## **BEASTIALITY STORIES**

(c) by unknown

My husband and I had been together for more than 13 years when the ho hums of life began getting to the both of us. I'd already begun considering the possibility of having an affair, but was torn between being faithful as always or being a slut. I didn't want to lose my husband, but then again I did need some good hot sex. Our sex life had always been great, we had sex almost everyday, but I needed something else.

You see, I have this submissive side to my personality, and even though I'm an aggressive female during the daytime, I'm very submissive by night.

My husband didn't bargain for this, my aggressive nature is what lured him to me in the first place. I'm not afraid of anything. I've publicly beaten up men who have attempted abuse me. I don't back down when either my family or myself are threatened. I always win those types of fights. So I guess I need to release my daytime dominate side during the evening. Of course it's a drastic change for him and unexpected.

Well my adventure began after arriving home from the store one day, my children (I have two) were at a friend's house spending the weekend and having fun. My hubby and I planned on enjoying a quiet weekend and going out for desert in the evening. When I opened the garage door to go into the house with two bags in my hands and a purse over my shoulder I was grabbed from behind and had a ball stuffed in my mouth and my eyes covered.

I immediately dropped what I was carrying and began trying to fight whoever it was that had done this to me. I scratched one of them on the face real good because he immediately let go of me and started to say, "Shit! She's going to pay for this."

Well my skin got all crawly at the thought of some kind of payment. The other guy told him that he'd be o.k. and to get the belt, all the while I was kicking and scratching.

The guy that was holding me was really big and strong and I wasn't able to do much damage to him except step on his feet with my heels which he didn't like much either.

I felt this belt going around my waist and one of them laughed and said, "She won't be able to do anything once we get this on her good." They really cinched it up tight. I almost couldn't breathe and now I was really getting scared.

They took some kind of cuffs and latched my hands to my sides using the belt then they took something sharp and told me, "Don't move if you don't want your tits cut all up." With a threat like that I decided to stay still and not move at all.

They cut up my dress and left me in my bra and panties, but that didn't last either. When they had me naked they told me to open my legs well I didn't want to do that so I shook my head "no," well one of them grabbed my breast (which are very large and full) and squeezed it hard, but I still wouldn't open them.

One of the guys said, "Get the clamps and she'll open up real wide for us for sure." I heard them rummaging around and then the other guy said "the little ones or the big ones?"

"Big ones, she might as well get used to it now," then I felt one of them grabbing my nipples and pulling it out before the teeth from the clamps cut into my soft nipples. I started to scream but couldn't with the ball gag in my mouth and I felt something warm dribbling down my body. I figured it was blood from the clamps. "Open up your legs bitch now or I'll tighten them tighter."

That was all I needed to hear, I opened them up a little. "MORE BITCH, all the way as far as you can," so I did — I had no choice.

I felt something wet and cold touching my ass. "Get out of here Rex she's not ready for your dog cock yet." I started to shiver thinking about what would happen to me at these hands of these men.

"Let's cut off all of her pussy hair so we can take better pictures of her and the dog!"

"Yeah, that's a good idea!"

They started to cut my pubic hair, but I didn't move because I was afraid that they might cut something else on me if I did.

"Ok let's loosen her up before we take her to the cabin, do you have the stud cock?"

"Yeah, here it is — she won't like this for sure"

I felt pressure against my brownie hole and slowly (thank god for that) it was inserted, it felt so big and long, he kept pushing it in, I thought I'd rip apart.

"She sure is tight for a slut!"

Then all of the sudden I felt this hot pain all around my splinctor and I jumped trying to get away from the pain.

"Don't move bitch, if you do it'll hurt more." The cock had sharp studs in the end and was poking me all around my anus.

"You'll eventually grow to adore this cock and willingly sit on it — believe me."

I knew that would never happen and that these guys must be out of their minds!

I just kept shaking my head until one of them slapped me.

"Don't do that unless you're asked something, you're our bitch and we can do whatever we want to do to you, remember that!" With that remark he grabbed one of my tits again and pulled on the clip. I jumped again and tried to yell.

"Let's put the motorized pole in her snatch to make her suffer more."

"Ha, ha, ha she'll love that."

Then I felt this slender pole entering my pussy that didn't bother me at all. They took a thin belt and attached it to the waist belt on the back and brought it up between my legs and pulled on it harder and attached it to the front of the belt, well I thought I'd pass out with the studs digging into my anus even harder.

"Now let's turn on the pole. Ha, ha, ha!"

I heard the motor running and felt this funny sensation in my cunt, the pole was rotating and flexing itself all around, boy did it hurt when it hit the thin membrane separating the stud cock crammed up my ass and my pussy. I felt like I might lose my mind.

"Let's chain her feet and knees and get her into the bag and back to the cabin."

At this point I was really frightened. I felt like I was going to pee or shit, but with both holes filled up I couldn't do a thing. I felt this heavy metal being rapped around my legs and then some chains were attached. They put some leather straps above my knees and attached one to the other. I was totally immobile.

They took a bag of some sort and put it over my head and put a leather strap around my neck to hold it on (that's what I thought) and then picked me up and sat me inside a big bag. Being claustrophobic I felt as if I couldn't breathe. But I kept telling myself to relax and tried to remember everything I could, but with all the stuff on my head I couldn't really hear anything and with that damn pole in my snatch driving me crazy and the clamps on my nipples hurting something awful it was all I could do to remain conscious.

One of them picked me up and walked a few feet before dumping me into a trunk or van, I could feel the dog smelling me and then something warm was trickling down my face — it stank gawd awful disgusting! That's when I realized the dog had pissed on me.

"Hey Clide, check Rex out. He pissed all over her head. Ha, ha, ha, ha!"

"Why don't you do the same thing Clide, but make sure you get her face real good."

"Ha, ha, ha, yeah, teach the bitch early to enjoy being pissed on, maybe we'll teach her to drink it too."

Then I felt this strong stream of hot piss splattering all over my face, into my nostrils and everywhere. I felt like vomiting, but checked myself with the gag in my mouth — I'd probably choke to death.

I was just realizing that if I was going to see my family again I'd have to be in survival mode when I felt his hands on my chest as he tugged on the nipple clips again before saying, "She probably forgot about these already, do you think I should tighten them?"

"Nahh not yet, don't go to fast or she'll be worn out before we can really enjoy torturing her." That last remark made my hair stand on end. Oh how I wished they'd plugged up my ears too.

"Ok we're here, go open the garage door so I can get in the cabin before the neighbors see us with her and call the cops."

"What neighbors you dick head?"

"Just joking, I want to confuse her all I can."

"Ha, ha, ha, yeah that's a good idea."

I heard the door open and then some rough hands dragging me out. They took me outta' the big bag and then removed the bag over my head but left the neck strap on, that bothered me.

"Ok bitch, let's get a lot of stuff clear right now, we're 40 miles away from anyone, this is private land, and you'll do everything we tell you too. If you don't it'll get really hard for you — but more fun for us, we love hurting pretty women like you."

"YEAH, you'll do everything you're told and you'll do it in the manner we tell you. Never look us in the eyes, speak only when spoken too — answer with 'Yes, Master or No Master.' DO YOU UNDERSTAND BITCH?"

I shook my head up and down as best and fast as I was able.

“Good you’ll start by licking my boots.”

He took off my gag and eye coverings and pushed me down to his boots, I slowly began licking them clean. They were full of mud and dirt, and smelt pretty fowl.

“Undo her knee leathers.” I felt my knee leathers being released.

“You’re not doing a very good job and I don’t want you squatting down, I want your butt pointing out and open your knees when you do it.”

Needless to say I complied. I found out that this caused the leather to stretch into my crack even more making the studs dig yet deeper; I let out a peep and got slapped on the butt really hard almost immediately.

“You won’t make any noise at all BITCH!”

“Yeeessss Master.” He put his hand on the leather right where the stud cock was and pushed on it.

I bit down on my lip so I didn’t make any noise.

“Good bitch.”

“Let’s get the video equipment ready for her training session.”

“Ok bitch, put your face on the ground and your tail in the air and stay that way until we return. Rex watched her.”

Rex came over and began licking my face, then he went to the back of me and started to lick my ass cheeks. That felt good. Rex mounted and tried to fuck me but couldn’t because of the leather strap covering my pussy.

He finally gave up after a little while, but came over to my face and poked at my mouth and nose with his really large cock (I didn’t know that their cocks got so big).

Well the big guy came in and began laughing, “Rex, you’ll get to have her all you want, she’s going to be your mate for life.”

My blood was pumping really hard after hearing that! How could these maniacs get away with this! Surely my husband would call the police and look for me. Rex was a really beautiful red Great Dane, with an enormous cock. He had kind eyes and I thought he probably just needed a good screw.

“Okay bitch, get up and come over here. Wow! You really have nice titties. We’ll have to fix them so they’ll be more useful, but they’re really nice.”

Then he grabbed one of the clamps and tightened it even more. I felt like I was falling into a black hole.

When I awoke, I was laying bent over a saw horse that was secured to the ground. My feet were attached to one side and my hands to the other. I no longer had the belt holding the vicious large studded dildo in place or the pole anymore.

I’d begun feeling that perhaps I’d merely dreamt all of this before I became fully aware of the

throbbing pain on my tits.

I was shocked to learn they'd been pierced and hoops had been inserted with a chain attached between them and that's when I started to cry. My husband would probably never want me back in this condition. I just felt like it was all hopeless!

"Shut up cunt, you're going to get the fuck of your life, Rex has just about the biggest cock I've ever seen on a dog and he'll really fill you up... What do you think about that?"

"I want to go home. Please just let me go and I won't tell anybody about this, Pleeeaaase!"

"Bitch (slap on the face) you'll never get to leave! You'll always be Rex's mate, so shut up Rex!"

Rex came over and then the big guy said "Aren't we going to get her a little more prepared for him, he's awful big!"

"Nahhh... she needs to learn that we can do what we want and if she fights she'll get it worse!"

"OK, Rex get at it!"

Rex came over and started to lick me on the ass and pussy, it felt so good compared to what I'd already experienced... I started to get wet and I could feel my snatch beginning to throb with desire...

"Man what a film we're going to have, we'll get big bucks for this! She has such a nice ass!"

"OK Rex fuck the bitch," then it dawned on me why I was being called a bitch, I was Rex's bitch!"

Rex mounted me and began poking around with that huge cock of his before finally hitting the wet spot and pumping it in. The guys came closer and began taping it close-up while taking snap-shots of all the action.

I couldn't believe the feeling Rex gave me. He was so big and long, then I felt this filling feeling and realized that I'd be attached to the big dog for quite some time. I was really getting scared that he might hurt me.

"Ok untie her and let her be on her fours so he can drag her around like a real bitch!"

He was filling me up with his cum and I could feel the heat of it inside of me. I had an enormous orgasm and my cunt tightened up on it real hard. The guys just watched with their eyes real big.

"Look at her, she likes it! I think we really found the right one, at first I thought it was a mistake but this bitch is the right one for our plans!"

"Go get Spud and see what he thinks about this."

Spud walked in. He was an even bigger Great Dane. Immediately he approached Rex and growled, but Rex couldn't do anything about it as we were still attached.

"Get the astrogel and loosen up her asshole."

Then I realized what they were going to do! They were going to let this monster dog fuck my ass while Rex's cock was still in me!

"Ha, ha ha, she's really going to get pulled apart."

They stuck the end of the tube in my ass and squirted it in as Spud began mounting me too.

"We'll have to help him hit the spot."

"Ok I'll do it, don't move bitch!" I felt his fat cock going into my ass and then Spud wrapping his front paws around my waist and holding on for dear life while giving me the fucking of a life-time!

I damn near lost consciousness from one gut wrenching orgasm after another before feeling his knot pounding at the entrance to my asshole and as I tried to move away the big guy said, "let him get it all the way in bitch, or else I'll let my HORSE fuck you next!"

So I didn't move at all... well there I was with two huge dog cocks in me and both of them turned around so we were tail to tail and both tugging in different directions trying to get away from each other — the guys were drinking beer and laughing about it and filming everything.

I felt like I was going to have another baby or something. I was panting like a dog and the guys told me to stop panting, but I couldn't so they got this huge cock gag and made me stick it in my mouth and they strapped it on and ordered me not to gag — I had to suck it.

"Yeah suck on it good, you'll be sucking your mates' cocks for them too." I didn't much care for that idea at all.

Finally Rex's cock swelled down and got loose from me so it wasn't so bad now... but Spud was a large dog and much lot stronger so he could walk around and pull me by his cock... he would growl every once in a while and it scared me. Even though, I thought he might bite me or something, it was sorta' erotic — that full feeling that it gave me and the tugging of his cock inside of me made me horny as hell all over again.

Finally Spud's cock slid out and he went off to a corner to lick it clean... well that's when it started to pour out of me... both my holes were gapping open and the cum from both dogs ran down my legs onto the floor... The guys were having fun filming my gapping holes and the stream of cum rolling down my legs...

"Start to clean up your mess bitch, you're a dog now so get it going!"

I was hesitant to do this but after a slap on the butt decided to hurry up and make my cleaning good.

"Hugh lets give her a fuck too, she can lick us really good before we fuck the living daylight out of her!"

"Yeah, that sounds good to me." At least now I had a name for the other one.

Hugh grabbed my hair and told me to open his zipper with my mouth, so I got it between my teeth and got it open and slowly eased his large cock out of his pants.

"Suck it bitch!"

I started to suck his thick tool and felt myself getting horny all over again and my pussy started throbbing.

"Hey, Hugh I can see her pussy pulse... do you want me to film it, it looks like the horses and bitches when they're in heat!"

"Yea that would be really good footage!"

Then I felt the other guy rubbing his cock on my pussy lips, since it's now hairless it felt incredible... I started pushing back on his cock when he said

"She is such a Slut, she wants it in, can you believe that"

"Give it to her really hard, she's such a bitch anyway, boy can she suck a dick... I've never had a woman suck it so good, you'd think she was born with it in her mouth!"

Hugh was pushing it all the way in my mouth and really moving it hard and fast, it was sorta' hard to keep up with him but I felt so good getting it in both ends, the other guy was grunting and groaning really loud, which made me think that he was going to cum soon. Hugh was throbbing in my mouth so I figured that it was a matter of minutes he'd cum and I'd better eat it all if I didn't want to get in trouble again. They both exploded at the same time and then I started to explode when Hugh pulled on my nipple rings, I just couldn't stop cumming...

"Yeah this bitch is perfect for the dogs and us, we can train her good!"

"She seems to really be the right one, let's call in Spud and let him clean up her hole." Spud walked in and growled at Hugh and his friend before beginning to lick me clean... I started to cum almost immediately making Spud want to fuck again. Hugh said, "No don't let him fuck you again, you better suck him off instead."

"NO master."

"BITCH, I'm going to pierce you clit if you don't do it" so of course I started to suck his black and pink cock... he was a magnificent animal! His coat was black and gleamed in the light, he was really a lot larger than I remembered seeing Great Danes, and he appeared highly intelligent as well. He laid down on his back allowing me to suck him. He grew and grew, I couldn't believe the size of this animal — then he got thicker at the point and I knew he would cum soon.

"Film it all, Jim, make sure you get lots of close ups when he cums, Suck him good bitch!" I made sure I sucked him real good, I could feel my pussy flutter again and I knew I'd probably cum again too! Spud didn't like the idea that Jim was filming us so close and started to growl again, Jim said "You know Hugh, Spud already claimed her as his bitch, what'll we do with Rex, after all we got her for Rex not Spud."

"Well they'll just have to learn to share her with all of us. Especially when we've completed her training, she won't remember ever living life differently!"

"Hugh, what about her husband?"

"Well Jim, why don't we make her write a note explaining she's found someone else, so he won't look for her."

"Yeah, that'll probably work for a while, until she's so attached to us and the dogs that she can't imagine life without REX, SPUD, you or me!"

"Ha, ha, ha, ha, ha!"

She watched them out of the corner of her eyes, they were talking about her she knew that, but about what? Her nipples were so sore she didn't know what to think about that, the rings were

closed all the way and there was no way to remove them, she noticed that her clit was quite a bit larger than she remembered it being and it was red looking.

Rex came over to where she was sitting in the corner and started licking her nipples and rings, it hurt but she heard that dogs had penicillin in their saliva and she was sure that it would help them heal. She wanted to get the waist leather off, it felt so tight but she knew better than to even try.

“Go get a blanket bitch and I’ll show you where to go to sleep.”

She got up and started to walk over to the table when he yelled.

“No bitch crawl on all fours like a dog!” He yanked one of her rings, so she got down on all fours and Rex started licking her face as she crawled over to the table and got a blanket in her mouth. “Follow me bitch!”

I followed him outside and the closer they got the louder the yelping got. I was now in a Kennel area, I looked to the side to see another girl with the same type of leather on her waist, barking and yelping, she was with a Doberman Pincher that was barking and licking her tail. I began shivering at the thought, I knew I’d never get out of here.

“This is your home, get in bitch!” He opened the gate to the cage, it was big and roomy and very clean, and then I saw him. Spud came out of the dog house and started to lick my ass again. “Oh yeah, wait a minute, I forgot to put on your tail.”

That made me really nervous... he had a little tail about 12 inches long but it had a strange thing on the end, it looked like a balloon, he grabbed my waist leather and stuffed it up my behind and then attached a pump to it and pumped it up, I could feel it start to expand inside my butt and I knew I wouldn’t be able to remove it.

“We have cameras all over this area and if we see you walk on your two legs you’ll be punished severely, don’t even try to remove the plug in your butt, if you do, I’ll insert a bigger one.

Tomorrow you’ll be given a chance to go to the bathroom, not until then, you’re to eat just like a dog, the food is over there, yes it’s dog food, but it’s specially formulated for bitches in heat such as yourself.

If Spud wants some pussy, you have to give him some, you can suck him off or fuck him — whatever you want, but your job is to make him happy! If you don’t keep him happy he’ll bite you! He really tore up another girl who didn’t keep him happy.

If you want our attention as we pass by, you can bark at us or yelp. If we feel like it we’ll pay attention to you, don’t try to talk to any of the other girls here, they know better, and they enjoy being a dog. Do you have any questions?”

“Yes Master, when will you let me go?”

“Ha, ha, ha, never! Ha, ha, ha, what makes you think that a bitch like you deserves to be released? No! We’ve already took care of that, your husband received a telegram from you telling him you left him for another man... he won’t look for you for a while, ha, ha, ha!”

“What about my children? What’ll they do without me?”

“Well your husband has a girlfriend, he has for a while. Did you know that? I’m sure she’ll step in for

you.”

“OH NO, I don’t believe it, nooooooooo, it can’t be true!”

“Well bitch it is and you now belong to Spud and me so be a good puppy and make him happy! If he wants to fuck you again — you know the tail you’re wearing has a “bitch in heat smell” to it, so you’ll be getting it from him all the time for a while, until I decide to sell you.”

“Nooooooooo please don’t do that... OH NO!!”

“Ok the talk is over, bitch, you can start barking and yelping if you want to get my attention. The more you bark the more attention I’ll give you.”

“Whoof, whoof, whoof!” Spud mounted me and started fucking me good... all the other dogs and bitches started yelping and barking again as they saw Hugh pass by...

I guess they knew what to do, he petted one girl for a while, she licked his hand... he started touching her pussy... and she rubbed up against him... barking...

Spud locked his forelegs around my shoulders and bit down on my hair as if he were possessed... his movements got even harder than the first time... every time he pushed forward my tail would be pushed too... it was like being fucked two times... I could feel him swelling up. I tried to disengage myself from him but he growled and started pulling harder on my hair... finally fully swelled I knew it’d be a while before it went down... I moved towards the dog house and carefully put the blanket down and got him to lay down on it too... I could feel his cock throbbing in my snatch and then it hit, wave after wave of orgasms... Spud just kept pushing in me with his huge cock... both of us fell asleep in a spoon position with his cock locked inside me...

“Wow Hugh look at them they went to sleep with his cock locked in her... she’s really a nice bitch, the best we have I’d say.”

“Yes, she’s one good bitch, now the problem is obtaining 100% loyalty from her, did you send the telegram?”

“Yeah, I even delivered it myself. You should have seen the look on his face. At first he appeared upset, then after he finally realized he could have his little toy out in the open he seemed pretty content.”

“Ha, ha, ha, if he only knew what his bitch was up to...”

“Ok let’s plan the day for our new bitch, I want to pierce her clit so we can use it like a leash and anyway it’ll make her clit grow more.”

“Let me do it Hugh, I want to try it out. You always get to do the bitches.”

“Ok it’s about time you learn to do them. I also want to have a permanent leather waist band and neck band around her, do you think you can arrange that?”

“Yeah, I just got done with some new ones the other day, do you want it tight or loose.”

“Tight as you can get it, she’ll shrink a little after wearing it a while and it pushes her boobs up and makes her waist a lot smaller it’s already about 24, you should be able to get it to be about 21 inches.”

"Wow, you really want to form her good, also do you want me to make her some leather knee caps?"

"Yeah, but first I want to give her a really good enema, since she won't be eating regular food anymore, I want her to get really clean... we need to get her a tail that will go with her blonde hair and we need to shave her bush all the way off... she also needs to learn how to take crap properly I don't want her to get the other dogs sick."

"Ok, I'll work on the tail too."

Ann finally woke up and realized where she was and who she was with. Spud was holding onto her with his forepaws, she tried to get up without waking him but he woke up anyway and started humping her yet again... he was holding on to her so tight that she couldn't get away.

She started getting horny all over again and her cunt tightened up on him as he really began humping her. She could hear the sloshing noise her cunt made. She started to feel him swell again, and then they were locked! Spud was licking her ear making her move around making her so damn horny that she tightened up again and really started to cum...

She turned her head and licked him back enjoying the feeling of his fur on her tongue... Then he got up and decided to out in the morning air pulling her from behind out in the open too... locked tail to tail. Then a worker passed by and looked at them.

"Wow! What a bitch! Hummmmm I'd sure love to be Spud, you lucky dog you."

Spud barked at him and so did Ann... He petted Ann but Spud growled at him. She tried to lick his hand, but Spud got really mad and yanked at her... boy did that hurt. She stopped real fast. Spud knew she belonged to him!

"Well, well," Hugh said. "Still fucking huh! Rex come on in and enjoy this bitch's ass, since Spud got it last time it's your turn!"

Hugh let the air out of the tail but still rubbed it on her ass a little while. Spud growled at Rex but Rex didn't care much as he started to hump her too and with a little help from her hit the target!

Ann yelped because it hurt and all the workers came over to watch. They never saw a more lovely bitch being fucked in both holes by two beasts such as these... what a sight! Ann merely hung her head down in shame at the manner her body was being used.

"Clide bring over Titan I want her to suck him off too!" Titan came into the cage and she looked him over, he was another Great Dane but he was Yellow in color.

"Bitch start sucking him good!"

She started to say something but decided she better not! And started to suck Titan, he started to grow and grow and he lurched forward filling her throat to the max and finally began to cum at the same time Rex did... She could feel no more shame than this... three dogs at the same time and all the workers hollering and yelling about it... Jim had the video camera and was filming away... Rex and Spud started to move around and drag her with them and they all laughed at her plight.

"Wait until you see what we have in store for next, you bitch!"

Slowly the dogs' cocks became normal again and slid out of her ass and pussy. She was dripping all over the place and Rex, Spud, and Titan started to lick her all over and clean up the mess.

"OK, everybody listen up! This is our new bitch, she belongs to Spud mostly, since he claimed her for his mate, BUT we can all enjoy her in anyway we want! I want her to be treated like a bitch and fucked in every position possible!"

With that all the men started yelling happily. So you're all welcome to fuck her, spank her, abuse her, anyway you see fit, just make sure you don't leave marks on her, because she'll be sold to the highest bidder at the next auction, so we need to make sure she's trained properly, today she's going to be intensely trained but tonight you can all have your fun with her."

Everyone was clapping and cheering at this point, I just hung my head with shame.

"Bitch follow me." I followed him closely since he attached a leash to my collar. I noticed that we were going to a blacksmith type of area and then I got scared even more.

"Stand up on your hind legs bitch and sit on this table." He then took my arms and legs and strapped them down, and he attached my leather waist belt to the table and continued to strap me down all over, it got to the point that I couldn't move at all and he took a q-tip and put some jelly on my clit, I started to lose the feeling in it when it dawned on me that he was going to pierce it.

I started to yell and he pulled a nipple ring really hard and told me to shut up, he got a dildo and stuffed it in my mouth and strapped it on the back of my head, again I had to suck on it in order to not choke, then I noticed that little by little a salty substance was being sucked out of the dildo by me, then it dawned on me it was dog cum! I was horrified and my clit was as if it wasn't there now because it was so numb. Clide was there with him and told him.

"Jim is coming now with the equipment for her."

"Good, I want to do a very clean job on her. She is really a hot one, those full firm tits of hers really got me going."

"Ok I'm here and here is the stuff all sterile." Jim laid down all the equipment that was in a white towel.

"How many pierces do you want to do?"

"Just one or three, I'm not sure yet we'll see, they're really useful for opening pussies, but one is very sexy, I think just one but on the clit itself!"

"Great, how do I do it?"

"First clean the area and get a needle and push it through the area you want to have the ring but be sure you don't push it all the way through, because on the end you attach the ring and pull it though, she won't bleed much so don't worry about that."

"Ok here it goes, I could feel them pulling my hood back on my clit and using something to grasp the clit itself and then the pain started it lasted only about 2 minutes but it was horrible!

"Ok get the shoulder and close the ring."

"Jim you really did a great job on it, it'll be very useful! OK let's put on the permanent waist belt, did you make it to my specs?"

"Yeah, 21 inches exactly."

Well my mind went racing after that, I have a 24 inch waist and no way were they going to get that on me, but they put it under me and started the sewing procedure and cinched it up so much that I could hardly breathe and I felt like my tits were going to pop! This belt had more rings on it about 8 in all and they also installed another neck belt it had four rings.

"Let's put the leg and arm irons on her now too." They brought out these pretty looking bracelets and welded them on me they'd rings on them but were pretty to look at.

"Let's try out her new tail."

Ohhhh nooo I thought to myself not another one of those things.

"Let her loose and lets try it out!"

"Wow," Clide said "that's a nice one!"

"Bitch," Hugh said, "get on all fours now." He pushed that new tail up my butt and this one was a lot bigger.

"Now let's inflate it" I could feel it filling up every crevice that I have and it felt really uncomfortable, "let's add a stud ring to it so when Spud fucks her it'll hurt a little, that way she'll want pain with every fuck she gets from now on."

"Yeah, that's a great idea."

"OK, bitch be still!" They attached the ring on me and it really dug in!

"OK now you'll learn how to walk, put these knee caps on her."

What a difference it felt so much better now.

"Walk to the door bitch and back."

I did what they told me to do... every time I took a step the ring dug into my anus but it was beginning to feel pretty good.

"Ok do it again but this time swing those hips and swish your tail really good." I did it again swishing my tail and hips.

"Ok that's fine but you need to jiggle those tits too..." So I did it again jiggling, swishing and swaying it all.

"Wow! That's the way to do it!"

In the mean time sucking all the doggie cum out of the dildo and it started to make a funny sound now that it was almost empty.

"Jim take the dildo out of her mouth please."

"Now for her name. What should it be. What's your name bitch?"

"Ann, Master."

"Hummm how about Lady Ann?"

"That's a great name for a bitch!"

They led me back to the kennel where Spud was very possessive of me. He sniffed all over checking out my holes while looking very intently at me. When I swished my ass and tail... they brought in some puppies to my kennel and they all wanted to play with my tit rings and pussy ring and Spud wanted to fuck again!

I barked at the puppies and they barked back, by now I was so hungry I would eat just about anything, so I tried the dog food it didn't taste too bad after all.

Spud was busy licking my slit while I ate some food the puppies wanted to suck my nipples, I didn't get to eat much since Spud was going to have his way with me again, but the puppies started to bite my nipples and left little teeth marks on them...

I was really getting horny again, I was worn out after the ordeal with the piercing and stuff so I didn't give Spud what he wanted and I went into the dog house to lay down on my back... well he came in me and started to hump me from on top just like a man and I knew that I better let him do it!

He just licked my face and humped me hard, he was really heavy too. This had a totally different feeling to it... I'd never even thought dogs would do it in this position, but yes it was nice to be able to look at my lover while having sex!

He was really a "stud" of a dog, and he was really looking at me intensely, I knew he was very intelligent. He licked my face and I figured that I better lick him back...

I remembered those words, "he really bit up a girl for not keeping him happy," before and I really believed it.

He seemed to really like the licks and I rubbed myself against him and that really got him humping me harder... He felt so good inside of me, one of the puppies came into the dog house and started to pull on one of the nipple rings and then it started I came and came... I could feel my cunt tighten up on Spud's cock and Spud seemed to really like that. I reached around and cupped his balls and massaged them gently and this got him really moving, I must have came 10 times or more... I got thinking to myself that I never had this many orgasms before that it must be Spud that's making me do this... Spud burst into his orgasm and I could feel my cunt fill up with his really hot cum! It felt so good... his knot was expanding and the studs were digging into my ass, it felt sooooo goooooodddd... We laid there, me hugging him and licking him all over the face... I fell asleep in this position and Spud did too... I slept better with his cock all swelled up in me... it was very erotic.

"Did you get all of that on film" Hugh said.

"Yeah, she's really a hot bitch" "She seems to be getting into her role more and more but we need to be really sure that we have her hooked."

"Let's give her, her enema now!"

I saw them coming and everyone else started to bark and yelp, so I did the same thing, Spud was really excited about this,

"Come on, Lady Ann" I followed them up to the cabin and licked their hands and shoes as much as I could as I knew this pleased them and that's just what I wanted to do.

"OK Jim get the double deal so we can clean her out" They got this funny looking bag that had two balloons on the end and Hugh came up behind me as I was wagging my tail and let the air out and stuck in the first balloon and then the next and inflated them both.

"OK Lady Ann don't move at all." I felt this water run inside of me and it just didn't stop. I felt as if I were going to burst but it just kept coming.

"Hugh look at her stomach it's really getting distended and large!"

"Yeah we'll clean her out good!" Once all the water was all in me they took out the balloons and inserted a butt plug that I would have never believed would fit in me!

"How long should we wait?"

"About 30 minutes I'd say to really get it all out."

"Don't move bitch, we'll be back" I just stayed there and didn't move a muscle, every time I did move a little it hurt more... There was a clock on the wall, and I looked at it, time seems to be standing still... but eventually they came back and put something in the fireplace.

"Ok let's show her how to go shit the right way."

"Follow us Lady." I followed them outside to a bunch of trees and Hugh said "point your ass towards the ground with you knees apart so you don't get it on yourself, Spud will lick you clean after you're done. Remember to let him always lick you clean." I pointed my ass to the ground with my knees open and they slowly pulled out the Plug and all of this water and shit shot out of my ass like a rocket! Boy did it feel good to get it all out after more than 24 hours of not being able to go shit!

"Ok Lady, follow us back to the cabin." Spud just trailed behind me sniffing my behind and giving it a lick or two every once in a while.

"Ok Jim latch her arms to her feet and her waist to the walls so she can't move, we need to gag her too so her doesn't bite her tongue." I started to tremble after hearing this, Spud noticing my Fright growled at the men.

"Get Spud out of here for a while." Spud was kicked out and the door shut, he just kept growling at the door and scratching trying to get back in to protect me.

"OK I'll go get the brand out of the fire and you make sure she doesn't move or we'll have to do it again on the other butt cheek." I saw this red looking piece of metal come towards my ass and I started to yell into the gag and move a little.

"Lady we have to mark you so people will know who you belong to, be still, and it will be over with quicker that way!" I felt the searing of my skin and a awful smell of burning flesh and then it was over.

"Nice job Hugh, it'll really show up well on her white skin!"

"Yeah it looks really good too!"

Now I had their brand on my butt. It looked like an "H & J in a circle." She's all ready now to start her training... let's get Clide and the guys... so they can have their fun with Lady!

Clide and all the guys came running to the cabin, they'd been waiting patiently the whole day for

this....

"Lady come here so I can remove the gag from your mouth."

I went over to him and he removed it and patted me on the head.

"Good Lady, now I want you to act like a Lady for these men. They want to have some fun and I expect you to give them whatever they want." I shivered... he laughed at me...

"You know you love it so don't act like you don't," and he slapped my butt. Boy did it hurt since it was red still from the branding iron.

There were four of them, Clide and three other men. Jim and Hugh were going to sit there and drink beer watching it all happen... I felt so shame-less and like a slut... but I was even lower... I was a bitch in heat, a dog! I could never go back now, I wouldn't even know how to act around my family and they'd be so embarrassed to know I was now living in a kennel and being breed by a dog to boot!

One of the men was sticking his fingers in my puss and another was pulling on my nip rings. One guy got his long thick cock out of his pants and started to come towards me with it, I automatically opened my mouth and licked and sucked it good for him.

"Hummm what a mouth this bitch has!"

"I'm going to fist fuck her and see what this bitch thinks about that!"

He already had most of his hand in my puss and it was getting wetter and wetter. I'd always fantasized about being fist fucked but never thought it could be done. I could tell now that it could and would be done to me!

Slowly he was shoving his arm in and out of my cunt. As he did that the guy in my mouth would get the whole cock down my throat before it would be pulled out at the same time the guy pulled his arm out. Another guy was under me rubbing his cock on my large clit and biting my ringed nipples very hard, and another guy was getting ready to finger my ass.

"I've never felt an ass so tight, with your arm in her she has no room for anything else."

"Hell we can make all the room we want! She'll stretch out if we give her a little time to heat up!" My mind was being bombarded with all the signals my senses were sending. It felt as if I'd overload!!!

"Hey don't fuck her cunt to long! I don't want her stretched out too much for my meat!"

"Ok Clide you can have her now!"

Then I saw it, it was huge, I've never seen a cock like that in my whole life! It looked as if it were a horse's cock, with its purple head and bulging veins... it was about 12 inches long and about 2 inches wide... he must have seen my eyes go wild with fear because he then said, "This is the fuck you'll remember for a long time, Lady come over here and wag that tail of yours and rub it on my hot cock!"

I didn't move for a few minutes, I was in a trance... but then one of the men pulled on my clit ring and I snapped out of it... and waddled over to Clide and turned around and rubbed my ass all over

his huge member, but I was still scared of it!

"Hugh do you have the camera ready? I want a memento of this fuck! Ha, ha, ha, ha, Lady turn around and lick it good. Just so you can eye-ball it good and smell it's sweet smell! Ha, ha, ha" I turned around and started to lick it, and I thought to myself I can't get that thing in me he has to be kidding... but he wasn't! He came behind me and knelt down and positioned his cock right at my pussy hole and started to push it in! Two of the guys came around front of me and held my shoulders in place so I couldn't move and little by little Clide stuffed me with his meat! He was groaning and grunting because it was such a tight fit! I was trying to just breath! Dear god let me live through this!

"Please don't put that thing in! Please! You'll kill me!" Hugh came over and stuffed a rubber dildo in my mouth and strapped it on my head.

"Just for that Lady you won't get it out for 24 hours and we'll see if you talk again!" I groaned and Clide said, "Should I just give it to her in one big stroke or let it in easy?"

"Whatever you want Clide, it's your dick and you know what you enjoy most!"

Clide pushed harder and harder and I thought he'd make another hole on the other side of me... and then he finally pulled it out a little. I thought that maybe it was in all the way but I soon found out that this wasn't the case, he slammed it in even further and kept on repeating that over and over! Clide then took a finger and popped it into my brownie spot. I thought I'd surely go insane! I swayed to side to side.

"Yeah bitch move that way! Hummmmm that feels great... Move more bitch! Move back and forth! That's it harder!"

I started to move and it felt so good now! The pain had stopped and it began to feel good. I could feel my pussy pulsing around his cock and every time it did he'd groan out loud!

His finger was working it's way deeper and deeper in my shitter! My asshole was being reamed royally! Clide began pumping his slab of meat in and out like a madman! Everyone else had stopped and just watched as they enjoyed the sight of this blond, big-titted, curved beauty being anally impaled by his massive tool!

It was a sight, I'm sure! As I began cumming I started grunting and groaning... then suddenly he began jerking faster and faster and then I could feel him shooting his wad deep inside my sloppy hole!

All I remember, is waking up with Spud licking me off in the kennel and I now had my tail inserted again with its bulb inflated to hold it in. As I got up Spud followed me over to the water and food. I started to lap the water and eat some food. Spud just rubbed up against me and licked my face. I think he knew how badly I hurt and just how tired I was, then I went to the dog house and laid down with Spud using him for my pillow... I really liked Spud. I belonged to him. I was his bitch now.

*The End*
