BEASTIALITY STORIES

CHAPTER 1 - INTRODUCTION

Well, if my wife, Melissa, knew I wrote this, even under a pseudonym, she would kill me!

This happened three years ago during our last university year. We have been engaged for two years, having exclusively dated soon after meeting during our freshman year. We both entered the university having completed advanced college placement courses during high school so we were on a three year graduation plan.

Due to a bad incident during high school, let's just say Melissa was very sexually inexperienced until she met me. After her bad experience, Melissa is one of those rare young women in today's age who vowed not to go 'all the way' again with a guy until she was sure he was the 'Right One' - and I was he!

Melissa is five feet eight inches in height and enjoys daily intense workouts that keep her 125-pound lithe body in flawless form. With her alternate days of weight training and five mile runs, she is the rare combination of being an incredible beauty with impeccably toned muscle; from her shapely legs to her cute ass cheeks that are as hard as steel, up to her ripped abs from daily 400 stomach crunches. A narrow waist slightly flares out to slim sexy hips, with a 34DD bust and slightly tilted up breasts that are so firm that people mistakenly think she has implants! Her breasts are topped with tiny nipples and barely existent areolas. Melissa has long cinnamon hair with bright emerald green eyes. When we go to float the San Marcos or Comal River or go to the beach, wearing her string bikinis, Melissa always draws envious stares!

A bit about me, I'm a rangy six foot three inches, 210 pounds, broad chest with muscular shoulders and arms. I've never had problems getting dates and have been told I'm quite attractive. I'm modest, but I guess landing Melissa proves what the girls have told me, I'm attractive and personable!

My parents have a sizeable ranch in the Texas Hill Country where they raise Wagyu cattle and have some horses, they also are engaged in wildlife conservation and enhancement. When I entered in high school they had a free-form infinity swimming pool built on the slope just below the ranch house, with the entire shallow end wall being thick plexiglass so you can enjoy the view of the hills even under water!

The pool area at my parents ranch was where the incident occurred...

My parents had planned a getaway away one weekend and asked for Melissa and I to stay at the ranch to keep an eye on things and take care of the stock. It was a Saturday and a UBER brought Melissa's three best friends and future bridesmaids out to the ranch in the late morning. Even though it was over an hour from Austin to the ranch, we knew the girls would be in no shape to drive home after a day spent lounging around the pool eating and drinking, plus they had to get back to Austin because they had plans for Sunday. In past trips they would usually spend the night so I can take everyone horseback riding. Chicken and beef fajitas was on the menu to feed everyone that I would cook at the outdoor kitchen and grill situated by the pool.

After Melissa's three best friends arrived, Melissa and her three girlfriend went to change into their bikinis. This is where I got my first shock of amazement...

Melissa emerged first, wearing a micro-bikini! The itsy-bitsy triangle top just barely covered her areolas, leaving to complete view the rest of her amazingly firm DD breasts! The G-string bottom featured a micro cut at the front with a string-back for an extra naughty look which enhanced her

fully exposed cute firm ass cheeks!

My fiancé started laughing at my jaw-dropping expression! Melissa always wears a modest string-bikini when we go to one of the rivers or to the beach because she gets stared at along with unwanted come-ons enough as it is!

“Don’t worry honey, I’ll only wear this at the ranch – and only when your parents are away!” Melissa laughingly stated!

Then her three gorgeous best friends came out...

Again my jaw dropped and all four started laughing at me!

While none of the three were quite as daring to wear a micro-bikini as Melissa was, they all were wearing way more skimpier bikinis that I have ever seen them wear before!

The bikinis they were wearing were Brazilian style with way less than modest triangle tops with small tri-back thong bottoms. The style exposed a whole lot of breast and ass!

They finally took mercy on me by explaining since my parents were gone they would be a bit daring, and never in their right mind consider wearing something as skimpy as these bikinis in public!

Sorry for the long introduction but I had to set the stage for what happened.

I cooked fajitas for lunch with all the fixings, they ate, but more, I lost track of the number of pitchers of mojitos I made for them throughout the day...

By the end of the hot day all four were silly drunk. During the day I caught extremely intimate views of all four of them with untied string bottoms and tops as they shifted as they laid sunning themselves or horsing around in the pool with each other – seemingly heedless of what was being exposed! Especially when they were horsing around in the pool... those miniscule bikini tops did not stay in place! Especially Melissa’s!

I reminded myself to go erase the digital recorder from the 8K ultra-high definition low light capable surveillance camera that covered the pool. My parents had the camera installed after a fawn wandered in and fell into the pool and could not get out. Luckily the fawn’s cries and a worried momma deer alerted my mom who rescued the fawn. Near six PM, Melissa’s three best friends went in to change, stumbling badly as silly drunk they were, and the UBER driver arrived at 6PM to take them back to Austin.

Once Melissa’s girlfriends left, with a twinkle in her eye, Melissa took me by the hand and led me back down to the pool area, discarding her barely there bikini top along the way! By now, I well knew the effect the combination of hot sun and alcohol had upon my gorgeous fiancé! She gets extremely horny!

Melissa stood in front of a pool chair and with a sultry sexy look at me, she slowly untied the strings to her micro-bikini bottom letting them drop to the ground...

Then she eased into the chair and while holding my gaze (or rather my stare!), she then slowly lifted one long, lithe athletic leg over the arm of the chair, then did the same with her other leg, her wide-open legs an invitation to go down on her which she loves to have me do!

A few years ago, tired of shaving and waxing, Melissa had all her pubic hair removed by laser except

for a narrow hollowed out V design. Now that design seemingly pointed the way to her most erogenous areas!

I quickly grabbed a cushion off a nearby chair, shucked my board shorts off and knelt down and began going to town on her glorious sweet pussy! In just a few seconds of my oral ministrations her clit became swollen and fully exposed from her clitoral hood, evidence of how horny she was!

Her clit is larger than most women therefore has more surface stimulation area so once her clit gets hard Melissa really, really gets horny and physical!

After a couple of minutes, Melissa's caressing hand in my hair began to tighten as she started humping her pelvis into my face in her deepening arousal- a clear indication to start fingerfucking her insanely tight pussy with my long finger! Her grip upon my hair grew tighter and she began forcing my head firmly into her pussy, humping her pussy against my sucking lips. I could tell she was fixing to climax and this also was the second indication to also start finger fucking her tight ass too which drives her wild!

I am extremely fortunate that Melissa is multi-orgasmic so I knew this was just the beginning of a long sex session. Over the past few years I have learned that when Melissa has been drinking, our sexual sessions are drawn out, and she becomes even more wildly passionate and uninhibited! One time I counted her having fifteen body shaking screaming orgasms! There have been times she has dug red furrows down my back in her wildly passionate throes when I'm plowing my two inch thick, nine inch long cock into her insanely tight pussy!

Yes, I am gifted! Not only with height, being attractive and personable, but well-endowed than the majority of men! When we first started having sex, it took a few months for Melissa to be able to take all of me into her exquisitely tight pussy - and even longer in her tight ass!

~~~~

## **CHAPTER 2 - SURPRISE!**

Then, Bruno intruded...

Ah, I forgot to mention Bruno!

Bruno is my four year old male, 160 pound Rottweiler! He is so huge his shoulders are at 34 inches in height, bigger than most Rotty's! Being unneutered, as he is a prize winning show dog and is studded out, Brunos is a horn dog!

Bruno had been pestering the girls all day long...

Poking his snout in unguarded intimate areas made even more vulnerable by their skimpy bikini bottoms making them squeal and laugh as they repeatedly pushed him away. He would also jump in the pool with the girls and gently take them by the wrist and lead them back to the edge of the pool playing rescue dog. His flailing paws more than once dislodging their miniscule bikini tops to my great enjoyment!

Bruno began muscling his huge soccer-ball sized head besides mine trying to get at Melissa's pussy!

Now this hasn't been the first time he has tried to be more than intimate smelling a woman's pussy or her arousal...

There has been a few occasions when Melissa and I have been having sex and she had been riding me cowgirl style and Bruno has leapt onto the bed and managed to get in a long swipe of his tongue between her parted cute firm ass cheeks making her loudly shriek and roll off of me before he was commanded to get off the bed.

Then there was the one time he jumped up on the bed and had actually mounted Melissa when she was again on top of me and we both were just barely able to break his hold around her waist before he scored!

Afterwards, Melissa laughingly told me it was a near thing as she felt him poking his red rocket way too intimately close against her! Since then we have learned to place Bruno in his kennel or shut the bedroom door when we have sex.

Back to me going down on my fiancé with Bruno trying to butt in...

Melissa was near to climaxing. I don't know what suddenly came over me. I'm not naïve about bestiality, heard the stories, inadvertently been redirected to bestiality websites when cruising porn sites. Even Melissa has come across bestiality websites when searching for an adult movie for us to stream on our 120-inch 8K UHD smart television, surprisingly she would pause to look at what was being shown, sometimes laughing, before resuming her search for a movie...

I was suddenly curious what my incredibly beautiful fiancé would do if Bruno took over giving her oral...

Melissa was pretty damn drunk, extremely horny, and her inhibitions tended to diminish or evaporate when she was drunk and extremely horny, as she was now...

So, just when she was fixing to climax, I eased my head just enough so that Bruno was able to wedge his in and began long swipes with his powerful tongue of Melissa's uptilted pelvis from her tight anus up through her swollen openly parted labia and over her engorged protruding large clit! It only took two long swipes of his long powerful tongue and Melissa's experienced a screaming body shaking climax which went on and on as Bruno kept on tonguing her!

*"Enough! Enough!"* Melissa gasped out as her body quivered as she pushed Bruno's huge head away, only then realizing that it was Bruno that took her over the edge, not me...

*"What the hell??? What are you doing letting Bruno lick me???"*

Melissa asked in a shocked, slurred voice even as her body still quivered from her massive orgasm as I sat back on my heels.

*"I'm sorry honey, you know how strong and hardheaded Bruno is, he just shoved me out of the way and took over! Then the next thing you were cumming in one of the biggest orgasms I have ever seen you have by oral!"* I replied.

*"But, But It was Bruno!"* Melissa replied in a shaky voice.

*"Hey! As long as it stays between you, me and Bruno here I don't think it is a big deal..."*

You and I have come across this before on the Internet multiple times and we laughed about it!

You even told me that you had a couple of girlfriends that cattily talked about knowing some girls that had actually done it with dogs, and even more..." I replied.

“Yeah well, I guess, I guess I’m just so surprised how hard I came from it. I thought it was still you...

Now come fuck me with your wonderfully long huge thick cock!” Melissa commanded.

Melissa was still in the same position, both her long toned tanned legs up and over the arms of the chair she was sitting in, completely open, her swollen labia openly parted, her large clit hard and protruding, suddenly I realized how completely her wide open vulnerable position was as Bruno suddenly darted in and began licking her again!

“Ah No, No NO!!!” Melissa drunkenly gasped out!

“**AH, STOP, Stop... stop.... himmmm.....**” her protestations quickly dying away as my easily orgasmic fiancé was again overcome by the oral sexual stimulation in her weakened disinhibited drunkenness...

Melissa quit flailing in her chair, stopped trying to unlimber her long tan athletic legs from over the arm rests as she succumbed to Bruno’s long powerful tonguing...

Quickly I saw her taut, lithe athletic body began trembling, her chest and her firm bountiful DD breasts with diamond hard tiny nipples began heaving as her respirations increased, her pelvis started little humping motions as the beginnings of yet another orgasm began rising...

Based on Bruno’s past attempts, we shouldn’t have been surprised, but we were still caught unawares...

~~~~~

CHAPTER 3 - GIVING IN TO TEMPTATION

Just as Melissa was fixing to orgasm, Bruno stopped licking and jumped up on Melissa! His legs along her sides with his paws on the chair, her widespread legs draped over the armrests were on the outside of his thick stout body - she was completely spread open and vulnerable!

Bruno started gently humping, the tip of his cock out but not yet that close to her pussy.

“**AH! NO! NO! NO! Licking Me Is One Thing But Trying To FUCK ME? NO!!!**”

Melissa drunkenly shouted out as she struggled in her trapped position unable to stop, let alone prevent, what Bruno may do next!

“Easy, Easy Honey, He’s nowhere near your pussy!” I stated as I began rubbing her hard clit.

‘**Wha, What Are You Doing???**

He, He’s trying to FUCK ME!!!”

“Calm down honey, I knew you were fixing to climax when he jumped up on you, let me finish getting you off again rubbing your clit then I will fuck you like you wanted...” I softly stated as I kissed her.

I felt my fiancé’s taut body began to relax as she responded back hungrily kissing me as I increased rubbing her clit...

“*But, but, he’s still on top of me, humping...*”

“Bruno’s nowhere close to your pussy, he will get down eventually when he realizes his efforts are futile, he is not in a natural mating position, now relax and let me bring you off...”

“Uh, umm, *ohhhh*, yeah, just like that, *okayyyyyy...*” Melissa huskily responded as she further relaxed under my finger manipulation, then, I felt her hand encircle my raging nine inch long hardon and slowly started jacking me...

In about a minute Melissa started moving her pelvis in response to my fingers playing with her clit, her hand also started getting more physical jacking my cock..., a few more seconds passed and she began moaning as another burgeoning orgasm began building inside her...

Bruno was still in position above Melissa, still fruitless humping air, I didn’t not know how much longer he would stay in this position but Melissa’s acquiescence to a huge male dog hovering above her trying to humped her piqued my curiosity even further...

My gorgeous fiancé was incredibly horny at this moment...

Drinking as much as she did her inhibitions were down, and she was on the verge of yet another orgasm...

A crazy thought, a really crazy idea popped into my head of something to say...

Things would either instantly stop or get really interesting...

“Honey, I bet it would feel really fantastic if you let me rub the just the tip of Bruno’s hot cock against your hard clit, and it would also feel even more wonderful for you if I jack him some so he starts blasting hot precum against your clit...” I whispered.

When my fiancé did not immediately erupt in outrage, I waited, and waited...

After a long moment, Melissa softly replied “*oh..., okay..., but no further...*”

Softly I whispered for her to scoot further down in her chair, after a few hesitant seconds she did so, bringing her splayed open pussy closer to Bruno’s seeking red rocket...

I grasped his sheath and jacked Bruno a few times making more of his substantial cock emerge to where I could rub the tip his cock against my fiancé’s’ swollen protruding clit...

Upon initial contact of his hot animal hardness against her clit, Melissa briefly tensed up. But as I rubbed the tip of his cock against her swollen protruding clit, in just a few seconds, Melissa relaxed again as the inhumanely hot cock tip stimulated her hard protruding clit...

About half a minute later of rubbing the tip of Bruno’s cock against her swollen clit, Melissa started little pelvic gyrations, evident that she was getting into it and becoming even further aroused!

Then about another half minute later Melissa actually started slightly humping the tip of his cock a bit!

Humping it just so as to keep the tip in the upper half of her pussy but keeping the bottom half and her incredibly tight vaginal opening safely away.

Melissa’s eyes were closed, she began softly moaning more, then I saw her raise a hand and started tweaking one of her tiny hard nipples in increasing arousal, amazed as I watched her pelvic humping started actively increasing a bit more yet...

I started jacking Bruno's cock sheath to get him to start squirting precum. Bruno quit humping and stood still while I manipulated his cock sheath and more and more of his cock started showing from his sheath and noticeably swelling in size. Several seconds later he started explosively blasting out his first shot directly impacting my fiancé's hard protruding clit!

Feeling the jetting hot wetness blasting her swollen protruding clit instantly Melissa let out a loud moan feeling it!

Another powerful squirt then another and Melissa's splayed open pussy was saturated and dripping precum! Precum flowing down the valley of her openly flowered swollen labia then coursing over her tight anus!

Astounded, I watched mesmerized as slowly Melissa tilted her pelvis upwards a bit more! Began humping her pelvis more earnestly! In doing so inadvertently sliding the tip of Bruno's cock a bit closer downwards toward her tight vaginal opening! Each time she felt a blast of hot precum against her gorgeous hairless pussy she moaned, a bit louder then louder with each successive blast...

Melissa began getting ever more vigorous humping her pussy against Bruno's swelling cock as she became ever more stimulated in her alcohol reduced inhibitions! Actually sliding her pussy up and down his protruding shaft! Then, the tip of Bruno's precum squirting cock came down to where just the tip was against her tight vaginal entrance..., hot precum blasting directly against her entrance! In an instant response Melissa moaned loudly than before and she began humping her pelvis even more!

~~~~~

#### **CHAPTER 4 - NO GOING BACK!**

In stunned incredible horny amazement I watched as my fiancé humped her pussy against the slippery squirting tip!

Watched as her ever more vigorous humping began easing maybe just a quarter inch of the tip inside her!

Suddenly Melissa let out an even louder moan when an explosive blast of precum was directly injected just inside her insanely tight vaginal entrance!

In Melissa's incredible arousal my gorgeous fiancé kept humping the tip of his cock, easing a bit more into her! Another precum blast, a louder moan, now about an inch of hot precum squirting canine cock was inside her humping pussy!

My fiancé's incredible gorgeous body began trembling, her flat, muscular ripped stomach rapidly began fluttering, a precursor of the beginnings of an orgasm...

I gently touched her hard clit, began gently rubbing it...

Instantly Melissa moaned and humped her pelvis harder upwards!

Humping another inch of doggy cock into her tightness!

My incredible fiancé, in her drunk acute arousal, was heedless that she was now humping two inches of ever swelling precum squirting canine cock in and out of her wonderfully exquisite tight pussy!

I could tell she was near peaking..., I began rubbing her swollen clit a bit more, but then Bruno decided to no longer stay still while this incredibly beautiful woman humped the squirting tip of his cock in and out of her incredibly tight pussy...

Bruno began to gently thrust...

With all the precum that had been squirted inside her, four inches of squirting canine cock easily slid deeper into Melissa's tightly claspng pussy instantly causing Melissa to suddenly erupt with a massive orgasm! But then Bruno feeling my fiancé's spasming orgasmic pussy tightly squeezing his cock stimulated him too because his next thrust was not gentle...

~~~~~

CHAPTER 5 - OVERWHELMED!

Just barely for a flash of a second I caught Bruno's powerful hips bunch up before he unleashed a long powerful lightning fast thrust deep into Melissa! Nearly his entire cock drove inwards making Melissa jerk her legs up as she screamed out with another huge orgasm!

After that initial thrust, Bruno began pile-driving his ever swelling cock deep into my gorgeous fiancé's tight pussy!

Pistoning his swelling cock in and out with lightning speed!

Melissa's exceptionally extraordinary tight pussy began loudly slurping around the swelling canine cock as it brutally jackhammered in and out of her! Precum spraying out with each thrust evident of the copious amount being pumped into her!

In amazement I watched as my fiancé raised her arms up and tightly held on to Bruno's shoulders as she was brutally fucked! Even more amazed as I watched her having orgasm after massive orgasm!

Now Melissa and I have been quite physical having sex but I was never really rough, not wanting to hurt her with my nearly two inch thick, nine inch long cock, I always let her be as rough and as hard as she wanted it to be.

In stunned disbelief, and feeling a bit jealous, Bruno, with a furious rapid rhythmical cadence, was brutally fucking his canine cock into my fiancé's tight pussy! Each powerful brutal thrust causing Melissa's body to jump convulsively in the chair!

His powerful hips were like a jackhammer! Repeatedly slamming forwards, savagely fucking his ever swelling cock into the tightly clenching depths of Melissa's amazing pussy, whipping it out and brutally slamming his whole cock up into her pussy, again and again and again ripping one orgasm after another from my gorgeous fiancé...

Bruno's massive fleshy cock was plunging between Melissa's tightly clinging swollen pussy lips! He was stuffing all his lengthy cock into her tight pussy with each powerful thrust of his haunches! He was brutally fucking her hard and deep at an incomprehensible speed!

Melissa stunned me as I watched her violently climaxing yet again as Bruno continued his insatiable beastly assault! My gorgeous fiancé's earth-shattering orgasms exploding through her taut lithe athletic body were being prolonged as Bruno kept on pile-driving his huge cock into her like a fucking machine!

Completely stunned, I watched as Melissa began arching her pelvis even higher! Further tilting her ass up to better accept the ravishing canine fucking of her tight pussy...

Then I noticed Bruno beginning to develop his canine knot...

A growing, swelling, menacing looking bulge forming at the base of his now thickly swollen cock...

The swelling bulge brutally slamming into then being yanked out of Melissa's tight pussy with rapid thrusts and withdrawals!

It was plainly obvious that the growing bulge was further stimulating my gorgeous fiancé! Bruno fucking her so hard and fast with the now added stimulation of his slowly swelling bulge rapidly going in and out of her tight pussy that Melissa kept repeatedly climaxing! I quit counting her orgasms I was so stunned at how many she was having...

I realized it was too much sexual stimulation for my fiancé to resist - involuntarily or voluntarily! Let alone any other woman in a similar intoxicated situation!

Melissa couldn't resist repeatedly climaxing from the combination of the incredible sexual stimulation of the large canine cock brutally rapidly fucking her and the provocative sensation of his ever swelling growing bulge being rapidly repeatedly pushed in and yanked out of her tight pussy! Melissa's sopping tight sex was sucking and loudly slurping with each deep thrust, occasionally, Melissa crying out as yet another huge climax tore through her trembling body...

Bruno was now ramming into Melissa ever harder as his bulge continued swelling, now pushing the swelling bulge in and out of her dilating vagina with increasing difficulty, then, it grew too large to go in but still he persevered...

Powerfully, Bruno kept thrusting his hips forcefully driving a deep grunt from Melissa with each thrust, her grunts and sexual moans coming faster and faster with each quickening thrust. His still swelling bulge, currently the size of a lemon but still enlarging, began to get partially lodged ever deeper into Melissa's exquisitely tight, narrow vaginal entrance as her pussy continued to dilate from his hard thrusts. It took Bruno several more brutally pounding thrusts of working his still swelling knot against my fiancé's extremely tight opening before she started to dilate enough for the *knotting*...

Melissa began loudly squealing "**NO! NO!! NO!!!**" as she felt the huge bulge starting to dilate her vaginal opening like she had never been before! Felt her entrance being incrementally rammed open as if Bruno was a hydraulic press - and there was nothing she nor I could now do this far into it!

Bruno's bulge kept on visibly swelling! Her tight pussy entrance was now stretched about three quarters of the way over the ever expanding bulge before her extremely tight entrance reached the maximum it could openly dilate...

Bruno felt the strong resistance of her extremely tight entrance and *still* he humped her even harder!

Straining to get his ever swelling canine bulge all the way into her tight pussy!

Melissa began struggling out of her slouched position in the chair and stridently screaming as the bulge made her entrance strain so much that it was white around the bulge!

Then Melissa suddenly let out a piercing shriek as Bruno pushed inside her hard! Pushing the

swelling bulge at the base of his cock completely through the extremely tight entrance of my fiancé's spasming vagina - *KNOTTING HER!!!*

~~~~~

## **CHAPTER 6 - KNOTTED!**

Melissa's emerald green eyes instantly grew huge! Her entire body stiffened under Bruno as he knotted her! Melissa crying out in shock! Then loudly she screamed out as yet another body racking orgasm blasted her trembling body!

Instantly Melissa's vagina clamped down on his thick cock with the huge knot now fully inside her!

Clearly as the remainder of the invading dog cock and knot went completely into Melissa it had given her one of the most intense orgasm of her life that I have ever seen her exhibit!

Then Melissa began screaming, almost howling, as Bruno resumed pounding into her! Screaming in time with his pounding thrusts of his swelling cock...

**"AHhhhhh! NO, NO, NO! NOOOO!!!**

**He-he-he's Too B-BIGGG!!!"**

Then, Melissa froze me in place as she passionately screamed out a loud drawn out,

**OHHHHH FUUCCCCCKKKKKK!!!!**

**His Knot Is Getting So HUUUGE!!!"**

Then Melissa began loudly moaning over and over as Bruno's canine bulge kept swelling ever larger! Pushing his cock even deeper into Melissa! Then Melissa let out another orgasmic shriek! Bruno stopped drilling her so hard now, he began to pump his throbbing cock in short, sharp thrusts into her as Bruno began climaxing...

**"OH FUCK!!!**

**I Feel Him Cumming In Meeee!!!"**

Melissa yelled out, then astoundingly Melissa let out yet *another* orgasmic scream as her body visibly demonstrated she was violently climaxing yet again feeling Bruno explosively jetting his hot copious load deep up into her!

Melissa's taut lithe body was visibly violently trembling as she let out several deep

**"UHHHHH, UHHHHH, UHHHHH's!!!!"**

as Bruno kept on kept on fucking her with short thrusts as our huge Rottweiler kept on pumping his copious load into her... *still* fucking her even as he ejaculated, it seemed, *endless....*

I couldn't believe that Melissa had climaxed yet again!

Then more so! Shocked to see her swollen vulva begin visibly pulsating around the thickly swollen shaft that was buried in it! Involuntarily her vaginal sheath muscles were instinctively *MILKING* the ugly canine invader!

However, as the last waves of my fiancé's orgasm swept through her, I could see the shock setting in...

Melissa realizing that once again she had orgasmed - from allowing a huge dog to *FUCK* her and *KNOT* her and *BUST* his nut deep inside her...

"Are you ok, honey?" I hesitantly asked, feeling somewhat helpless...

My incredibly fiancé turned her face towards me, a stunned blank look upon her beautiful face realizing what she had done, what she had engaged in...

The only thing Melissa could do was just keep sitting there slouched in her lounge chair, with Bruno above her, tightly knotted to her, speared between her legs, his hugely swollen cock locked in her insanely tight cunt!

Melissa started crying as the full impact of what she had done, allowed to be done, even facilitated what had been done, hit her... what she *hugely* felt knotted *inside her*...

Melissa couldn't help herself from crying - yet gasping and moaning at the same time as every single motion rubbed her G-spot hard against Bruno's hugely swollen knot bringing forth intense sexual sensations she had never felt before...

All I could do was try my best to comfort her...

I could see by the reaction on Melissa's face that she could still feel Bruno's cock spasm from time to time, pumping even more animal cum deep into her sexual places. But the knot held her so completely that she could do nothing but sit in her chair.

However Bruno would not stay still, every several second's he was intent on testing to see if he could pull his hugely swollen knot out...

I knelt there beside Melissa caressing her as I watched Bruno trying to separate from Melissa, and each time Bruno pulled back she would yelp. Finally, his swollen bulge reduced in size enough to do so...

I was astounded as his still too enlarged bulge began stretching Melissa's swollen pussy lips open as it began trying to pull free - it was so fucking huge! I couldn't understand how Melissa could even pass something that big thru her extraordinarily tight vaginal opening...

**"UGHNNMMM!!!"** Melissa groaned and squirmed... Bruno pulling hard...

I looked between my fiancé's widely splayed legs to see her swollen labia rising outward as it was being pushed and spread apart from inside her body!

The sight of his hugely swollen knot pushing and stretching her tight, narrow vaginal entrance seeking release took on the kinky appearance of the birthing of his obscene penis as his still too swollen bulge began crowning at her opening...

Suddenly semen and pre-cum gushed, sprayed and bubbled around the still too huge orb with a loud squirting noise as Melissa's abnormally tight vagina finally began ejecting the intruder...

With his knot slowly, slowly passing out, Melissa grimaced with pain...

Then, a loud, slurping, sucking plop as Bruno's knot incrementally slipped from her tight vaginal

entrance...

Melissa crying out with one last scream!

Surprisingly it was oddly combined scream of pain and orgasm!

Melissa's tight pussy clung to the remainder of his immensely swollen prick as it slowly, sinuously emerged with a loud slurping noise, followed by another insane deluge of cum exploding out of Melissa's thoroughly ravished tight pussy...

Momentarily stunned, I stared at what had thoroughly fucked my beautiful fiancé!

I... I was *flabbergasted!*

Couldn't believe how *HUGE* Bruno's cock was!

The massive vein-ridged bloated redness that dangled garishly beneath him...

Knot and all, it must have been nearly *NINE* inches in total length!

The still swollen knot, now down to the size of a large lemon, seemed to punctuate its sexual power...

I couldn't even begin to understand how it was possible for Melissa to even pass something the size of a large lemon thru her abnormally tight vaginal opening!

Incredibility slammed me! Knowing that his knot had swollen to even vastly larger proportions inside her! That he'd managed to pull it from her exquisitely tight pussy without tearing her! That when he finally had pulled his knot out Melissa had climaxed yet again!!! I couldn't help but let out a sharp intake of breath,

"*Unreal...*" I softly breathed...

No wonder Melissa had been loudly moaning!

~~~~~

CHAPTER 7 - REGRETS

Suddenly, I was jealous!

While Bruno's cock was nearly the same length as my own nine inch cock, and my nearly two inch thick cock still had a much thicker girth than his - it was that blasted huge knot locked inside Melissa inexorably rubbing her G-spot that had caused Melissa to erupt in one of the biggest orgasms I had ever seen her have!

The thought of her ecstasy being the result of a dog using her for sexual gratification was more than a bit humbling...

Melissa silently sat in the lounge chair appearing totally exhausted with a glazed shell-shocked look in her eyes...

Her legs still splayed open over the arm rests, her pussy very swollen and red from the brutal pounding she had received, a trickle of watery dog cum oozing out of her pussy...

Slowly my incredibly gorgeous fiancé looked at me, still with that glazed shell-shock look...

I didn't know if her look was of a woman who had been thoroughly ravished who had experienced numerous orgasms, or the stunned look of a woman who allowed a dog to *fuck* her, who had precipitated a dog to *fuck* her...

It was the latter I instantly decided...

Melissa tried to get out of the chair, however she was so weakened by the experience I had to help her up...

As I helped Melissa to stand her pussy made a sudden squelching noise. I looked down and saw what looked like two rivers of watery cum flowing down both her firm inner thighs...

Melissa stood there swaying on her two feet. I had to grab and hold on to her to keep her steady.

"Honey, are you okay?" I asked.

"I, I don't want to talk right now..." My fiancé hesitantly replied in a very soft voice.

Instant alarm and trepidation instantly seized me!

I gently took her arm and helped Melissa unsteadily walk up the winding sidewalk up to the ranch house and into our bedroom, then into the adjoining master bath. She shut the door on me and a few minutes later I heard the shower come on. I waited in the bedroom for fifteen or so minutes but the shower still ran. I went back outside to clean up. I came back inside twenty minutes later and found my fiancé nude in bed asleep, it wasn't even 6:30 PM yet...

Then I remembered to erase the digital recording from the pool surveillance camera...

Just as I was going to erase the recording, a strange impulse came over me...

I uploaded a copy of the recording to my cloud account, then I erased the recording of the entire day from the digital video recorder...

I went to bed late that evening, worrying about the repercussions to come, at this point wondering if I even still had a fiancé!

Let's be honest, after all, I could have stopped Bruno from licking her - TWICE!

I then realized I was a real bastard!

Taking advantage of my gorgeous drunk and very horny fiancé to satisfy my weird curiosity how far she would go before she stopped me, or Bruno...

~~~~~

## **CHAPTER 8 - THE AFTERMATH**

I'm an early riser. I was in the kitchen fixing the best breakfast I knew how when Melissa quietly walked in and sat down without me knowing she was there. I turned away from the stove and I was startled seeing her silently looking at me. Before I could say anything Melissa softly said:

"You must think I am a *slut*..."

"WHAT! NO!!! Why would I ever think that? I know you're not! You have been completely open to me about your past! What happened back in high school. Hell, most girls these days haven't been and I'm extremely fortunate to have found you!" I replied, not knowing what else to say...

*"You know what I'm talking about..."* Melissa softly replied.

"I am so mixed up," she said, "so confused..."

I'm disgusted with myself because, because... not only did I let a dog go down on me, *I, I let a dog FUCK me..."*

"Melissa, I should be apologizing to you for not stopping Bruno from licking you!

We both know when you been drinking how wild and crazy horny you get!

We're both not naïve about what happened. We've come across it countless times while cruising the web for adult movies, we've even seen there are companies that make animal dildos! It is so prevalent on the web with actual movies, pictures, stories and cartoons it has to be a lot more common than most people think! And it has been on-going for centuries.

Besides, it's not as if it was another guy fucking you... which I would not ever, ever tolerate...

And at the time, you greatly enjoyed it - multiple times! Hell! I wish I had the ability to knot you to make you orgasm like you did!

*"It, it didn't bother you?"* My fiancé softly asked.

Sweetheart, the only thing that bothered me, I'm jealous that I don't have the ability fuck you as fast as Bruno did, to knot you myself, the ability to ejaculate as much cum as Bruno did or the force of it, or make you climax so hard and so many times!

"Well yes, all that is true..., I couldn't help myself repeatedly climaxing feeling all that..."

I've have never been *FUCKED* like that before! Nor have I ever realized it was possible to be *FUCKED* like that!" Melissa softly replied.

"When you were going down on me and you brought me to the brink of a climax, then Bruno took me over..., once I have gotten that aroused and on the brink of an orgasm, any additional stimulation would have made me climax like I did - there was no way I couldn't have stop having a climax..."

Then Melissa added,

"Back when I had my near rape experience in high school, the rape counselor taught me that female sexual arousal and orgasms are uncontrollable physical responses that can happen independently of cognitive agreement.

In other words, the body and the mind don't have to cooperate with each other in order for the body to instinctively react or respond to physical stimulus. Quite simply, a woman's body autonomously responds to sex. Our bodies instinctively react! They do so uniquely and often entirely without our conscious permission or intention.

A woman's orgasm during rape isn't an example of an expression of pleasure, it's an example of an involuntary automatic physical response to sexual stimulation! A physiological response to the stimulation of a female's erogenous zones whether the mind's on board or not. Our female organs

and erogenous areas are simply involuntarily reacting to sexual stimulation the way they were physically designed to respond - purely biological behaviors. A woman's control over sexual arousal is no better than our control over the dilation of our pupils or how much we sweat. If alcohol or party drugs are involved, then a woman is even more susceptible to sexual arousal and sexual stimulation."

I went over to hug my fiancé long and tight. I kissed her neck several times, silent tears began rolling down her cheeks. I told her I dearly loved her and everything is okay, for her not to worry about it, that I certainly don't...

"Melissa, I have to admit, watching Bruno fucking you and the multiple intense orgasms you had, it was out of this world incredibly sexy and erotic as hell! One of the world's most beautiful and sexiest women that I'm incredibly fortunate to be engaged to getting her brains fucked out by huge canine cock!"

My incredibly beautiful loving fiancé looked at me for a very long moment, then responded by saying,

"Sex with you, my love, is absolutely fantastic!

I'm extremely fortunate to be engaged to an extremely handsome, very intelligent, sweet, and considerate man who has been extremely gifted with a huge cock who knows how to expertly wield it!

After I thought, and thought, and thought, and worried about what happened, what you may have thought about it, I have to admit, it was pretty great, but all I ever wanted was just you, and it will only be just you...

But Don't You Ever Hold Back *FUCKING* Me!

I will be the one to decide if you are getting too forceful - and I haven't stopped you yet!

I have come to realize I like hard sex! It makes my climaxes even stronger! More passionate!

It spurs me on even more which benefits YOU!"

What could I say? I again reassured Melissa that I loved her with all my heart forever and ever! That I wouldn't ever want to do anything to or with her that she wasn't comfortable with, that never would anything happen that might jeopardize what we have together!

~~~~~

CHAPTER 9 - EPILOGUE

The next three years, however, we had on occasion watched the pool video, kind of a prelude to having sex. Even indulged in reading some beastie stories, daring to watch some videos - not only with dogs but with ponies, miniature horses and donkeys...

And there have been a few more occasions when Melissa had gotten drunk, then, and only then with her inhibitions lowered, did she willingly want to repeat the experience...

Then there was a time when Melissa bought a surprise toy to add to her toy collection..., a self-thrusting, vibrating, squirting dildo in the shape of a canine cock - complete with an inflatable knot!

Then my parents decided to get a pair of miniature donkeys, a stud and a jenny...

~~~~~

## END NOTES

Okay readers, time to dissect this story. The following is a brief summary of information from research articles and from medical, mental health and drug websites. Any medical, mental, social, alcohol or drug effects mentioned in the story are based on scientific research.

CONSCIOUS and SUBCONCIOUS LARGE PENIS ATTRACTION - Numerous research studies over the years show women have a conscious and subconscious attraction to large penises. Researchers theorize that this is a natural effect of human instincts, emotions, evolution and survival, and that this trait is engrained into the female psyche. To prove this hypothesis some research studies have used computer generated images of nude men of various heights, builds, and penis sizes but not in other qualities like facial attractiveness and hair to make the subject as asexual as possible to gauge women's responses. Other studies have women reading or listening to literature with characters with, small, average and large penises and gauging their physiological responses.

These studies concluded penis size along with body shape is influential in determining attraction. Women's apparent interest in penis size explains why human males have penises that are larger in proportion to body size than the penises of other animals.

The hypothesis is that since penises would have been readily visible for much of human evolution, prehistoric women would have selected for larger penises through sizing in addition to being associated with more orgasms, and this trait is still engrained by evolution into today's female psyche subconsciousness. Everyday examples of this evolutionary remnant:

being at the beach or at the swimming pool and observing women surreptitiously checking out a guy's 'package', or women checking a male model advertising close-fitting underwear. It is naturally instinctive for women to do this upon seeing an attractive man, or a man with a much larger than normal bulge in his swimwear or underwear.

This evolutionary large penis size preference and associated primal sexual excitation trait, along with sexual inclinations, proclivities, thoughts, urges and impulses are part of our female heritage and genes, deeply embedded within our brainstem and limbic brain, often termed our "reptilian brain." Both these brain structures are the oldest and most primitive parts of our brains and are largely unchanged by evolution - and they control our most base primal urges, including sexual arousal.

Since early humans didn't wear much clothing, male penises were obvious to women. Women chose their mates based on their physical size and the size of their genitalia. Thus sexual competition was and still is a key evolutionary driver via natural selection. These evolutionary decisions influenced the promulgation of bigger penises in the human species via natural selection. Longer penises evolved to deposit semen in the deepest parts of the vagina to promote more effective sperm retention.

Other studies indicate that evolutionary preference for a larger penis might arise because penis size is associated with higher rates of vaginal orgasm, thereby creating deeper bonds and enhancing reproductive success.

When compared to other primates and other species not of the primate family, humans by far have the longest penises relative to body size. A wide penis puts more pressure on the vestibular bulbs

situated on either side of the vaginal opening, which gives a pleasurable feeling of fullness at the vaginal opening. A wide penis also creates more tension on the labia, which, in turn, causes more tugging and movement at the hood covering the clitoris. This adds stimulation to the clitoris in addition to the surrounding tissues.

Women who use or on occasion use psychoactive sex enhancing drugs, these drugs synergistically enhance sexual arousal as well as their drug-altered perceptions of an over-sized penis. Women are even more affected when these penises began achieving erections, women then are substantially greatly affected feeling these oversized erect penises touching and rubbing against their bodies while dancing, evoking primal sensations of extreme masculinity and power – a natural autonomic sexual reaction still ingrained within the female body from their earlier primitive selves. Subconsciously their thoughts are attaching themselves to the supersized penis a man possesses and therefore its inherent ability to give pleasure which stimulates their primal overt base sexual urges and raw sexual desires. This sexual reaction is called a 'supernormal stimulus' which is defined as 'an exaggerated response to a stimulus to which there is an existing response tendency, or any stimulus that elicits a response more strongly than the stimulus for which it evolved'.

**AUTONOMOUS SEXUAL RESPONSE** – In neurophysiological terms, bodily functions such as sexual responses are involuntary reflex events in response to a stimulus, the same reflex-driven system that underlies heart rate, digestion, and perspiration. Sexual arousal is housed in the autonomic nervous system. Sexual organs are designed to react to stimulation in particular ways – and that stimulation is meant to induce pleasure. The individual organs are not designed to differentiate between types of touch and the response is an automatic reflex. With alcohol intoxication or an alcohol/drug combination, this greatly enhances the sexual stimulation and sexual sensitivities a woman feels, provoking her body's autonomic sexual reflex to actively participate having sex.

If a woman is extremely intoxicated and/or under the influence of drugs like Ecstasy or LSD, in most cases she will not be able to prevent an orgasm from occurring due to the drugs greatly heightening arousal and the sexual and sensual effects the drugs also greatly increase, usually with a woman experiencing several intense orgasms.

Alcohol intoxication and over-indulgence of psychoactive sex enhancing drugs causes a woman's higher brain functions to be repressed, which allows their raw primal sexual urges and impulses to be fully unleashed – subsequently dominating their actions. If a woman has a naturally high libido, her sexually responses will be drastically escalated.

The majority of women in their prime sexual years, when subjected to intense physical sexual stimulation are unable to suppress instinctive arousal, nor able to suppress the subsequent autonomous orgasm that usually occurs, even if the cause of the sexual stimulation is by force. Unwanted arousal and orgasms during rape are examples of an involuntary physical response due to the autonomous sexual response. A survey of available research indicates over a quarter of rape victims are induced into climaxing and this percentage is believed to be actually higher. In rape counseling sessions, this is usually the most devastating subject to address with the victim, rape trauma syndrome, to convince her it was an involuntary physiological response in which she had absolutely no mental or bodily control over.

**THE EFFECT OF ALCOHOL UPON WOMEN'S AROUSAL** – Under moderate intoxication (0.8%) women can control their arousal. However, while women who are moderately intoxicated are able to successfully control their arousal levels as effectively as sober women, women that are highly intoxicated (10%) cannot do so. With this increase of blood alcohol content, unlike men, there is no alcohol-induced diminution in genital arousal; women do not possess an effective capability to control their arousal response at higher blood alcohol levels.

For women, alcohol makes a woman feel more relaxed and in turn, be more sexual. Alcohol is a social and sexual “disinhibitor” because it increases sexual arousal and desire due to alcohol greatly stimulating the production of testosterone and estradiol. Testosterone controls in part the strength of libido in women and this causes an increased interest in sex.

Moreover, alcohol lowers sexual inhibitions, and with enough alcohol consumption, lowers it to the point that very little or no discretion is used when approaching or choosing sexual partners. Extreme alcohol intoxication reduces and can completely eliminate a woman’s self-awareness - an alcohol blackout. With extreme alcohol intoxication or an alcohol/drug combination, most women the next day cannot recall their rape, nor recollect the events that happened during the last few hours leading up to their rape.

The effects of alcohol and drugs reacting with each other is termed “synergistic”, an enhancing effect. Most commonly used in the clubbing/dance scene are drugs like Mephedrone, Ecstasy, LSD, or the Flunitrazepam class of drugs - otherwise known as roofies. Along with alcohol, these drugs are commonly known and used as date rape drugs.

FREE WILL - the capacity for one to choose his or her course of action. Free will is closely related to two other important facts: freedom of action and moral responsibility. The frontal lobes serve the brain and personality, acting to process, integrate, inhibit, assimilate, and remember perceptions and impulses.

Disturbances in brain functioning, be it due to drugs, alcohol, injury, tumor, stroke, emotional trauma, seizures, or electrode stimulation, directly affect specific aspects of consciousness, including what has been referred to as “free will”. The loss of free will are individuals who were compelled to behave against their will, who lost control over their will, or who suffered a complete loss of free will. The most common examples is the individual who is intoxicated or is under the influence of psychoactive drugs.

WOMEN’S AROUSAL AND SUNTANNING - It’s common for women to become sexually aroused while laying out in the sun getting a sun tan. This is because intense sunlight boosts endorphins and testosterone production along with Vitamin D3, which is actually considered a hormone and not really a vitamin! It is a pre-cursor for the hormone testosterone. The boost in production of these hormones stimulates the “Breed and Feed” part of the parasympathetic nervous system and also increases the sex drive, resulting in increased sexual desire and genital arousal.

Additionally, intense sunlight has a positive effect on melanin by stimulating its release from melanocytes, which also increases sexual arousal and appetite. One of the building blocks of melanin is tyrosine. Tyrosine also has a tie with increased libido, because tyrosine is a building block of L-dopamine. L-dopamine promotes sexual motivation and genital reflexes. Research has found that an hour of sunshine can boost testosterone production by 120 per cent. The combination of sun and alcohol will intensify arousal.

PARANORMAL ROMANCE IN NOVELS AND MOVIES - One of the interesting things that sex researchers around the world have noted, as indeed fans of romance fiction and women’s erotica literature have realized, during the last few decades, romance fiction has evolved as much as other genres.

Normative heroes and heroines and the accompanying sex between them, have been joined by sexual relations with gods, goddesses, werewolves, vampires, shape shifters, unicorns, centaurs, satyrs, dragons and aliens to name but a few. Although these new protagonists function under the same laws as more normative characters, it is plainly obvious that this additional trait seems to

belong dominantly to paranormal romance fiction - the bestiality genre.

In folklore and literature, bestiality is often romanticized seduction and coitus by a large, virile beast of an ultimately not unwilling human female! The animal may represent the power of free unrestrained and totally intense sexuality being imparted to the woman and the woman being set free in her own unrestrained sexuality to revel in the ultra-taboo, bestial wildness of raw primal sex!

All these different protagonists symbolically represent powerful hyper-potent male creatures having extremely intense passionate ravenous sex with human females!

By drawing attention to women having consensual, or initially not so consensual, sexual relations with another species, it is seen by sociologists as an empowering mode of modern sexuality for female literary characters as well as the female reader! To a lesser extent, newer science fiction genre during the last thirty-five years has contributed as well with aliens, creatures, and monsters ravishing women in novels, graphic comics, and movies.

Hence, romance fantasy and women's erotica novels have long been creating another in-road for bestiality by planting the seeds of curiosity, fantasy, and desire in female readers, and it is becoming a mainstream social norm as exhibited by the rapidly increasing sexual fantasy genre geared toward women readers involving various creatures and animals.

For years, romance fiction and women's erotica literature by far has made up the largest share of genre fiction on the market, allowing women to freely explore their hidden sexual desires and fantasies without risk of physical harm or social rejection, allowing them to be more creative in their own sexual lives. Fantasies are an essential part of our sexual repertoire and is associated with a healthy, happy sex life.

The ability to fantasize, to daydream, to explore internal worlds of imagination, is a valuable, even critical component of the human mind. It reflects our ability to manipulate thoughts, ideas, perceptions and reality, all within the private confines of our own minds. Sexual fantasies are inherent extensions of our capacity for creativity, the very imaginal creativity that is present in the worlds of artists, painters and composers.

Sexual fantasizing can be healthy, particularly for a reasonably healthy couple that are open to each other's fantasies and even fetishes who use their increased excitement to move toward rather than away from the partner.

The content of these fiction books, movies and adult comics influence the thoughts and perceptions of millions of readers and viewers around the world, making it into a very powerful social medium, therefore influencing the perceptions that readers and viewers have about social constructs and relationship standards and expectations. It has been well researched and documented that explicit sexual writing in this genre of books including graphic comics and movies which include bestial or other-worldly creature content, subconsciously lead women to lose their own sexual inhibitions and be willing to explore new possibilities in their sex life!

A woman's innate character is to seek what is forbidden and challenging. Movies and novels with fantasy themes including fantasy sexual themes stimulate the creation of fantasy thoughts, which is further compounded in this already formed female mindset.

MODERN TECHNOLOGY AND SOCIETY - Modern current technology and societal changes has contributed to a dramatic societal change during the past century. Women are liberated and more accepting of sexual open-mindedness, sense of sexual adventure, sexual confidence, and sexual variation among many others.

Since the advent of the Internet it has provided an additional and significantly larger environment for individuals to discuss all sorts of activities, including sexual behaviors.

The Internet accommodates a huge and wide assortment of pornographic materials oriented toward an individual's sexual needs. In this regard, the Internet has made a fundamental contribution by connecting people who share certain ways of understanding these practices, structured around a new expression of identity, precisely at a time when sexuality has become one of the core defining elements in individual identity.

And it is not constrained to just the Internet as exemplified in the rise in furry fandom costumes, furry conventions, comics and videos. Furies agree that they share an interest in fictional anthropomorphic animal characters that have human characteristics and personalities and/or mythological or imaginary creatures that possess human and/or superhuman capabilities. Corroborating this, studies have documented that women gain sexual gratification from inserting different styles of dildos. This may explain the large worldwide market for replica dog and other anthropomorphic dildos.

**WOMEN'S AROUSAL WATCHING PORNOGRAPHY** - While social constructs, stereotypes and pressures have certainly played a role in keeping women from being comfortable with porn in the past, the impact of those factors are diminishing over time. This is consistent with recent polls of women which showed millennials watched the most porn: 57 percent of respondents who enjoyed porn solo were aged 18-24. Among younger women, there's less and less concern for such constructs, and more openness to erotic material and who are more comfortable with their own sexuality.

For the past four decades, numerous studies have been conducted on women's arousal watching pornography. It was determined women tend to have more erotic plasticity than men — that is, they're turned on by a wider variety of things. For example, while men tend to show physiological arousal only in response to erotic films depicting their stated sexual orientation, studies utilizing thermographs and plethysmographs—a device that sits inside the vagina and measures genital blood flow, revealed that straight women show similar physiological arousal patterns when watching clips from gay-male, lesbian, and straight pornography - including watching animal mating.

The great majority of women who have participated in sex surveys reported watching porn as a "fantasy escape" and it has helped them relieve stress. For many women, same-sex porn provides an opportunity to imagine what it would be like to be with another woman, even if they consider themselves strictly heterosexual.

The porn industry is notorious for exaggerating the penis size of actors. Still, there has been enough research over the years to determine that the average size of a male porn star is seven inches in length and close to five and a half up to six inches in girth (two inches in width). It is the rare actor that has a penis length up to eight inches. Those profiled having much larger penises were mostly revealed to having fake prosthesis attached, to appear thicker or longer or both.

**PSYCHICAL BESTIALITY** - is the practice which yields erotic gratification or sexual stimulation as a result of behavior in which animals figure, but in which there is no direct physical sexual contact between the human and the beast. This would include, for example, sexual stimulation, sometimes to orgasm, as a result of watching animals copulate with one another - a practice to which has been given the formidable nomenclature "mixoscopic zoophilia".

Sexual arousal is derived by watching exhibitions of bestiality, masturbation fantasies of animal-human or animal-animal sex relations, day-dreaming to orgasm, or excitation with bestiality

fantasies. Bestiality themes in books, comics, art works, photographs or videos provide an erotic stimulus. Erotic dreams with bestiality being the subject of the dream and dreams of humans being raped by beasts induce erotic stimulation and nocturnal emissions.

## WOMEN'S AROUSAL VIEWING SEXUAL IMAGES AND READING LITERATURE DEPICTING BESTIALITY

As noted in the section above, numerous studies show women exhibit physiological arousal watching or reading pornography, including pornography with implied or actual bestial themes. Inherent biological impulses spontaneously arise despite the sexual subject they may be viewing or reading.

What turns women on is different to what women wish turned them on, or how they politically or socially feel about it; women have a natural autonomous arousal response built-in despite the sexual subject.

Sex studies and surveys have repeatedly confirmed one unusual fact - bestiality is the most common uncommon turn-on. It is believed that innately recognized sexual features such as an erect penis, even out of their usual human context, stimulate women. A 2011 study on the pornography viewing habits of female adults documented that 16.5% of female pornography consumers reported that they had recently watched pornography involving sex with animals. Erotic imagination, sexual curiosity, and sexual arousal commonly overrides the natural disgust response, researchers found, and allows women to willingly engage in behaviors that they might normally find repugnant.

One-half of a couple may induce the other to watch or read pornography depicting women having sex with an animal. The female half of the couple may acquiesce due to curiosity or be drawn into it by the other partner encouraging it as an entertaining novelty. This part she may like to satisfy that curiosity. However, repeatedly watching videos or reading stories of this nature may desensitize the woman to this particular sexual act, or they may become more tolerant of the act. Eventually it may decrease her inhibitions to the activities depicted so she will engage in them, either willingly to some extent, or with some degree of coercion to bend or break what amounts to a misbegotten social taboo.

Again, part of this may be a curiosity factor to find out for herself if the sexual pleasure women exhibit in videos and stories is actually factual. Some attribute it to the embodiment of that primal animal urge to be fucked so badly by such raw animalistic power that it unleashes a woman's own deep-seated primal sexual desires and responses that gets them going. It's the nature of the human psyche to find the taboo thrilling, even erotic.

This socially taboo erotic act may influence the wild, erotic nature that is innate to most women's subconsciousness and consciousness. A woman's wild erotic nature may emerge in animal fantasies, which enables a woman to revel in the ultra-taboo, bestial wildness of the fully unrestrained primal sexual act itself.

BESTIALITY - Existed as a rather widespread practice in all the nations of antiquity of which we have adequate records. Where it is not specifically mentioned, it may be legitimately inferred on the basis of the over-all evidence.

In ancient Egypt, the animal aspects of the gods insured that bestiality would be practiced both for religious and magical purposes. The representation of the Egyptian gods as beings of part-human forms was linked - a further impetus to bestiality - to the belief that living animals partook of the divinity of the gods and goddesses whose forms they shared.

This leads us to the realm of Greek and Roman mythology which is considered by scholars to provide

the best evidence for the thesis that the incidence of bestiality among the ancient Greeks and Romans was high, and that the attitude toward this form of sexual expression was of wide-spread acceptance. Greek and Roman myths contain many stories of gods who assumed the shape of animals in order to mate with mortals.

The satyr, a mythical being, half-goat, half-man, who was noted for his virility and lasciviousness, and who exercised it freely with humans, nymphs, and other creatures. Bestial intercourse related by the historians and mythologists: among them, the mating of Semiramis, legendary foundress of Babylon, with a stallion. From the union of Pasiphae and the bull was born the Minotaur, and the mythologists credited other bestial unions with bringing them into the world. Satyrs, Centaurs, and other strange and monstrous creatures. Author Robert Burton (*\*Anatomy of Melancholy\**) adds to the list, saying that “women are inflamed with mad passions for beasts, hence Minotaur’s, Centaurs, Unicorns, Silvanuses, Sphynxes, etc.

Of the three great antique civilizations here dealt with, the Romans were the most lavish and factual in its recording of both public and private bestiality. In the case of the Sybarites, a whole population was given to it, noted for their sodomies and copulations with canines (as were the Moors in later times). On other occasions, bestiality was a spectator sport, as in the case of the exhibitions staged at the Roman Games; sometimes it was the voluptuous indulgence of noble Roman ladies; and sometimes even emperors were involved. The Roman emperor Nero, disguised as a wild beast, once invaded the arena at the Games to assault members of both sexes, a performance he concluded by casting off his costume and publicly falling into the embrace of Doryphores, his male lover.

For the Roman Games, male animals of all sorts were trained from the earliest possible age to copulate with and even forcibly rape girls and women. Bulls, giraffes, leopards, cheetahs, wild boars, zebras, stallions, donkeys, huge dogs, various kinds of apes, and other animals were taught to perform these functions. Some of the more trainable and enthusiastic ones were further tutored to commit sodomy on human males and females. Especially popular at the Games were representations of scenes from the sexual lives of the gods, a particular favorite being Pasiphae and the Bull.

From the ancient world up through our own time, in all countries - though more frequently in some than in others - bestiality was practiced, thought about, dreamed of, and emerged as myth, fairy tales, folklore, literature, painting, and sculpture. In modern times, the practice of bestiality has been reported with a greater thoroughness than was the case in the ancient world, and this despite the fact that in the West at least the practitioners have grown considerably more furtive.

Certainly, the past two hundred years have nothing to compare with the spectacular bestiality events of the ancient Roman Games, a phenomenon unique in all of history. In more recent times, fiction and folklore have provided most of the imaginary accounts of bestial intercourse, again reflecting the “real world” cravings and behavior of mankind. It is, of course, true that mythology fiction and folklore have provided most of the imaginary accounts of bestial intercourse, again reflecting the “real world” cravings and behavior of mankind.

This then leads us to a summation of the most recent studies of zoophilia since 1985. This summation indicates reported sexual fantasies having sex with animals (76 % males and 45% females) and watching other humans have sex with animals (35% males and 40% females).

A summation of studies summation conducted since 1985 found that in any general demographic population, overall rates of persons engaging in bestiality range up to 55 percent, with 37 percent of women in any general population having engaged in bestiality. What this means is 1 in 8 women have interacted sexually with an animal. So the gossip or outlandish rumor overheard at a party or amongst friends has a great chance of being true, more so, unknowingly, one or more of your friends

may have engaged in sex with an animal!

Having fantasies about things we would never endorse or choose to do in reality, are not necessarily signs of psychological disturbance.

As far as people being considered deviant having sexual relations with an animal, recent research indicates the majority of people engaging in sex with animals do not suffer from a clinically psychological significant extent, and their social and occupational life etc. is not necessarily impaired. The majority of men (67%) and women (82%) placed themselves on a satisfaction scale anywhere from "extremely happy" to at least "generally satisfied/pleased".

Additionally, studies have found that people who participate in bestiality, almost 50% were college graduates or above, 16% work in computer-related fields, 11% are artists, about 27% are students and about 7% work in animal-related fields, 9% work in animal-related fields and 18 % in the medical field. Bestiality is a sexual activity practiced by all sorts of demographic groups.

Still, there is a strong influence of old religious and outdated moral values/codes, condemning any kind of sexual contact with animals. Therefore mentioning bestiality frequently evokes rather emotional and extreme reactions. Even when scholarly research in this area is published, authors are faced, depending on the results, with criticism, and not just from their peers.

With the zoophilia or bestiality rate increasing in today's age, researchers argue that zoophilia could be considered as an alternative sexual orientation. Zoo sexuality needs to be understood within the context of recognizing new emerging sexual identities that are no longer restricted by a patriarchal system centered on reproduction.

#### MINIATURE HORSES, MINIATURE DONKEYS, AND ARABIAN HORSES

Falabella Miniature Horses are the smallest of the miniature horse breeds having an erect penis length on average of twelve inches in length with a penile girth of five to six inches (Approx. 1.5 inches wide to 2.0 inches wide)

Miniature Donkeys on average have an erect penis length of fourteen to sixteen inches with penile girths of six to seven inches (approx. 2.0 inches wide to 2.25 inches wide).

Arabian Horses are the smallest of the large breeds of horses with an erect penis length of fourteen to eighteen inches with penile girths of five to seven inches (approx. 2.0 inches wide to 2.25 inches wide), so a woman can accept insertion but has to be mindful controlling the thrusting and how much is going in.
