BEASTIALITY STORIES

Weiss fell in love with the horse's large member the moment she saw it dangle between the legs of the stallion in the stables.

She snuck out in the middle of the night to get a much closer look... She had never seen a cock up close and in person before. The horse's member hung there limp. Weiss knelt down and reached out, grabbing its heavy, full balls. The breeding was scheduled in a few more days, so the stallion was full and eager to release its seed into a ready mare.

"Lucky bitch." Weiss said out loud, taking in a deep breath of the animal's musk. She started to stroke its member instinctually in response to the fragrance.

She loved the way it felt and the way it looked. She stroked the animal's massive dong until it shot up bumping her chest as the animal became aware of the situation. It leaked precum, frantic for something... someone to give it release. Weiss stared at it for a moment, her heart pounding and the wet spot between her legs growing larger. She felt bad for the poor creature and knew it needed some release. She slid herself in front of the twitching rod. Licking the tip and tasting the beast's pre. "Well tonight's your lucky night...tonight you get to breed a schnee." This was the beginning of the story of how Weiss became the cumdumpster of the animal kingdom, of how she lost her cherry, and how she came to find out what years of dust exposure does to a female reproductive system when a creature's sperm finds one of her eggs.

Weiss lovingly licked the head of the horse's massive twitching rod.

Moaning every time she tasted the stud's salty member. Thinking about how a noble heiress such as herself was worshiping a beast's cock. How hundreds of men must have imagined her doing the same to their own member, but she was instead on her knees in a filthy stable about to become the cumdumpster of an animal. The stud broke her train of thought when it bucked forward, pushing its tip into her warm wet mouth. Its thick streaming precum splattering on her chest and her legs.

Pooling over onto her ample breasts. "I'm sorry", Weiss said in a meek and submissive tone, "A good breeding bitch should focus on her stud, right?".

Weiss smiled, and bounced her plump ass up and down with a slightly audible clap from her cheeks. She brought her mouth down to the horse's leaking hole and began to suck on it, twirling her tongue around the cock flesh surrounding it, and when the beast's cream began to pour into her waiting mouth, she moaned out loud like a true bitch in heat. Her eyes rolled up as she started to take as much of the titanic cock into her mouth as she could. She moved her one hand down to tease her drooling snatch while the other started to rub the underside of the stallion's cock. Her silky smooth gloves teasing the beast to give her more of its thick precum. Which when she gathered enough in her greedy mouth, swallowed with a loud *gulp*.

Weiss was in ecstasy, she enjoyed acting like such a depraved cock hungry slut. Weiss moved her hand from her twitching pussy to wrap around the stallion's rod as best she could and started pumping its cock.

Her mouth open around just its tip, her tongue licking and cleaning every bump and fold of her stud's cock flesh.

Swallowing every drop of seed that entered her needy mouth, taking the beast's neighs and huffs as a

sign she was being a good little cocksleeve. "Bet my mouth is better then any of those toys that were used to milk you before. You probably can't go back to regular milking now can you...Don't worry, You'll always have a willing Schnee bitch to milk your cock". As if the creature could understand what Weiss was saying he lowered himself and bucked hard into her open mouth.

Pushing a few inches deeper, and when he felt the the warm, wet sensation go further up his cock he started to buck more into his now personal cock milker. Weiss' eyes started to water as the beast pushed itself further and further down her tight throat. Weiss moved her hands away from the thrusting shaft to open her top letting her ample tits bounce free, and allowing the beast to fuck her throat without resistance. Weiss' throat became the stallion's personal cocksleeve as it continued to thrust more and more inside her tight throat.

She leaned back placing her hands behind her to let herself get coated in the dripping spit and flying precum.

Barely able to breath, she felt like she was going to pass out, but before she could the cock in her mouth twitched and tensed up. The stallion thrusted himself as deep as he could into Weiss' throat before unloading himself directly into her stomach. Weiss' tight tummy filled within the first few spurts, bulging as if she was a few months pregnant. Cum gushed from her mouth and nose covering her body in animal jizz. After almost a minute the horse withdrew from a cum covered Weiss, who plopped on the ground of the stable with a slutty content smile on her face. After a few minutes of rest Weiss stood up to see that the stud was still half hard and bucking its hips forward sending strings of cum flying to the floor. She walked over to the creature that was responsible for feeding her that night, and lovingly kissed its hip. Reaching under his belly to grasp its cock once more. "Why waste your cum on the floor when you have a tight pussy to put it in instead".

Weiss removed her cum stained clothes before leading the beast that was about to pop her cherry to a nearby hay barrel. The stallion stared on as Weiss bent over the barrel and pressing herself down to lift her plum ass higher into the air. She arched her back and started to bounce her cheeks up and down enticing the stud to come over and breed the needy slut. She felt the beast's hard cock press against her snatch and buck forward which rubbed her clit and mixed their perspective juices together. "I knew you wouldn't be satisfied with just a wet mouth...you need a mare to breed don't you? I'll be your little fuck toy, so come over here and fuck a colt into me! Come on! Pop my cherry and fuck a slutty heiress full of your seed! Ruin me! Turn me into your little cumdumpster! Show my daddy how his girl acts! Make him see how much of a depraved disappointment I am..."

The stallion placed his front hooves on the barrel, and lined his cock up perfectly with the now rambling Weiss.

Weiss moaned and bit her lip as the determined stallion pushed its lubricated cock against the entrance of her unclaimed sex. It's blunt cockhead struggling to push its way inside. Weiss stood on her toes in lustful excitement. Her plump ass bouncing up and down wrapping the studs tip nicely between her ass flesh, thick thighs, and snatch. Which drooled and twitched on the pressing animal member.

The cock drunk Schnee eagerly anticipating the moment her cherry would be claimed by a lowly barn animal. The thought of her becoming this beasts cumtank filled her with pleasure and satisfaction. She bounced back on the ram like cock trying to force it inside her. "Of all those pathic suiters and matches father came up for me, you're gonna be the first moan Come on. Fuck me already! Use me like a fucking cocksleeve!" Weiss slammed herself back on the horse rod one last
