BEASTIALITY STORIES

While Denny was working she would walk Blue for him. She was having trouble trying to get him to walk without his nose in her crotch. So she began training him that he was only allowed to gain access if she was to scratch him behind both ears. Blue was a smart dog and she soon had him under control. His next lesson was to mount on command. That too went very well.

She was now able to talk him for walks without him pestering her. Once or twice a week she would get a text he be working the next day.

I happened to notice she would stop by her car and grab her backpack before then went for their walk. This spiked my curiosity. After she left I decided to follow and watch from a safe distance.

They turned into a woodsy park with lots of trails. Keeping my distance I followed behind.

There was a group of young teenage boys that also decided to follow along behind this scantily clad woman walking her dog. I held back to watch them check her out.

She turned off the main trail to a path leading back into the woods.

I wasn't overly concerned her having Blue with her.

The boys were chatting. She's going back to our hangout the one commented. Hey if we go up on the ridge we can watch her from there. She won't even know we're there. The boys went a little further and cut back into the woods.

I followed a bit behind. They were too busy watching her to even know I was there. They found a good vantage point and proceeded to take in the show.

There was a small clearing with some beer bottles and chip bags about. I'm sure left behind from the teens.

She hooked Blue lead to a branch opening her backpack and spread out a blanket. Peeling off her top and skirt. She unleashed Blue and returned to the blanket. Sitting back on the blanket Blue came over to her and she started scratching him behind the ears. With that he buried his muzzle between her thighs and started pleasuring her with his tongue. That's right lick your bitch , still scratching his ears.

The teenagers were mesmerized at this. In quiet tones do you believe this the one kid said? Needless to say the cellphones were out documenting a story their friends would never believe. They stood in awe.

After Blue had gotten her good and horny . She got up on her hands and knees. And gave the command mount. Blue was more than willing to comply. Yes fuck your bitch boy fuck her good she moaned. Within minutes his knot was set. Yes that's a boy fill me full of that doggy cum. Mmmmm. Your making me cum Aaaaa.

Her audience was in awe of the woman being taken by the beast. Holy shit. She's really tucking that dog. How hot is that?

After the his knot dissipated it popped out and the ritual of them licking each other clean.

By now the boys had their dicks out and were wacking away.

Hey guys I interrupted. Did you enjoy the show?

Did you see that she just fucked that dog?

Yes I know, you see when she's not his bitch she is mine. If you would like rather than wasting that cum in your hand perhaps you would like a taste of what that dog just got.

You bet mister. As they put their dicks back in their pants and followed me back to the path.

Blue started barking and growling. She started to cover up. Then she saw me.

Hush up Blue. How did you find me here?

It really wasn't that hard I just followed the crowd. As the boys trailed in behind me. Guessing you weren't aware of your audience. You seem to have left these poor boys with a bunch of hard dicks and balls full of cum. Would you be willing to help them out.

Hmmmm, she said looking over the small crowd. Line up and whip them out boys she demanded. They surrounded her groping and exploring what ever they could get their hands on. She got back on her blanket and took to her knees. They surrounded her (phones in hand).

Rather than just finishing them off. She would go back and forth licking and tormenting them. Taking them deep into her throat. Licking and sucking their balls. Oh my god this ain't like the girls we know. The one commented. Finally one by one they either came in her mouth witch she would let dribble down her chin onto her tits. Or take their loads on her face.

That was awesome wow, thank you Mam, Sir. They zipped up and took off down the path. Covered in cum she went to her backpack to get something to clean up.

Oh hell no, I told her. You earned that. You can put your things on but you are going back home with your face just like that.

With a sheepish grin she got dressed picked up her blanket and backpack and we headed for home.

We got there just as Denny was pulling up. Getting out seeing her face what the hell happened to you, he asked her?

I'll fill you in later, but it was quite an afternoon.

I can't wait to hear this one. He took Blues leash and went inside.

Might I suggest that you find a new place to take Blue from now on.

Why would I do that? I would hate to disappoint my fan club and where can I get a facial like this? Master she giggled.
