BEASTIALITY STORIES

(c) by One-red

I am a single mom of 31 years. There's just me and my son now as my husband died in a car crash 2 years ago.. Being single, times were tough for us, I had to work two jobs mostly to support us in even the worst conditions. We lived pay check to pay check until one fateful day I received a letter from my great aunts lawyer. My great aunt had unfortunately passed away in her sleep only a week before. I was being contacted in order to collect an inheritance that my aunt had put aside for me. I was thunderstruck at the amount that was now legally mine. It was enough to put Chris through school and for me to relax without having to worry about finances. Along with the money, Chris and I also were entitled to a nice sized house she had built from the ground up when she was a young woman. It was a few states away but Chris was excited to move, and not too upset over having to leave his friends and life behind.

We quickly packed, the whole time ecstatic and joking around with each other. We felt like our time had finally come. No more having to work two jobs or move from a cheap apartment to an even cheaper apartment. Finally, our lives can start. We took the train since we didn't own a car, I was prepared to purchase one when we settled and had our new address. The trip was quick and long at the same time. As eager as I was to see our new home, I also was enjoying the mother son time we rarely had the chance to enjoy. Our stop finally came, 12 hours after leaving our old life behind. We called a cab and was whisked away into the lovely open countryside. My great aunt obviously enjoyed her seclusion. Her house was nestled in a quaint forested area with neighbour's on both sides, just a quarter mile distance on both sides. That suited me fine, I enjoyed the quite anyway.

We both grabbed our bags, I tipped the cab driver and we burst into the lovely home that was once my great aunts. The house was gorgeous. A large, spacious living room that lead into a modern kitchen with amazing amounts of sunlight. My bedroom was on the first floor, an enormous master bedroom that was more than half the size of our last apartment. My son wanted two of the three rooms upstairs. One to sleep in, and one for his band equipment. After years of poverty, I was eager to be able to give him so much now. We eagerly started unpacking, even though we were exhausted. We wanted to finally start our new life, as soon as possible.

While I was setting the kitchen up and putting away our dishes, I heard someone at the door it was an old man and a young teenage girl with a dog. Hi this is Lucky he belongs to the lady who lived here. We have been looking after him since she died. There sat my great aunts Great Dane, sitting patiently ready to be let inside. I said thank you and took him in I would feel safer with a big dog at home. He was an enormous grey and black dog, about 180 pounds of lean strong muscle and roughly 6 feet standing on his hind legs. Great Auntie said she felt safe with him, being alone in her house. I didn't blame her, he was great security. I fed the Dane (which I decided to call Lucky) and continued my housework.

Once we had finished, Matt and I retired to the living room and slumped down on the couch. Luckily, we were able to keep everything that the house possessed at the time of aunties death. This was good since we had all the furniture we could've needed. We watched some movies and had a few laughs then decided to retire to our beds at about 1 am for an excellent night's sleep. I bid my son farewell and headed to my beautiful spacious bedroom. It suited me well but with all the extra work I did today I decided to slip off my gown and crawl into bed stark naked. The crisp cold sheets felt like heaven against my tired muscles.

I awoke about mid day to my bed sheet being pulled off. I tried clearing my foggy mind and figure out what was happening. I tried to wake myself up. Suddenly I felt something touch my privates. I yelped and jumped out of bed, my heart racing in my chest. Luckily, it was only Lucky. I laughed at myself and patted Lucky on the head and climbed back into bed. Lucky followed me. He jumped up

and landed all 180lbs of his body on top of my small thin naked frame. I yelled out in surprise and pain. "What are you doing stupid dog get DOWN!" I tried wiggling around to scare him but he was unresponsive. I could see his big black eyes staring straight at me. I stopped struggling and watched him. After a few moments of glassy eyed staring, he bend his head down to my exposed breasts and sniffed. My heart started pounding again, I wanted to know what was wrong with this odd dog. I figured it out soon enough. His tongue came out of his mouth with long wet strokes that slathered itself against my bare breasts. I shivered and yelped at the shock of being touched so intimately by an animal. I wiggled the lower half of my body, attempting to free myself from his weight but he was unflinching. He tongue caressed my hardened nipples, sending shockwaves throughout my body. His tongue travelled to both breasts, not missing an inch of my perky nipples.

I gritted my teeth and accepted my molestation. I tried blocking out the sound of his sloppy wet tongue slapping and lathering itself along my heaving bosom. Each flick of his tongue jiggled my breasts and sent little waves of electricity throughout my entire system. As soon as it started, it was finished. He licked his lips and raised his head again, looking at me with his calm black eyes. I heaved a sigh of relief and relaxed my tense body. Then lucky got off the bed and grabbed my ankle and dragged me half of the bed then he pushed between my thighs with his shoulders. I started to struggle to get up but he jumped on top of me and bared his teeth and growled. I was frightened into submission and lay there and let him do what he wanted. He moved back down between my thighs and started to lick me.

Oh my god I have not felt a tongue on me since my husbands. He continued to lick me forcing my legs further apart with his shoulders. Pretty soon he had his tongue on my clit and then inside me. He started alternating between my clit and my vagina. Oh my god I could feel myself coming and however I tried I couldn't stop myself. Then I shuddered had the strongest orgasm I had had in years. When I came lucky stopped and climbed on top of me and started licking my face and lips. As if to tell me he owned me. Lucky got back down and stuck his head between my legs again.

Lucky kept assaulting my delicate vagina with his rough tongue, invading every nook and every cranny I had in between my legs. I felt the thick meat of his tongue sliding down the arch between my buttocks and scraping itself along my rectum. I wanted to throw up from anger and frustration. I couldn't believe I was being molested on the first day of my new life. His tongue had finally broken free of the protective folds of my labia and had found a way inside my vagina. I felt him enter me, swivelling his invasive tongue in and out, in and out, lapping up my womanly juices, coveting what was not his. His speed increased inside of me, filling me at an even faster tempo, in and out, in and out, while grinding his bumpy tongue against my tiny pink clitoris. My body grew hot again and my legs went limp and I was coming again. I was being sexually assaulted by a dog, I thought angrily. I started trembling at the sheer force of the sexual attack on my vagina. Bile rose in my throat, I was shaking with sexual arousal, anger and fear. Lucky kept forcing the full length of his tongue deep inside my canal, pushing as far as it would go, and then pushing some more. My vagina felt full to capacity with his enormous meaty tongue, I felt the walls inside me stretching to it's fill, fighting with the force that it was being penetrated with. Tears started to silently fall from my face. I was just recovering from my second orgasm when Lucky stood up suddenly forcing his hips between my thighs. I tried to close my legs but lucky was too strong. I grimaced at the thought. But Lucky was far from done with me. I tried to push him away but he just bared his teeth and snarled forcing me into submission. With his powerful back legs and broad hips, he forced my knees apart. I yelped in surprise and shock at his strength. With one fell push, he had opened my knees wide apart, once again exposing my dripping wet vagina to the air. His front paws rested on my shoulders, holding up his torso as he gently dipped his hind legs down closer to the bed. At this moment I was shaking and sobbing, tears rolling down my cheeks onto the bed. I tried desperately to push him away he just grabbed my wrist and pushed it away. the more I struggled the harder he bit. I had to resign myself

to what was about to happen.

He stared deeply into my eyes again, almost a cold cynicism swept over his face as he planted his erection at the source of my womanhood. I couldn't understand what was wrong with this dog, everything he did seemed so meticulous and thought out. I awaited my inevitable rape with bated breath. His humongous muscular body was poised between my shaking knees, pressing down on them, spreading me wide open for his access. His throbbing red meat touched the entrance to my swollen canal, pushing past my lips it entered with no care for repercussion. I felt it slide in, stretching my walls, forcing its way inside as if he was entitled to do whatever he wanted to my body. My eyes burned with anger again as I thought of how this dog was sexually dominating me in my own bed. Assaulting me and breeding me in my own home.

I laid back and accepted my fuck. I accepted it just to be able to survive it. I let my arms drop to my side, Its cock stretched my insides to its limit with each invasive thrust deep inside my body. I laid there, staring at the ceiling as the massive Great Dane raped me. Its cock delved deep, separating my walls, pushing its way deeper for better access to my cervix. Each stroke of its hips, each poised propulsion of its breeding baton pushed me deeper into shock. But in spite of this I could feel myself coming again. As I came I started to black out the dog had completely exhausted me and I didn't have the strength to resist.

Lucky started tonguing my mouth he grabbed my chin and forced my mouth open. He was going to try to get his tongue in my mouth. As soon as he let go I slammed my mouth shut. He bared his teeth and snarled his breath forcing up my nose and then he grabbed my chin again forcing it open. This time he was not as gentle. I must have bite marks on my face. I dare not close my mouth again. His tongue quickly worked its way in my mouth. It tasted disgusting it was nearly making me sick. He worked his tongue in nearly to my tonsils but this was not enough for him. He rammed his lower jaw in my mouth as far as it would go. I thought he would break my jaw. Then his tongue continued to push down my throat. All the time lucky was still pounding away in me.

I started feeling pain deep inside my belly. The dog has now been raping me for nearly two hours. I think I had come about four or five times. slamming his oversized meat stick into my birth canal, colliding with my cervix. I used to be lucky if my husband lasted half an hour. I knew I couldn't put up with this brutal rape for much longer. I started crying again and sobbing as the dog emotionlessly kept violating the most sacred part of my body and dribbling his saliva down my throat..

I imagined how horrifying the scene would've looked to someone if they had walked in the door. They would see the dogs cock pummelling into the my spread legs like and me French kissing a dog as if I was some kind of dog slut,

I looked up and there was my son at the door filming me on his phone. Wow mum this is so cool.

Matt stop him he is raping me.

Its ok mum you don't need to be embarrassed its been a while since dad died you must be desperate for sex.

matt came over and sat on the bed still filming me. I was drifting in and out of consciousness from struggling against the dog for so long. The dog was making me orgasm again and there was nothing I could do to stop it. wow mum you're loving this you are so cool.

my son started fondling my breasts then I noticed he had removed his pyjama trousers and was masturbating. wow mum you are the coolest mum in the world. Then he reached over and pulled the dogs mouth from mine and pulled my head to him and pushed his penis in my mouth. I was disgusted

that my son could be doing this to his mum, but at least it tasted better than the dogs tongue. I was drifting out of consciousness and could do nothing to stop him. Fairly soon I could feel his spunk flooding in my mouth.

Finally after another agonizing half hour or so of rape with a dog that's penis was nearly two times the size of my husbands, I felt a growing sensation deep within me. The dog was knotting and it was stretching me beyond my limit. Even childbirth didn't feel this painful. Tears from shock and utter pain burst out of my eyes. The Great Dane just stood there, motionless until its seed was completely deposited into my womb. I shuttered and sobbed, burping from gulping too much air in. I laid there, leg's spread far apart, blood on the sheets, waiting for the dog to finally withdraw its unwanted appendage from my body. When it was ready, he pulled out his now soft cock with a sickening slurp and pop. Without any more interest in me, it quietly went and laid by the door.

I could feel matts penis hardening in my mouth again Matt climbed on top of me kneeling on my arms and fucking my mouth. Pretty soon he was coming again. That's it mum swallow it all. Don't worry mum me a Lucky will look after you from now on.

I couldn't believe what he was saying. How was I going to make him realise what was happening.

Then he climbed off me and pulled me onto the bed and lay at the side of me gently playing with my breasts. I must have laid there barely conscious for an hour. I cant believe I had just been raped by a dog and my son. I couldn't get the memory of being brutally raped out of my head.

Then I felt the Lucky dragging my foot off the bed again the more I struggled the harder he bit into me. Then he climbing between my legs again.

Wow mum he is ready to go again look at the size of him.

Matt get him off me I cant stand being raped again. Mum was really frightened I realised mum was telling the truth she really was being raped. I realised I could have pulled the dog off mum and locked him out the room or i could carry on acting dumb and act out my favourite bestiality fantasies and probably make mum my sex slave.

Its ok mum he is just doing what you want. You know how much you enjoyed it. You don't have to be embarrassed. Its just you and me no one else will know.

I could feel the dog cock pushing against my sore vagina again the dripping semen meant it slid straight in. I tried to scream but matt had stuck his cock in my mouth again. Oh god how was i ever going to get out of this. Lucky was pumping in to me faster than before. I think he was glad he had some help. I could feel myself orgasming again.

That's it mum this you are so cool.

I don't know how long the dog had fucked me for but it was starting to get dark and i had drifted out of consciousness every time i orgasmed. It must have been at least six times. i felt the dog climb off me and left the room. My son had come in my mouth a couple of times at least.

I cant believe you have been fucking my mouth Matt..

I thought you were enjoying it mum.

No i was exhausted i couldn't stop you.

Matt got dressed and left the room. He came back a few minutes later.

I've tied the dog up in the yard. Lets get you cleaned up.

Matt Half carried half led me to the bathroom. sat me on the side of the bath and got the shower hose and washed me down there. Gently opening my vagina and squirting the warm water inside me. Pushing soapy fingers inside me to clean me. He then ran a warm bath a helped me in.

I will just go and change the sheets for you they are a bit of a mess.

I lay in the warm bath barely conscious. I was absolutely exhausted.

Matt came back in with a bath towel took me out the bath and dried me all over. He got my e45 cream and gently applied it to my sore vagina. I couldn't believe my son was pushing his creamy fingers inside me. But it did feel a lot better.

Matt led me back to the bedroom and lay me naked on the bed. Then he stripped off and got in with me. What are you doing Matt.

I told you we will look after you from now on.

We Lay together for a while it did feel nice to have someone close again. Matts hand was wrapped round me holding my breasts gently needing them. Then his hand started snaking down between my legs.

Matt what are you doing.

Look mum I know Lucky's dick is bigger than mine. I can go and get him if you want.

No please don't.

Just relax and let me make you feel better. I had watched enough porn that i knew where the clit was. I gently rubbed it and could feel mum squirming. She was still exhausted and would not struggle but i would not fuck my mum till she begged for it.

How's that Mum she just murmured. I carried on massaging her clit I could feel she was enjoying it. Fairly soon she was starting to orgasm and i sped up my movements.

Oh don't stop. keep going

That's it mum come for your little boy.

She shuddered uncontrollably and i think she nearly passed out again. I kissed her cheek and we fell asleep.

I woke in the night and started looking through mums draws. She woke and asked what i was doing.

I'm looking to see if you have a vibrator.

Come out of my draws.

Then i found a large box with a vibrator and a dildo and some leather straps.

Wow mum what are these straps for.

Your dad used to like to tie me up.

I can do that if you like.

Grabbing her wrist i wrapped one of the straps round her wrist and clicked the little padlock. Mum started struggling but she didn't have much energy left. I quickly clipped that strap to the headboard with the small chain attached. Then she really started to panic but i quickly got the other wrist anchored to the headboard. Then i sat on her legs and did both ankles. There was long chain on these which i attached to the base of the bed. I tried the vibrator but it was flat. I took out the batteries and went downstairs to get more. I came back with a large pack.

I think there will be enough here to keep you going.

You cant do this matt. I'm your mum.

Mum its either me or Lucky. you decide.

Oh god don't let the dog near me again. do what you want.

I fitted the batteries and switched it on the head vibrated softly. I applied it to her clitoris. Mum started to squirm again.

That's it mum you know you like it.

Pretty soon mum was orgasming again but i kept the vibrator going slowly insetting it in her vagina and across her bum hole.

No not there please.

Have you ever done anal mum

No don't go there

Pretty soon mum was starting to orgasm again. I switched off the vibrator.

please don't stop. Keep going.

I waited until she had calmed down then i started the vibrator again. When she was nearly coming again i switched it off again.

Keep going.

Do you want me to fuck you pressing my cock against her vagina. Slowly rubbing it up and down.

Don't stop

Do you want me to fuck you

Yes don't stop

I slid my cock in and gently started to fuck her. Within seconds she was orgasming. Shuddering beneath me. She nearly passed out as she orgasmed. I gently carried on fucking her and she started to come round again. I lent over and kissed her she started kissing me back. then she was coming again. I didn't want to get my mum pregnant and as i was nearly coming myself i took my cock out

and climbed over her breasts and fed my cock in her mouth. Mum didn't resist and started sucking on my cock. i quickly started spurting my warm semen in her mouth. I held it in her mouth until i was sure she had swallowed it all. Then i collapsed at the side of her gently pulling her to me.

Wow mum you have to be the coolest mum in the world.

You raped me. I cant believe you have just fucked your own mother.

You begged me for it and you enjoyed it. You have to stop pretending you don't want me and Lucky to look after you.

Oh god how was i ever going to get out of this my son still thinks i want this. He is going to turn me into some sort of sex slave.

I unlocked both legs and one arm from the bed. We lay with each other until the morning. I woke and reached over and kissed her. I placed my hand between her legs and started to rub her clit mum reached down with her free arm to stop me.

Stop that or i will tie you up again.

She pulled her arm away and let me carry on pretty soon mum was squirming about desperately trying to stop her self coming. But she was too exhausted and pretty soon she was getting ready to come. I climbed between her legs and started fucking her. three times i made her come before i pulled out and once again stuck my dick in her mouth. She was barely conscious. Seems that the more she struggle and wears herself out the less control she has over her orgasms. I will need to keep her at it night and day she wont be able to control herself and i can do whatever i want to her.

Wow mum that was nice. Lets get up. Keep the straps on for now. I took the chains off and let her get dressed.

Don't bother with knickers or bra mum.

She put a tee shirt and skirt on and we went down to the kitchen.

We made breakfast and sat in silence while we ate. We hadn't eaten for nearly 24 hours

I went over behind mum and bent over and kissed her on the neck and reached round and cupped her breasts.

You cant keep doing this i am your mum. My son grabbed my wrists and clipped them together and pulled me up from the chair. Oh god what now.

Come with me i want to show you something.

My son led me to his bedroom i thought he was going to fuck me again. Instead he sat me at his desk. He chained my ankles to the base of the swivel chair and unclipped my wrists. He turned his computer on and opened up a animal porn site. Look mum these people pay good money for animal porn clips. We can make a fortune.

Do you watch this stuff. I do watch this stuff a lot but you like to actually do it..

I need your credit card number to go and buy a camera.

He made me tell him my card number. If this number is wrong you will be punished.

I have some downloaded videos i will set them playing for you. I have set the webcam to record. if you look away from the screen while I'm gone you will be punished.

I cant believe my son was doing this to me. I couldn't think how i was ever going to escape this. My son left and biked into town. I sat watching the videos. I couldn't believe what some of the women were doing. After about half an hour of watching this stuff i felt myself getting wet. I started fingering myself and pretty soon i was orgasming. Oh god what's happening to me. I made myself come twice more before my son came back.

I heard my son come back and came upstairs. How you doing mum. I'm just going to put the camera on charge then i will check the webcam.

He pulled a chair up behind me and reached round to the mouse. Lets have a look. He quickly scrolled through the webcam footage. He stopped at the first bit where i fingered myself. Wow mum you are really enjoying this stuff. He scrolled to the other sessions. All the time one hand cupping my breast.

Let me go and get the vibrator for you while you watch the rest. He came back in with it and started using it on my clit. I was starting to get excited. My son handed me the vibrator.

Here you go enjoy yourself. I was so near to coming i couldn't stop myself using it. I think i nearly passed out when i came. I think it was the thought that i was masturbating in front of my son this was so embarrassing..

Wow mum this is going to be soo much fun. We are going to make a fortune from this web site. I'm just going to get these chains back on your straps. He pulled my arms behind my back and locked them. Then he unchained my legs.

I screamed at him You are not going to turn me into a dog porn star i wont let you. I will scream that i am being raped if you try to film me.

I think i will probably need to punish you. You need a bit more training.

Oh my god you cant be doing this. What are you going to do to me.

I only want you to do what you enjoy doing but get paid for it. We will go back to where we started I will put you and lucky in the bedroom together and see what happens.

No he is too big he will overpower me.

I wont let him hurt you.

~~~~~

## **Part Two**

My son led me back to my bedroom. i couldn't stop him my arms were secured behind my back. He lifted the front of my tee shirt up over my head and down my arms restricting me even more. Then he removed my skirt.

Stay there i will just go and get lucky.

Oh my god I couldn't fight lucky off when i wasn't tied..

Then he came back in with lucky. There you go mum enjoy yourself.

I tried to get away from him but there was no where to go. Lucky followed me i think he new he had all the time in the world to do what he wants. He grabbed at my t shirt binding my arms and dragged me backwards to the bed. He weighed a lot more than me and he had four legs i couldn't stop him. He jumped up dragging me back on the bed with my legs hanging over the side. I thought he was going to dislocate my arms. He didn't seem to be in any hurry. He started licking my mouth he snarled at me to open up. Then he started sticking his tongue all the way in my mouth it tasted as if he had been licking his arse. Then he pulled away and stared at me as if to tell me he owned me. then he climbed between my legs i knew there was no point in trying to stop him and he started to lick me. He quickly made me orgasm a couple of times. He stood up between my legs and started brushing his dick against me. He didn't seem to be in a hurry. Once again he stuck his tongue in my mouth and his dick in my vagina at the same time. i orgasmed almost straight away. Oh my god no wonder my son thinks i enjoy this. All this time my son was videoing everything. luckys dick pumping in and out and every time i orgasmed he would come in for a close up of my face French kissing a dog. After about an hour and about 4 more orgasms lucky stopped. I knew he had not come. He climbed up on the bed and stuck his tongue in my mouth then he forced his lower jaw in. I thought he would dislocate my jaw then he forced his tongue down my throat. I started to gag but he kept at me until i could keep his tongue in without gagging. Then he moved up and placed his dick against my mouth. Oh my god he had seen my son do this. I quickly closed my mouth but he grabbed at my chin and forced it open. He snarled at me and bared his teeth. I had to open my mouth and let his dick in.

Just a minute mum i will put some pillows under your head to make it easier.

Oh my god my son was helping him to orally rape me. When my son had propped me up lucky managed to get most of his dick in my mouth. He started violently ramming it in and out making me gag. this must have gone on for a few minutes then i could feel the bulge building up at the base of his cock. My mouth was stretched as it was i would never be able to take that. All the time my son was videoing. Then the knot went in forcing my lips and teeth open. and another 2 inches of cock went in. It was now right at the back of my throat. I was gagging and could hardly breath. Then his semen started erupting it was flooding in my throat faster than i could swallow.

After the knot had gone down lucky climbed off and sat by the door.

Wow mum you really enjoyed that. You complained about me sticking my dick in your mouth and you managed to take all of luckys.

Oh my god does he think i did that voluntarily.

Ok mum you were too occupied to do much screaming while i videoed you. I think you were enjoying yourself too much. Are you going to cooperate now and do whatever i say.

No i don't want to do dog porn with complete strangers watching me perform.

Ok I'm going to pop into town to get food i will leave you two together. i will probably be an hour or two. I will just put the long chain on your ankle so you cant leave the room.

No please don't do this.

Matt padlocked the chain on my ankle and the bed frame and left. I sat on the bed terrified. i didn't know what to do to stop what was going to happen. I heard Matt close and lock the back door then Lucky stirred from his sleep. As he came over to me i knew i couldn't stop him raping me but if i lay

on my stomach he couldn't make me suck him off. I turned over with my legs hanging over the bed. I thought if i made it easy for him he would not hurt me.

Lucky came over to me and he did mount me again. Pretty soon he had made me come 3 times. God why couldn't i stop myself coming. each time i slipped into unconsciousness. The last time i passed out lucky had grabbed the t shirt round my wrists and dragged me over to an ottoman stool and pulled me over it backwards. Somehow the ankle chain had become trapped under the stool. I couldn't move my left leg. He grabbed hold of my hair and dragged my head until it was hanging off the edge of the stool. He went back to fucking me and he placed his paws on my shoulders. He lifted my head and forced his tongue in my mouth again. He made me come another 2 times. As he got excited more and more drool from his mouth went down my throat. I knew he was getting ready to come. I was barely conscious when he pulled out and went round to my mouth again. Oh my god not in my mouth again please. he wrapped his paws round my neck and stuck his lower jaw as far as he could in my mouth forcing his tongue and more drool down my throat. Then he took his mouth away and replaced it with his dick i had still not properly recovered and could not stop his dick going in my throat. He had one paw under my chin forcing my head back. His dick was forcing its way into my throat. I was choking he seemed to know how much i could take. Withdrawing when i couldn't breath and started to pass out. I think he wanted me to be conscious so i was aware of what he was making me do. Then i could feel his knot growing forcing into my mouth. At this angle it filled my mouth and his cock must have gone a couple of inches into my throat. I could hardly breath but he didn't care now as he was coming. Then i felt the warm semen flowing into my throat. I had to swallow it to allow myself to breath then i passed out again. I came too and lucky was laid at the side of me. I tried to get up but lucky growled and i knew enough just to lay quietly. I looked at the clock Matt had only been gone 40 minutes I had at least another hour of this. Lucky got up and went round between my legs and started licking me again i lay there quietly in the hope he would be gentler but again he had me orgasming like a proper dog slut. Then he mounted me again. I couldn't take another rape i was absolutely exhausted and could barely stay conscious. God this dog was insatiable. lucky was pumping away for ages making me come at least 6 times. i looked at the clock another half hour had gone. I had had an orgasm every 5 minutes or so i think it was me that was insatiable. Then i felt his knot and he was coming in me again. Then i passed out again.

When i came too lucky had managed to turn me over and i was hanging over both sides of the stool. I could feel lucky was licking my arse. Oh god not there please. He was forcing the tongue inside my tight little hole trying to open me up. He was going to rape me anal and there was nothing i could do. I had never done anal it was never something me or my husband wanted to do and my first time was going to be with a massive dog dick. I hear matt come in and hoped he would come straight up and stop him. Lucky climbed on my back trying to guide his dick in me. His aim was not very good and he kept slipping into my sore vagina. Then he was nudging against my tight little hole when Matt walked in. Please stop him matt he is trying to fuck my arse.

Wow mum have you been having some fun. I grabbed a pole i had made up with a hook on to control the Lucky in case i needed it. I hooked it round his thick collar chain and dragged him off. To say the least he was not happy snarling and growling at me.

Ok mum are you going to do the dog porn or do you want me to leave Lucky with you for another hour.

Yes Ok i will do whatever you want. just take him outside.

I took lucky out and chained him in the yard. I came back in mum was still bent over the stool. I realised her chain was stuck and she was unable to move. So i unclipped her leg and led her too the bathroom and ran her a bath. Matt give me some water i cant get the taste of the dog out my mouth.

I unclipped her hands and gave her some water and left her to soak. I will just go and check the cameras to see what you guys have been up to. I had left my video camera running but that ran out after an hour. But I had set the webcam up which was still running. I quickly downloaded the camera while I watched the webcam footage. Wow Lucky had certainly enjoyed himself it looked like Mum had come buckets as well. It almost looked like Lucky had been trained he knew exactly what to do to get what he wanted. I checked the camera footage that was amazing pretty soon I was sat there with the biggest boner.

I stripped off and went into Mum. Wow Mum you certainly had some fun it's given me a hard on watching it. I just need you to take care of this.

I lay there in the warm bath exhausted when my son walked in naked with his penis erect. He climbed in the bath and forced his dick in my mouth and released his spunk down my throat almost straight away. I knew my son was going to use me whenever he wanted and if I denied him he would shut me in with Lucky again. At least my son's semen took away the dog taste in my mouth.

For the next two days My son never made me have sex with Lucky. We never really talked after that our mother son relationship had gone for good. Then the after breakfast my son sat down with me told me what we were going to do for the first film.

He took me back to my room and took off my skirt I was stood naked from the waist down. He pushed me back on the side of the bed and chained each ankle to the castor at the top and bottom of the bed stretching my legs apart. Then he sat me up unchained my wrists and took off my T shirt. Then he got the camera and put it on a tripod. Then he got his and my phone. He had two small phone tripods. He set one on the cupboard aimed at my face. I need to be careful not to show the chains. I'm just going to open you up a bit before we start.

Then he climbed on top of me and started fucking me. I can't believe he was doing this. Pretty soon I was orgasming. I think I nearly passed out. When I came round he was still pumping away and it started again. Three times he made me come before he pulled out and shot his load in my mouth again.

Well that was nice and you enjoyed it as well. I will just prop your head up with some pillows then I will get Lucky.

No please don't.

Mum you agreed to do this you don't want more training do you. Don't worry Mum I won't let him hurt you. Let's just put some e45 cream inside you to make it a bit easier for you both.

My son was poking soft creamy fingers inside me. After a few seconds he stopped and wiped his hands and disappeared out the door.

Come on boy I have a present for you.

My son walked in the door with Lucky on a chain. Right let's get the cameras going and get started. He went to each camera and set them to record then he let Lucky go.

Oh my god there was nothing I could do to stop him. He stuck his nuzzle between my legs and started licking. Oh my god no I could feel myself getting excited already. The more I tried to stop myself coming the more exhausted I got. He must have made me come a couple of times. I can't believe what a dog slut I was becoming. I was barely conscious when Lucky stood up between my legs and started rubbing his dick against me. I tried to push him off me but he weighed too much. He

grabbed one of my wrists in his jaws and pushed it back on the bed then he bared his teeth at me and growled. I had to stop struggling or i think he would hurt me. I lay back on the bed the pillows propping my head up so i could see everything that was about to happen. He placed his paws on my shoulders he seemed to be pulling my head up to watch what he was about to do. He had found the opening and started to ram himself inside me. I think the cream made it a bit easier for him as he rammed it in to the hilt in one go. Then he started pumping away at me. He started licking my face with his big tongue. he bit down on my chin and forced my mouth open again. I knew i had no choice but to keep my mouth wide open. His long sloppy tongue slid into my mouth licking round inside me. Oh my god it tasted disgusting. Matt had the camera taking close ups of the dog tongue slurping in my mouth. Then it started again i was coming again. No wonder my son thought i liked this. I couldn't stop convulsing as he pumped away inside me then everything went black again. It must have only been a few seconds or it could have been longer as i came round the dog was still pumping in me and after a few seconds it started again. I looked at the clock we had been fucking for forty five minutes. i was absolutely exhausted and still he carried on pumping into me and his tongue was still halfway down my throat. I must have orgasmed and passed out four times before i felt his big knot forcing into my vagina. I thought it would split me. Then i could feel warm dog semen squirting inside me. Then we were locked together but at least he had stopped pumping in me. I think i passed out again and when i came round Lucky had pulled out and was licking the juices that trickled out of my aching slit. When he had licked me for a while he once again plonked his weight on top of me and started licking my face. He growled at me to open my mouth. Then he stuck his tongue back in my mouth. It tasted bad before but now it had his spunk and my blood and my juices on it. I thought i was going to be sick. Then matt hooked the chain on his collar and dragged him out to the kennel.

He came back in after a minute or so. Wow mum that was great. Looks like you really enjoyed that.

No you have to stop this matt. Its ok mum i know you enjoyed it. I will just upload the footage to my computer and put the cameras back on charge then we will shower you and run you a nice warm bath. I lay there with my ankles still shackled while he sorted out the films. After a few minutes he came over sat me up and clipped my arms behind my back and unclipped my ankles.

After he had showered me and left me to soak for half an hour in the bath he came and dried me off and took me to my bed. He clipped one wrist to the headboard and told me to sleep. I was absolutely exhausted and quickly collapsed asleep.

While i was asleep matt edited the films ready to send off. When i woke matt clipped both my wrists together and took me downstairs. He had his computer hooked up to the tv. He sat down on the sofa and sat me on the floor between his legs. then he set the video to play while he cupped my breasts. I cant believe what came up on the screen. there were very detailed shots of me being licked and fucked from every angle. There was the look on my face as i came. Repeating over and over. Matts right hand had trailed down to my clit and i started orgasming again as i watched myself being turned into a dog porn slut. See mum i knew you liked it.

I will put a copyright notice across the video and get it sent off to see how much they will pay. Within 2 days we had a reply saying the will pay £250 and so much for every view. Then they asked for bank details and signed release forms. I sent them and the video without the copyright notice. Within 2 days we had the £250 then at the end of the month we had another 200. I also got an e mail asking for more of the same mum was becoming very popular.

Over the next few days i came up with various scenarios for videos. Some were complete bondage videos some were more of what we had already done but set in different rooms.

The bondage ones were becoming the most popular. And these were the easiest as i didn't have to

bother about mum struggling. I had to keep mum busy so she couldn't build up her stamina. it made it much easier for her to appear to enjoy it.

after a couple of month we had put about a dozen videos on their site and we were making a couple of thousand pounds a month. I had to keep mums tethers on so i could clip her wrists together whenever i need her. This meant i could fuck her anytime i felt she needed subduing.

She stopped complaining about the dog sex i think as long as i limited him to one good fuck she enjoyed it. I think she even convinced herself she enjoyed it.

I was being turned into a complete dog bitch. Lucky owned me and he could make me do anything he wanted. he would always insist on tonguing and fucking my mouth and I had stopped resisting him. Matt was treating me like a piece of meat to position however he wanted so he could video me being dog fucked. Matt had locked the front door and put the key in Lucky,s kennel. The only way I could escape would be past the dog. I knew I was my sons sex slave and there was nothing I could do about it.

Part Three

The following couple of weeks blended into one. I had given up struggling and let Matt do whatever he wanted. My son would film me for an hour or so in the morning. Then lunch then a couple of hours in the afternoon. I think my son was right I did enjoy Lucky fucking me. But I just wanted my old life back where I was not being dog fucked every day. My son had now sent several more videos in and the Money was rolling in. We had enough money without this. My son had bought a new computer and more cameras with the money to improve the quality of the videos.

We had just finished breakfast and my son came over to me and clipped my hands behind my back. what my son then said frightened me.

Ok mum lucky keeps trying to get his dick in your bum. We have to open you up a bit. If he gets his cock in there it will tear you. I think I would like to be the first one to have anal sex with you not a bloody dog. Also when I am fucking you I can pop my dick in your bum instead of your mouth.

Oh god my son was justifying anally raping me. He grabbed my by the arms and led me to the bedroom where he had all the cameras set up. He pushed me down on the ottoman and tied my knees to the stool castors. He then unclipped my wrists and clipped them onto the castors. He positioned the cameras and went to get the e45 cream. he came back with the cream and the dildo from my draw. Oh god why did I buy that. He knelt between my legs and reached his hand under me and cupped my breasts. With the other hand he started massaging my clit. Pretty soon he had me coming.

That's it Mum I bet that feels a lot better.

Then I felt his dick enter my vagina then he slowly started pumping away and at the same time he continued to massage me. He Made me come a couple of times then he withdrew.

Wow mum you feel so nice.

Then I felt the cold cream being applied to my bum and he worked it in with the dildo.

Is that ok mum I hope its not hurting you. after a few minutes he took it out and applied some more

cream. Then I felt his penis at the entrance as he slowly worked it in.

Take your time that's hurting me.

Ok Mum sorry.

He withdrew and applied some more cream. Then I could feel it inside me again. This time it felt a bit more comfortable. Then he slowly started pumping away all the while massaging my clit. After a few seconds he had me coming again from the actions of his hand not from the anal assault. Then I felt my son convulse as he came in me the feeling of my son climaxing inside me made me climax as well..

Wow mum that was nice.

He lay there on top of me until his dick was soft then he pulled out. Then he got some tissues and cleaned me up and went to the bathroom to wash his penis.

This is going to be really nice mum I loved finishing inside you. You felt lovely and tight I don't think you will be able to manage Lucky just yet. We will need to find something a bit bigger than the dildo next time.

Then matt unclipped my wrist and clipped them behind me again. Undid my legs and took me over to the bed and laid down with me.

He hugged me to him.

I love you mum you are the coolest mum in the world.

We lay there till lunchtime then there was a knock on the door. Matt quickly pulled his shorts and T shirt on and went down.

I went to the door and there was guy in a suit.

Hi I'm looking for Matt Wright.

That's me. The guy gave me a funny look and said

are you the only matt wright.

Yes

Are you the person who has been sending these videos to us. He showed me pictures on a I pad.

Yes. Who are you.

He showed me his business card. Its the same name and company as I had been sending the footage to. How did you find us. Your bank account is in this town and your IP address only covers a few houses. you are the second house I came to.

I don't understand you are very young who is the woman.

That's my mum.

How are you getting her to do this stuff.

I caught her fucking our dog. He wears her out. when she is exhausted he makes her come loads of times. I have convinced her she enjoys it and I am helping her to fuck him. If she complains I lock her in the bedroom with lucky for 2 or 3 hours. It makes her a bit more compliant. She is too worn down to resist.

Wow. I am here because I need her to sign witnessed video releases because of the nature of some of the footage. Will you be able to get her to sign them.

I think so I will go and get her. I popped up to mum.

Who was that.

Its the dog porn guy he needs you to sign some releases or something.

Let me get dressed.

Its ok mum you can come as you are he has seen you naked fucking a dog.

NO NO you cant drag me naked in front of a complete Stanger.

it will be ok mum.

My son grabbed my wrists and marched me downstairs and into the kitchen.

WOW you are gorgeous much better than the films. HI I am Ian. I need you to sign these releases as you are obviously tied up in some of the films we need to be sure you have given your consent.

What happens if I don't consent.

I will have to report the footage to the police. Your son will definitely go to prison and all the videos will be played for the jury. Pretty soon everyone in the village will know what you have been doing.

Oh my god why did I get into this. Where are the forms.

My son released my wrists and I signed all the forms. There are a few extra ones here as well for future videos.

Ok is that it.

When I had signed my son quickly re clipped my wrists. I tried to resist but I didn't have the strength to stop him.

I was wondering while I am here I have my professional camera in the car can I give you a thousand pounds to film your mum.

Oh my god my son was going to let a complete stranger into my home to film me naked fucking a dog. It was bad enough when it was just me and my son.

That will be ok do we get a percentage of views as well.

Yes of course.

He came back from the car with his camera some lights and a wad of money.

Ok can you get her ready.

Where do you want her.

The main bedroom you mostly use.

My son casually marched me back up to the bedroom then Ian set up his lights. I cant believe he was doing this.

You will need a light over here as well he usually drags her over to the ottoman when he is done on the bed.

Does he control her.

Pretty much but mums just given up resisting him.

My son lay me back on the bed.

My son said I just need to get her in the mood. then he got the vibrator after a few seconds he had me squirming about then he stuck his dick in me. Pretty soon he had made me come a couple of times. Then he stuck his dick in my bum and climaxed.

All the while Ian was filming this..

Ian said can I give you a hand with that.

Ok if you have a condom. I have just started trying to get mums bum hole opened up for Lucky can you fuck her there. Ok but I just want to feel her vagina first.

Ok

OH my god a complete stranger was going to rape me and my son did not care.

Ian had quickly handed the camera to my son and stripped off. He rolled a condom on as he came towards me. His dick must have been about ten inches but not as thick as lucky's. Then he sunk his dick in me almost up to the hilt. I came within seconds. He lent over me French kissing me and cupping my breasts as he fucked me. Oh my god I was coming again. He made me come three times I passed out twice before he was done. I came to to feel ians dick in my bum. He was stretching me and I was getting a bit sore. Ian pulled out and applied some lubricant to my bum and sunk his dick in again. That felt a lot better and pretty soon I was coming and passed out again..

Wow I see what you mean she is insatiable. Is she ok will she come round.

Yes she is fine. Can you unclip her and clip her arms behind her and put her on the bed

My son went to get lucky leaving me alone with a complete stranger. He clipped my ars behing me and unclipped my legs and took me to the bed. He dressed again and came over sat on the bed and cupped my breasts. You are really beutiful you will make loads of money in this bussiness you are becoming very popular. He started massaging my clit again until I came. Thats it babe let yourself come.

Then I heard Matt come in with Lucky. Thank god he is back. Oh god what was I thinking he was going to let Lucky rape me now.

Ian put new memory cards in the camera and changed the batteries. Putting the old ones on charge. He didnt seem to be in a hurry.

I will just clip these leather straps on to mum before we start. They give Lucky something to grip onto without biting her. Do you want her arms clipped behind her or free.

Free will do for now I want her to be able to struggle.

Matt removed the padlock holding my hands together and pushed me back onto the bed then he let Lucky go. He must have thought all his christmasses and birthdays had come at once. He had now got two people helping him to rape me.

The next two hours were a blur litterally as soon as Lucky entered me I was coming. Lucky seemed to know exactly what ian wanted. Lucky was french kissing me and fucking me I must have come about eight times. Lucky Knotted in me and I could feel his warm semen shooting inside me. eventually I passed out completely.

When I came round Luck was dragging me across the floor by the ankle. He dragged me backwards over the ottoman. I was splayed half on half off the stool Lucky dragged my other ankle over until I was where he wanted me.

Then he proceeded to fuck me again making me come a couple more times. Then he withdrew and came round to where my head was hanging off the stool. I knew better than to resist as he sunk his dick in my mouth. I think it was the embarasment of a complete stranger watching everything lucky was doing to me but when Lucky stuck his Knot in my mouth and started spurting his warm cum down my throat I orgassmed as well.

Ok that was pretty amazing are they done. For now mum can only take so much at a time.

Ok well that's probably enough for now.

Can I get rid of this.

Ian was holding an obvious etection in his trousers. She will be a bit sore you can do her mouth and her bum though. Probably use some lube again though.

I am just going to chain lucky up.

My son left me with Ian again to do whatever he wanted. He had moved the camera to my face and stripped off I could see his erect dick as he walked over. There was no courtesey remarks he just sank his dick in my mouth shoving as much in as he could making me gag. He pumped away for a while then stood up moved the camera and Rolled on a condom, he applied some lube and sank his dick in my bum Pretty soon we were both coming.

My son popped his head round the door. Are you guys done. As if I had a choice.

Where's the bathroom I just want to clean up.

Matt came over to me Helped me up and took me over a lay me in bed pulling the covers over me. I will come and run you a bath when Ian has gone. Then he kissed my head and left.

Ian collected the gear and said can you show me the other rooms to see where else we can film another day. I heard matt take him round the bedrooms then downstairs. I couldnt believe my son

was aranging for him to come back and rape me again.

I showed matt the living room.

The sofa would probably be good. The kitchen tabel as well and the bench seat.

Then I showed him outside. We have a small stable and a couple of sheds. We looked in the stable. Ian was haveing a good look round.

Do you think you would be able to get your mum to do a Pony.

No I wont let her do that. She is nice and smooth and tight I dont want to spoil that.

OK lets go back in the kitchen.

I made us both a coffee and sat down.

Look your mum and Lucky are very good at this. Could I bring you some other dogs over for your mum to train.

OK I think that will be good it will make a change. just make sure they are clean.

Also I want to send you a girl over for Lucky to train. Can you put her up for a few weeks while you train her and film her.

Yes no problem. Again make sure she has no infections.

Ian left and I went up and ran mum a nice wam bath and helped her in. You did really well mum . Ians got a nice big cock hasnt he. You seemed to realy enjoy it and I think he did I think he will be back again.

Oh my god how is this ever going to end.

## **Part Four**

A few days after Ian had called there was a knock at the door. Ian stood there with a young girl and a dog. HI can I bring these in.

Ok

This is Suzy she is here to learn the trade so to speak. And this is rex.

Is your mum in.

I lied and said no I didnt really want strangers just turning up and fucking my mum. She wasn't a prostitute.

Suzy only looked a couple of years older than me.

Now Suzy I want you to do anything matt tells you. If I hear bad reports it could be trouble.

OK I will be off then.

I took the dog out to the barn gave him some food and locked him in.

I came back Suzy looked terrified. I gave her a hug and asked her what's wrong.

I used to work at a jewellery shop at the weekends. One of the rings had a similar sized diamond to my fake one so I swapped the stones over. A couple of days later the owner called me in and showed me the cctv.

He gave me the choice of doing anything he wanted or going to jail. I thought he would just want sex with me but he had parties with loads of his friends and I was the party. After 3 months he got fed up and sold me to Ian. Now here I am.

Do you have any proof of what they did to you. I stole a memory stick I am not sure what's on it.

Ok come upstairs took her into Mum. Luckily she was not with Lucky. This is Suzy. Ian has just brought her.

Hi, OK put her in your room.

I showed her to my room. I will run you a bath.

I will just see what's on this stick. It was encrypted. I downloaded some encryption software and left it to run. God knows how long it will take. I popped my head round the bathroom door.

You OK. I expected her to shout dont come in but I think she had got used to being used and being obedient.

OK lets get you dried. She stood up and I dried her all over and took her to my bedroom.

You dont need to be frightened I lay her down and lay with her and gave her a hug. I think she was expecting me to rape her.

Do you know what you are here to do. I think Ian wants me to do sex with a dog.

Not necessarily I dont feel comfortable making you do stuff against your will.

Have you ever been with another girl.

Yes when I was about 15.

Did you enjoy it. Yes we couldn't keep off each other. Then her parents found out and they moved away.

Ok have a rest we are doing dinner soon I will call you down.

Are these all your clothes I will put them in the wash. Mum will sort something out for you to wear.

Over dinner we asked Suzy about herself. She had grown up in care and didnt have any close relatives. After dinner we sat and watched a couple of films and had a couple of beers. Suzy went up to bed and I shared mums bed as usual. Following a nice gentle fuck we fell asleep.

I was woken to someone screaming. I went into Suzy's room. She was having a nightmare.

I sat on the bed and gave her a hug. She was really clinging on tight and I climbed into bed with her.

I put my arm round her and we fell asleep until the morning. I woke up and gave her a kiss on the forehead and got out of bed. I had a bit of an erection sticking out in my pyjamas. Suzy looking at it I think she thought I was going to want sex.

Mum was already downstairs. You guys been having a nice time. No. She is very frightened. Suzy came down and walked into the kitchen. She didnt look bad in mums clothes. It was clear to see Suzy didnt have bra on.

A bit later on when me and mum were alone. Mum have you ever been with a girl. Yes a couple of times at college. Did you enjoy it.

God yes.

Mum was wondering where this was leading.

I took Suzy out to feed Lucky and the new dog. Look mums supposed to try to train the new dog today I need you to watch. And probably operated a camera.

I took Lucy upstairs and showed her how to use the camera. She seemed to work it out very quickly.

Ok I will just go and get mum. I led mum to the ottoman and tied her on her back. She was always a bit apprehensive and at the same time excited at the thought of being fucked.

Wow does your mum let you do this. Yes she likes having sex with dogs but she hates to think she is doing it voluntarily. I think it embarrasses her.

Ok Suzy I want you to strip off and lick my mum.

I think mum realised what that conversation was about earlier. Matt you never said you were doing this. She tried to sound annoyed but

I didnt really believe her.

I thought she would take her time. Instead she was naked in a few seconds. She knelt between my mums legs and looked at the camera.

Is this ok here.

Yes Lovely.

I started the camera. Ok go

Suzy started licking my mums clit then nibbling her lips. I could see mum starting to squirm I knew she was near to her first orgasm. Suzy stuck her tongue into mums vagina as far as she could and mum started to come. Suzy carried on gently licking until she was calm again.

I moved the camera round and told Suzy to straddle her face. She tipped mums head back and Knelt astride her face. Ok mum now its your turn. Mums tongue was straight out into Suzy's slit. Suzy moved her head just where she needed mum to lick. Pretty soon Suzy came. Holding mums face tightly onto her slit. I thought mum would suffocate.

Ok I think we should leave the dog stuff for now.

I untied mum. The two of them wrapped their arms round each other and were soon kissing.

Ok perhaps you two need a bit of private time and I left the room.

I popped back half an hour later and they were laid in bed hugging. You guys ok. You ready for lunch.

After lunch we came back to the bedroom. I tied mum to the ottoman again and brought in the new dog. I put his nose in between mums legs. He didnt seem interested. I rubbed his nose in it. Still nothing.

Suzy can you rub his cock. She tentatively reached under him and held his penis. His penis got hard but he was still not interested. Ok

Thats enough I will go and get someone who knows what they are doing.

Matt you cant let Suzy watch this. I think mum was worried for her as well.

She will be fine. she can operate a camera.

I brought Lucky in. He already knew the routine. He licked mum until she came a couple of times then mounted her sticking his tongue in her mouth after the first orgasm just when she was most compliant. After he had given her 4 orgasms he knotted and shot his semen into her.

I had thought he would stick his dick in mums mouth. I think he was too excited. He probably thought he had two bitches today. Lucky went and laid by the door.

We untied mum and helped her to the bed. Has he done. Not yet he will want another go in a minute.

How can you do this to your mum.

You made mum come once Lucky made her come 6 times. Deep down she really enjoys it.

Lucky was stirring I clipped mums wrists behind her and lay her across the bed.

Suzy can you lay on the bed and Let Lucky lick you.

Dont let him fuck me will you.

No

Suzy stripped again and lay on the bed next to mum. She leant over and kissed her.

I put a chain onto lucky's collar and anchored the other end to the cast iron radiator just short enough to stop him mounting Suzy.

Lucky wandered over to the girls. He had a sniff of Suzy and started to lick her. He knew what he was doing and soon had her orgassming. He carried on at her until she was nearly coming again. He suddenly tried to jump up to mount her. He couldn't reach. He grabbed her legs and tried to pull her off the bed. I tugged on the chain and managed to pull him away.

That was good Suzy. Climb over the bed and come behind me. Suzy came over and got dressed. I lengthened the chain and Lucky realised he wasn't going to have Suzy and mounted mum again. I think he was a bit annoyed and gave mum a couple of orgasms and finished off.

He probably thought I will save my strength and try to have another go at Suzy.

I took lucky back to his kennel and brought the new dog in again. I thought now mums got the smell of dog cum in her it would get him excited. but still he was not bothered. I took him back to the barn. I would e mail Ian

I came back and untied mum and ran her a bath.

So Suzy how was that. I'm not sure. It was quite exciting. He frightened me a bit when he dragged me off the bed. I dont like you using your mum like that though.

Mums ok she is more or less admitting to herself that she enjoys it but she is still embarrassed.

Mum came out of the bathroom and gave Suzy a nice hug and a kiss. Then I ran a bath for Suzy.

We were sat having a couple of beers watching the tv when the computer pinged my phone. I went and checked the computer the decryption had done. There were four video files on the disc.

Suzy can you come up.

I played the videos One was single guy having sex with Suzy. The other two were of a group of men taking turns fucking her and making her suck their cocks. the men would be easily identifiable.

Are these the men. How old were you.

Yes they are I was 16.

OK we can take this straight to the police. The men will be locked up and you may be as well. If you are you always have a home here to come back to.

Or we can get Ian to contact the guy who sold you to him and ask for five thousand pounds and one hundred a month from each of them. Plus the money Ian payed them. You will probably have to do a dog porn video or Ian will just deny all knowledge of it. Once you do that and we make a copy of the web site page then he wont have a leg to stand on. This way you wont go to jail. You will probably need to say you were 15 at the time the videos were made they will shit themselves.

What do you want to do.

I think I will try the second option but dont let the dog hurt me.

Ok we went down and told mum.

Ok all thats left is which of us do you want to share a bed with tonight.

Both of you.

Ok I will leave you and mum together for an hour before I come up.

I watched a film on TV and went up to bed when it finished the pair of them were wrapped round each other. I climbed in and hugged the pair of them.

I woke in the night to something on my cock. Suzy's legs were by my head and Suzy had my cock in her mouth. Her vagina was right in my face. I had seen videos of people 69 ing. I placed my tongue in her clitoris and started lapping at her and sucking the little clit into my lips. Pretty soon we were

both coming. I looked up and there was mum looking at me and smiling. Suzy swallowed my semen and turned round to face me again. Mum reached over and gave Suzy the deepest kiss. I think she wanted to taste my semen in Suzy's mouth.

Mum why haven't we done this before.

You've been in charge she said Laughing.

We slept through till mid morning it was very nice cuddling up with my two girls. We got up and had breakfast and lazed around a bit.

Suzy Do you think you are ready to try Lucky yet.

Mum said no she is not.

Suzy said Its ok lets get it done. Then I can think about moving on with my life.

I went up and set the cameras up and went back down. Mum can you take Suzy up I will go and get Lucky. I took him up and tied him to the radiator. Lucy was laid with her legs hanging off the bed.

Mum was sat with her kissing her.

Lucky can be a bit rough I will just get a you in the mood. I got mums vibrator and dildo and slowly worked on her. She was getting a bit excited. She was starting to squirm as her orgasm started. I stopped and let her calm down. Then I took Lucky over to her. He started licking her and she came almost immediately. He made her come a couple of times then he climbed on top of her. Licking her breasts and face. Suzy was looking a bit apprehensive but she didnt ask us to stop. The Lucky started poking her vagina he seemed to sense she was nervous and took his time.

Pretty soon he was all the way inside her. As he started pumping gently inside her Suzy was soon orgasming again. Three times he made her come before he was done. Then Lucky Knotted inside her. Woops we should probably have warned her about this. When eventually they separated I took Lucky outside. He was a bit pissed. I think he was expecting another go.

I came back in and mum was laid on the bed hugging Suzy.

How was that Suzy. It was actually quite nice once he got me in the mood.

Is that it over.

Not really sorry. We probably need a few more shots of you fucking. But Lucky usually likes to stick his tongue in mums mouth. We probably need to try that. Also how do you feel about sucking his cock. You dont need to answer now but just think about it.

Well I saw mum doing it so I will give it a try. I'm not sure if mum heard her call her mum.

Ok thats it till tomorrow. I will run you a bath. Mum went and got in with her.

Lets go into town and get something to eat and take you shopping.

Suzy had never had anyone buying stuff for her.

We came back from town and the girls went upstairs to try on the clothes. I think they will be up there for a while. I filled the dog bowl up with food and went out to the yard to feed Lucky. I went

round the corner and there was Lucky mounting Kim the young girl from next door. I quietly put down the bowl and started filming them. Then I walked over still filming. HI Kim I see you are enjoying yourself. She turned round in shock.

I thought you were out. Please stop filming.

She was trying to wriggle free, the more she struggle the tighter Lucky gripped her. Pretty soon Lucky made her come. She struggled even more which made luck even more determined to hang onto her. He dragged her down until she was on the floor on her hands and knees. Then Lucky Knotted in her this made Kim come again. After a while they pulled apart.

So how long have you guys been doing this.

Since we were looking after him.

Isn't he a bit rough with you.

No he is usually very gentle if you do whatever he wants. He wont take no for an answer though.

Ok come in the house lets get you cleaned up.

I took her in the kitchen. Mum had just come down for some water.

Mum this is Kim from next door. I caught her at it with Lucky. I am just going to get her cleaned up.

Did he force you Kim

No he didnt.

I took Kim upstairs and started running the shower hose till it was warm. Can you strip off Kim.

No I'm a bit shy.

I have just seen you with a dog dick in your vagina its a bit late to be shy.

Kim removed all her clothes I sat her on the side of the bath and hosed her legs. Then I parted her lips and gently hosed her vagina.

Wow that feels nice.

Is this the first time a boy has touched you. Inserting a soapy finger inside her.

Yes.

That looks clean I will run you a bath. I sat on the bathroom stool while she soaked. She had beautiful little breasts.

Do you have a boyfriend.

No

Would you be my girlfriend.

Will you show people that video if I say no.

N

o I wont. Then I showed her my phone while I deleted the video. I reached over and kissed her. She responded back.

She got out the bath and I dried her all over.

We went to by bedroom and we lay down. She was still naked. I pulled the sheets over us. We talked for ages. It turns out she is the same age as me within a few weeks. Her mum and dad died in a car crash some years ago and Her grandad tom took her in.

I gave her a hug. Let me make you feel better. I pulled her legs off the side of the bed and knelt on the floor and started nibbling at her clit.

Ooh thats nice.

I reached both hands up and cupped her breasts. She was parting her legs as far as she could to let my tongue do its stuff. Pretty soon she was orgasming.

Wow that was nice.

I thought the same.

Just then Suzy popped her head round the door. HI you guys. woops sorry. Be careful Matt she is quite young.

Kim looked a bit surprised who's that she said.

My mums girlfriend. Not sure if that was actually correct.

Wow I have now got three gorgeous girls in my life. Pity Kim would not be able to stop the night with us.

~~~~~

Part Five

After Suzy had completed the second video shoot We sent the video into the site.

Kim had got quite excited by the action and asked if she could join in.

Not sure if it would be a sensible thing to do at your age. She was still keen. I think she was a bit precocious I think she thought she was being a bit naughty.

We set up the cameras and let Lucky in the bedroom. He didnt try to overpower her. Instead he went up to her and licked her face. Kim ran her hand to his penis and pushed him down on the rug. He lay there while she rubbed his penis which was soon hard. Very hard.

Kim then straddled him and impaled herself on him. She couldn't take all of him. Then she wrapped her arms and legs round him and pulled Lucky over onto his side. He wrapped his front legs around her slowly moving her up and down as if she was a rag doll.

Wow she looks so tiny. I just wanted to drag her off him. Pretty soon she was starting to come. She had 3 very gentle orgasms before he Knotted in her. After laying with him for a few more minutes

she wriggled herself off him.

How was that. Looking really pleased with herself.

Wow that was amazing. I'm not sure I want you to do this again.

Let me please.

I contacted Ian to call round. Not sure if he would be interested in using Kim.

Two days later he called at the door.

First I introduced him to Kim and showed him the clip he was over the moon.

We don't get many young girls who will do this.

I asked how much he would pay. The prices he mentioned were really high Kim was so excited.

I then showed Ian the videos of Suzy being raped and told him what we wanted and told him Suzy was prepared to carry on doing the videos at the same price as Kim as long as he got the rapists to agree to our terms.

Ian said he would sort it.

We had got Suzy a bank account sorted and a few days later the money arrived in her account.

She was over the moon and took us all out to dinner.

during the following week Mum and Suzy did a couple of lesbian videos together. Then Kim said she would like to try that. Well we will think about it.

Luckily school was about to restart after the summer holiday. It turned out me and Kim were in the same class. Mostly Kim ate at our house after school which suited her grandad. He was glad she had found a friend her own age. We spent a lot of time f9 ing. Everyone wondered what was going on between us at school as we would often start giggling over something silly. Little did they know.

As soon as we had eaten we would be straight up to my room. she delighted in stripping off in front of me and laying naked on the bed with her legs apart the light glistening on her moist cleft. I loved the taste as I slid my tongue in-between her slit.

Mum had bought some condoms and showed me how to use them. She lay me on the bed and then placed my penis in her mouth. Not really needed as I always had a hard on for mum. I made love to her knowing I would not have to pull out or stick it in her bum before I had done.

Wow mum that was nice.

I thought so too she said.

She said if you do it with Kim you must use one. Else just stick to oral sex. How did mum know what were doing.

One day when Suzy was in town with Kim mum came to me and said I think me and Suzy are falling in love.

I thought so. Thats ok.

I dont want her to have this life. she needs a normal life.

Thats ok mum we can get rid of Lucky and stop doing the videos. I sort of have Kim. I think she will miss Lucky.

No I think I need to drive her away so she has a life of her own.

Dont you dare mum look at the mess she got into on her own before. She has a home and a family here.

I'm more than ten years older than her.

She doesn't care about that. Why dont we see if she can find her old girlfriend on social media.

Ok I will talk to her when she comes back.

Later that afternoon we were searching Facebook when we found her. Suzy was looking at all the Photos of her. She was in tears.

Suzy contacted her and Jenny was over the moon to hear from her. She had a little job and a small rented bedsit. We Asked if she could take a few days off and we would bring her over. Two days

later we drove over with Suzy to pick her up. The two of them sat together in the back as we dove home. They spent virtually the whole trip kissing.

We got home Suzy showed Jenny to the spare room which we had decorated for them.

I dont suppose we will see them for a while. I noticed mum was in tears. I gave her a hug.

It will be ok mum. We will keep in touch with her if she leaves.

A couple of hours later Suzy came down.

Mum I think we are still in love after all this time. If I am going to make a life with jenny I need to tell her everything. If she does not want me after that will I still have a home here. Mum gave her a hug and kissed her. Mum could taste jenny on her lips.

Of course you will.

Suzy went back up to Jenny. An hour later the two of them came down.

Suzy has told me about your unusual family. I dont care about any of that I just need to say thank you for rescuing her. Then she came and hugged me and mum.

We went out for something to eat. The two of them had lots to talk about I kept holding mums arm when I saw she was getting upset.

That night the two of them went to their room and I went in with mum. We lay there hugging each other until we fell asleep.

Two days later we were packing the girls stuff in the car and took them over to jenny's. It was only about forty miles we could easily go and visit them. When we had got the girls stuff up to the bedsit

Jenny came to me and said pop outside give them a minute to say goodbye. I know this must be difficult for your mum. Then she gave me a kiss and a hug.

Thank you. Tears were running down her cheeks.

Then mum came out and we drove in silence back home.

We sat and had a couple of beers while we watched TV. We went to bed together. Not sure how we would manage tomorrow as Kim was stopping over. In the end the three of us shared the bed.

It would be a couple of days before mum payed any interest in sex. I woke up in the night to mum 69ing me.

Would you let me do that Kim said. I said yes of course.

No I mean your mum.

Mum turned over and started performing oral sex on Kim. Then with me watching between mums legs Kim started using her tongue on mum.

Mum orgasmed a couple of times as did Kim.

Are you trying to replace Suzy.

I can if you want.

Mum turned round and kissed us both.

Nice to have you back mum.

~~~~~

## **Part Six**

It was Friday Matt was at school. I guess it was going to be a long ay for him as Kim was off somewhere with her grandad.

I went out to feed Lucky he grabbed my jumper and dragged me to the kennel. I have never known him so rough. He dragged me part way in. He was scratching me on the sides as he dragged me in. then he squeezed out and shoved me in till I was wedged sat up in the kennel. I was panicking I tried to stop him. He bared his teeth. and bit my ankle quite badly. Then he grabbed hold of my trainers. He bent my legs through the door and rammed them into the roof of the kennel. I couldn't move.

He grabbed my Knickers and ripped them off and Mounted me. He pulled my bum towards the door wedging my head in the corner of the floor. I couldn't move. I tried to scream but he just fucked me till I lost consciousness. Every time I came round he would fuck me just enough to make me pass out. In the end I would just lay there quietly. I could hear matt opening the back door lucky stuck his muzzle in my mouth to stop me screaming. Then he mounted me again. Most of the day he would lay with his head hanging out the door and his arse in my face.

Half in a daze I heard Matt come home he went in the house and shouted for me but there was no reply. Lucky fucked me again until I lost consciousness.

I could hear Matt opening the back door to look for me and every time Lucky would clamp his mouth

over mine while sticking his tongue down my throat to stop me crying out.

During the night he mounted me about five times I think. Most of the time I was out cold.

It had been daylight for a few hours when I heard the back door again. HI Kim mums gone missing I dont know where she is..

She is not still in with Lucky is she.

What do you mean. I popped over to see your mum in the morning. I thought I could have a quick half hour with her before we went out. I saw mum crawling into the kennel. Lucky was pushing her in.

Didnt you stop them.

I thought it was something your mum did.

We rushed to the Kennel. I could see mums leg sticking up into the kennel roof. I quickly dragged Lucky out of the kennel and chained him up. Then I quickly slid the bolts and opened the kennel front.

There was mum virtually unconscious wedged into the kennel. We carefully pulled mum out and between us we took mum into the house. I lay her in the bed and got her some water. After half an hour she started coming round. She was covered in scratches , bruises and bites. I asked Kim to leave us for the time being.

I ran a bath for mum and sat with her in case she passed out. I gently washed her and rubbed antiseptic ointment on her scratches and bites.

I got mum to kneel in the bath and washed her hair. Then I got in with her and held her tight.

Thats it Mum thats enough we will get rid of Lucky we cant have this happening again. After mum had recovered a bit I got her some food and put her to bed. A bit later I got in with mum and held her all night.

In the morning we got up and had breakfast.

What happened mum.

Mum told me what Lucky had done. she said she thought Lucky was going to fuck her to death. All that day mum was alive but it felt like no one was home. I would lay with her holding her all night. Mum would wake up screaming . All I could do was hug her. It was a couple of days before mum was back to normal. I woke in the night and realised mum had my penis in her mouth. I stuck my tongue in her and made her come. We would end up doing this a couple of times a night and occasionally she would drag me up to bed during the day.

So glad to have you back mum.

About a week after the Kennel incident I woke up to mum straddling me impaled on my penis. She was fucking me like there was no tomorrow. Then she collapsed on me and said I need Fucking.

Lay back then mum I will take care of you.

No I think I need Lucky

You cant mum look what he did to you.

I think he was just proving to me that he owned me.

I have just realised I get off on being dominated. I think your dad tried to dominate me thats why he liked tying me up. I could have probably stopped you doing the stuff we did. I could have probably stopped Lucky. And Ian. I was tied up but I enjoyed being used. I think Suzy was the only time I have ever made love with someone.

In the morning after breakfast me and mum talked about Lucky.

Come up to the bedroom Matt.

She then proceeded to strip off.

I want you hook my hands behind my back and call Lucky in. Before you let him in can you get me in the mood.

Matt climbed between my legs and performed oral sex on me till I came. Then went and get lucky.

When Matt came back with Lucky I started to get a bit apprehensive. But I realised I had to do this.

Leave us alone and leave the door open in case I shout you. Pop back ever hour or so.

Lucky bounded over to me as if to say you will do whatever I want. He licked me until I came and then he mounted me. It seemed like he was at me for hours I lost count of the number of times I came.

Then Matt popped his head round the door.

You OK mum

Yes thank you.

The he left us for another hour. With that lucky finally Knotted in me and we both came together.

Lucky climbed on the bed and fell asleep on top of me as if to say you can move when I want you to.

Lucky woke up and dragged me onto the floor. What was he doing now I thought. He climbed over my face and lowered his flaccid penis into my mouth. I opened my mouth as far as I could to accept all of him including his furry sheath. He then lay with all his weight across my shoulders and face. I could hardly breath. Then I felt a trickle of warm liquid turning into a torrent. Oh my god Lucky was pissing in my mouth. I was having to swallow as fast as I could to stop from choking. Before he finished he stood up pissing on my face and in my hair then all down my body. He then cocked a leg up and spayed me with his scent. He was doing this to show I was his property.

He then came over to my face and stared into my eyes then he licked me and stuck his tongue in my mouth as if to say you are my bitch. He then walked out the room.

Matt came up. You OK mum.

Fine I think I need a bath.

From then on while Matt was at school Lucky would wander in the house tug at my skirt or whatever

I was wearing and go upstairs. If I didnt follow him he would bark for me to come up. He would be sat by the bed or the ottoman to show where he wanted me. If I just removed my Knickers he would tug at my skirt to show he wanted me naked. Fairly soon I learnt all his signals and would be an obedient bitch.

He even dragged me out to the kennel again and made me climb in and position myself for him without having to force me. When he had fucked me in there for an hour or so he would leave me to get out.

Luckily matt had put the door latches on the inside as well as putting extra foam in the floor.

Lucky never usually bothered me while Matt was at home at the weekends. But then he would even start ordering me upstairs while he was there. Matt would often hug me and ask if this was really what I wanted.

Yes I think it is.

At night I would still hug mum I didnt really feel that I should be forcing her to have sex with her son anymore. She turned to me and said dont you love me anymore.

Of course I do.

You dont make love to me anymore.

Not sure if I should be.

I want you to. I have a tender gentle son and lover and I have my rough bully boy master.

With that she turned round and started 69ing me. We then made love. Dont pull out I dont mind if I have your baby.

~~~~

Part Seven

It was the usual school day routine. Kim would come over to wait for Matt the walk together to catch the school bus. After they had gone I would open the back door to feed Lucky. Usually he never bothered my before he had his breakfast.

This morning he pulled me over to the kitchen bench and sat there. I removed my knickers and lay on the bench. He quickly mounted me.

Oh no foreplay this morning.

He had been pumping away quite vigorously for a couple of minutes when I noticed Kim's grandad stood in the doorway videoing me. As much as I struggled I couldn't move. Lucky had his legs hooked round the bench tight.

Well I haven't seen anything like this since I worked in the far east. I think me and you are going to have lots of fun. Lucky was pumping away for another ten minutes before he finished.

Wow thats some Knot there young lady.

He then came over and dropped his trousers and said you can suck my dick or this video goes all

round the village. With that he stuck his cock in my mouth. It must have been some time since he had sex as he came within a few seconds. HI semen tasted old and stale, much worse than Lucky's.

Dont worry young lady we have plenty of time to do it again.

Lucky finished and pulled out. leaving me on my back with my legs draped either side of the bench. I started to get up. Old Tom pushed me back down.

You can stay where you are for now young lady.

He got Lucky and pushed him out the door.

OK so I came over to see if you knew anything about this video of Kim bent over the kennel being fucked by your dog. He showed it to me.

That looks like it was taken before we arrived here.

Ok you can make us a cup of tea and then we will have another go. Remove your clothes first that will get me in the mood.

I stripped naked and put the kettle on and made us both tea. All the time he was sat there leering at me.

How long have you been fucking the dog.

Since Matt started back at school I said lying.

With that he walked round to where I was sat and started fondling my breasts. Then he pushed his limp cock in my face.

Suck this and get me nice and hard.

I must have sucked him for ten minutes but he could not get erect.

Then he pulled out.

Right I am going into town to get some Viagra I want you to shower all that dog spunk out of you and have a nice bath. When you see my car come back you will come over to my house straight away. Take too long and I send this video out. Little did he realise I didnt mind being blackmailed and forced to do whatever he wants. But I would have to appear to be non consensual for now.

I quickly fed Lucky and went and showered..

After half an hour his car turned up. I went straight to his house where he was waiting naked. He Looked fat and wrinkled. I think he was about 75. He told me to strip. I only had a skirt and t shirt on so

I was quickly naked. OK come upstairs.

Ok lay on the bed and we will 69 for a bit. Not sure how long the Viagra will take.

We lay down and I took his penis in my mouth. He sniffed at my vagina to see if I smelt of dog. Then he started tonguing me. He was actually very good at that and pretty soon he gave me my first orgasm. I had eventually got him erect. he had quite a good sized dick.

OK climb on top of me and fuck my brains out.

I straddled him and slid his cock inside me and started riding him.

Faster bitch.

I sped up he started fingering my clit. Pretty soon I started to come again and thought to myself this isn't going to be too bad.

Please Dont get me pregnant.

Thats ok I had that taken care of years ago.

Then both of us came at about the same moment.

I climbed off him and lay on the bed. Tom put his arm round me and pulled me to him. I didnt really want to get any closer to him than I needed to but he was quite strong for an old guy.

I haven't had a woman since my wife died we are going to have lots of fun together you and me. He then pulled the bed clothes over us and fell asleep.

About an hour later he woke up and made me suck him again. and again he couldn't get an erection. He took another tablet and half an hour later he made me try again.

Thats better. Ok you know what to do. As he lay back on the bed.

Gods he is a lazy bastard I thought as I straddled him. Again he gave me and orgasm then came himself.

Ok that will do for today. I want you round here tomorrow as soon as the school bus is out of sight.

I went back home and got cleaned up and made some lunch.

Lucky came in the kitchen and wandered upstairs. Then I heard him barking. I locked the door and went up to him he was sat by the ottoman which usually means he wants to fuck my mouth. I lay back over the ottoman and waited. He sauntered round to me his dick slapping my face. I held his dick and slid it in my mouth. Pretty soon I was gagging as it hit the back of my throat. he very quickly knotted and spurted his come down my throat. His knot wedged in my mouth for quite some time before he pulled out. One of these days he is going to choke me. Lucky went round between my legs and started licking me. He usually liked to make me come. Then he stopped. I think he could smell or taste old toms spunk in me. He then wandered off leaving me unsatisfied. I reached down and masturbated until I came. I then got up had another shower. I left brushing my teeth till last as I wanted to taste Lucky's semen a bit longer.

That night me and Matt lay together. I told him what had happened. Matt said he cant do that.

There is nothing we can do for now and dont tell Kim what's happened. Tom has seen a video on her phone of her being fucked by lucky.

The following morning matt and Kim went off to school and I went over to Toms. He was waiting naked at the door. Ok lets go straight upstairs.

We 69ed for a while which wasn't bad. Then he got out some rope and tied me to the bed.

I dont want to be tied up I said lying.

You will do as you are told or I will show this video to my mates and we will have a little party.

I lay there and let him tie my wrists to the headboard. He then straddled my head and stuck his dick in my mouth. He couldn't get a hard on again so he took another tablet and lay down at the side of me. he lay there rubbing my clitoris he made me come a couple of times.

Thats it young lady we will soon have you trained up. He sat over my face and made me suck him again. He was soon hard again. He climbed down between my legs and started fucking me. The old bugger gave me a couple of orgasms and I think he was about to come when he collapsed on top of me. I think he had an heart attack. I couldn't move him. I tried to untie my wrists. Oh my god I was stuck under a dead man. I lay there all day until Kim came home. She shouted for her grandad.

I'm up here Kim I shouted go and get matt.

Kim came in and saw us.

What's going on.

Your grandads had a heart attack can you get matt.

Matt came over and untied me. and lifted Tom off me.

We got Tom dressed and called an ambulance.

I had to sit Kim down and explain what he had been doing. Kim hugged me and said sorry.

Its not your fault but you need to delete the video of you and Lucky.

The ambulance turned up and took him away. Later that night we had a call to say that a doctor had pronounced him dead from a heart attack.

We helped Kim move all her stuff over to ours. You can come and live with us. I hugged Kim to try to comfort her. Its Ok mum I think grandad was only waiting till I was sixteen then I think he would probably try to fuck me. Now he had that video he probably wouldn't have waited.

At the inquest they found traces of Viagra in his system but they did not think that was suspicious.

I applied to social services to look after Kim and put in an application to adopt her.

Toms solicitor told us that Kim was Toms only relative and everything would go the her. We cleared his house and put it up for sale.

The house quickly sold and what with that and toms valuables and investments Kim was very well off.

I will be able to pay my way now Mum.

Dont be daft it does not cost you anything to live here with us. We are your family.

Kim had to be sure to keep all her stuff in her own room in case social services checked on her. But mostly the three of us shared one room. I decided to buy a king-size bed.

Kim and I became very close I think she wanted to try to replace Suzy. She was the same age as Matt but she was tiny with perfect little breasts and probably the prettiest face I have ever seen. She would often come and get hold of my hand and lead me upstairs to bed if Matt was not about.

We settled into a nice routine where me and Lucky would have our time while Matt and Kim were at school and family time together for the three of us at night and the weekend. Lucky mostly accepted this. On the odd occasion when Lucky decided he wanted me at the weekend the two of them would go off into town for a couple of hours.

I had never felt quite so fulfilled.

We all nicely settled into this routine when there was a phone call from Suzy and Jenny.

Hi Mum is it ok for us to pop over for a few days.

Of course do you need picking up.

No thanks we have our own car now. See you soon.

~~~~~

## **Part Eight**

I had been on edge all day waiting for the girls. I heard the car pull up and rushed out to them. Matt was just behind me.

I went to Jenny's side and helped her with her stuff while Matt helped Suzy with hers. We all had a nice hug and Matt helped Suzy upstairs with their stuff.

Jenny came to me and said I need to talk to you.

Mum Suzy thinks I am ashamed of her for what she did. I cant get her to understand that I dont care. I have decided that I want to do the same number of films with Lucky as she did and then she will realise that I cant afford to lose her again.

Are you sure you want to do this. Lucky can be a bit controlling. Suzy was escaping from a very bad place she would have done anything to get free.

I know that. Thats why I dont care. I dont know where she would be if it wasn't for you two.

Have you talked to Suzy about this. Yes she doesn't really want me to do this.

Susy and Matt came down. Have you talked to Mum. Yes.

Ok lets not mention it anymore tonight lets see where we go in the morning

Has Kim moved in now.

Yes her grandad had a heart attack and passed away. I have adopted her.

I didnt say anything about what he had been doing. That night I whispered to Matt to take Kim to his room. I dont want to confuse things with the three of us sharing.

In the night when everyone was quiet Kim crept into my bed and hugged me. I think she realised I

still missed Suzy. Probably the first night in ages that Matt slept on his own.

After breakfast I suggested that Suzy and Jenny went up their room on their own with Lucky. It would be difficult enough without an audience.

Suzy took off Jenny's jeans and knickers and lay her on the bed. She then went and brought lucky up and tied him to the radiator. Suzy knelt on the floor between Jenny's legs and gently parted her lips and licked her clitoris until she was nearly ready to come. She then let Lucky go. She lay on the bed at the side of her gently holding her.

Lucky pushed his broad shoulders between Jenny's legs and started tonguing her. Lucky always seemed to know exactly what to do. Pretty soon Jenny had her first orgasm.

Wow that was quite nice.

The Lucky raised himself up between her legs.

Are you sure you want to carry on.

Jenny grabbed Suzy's face and kissed her. Yes.

Jenny could feel Lucky's dick probing for her passage. Then he was in her. He slowly humped away until he was fully inside her.

Jenny had never had a penis inside her she always new she was gay and never felt the need to experiment with boys.

After a couple of minutes she orgasmed again. Lucky carried on for about half an hour giving her three more orgasms. Then he Knotted in her.

Ouch thats a bit tight she squealed. Then the two of them were locked for about four minutes. Lucky pulled out and went and lay down licking his dick.

Wow we probably need to get a dog she laughed.

Suzy went and led Lucky out the room and shut the door.

He will probably want another go if we let him. He seems to be able to keep going all day if you let him. She then went and pulled Jenny up into the bed and lay with her.

How was that.

I dont think I am a virgin any longer. Thats the first penis I have ever had. She said laughing. He was actually quite nice. He wasn't rough with me at all.

Probably because I was with you. I think he thinks I am helping him. Look you have made your point you dont have to do this anymore if you dont want to.

No I need to. I cant lose you again.

The two of them kissed and pulled the blankets over them and lay there for half an hour.

I think I need a shower and a bath.

Suzy helped her shower the semen from inside her then she ran a bath for the two of them.

After dinner Jenny took Matt to one side and asked that there would only be her and him doing the video. Suzy can have a bit of time with Mum. I think they still miss each other.

The five of us sat and watched a DVD and drank a bit too much beer. Suzy sat between mum and Jenny. They looked so happy. I worried that Kim might end up left out tomorrow.

I noticed Jenny take mum to one side to talk to her.

Can you take Suzy to your room tomorrow to take her mind off stuff. You know she still misses you.

Mum gave her a hug and kissed her.

We got up early and after breakfast I set up the cameras in my room as mums bed was brand new. I took Lucky up and tied him to the radiator and went back down to the girls.

Suzy grabbed mums hand and led her towards the door as she passed Kim she grabbed her hand also. The three of them disappeared into mums room.

I gave Jenny a hug and said are you sure you want to carry on.

Yes she said.

I led her by the hand to my room.

I started the cameras rolling.

Where do you want me. she said as she took her top off. Let me do that I said as I undid her bra. Is this the first time a boy has undressed you I said as I undid her jeans.

Yes it feels really strange. But quite nice.

I finished removing her jeans and Knickers.

God Jenny you are gorgeous I said as I lay her half off the bed. I leant over and kissed her on the forehead. I need to get you in the mood. Do you mind if I go down on you to get you ready.

You can do anything you want except put your dick in me.

I parted her legs and slid my tongue up her thigh and then gently started licking her clitoris.

Wow thats nice. Pretty soon she was nearly ready to orgasm and I stopped and went to get Lucky.

Dont stop please make me come.

I continued to lick and nibble her clit until she orgasmed.

Wow thats another first for me.

I went and let Lucky and led him over to her. I was worried he would go charging at her.

Lucky pushed her legs apart and started licking her. she was soon having her first orgasm from him. He waited until she had done then he gently stood up astride her waist and started licking her breasts something he tends not to bother with. He then worked his way up until he was licking her

lips. His dick was pressing against her opening. He seemed to be trying to get his tongue into her mouth but he wasn't being aggressive about it.

Open your mouth a bit I said.

Jenny did as I said and his tongue slid into her mouth just a little. Then as he rammed his dick into her the force of him impaling Jenny on his dick may Jenny cry out and with that Lucky stuck his whole tongue in her mouth. I could see she was not over keen on his tongue. But she thought if Suzy had done it so would she.

Pretty soon Jenny was coming again. Lucky went on for forty minutes making Jenny come four more times. The pair of them were knotted for about ten minutes. When he pulled out I led him out the room. I hope mums locked her door I thought.

Jenny was just getting off the bed so I went and hugged her. That was really nice. Isn't that going to be enough. Surely its just the principle isn't it.

No Jenny said she did five videos so I will do five.

You know one of them was a lesbian video with mum. I lied slightly Suzy did six with lucky and three with mum. But I wanted Jenny to get away with doing as few as possible.

Then thats what I will do. Mums actually very fanciable anyway.

I took Jenny to the bathroom. You might want to use some mouthwash first. Apparently Lucky's tongue doesn't taste that nice.

Your not Kidding.

I took her into the shower and helped her clean up. She didnt even mind when I parted her lips and gently hosed inside her vagina. Then I ran her a bath.

I will go and make you a cup of tea.

Coffee please two sugars.

I came back up and Suzy was in the bathe with her.

I suppose you want a coffee as well.

Yes please.

I brought up the coffee and leant over the bath and kissed them both. I then popped in to see mum.

There was Mum and Kim wound round each other 69ing. I leant over and kissed them both also. Do you want tea.

Give us twenty minutes.

Ten minutes later I took the tea up. I couldn't wait any longer to give my two girls a hug.

Later on I sent off a \*\*\*\*\*ion of short clips to Ian. He came back with the prices. I showed them to Jenny.

Wow thats not bad we are probably in the wrong business she said laughing.

I sent the video off to him and told him to use the same bank details as Suzy.

The following days Jenny did three more videos with Lucky. She did two in one day.

I think she was actually starting to enjoy some of it.

The next day Jenny went Suzy and whispered something to her. Then she went to Mum and asked to do a video with her. I think they had probably talked about this between them as mum grabbed her hand and led her to her room.

This bed will be a bit more comfortable than Matts. Mum had asked me earlier to set the cameras up in her room.

As I started the cameras mum gently undressed Jenny and pushed her back on the bed and then removed her clothes until she was stood there naked. She then started licking Jenny's clit until she came. She then pulled her up on the bed and they 69ed until mum had come and then Jenny came again.

I looked round and there was Suzy and Kim stark naked watching through the gap in the door.

Come in we are done.

Suzy went and leapt on the bed with the pair of them and Mum got up to leave them in peace.

Then Kim said can I do a video with them as well please.

You will have to ask them nicely. But leave them in peace for now.

After lunch we sat in the garden having a beer when Kim went over to the girls and asked if she could do a video with them. Suzy hugged her and asked if thats what she wanted.

You have had a bit of time with both of us on our own. You are absolutely adorable. Is it more time with us you want or do you want to do the video.

I love my time with you and would love to spend more. But I just feel very naughty doing videos. It makes me feel strange.

Do you want to do a video with both of us or individually.

Individually please.

Suzy and Jenny said ok and they reached up and kissed her.

That afternoon we did two videos with them. One in my room and one in the girls room. Mum spent time with whichever one wasn't with Kim. After each shoot Kim would jump up with a big grin on her face. How was I, Can I have a look.

She was insatiable she could never seem to get enough but she only ever seemed to have very soft orgasms even with me or mum.

That night we all went out for a nice meal and came back with a couple of bottles of wine. We sat watching a film for a bit all of us wrapped round each other. Life felt very special.

Ok girls I think you both are about even now can you please be happy together.

Suzy Kissed Jenny and said I think so. Suzy stood up and said I think we need to get a room. As they passed Kim they grabbed her hand and took her with them.

Me and mum locked up and went to her room.

Our work here is done mum said laughing.

We gently 69ed and had the best night sleep ever.

In the morning me and mum were up first and made some coffee for the girls. Mum took it up to them. Kim was tucked in between them. The three of them had their arms around each other. Kim had the happiest smile ever on her face. Mum leant over and kissed them all. There's no rush to get up. You look like you are enjoying yourselves.

Do you want to join us said Suzy.

I would love to but I will leave you in peace for now.

Suzy said we will be heading back later today. I am going to miss you.

Me too said Jenny. Hugging Kim I think I am going to take this one back with me she said laughing.

Once everyone was up we got the girls packed and made Lunch. Everyone was trying to put of the goodbyes as long as possible. Mum had taken Suzy to one side and had a quiet few words together. Them mum kissed her. I knew mum would have a hard time for a few days again.

We waved the girls off. I think we all had a few tears in our eyes.

Kim came and got mums hand and took her upstairs. I left them on their own. I didnt see them until the next morning.

~~~~~

Part Nine

The three of us slowly got back into our usual routine. Summer holidays were coming up soon. Not sure how the kids would adjust to all of us being home 24 hours a day.

Lucky had settled into his usual routine of having me to himself all day. I new exactly what he wanted from me depending on where he took me. If he just wanted a quick fuck he would sit by the kitchen bench or the living room sofa. I think he had got me conditioned to his ways. Whenever he barked I would go to him and strip off. Always checking the doors were locked now.

I tried doing what Kim had done laying him down and rubbing his cock. But he was not interested. He wanted me under him holding me down with his weight. The mornings were usually fairly casual. I would lay down for him and he would lick me till I was nearly coming then he would mount me and come fairly quickly. I think he just wanted to get rid of the nights semen. He would usually make me come once or twice.

After he had been fed he would sleep the rest of the morning then after lunch he would summon me upstairs. He had found a new game for me. he would get me on the bed and lick me till I was nearly coming and then stop and step back and watch me. He seemed to know exactly when to stop. Then

he would grab my hand and drag it between my legs and watch me while I gave myself an orgasm. Where the fuck had he learned this. I quickly learned to do it if ever he stopped licking me. He would often do this a couple of times before he mounted me. I was turning into his complete bitch slut.

One afternoon he summoned me to lie on the ottoman. This usually meant he would fuck my mouth. I was not over keen on this as I didnt get a lot out of it as he would often walk off after he had filled my mouth and throat with his semen. But for some reason today he didnt. He started licking me but he was different today he was licking my bum more than usual. Then he straddled me making sure he had a good grip and then I could feel him ramming into my bum.

Oh god no I haven't got any lubrication on my bum.

He became more and more forceful until I felt the end go in.

Oh my god that hurt.

He then carried on ramming against the resistance until he probably had half of his dick in my arse. He then carried on pumping away for ten minutes finally getting it all in. Then he steadily pounded away at me for another fifteen minutes.

I was not keen on Anal as there was no pleasure for me. But the thought of him abusing me and doing something I didnt want done was too much and I had a small orgasm.

Then I could feel his Knot banging against me.

Oh god I couldn't take that in there.

Then a couple of hard pushes and it all went inside me.

I thought I was going to split. It was agony.

Lucky lay on top of me locked inside me. Normally he could pull free in a few minutes but I held him much tighter and he lay there for nearly twenty minutes. All the time he was locked he was sticking his tongue in my mouth.

I have to say I have never has such little pleasure with Lucky. I hoped this was not going to be his usual routine.

He did eventually pull out. Then he started To lick me. He soon made me orgasm. Then he licked my bum. I think he realised he had hurt me. He then licked me and made me come again.

He gave me a look as if to say sorry but if I want to do it again I will.

He then wandered off.

I went and showered and started doing dinner for the kids.

I heard the bus pull up and shortly the two of them came in. As usual Kim came and gave me a hug.

Thats it off for six weeks. This summer is going to be great.

OK go and get showered dinner will be ready soon.

They always showered together so it would often take a while.

We had just sat down to eat when the phone rang. It was Suzy.

Are the kids off school yet we would like to come over and see you.

Yes they've just finished. When will you be over.

Tomorrow about mid day.

We heard the girls pull up. Kim was straight out the door to greet the girls. Me and matt went out to help with their stuff. We got them all sorted up to their room. I notice Kim had not got her bra on under her t shirt. She had the most pointy little nipples ever. I am not sure this was for the girls benefit. I think she had a bit of a crush on Jenny.

We had a bit of a hug and a beer then had dinner.

Its always lovely to see you is this visit for anything in particular.

Yes it is. We have got a small photography business going we have nice little house and we think we are ready to start a family. We need to ask Matt if he would like to help us out. We dont want to adopt and we dont want to use a clinic.

Wow how do you want me to do it. Wank into a test tube or something.

No dont be daft we want to do it old school. We would like you to be involved in their life as much as you can. If you dont want to be thats ok.

Wow again I cant think of anyone I would like more to bring up my children. Which of you wants the baby.

We both do but whoever gets pregnant first. Then the other can try again later.

Well I would love to. Suzy me and you have had sex. Jenny how do you feel about that side of things.

I'm ok I think I am probably looking forward to it.

I was a bit worried as I been coming inside mum for a few months and she hadn't got pregnant. But that might be to do with Lucky's semen.

That night I grabbed Suzy's and Jenny's hand and led them up to my room. I quickly stripped and got into bed. I watched as they both undressed each other. Then they started kissing. I had an erection from watching them. Jenny came over to the bed and I sat up and lay her half on the bed and started to perform oral sex on her. I waved over to Suzy to join us. She came and lay at the side of her. Suzy leant over and Kissed jenny. Very soon she was coming. Then I moved to Suzy. As I started on her Jenny got up on the bed and sat astride Suzy's face. Pretty soon they were both coming.

I kissed the pair of them and asked who wants to be first. Suzy said that jenny was to go first but she just wanted me with her the first time.

I lay jenny back on the bed I put a pillow under her bum and Knelt between her legs. I brushed my dick against her opening. I reached down and kissed her and said are you sure about this. She put her arms round me and said yes. I slid my dick slowly into her and started to slowly pump in and out. She was starting to enjoy it and reached up and kissed me.

Faster, faster oh yes thats it. Oh yes I'm coming. It was just as well she came when she did as I was

about to come too. I quickly came leaving my dick in her for as long as I could and collapsed at the side of her. I hugged her to me her hard little nipples sticking in my chest.

How was that.

That was really nice. You are the only boy I have ever met who I would want to do that with.

Then Suzy who had been kneeling on the bed watching all the time lay at the back of jenny and put her arm round us.

I hope you have saved some for me.

Give me a few minutes.

We lay there for a while and fell asleep.

I woke in the night to some ones mouth round my dick and a pair of legs up by my head. It was too dark to see who it was so I just started licking what was in front of me. It felt like jenny again.

I thought it was Suzy's turn.

It is I am just getting you in the mood. Dont stop what you are doing.

The side light was switched on and I looked up to see Suzy looking at me from between jenny's legs.

Lay on your back. she said.

I extricated myself from Jenny's legs and lay back. Suzy mounted me and started humping away on top of me. Jenny was knelt at the side of us. I placed a hand behind her bum and pulled her to sit over my face. She quickly sat astride me.

Can you prop the pillow under my head. Jenny folded the pillow to raise my head and I continued to lick her. I noticed Suzy's hands were now cupping Jenny's breasts. I reached up and put my hands over hers. Pretty soon jenny was orgasming pulling my face hard into her soft lips. Suzy started coming at the same time they both collapsed on top of me. We lay together until the morning. I woke up first and carefully extricated myself from the girls. I went and made tea and brought up three cups. The girls were waking up. We had our tea.

Any more for any more before I have a shower I said Laughing.

Apparently for the best chance of getting pregnant we are not supposed to overdo it.

After my shower I popped in to check on mum and Kim. As usual they were wrapped round each other.

I've brought you tea. I said sitting on the edge of the bed.

How's Jenny mum asked. She thought it might be a bit awkward for her the first time with a man.

She seems happy enough.

I went to the barn to feed Lucky. We were keeping him locked up while the girls were here.

After breakfast we went out for the day not getting back until late. We sat and watched Tv and had a

couple of beers.

Ok who's going where tonight.

Jenny said you can have Suzy to yourself tonight. The two of us went to my room, I assumed the three of them would go to mums room. But mom told jenny to take Kim to her room and she would sleep on her own.

I think mum and jenny had probably planned this as Kim was a little bit in love with jenny.

It was nice to have Suzy to myself. I kissed her and slowly undressed her.

This is nice you will always be special to me. You were my first girl.

I wish you had been my first.

We lay in bed talking for quite a while then I turned over and gently 69ed her. Pretty soon we were making love. I had forgotten how nice she felt. I managed to stop from coming until she had orgasmed.

That was nice she said. What are the chances are of us all finding each other. I dread to think where I would be if it wasnt for youu and Mum. I think Kim is a bit in love with Jenny you know, and me and mum are a bit in love. A lot probably. You and mum brought me and jenny together. I think the four of us quite fancy you.

I think mum understands and she knew she would have to give you up. Its nice that we all know what's going on and there is no jealousy. I worry for Kim being in love is difficult when you are young.

We know. I dont mind jenny having time with her. God we are one big dysfunctional family arent we but it works.

We fell asleep until the early hours. I woke and lay there looking at jenny sleeping naked. I carefully got out of bed and slid her legs off the bed and started going down on her.

Mmm thats nice

Go back to sleep.

Yeh like thats going to happen. Come here. She sat up on the edge of the bed. Just pop that in here she said guiding my penis into her mouth. Pretty soon I was solid. I lay her down and slowly slid my penis into her. We gently fucked for quite sometime before she orgassmed. Pretty soon afterwards I came too. We lay there until it was time to get up. Mum popped in with tea when she heard us stirring.

I've brought you tea. We sat and drank our tea. Suzy signalled me behind mums back to go. As I left the door I saw mum climb into bed with her.

I popped into Kim's room with tea. The pair of them were wrapped round each other. Judging by the state of the sheets they had had a very active night.

Can I keep this one and take her home Jenny said.

This routine continued until the end of the week. On the nights when I had Suzy I would ask mum if

she wanted to join us or if she wanted an hour with her first. She usually jumped at the chance.

It finally came to the day they were leaving. Kim took mum upstairs.

Can I go with them mum.

You can if they will let you.

Jenny said she wants to keep me and take me with them.

I think she just wants to make you feel wanted. They both adore you and me and matt do too.

Do you know what they have been through to be together. If you went with them eventually one of them would be jealous of you. That would probably split them up then the other one would hate you for doing that. At least here you get time with them with no incriminations. And they love the time with me and you.

Me and you will just have to care for each other when they go. You know I will do anything you want any time you want.

I might hold you to that.

We went down and after lunch we saw the girls off.

I took Kim's hand and led her upstairs. I gently stripped her off and lay her on the bed. I draped her legs over my shoulders and started licking her. I probably gave her four orgasms before I climbed in with her. We stayed in bed until mid afternoon. Matt bought a couple of sandwiches and beers up.

You two ok.

Mum said I will have to go and check on lucky. He has been locked in most of the week. Why dont you stay with Kim.

Before I had got dressed Matt was naked and climbing in with Kim. I was about to lean over and kiss them both but they were already snogging each others lips off.

I went into the barn with some fresh food for lucky. He jumped up and pushed me over the old feed trough. Then he mounted me straight away. He must have been going for a couple of hours on and off. He wouldn't let me up between fucks. I think he was punishing me for neglecting him all week. I think he gave me at least half a dozen orgasms. It not always easy to tell as I lapse into a sort of daze after I have had a few.

Glad to have you back Lucky.

I got up and went in and showered myself down and had a bath. I think Matt and Kim knew where I had been.

I went down and prepared dinner. I guessed they would be a while. I know Kim can be a bit insatiable. Not that I'm complaining.

We got into the usual routine then two weeks later we got a call from the girls. They were both pregnant. I told Matt the news.

Wow Mum I'm going to be a dad. Two dads.

Two weeks later mum put the house on the market and we moved a mile from where the girls lived. Mum thought the girls would probably need a bit of help. The new house was quite a bit smaller than the old place and Kim paid a third towards it. So Mum had a shed load of money over. She transferred quite a bit of money to me.

On our first night there the three of us went to bed together. I was 69 in Kim and mum was watching me with a smile. She reached round and parted kims lips for me and then she licked Kims Bum.

Kim started orgasming she was screaming out in pleasure. Kim usually orgasmed quite quietly.

Wow Kim where did that come from.

The first time Lucky gave me an orgasm I screamed really loudly. After we had done I went home and Grandad asked me what the screaming was. I quickly said there was a load of rats came from behind the kennel. After that I never dare scream out.

Thats Ok there are no close neighbours here you can scream as much as you want. Now turn over and let me try Mum said laughing.

After the girls had their babies we spent a lot of time running round helping. Then as they settled into a routine Suzy would often drive over to us and I would take the babies out in the pram for a walk. Suzy would say to Kim. Jenny's at home if you want to pop over and see her. She would be on her bike in a shot. I would give mum a couple of hours with Suzy.

And we all lived happily ever after

or did we.

Over the next few weeks Lucky seemed to show no interest in sex or anything for that matter. We took him to the vet who told us Lucky probably only had a few weeks to live. He had cancer.

Mum would lay downstairs with him on the rug. He seemed to be in a lot of pain. Mum lay him on his back and took his penis in her mouth to try to have one last fuck with him but he couldn't get an erection.

We took him to the vet to have him euthanised. We couldn't wait with him. The vet took him into their kennels until he could fit him in. There was a Doberman in the next cage to him. They sniffed each other and there was a sort of connection. Lucky was led out to the surgery and the doctor administered the injection.

Everything went black. Then Lucky woke up.

Where the fuck am I. He looked down. these aren't my legs. His spirit had transferred to the Doberman. He sat there in a daze when his owners turned up to collect him. It was a young woman and two girls about 14 and 17. On the ride back he realised his dick was getting hard. He looked down at it and gave it a lick. YES that will do.

The End
