## BEASTIALITY STORIES

(c) 2021 by Bob Watergate

It was Saturday morning and Susan and I had just finished making love. Oh how I enjoy eating and fucking her delicious hairy pussy! We had to get a move on because of an appointment with a new potter we had just met at a Street Market Sale downtown St Louis, MO.

We jumped up, got dressed and left in a very short amount of time. The drive to this potter's house was wonderful as he, Richard, lived south of St Louis off of Hwy 55. Richard lived on about 20 acres and his studio was attached to his house out the backdoor.

Richard met Susan and me at the front door along with his two large mastiffs. Both were black but what was more impressive was that one had pushed his nose into Susan's fresh fucked pussy and the other was pushing his nose into her butt cheeks! I know for sure they could detect the smell of a just fucked pussy! Richard must have also as I detected a little smile on his lips! All three of us continued to stand there, just talking about our love of pottery, not acting as if any of us were aware of what his dogs were doing to Susan's pussy and butt!

Richard finally told us to follow him and he would take us out to his studio. He showed us all around, even taking us into the side area which he was using as his storefront to sell his finished works!

Finally Richard set down at his potter's wheel and threw on a large piece of clay. I was standing there talking to him about his clay which turned out to be a Cone 10 he would wood fire once finished. As Richard and I continued to talk about his throwing technique, Susan seemed to disappear. I had really lost track of her, when I realized Richard was looking up and away from the wheel. What did I see ... a TV screen showing Susan in his Pottery Sales Room, sitting on a chair with, as it turned out to be, Rowdy standing between her legs licking her pussy! Susan had one hand holding her dress out of the dog's way, and her other hand on Rowdy's head.

I didn't know what to say, when Richard looked up at me he asked if it was ok, we should take a break and watch to see what might happen between Susan and his dogs! I looked at Richard and told him that was fine with me.

Seeing Susan with his large dog brought back thoughts of Susan bed by our family dog in our garden ... in front of my father and mother! Susan and I have so often talked about another sexual experience with breeding it we ever got another chance! So here was her another chance ... but in such a public space!

Richard and I watched Susan for another ten minutes before she pushed Rowdy away and got up, looking around quickly as she got on her hands and knees on the Sales Room floor. We both could see she had found a rug she placed under her knees; it appeared for her comfort for what was to come.

To my TOTAL amazement, Richard and I both watched Susan wiggle her butt at Rowdy and he moved back in to continue licking her pussy AND asshole. In the next moment, Rowdy jumped up on Susan's back and started humping away. There was no doubt that Rowdy was now fucking Susan!

Richard suggested we should move to the Salesroom! As we entered Susan was facing away from the door, so she had no idea anyone else was there. Richard squatted down to see better then looked up at me and mouthed PUSSY! Richard also saw that I was rubbing my penis through my shorts. While I was hard, my tiny penis was nothing to write home about.

Richard unzipped my shorts and tried to pull my penis out. I told him I was quite tiny and there was really nothing there! He laughed at me and told me it must be a real disappointment to have a sissy

penis. Then he pulled down his shorts and revealed a good size cock, which was now about 8 inches. I saw his very large veins running along the long length of his cock and his very large cock head ... still hidden by the mess of foreskin covering!

Without having to be told I dropped to my knees and took Richard's cock into my mouth. I had only been giving him a blowjob for a couple of minutes when he pulled his cock from my mouth and told me to get up and follow him. He then walked over in front of Susan and told me to suck his cock again ... now in front of my bitch wife. As I dropped to my knees I could see Susan on my right side as she was looking up and seeing this large cock sliding in and out of my mouth! Although she was watching with some amazement, I didn't know if it was seeing me sucking a cock for the first time or the fact that she was still being fucked by this large dog.

"Oh OH OHHHH..." Susan cried! "God his cock is great ... so hot and big ... I feel his hot cum ... so much cum!" She moaned.

Richard had great timing because just as he shot his large load of cum down my throat, Rowdy dropped down off Susan and turned around, still tied with her now butt to butt.

Richard pushed me away and pushed his cock to her lips. She opened her mouth and took him in! I sat there for over 20 minutes before Rowdy pulled out of Susan and walked over to the side of the room to lick himself! I heard Richard call out for Bud, his other mastiff. Bud came running into the Sales Room and started licking Susan's dripping pussy! It didn't take Bud but a few minutes before he too jumped up on Susan's back and slammed his doggie cock into her hairy pussy.

I actually watched Susan's eyes roll back into her head as Bud started breeding her for the second time this morning! I also got to watch Richard empty another cum load into Susan's mouth!

"OH YES YES YES!" Cried Susan. "Don't let him stop fucking me!" She yelled!

Richard left the Sales Room and came back a few minutes later. He had a camcorder in his hand and started filming Susan being fucked by his large dog! I watched him move in for some good close ups behind and in front of Susan getting ALL the good shots of real life bestiality! Richard and I both watched Bud finish breeding Susan and pulling his knot out of her pussy; it was baseball size for sure. Evidently Susan was now too loose and too wet to hold his knot inside her pussy like she had done with Rowdy!

None of us were in any hurry but Susan and I did finally get up off of the floor and pulled our clothes back into place. Susan was first to say how sorry she was for succumbing to such unbelievable lust! She then told me she was sorry and that must have been so horrible to watch! I told her no, it was actually quite interesting to say the least! Richard told her sometimes things just happen and we should both be ok with it.

Susan looked me directly in my eyes and asked me about sucking Richard's cock? Before I could answer Richard spoke and told Susan that he tried to reveal mine but since it was SO TINY he knew it was me that needed to suck his cock ... foreskin and all! I watched Susan laugh as she shared that she always knew I had a tiny penis since it was only about 3" erect and most funny of all when soft it would pull totally within my body and look like I had NO PENIS at all.

Susan then shared that at our Swinger Club parties, that I really couldn't make love to any of the other women; so they would fuck the real men there and then come and have me suck the cum out of their pussies.

Additionally she shared that a couple of the men started calling for a 3-some so they could HIDE in a bedroom with another woman (not their wives of course) and fuck my boi pussy in secret! Susan then told me to speak up and I told Richard that it was all true and I did really enjoy sucking cock and being a fucking boi toy. Susan said if she had known I had wanted to be the sissy cock sucker back then, she would have set up a glory hole and had me service all the men at those parties!

Susan and I got around and ended up driving back to our house. Once home Susan stripped and told me to get between her legs and lick the dog cum that was still dripping from her pussy! It tasted so good! I told Susan that I was really impressed with how large both dog cocks were and how much cum they both loaded into her pussy. Susan told me that while she was so happy that she fucked these dogs ... again ... she did really enjoy the breeding they gave her! Best of all Susan told me she would really like to be fucked by additional dogs and quite often if possible!

It was a couple of weeks before we heard anything from Richard. Susan said he first wanted to know if she was ok, and she told him exactly what she had told me, that she loved the bestiality and that she definitely wanted to do it again! She told me that Richard was very pleased to hear that she had enjoyed fucking his dogs and they were available ANYTIME she wanted them! He also shared there were other owners he knew with large dogs that would love to breed her too! Susan shared this making my little clit of an erection, as much as I could make! I shared with Susan that I too thought it was VERY EXCITING seeing her being fucked by the dogs!

Susan shared that Richard had told her there was a VERY GOOD MARKET for the video he had made of her bitch breeding's. He had asked her permission to market her videos and of course he would share all monies made from this venture! I was so surprised when Susan told me he could get even more for a video of his dogs fucking me and of me sucking their cocks! He said the GAY market was going wild at this time!

Susan didn't have much else to share but that weekend in bed she told me to get on my hands and knees because she was going to fuck me with the FIRST of several strap-on dongs she had purchased ... you know to GET ME READY for my breeding dates! I can only share that it felt SO GOOD having Susan fuck me with that first strap-on dong! It was very interesting that the entire time she was fucking my asshole, she would bark and even growl at me if I wasn't pushing back on her hard enough!

Susan shared with me there were other breeding dates being scheduled and that Richard had others he was coordinating with to ensure I enjoyed my breeding TOO!

All this from just wanting to see another potter's studio!!!! And we thought selling our pottery was going to make us some extra money!

*The End*
