fuck some rats from the garden if you like, not them!"

I was really upset after that heated argument and I cried because she pulled me away just before the fun even started. She was the coolest mom I had known until that day. She herself took me to pierce my belly button and my nipples and even promised I can get myself branded with a Tattoo, as soon as I get my own 'Master' or 'Husband'. I was naked on my bed and a few of the old men came in. My

boobs were shaking as I was weeping. I removed my blanket and spread my legs as soon as they came in.

They started gangbanging me without asking any question while I was still crying. They came hard in my pussy, ass and mouth and I almost choked on their thick cum. I wiped my mouth and kept lying on the bed with cum running out of my pussy. Two of them laid beside my both sides and started playing with my nipples. Another one of them sat at the corner of my bed. I told them to suck on my boobs. "You want to talk?" one of them finally asked. They usually care only about my holes and boobs.

I told them that I was sad and they told me that earlier when they were fucking mom, one of them told her that it's only right that I should be considered as the 'Queen' of the house, instead of my mother as I was younger and my pussy was way tighter than her. That made her more angry as she was clearly jealous of me. But I didn't like that idea and told them that I wouldn't do anything my mom wouldn't allow. I hadn't met her for years and now that I have, I didn't want to piss her off.

But they told me that they can take me somewhere I can do whatever I want for the entire night and my mom wouldn't even know. I licked my lips unknowingly and they laughed at me teasingly.

When mom passed out from the sex, the three of the old men, dressed me up in a black strapless tube dress that had big cutouts all over the body. It was so short that I couldn't cover all of my bum cheeks without flashing my nipples. I wore a pair of black and red heels and set off without a pantie.

They took me to a club which was quite lavish and introduced me to a man who seemed to be in his fifties and had a big bald. They were taking me in a private room and I was being groped all the way. When we went in the man I was introduced to, locked the door and pull away the small table that was in the middle of the room. He opened a hinged trap door which led us to a secret basement. There was a whole bunch of people in there. Another club under the club we visited. That's what it seemed to me.

Most of them were wearing masks and most of them were either completely naked or topless. A few of them pinched on my nipples over my dress. I took it as a sign to take off my clothes and I did that without any hesitation.

After a few drinks I was almost out of the world. They laid me on a bed and started putting toys inside my pussy. I immediately started to feel horny and ask for more.

Someone whispered into my ear, "You wanted to fuck a dog, right? We got you one!"

They brought in a German Shepherd and put it between my legs. I started licking my lips and stretched out my hands to the Dog "Come baby, come inside me and ruin my pussy" I said while squeezing my boobs briefly.

Two women in masks came to my both sides and started opening up my pussy lips as wide as it was physically possible. After that, they pinned the pussy lips with clip and hanged the chains to it, to walls from opposite side of the room. Then they attached chains with the nipple rings I had on my boobs and hanged them on the ceiling. I was leashed with a dog collar as well. I started to feel the pain and pleasure from the arrangement.

At this point I would do anything to fuck the dog. I would've endured anything even if I hadn't liked something.

The drugs were taking it's effects and I slowly felt myself over the clouds. I felt something going into

my hole. Something warm and hard. It was definitely not a man cock. In fact it couldn't be compared with anything I had taken into my body until that moment. The clip on my pussy lips were removed and I suddenly started feeling stuffy. After awhile I felt like the base bulging and it got me scared. Soon it got big to extent that I found myself struggling to breath from all the pleasure. I was scared and cried "What is this thing? Take it out uhh...ooohhh... oom... Take it out!" I was moaning yet begging to take it out at the same time, without even knowing what it was.

My head was spinning and I noticed people in masks, gathered around me. They were laughing and pointing at me. Some people were even filming me and touching my body here and there. I saw the Dog between my legs, humping my life out.

Suddenly it twisted and turned around while it's cock still inside me. I moaned again. It was flooding away my insides with cum.

I was given shots that kept my head light so some events were lost. Next thing I remember is the Dog, tied with a big ball like thing in my pussy and he was pulling it hard to break free. I felt a sharp pain down there so I screamed my lungs out "Get it out! Get it off me!" and cried like a baby but the pain gave me pleasure as well which made me squeeze my vagina wall unconsciously.

I heard some people laughing. Two of them grabbed my waist and a few others grabbed the dog and started pulling us apart. The pain intensified and so did the pleasure. "No! No! Why're you taking him away? Don't take him away! Please!" I begged. I cried and moaned and the Dog was whimpering as well. They still pulled it out with a great force and I heard them laughing. "Give him back!" I pleaded while massaging my sore pussy. Dog cum was dripping out of my pussy like water gushes down from broken River Dam.

"You want it again?" a girl in mask asked smirking. "Yes! Please! Please!" I licked my lips looking at the Dog Dick. It had a huge ball at the base. "That went inside me? What the fuck!" I asked slurring with my eyes pooped out at shock. It looked a giant coffee mug. It was larger than the fist of a giant Black man I once fucked.

Another masked girl explained to me that it was a Knot. Dogs use it to tie the Bitch to their cock and breed her. It made me even hornier after hearing that. I literally begged for it. So they shoved it in my pussy again only to pull it out forcefully and repeated the whole thing multiple times until the Knot shrank.

They gave me Cocaine and Ecstasy to get me relaxed. Mom had already taught me how to do certain drugs in moderation and I remembered to follow her instructions even though I was high.

As I felt energetic again, I asked for more. As soon as the club manager came to check out the condition of my pussy, I begged him to let me fuck another.

"C'mon! How cruel can you get? The Dog's tired, can't you see? Training these types of dogs cost a lot. We gave it to you as a complimentary service cause you're new here. We can't keep providing you free fuck! This is business"

But I had no money on me and the old farts who took me there refused to give me any. But I was already feeling void and lonely down there. I was going crazy and started screaming. "I want to be fucked by a Big dog! I need to get Knotted! Give me a fucking dog!"

So they proposed a deal. I could work at their "Glory Hole" station for a couple of hours to pay up. To be honest I could even kill and die to fuck a dog, at that time. I agreed to it immediately.

They took me inside a giant Plywood box that was covered with Red Velvet material. It had three big holes at one of it's wall and beds attached to the walls from other side. There was a door to enter the box and even an attached toilet room.

The rules were simple. I had to keep lying on the bed with my legs spread out and let dicks that would come in from the hole enter my pussy. Ass and mouth wouldn't be needed in that particular box and I wasn't allowed to leave the bed unless I needed to use the toilet. Foods would be served at my bed.

I felt kind of interested. Two more girls joined in but they both had masks unlike me. I noticed a couple of Cameras installed in the room but I didn't mind cause there's no "society" for me to go back. I never gave a fuck anyway.

So I started taking in anonymous cocks of men I couldn't even see. They never stopped and foods were brought to my bed as promised. They gave me drink and eat whatever I asked for but I couldn't leave the bed . A masseur came in few hours later and made sure I was comfortable with the situation. I gave him a blow as my mouth was feeling lonely. 'The next time I get my hands on a Dog I'm definitely going to suck it's cock' I thought to myself.

Meanwhile the two girls beside me got up and left. The beds got occupied with a new set of anonymous girls. I talked to them and found out that they paid to be there, quite opposite to my situation.

The next time, a 'maid' came in to serve me meals, she gave me a shot. After that, they kept providing me with drugs as soon as the the previous drug began to wear off.

I lost track of time. The next time I got back to my senses, I was lying there alone in an empty room with a pounding head and sore pussy.

I got out of the room and the basement was cleared out as well. I laid there on the bed I got fucked by the Handsome German Shepherd . I didn't remember how long it had been. I kept fingering my sore pussy and fell asleep again. The next time I woke up was in a hospital bed and my mom sitting across the room.

She was crying. As soon as I called her out she jumped up and grabbed me in her arms. "Oh! Baby... You're fine. I thought I had lost you. I can't loose you again."

I was shocked and confused "Mom, what just happened?"

~~~~~

Part III

"Oh Alexa! My baby...my beautiful baby girl. You can't remember anything can you? You were there for two entire days! I couldn't even find you anywhere and contacted CJ" my was mom weeping. " Who the fuck is CJ?" I asked as I was confused. "Umm... Well..." my mom said "He is the owner of the house we're currently living in. He...um... How do I explain this... He has a fetish of watching women get fucked. So he let me stay there and bring in guests. He has surveillance cameras installed all around the house so he can keep an eye on us. "

"What the fuck mom?! And you never even told me about that!" I was beyond confused. "You don't really mind though, do you?" she asked. She was right, I didn't mind anyway. She continued "So the old guys who sneaked you out of the house, were trying to sell you off to that club. CJ found out that

you were put in the 'Glory Hole' to see how long you last. The Manager is a sick bastard. He needed some girl to have the experiment done and found you at the right time. There was a Digital number display board on the wall of the basement and it said 3147 when his people found you. I guess that many people have fucked you for these two days. Luckily CJ is a friend of that club's owner and we were able to get the information that you were there and we could save you before you would die from sex and drug overdose."

"They didn't force me to do anything! I chose to do it myself." I yelled. "Why would you do that honey?" my mom was confused. She was still crying. "Well, guess what, you drove me down to that path, in the first place! I had no other choice. I wanted to fuck a Dog but you wouldn't let me! They'd let me have what I needed so I did whatever they told me to do! And you know what? I didn't even feel anything when they kept fucking me. All I had in my mind was Dog dicks!" I was angry and yelled at her. "Oh honey! You wanted it so bad. Sorry I didn't know. I'm a bad mom for not letting you have a dog cock inside of you! But you know that I love you right? Mom loves you so I want the best for you. I was trying to protect you from turning into a sex crazed bimbo like me. Once you get to taste the pleasure of Animal sex, you can never get over it baby, trust me. Isn't there a saying, Once you get hooked on Bestiality, you can never get back your Sanity ? " "I'm pretty sure you made that up" I scoffed.

After coming back home and taking a long shower, I laid my back on my queen sized bed and started to masturbate with the thickest dildo I had in my closet. It wasn't enough so I told mom about the situation. She put her fingers into my pussy and found a wide gap at the entrance. So she brought her giant dildo 'Stan' she had purchased from 'Bad Dragon' and it still wasn't enough. I couldn't fill up the void that was created in my pussy and heart after fucking the dog at the club. I was probably fucked by over 3000 men after that but I could feel nothing! Maybe mom was right. I can never go back to the life I had before.

"Mom Please, Please, Please Let me Fuck your Dogs!" I pleaded. Meanwhile the old men in the house showed up in my room after they heard about my sexual adventure. They too requested mom to let me get fucked by the dogs so that they can watch me go nuts. Mom finally let me 'Go to the dogs' and yes I mean it literally.

The old men in house lifted me up and carried me to the 'Pet' Room as I was being crowd surfed. Mom accompanied me to the room and sat by me on the bed when they laid me down on my back. My pussy was dripping wet when they brought the American Bulldog. He was the ugliest and most ferocious dog we had. He was aggressive and was about to be put down when Mom and one of her guests rescued him. They gave him a new life and taught him how to pleasure himself with a human female.

I spread my thighs for him as wide as I could. He was barking loudly which scared me but at least he was muzzled with a wired mask. He was black and had a spiked collar which made him look more scary and masculine. "Mom, buy me a collar like that. I wanna match with him" I told my mom and she agreed.

I was licking my lips and pinching my nipples "Come baby! Come to mommy!" I said to the dog. The men guided his cock inside my pussy as I was squeezing my boobs and mom started rubbing my pussy lips. She stretched out the hole and the dog shoved it's cock inside me. I gasped loudly holding onto my mom's arms. My eyeballs rolled up from pleasure and I felt my nipples standing straight. The pleasure was out of the earth. "Hush baby! Hush now! Don't reveal that you're in pain or the men will find it overly pleasing and they would ejaculate quickly."

After getting thrust for awhile, the dog knotted inside me. I was tightening my vagina wall

subconsciously but kept moaning and screaming at the same time. "Take it out...ahh..ooh...take it out of me!" I shouted. The men looked confused. One of them told others that they should just do that. My mom surprisingly liked the idea. She knew how the whole knot thing worked but she still told everyone that they should do that. I was biting and licking my lips, imagining my previous experience of pulling out the knot forcefully.

Mom grabbed the dog and two men held my waists. They started pulling us apart. Moans slipped out of mouth but they mistook it for pain. They stopped for a moment and started pulling again. I was clenching my pussy and keeping a tight grip on the knot. After awhile they realised I was actually reluctant to let it go. "This bitch is actually biting on the knot with her cunt!" one of them scoffed. The others laughed lecherously and decided to keep pulling until we are separated. It was literally a Tug of War between them and me. Even my mother took their side. She didn't want me to have the dog to begin with.

After a few minutes, they finally managed to pull it out. I came really hard and rolled back my eyes in pain and the pleasure it gave me. The dog was whimpering. I was laying on my back with my legs wide open and dog cum running out of my pussy. The old men then flipped me on my face and made me raise my ass. My boobs were getting crushed on the pillow so one of the guys laid his head under me and took my nipple into his mouth. He sucked my breast for the entire time. They made a German Shepherd nail my ass.

After it was done, another dog was brought and this time I made it fuck my pussy from behind. It was a big Mastiff and it ruined my pussy. I was biting my nails in excitement. After the dog was done, it knotted inside me. Pain and Pleasure took over my entire body and my head felt dizzy. The dog tried to get his knot out of me when it was done flooding my pussy with cum and to make it worse, those old farts teased it with chicken drumstick. It jumped out of the bed and ran around the entire house, with my pussy stuck with it's dick . I was screaming and crying the whole time. It dragged me around the entire house, until someone finally let him have the food. We were in the kitchen at this point.

Mom seemed annoyed and yelled "Enough with this drama. Get the dog off from the bitch, already". One of the old men to grabbed my tiny waist and shoved his fat cock into my mouth. Others grabbed the dog and started pulling it apart from me. My mouth was full so I could only muffle. After using brutal force, the old men separated the dog from me. I tried to scream even with my mouth full. As soon as the old guy saw the dog dick pop out of me, he moaned, screamed, and his fat old cock started spilling the thick cum on my tongue. It started running down my throat and into my belly. It was too much but I gulped down as much as I could. After that I tightened my soft, pink lips around the fat, wrinkly cock, so I can milk out even the last drop. I was sucking it with all my might, so there would be a vacuum effect. Unfortunately the cock slipped out suddenly and a few drops spilled from the corner of my mouth and fell on the floor. All that dog cum that creampie'd my pussy started flowing out as well. Plus, the old men started jacking off watching my gapped pussy and their cum flooded the kitchen floor.

When mom came downstairs to take the dog back, she saw all that cum on the kitchen floor and got furious. "...the fuck bitch?" she yelled. Mom always reminded me how precious semen was. Be it an Ape, canine or a donkey, male cum should always be treated gently and should never be wasted. She grabbed my hair shoved my face on the floor "How dare you let the cum get spilled? Lick it clean bitch or you're starving today!". I looked at her with puppy eyes and started licking the cum from the floor. The dog cum and the old men cum got mixed and gave it a nice flavor. I looked at mom and she was licking her lips while fingering her pussy.

I started spending more time in the pet room and the old men loved watching me in all sorts of

embarrassing situations. I was getting really serious about the dogs. Even considered getting married to one but mom warned me not to be hasty in taking important decisions like that. Then everything changed when I was introduced to a new sensation. One day, I was fighting with mom over a dog dick. She told me to fuck a rat cause that's all I deserve. I was humiliated and threw a challenge "I would and you'll feel jealous watching me." I told the old men about it and they really brought a rat. They were enthusiastic about it and assured me that they came prepared. Mom went to the strippers club where she worked part time, so there was no one to stop me!

I licked my lips with the idea of breaking another taboo and the men started laughing at me. They got me laid on the bed with my thighs wide apart and started filming me. They were wearing masks on their face but I was looking straight into the camera, showing my tongue and winking at it. I didn't know where that video might end up and who might watch it. I just wanted the world to see me taking a rat into my love tunnel like a courageous woman. One of the men dressed up in a doctor's apron and said teasingly "Open wide...." as he shoved a vaginal speculum in my pussy. Then he put in a Condom and as soon as he was done, the other men brought in the Rat. It was acting crazy so I got a little scared. "What did you do to it?" I was started getting up but one of the men pushed me down.

"Nothing! We rescued it from a lab. They have been feeding it cocaine. They did it this morning as well, just before we went there." they said. "Awww...poor baby! Come here! Come to mommy." I called out. The men brought it to me and I gave it a kiss. They let it on my chest and it started running all over my body, my boobs, my belly... When it came around my pelvis area, the men led it at the entrance of my love tunnel and it started running inside.

"Oooooaaaaa..." I screamed. It was going crazy inside me. I had condom in there but I could still feel it's every single move. After awhile I started moaning and screaming violently and my eyes teared up as I came. I was going crazy.

Once, Rebecca and I was whoring out near the asian part of the town. Three old asian man bought me for the night. They lied to me and took me at a "nursing home" which was basically a whore house for asian women. They kept me locked in there for three days kept fucking me one after another. I'm assuming almost thousand men fucked me at that house.

They gave me no food or water and took away my clothes. The only source of water was the tap from the shower attached to the room I had been kept in. As, for food, I had to suck the cum from their dicks and eat it to stay alive. I was so hungry that it tasted divine to me, at that time. I did ask them for food but they pretended not to understand English. So I sucked dry, whoever came to fuck me. They were fucking me all the time and putting all sorts of things inside me, expect for the time I had to go to the toilet. Even that didn't stop some men to fuck my mouth. It seemed like none of them had fucked a white girl before. At one point, I felt like I had been fucked by the entire Asia.

I thought that was the most intense fuck I had but this is even better. I had multiple orgasms and collapsed soon after that. The men quickly pulled it out. Later, I fed it some cheese and nuts and let it free in the garden. Guess it will never know where it entered!

When mom came back from work, I showed her the clip. She was shocked and started spanking my ass. I think she was jealous. Later, she masturbated while watching the clip and made me lick her pussy. "Oh honey... I'm sorry I hit you." she apologised and took me in her bed that night. We were butt naked and slept holding each other. If only she knew how much crazier I'm planning to be. The little rat has opened a new door for me.

The End (?)
