BEASTIALITY STORIES

Molly was the only woman in the room with the five men; all of them were naked and each of them had already had his way with her at least once. One of the men who'd just pleased himself with Molly, was her own father, Frank. He'd been having sexual relations with her since her early teen years, and now he really got off on sharing her with other men about his own age. The other men were all his buddies and they'd nearly all had sex with Molly at other times before this evening.

Molly was a very lusty and very sexually hungry young woman in her mid-twenties, and the years after her cherry had been taken in a large group sex setting had only increased her desire for more and lustier sexual activities. Molly loved having the sexual attention of any man, and the hotter the setting and the more men who wanted her made Molly that much hotter and horny.

The fifth man was in the final stage of his second coupling with Molly and the other men were standing around either satisfied to watch Hank humping in and out of Molly's well-fucked cunt as he was nearly ready to shoot another load of cum deep into her cunt or they were standing there, stroking their erections and waiting for yet another mount and fuck with Molly. As Hank felt his second large cumload about to spurt deep inside Molly's tight wet young MILF cunt, he bellowed that he was going to shoot - like all of the other guys had been before him - and then he slammed in and out of Molly's tight pussy a few more times before he stopped moving and let out a big sigh of sexual pleasure as his large round balls began to pump his virile seed deep into Molly's hot pussy.

Molly got off for the seventh or eighth time during the multiple fucks she'd gotten from the different hunks who were there in the room with her and she bent her head forward and let her pussy orgasm powerfully as she felt Hank's hot spunk joining all of the other sperm that had been ejaculated inside her horny young cunt.

When Hank finished cumming, he pulled his cock out and the men surrounding the rutting couple could see his seed and that of all the others who'd used Molly's cunt to get off start seeping from between her tight and smoothly shaved cunt.

"No, you guys can't stop yet," Molly protested since she was still very horny and wanted the guys to all do her again at least once.

"No, we're not finished yet," Molly's father, Frank said, as he turned to watch Ted lead his large, muscular German shepherd into the room on a leash. Ted had trained Humper to specifically fuck women and he'd told Molly's dad about his horny and very well-hung large adult dog and her father had invited him to bring Humper over for a show when he arranged for Molly to fuck a bunch of guys at the same time.

Humper knew he was in the presence of a very sexy and hot bitch in heat when he smelled the sexual spend of the men and the pussy juices that Molly had spurted when she'd orgasmed. Humper began to whimper and move in the direction of Molly's naked exposed cunt when his nose told him precisely where the hot bitch in heat was located.

Once Ted had Humper within close range of Molly's exposed pussy and the dog caught the strong smell of sexual arousal and desire, he undid Humper from his leash and let him go into action. Humper had been trained well and between that and his natural instinct for sexual desire, he knew precisely what to do when he was let free. Humper's insistent and increasingly loud whimpering and whining indicated that he knew an available bitch was nearby and he was more than ready to do what came naturally to a horny male dog who hadn't fucked a female in several days.

Most of the guys in the room with Molly could see between Humper's large legs and his dog cock

had quickly become erect and the furry bag of his cock covering had slid back as his doggy cock had gotten aroused and slid out of its protective sack. Humper was sporting a very long and thick dog cock and he quickly moved up behind Molly's naked ass as she remained there on the bed on her hands and knees, waiting for the next available male to mount and slide his cock inside her waiting cunt. The next male to give her a hot fuck was going to be Humper.

Molly didn't even look around behind her to see what was going on, but when she heard the obvious sounds of an aroused canine, she pretty well knew what her father and Ted had in mind. When Molly felt Humper's rough tongue start lapping at the excess semen that was leaking from her pussy lips, she knew she was about to get dog-fucked, and she could tell from the sound that this was some big dog. She'd never had the experience of being taken sexually by a horny canine lover, but Molly steeled herself for the unknown experience she knew she was about to have.

Humper knew exactly what to do with a wet-pussied female already in the traditional dog-fuck position in front of him. He quickly moved over behind Molly's ass as she was there on her hands and knees. Humper threw his front paws up on Molly's back, as his ass began humping back and forth, trying to get his large thick red hardon into Molly's cunt where he could bury his meat and fuck this bitch in heat. Molly wanted to be mounted, penetrated, and fucked hard by this horny canine that was now on top of her and humping feverishly to get his cock inside her pussy. She pushed her ass back and opened her legs slightly to give the dog a better chance of getting his rutting cock inside her to fuck her. Then, Humper felt his cock smack into Molly's ass and he continued to buck back and forth, aiming his big hardon in between her legs where instinct told him there would be a waiting and horny pussy. The wet tip of his slippery cock hit Molly's naked thigh another time, and then Humper felt the tip of his dog-cock slide into Molly's wet cunt. Humper moaned loudly, knowing he was almost there, and on the next out and in stroke of his ass, Humper's engorged cock split Molly's cunt lips apart as he bucked two inches of his rigid cock inside the waiting female's cunt. With Molly's cunt already having been fucked at least ten times and holding the cumload from most of those mens' ejaculations, the dog's eager in and out rutting motions quickly rewarded him with his large thick cock completely filling Molly's cunt to the mouth of her womb.

Molly felt Humper's cock find the hole of her pussy and when the horny big dog slid back out and then whammed his large slippery hardon back into Molly's cunt, she immediately felt the effect of the lubrication the cumloads inside her gave the rampaging dog cock and the extreme depth to which Humper penetrated her on his first powerful inward stroke. Humper had fucked enough fertile bitches to know that he had struck paydirt when he felt the tip of his cock inside tight wet pussy, and he quickly grabbed Molly firmly with his front paws, holding her securely against any attempt she might make to get away from the lustiness of his cock fucking in and out of her horny cunt, and then the big German shepherd began to pump his strong muscular ass back and forth, rapidly driving his hardon in and out of Molly's willing cunt as she spread her legs in response to the fullness of having her entire cunt filled by this horny and very lusty dog hunching her for all he was worth.

Once Humper had mounted and penetrated a bitch, he then fucked his cock in and out of the female's cunt as strongly and as powerfully as his front paws could hold her steady and his back legs could drive his cock in and out of the pussy surrounding his ardent in and out rutting movements. Molly got the same treatment that Humper would give to any horny bitch dog in heat. With the amount of semen and pussy juices coating her well-fucked cunt, Molly was the same as any bitch in heat that Humper had ever mated with before. His big thick red cock was slamming wildly in and out of Molly's tight wet cunt as the big balled dog moaned and whined in his intense desire to fuck the daylight out of this female he was hunching and to get his own pleasure by fucking her to the point of his own ejaculation and spurting of his plentiful canine cumload deep inside her cunt.

Molly loved being taken by this big cocked dog who obviously knew precisely what to do with a naked bitch on her hands and knees in front of his rampaging doggy cock. She moaned and begged Humper to fuck her harder and faster. Humper didn't know what she was saying, but Molly was getting rewarded with just the hot and unrestrained fuck she loved. The feeling of this big dog's hard and slippery cock sliding in and out of her tight wet cunt was more than Molly could have hoped for, and she began to orgasm from the illicit and totally lusty fuck that Humper was giving her. Humper didn't miss a beat as Molly exploded in totally erotic pleasure and after almost ten minutes of rapid and heart-stopping in and out pounding, Humper began to moan and whine loudly as he could feel his approaching orgasm and he continued to throw his tight muscular ass back and forth in Molly's naked exposed cunt until he blasted his first big wad of doggy cum deep inside her horny cunt.

Molly had heard that dogs could cum an amazing amount and she could feel the first blast of Humper's semen shooting inside her and then she felt several additional hard spurts of dog jizz flooding the mouth of her womb. Molly knew she was going to have one mess of cum in her when this fuck was finished. Humper kept thrusting and then his cock remained inside her and he was so deep in her cunt that Molly could feel the tightness and knew that now she and Humper were knotted there together. The men standing there watching Molly and this big dog mating were so aroused that three or four of them stood jacking themselves off and while Molly was tied to Humper, she took turns either sucking their cocks to a powerful cum or jacking them off and letting them shoot all over her face and blonde hair.

What a sight when that evening wrapped up. Molly and all the men had smiles that lasted for hours, too.
