BEASTIALITY STORIES

(c) by Doggyslut69

It had finally been about a year since I came clean to my husband about wanting to be fucked by a dog. To my surprise, for our anniversary, he had gotten me a puppy.

Now not just for the reason of wanting to be fucked, but also because I had been begging him for a puppy for quite some time now. He was indeed a very beautiful black with some brown here and there on his fur, as well as having one brown eye and one blue eye.

He was a mix of Pitbull and Boxer. At least, that is what we believe. We know for sure that he is a part-pitbull, but we do believe he is a part-boxer as well.

Well, we had waited till he was close to 7 months old, and we began to allow him to play along with us when we would fuck every now and then.

It started off with just licking my tight pink pussy. Then it slowly moved on forward from there.

Now I am not the most sexist woman out there. However, I am definitely not ugly looking either. I was not skinny, but I would also not say I was fat either.

I had a little bit of a belly, but that had been all. I had a small round ass, but it was not nonexistent. I have very large, round voluminous breasts as well.

I have, in fact, had a few times where men have actually asked me if I had a boob job done. I would always tell them no that they were my real breasts, and the reactions were always shocked at the answer I had given them.

Well, it started off as an okay day. My husband and I had gotten into an argument later on, closer to nighttime. So for revenge for making me cry, I started sending him dirty pictures on Snapchat that I knew would instantly get his cock hard.

He had told me, "When I come upstairs, that tight ass pussy is all mine."

I then replied back with, "I know why. Do you think I sent you the pictures? All I have thought about all day was you fucking the shit out of me."

I proceeded to go on about how when he came back up, I was going to go take a quick shower to wash up. Hygiene has always been a super important thing to me.

So, after telling him I would take a quick shower, I then proceeded to tell him, "When I come back up, I will let Moo out of his kennel, and we get on with you fucking the shit out of me."

After going downstairs to shower, I come back up to our bedroom wearing nothing but a towel wrapped around me. I then let Moo out of his kennel and took him into mine and my husband's bedroom.

My husband ushered me over to where he was lying on his back. Standing in front of him, still somewhat damp from my previous shower, he then began to point his head down towards my pussy and started to slowly lick it.

"Come on, sexy, and lay down here." He then helps me lay down then places a pillow under my ass to prop me up.

He grabs a dildo and vibrator and starts to play and eat my now wet cunt. I call Moo into the bed

and start to jack him off. He instantly starts to hump my hand while I jack him off.

"I know 69 is your favorite position, babe. Let's do that now for a little while." I proceeded to tell him after he had been eating my wet cunt and pushing a decent-sized dildo in and out of it as well as having a vibrator placed upon my clit.

After comfortably getting into the sixty-nine position that my husband loved so much, I began to jack him off and suck his cock.

While I am sucking him off, he calls Moo back up onto our bed, as he had gotten off when we were changing positions. After a few seconds, Moo is back on the bed, excitedly looking at me.

"What do you want me to do, baby?"

"I want you to take turns jacking us off and sucking our cocks while I continue to eat your wet little cunt out."

"As you wish, babe," I say, then start to jack off Moo with one hand and my husband's cock with my other hand.

I take turns going back and forth, sucking their cocks. Every now and then, I ask him what he wishes to see me do with him and Moo.

"I just can't wait to see him fucking the shit out of your tight little pussy, then when you think that he is all done, he then shoves his big fat knot tight into your pussy. God, I just can't wait to see his cock and knot pop out of you as his doggy cum seeps out of you and also with your cum coming out as well."

I then take a break from my husband while still in position sixty-nine and start sucking Moo's cock now. I just love how it feels when he uses both his tongue and vibrator on me simultaneously.

"Mmm, you like that doggy cock don't you."

With our dog's rock-hard cock still hard and in my mouth, I began to say, "Mmmm, I do. I love his doggy cock in my mouth."

After then again switching between the two of them, I then ask my husband, "I bet you just love to see me Jack and suck off Moo, don't you?"

"I definitely do, baby. Now lay back down on your back for me."

So sure enough, I climb off of my husband and then lay back down on my back, where he then places Moo on top of me and goes back to using the dildo, vibrator, and his tongue on my now extremely wet pussy.

After Moo was on top of me, I again began to suck his cock as my husband recorded a bit of it for later whenever I would like to watch it and relive the memory.

After some time, I got into a doggy position and patted my ass cheek. Moo then hopped up onto me, wrapping his paws around my waist, and tried to hit his mark.

My husband decided to help him so it would be a bit easier for him to get his doggy cock in my cunt.

"Mmm, fuck me, Moo, yes, good boy. Go harder. Mmm, yes. Oh god, that feels so good, Moo."

I honestly don't know how many times I had come from my furry little beast. As he was all knotted up with me like I was his bitch my husband walked over to me and then placed his cock in my mouth.

"Oh, baby, you just love having two cocks in you at once, don't you?"

"Mmhmm," I manage to mutter as I am still sucking his cock. After about 15 minutes, Moo knot and cock popped out as once again my husband recorded it.

I swear that is my husband's favorite part about Moo fucking me. After Moo had finished cleaning up our combined cum that was spilling out of my pussy my husband took over.

"I want to see you suck his cock again while I fuck the absolute shit out of you."

So that is absolutely what I did. I sucked Moo's cock again until this time he decided to cum in my mouth.

"Mmm, yes, baby, take this cock. Oh yes, you love when I fuck the shit out of you while you suck Moo's rock-hard cock, don't you? Oh yes, I am going to fuck the shit out of this yummy, tight little pussy of yours."

"Oh baby, harder, faster. Oh yes, ohhh, that feels so good." I told him as he was now ramming his cock in and out of me.

After he had finished fucking the shit out of me, Moo then came over and cleaned both mine and my husband's cum out of me.

I came so many times that night I honestly lost count of how many times that I had come. This has since now become a regular thing for the three of us. We all very much quite enjoy each and every moment that this is happening.

This is how I ended up becoming a slut to not only my husband but a furry little beast, Moo as well.
