## **BEASTIALITY STORIES**

Samantha Wilkes loved riding horses on her Dad's ranch all day. But she had a naughty secret. During the night she would sneak out into the pasture where their prized stallion "Major Disaster" was kept and she would let the horse ride her!

Tonight was no exception, as Major tried to fulfill his breeding duties inside Samantha's wet and welcoming pussy. Sam flipped up her riding skirt to reveal that she wasn't wearing panties as she positioned herself under the massive stallion with her legs splayed wide and her palms on the ground in a downward dog pose.

She shuddered as the engorged member made contact with her bare cunt as it sought out her entrance. When he finally started poking and prodding at her pussy it was only a matter of seconds before his powerful hips moved, impaling her fully on his cock. Sam moaned long and lustfully as the young horse dominated her like the slut she was. The thrusts came hard and fast as only a stallion in his prime could do.

The force of each thrust moved Sam forward along the ground almost as if she was trying to get away from the monstrous sexual organ invading her hole. But she wasn't. Within minutes their forbidden activity approached the tall corral fence bordering Major's private field, until Sam was able to grasp the lower fence rails in her trembling hands. At this point Major reared up and hooked his forelegs on the top rail as he really went to work. The extra leverage allowed him to pound her pussy without mercy as she moaned his name over and over helplessly...

"MajorMajorMajor! Ooooooh! Take your mare! Sam was all but screaming as the pleasure continued to grow. A climax was building inside her that threatened to shatter her overstimulated nerves. Major's dick was getting extra swollen too. Sam had been away all summer and Major hadn't mounted any actual mares in months. So his eagerness was evident in every stroke as he headed towards completion.

Sam's needy pussy clamped down on the giant rod as stars seemed to burst right in front of her eyes as she attained orgasm. The extra pressure on Major's cock as she came was enough to cause him to explode inside her vagina as streams of sperm rocketed into her womb in a vain attempt to impregnate her.

Sam was thankful that wasn't possible as she slid weakly to the ground causing Major's cock to withdraw from her warm cunt with a loud popping sound.

"I love you" she whispered, as she rolled over onto her back spent and sated. Major got down from the fence and nuzzled her face for a few minutes before wandering off to graze nickering with contentment. Samantha stayed on the ground for another half hour as rejected semen leaked from her red and puffy cunt lips.

When she finally staggered back to the house it was almost 5:00 a.m. The ranch hands would soon be up and it wouldn't do to be caught out here in her current state. After a quick shower she went to sleep dreaming of the long rides across the meadows and the extra special "rides" in the pasture during the night....

*The End? To be continued? I don't know...*
