BEASTIALITY STORIES

This is about Tina, a middle aged lady who lives alone and finds out her big labrador, Sam, wants her hot pussy as he rapes her.

I have lived alone since my divorce several years ago and have a home sort of in the rural suburbs. I work a part time job and have a big labrador named Sam that is my watch dog since I am alone most of the time. I am not a beauty queen and am a little on the heavy side as I have a wide ass and plump thighs. My breast are very large, a 44 Ds and I love to play with them.

I was always into masturbation and love to make myself cum every day, some times even several times a day. I have a good selection of vibrators and dildos that I like to use and even have a mirror over my bed so I can watch myself. I try to keep my pussy well shaved as it turns me on to see my fat pussy lips taking my toys. I am a squirt er and love to gush when I cum.

I am also an Internet junkie and love to get online as I have several different accounts. One of my favorite things is to chat on instant message with my lady friends and a few men I have met online. I have a cam and love to see another lady masturbating as I do it with her. I will seldom go on cam with a man since they all want just one thing, a lady to show them her pussy. I do like a nice cock and love to masturbate to a lovely cock in a few videos I have.

I have gotten to where as soon as I get home from work, I will take off my clothes and walk around naked. When I am not at work, most days I stay nude as that is the way I sleep. I love to sit back in my big chair and will watch TV as I play with my big breasts. I love to massage them and can suck on my nipples as I play with them.

I was sitting in my chair one evening and was playing with my tits, not paying any attention to Sam, laying on the floor beside me. I had my hand on my wet cunt as I had started to get real horny that day. I usually wait and go to my room and lay back to masturbate as I get online. But today I was wet and had started to play with my fat little pussy. As it started to get better, I decided to get up and go upstairs to my bedroom and use a few of my playthings.

As I started to raise up, Sam came over and tried to put his head between my legs. I had never had him do this before and it was something I never paid any attention to until now. As I pushed him away, I got up and turned around, my back to him as I went to my big stuffed chair to get a wash cloth I always kept there.

Just as I bent over a little, Sam reared up onto my back and pushed me forward onto the chair, knocking me to a kneeling position on my chair with my ass towards him as I felt him grip me around my hips in his big paws as he very quickly mounted me. I was saying "no" to him but he had other ideas. He never slowed down as he must have smelled my pussy juices from my wet cunt. Then I felt his big doggy cock as he was trying to put it in me. He was going to rape me as he had it against my wet pussy lips, starting to hunch me from behind. I could feel how big he was as hot his doggy cock was against my cunt as he began to try and rape my poor, fat cunt.

Instead of getting up, I bent over a little more to feel his cock on my horny pussy. I could feel his cock searching for my wet pussy as I reached between my legs and found his slimy doggy cock as I took it into my hand. I was wanting his cock in me as I guided him to my cunt as I eased forward and spread my thighs for him. I felt his hot cock as it plunged into me, filling me with his cock as it almost took my breath away. It had been several years since I had something this big in me as I felt that hot doggy cock filling me as I pushed back to him.

Sam had such a big cock on him and he was slamming it to me, ramming it so deep in my cock

hungry pussy as he began to really pound my cunt. He held me tight to him as he sank deeper each time he thrust into me. His doggy cock was so hot as he filled me with that massive cock. My pussy was on fire as he raped my hot cunt, pushing it so deep, as I felt every inch of his hot dick as it slid in.

He had that huge doggy cock in my very wet pussy and was thrusting it to me as I felt so full of his cock. All I could do was take his monster doggy cock as fucked me, my puffy pussy so tight around his cock. His doggy cock was better than any of my toys and I was loving the fucking he was giving me. He held my hips tight to him with his big paws as he pounded my hungry pussy. There I was, bending over my big chair, my big doggy fucking me!

The feel of his huge, hot doggy cock so deep in me made me start to cum as he kept ramming his cock to my hot cunt. I was gushing as he fucked that big cock to my wet pussy as my climax swept over my body. I was loving this, even if my dog was raping me. I was really liking it now as I came so hard. Then he shoved that huge doggy cock all the way in me, the head of it at my womb as I felt my convulsing pussy cumming again.

Sam had began to cum as I felt his cock start to throb, deep at my sweet spot that had not been touched in years. As he began to shoot me full of his doggy cum, I could feel the heat of it as it flooded my fat pussy, all the way to the entrance of my womb. He was so hot inside me and his doggy cum was even hotter!

As he pumped that hot doggy cum to me, I was having another orgasm. The pure heat of his cum being pumped to me made me cum over and over as he was giving me such a good fucking. His cum mixed with mine was running out of my pussy as I felt his huge cock still in me, so big and swollen. At that moment I knew he was finished with me and waited as his doggy cock began to shrink, as it slipped from my well fucked pussy, his cum dripping out of me.

My pussy felt so empty as he slipped that massive doggy cock from my dripping pussy. I feeling so empty as I saw him licking the cum his big, red cock. I had been stuffed with his cock and my pussy was so tender as I rubbed my clitoris a little more.

His doggy cum was dripping out of me and onto my carpet as it ran from my throbbing pussy. I had just been raped by my big dog and had loved every minute of it as I found the wash cloth, catching some of his doggy cum as it leaked from me.

He had made my pussy sore and I had trouble even peeing the next day. Sam had really gave me a good, hard fucking and my tender fat pussy needed to rest a day or so as I left it alone for a while. He had scratched my hips with his paws, but I had loved it even with the scratches. I would have lots of time later to make it felt better as I masturbated. I was careful around Sam after that day and made sure I did not bend over with him around me.

I started to check online and found lots of information about doggy sex. I soon learned that they have a knot and that it swells up inside as they fuck. With another dog, they can lock their knot to her pussy and she is held to it so he can fill her with his cum. Reading about this just got me horny for him all over again.

But a horny pussy needs to be filled and it wasn't long until I worked up enough nerve to take his huge doggy cock once again. I had always left him outside my bedroom door at night and had did so that night as I began to rub around on my hot pussy as I took my clitoris between my fingers and slowly massaged it.

I was so horny as I played with my pussy, looking up at the mirror to watch my plump pussy lips as I

took a vibrator and began to work on my clitoris. The vibrator was good, but I needed something else in me. That was when I went to the door and opened it as I called Sam into my bedroom. I wanted that big doggy cock in my cock hungry pussy!

I patted the bed and he jumped onto it as I got onto my hands and knees for him to mount me. He knew exactly what I wanted and he was too happy to give me that lovely doggy cock as he mounted me. I was ready for him this time as I had put my thick socks on his front paws so we would not scratch me again.

Again, he took his big paws and held my wide hips as I reached down to take his cock. This time I was going to keep my hand on his cock and take it as I wanted it, not like he wanted it.

I eased my pussy open as I inserted his big doggy cock into my wet pussy, my hand still around the base of his cock. Then laying on my pillow, I took my other hand and began to rub my pussy, taking my clitoris between my middle fingers as I felt that hot doggy cock going into me. I wanted his big cock in me and I wanted his hot doggy cum so bad as I began to take his huge cock once again, this time it was me wanting him.

But it was not to be. His huge cock got to fucking me so good that I relaxed as my hand fell from his hot shaft. That was all he needed as he plunged that huge doggy knot deep into my wet pussy as he sort of growled. He started to fuck me as he worked that doggy cock and huge knot so deep into me, still growling a little as if to say, "You are my doggy bitch and this is my pussy. I can fuck you anytime I want so lay there and take my big cock."

And take his cock I did, along with his huge knot! This time he was sort of rough with me, slamming his massive cock to me as his knot worked even deeper in my well stretched pussy. I was feeling the heat from that cock as he plunged it so hard and so fast to me, fucking me longer and harder today than he did the last time. I guess that was his way of letting me know that I was his pussy and he was in control of me.

I was trying to push back to his cock as he fucked me, but with him ramming me full of that cock I had little time to move as he fucked my horny pussy so hard. I was loving the feeling of his huge cock in me as I began to cum, shooting my cum for his cock as he seemed to hold his cock to me and let me cum for him. And cum I did as my cum began to flow, my body trembling as he shoved that hot doggy cock so deep to me, making me cum over and over as he rammed that hot doggy knot to my throbbing, fat pussy once again.

Sam was lasting a lot longer this time as he fucked me, his hot knot so swollen up inside my sore little pussy as he took my hips and pulled me back to his big red doggy cock as he fucked me. My fingers were going wild as I rubbed my enlarged clitoris, making me cum as he fucked that doggy cock to my horny pussy.

I was his doggy bitch now he was fucking me like one as I finally felt that doggy cock start to swell inside my throbbing pussy as he began to fill me once again with his hot doggy cum. His huge knot was so far in me too as he worked his doggy cock harder to me, thrusting it hard as he shot that hot cum to my aching pussy, his huge knot locked inside my hungry pussy. I had never dreamed of anything so big in my life as his knot as it had my fat cunt spread around it as he continued to hammer my horny cunt.

He was filling me with that hot doggy cum as it flooded every inch of my pussy and its passage all the way to my stretched womb. His hot cum was feeling so good in me as he pumped wad after wad of his hot load to me.

He finished cumming and just held it to me, his huge knot still inside my aching pussy as I tried to slip away from it. But he held me tight to him as his cock started to go softer. Then I saw his huge knot as it slipped from me, seeing just how big it was. It must have been the size of a coffee mug and his bright red doggy cock was at least 10 inches long! I was surprised that I had taken such a monster in my pussy. But I had and I loved every inch of it. He had fucked me so long and so hard until I was glad when he removed that dripping cock from my swollen pussy. I had just been fucked harder and better than ever before, even if it made my fat little pussy sore, I love it!

The next day was rough for me as I had trouble even sitting down, not to mention having to pee. His huge cock and knot had made me so sore. That night I lay there as I glanced up to the mirror above my bed and spread my thighs as I saw my plump pussy still red as I eased my fingers to it. I slowly spread my labradoria as my swollen lips parted, my fingers beginning to slowly work on my sore little pussy as I found my enlarged clitoris. All I could think about as I masturbated, was Sam and his huge cock fucking me as I came so hard. I watched as my cum really gushed from my cunt, me cumming like a man as I shot my cum from my spread open pussy. I knew that Sam was right outside my door, just waiting for me to call him in and that made me cum so hard.

I was online, chatting to lady who also loved fucking her dog. We started to chat as she sent me a few pictures of her and her big Dane. Usually, people will send pictures that are of someone else and tell you it is them. This was not the case with her as she opened her cam to let me watch as her big Dane mounted her. The sight of someone else being fucked, live on cam, made me masturbate several times as I sat there with my cam on to let her watch me as she took that huge doggy cock as I came over and over as they fucked.

I was about ready for Sam again and was thinking about his nice doggy cock as I called him into my room. I needed that big cock in me. My pussy was craving his huge doggy cock as he jumped onto my bed. He lay down beside me as I took his slimy cock and wrapped both my hands around it.

It was so hot as it began to grow in my hands. I wanted to taste it, to take it and suck on it as I lowered my lips to his beautiful doggy cock. I began to kiss it as I opened my mouth, slipping my lips over his hot cock as I began to suck on his cock. I was so horny and I wanted to suck on his cock, to be his doggy bitch again. I wanted to suck the cum from his big cock as I sucked on it, pumping his shaft as I longed for his cum.

I was sucking on it so hard as he began to swell in my mouth, knowing that he was ready to cum as I held it with my suckling lips. Then he began to cum, his hot doggy cum filling my mouth as it flowed into me. The feel of his hot cum and me pleasing his doggy cock was too much for both of us as I came too, sucking his hot cum from his beautiful doggy cock.

I released his lovely cock as his cum ran down my chin, getting onto my hands and knees as he mounted me once again. He began to growl a little, letting me know I was his doggy pussy. Then I felt it as he entered my hot pussy again, his hot doggy cock filling me just as I wanted. I was happy to be his doggy pussy and he could have it anytime he wanted me. Then he slid that monster knot to me as he began to ram my fat little pussy with his lovely cock.

After that day, I began have Sam sleep with me at night. When I would just want to masturbate, he was always there ready to lick my plump pussy. During the day, I walk around naked and am there for him whenever he wants his doggy pussy. He will come up to me and growl a little as he wants his pussy. I will get on the floor on my hands and knees, offering him up his fat doggy pussy for his lovely cock. I seem to stay on the floor a lots as he has grown to want me every day.

Sometimes I still sit in my chair and masturbate just as I will get online, but always with Sam close by. He loves to have me spread my thighs and him lick my wet pussy when I sit in my chair at my computer. The people I chat with really don't believe that I have a doggy licking my pussy, that is until I turn my cam on for them. Maybe one day you will find me online and we can chat...
