BEASTIALITY STORIES

(c) 2010 by hughmungus

I've been looking for a dog friendly girl for a long time, and didn't realize she was right next door.

I was watering my garden, when my neighbor next door came over to the fence and starts talking to me. I'll call her Nancy, she's about 5'4" and about 125 lbs. not much to look at but has a great body

I had just been to a concert the night before and she saw me there, so the next day she was telling me that when she went to the ladies room a girl wanted to make out with her, and she said no.

At that time my girlfriend came over and got into the conversation, Nancy was telling us that she was bi and tri sexual she would try anything but was not going to make out with that girl.

I mentioned if she wanted to try something she could try my dog, I have a chocolate lab named Bosco, She went on to say she loved my dog, and would occasionally come over and check his water and pat him.

So when I mentioned she could try Bosco she came over and started to pat him, I told her to watch out he loves pussy, as she was standing there, Bosco had his nose in her crotch and she didn't seem to mind, but I think she didn't want to do anything then with my girlfriend there, Bosco had licked my girlfriends pussy a few times and would occasionally join us when having sex, having him lick her pussy while I'm fucking her is an amazing feeling.

The next day was an unusually hot spring day and Nancy was lying out in the sun with a string bikini on, and she noticed that Bosco wasn't there, she came over to my house in my garage where Bosco was with me while I was doing office work, and was frantically telling me that Bosco was gone then realized he was with me.

She walked over to him and started hugging him and telling him she was worried that he ran away, Bosco started licking her face and went right to her crotch, my girlfriend wasn't there at the time so I think she felt a little more comfortable. Then she went on to tell me that her x boyfriend had a junkyard and she used to let her x boyfriend's junkyard dog lick and fuck her when he wasn't there, and she was alone.

So I told her if she wanted to let Bosco lick her it was ok with me, at that time she pulled the bottom half of her bikini to the side and let Bosco have a lick. I was surprised to see that her pussy was shaved bald and had a beautiful clitoris Bosco started to lick her pussy immediately at a feverous pace and she started to moan.

I told her to remove her bikini all together and sit on the futon and enjoy herself to my amazement both her nipples were pierced, as she was enjoying Bosco's long tongue lick her beautiful clitoris and asshole, she was pulling the rings on her nipples, within a couple of minutes she was squirting all over Bosco and the floor, and told me she wanted to fuck him. While all this was happening my cock grew to an engorged hard on, I told her to get on her hands and knees and I would get her a jacket so he wouldn't scratch her, she put the jacket on and got on all fours, Bosco was pacing around panting wondering what to do next, the tip of his dick was coming out of his sheath you could tell he was getting very horny and wanted to fuck her.

He went right for her dripping pussy and started to lick in again as she wiggled her ass he made a couple of attempts to mount her and finally did, he was humping her madly when I noticed he wasn't hitting the mark, so I guided his cock to her waiting pussy and he pushed it all the way in and started to fuck her wildly, at that time I was so fucking horny I had to shove my cock in her mouth, while she was sucking my cock she suddenly said she felt the knot go in and started to quiver with

orgasm after orgasm, and knew her pussy was being filled with doggie cum. She was tied with him for only a short time before he pulled out, he licked her pussy clean, lay down and cleaned himself with his knot and cock still out of his sheath.

It wasn't long before he wanted more, he got up and was pacing around again and panting with his cock and knot still out, he started to lick her again and mounted her for a second time, this time I pulled my cock out of her mouth and guided his cock into her ass. His cock was pumping in and out of her ass but couldn't get the knot in so I pushed his rear to force the knot in. Once I was sure the knot was in I put my cock back in her mouth, she was tied with Bosco and sucking my cock at the same time I wanted to fill her mouth with my cum, as I knew her ass was being filled with doggie cum.

I was fucking her face while Bosco was fucking her ass, I couldn't hold on any longer and blew a hot load down her throat.

I pulled out of her mouth after she sucked every drop of cum from my balls, and let her tie with Bosco for about 15 minutes while she was masturbating and squirting on the floor, his knot got smaller and he slid out. He gave her a good cleaning both ass and pussy and cleaned himself.

When we were done she told me that it was amazing and wanted to do it again, and there were many times more, but I save those for later.

A few days later I got a phone call from Nancy, she was telling me what a hot time she had when we last got together, so I told her if she wanted to do it again come over to my garage the next day, my girlfriend wasn't going to be around. She is also bi but I want Nancy to get fully involved and then get her into the act.

I was already hard and ready when she got there, and wanted to suck and fuck her first before Bosco.

So I pulled her shorts down and started licking her shaved clitoris until she was ready to squirt, she interns sucked my rock hard cock all the way to the base, Bosco was pacing around in anticipation of what was going to happen but it wasn't his turn yet.

I told her to get on her hands and knees and I was going to fuck her doggie style, as I was burying my fully engorged cock deep in her juicy wet pussy, Bosco started to lick her clitoris and her cum off my cock.

She immediately started masturbating and squirting on Bosco's tongue and the floor, I fucked her in that position for about 10 minutes enjoying the feeling of Bosco's tongue licking the cum off my cock and her pussy.

Bosco wanted his turn and tried to mount me, but it's not my job to service him, so I laid on my back and told her to lay on my chest so I could enter her pussy in that position and give Bosco a shot at her ass. As I was fucking her, Bosco was constantly pacing around and panting, you could see his cock coming out of his sheath.

He gave her a few more licks and mounted her, he was humping her ass wildly but again, he wasn't hitting the mark. So I told her to arch her hack to give Bosco easier access to her ass, she did that and also reached back to guide his cock in her anus. He then started fucking her ass like there was no tomorrow,

I could feel his cock inside her ass while I was fucking her pussy, I wanted her to tie with him while I was in her pussy, so I reached forward grabbed the back of his legs, and pulled him forward so his knot could find its way through her anus, as I was doing that I could feel her pussy getting tighter and tighter

then her pussy suddenly felt like a wet slippery vice, his knot was in. We both were fucking her pussy and ass together for about 2 minutes then he stopped, I could feel his cock pulsating doggie cum deep in her ass, I continued to fuck her vice tight wet pussy while Bosco was shooting jet after jet of his doggie sperm deep in her ass.

After about 10 minutes of enjoying the feeling of his knot and cock in her ass, I squirted a heavy hot load deep in her pussy. She then collapsed on me exhausted, all three of us were breathing heavy.

I kept my cock in her pussy until I could feel Bosco's knot shrinking. I pulled out of her and from under her while Bosco was still tied with her, after a few more minutes he pulled out as well.

She stayed lying on the floor on her stomach exhausted with doggie sperm and my cum dripping out of her pussy and ass. Bosco cleaned himself first, went over to her and licked her clean as well

My next mission is to get my girlfriend evolved...
