## BEASTIALITY STORIES

## [Back to 1st Part](#)

Waking up in the morning, Madison was still sore but in turning her head saw Becky in the bed next to her. Then realized that there was something very big inside her, and saw how her stomach bulged. Having her hands tied above her head she couldn't reach down to feel what it was. Looking at her sister, Madison called her name a couple of times but Becky never woke up. Looking around the room Madison could see a bit of sunshine through a small window across from her but nothing much as it was too high to really see anything. She wondered where they were now, all she recalled was that man taking her in the car to go somewhere but nothing else. What she did remember was the ape and the dogs and what they did to her over and over. She started to weep laying there and tried to get comfortable with whatever they had put inside her.

Looking at the T.V. screen, Dr Paul watched as Madison moved around a bit then, saw her looking at her sister laying in the other bed. Thinking for a minute, he decided that this might be a good time to have the sisters together, so leaving the room, walked to where the two girls were. "Hi Madison, you don't know me but I'm Dr Paul", how are you this morning"? Trying to make herself smaller in the bed, she looked at the man standing between the beds and started to cry again. "No need to cry hun, I was wondering if you would like to snuggle with your sister in her bed"? Madison nodded her head that she would as Dr Paul reached above her to untie her hands. "Now, promise me you will stay in the bed and I will send some breakfast in for you both, would you like that Madison? Nodding her head again, Dr Paul removed the blanket covering Becky then did the same to Madison. Reaching under the girl, he lifted her off the bed and put her in with her sister and covered them both again. Then reached above Becky to untie her hands from the bed. Moving Madison onto her back, Dr Paul reached across her to rub her swollen tummy, then sliding his hand between her legs. "They have you pretty stuffed" he smiled, then continued to feel between her legs.

"Why are you doing this to us", she asked with tears starting to form again. "When your sister wakes up and you have some time together, she can tell you why and who to blame". Then turning away, he left the two girls in the bed. Then returning to the room where he was, saw Jeff sitting at the table drinking coffee. Walking over to the coffee pot, he poured himself a cup and sat with Jeff as they watched the T.V. screen. "She is a bit smaller than her sister", Jeff noted, "are you sure they are almost the same age"? Dr. Paul looked at the screen then told him he understood that Madison was premature around 29 weeks and never really grew as she should but there were no signs of any medical concerns like there usually are, just that she was a bit smaller, maybe some dwarfism in their history but no signs of that with her body or facial areas. And you heard what she went through on her way here with those truck drivers and their dog in her ass with no injuries really. As far as he understood, both girls had just turned 16 a few weeks apart.

Becky started to wake up and felt someone beside her and looking around saw a brunette head and recognized it was her sister in bed with her. Shifting around, she felt whatever was inside her pinch a bit but ignoring it, reached around Madison to get her arms around her then started to cry. Jeff and Dr Paul watched for a minute then Dr Paul asked what was planned next for them. "I was thinking of a Tapir and maybe a kangaroo while they are laying together, but other than something big, nothing for sure, why"? Looking out the window, Dr Paul noticed that there were quite a few guys outside doing various jobs, picking up things or on carts with food for the animals. "How many guys do you have working here in the compound?" he asked Jeff? Thinking for a minute he figured there were about 40 guys or so", then asked Paul why?

Looking at the 2 girls, he mentioned to Jeff that other than a couple of guys back at his place, Becky never really had 3 guys at the same time and knew that Madison certainly hadn't so he suggested an old fashioned gangbang with maybe 20 guys or so. They were being loosened up with the balloon's inside them so maybe even some fisting if they went easy, then for the finale, the Tapir and

kangaroo. Giving it some thought, he agreed that it might look good on film and picking up the phone, called Ramone to come see them, to advise what they were planning and to bring a sheet with all the workers names on it. Tilting back his coffee cup, Jeff smiled and told Paul that after the girls were cleaned up, that they might as well get in on it too, but making sure they were at the head of the line.

Ramone came into the room and after looking at the names on the sheet saw that there was in fact 54 guys working there. "Ramone, I want you to get the 30 biggest guys we have on this list, and have the old staging area cleaned up with a couple of the old mattresses we have laying around brought in there". "Then, we are going to have our two stars layed out and take on half of the men each, that's a nice round number, then have a Tapir and Kangaroo ready to finish things off." Looking at the list, Ramone nodded and started to walk out of the room, then noticed on the monitor the 2 girls in the same bed and that neither were tied down. "Are they okay in there not attached to the bed" Ramone asked. Dr Paul, looked at him and replied that he was okay with it they would not be like that for long.

Jeff and Paul continued to chat in the room then Paul had mentioned that he hadn't seen Ben around all day. "Hope you don't mind Paul, but I sent him with one of my guys to get the girl's parents, I'm not going to get what that prick owes me so might as well end things on a high note for my films with a couple new stars, for 1 movie anyway." "No worries, I don't have a concern with you using Ben for what you need", stated Paul. And looking at the girls in bed, knew it would be justice for them after their father got them where they were. "Let's leave the girls alone for a bit and get them some breakfast, then showtime can start around 5pm then into the night," said Jeff then both men got up and went for a walk around the compound for ideas on what to do with the parents when they got back.

After breakfast Paul and Jeff went into the room with the two girls and went on each side of the bed. Paul reached over and nudged Becky awake. Opening her eyes and seeing the two men, Becky then looked at Paul's waist where she saw he had his cock out. Nodding his head towards it Becky knew to lean forward and slid the hard cock in her mouth. Jeff then rubbed Madison's back and when waking up, he told her to look at what her sister was doing and then to do the same with me. Madison saw her sister sucking on the man's thing then with a little tear in her eye, leaned over and slowly slid Jeff's thick cock in her mouth. Both men moaned as the two girls sucked on their cocks when Paul told Madison to look at her sister as he held Becky's head and started to push further into her mouth until her nose was up against his belly. "Now Maddie., we expect you to be able to do this as well soon, so maybe your sister can give you some tips." Then Jeff started to feed her some more cock but knew she wouldn't be able to take him down her throat yet. After a few minutes Jeff told her to get ready to swallow and to not spill any, swallow it all, then started to cum in the girls mouth. Madison tried to swallow it all but some ran out the corner of her mouth onto the bed. Looking at the bit of spillage, Jeff told her she will have to do better next time. Paul leaned further into Becky's throat as he shot rope after rope down the girl's throat straight into her belly. After a bit of a licking to clean his cock, he bent towards Becky's ear and whispered what was going to happen in a few of hours and for her to make sure her sister performed as she should without any bullshit. Becky nodded her head that she understood as the 2 men zipped back up and left the 2 girls laying on the bed looking at each other. Now Becky knew why they had the balloon things inside them, and especially her sister, they are both gonna be sore by the end of the night fucking all those men. Paul never mentioned the Tapir or kangaroo after the men were through with them.
