BEASTIALITY STORIES

My friend and I had been talking about our ultimate fantasies for some time now. One day, he called and told me I needed to not plan anything for the following week, but he wouldn't tell me why. He picked me up the following Monday, and we drove to an area I was unfamiliar with. There are ranches lined up on the road we travel. It was beautiful scenery. We finally pull into a gate and follow the road deep into a wooded area. Suddenly, it opened up, and there was a beautiful ranch house, barn, stable, and corral. We drive up to the ranch house and stop, and a very nice-looking man meets us. My friend gets out and walks over to the man, and they talk for a minute. My friend's friend returns and drives down to the stables. He tells me to follow him. We walk into the center of the stable and I see that an apparatus is set up. It looks kind of like a barrel on four legs with a sheepskin tail over it. There are leather straps attached to the legs. I notice what appears to be an enema station set up at one end. My friend instructs me to get undressed and climb onto the barrel.

I do as told. He straps my feet and hands onto the legs and blindfolds me. I feel him lubing my asshole with his fingers and then feel something small in diameter enter my hole and feel lube being pumped into me. Then I feel a larger diameter tube go in, and suddenly, warm liquid is being pumped deep into my colon. The tube is pushed deeper and deeper into my colon. He leaves me for about an hour. When he returns, he says, "That should have you good and clean for what you're about to happen."

He pulls the tube from my hole, and suddenly, I hear distant male voices getting closer. They sound jolly as they enter the stable, and they all start commenting on how much fun they will have with my hole. I learned later that about a hundred men showed up for the event. Apparently, they were lined up waiting for their turn in me. The men all fucked me bareback and filled me with their horny loads. There must have been requirements for being invited since all of them were well-hung. I would have to say that no cock that fucked me was under 8". Some as big as 12". I was always a size queen, so I was in heaven. The men fucked me for over 24 hours, taking turns.

I lost count of how many loads I took in that time. Suddenly, I heard dogs barking, and from the sound of it, they were all big dogs. I was told later that there were German shepherds, wolves, mastiffs, and collies, and there were 20 of them. I hear something going on in front of me, and then I smell a strange scent. Turns out an in-heat bitch had been placed in front of my face, and I was instructed to eat her pussy. The male dogs went nuts smelling her pussy and started fucking and knotting me. Their cocks were huge without the knots, and when their knots swelled up inside me, it felt like they were splitting me open. The dogs had their way with me for the next day and a half. Each one knotted inside me for over an hour. Every time one pulled out, another was plowing into me with merciless pounding. When the dogs were all done with me, I heard the men all gathering around me again.

I felt a hand enter my hole, and lube was being steadily applied to the outside and the inside of me. I felt the hand going deeper and deeper into my body until his arm was shoulder-deep inside me. He started fucking me with his arm making long deep strokes. He would pull out, and I would feel more lube being pumped deep into my colon. The men took turns fucking me with their arms for the next two days, sometimes doing rapid-fire punch-fisting as deep as they could go. After all of this was done, my hole was a sloppy, loose mess. I suddenly felt the barrel changing position. I heard multiple hooves of horses around me and smelled a familiar smell in front of me. It was an in-heat mare they had positioned in front of my face.

I was instructed to eat her pussy. I always loved eating mare pussy and dove right in, not realizing what was about to take place behind me. Suddenly a stallion mounted me and drove his huge cock balls deep inside me. Now I understood why the men were all fisting me so deep. It was to prepare

me for these untamable beasts that were about to use me without mercy. One by one, 20 large, well-hung stallions plowed into me as deep as they could go. Some of their cocks must have been 3' long and 3" diameter. I was in heaven eating this mare pussy while being fucked like never before. The stallions fucked me over and over for the next two days.

I was a wasted mess by the end of it. What I was unaware of was that a bucket had been placed under my hole to catch all of the cum that poured out of me. One of the men said that he had a surprise for me and placed a funnel in my mouth and started slowly pouring into the bucket of cum in it. He made sure not to pour it too fast since he saw how much I was enjoying drinking it. After I had drank all the cum, I was untapped from the barrel, stood up, and the blindfold was removed.

In front of me were 100 beautiful specimens of men with beautiful cocks, 20 huge dogs, and ten enormous stallions. All with hard ons and what appeared to be ready to go again.

I told my friend, "Strap me back down, and let's do this!!"

The End
