## **Manuela Arbeleaz rides the bus**

It was Monday morning and Manuela Arbeleaz was heading to her job on the price is right. She had just pulled out of her driveway when her car stalled and wouldn't restart. Cursing she got on the phone and called a tow truck then she called work telling them she would be late. Then she called a taxi and was soon picked up and taken to work. They worked late on the price is right finally finishing around eight that night. Stepping out of the studio she started to reach for her phone when she saw the city bus pull up at the studio gate. Oh well let's try it I've never ridden the bus since school so she ran to catch the bus which once she had discovered it was standing room only. She found an open space and holding onto the straps hanging from the ceiling stood waiting for the bus to get to her stop. At the next stop a blind man with his guide dog stepped onto the bus and filled the open space next to her. The blind man grabbed the strap and waited patiently for his stop. As they rode along the dog started sniffing at Manuela crotch actually sticking his head under Manuela short skirt. He started licking at her panty covered pussy as she tried to push his head away but to no avail.

The dogs attentions soon brought her to climax and her moans brought her to the notice of the other passengers. One young man said out loud , wow he sure likes her pussy , yeah another said but he can't get to her completely. Then a third , a young woman said we should help him. Four of the people around her pulled her panties and skirt off of her then removed her blouse and bra , when she started asking for help they stuffed her panties into her mouth and tied a handkerchief around her head thus gagging her. Shaking her head violently no , they forced her down onto her hands and knees and urged the dog to mount her. When the dog mounted her and shoved his cock deep into her cunt the surrounding passengers started recording the show. Slamming into her like a living jackhammer her muffled screams could still be heard on the bus.

One of the watching young men avoiding his mother hands started watching him pound her , can I be next. Listening to all the comments Manuela fully crying now had tears streaming down her face over her gag. The dog finally freed himself from her after twenty minutes of fucking her and being tied together. Some of the other passengers restrained the young mother and urged her son to take his place between Manuela legs. Sticking his teenaged cock into Manuela's dog cum soaked cunt he fucked her until his ejaculation and her orgasm. The next person a young teenaged girl knelt down between her legs and thrusting her hand into Manuela's pussy started fist fucking her while the passengers continued to stream this live action sex show directly to a porn website on the internet. Then the blind man said , now that my dog has had her can I take a turn. Go head he was told so he pulled out his already hard cock which was a good fourteen inches long and about three inches around stepping up to her he placed the broad head of his dick on the entrance to her vagina and slowly pushed into her sliding inch by inch deep into her womb.

Once he was balls deep he started pumping into her as rapidly as he could. Manuela's agonizing screams muffled by the gag could still be heard by the nearby passengers as the blind man continued to ravish her defenseless pussy. She sighed in relief as he ejaculated until he moved to her asshole and shoved into her. He laughed as he said , sorry no relief for you honey I took a Viagra earlier I'm good for awhile as he fucked her asshole finally finishing and leaving it and her pussy gaping open moved to her head removed the gag but before she could scream shoved his still engorged cum and shit coated penis into her mouth and down her throat , almost dislocating her jaw. Fucking her face until he ejaculated for the third time he stuffed his cock back into his pants he zipped up his pants he patted her on her head saying , good bitch well done. Sniffing she was finally allowed to stand up when one of the passengers said , we know who you are and we were careful not to put your face on the internet so unless you want to become a viral porn celebrity you will do what

we tell you. Still sobbing Manuela said , okay what do you want?

The young man who seems to have become the leader responded with , you will ride this bus every night from now on and do what ever we want with enthusiasm. Sobbing Manuela bowed her head in defeat and in acceptance of her fate. The blind man said fine then this is our stop follow me and she followed him , his guide dog , his teenage son and daughter and his wife off the bus and down the block to his large home. Entering he told her to completely disrobe leave he clothes folded neatly on the table by the door. Once she had done this he placed a collar around her neck and followed the family into to living room. Everyone went about their business, the mom and daughter started dinner , dad sat to listen to the news on the television with his guide dog. The son sat to watch television and asked his father if he and his sister could throw a party tonight so their friends could play with the new toy. Hearing this Manuela said please master no don't do this starting to sob she begged and pleaded to no avail. She again bowed her head when the father said yes I believe that will break her in perfectly. The son and daughter high fived each other celebrating the event about to happen. That evening started a new chapter in the life of Manuela Arbeleaz.

### **Manuela Arbeleaz becomes my lover**

I had fallen in love with Manuela Arbeleaz the first time I saw her on the price is right. She is a beautiful Columbian goddess standing five foot seven inches. Her skin is soft , smooth , clear and the color of coffee with just a dollop of cream to lighten it. She stands on petite dainty feet well formed usually with dark red shiny polish on her toenails and this polish is also on her fingernails. Manuela's legs are long , strong , and toned her vagina is clean shaven smooth and her nether lips are usually open like the petals of a blooming flower bearing the slight wetness of morning dew hiding her near constant state of arousal. Her physically fit body shows through her flat toned abdomen displaying an almost six pack. Her breasts are perfect not too large and not too small being at the far end of b-cup size that are firm and are topped by dark half dollar sized aureoles and dark eraser sized nipples.

Her long smooth neck holds up an oval shaped face with a rounded pointed chin , full , kissable lips usually bearing a dark red wet looking lipstick. A small nose sits in the center of her face that matches her nicely rounded ears. She has black oval eyes with perfectly maintained thin eyebrows and long eyelashes. Finally her silky , straight , black hair frames her face and cascaded down her back to hang just above her ass which itself is nicely rounded and firm. Manuela's voice is soft and melodious and when I surprisingly had the chance to meet her I grabbed that chance with both hands. The price is right held a contest that I entered never expecting to win but as the lottery says "you have to be in it to win it" so I took a chance. The prize was a weekend with Manuela Arbeleaz at a place of my choice plus ten thousand dollars.

I almost forgot about it but then I received a letter in the mail that I had won and asking where I wanted them to send Manuela and I. I mailed back my response and where to deposit my prize money. I told them I wanted to go to a small little known island that was part of the Hawaiian islands and arranged for three quarters of the money to go to taxes and used the rest for what I might need during my fantasy weekend. I finally received the tickets and info on going to my chosen island and traveled there arriving at the hotel on the island on a Friday afternoon settling into the assigned suite. That night my dream girl arrived and settled into the suite with me , separate rooms of course. We had a nice dinner that night and got to know each other. That night a horrible severe storm hit all of the Hawaiian islands we stayed together in my room comforting each other as the storm ripped apart the islands buildings.

Thinking we were going to die we started kissing passionately and our hands moved over our bodies exploring them searching out all of their secrets. Perhaps now would be a good time to describe myself so you can understand why I believed this to be a once in a lifetime miracle. I'm a fifty eight year old male six foot four inches that had a large frame weighing in at around four hundred twenty five pounds and health issues too numerous to list. Not handsome but not ugly I had spent my life in the friend zone with women and now here I was making out with who I considered one of the world's most beautiful women. Slowly we moved from base to base I waited for her to make that move and finally we arrived at the home plate as I removed her last piece of clothing slipping her red silk panties down her legs to pool around her feet I looked on heaven as her pussy was exposed to my eyes.

I lay back on my back and told her she was in the driver's seat and she straddled my lower torso placing my hardened and stiff eight inch cock at the entrance to her pussy and sliding down onto my shaft she took my cherry gently at first. As she moved up and down on my dick as I reached up and began to run my hands over her breasts , pinching her nipples pulling on them as if I was milking her breasts surprisingly milk squirted out and Manuela sobbed , now you know my secret I'm pregnant and no husband the father ran as soon as he found out. I pulled her down into my embrace and said , foolish girl if you need someone to be your husband and your child's father I would happily take that position if you would have me. Yes of course she yelled and with her worries relieved me made mad , wild , passionate love for that entire weekend. When the workers arrived to rescue us from the storm's wreckage we announced our betrothal to the world. I moved out to her home in Hollywood and settled in to a quiet life then one night I found her crying and she asked me if I really loved her I told her yes what makes her doubt my devotion.

I found out today that I lost the baby so you don't have to marry me now. She looked at my face and cowered back from me , I told her to strip naked and she did then I told her to lay across my lap , sobbing fearfully she did. I started spanking her bared ass emphasizing each word with a sharp slap to her rump slowly turning it a bright red. Girl I never had to marry you I was doing it because I love you if you ever doubt my love again you won't be able to sit for a month do you understand me finishing with a final slap delivered on her cunt as I flipped her over on my lap. Crying openly now she said I understand and love you too. Now who told you you lost the baby , no one I had my period this morning. Foolish girl go get checked out at the hospital. Manuela did and she came back overjoyed explaining that it was nothing she was still pregnant with twin girls.

There never jump to conclusions do you see what it gained you , yes she said an extremely sore butt. We spent the next couple of months experimenting with sex until the doctors told us to stop. The first thing we did was find a teenaged girl and had her slide her small hand into Manuela's vagina and making a fist masturbated Manuela to a climax driving her fist rapidly into her cunt. After that Manuela wanted to try something unusual so I stripped her and tied her up over an ottoman and brought in a young male and female mastiffs enticing the male to mount her and then getting the female to lie down under Manuela's face and spreading her back legs allowing Manuela to lick her exposed cunt to an orgasm. When the male dog was knotted from her I shifted him so he fucked her up the anus even though she begged me not to she had never done anal but after a bit she loved the anal fucking by the dog.

During this time I enjoyed her oral attention she gave my penis as she would take me into her mouth and bring me to an ejaculation swallowing every drop of my cum. We knew that we couldn't do too much or go too far publically due to her fame but one quiet weekend I dressed her in a short black silk skirt and a sheer white silk blouse and we went to the local mall where I had her walk into the mall's arcade and she started playing a video game , bent over the machine her dress attracted the attention of a group of teenagers. The fourteen year old boys and girls moved in on her two girls stood on either side of her grabbing her wrists and holding her there placed their legs in a position

to force her legs apart and pulling up her skirt and tucking it into her waistband exposing her pussy and anus to those people in the arcade.

Manuela sobbed in humiliation as one boy moved up behind her reaching around and unbuttoning her blouse pulling it open exposing her tits and tucking her shirt into her waistband and the pulling out his cock jammed it into her cunt fucking her unmercifully to an orgasm. They took turns until all eight boys had been satisfied and they left her to straighten herself up and she left the mall with cum leaking from her abused gaping pussy and down her legs into her shoes. Getting back to the home I got out the garden hose and turning on the water pushed the nozzle into her pussy spreading her lips and filling her abdomen with water and then pushing it into her anus cleaning out her bowels as the water and shit poured from her. Many more sexual adventures were had by us but we finally had to stop or risk the babies. We spent our lives happily in love and enjoying each others bodies.

### **Manuela Arbeleaz goes to the beach**

Manuela Arbeleaz had decided to enjoy the day so she packed a basket for lunch , a blanket to lie on and put on her new pink string bikini on under her clothes. She put everything in her jeep and headed for her favourite beach when she arrived there she saw it was packed so she headed farther up the coast until she found a stretch of unoccupied beach. Parking on the sand she unloaded everything and headed downtown find a place to set up. She found a nice place and lay out her area and stripped down to her bikini and lay down on her blanket. Manuela lay there for awhile occasionally turning over so she would tan evenly when she heard a group of people coming up the beach towards her. Looking down the beach she saw a group of nine teenagers come around some rocks along the waters edge past the sign with the beach name and warning "Haunted White Sands Beach CAUTION be wary of sudden tidal surges will flood area".

Spotting her they veered towards her and stopped near her spot. One of the young women spoke up , I know her she's one of the women on the price is right. Yes I am , Manuela said can I help you? They regarded her a bit before answering almost making Manuela uncomfortable as they stared at her. What they saw was a beautiful Latina with smooth , soft , clear , dark skin petite shapely feet , long toned legs , a groin barely covered by a scrap of pink cloth trying to be a thong bikini bottom , a flat six pack abdomen , small firm full b-cup breasts covered by another scrap of pink cloth of a bikini top , a long neck with a beautiful oval face with lush full lips a small nose and ears to match beautiful dark eyes with long lashes and trimmed maintained eyebrows and long silky black hair.

Yes one of the young men said when he finally answered her and they fell upon her , two young women grabbed her arms and held them above her head spread out on the ground. Two more did the same to her legs sitting on them to hold her in place. Two of the young men tore the suit off of her body exposing her pussy and nipples to the others. The last three a young man and two young women stood back observing Manuela's capture , the one young woman dropped down between Manuela's legs and coating her hand with a greasy substance jammed her hand up into Manuela's cunt and began fist fucking her.

Manuela started to scream but had to stop when the young man straddled her face and shoving his penis into her mouth and down her throat deep thrusting her. Once the young woman finished fist fucking her she spanked Manuela's ass until it was dark red , each of the young men then took turns fucking her pussy , and her anus. Not to be left out the young women forced her to lick their pussies until they climaxed. When they finished with her they tied her down over a smooth rock on her hands and knees then left her helpless for anyone to find. She lay there for hours and the only ones

to find her were seagulls that becoming use to her yelling at them would land on her and peck at parts of her body looking for something to eat. She really hated when they pecked at her pussy and anus causing her to whimper with desire for a more active molestation from them

Yelling for help Manuela was about to give up hope when she heard someone approaching but soon found out it was a pack of beach dogs. They came right up to her and started sniffing her pussy and ass. The alpha liked what he smelled, it was the bitch in heat musk they smeared on Manuela when the kids initially found her. The alpha approached her and mounted her causing her to scream when his large member invaded her vagina pushing past her nether lips deep into her womb. He pumped into her without mercy until they both enjoyed climaxing. He then switched to her asshole splitting the cheeks of her amusing the end filling her bowels with his spunk. Each of the five male dogs took their turn exhausting Manuela with multiple orgasms her juices gushing out coating the rock she was spread out and tied down on. They filed her body with their doggy sperm. She cried realizing she had never felt anything like it in her entire life and desperately never wanted it to end. After hours of this she passed out and when she woke up the dogs were gone.

Luckily Manuela was found a few hours later by a beach patrol. They took her to the hospital for treatment and the hospital released her the next morning. Many nights afterwards her sleep was disturbed as she dreamed about those young people and that pack of horny dogs. Manuela visits that section of the beach as often as she can hoping to repeat the experience but so far to no avail she figures the young people and dogs have moved on. What she did not know was that the young people and the dogs were the ghosts of a group of young people and dogs that had gotten trapped on that section of beach twenty years before by a sudden tidal surge flooding the beach.

The beach patrol found no evidence of anyone else on that beach and even the ropes that supposedly tied Manuela down were not found only her braided wrists and ankles supported her story, that and her two gaping holes that took a week to return to normal. The beach patrol searched that section of the beach after she was taken to the hospital and no foot prints were found on the beach other than hers and the beach patrols.

### **Manuela Arbeleaz a normal work day**

Manuela Arbelaez arrived on the set of the Price is Right early that morning. She found the outfits for the days taping the first was a skimpy two piece bikini. After donning it she found it to be very revealing barely covering her assets. She was about to change into another suit when the call to the stage went out. Manuela stepped out in front of the audience and remembered that it was teen week. She looked out on an audience full of sixteen year old boys and girls. She read the \*\*\*\*\* for the shows first fifteen minutes and found she was showing the first item down in contestants row. She heard the announcement start and grabbed the bottle of lotion and walked out to the first contestants with a smile and the bottle of lotion. Manuela stepped between two teenaged girls holding the lotion up as Drew told everyone what she held. She popped the bottle open and went to squeeze some into her palm but over did it and squirted a large amount all over one of the two girls. She tried to apologize and started wiping up the lotion but her ring caught on the girls strap pulling her top to the side exposing her breast.

Oh you stupid bitch you will pay for that and grabbed Manuela. The two wrestled ending up on the stage where the other young girl joined in. Manuela found herself being held spread eagled on the stage by the two girls and the two boys. The girl with the lotion bottle stripped Manuela's bikini off of her and shoving the lotion bottle up into her pussy squeezed a large amount of lotion into her vagina then did the same to her rectum. Manuela whimpered please stop I did not mean to

embarrass you. Her only response was an ugly laugh and a small hand at the entrance to her vagina that was suddenly shoved deep into her womb. Manuela gasped as the hand was repeatedly shoved in and out of her until she felt an orgasm overcome her. She turned bright red as her most intimate juices sprayed out of her onto the closest audience members. Her embarrassment only increased as she watched the young people tasting her juices.

One young man approached her supine form and dropping his pants and shorts unveiled an eight inch long cock which was not incredible but the fact that its girth was almost four inches. She paled and started sobbing saying no that will never fit. A young girl laughed and said to her it should didn't you just pop out a kid recently that's smaller than a baby. Manuela screamed as the cock spread her nether lips and went balls deep into her vagina. Then he started pumping rapidly into her bringing her to a massive climax. What was worst is hearing one of the producers asking if they were getting it all and streaming it to the porn channel. Manuela lay there as she was fucked by one person after another she even recognized some as crew members. When Drew and George Gray double teamed her she felt her spirit breaking. The final straw was when they brought out the dog of the day and positioned her so he could mount her. When his knot finally released her she collapsed on the stage.

Manuela lay there exhausted in mind , body , and spirit when she felt a cold nose press against her vaginal entrance. Then a tongue forced it's way between the folds of her sex. She sobbed as it continued lapping at her wet cunt and she felt her body responding. She spread her legs to give the animal easier access much to her shame. In front of thousands of television viewers she moaned with pleasure as the dog licked her. Then she watched as Rachael Reynolds brought another dog over and forced the female dog to squat over her face and told her there bitch eat out this bitch. She finally gave in and pleased the dog. The audience of teenagers came forward and began taking turns fucking her. Amber Lancaster lay down stretching her naked body out on top of Manuela's.

Manuela cried when she felt the vibrating dildo enter her pussy and Amber announced that she had waited for years for this opportunity. By the time it was over Manuela's body was destroyed. Her vagina and asshole were bright red from friction burns , her breasts and nipples were raw from molestation. Her mouth , jaw , and throat were sore from use. Manuela's stomach was distended by all the semen in it. After awhile Rachael and Amber got her up and took her to their room. They showered her clean then Amber pulled out a bag and took four giant tootsie roll sticks out. They bent her over and shoved all four into her rectum. Manuela whimpered but then she felt a large jaw breaker pushed into her asshole moving the tootsie rolls deeper. A second was pushed deep into her vagina.

Twelve more followed the first and she felt and smelled cherry gel smeared onto her breasts and nipples then rubbed over her groin. The two women took her to a back stage exit into the alley at the buildings rear and after writing on her body "enjoy , this is candy girl" they pushed her out and shut the door on her. Manuela suffered two days of attention by alcoholics , drug users and , anyone who found her in the alley. After this she was still the most popular of the price is right girls but for a completely different reason. Rachael and Amber forced her to wear embarrassingly revealing clothes that would show the audience glimpses of her body. They would also between takes sit her on the stages edge fist fuck her and offer the audience tastes of her cum. This did not sit well with her husband who divorced her when she refused to quit the show. The two women even brought on a donkey that fucked Manuela and this became a regular thing on the show since it was so popular.

~~~~~

**Manuela Arbeleaz best day on the price is right**

Manuela Arbelaez woke up that morning showered and dressed for work. Eating a quick meal she headed for work never expecting the day she was about to experience. Arriving at the studio she dressed in the first outfit left out for her and headed for the stage. The audience was filled with senior citizens then remembered it was senior citizens week. The crowd cheered when she stepped out dressed in a tiny purple bikini that barely covered her. She blushed as she picked up the tray with the first item and joined bidders row.

She stood between the four contestants holding the tray when she felt the two women on each side grab her bikini bottom and violently yank it up it spread her nether lips as it pulled up into her cunt. They began bouncing her up and down which soon brought her to climax. Her face darkened with embarrassment as her juices ran down her legs. The crowd watched this and noticed that her nipples had swollen and hardened. The women at her sides removed her top and bottom they had trouble removing her bottom and had to saw it back and forth finally pulling it free.

Her legs became weak and rubbery so the two women assisted her up onto the stage. Where they were met by Amber Lancaster and Rachael Reynolds with the days pet to be adopted. A large bear like dog the two women lowered her down onto her hands and knees. The dog smelling her arousal moved into lick her wet pussy and then mounted her. Moving away the women around her watched as Manuela was fucked by the dog as did most of the country as the shock of this event froze the staff in the control booth.

This being a live show her humiliation was broadcast with out interruption. Manuela screamed as she was brought to a massive orgasm. Manuela sobbed realizing what her fans were seeing but cried even harder when the old men in the audience joined her on the stage and the first old man at eighty lay down on the stage with his large cock out and she was lowered onto his cock which slid into her anus and pushed her down on it. She was laid down on him and a second old man straddled her groin pushing his hard member into her vagina.

Then an eighty year old woman knelt down with her bare , wrinkled , old cunt pressing down on Manuela's mouth and holding her nostrils shut told her to start licking or she would cut her nipples off. Sobbing Manuela began licking the pussy resting on her mouth. The old woman moaned with pleasure as Manuela licked her honey pot bringing the old woman to climax. The old woman rose off of Manuela and an old man took her place pushing his large cock between her lips and the fourteen inches went down her throat. She gagged as his penis filled her throat and he began fucking her face.

The woman standing off to the side told her that she was one hot Latina and everyone of the fifty two old men in the audience were going to experience her firm young body. When done the audience left her laying on the stage a puddle of cum growing around her as it drained from her abused gaping holes. She whimpered feeling how sore her anus and vagina were from the pounding they had received. Manuela finally gathered the strength to roll over onto her stomach and rose onto her hands and knees.

The dog seeing this ran to her first and mounted her for a second go at her. Manuela felt the large dogs oversized cock slam into her poor abused cunt and he machine gunned her cunt pushing his knot into her locking them together for over half an hour. Manuela secretly adopted that dog later taking it home so she could enjoy his love making daily. After that day Manuela expected her career to be over but she was more popular than ever. The dark skinned Latina experienced more orgasms that day and when some of the audience took her too a local bordello and made arrangement to rent her out.

She was fucked by over five hundred men over the weekend counting those on Fridays show. She

showed up Monday morning at the price is right where the crew watched a porno of Manuela's weekend. She sobbed as Rachael and Amber told her that from now on they controlled her and handed her a very sexy revealing outfit which she donned. The show experienced an up surge from that day onward especially with the audience members being invited to fuck Manuela.

This happened before and after every show as audience members lined up for a chance to fuck the beautiful young latino woman. Manuela was filled with the white cream material of many men. She experienced orgasm after orgasm which caused her to feel embarrassed. What really caused her to be ashamed was when a group of six women used her body. One woman holding down each limb then one woman pushed her hand up into Manuela's cunt and pumped her arm in and out of her ramming it into her cunt up tpast her elbow.

She would have screamed but she currently had her mouth covered by a wet pussy. Manuela screamed as she was fisted feeling the arm drive up into her womb. Stop she begged but they continued to abuse her and laughed as they saw her actually enjoying the abuse.
