## **BEASTIALITY STORIES**

## [Back to 1st Part](#)

Rain ran to her room, tears pouring down her cheeks as she slammed her bedroom door before locking it behind her. Picking up her phone she started to text her best friend Kathy as she heard her mother knocking frantically on the door.

"Please open the door Rain and let me explain," Rain heard her mother say pleadingly from outside but she ignored her as she started to text.

Summer was beside herself trying to work out what to do. Her daughter wouldn't talk to her after catching her with Storm the family dog. She could still feel Storm's seed trickling down her inner thighs reminding her of the sordid and depraved act she had carried out on screen for the whole internet to witness. Opening her laptop she was delighted to see her online sister Julie was about, "She will know what to do," Summer said to herself as she explained what had happened in graphic detail at Julie's insistence.

"Welcome to the dog shaggers club," Julie typed before she went on, "You had your mask on so no one can prove it was you. You clearly enjoyed it, as I kept telling you that you would, and your daughter will get over it. After all, you were earning money for her benefit."

Summer nodded at the words and felt a little better when further words appeared on the screen from Julie, "Hang on, just walk me through that again."

Summer started to type again about how she performed on cam when Julie's words appeared,

"No the detail when he mounted you. Did he pause? Did he know what to do? Did he dismount and seem unsure?"

Summer sat back and thought about it as she typed, "No it all seemed very smooth, he saw me and started licking then was on me and in me in a flash." Just typing those words was making Summer squirm in her seat as she remembered how good Storm's cock had felt deep inside her.

"Well I think we have the answer," typed Julie.

"What?" typed Summer.

"Seems to me that this wasn't his first time, sounds like he knew what he was doing. Which can only mean one thing."

Summer stared at the screen as the words permeated her brain, "it could only mean one thing", that one thing was her daughter was also fucking Storm. Frantically she typed back, "So what do I do?"

"You catch her at it obviously, then tell her off for not sharing," came back the reply.

While Summer was talking with her friend, Rain was locked in her bedroom furiously texting her best friend Kathy.

"I just caught them at it," Rain typed, "I can't believe it, I feel so let down."

"He's a dog doing what dogs do," came back the reply and as Rain sniffed back the tears she realised her friend was right, she couldn't ask Storm to be exclusive to her but she wanted him to be.

"Why don't I come over after your Mom goes to work and we can see how much he still loves you,"

followed by a heart emoji and a dog emoji.

Rain giggled and she heard a scratching on the door which was Storm signalling he wanted to come in as she texted back, "Just remember you can watch but I am still not ready to share him."

"Oh OK," came back the reply followed by a sad face emoji.

Rain had allowed Kathy to witness some of her times with Storm and also allowed Kathy to guide Storm into her but had refused to share him although she and Kathy had enjoyed some heated sessions afterwards as Storm had sat in the corner.

Rain could hear the scratching on the door become more insistent as she typed, "He is outside but I think I am still mad at him,"

"I will be right over," typed Kathy as Rain opened the door and let Storm slip inside before locking it again.

Just as she did that she heard her mother shout up the stairs, "Rain I am going out but when I get home we have to talk. I should be home around ten so please stay up."

Rain glanced at the clock seeing it was just before five before easing down her shorts and damp panties and laying back on her bed and opened her legs, "Now boy time to say sorry and show me how much you love me," she said huskily and as she settled back to enjoy Storm's talented tongue.

Kathy had put the phone down and licked her lips as she remembered the first time she had caught her best friend with Storm almost a year ago.

It was a normal day during the previous spring when Kathy quietly entered Rain's back door using the spare key hidden under the plant pot and stood in the kitchen listening for her noises. She knew Rain's mother had left for work as her car was gone and Kathy was hoping Rain was still in bed where maybe she might be asked to join her. Kathy knew it was probably a false hope, but a girl can dream.

Kathy had noticed boys a while back when she observed her older brothers wandering around their concealed family private pool where the whole family went naked. She would giggle internally as she watched their cocks flop about as they walked or jumped in the pool and to her, they seemed more silly than anything else. She would watch her mother glide past them, her full breasts swaying gently, and to Kathy, her mother seemed so much sexier.

The first fully erect cock she saw was that of her father's that instead of hanging down between his thighs the meaty member was pointing directly at her mother's open pussy. She was pretty certain that her parents had no idea she was watching from her ground floor bedroom patio doors, as they thought they were alone in the house. Saying that she wasn't that sure her parents would have objected as the household was pretty open in their attitude. In front of her eyes first, her mother lay back as she lifted her legs up and apart, splaying her pussy lips and pulling up her knees in invitation. It wasn't the sight of her father's cock entering her mother that stuck with her, nor the noises she made as he drove in and out but the sight of her open pussy as she laid on her back while her father straddled her head feeding her his cock. It was everything she could do not to run from her room and gorge herself on her mother's open cunt as she sucked and swallowed her father's seed.

Ever since that time Kathy knew she was more interested in girls than boys and would take every opportunity to spy on them when in the showers at school. She had a strong crush on the long-legged Rain that had stemmed from when Rain had stood in the communal shower washing between her legs as she chattered gaily. Kathy wasn't listening, her gaze had been fixated on Rain's fingers, her brain screaming at her that she wanted it to be her fingers and ever since that moment was deeply in lust with her best friend.

Kathy knew that on non-school days Rain was a late riser and as soon as she saw Summer leave when she was on early shifts Kathy would rush over often catching Rain still in a sleep shirt or even better in bed. Then as Rain would wake, shower and dress Kathy would be able to surreptitiously ogle Rain's body, her pussy soaked as she imagined all manner of sexual acts.

That morning was no different as Kathy could hear the downstairs was quiet which meant Rain must still be in her room. As Kathy quietly ascended the stairs she could see Rain's bedroom door was half open and Kathy could hear noises coming from Rain's room. Her brain started to race as she imagined catching Rain on her bed masturbating. Her breathing quickened and her nipples strained against her bra as she felt her pussy start to flood at the mental pictures flashing in her brain. The noises were louder now and clearly of a sexual nature as she heard Rain moaning as she groaned, "Your tongue feels so good."

Kathy was confused and as she carefully peered through the gap of the open door the sight that greeted her rooted her to the spot.

There was her best friend Rain lying naked on the bed on her back, half hanging off the bed as the family dog Storm had his head buried between her thighs. Rain's eyes were screwed tightly shut as she gripped Storm's furry head pulling him to where Kathy had fantasied about being for so long. Glancing under Storm's back legs Kathy could see his angry red cock jutting out and dripping fluid onto the floor. Storm's cock was bigger than all her brothers', in fact, Kathy guessed it was even bigger than her father's cock.

At that moment Rain moaned lustily, "Fuck me Storm, make me your bitch again."

Quickly Kathy stepped back to avoid being seen as Rain twisted around so she was draped over the bed, face down with her ass in the air. Kathy moved forward in time to see Storm had mounted Rain and was moving about, trying to insert his cock into her. The sound of pure pleasure filled the room as Storm clearly succeeded in his task and buried himself deep into Rain's willing flesh. Storm seemed to pause for a moment before he started to fuck Rain at a pace that was faster than any of the times she had managed to spy on her brother's fucking her mother.

Kathy was spellbound as she watched the dog slam in and out making her best friend moan and groan under him. Kathy had forced her hand inside of her half-open jeans and into her panties allowing her to frantically rub herself as she watched her best friend being fucked by her pet dog. Suddenly Rain let out a long drawn out gurgling yell as Storm almost stopped moving, his groin pressed tightly against his owner's ass.

"Yes Storm fill my slutty cunt with your hot seed," most of the rest of Rain's words were unintelligible although Kathy did make out the words 'knot' and 'cumming' although the last word was almost a scream.

Kathy's jeans were around her ankles and her panties stretched across her widespread knees as she drove two fingers in and out of her squelching pussy. Her other hand was under her top lifting it up to reveal her pulled aside bra as her fingers squeezed and tugged at her turgid nipples.

As she came in unison with her friend, Kathy let out a loud moan catching the attention of both Rain and Storm. The latter simply barked in acknowledgement and then continued to pump his seed into his human bitch's pussy that gripped his cock so tightly. Rain on the other hand squeaked with alarm and embarrassment as she half struggled to move away but to no avail. In fact, her struggles just spurred Storm into gripping her shoulder with his teeth and she could do no more than surrender to the sensations as she orgasmed yet again, staring into the eyes of her best friend who was orgasming as she watched. No words were spoken as the two girls locked eyes with each other as the waves of orgasms ebbed and flowed.

Kathy removed her clothing quickly and once she was naked slipped onto the bed, manoeuvring herself until Rain's head was between her thighs. There was a brief moment when Kathy wondered if her friend was going to need encouragement but as she felt Rain start to lick she knew that their relationship had changed forever.

After Storm had pulled free and retired to the corner and Kathy had cum hard on her friend's tongue and fingers they shifted to a 69 position. Kathy didn't even consider the fact that Rain was full of dog seed, so eager was she to taste her. Once she had licked her clean the pair lay in each other's arms slowly returning to normal.

"This has to remain our secret," Rain murmured as she licked the last of Storm's seed from Kathy's face.

"Only if we can do this again," Kathy softly replied her fingers teasing Rain's engorged clit.

"Yes of course," said Rain eagerly, "but on one condition... we don't share Storm, he is mine only."

Kathy considered Rain's words and although the thought of feeling Storm's cock was appealing, the desire to lick her friend before and after was too great to turn down.

From there on things fell into a regular pattern. First Kathy would feast on Rain's pussy, though once Rain came for the first time Storm would muscle in and finish the job. Then Kathy would grip Storm's cock firmly and guide it into her friend loving the way his wet sloppy cock would mash her hand against Rain's clit until she could drag it clear. Then she would watch spellbound as Storm fucked Rain into the middle of next week. Once Storm had finished and pulled free the pair would feast on each other until Kathy had cleaned her friend of Storm's seed.

On some occasions, Storm would tie and turn so he was ass to ass with his owner. This allowed Kathy to wriggle under Rain and lick her clit and any escaping juices as she watched Rain's belly swell as he pumped her full. The best two things from that position were that at the point Storm pulled free Kathy would be treated to a flood of seed that she would swallow with relish along with the chance to suck Storm's cock before he receded fully back into his furry sheath. The other fantastic treat was from that position it was easy for Storm to access her open pussy allowing him to taste a new bitch as he bred his existing one. The thing that disappointed them both was that despite Kathy's pleading and Storm's obvious enthusiasm, Rain steadfastly refused to allow Storm and Kathy to consummate their desire.

It was that memory and the recollection of the numerous times afterwards that was rushing through Kathy's mind as she grabbed some clothes ready to go round to Rain's. Her friend had kept promising that one day she would share Storm and maybe now that she had witnessed her mother enjoy Storm she might actually relent.

Kathy dressed with haste, not bothering with underwear even though the skirt she had grabbed was so short it almost didn't cover her soaked shaven pussy. Slipping her feet into her pumps as she stood a voice from the doorway stopped her in her tracks.

"Any chance of a quickie Sis?" Leered the youngest of her three older brothers, his cock semi-hard in his hand. Robbie was a year older than her being nearly 18 and in his final year at school. Everyone else was at work including her parents and her 20-year-old twin brothers.

Kathy wanted to get over to Rain's as soon as she could and certainly didn't want to be full of her brother's seed in case Rain asked awkward questions. She also knew that she had to be careful about saying no as that was not a word her parents allowed once she had turned 16.

"If you take a rain check for now I will let you do anal tonight," Kathy said trying to keep the desperation from her voice.

"Sure I could" laughed Robbie, "as I bet you are anxious to get and see your lezzer girlfriend next door."

Kathy said nothing as her brothers were always teasing her about her relationship with Rain once they had discovered the pair were more than friends. She had admitted to her sapphic relationship but had said nothing about Storm being involved, if for no other reason than she was yearning for the day when Rain would allow her to sample the dog-loving she had witnessed so many times.

"I am not saying no Robbie, just later OK," Kathy said hopefully.

"Wonder what Dad would say if he found out you liked licking pussy over sucking cock?" Robbie said shrewdly before he relented, "Blow job now and anal later OK?"

"No mess with the blow job," Kathy said firmly, "I don't want your cum all over me before I go out."

"Sure," Robbie said much preferring Kathy to swallow his seed as he came. Unlike his father who liked to see his seed splashed over Kathy's face after he had choked her with his cock down her throat. Although his mother gave great blow jobs she would insist he came on her breasts, but Robbie liked to feel his sister suck him like a vacuum cleaner until his balls were empty.

Leaning back against the door frame he closed his eyes and sighed happily as he felt his sister's magic mouth envelop his cock as she started to suck as her hand caressed his balls.

Kathy rushed over to Rain's house swearing and cursing, her hair still damp from the quick shower she had needed to get her brother's seed from her hair and face. It wasn't Robbie that had been the problem. He had spurted down her throat contentedly, it was Danny and Davy who had arrived home early together to find her just about to get up from her knees. They had insisted that she accommodate them together, as was their norm, and she only just managed to talk them out of double penetrating her she was left with no option but to blow one as she wanked the other, swapping between the two.

Of course, disaster was inevitable and as she felt Danny spurt in her hand she tried to grip to stem his flow to allow her to switch her mouth from Davy. At the point she was halfway through the move Davy started to spurt and before she could return him to her mouth Danny erupted past her gripping hand. Within seconds, despite her desperate efforts, her hair and face were adorned with the majority of the twin's seed.

Such was Kathy's haste was that although she saw Summer's car had gone from her friend's driveway she failed to notice it was parked in the driveway of old Mr Suarez a few hundred yards up the street. Inside Mr Suarez was sitting in his chair with his semi-hard cock still hanging out as he relived the unexpected visit from his neighbour Summer who had left just 30 minutes before.
