BEASTIALITY STORIES

We were on summer holidays on a small greek island.  the last holidays with my parents. During that period I was horny all the time. I was constantly masturbating (to be true when it was possible and my parents were away). I was quite developed - had already some big boobs and had slept with a boy - but that wasn't so fantastic! I preferred to masturbate together with my friend Anne. She (an older and experienced woman) also gave me as a gift a big dildo which I used very often that summer.

So my interest during that holidays was to leave my parents alone as often as possible. They had rented a small greek house just near the sea and as often as I could I decided to make a walk or jog along the sea side. After only some hundred meters there was no one around. So I layed down in the dunes took off my panties and masturbate heavily. Most of the time I used a large cucumber as a dildo!

Once I was pleasuring myself, my eyes closed and thinking of the last encounter with Anne I suddenly felt a wet tongue on my legs. I opened my eyes in surprise and was looking at one of the strawling dogs of the island. I had seen them several times at the beach. Mostly there were 3 or 4 together strawling around. Now there was a nice looking brownish midsize dog licking up my legs coming nearer and nearer to my pussy. First I wanted to stop him and shout at him but it was such an amazing feeling. I got a shiver all over. He moved closer until his nose was in my pussy and then he started licking my cunt. It felt so good, so overwhelming!

I know it wasn't very long I was coming! And his long tongue was licking me constantly - better than every man before! The cucumber was still in my pussy - so I let the dog do his job and move the cucumber in and out very quickly!

I was wet as hell. Knowing in some seconds I will come heavily! Feeling the waves coming I was screaming - an overwhelming orgasm! The best I ever had!!

When I opened my eyes after the heavy orgasms there was that nice brown dog. First I don't know how to behave but it was such an intimate moment that I start without thinking about it to cuddle him. For some minutes we were lying there in the dunes in perfect harmony - so relaxed! But then I thought about my parents were missing me and I had to go with sorrow.

Back home I was thinking constantly about this massive orgasms I had and this tongue and I was horny all day. I couldn't wait to go to bed. In my room I took out my huge dildo and did it so many times I was really exhausted.

Next day I had to make a trip around the island with my parents and just in the evening I had the chance to go on my own to the beach. Anticipating to meet "my" brown dog my heart was hammering in excitement and I was all wet. I went to the same dune, took off my bikini and was waiting for "my" dog. But he wasn't in sight. A bit disappointed but still very horny I start to pleasure myself but still looking around. While doing that I hesitated - just some meters away at the beach was a couple. Obviously she was masturbating his friend. They couldn't see me in the dunes but I can see them very clearly. She took off her pants and was sitting down slowly on the massive dick of her friend - smoothly moving up and down. I was so horny I just came by touching my clit.

Then I layed down in the warm sand and suddenly there were dogs barking just some meters away. One of them has to be "my" dog. I hoped. The couple obviously was disturbed by them - shouting at them to run away.

I hoped "my" dog would come to "our" dune and so it happened. I was lucky and excited - but did not know how to make him lick me again. At first he was staying a bit in a distance. So I thought the best

thing should be to masturbate as I did before. So I layed back, opened my legs and pet my clit gently. And it worked – slowly he started to come nearer. First he licked my bare feet (that was tickeling a lot), than my leg and finally my pussy. I couldn't express how lecherous it was. I had instantly my first orgasm! On the one hand because of the dog's tongue on the other because of the thought having sex with a dog! Having sex with an animal! So basic! It was so fantastic – I had never expected to have such an experience in my life!

Also now I can hear the woman next to us moan loudly. I was so wet – pur lust. And “my” dog was still licking me constantly. A second and a third wave was coming! After that I had to make a break. I sat up and the dog sniffed on my boobs licked my arms. I can feel a tension thinking about him to be horny too – as myself. And I was right. Immediately he started to hump my leg. I was a bit insecure how to behave. But I deside to sit still waiting what will happen. While watching his dick came out, growing constantly – longer and bigger. That was so exciting to watch and I thought about the many orgsms he gave me by licking. So I decide to pleasure him too!

Slowly I brought my hand nearer to his dick finally grab him and than start to masturbate him! It was marvelous – such a thick dick in my hand and also near on the beach a couple having a loud orgasm. I started to masturbate my clit again. It was pur ecstasy! And then the dog ejaculate! It was massive – he was spuirtiung a lot of hot sperm all over my body. It was lecherous – pur lust! It was a tremendous feeling all the sperm on my boobs! I was all wet and I wsa having the most owewhelming orgasm.

After some days of having “my dog” lick I had more orgasms I could rember! And during the nights I was dreaming about him doing me all the way! But how to mention that. And what about someone walking by at the beach?

One day my parents were doing a day tour by boat. I pretended that I didnt't feel so well and wanted to stay at home. So I finally got the chance to be in the house the whole day on my own! Immediately after my parents were gone I ran to “our place” at the beach. Carrying some cracker and some sausages with me to keep him coming with me to our house. After about half an hour I heard him coming. First we cuddled and then I made him follow me to our house. There I went with him to my room , closing the door to be sure not to be disturbed!

I was quit nervous but all wet! I took of my shirt an my shorts and put my finger in my pussy. I let the dog sniff then lick my fingers. Then I put his nose in my pussy! After some minutes of licking he and I were very aroused. I feel the dog being very nervous and excited. So I put my hand on his cock which immediately started to grow – what a big cock. I had never had such a big one before! I was shaking in excitement. And the dog stated to hump my leg. I was so excited i could hardly stand it. I turned a bit so that the dog come up directly behind me.

I thought “ O God what am I going to do?! I am going to be fucked by an animal!”

But I hadn't time to think about it further on because the dog mounted me wrapping his front paws around my wasit. He began to hump me quickly. He missed a couple of times but some seconds he put his big cock in my dripping cunt. I was a bit afraid because before with the boys they always said that I were so narrow. Would it hurt? How would it feel? Could it be compared to the fucks before? But I couldn't think about it further on. His bick cock fucked me and I was moaning loudly!

He fucked me faster and faster! No break – no time for me to relax! That was something different!! Pure sex! Just animalic fucking!! After some minutes I had my first overwhelming orgasm – crying loud while coming!

But he still went on faster and faster! And then I felt his knot swelling! Actually I really didn't know that he had a knot this big. But suddenly he slowed down and this knot was swelling even more! Really amazing. I didn't know what sex could be until that moment!! I came another time - again moaning loudly "Oh God I am coming. I am fucked by a dog! O GOD! YES! (and be very happy that nobody can hear us!). Then I felt a warm feeling inside. O my god - he was shooting his sperm inside me! Only to think about it made me come again!! And what a lot of sperm this was! Much more than ever from a man before!

And I felt his knot inside me. I rubbed my clit as hard and there were even several orgasms more to come!

We stayed like that for a few minutes, tied together. Then I could feel him shrinking and going out of me. A lot of hot semen was running down my legs. I was really exhausted but it was the best fuck of my life!
