BEASTIALITY STORIES

Being a single lady has its challenges - everything from car maintenance to multiple areas where men think it is easy to take advantage of a female or someone who is not familiar with a particular product. That is why when I was ready to purchase a home, I looked for a female realtor, one I was somewhat confident wouldn't take advantage of me. My instincts were correct, mine found a home, next door to another single lady and next to her a young couple with a one year old baby girl - they were the only three homes in a semi-private circle with an extended entrance.

Apparently the land had been owned by an older couple, when they passed away, the son built three nicer homes selling to selected people - I was lucky to be ready when the last one came on the market.

Mine is on a small hill, allowing me, from my patio, to see directly into my neighbors master bedroom, but her patio is hidden from my view due to the 'L' shape each home has, the patios have been hidden on one side.

Elaine and David were out in front working with the baby in a carrier when I arrived to start the move in process - Janice came over to meet me and introduce herself as my new neighbor.

To say she was hot, would be an understatement to the max - I have heard it said that people of like sexual orientations can detect one another without being told so, if that was true, being a lesbian I wished and prayed she was of a like mind - sharing more than just a neighborly friendship was something I was looking forward to sometime in the future.

After spending most of the day unpacking and making the new place comfortable, pouring a glass of wine, walking out on my patio, but not turning on the lights - it was quiet, so peaceful, I was more than just happy with this new place.

Suddenly the bedroom lights of Janice's bedroom came on, it looked like she was getting ready for a shower - I wasn't trying to peep, but I didn't move or turn on my lights. She stripped down, literally taking my breath away - she was even more stunning than I had imagined - she stood in front of a large floor length mirror, checking her hefty breasts, teased her nipples until they were rock hard ... in the meantime my hand had slipped under my shorts, slowly rubbing between my legs - the longer I stared at her, the more aroused I was becoming - when she was ready to take her shower, turning to look directly at me, "Raini, hope you've enjoyed the show, welcome to the neighborhood"

Then the lights went out as she headed to the bathroom area - I have never been more embarrassed in my life - Continued to sit there, trying to figure out what to do - I had just moved in and already had offended my next door neighbor.

The next morning was Saturday, slipping on a short skirt, leaving off the panties, armed with a 'Sorry - Please forgive me' basket I knocked at her front door. "Janice I am so sorry for last night, please forgive me, I wasn't trying to be a peeping Karen - was"

Hugging me, "It is not a problem, I saw you when I went down the hall, figured it was a way of breaking any ice that may have been awkward between us, please come in, I had a delight wondering what you were thinking while I was playing - I have some cheese, why don't we open this wine and enjoy one another while we get to know each other"

I had just stepped inside, closing the door behind me, handing the basket off when the biggest dog I think I've ever seen came rushing through the house, pushing me against the wall, burying his nose between my legs - the way his head was moving that long tongue reaching out between my legs, discovering my bare pussy ... as soon as he drew it all the way across the sensitive lips - the roughness of his tongue, made me grab his head, let out a low erotic whimper, just as my legs

started to buckle.

My new neighbor had turned to see what the hound was doing, it was easy to see I was wearing no panties, so she just stood there watching him lick me ... I'd grabbed hold of his head, my breathing becoming heavy while my eyes opened and closed ... when my hips started to move against his head, she figured I was on the verge of exploding, "Kimber that's enough, SET"

He stopped immediately, backed away and sat back on his hind legs.

She moved by my side, slid one hand between my legs, the juices were already flowing from his stimulation - she lightly aroused the lips by moving her hand back and forth over them, then pushing one finger up inside me, making me cry out "OMG I would never have guessed you are a first class slut - no panties - I'm beginning to like you more and more each minute"

She helped me into the kitchen, easing me in a chair - my legs were spread wide open, the lines of liquid running down the inside of each thigh told her how turned on the dog had made me. Handing me a drink, besides peeping on nude women at night do you also fuck dogs or I should say let them fuck you?"

I've never felt like I was at that moment, when asked about me and dogs, all I could do was shake my head - my hips still uncontrollably humping the air slightly - to my surprise, "Kimber come and lick her pussy" Her hand slipped under my loose fitting blouse, I never wear a bra so she had instant access to my tits ... just when that damn dog was between my legs again, this time I was wide open - he had my full pussy at his disposal to play with - trying to push him away, to tell her to please help me and stop him ... but it was too late, that tongue covered the entire area from my ass to my clit - the lick had me grabbing the chair ... trying to make sense of what was happening to me ...

My tits were being teased, massaged like nothing I'd ever experienced - that along with what the dog was doing to me, had my hips bouncing off the surface, legs gripping his head then flashing wide open -

The explosion was building, knowing feeling it was bigger and more powerful than anything I'd ever felt - somehow he knew how to keep me going higher and higher, but controlling me so the release was on his terms - just when I thought I was going to pass out ... he changed what was happening - the tongue pushed deep in me ... that was all it took, my body shook, mind went blank for a moment - then exploded with a gush of the sticky liquid covering the dogs face - all over his ears, my thighs ... between my legs a slow quivering taking place - something was happening that I'd never felt before, as soon as the explosion calmed down, a series of mini explosions followed the main one, leaving me so exhausted, I literally slid down to the floor, not exactly sure what had happened. The dog stayed to clean me up, then ran back out side -

It took some time to calm down, looking around to try and bring back what had happened - finally seeing my neighbor watching me, "Welcome back, it looks like this was something you've never enjoyed before, how are you feeling?"

Shaking my head, now completely nude, crawling back up in the chair - "I'm not sure - my body is still feeling so funny - never had a dog do anything sexually with me ... not sure how I am feeling"

She moved in close by me, wrapped her arm around me, "Hopefully what just happened to you is just the beginning of what may be ahead"

Handing me the glass of wine, I emptied it in one large gulp - she refilled it ... by the time that one was half gone, a pleasant warmth was starting to take over ... We continued to talk, since my body

had spent all it had, the closeness we both knew was coming - but tonight we just talked, later on I headed home, but one thing kept coming back to me over and over, that dog .. he seemed to know exactly what to do, when she told him what to do - he zeroed in on me ... he was so beautiful, so big and powerful But where had he learned what to do and doing it on command?

I had walked back nude, slipped in my hot tub as soon as I was home - a much needed nap took over - that evening the two of us got together again - this time a nice BBQ at her place - the huge dog was near, but just kept an eye on me ... for some reason I kept looking back at him - what had happened earlier was still making my pussy tingle - if it had been offered I think I'd strip down my shorts begging him to repeat what had happened earlier -

After a perfect meal, both of us relaxed in the hot tub, both had stripped nude, we sipped a cold beer, started kissing, the more kissing brought on more passion - eventually both of us moved to her bedroom ...that evening we made slow passionate love, almost as if we were long time lovers - both enjoyed multiple climaxes - then fell asleep in each others arms.

The next two weeks or more had us together as often as we could - every time I'd see Kimber it was obvious there was a connection between us, something I thought was still haunting me, with him secretly planning a future hook up.

One evening Elaine and David were with us enjoying an evening BBQ in my backyard, where they asked if I could watch the little one the following evening so they could celebrate a wedding anniversary? I of course quickly agreed I'd love to ...I was at their home around 6:30 - the baby had been fed, so I just played with her a couple of hours, then a bedtime bottle, change of diaper and slipping on a nightie - as I closed the door, figuring now I just had to wait until the parents got home - just as I was heading back to the family room, it sounded like Janice was laughing and Kimber barking ... stepping into the master bedroom, her patio was visible - once again I caught myself spying on what was happening - but to my surprise she was nude, playing with Kimber - the dog however had a raging hardon - hanging down at least a foot or more -

He kept trying to get between her legs, she was grabbing his cock, lots of laughter and barking - when suddenly he pushed her over a large ottoman, his weight no match for her, pinning her down ...'Hey that's not fair - you shovedOMG I've missed that ... oh please use me and fuck me"

That's when I saw he had not only knocked her over, but that pole had penetrated her pussy, he was all the way in and starting to really fuck her. It did not take an expert to see she was not only enjoying what was happening but this had not been her first time.

The speed he was pumping in and out of her - the sheer size had her enjoying multiple explosions over and over - moving to see better, his knot had appeared easily slipping inside her - I could only imagine how the warm feeling felt - her face showed this triggered a massive orgasm - one that made her whole body shake.

I've never seen anyone enjoy more pure pleasure than it looked like she was feeling at that moment - it also cleared up a lot of questions about that first day when Kimber had assaulted me easily, seeming to not only enjoy what he was doing but had done it before.

I was breathing heavy, the wetness between my legs was now starting to flow down my thighs ... not sure what the strange feelings in me meant -

When he pulled out, he quickly cleaned up the excess combined juices the two of them had mixed inside her - then he laid on his side, my friend crawled to him, cleaning that marvelous looking cock ... then curling up next to him, her back against him ... slowly drifting off to a restful evening.

I quietly moved to the family room, never been so aroused or so confused as I was at that moment. The parents arrived home - we hugged then I was on my way home, as I passed by Janice's home, I wondered what she was feeling now, how she had trained him so well so she could become his bitch, to be used when he felt like taking her.

Janice sent me a text the following morning, making sure the tending job went well, also inviting me to come and have lunch with her that afternoon. I knew it would be difficult seeing her, knowing what I had witnessed but it would be obvious if I turned down the invitation, replying back I'd love to join her.

She had a cold drink ready for me when I walked in, sipping it, we moved to the play room, where a buffet of finger food had been prepared - we talked about how cute the little one I had tended was while I sipped on the drink ... I had only been there a short time when something - strange started taking place inside me. Taking a seat, Janice looked at me, "Relax - I added a short term relaxer to the drink, it will help me get you ready for the best time you've ever enjoyed"

She went on to say she'd seen me in the master bedroom, watching the two of them .. once again I'd been caught being a 'Peeping Karen'.

I barely placed my drink on the table when the limbs seemed to lose the ability to move - she took off my top, then my shorts, helping me to move to a large ottoman that had hooks where my wrists could be secured as well as my legs, just above the knees.

I hadn't noticed the huge hound in the corner, but as soon as I was secured, he moved behind me, starting to lick between my legs. It took a few minutes for the feelings to come back, but as soon as he started licking, I could not only feel him, but he was spiking my arousal, knowing what was coming I begged her to not do this to let me go ... I was sorry for peeking last night, but I didn't want this to happen to me - ... "OMG please let me go, I'll leave, even sell my home if you want me to, but please don't let this happen"

She took a seat across from me, telling me we'd talk more later on this afternoon - but now just relax as best as you can, the ride of your life was about to happen.

The restraints were too strong for me to break them, the drug was wearing off quickly and what was happening between my legs was not only spiking my arousal, but making it harder and harder to try and get him to stop -

Finally physically I was back to normal, his licking was being felt all over my body That's when I heard, "Mount her Kimber, mount her and break her in to become one of your bitches"

That damn dog is obedient as any that I've ever seen, he jumped up on my back, that rod that I was sure was going to tear me apart, hit its mark on the first push, sliding all the way in, his heavy balls slapping my pussy - the girth wasn't as big as I had thought, so no tearing took place, but I've never had anything in me as deep as he was at that time.

My head shot up, I tried to scream but nothing came out - he didn't start pumping at first, but instead stayed perfectly still, while my body became used to what was happening - then to my surprise it betrayed me, squeezing it, moving slowly back and forth against it - trying to become more excited from what had just happened. Instead of the rapid way he'd taken my neighbor the previous evening - he started a slow steady in and out - almost all the way out, then back in as deep as possible - repairing this process again and again.

I was becoming delirious with this - my body was writhing from side to side, as much as I could

humping up and down ... hands clawed at the edges of the overstuffed furniture I was on.

Why he wasn't banging me like a normal dog, like he had done to my friend the previous evening - but he kept pushing slow and steady in and out -

I've never needed to get some release from the horrible build up he was doing to me ... I was screaming at her, at him, begging, pleading, demanding but nothing was changing - finally just when I was about to pass out from the most intense frustration I've ever felt, his paws grabbed my hips, his cock slammed me, then pulled out and slammed me again - that's all I needed - my body exploded, the release I'd been begging for rushed over me, liquid gushed out of me between his cock and my body - but he didn't stop - the rapid pounding, the force he was pumping in and out continued to hit me, maybe harder than I had seen him dominating Janice.

He didn't stop, didn't slow down just kept on pounding my body - it felt like I was experiencing one climax after the next - they weren't stopping, his pounding kept me shaking - finally his knot started to press against my entrance - it felt huge, the more he pounded me, the deeper it was slipping in ... finally I gave way, it popped in, landing directly on the secret sensitive spot, triggering another explosion - this one being harder and more body shaking than I had ever imagined I'd ever experience - the flood of his warm seed, topped off what had started by me being secured to this ottoman - the warmth made me feel like something had wrapped me in a warm blanket.

It took sometime for my sight to come back into focus, she was smiling, "Welcome to the family, you have just become Kimber's newest bitch"

When he pulled out of me, she was there to clean off his cock, eventually when he had licked my leakage up, I was released, barely able to stand, I can't remember when I have ever been that sore - but never been as satisfied as I was at that moment.

Helped into a shower, then a snack to eat and bed has never looked so inviting. Enjoying a good 12 straight hours of uninterrupted sleep, waking, looking around her bedroom, knowing I was no longer the same woman I had arrived here as - heading to the kitchen, she had a nice meal ready for me - food had never tasted so good ... as soon as I was full and had several glasses of OJ, staying nude I headed out to her patio - as soon as he saw me, his nose was buried between my legs, this time I knew who I was and what he wanted. Dropping down on all fours by the overstuffed ottoman - a few licks had me flowing and ready, he jumped up on my back, that wonder cock slipping deep inside me - this time I was already his, so he just fucked me and fucked me and fucked me - fast, hard, long deep strokes - almost immediately I cried out when the first explosion took over my body, his knot slipped easily in this time and the second body shaking climax hit me - the warmth of his seed, trigger the last but most intense ...

We were tied for better than 20 minutes, as he pulled out, I let him drink our combined juices then cleaned his shaft while he relaxed on his side. He now had two of us, I wondered how long it would be before he added Elaine and possibly David - especially when I rolled up next to him, Elaine was staring out her window at what had just happened. I saw her, she saw me - we locked eyes on and I know Kimber saw her.
