## **BEASTIALITY STORIES**

Hey y'all, I'm Lindsey. This is a true story how my dog ended up breeding with me. I'm 17yr old virgin finishing up in High School. I know a lot about sex ed because of class. I understand most but I was saving myself for the right moment. I mean I do masturbate often when alone. I'm 5'3 active fit with 34C and dark brown hair. My parents see me as Ms Perfect. If only they knew what was going to come...

My parents have told me they are going on a little vacation for their anniversary and trusted me to be alone with Max. Max is my big Mastiff. I got him for my 17th birthday as a pup. He still is but boy is he big now. Anyway, it was the day they were leaving and I was getting home from school. I read the note on the counter telling me about the food for me in the fridge and to walk Max and to keep the house in order. I put the note down and went up to shower.

After my shower I went to my bedroom to dry off. I felt a bit horny since the water trickled down my body while in the shower, so once dried off, I laid down on my bed with my dildo and opened my legs. I started to rub my clit with the tip feeling so good as I did so. I then let it slip in me slowly and when it was feeling really good I leaned my head back and moaned. I was too into it that I didn't noticed Max enter the room. I kept going faster with the dildo, I looked to see Max hop up and lay down on the bed but felt like he was ok just being there since I had a fairly big bed. So I went back into enjoying my dildo until I felt Max begin to lick me... And OMG did he feel good hitting the clit just right with my dildo in me. "Oh Max, you hit the spot boy". I pulled the dildo out and sucked on it to clean it free from my juices as Max started to lick me more. "Yes Max that's it, make me feel good boy". I will admit, I was indeed enjoying it. "Mmmm Max, you like the way I taste?" I tipped my head back and moaned louder. "That's it boy, lick me, get me really wet." After a while we ended the fun and I got cleaned up again. But that night I kept thinking about what happened, and what if I let him in me and take my virginity? Needless to say my mind raced all over and I couldn't sleep that night.

The next day came and I woke up with Max in my room on the floor. I went downstairs to eat. Since my parents aren't home, I walked about naked. Felt really good with no clothes on. All day I kept thinking about Max pleasing me with his tongue and the what if I let him have sex with me. Finally I decided to try it...

That night, after showering, I went to my room and Max followed. I dried myself off and got down on my hands and knees knowing that doggie is the only position best for him. Max wasted no time and began to lick my clit and pussy lips. "Oh Max, I'm getting wet already boy." I began to moan. I was getting so wet by his tongue "Yes Max, make me your bitch, Lick me boy". Then Max stopped licking me to only moments feel him mounting up to my back. Feeling his weight on my back hurt but I wanted this to happen. Max wrapped his front paws around my waist and thrust his hips into my ass, only missing the entrance to my pussy. Then finally, Max was in me, it felt so good!!! "Oh Yes Max", I moaned louder. "Oh boy, fuck me, fuck your new bitch baby". Max was fucking me hard and fast, he was taking my virginity. "Oh God yes Max, fuck me hard baby, take my virginity boy." It was this moment that I knew, Max wasn't my dog anymore. I was his mate, his bitch to breed. I kept moaning loud to him, "Oh yes Max, I'm going to cum boy!" Indeed he was going to make me cum. "Oh fuck yes Max, I'm close baby, I'm going to cum all over your dick!" And I did, I came all over his doggie dick and after I did I felt a big bulge start to grow in me! It was his bulbus glandis or as you would say, his knot. It was getting bigger at the entrance of my pussy and it was stretching me out that I started to panic a little. As the knot grew in me, I felt him pre-cumming. I had read about it and it was part of the mating process. "Oh god Max, cum in me baby" I moaned "oh yes Max, I'm going to cum too". While he shot his pre-cum load in me, I came too "Oh fuck Max I'm cumming all over your big cock boy!" I cried out with pleasure more "Oh yes yes yes YES, Fuck me fuck me fuck MEEEEEE". Then as he was still stuck in me, he dismounted me and turned so my ass and his ass were touching

with his big doggie cock still stuck in me. Then after he came again! "oh God Max, your cum is so warm deep in me!" I read up on this too later that this is the moment he was trying to impregnate me! This was called copulatory tie, we stayed like that for a good 30 to 45 minutes. Max finally pulled out, but I could feel his cum flowing deep in me and it felt good. I can honestly say Max taking my virginity was amazing and we had more sex since then.
