BEASTIALITY STORIES

A little about myself and my husband John would be appropriate before the story I think. He is just a plain Texas country boy, nothing outstanding except his ability to fix anything that runs. He has been a little kinky as long as I can remember. I am on the other hand very shy and quite. Raised in a very religious family, well Mother anyway. I was a virgin when we were married at 21 and my Mother had told me sex was bad but it was something I would have to put up with when I got married. After the first time we had sex I knew my Mother lied to me about sex, it was great. I knew nothing about pleasing a man but I was a quick learner and really loved to study if you know what I mean. When we got married I was almost 5'3", weighed almost 100 pounds, had long brown hair, a really nice figure and long legs for someone my height. John spent a year teaching me everything he wanted me to know about sex and I never ever once said no I don't want to do that, I trusted John and knew he wouldn't hurt me. After that first year I got pregnant and we had our first child. It was great and as soon as we could we were right back fucking like rabbits. Three years after our daughter was born I had us a son, with a black guy. John gave me to a black guy that worked for him. He fucked me bare and unprotected and I got pregnant. That is not what this about so I will stop there on that part and continue where this story leads. So the story takes place around six months after our son was born.

So now that part is out of the way I will tell you what happened that night. We had been out to a party and I had just a little too much to drink, I was not falling down drunk but all of my inhibitions were gone. As soon as we sent the baby sitter home I was ready for sex, John just barely had time to let our dog in for the night. I was taking my clothes off in the living room as John came back from letting the dog in. He immediately grabbed me and we went to the floor making out and he was rubbing my pussy, which was still shaved clean. Our youngest was a little over 6 months old and John had talked me into keeping my pussy shaved slick like a new born. As he rubbed my pussy I was squirming around on the carpet while trying to take his pants off so I could suck his dick. Finally I succeeded in removing his clothes so we were now nude on the carpet in the living room. I had got on my knees to suck his dick when I caught a movement out of the corner of my eyes to my left.

John told me later he heard me make a funny noise so he opened his eyes to see what was happening. I still had his dick in my mouth but I was now looking at our German Shepard, standing beside me with his cock hanging out of his sheath. I could tell by what I could see he was very large in the cock department. I reached out my hand to rub his cock back and forth, I pulled my mouth off John's cock and looked at him. He had this wild look in his eyes. I remember saying in a whisper, his cock is so hot it almost burns my hand. I continued to rub it until his knot had started out of his sheath and his cock was swelled to huge proportions. Out of nowhere John pushed my head toward Rolf's hot, red dog cock. I instinctly took his cock in my mouth, as soon as I had my lips around his cock he started fucking it in and out of my mouth rapidly. In seconds his knot was hitting my lips and he was sliding his cock down my throat. It didn't take long before he was squirting in my mouth and I was trying to swallow as fast as I could. When I pulled my lips off of his cock I had dog cum running down my lips onto my chin and then down on my tits. John said I had this wild ass look in my eyes as I turned to kiss John on the lips, the same lips that I had just pulled off of Rolf's cock. Before I was thru I had dog cum in his mouth and on both of our faces.

John said suddenly I looked as if I had been electrocuted, Rolf had stuck his tongue 4 inches up my wet pussy. I said aaaggggh God that feels gooooooohh. I had my ass stuck in the air and my head laid on John's chest. I knew absolutely nothing about women having sex with dogs or any animals actually but I was begging Rolf to keep it up and I was trying to look around to see what was happening. Finally after 10 minutes and many orgasms I almost passed out and kinda went limp as I laid on John's chest. I was moaning don't stop and I looked back to see what Rolf was doing just as he got on his back legs to mount me. John immediately wrapped his arms around my back so I couldn't move, Rolf now had his legs wrapped around my waist as he was poking his cock around my

pussy, John was whispering to me to help him get it in. I remember shaking my head no but I was reaching back to find his cock. When I did find it I guided it right to my pussy. As soon as he felt my pussy around his cock, he lunged forward putting all of his cock up to his knot in at once. He fucked me like a machine as I howled and moaned the whole time he was fucking me. It didn't take many thrusts of his cock before he drove his knot inside my pussy. God I was stretched and he had swelled inside me as he had got longer. I could feel the pointed tip of his cock trying to get into my cervix.

I don't know how many times I cummed but I must have had 5 or 6 orgasms over the 20 minutes he fucked me and he seemed to be cumming the whole time. Since his knot was swelled up in my pussy there was hardly any cum leaking out, as he fucked me like a machine gun. We both got sated about the same time and Rolf tried to pull out but with his knot swelled he couldn't pull his cock out. By this time John had got out from under me and he was keeping Rolf from pulling out and hurting me. However that didn't keep him from telling me how good I looked getting fucked by Rolf and how I was now Rolf's bitch. He said he is probably going to want some of that pussy every day now that he knows its his. Of course I told him to fuck off and was about to tell him off good when Rolf's dick started vibrating and I had a rockets going off, mind blowing orgasm. When I caught my breath I told John, Rolf can have this pussy anytime he wants. Finally after what seemed like an hour I felt Rolf's knot starting to shrink. It was just a minute until he pulled out with a pop. Rolf must have cummed a quart because it gushed out of my pussy all on the floor and down my thighs.

I slumped to the floor and then rolled over on my back, John leaned over and kissed me. He said the was the hottest thing I have ever seen. I had came back to reality and started crying. I was saying how could I let Rolf fuck me, I said how could I do that. John started rubbing my clit that was swollen to twice its normal size. He told me it was ok, it was just sex and that all 3 of us loved it. He said of course my dick was as hard as it had ever been in my life, so I put my hand on it and he told me, see how excited it made me. I rubbed his cock with tears on my cheeks and I guess I still didn't believe him so I said eat my pussy before you fuck me.

Well he had to make a decision, he knew if he didn't eat my pussy there was no hope of me ever doing anything like that again. So he leaned down and did the best job of eating my pussy that he had ever done. I could tell that Rolf's big cock had stretched my pussy which really left a lot of his cum in me. When he was finished he moved up my body and put his dick where minutes before Rolf had me impaled. My pussy was still hotter than it had ever been and I loved the stretched feeling as he fucked me. As soon as he got in my pussy he leaned down and kissed me and let his mouthful of Rolf's cum slide in my mouth. I took all of it and then licked all around his face to get all of it. When we finished he picked me up and carried me to our bed, he also shut the door as he didn't think we needed Rolf again that night.

When we got in bed we talked about what had happened again. I told him how good it all felt. I said I couldn't believe how hot Rolf's cock was in my pussy and I said that I loved him eating my pussy after Rolf had filled me full of his dog cum. John asked if I would do it again and I said I didn't know, but that I loved it while we were fucking. I said I know it was wrong but it just felt so good, John said it didn't hurt Rolf so he didn't think it was all that bad. By then his dick was as hard as stone again and he put my hand on it to show me it had him excited again. I said I believe you really liked me fucking Rolf, then I said you know his cock is twice as big as yours don't you? He told me yes but he wasn't jealous as long as he could still fuck me too. The next morning neither of us mentioned anything about last night so I thought things were going to be cool and I couldn't wait to get Rolf's cock buried all up in my pussy again.

Since it was Saturday I took our daughter to the park to play for a couple of hours. When I got back I

could see that Phyliss was a little spaced out but didn't think much about it. After we had ate supper and watched a little TV she got both kids in bed and she came back to the living room to sit on the couch with me. We cuddled a little and I had plans of some more pussy tonight when Phyliss said I measured Rolf's cock while you were at the park. I damned near fell off the couch, I said why did you do that? She said I let him in the house and he kept rubbing my leg, I sat down to pet him when I noticed his cock was hanging out like last night. She said I didn't know what to do so I rubbed it for him and it just kept growing longer and getting fatter, til his knot came out. She said I then got my sewing tape measure to see how long it was, she said it is 6 inches from the tip to his knot and 11 inches from the tip to the back of his knot. She said there are another couple of inches behind his knot, she said his knot is 5 inches across and the widest part of his shaft between the head and his knot is 2 1/2 inches across. I couldn't believe she had actually measured him or how big he was but what she said next blew me away. She said he needed some relief so I sucked his cock until he cummed in my mouth again. So much for me worrying if I could get her to have sex with him again.

She said it was just like last night except this time I hadn't been drinking so I can't blame it on anything or anyone but me. I said how was it this time? She said just like last night it was awesome, his cock is so hot and his cum burns when I swallowed it. She said he gets his cock in my throat about the time his knot gets to my lips and she said he cums a quart it seems like. My dick was again hard just from talking about her and Rolf and she was rubbing her pussy so I knew she was on fire. I said lets go to bed even thou its only 8:30pm, she didn't say anything but got up and started for the bedroom. I stood for just a second trying to decide what to do when I went to the back door and let Rolf in. I patted him on the head and said good luck big boy. We went to the bedroom where Phyliss was already naked and in bed, she didn't ask where I had been so I figured she knew.

We were really getting into foreplay with her between my legs sucking my dick when I felt the bed shift, I looked over her back and saw Rolf just fixing to lick her pussy. I put my hands on her head so she couldn't go anywhere but there was no need, when Rolf stuck his tongue in her cunt she went ooowwww fffuuuuuccckkk!!! and she reached back and spread her asscheeks so he could get as deep as he could. I slowly worked my way back away from Phyliss and moved off the bed to give Rolf the whole thing. She was orgasming every time he would work his tongue in and out of her pussy. It didn't take long before she was telling him to fuck her, she was calling his name as he moved back and then moved forward to mount her just like the first time. The difference was this time she knew what she was doing, so as soon as he was on her she put his cock in her pussy.

The thing she didn't know this time was that his knot had not swelled up so when his cock shot into her pussy his knot went in also, she hollored to me that he had his whole cock in her this time so I knew she was in for a surprise. It was about that time that she screamed that he was swelling in her pussy, she said I am cumming ooohhh God it is so biiiiggggg!!!

He was now serious about fucking her since he was tied and she was his bitch. She moaned for me to do something and then she said ooohhh it feels so good, ooohhh it feels so good. She said he is cumming, then she said I think he is in my cervix. The whole time she was trying to talk she was also telling Rolf to fuck her. I turned on the bedroom light so I could get a good look at their coupling and I was amazed. Rolf's knot was pulling her pussy back and then he would go back in so fast it was hard to see, I figured there would be cum everywhere but there was only a couple of drops on her swelled up clit. Finally after 20 minutes or so Rolf pushed in and squeezed my wife's waist and just held there, he was drooling on her back and she was moaning that he was still cumming in her pussy. Finally I laid back by her head so I could tell her how hot her fucking Rolf was and she asked what he was doing, I said you are his bitch and he is filling you full of his cum so you will have a big litter of pups.

She said that's not funny and then she said he is trying to pull out, God don't let him pull out so I went back to Rolf and started stroking his neck and I swear the bastard was laughing at me. I held

him in place and I heard Phyliss mewling at him again and I looked underneath where she was stroking his cock with her hand. Finally after another 20 minutes she said he is getting smaller so he will be pulling out in just a minute. When he pulled I swear he must have cummed a gallon as it went everywhere. She just laid down on the bed as Rolf jumped down and went to the corner to lick his red cock. Phyliss's pussy was still gapped open and she had cum pooled all up under her pussy as she said lick my pussy. This time I didn't think about it and I put my face right in her freshly dog fucked pussy. As I cleaned her pussy for her she told me she loved me licking Rolf's dog cum out of her pussy and if I would keep cleaning her pussy with my tongue she would keep fucking him. I agreed and said but right now I need to get me some pussy, I moved her out of the big wet spot and hung her legs over the side of the bed with her on her back. I put my dick in her and could hardly feel anything after Rolf had put his whole 11 inches and his knot in her.

I was able to cum just by thinking about what I had just watched and as I pulled out Rolf mounted her again. She was surprised and tried to wiggle away but he growled so she got still. He was a little confused about her facing him but as soon as he felt his cock slide in her pussy he knew what was up. Again he was able to get his cock in her before his knot swelled and now she could feel his sheath as it would rub her clit and her bare cunt as he fucked his cock in her. This time I could tell she was going to be in for a real long fuck since he had shot so much cum in her before. This time she was able to put her arms and legs around him so he was able to get even deeper. I put my hand between them and I could feel his cock in her belly as he was fucking her. In this position he could really drive his cock hard in to her belly and he did it for almost a 30 minutes before he started trying to pull out. I told her to hold on as he finally backed off the bed. He worked them around until they were butt to butt and he just stood there with her pussy plugged by his big knot. she said his knot swelled even more this time than it did before. I said he stretched your pussy so he his making you fit his cock. I said you really are his bitch this time. She said it felt even better with me on my back, she said he got so deep I thought he would come out my mouth.

They stayed that way for 20 minutes before he pulled out of her, stretching her pussy as he pulled his knot out. I just thought he cummed a lot the first time, it was like when her water broke when she was having a baby. She said she could feel pressure he put so much cum in her and his knot was so tight none could get out. This time we went to the shower where I ate Rolf's cum out of her pussy again. I cleaned up the floor as she got in bed, then I put Rolf out and shut the door. She was very sore the next day so we kept Rolf away from her for the next week. After that she got used to him stretching her pussy and she fucked him 3 or 4 times a week at least, some times it was more than that. After that first weekend she would fuck him without me being there a lot.

We had a couple more dogs over the next 10 or 12 years that she also fucked and she also fucked her sister's Great Dane when we kept him when they went to Colorado for 2 weeks one summer but that's another story.

The End
