This eBook contains taboo adults only erotica.

If you ever want to get your wife or girlfriend to have unconventional sex, our advice is don't bring it up, don't talk about it, and whatever you do - Don't ASK! A woman either does it initially as an experiment when she is exceptionally horny as a means of sexual release, or she could be encouraged by a very close friend, spouse, or come across it on the Internet which stimulates her imagination and curiosity.

## **PART 1 - THE BEGINNING**

During the Cold War between communist and non-communist countries, a mutated virus escaped from a Communist China Biological Weapons Research Laboratory. The virus spread worldwide unchecked like a wildfire, inexplicable only infecting human males and killing greater than half of the human male world-wide population. While women could be carriers of the virus it did not affect them but women could pass on the virus to their male sexual partners. Certain areas of the world were particularly decimated where the male population was dominate; China, Indo-Asia, the African continent, and the Middle East, practically leaving these geographical areas devoid of human populations.

In desperation a crash program developed a vaccine that was utilized knowing that it would permanently affect the remaining human population and its descendants - but life was preferably over death as the mysterious malady was sweeping like wildfire through every country.

The vaccine's detrimental impacts was that it drastically and permanently decreased male fertility as well as greatly altered the female to male birth ratio in ways not understood. The altered birth ratio was genetically passed on to subsequent generations, the birth ratio at its peak rising to fifty girl babies to every boy baby born.

However, there were benefits to the vaccine; with the mortality from the outbreaks and the vaccine altering the birth rates the world population plummeted then stabilized, to around an earth sustainable population of 1.1 billion, a statistic not seen since approximately the year 1820!

The vaccine also eliminated all cancers and most diseases, longevity was imparted to a point where the average life span was 140 years - but markedly the body and mind did not age chronology beyond forty years! Additionally the vaccine eliminated obesity and imparted an inherited genetic ability for everyone to have fit and toned bodies.

Further, the vaccine also imparted a permanent lifelong sensitivity in women to be easily aroused along with enhanced libidos, and also eliminated issues with reduced or no sexual desire. Vaccinated women found their bust sizes increasing by one-cup size and their breasts became extremely and permanently firm, as women aged their breasts never went south. Subsequent generations of women born also began developing large full, firm perky breasts as they matured that never began to sag as they aged. Succeeding generations were also subsequently imparted with a sensitivity to be easily aroused with enhanced libidos.

Worldwide, society became gentler, cooperative, and productive. Technology advances leapt from increased cooperation and along with rapid societal changes lead to a worldwide Utopian society. With the greatly disparate birth ratios, same sex marriages became the norm as did plural marriages with one man having multiple wives, rare it was for there to be just one male and one female in a union.

With the severe shortage of men to satisfy a women's biological urges, highly advanced creative and sophisticated robotic and android technologies for a woman's sexual pleasure blossomed and were commonplace.

Still, women solely longed for a more equitable ratio to be able to enjoy that intimate human male companionship so a continued high priority continued to exist on fertility research to correct the gender imbalance.

While wars and conflicts as we knew them had ceased to exist, militaries, war armaments, and lethal weapons eliminated and replaced with limited police forces - however a war did arise in later years...

Forty years after the worldwide outbreak that decimated the human male population, the gender wars began...

Widely scattered holdout extremist patriarchal demagoguery societies were established by tradition bound men who had become even more extremely restrictive toward women.

These male dominated societies had eliminated gender equality and refused to transition to the matriarchal society that the world as a whole had become. These patriarchal enclaves had embarked upon extreme and nefarious experiments to improve the gender imbalance, ignoring world-wide condemnation and trade restrictions that were emplaced to get them to cease their morally reprehensible experimentation. Even now, years later, unfounded theories persisted that it was a cadre of female scientists that released the man-killing virus, the theories perpetuated by the ruling elite of the patriarchal societies.

These male dominated societies refused to believe that the majority female population also desperately desired a more equitable ratio, and overtime, female researchers learned to manipulate the fertilization process reducing the birth ratio to 30:1, but the ratio still was far from equitable and there was a limit to what technology could do.

Herein lay part of the philosophical differences between the worldwide majority female matriarchal societies and the male patriarchal enclaves: the matriarchal societies practiced sound reasonable research and moral experimentation while the male patriarchal enclaves became ever extreme and desperate in their experimentations.

The patriarchal enclaves sent raiding parties to capture women to become subjects for their continuously failed nefarious experiments in order to restore a more equitable gender ratio and a return to a patriarchal society - knowing though it would also mean a return of worldwide conflict

and impacting earth's limited resources, forty years later wildlife was still recovering and climate changes were slow to be reversed.

Thus began the odd war of the genders. The women of the world did not want to kill any men despite how despotic, sadistic, degenerate extremists they had become as it would further reduce the remaining viable male DNA needed to preserve the human species.

So a mostly bloodless war began. When given the opportunity, the enclave men would be lured, enticed, convinced, or even captured and then undergo social conditioning and reeducation to become functional members of the Utopian matriarchal societies.

As the years past the enclave scientists in their degenerate demagoguery extremism believed they could improve the gender ratio by combining the best of male sexual genitalia of the animal kingdom and incorporating it with human DNA. However, experimentation with human male volunteers to enhance their genitalia and sperm production met with repeated complete failures...

PART 2 - ANIMAL GENETIC MODIFICATIONS

The enclave scientists realized they required very young, immature animal specimens that could be genetically modified with sexual enhancements at an early age. Additionally these specimens would also be genetically manipulated to mature at a rapid rate. The gorilla was selected since it was genetically close to the human species and would require less genetic modification.

With worldwide rapid advances in genetic technology that were impossible to regulate as the male enclaves ignored any such restrictions that originated from matriarchal societies, the enclave scientists were eventually able to alter the genetics of the gorilla to have the gorilla testes produce human sperm. The gorillas had additional genetic modifications to produce the ultimate and most efficient sexual breeding animal as these genetically altered and bodily-modified gorillas would serve as breeding studs to inseminate human women with altered human sperm to produce more human male offspring...

The genetically modified gorillas had increased intelligence, able to rudimentary communicate with humans and each other, and had the ability to coordinate their actions.

Overall, they were like a nightmare come true from the Planet of the Apes movies, except they did not possess that high of an intelligence and were very limited in numbers. Moreover, a nightmare they were...

The genetically modified gorillas were well over six feet in height, massively broad and immensely powerful like their natural kin with body weights of well over four hundred pounds of tightly corded muscled bodies covered all over with short very fine hair that appeared to be slick and silky smooth to the touch. The fine dense hair was so short it did not hinder the sight of ripped bulging muscles throughout the torso, legs and arms, and each had the unbelievable strength of six men. However, the extensive genetic alteration incorporating human DNA into the gorillas imparted an underlying aggressiveness that was all too apparent in their behavior...

Additionally, the body temperature of these genetically modified gorillas was considerably much, much higher than a human - 116 degrees Fahrenheit! The higher gorilla body temperature was the result of a faster metabolism and the belief by the enclave scientists that it would improve insemination. The higher metabolism also enabled the scientists to refine their genetic modifications with successive generations as the genetically modified gorillas had very short

lifespans. As with any animal with high metabolisms, the genetically modified gorilla life spans were short, no longer than three years.

The nefarious genetic alterations of the gorilla also included several physical characteristics that the scientists thought would ensure successful inseminations: the gorillas were engineered to have hugely oversized testicles to produce a prodigious amount of semen, with grossly oversized and ugly rough penises, eleven inches in length, with textured ribbing and bumps to stimulate the female vagina. The extraordinary length of the penis meant to ensure the tip of the penis would be able to push past the cervical opening and into the womb so the penis could ejaculate the semen directly into the womb to improve the chances of fertilization.

This was not the only modifications... when arousal or intercourse began, the penis girth would slowly swell from the size of a large silicone dildo to more than two inches in width!

The enclave scientists were well versed in human reproduction and knew that orgasms in evolutionary terms had evolved to stimulate the penis as well as stimulate the female reproductive organs to facilitate successful insemination; therefore, the scientists had created other gorilla body modifications to ensure successful insemination...

Nearing the point of ejaculation, the base of the gorilla penis would develop a canine like knot and the gorilla instinctively would strive to insert the growing knot into the vagina before it grew too large. Once inserted, the knot would swell to the size of a softball, locking the immense cock within the woman, placing incredible pressure against a woman's G-spot and invariably causing a woman to have repeated involuntarily G-spot orgasms.

However, this was not all of the genetic modifications... upon impending climax of the gorilla, the corona glans of the penis head would suddenly flare to an incredible size, similar to an equine, lodging and locking the head of the penis within the womb, then prodigious amounts of semen would be ejaculated directly into the womb with incredible force. The penis would pump a repeated series of forceful ejaculations until the womb became completely filled with six cups (1500 milliliters) of heated 116-degree semen! The copious quantity of semen temporarily held in place by the twin physical states of the cock head flaring and the huge knot locking the penis within the woman.

The scientists knew no sane woman would willingly have sex with an animal let alone mate with a gorilla having such a fearsome and sexually violently aggressive traits - especially one with such monstrously oversized and ugly genitalia! Moreover, mating was not the proper term...

The scientist knew the more excited a woman was the better the success of insemination, so captured women were not restrained but set free in restricted terrain, then the genetically modified gorillas would chase and capture the women who would then be subjected unmercifully to repeated violent rapes! With their incredibly high metabolisms, the gorillas were capable of having repeated intercourse within fifteen minutes of their last ejaculation!

The scientists also knew the more excited and physical a woman was during sexual intercourse, the better the success of insemination...

Along with the prodigious amounts of semen ejaculated directly into their wombs, the depraved and desperate scientists believed that by inducing the twin physical and mental states of rage and lust in a woman, it would make the woman more conducive to a successful insemination.

For some years now, the secrets of naturally produced pheromones and hormones had been unlocked and powerful black market synthetic pheromones and hormones have been capable of being artificially reproduced, most of these were sex pheromones and hormones which acted as a

powerful, irresistible aphrodisiac. For some time now, there also has been black market genetic alterations of humans to be able to do the same thing when sexually aroused. And if humans could be genetically modified to produce sex pheromones and hormones, so could other animals be...

So the gorillas were also biologically engineered to secrete pheromones and hormones that would spike adrenaline and cortisol levels in humans inducing in women a physical and emotional mindless insane level of rage as well as simultaneously stimulate their libidos to unbearable levels of intense sexual arousal and uncontrollable states of intense, primal lust.

The exuded air borne sex pheromones combined with liquid stimulant sex hormonal secretions from the penile shaft of the gorillas had simultaneous multiple effects upon women - addictive pheromones and secretions overwhelmed a woman's senses, saturating the brain with chemicals causing a woman's sexual hormonal production to go instantly into hyper overdrive inducing uncontrollable primal lust, intense pleasure - and a mindless berserker rage!

These combined effects would cause a woman to continuously viciously fight against her rapist during forced coitus while experiencing overwhelming and uncontrollable lustful frenzied primal desires to fuck that drove every other thought from her mind!

Under the effects of these powerful pheromones and hormones the only thought and emotion that totally controlled her mind and body was a mindless berserker rage and an overwhelming unending desire to be fucked like they have never been before and may never will ever again experience!

A woman would violently fight against the rapine beast(s) until she/they collapsed in exhaustion from her furious physical actions or was fucked to insensible exhaustion!

While proven viable in lab trials involving cell fertilization, in reality, the horrendous actual act of sexual intercourse between the modified gorillas and the subject women was a complete failure as not one successful insemination resulting in pregnancy occurred, and of course, no woman willing wanted to have intercourse with a gorilla. Attempts at artificial insemination with the altered gorilla sperm equally proved fruitless.

### **PART 3 - PERSISTANT DEMAGOGUERY AND A MYSTERIOUS AFFLICTION**

Over time most of the remaining patriarchal enclaves were assimilated into society as a whole, finally convinced of the futile attempts of correcting the gender imbalance. Still, there were a few patriarchal demagoguery enclaves remaining that persisted in their nefarious attempts at breeding more human males. These remaining enclaves were obviously sharing their research as each of these enclaves had genetically modified gorillas conducting raids, capturing and raping women.

With the continued failure in insemination, in desperation, the enclave scientists convinced their governing bodies they needed more sample subjects and a wider breeding pool to experiment with.

Due to the lack of human males, the genetically modified gorillas served as an impromptu army for the enclave raiding parties and the number of raids increased. Eventually these enclaves released the captured women after they did not become pregnant, however, society as a whole still did not wait for the women to be released, and it was with great difficulty these captured women were freed and repatriated. Still, the raids continued...

Then a mysterious sexual affliction began to spread...

Eventually it was correlated that the afflicted areas were in locations where the patriarchal enclaves conducted raids, around medical facilities where formerly captured women have been treated, and/or areas where the women were later resettled in. The affliction was apparently contagious, and while currently, there was no cure for the affliction and seemingly harmless, it was still unsettling to society as a whole worldwide - and it was spreading worldwide by means that could not be identified or detected...

With the spreading outbreak of the strange sexual affliction and the raids increasing, the matriarchal societies convened to discuss eliminating and assimilating the last of these troubling enclaves and perhaps discovering a cure for the rapidly spreading affliction.

PART 4 - THE FINAL CAMPAIGN

While the world had evolved to a point where military forces had no longer been needed for decades, there were still some limited police forces in existence. Police units were volunteered and organized for this last campaign against the few remaining patriarchal enclaves.

A police reconnaissance squad made up of volunteers from Denver, Colorado, comprised of twelve woman, were covertly inserted onto one of the remote Hawaiian Islands in order to conduct reconnaissance prior to the invasion force. This particular island was known to have a very large patriarchal enclave and believed to be one of the centers of their diabolical experiments. It was particularly troublesome as it persistently sent raiding parties that struck throughout the Hawaiian island chain. The squad was inserted on the opposite side of the island from the enclave compound and it would take several days for the squad to traverse the large hilly and mountainous island.

Shortly after insertion, the squad noticed increased patrols of the roadways, which forced them to alter their route. There was no way to avoid the rough lava fields since the roadways were too heavily patrolled, so the squad was forced to traverse the lava fields at night.

Just after two days, their reinforced tactile battle dress uniforms were in tatters from the rough sharp lava fields, and then the squad had to fight their way through dense jungle-like conditions to further avoid detection. The jungle-like vegetation and hidden sharp lava outcrops further ripped and tore at their clothing.

The squad came upon a small partially enclosed sunlight dappled grotto with a small waterfall pouring off the cliff. Sunlight sparkled upon the clear shallow water, a small white sugar sand beach on one side, and it was the only way in after skirting the cliff edge.

None of twelve women could resist the natural invitation to bathe and wash the grime and sweat off their bodies and clothes and try to mend what they could. The small enclosed grotto could only be seen if you were standing at the top of the cliff and if flying over, it would disappear in a blink of an eye.

#### **PART 5 - TRAPPED!**

While the squad of twelve women were lounging around slowly getting dressed, a sudden but intense fragrance of plumeria wafted through the grotto setting them further at ease and distracting those on watch, inviting them to linger...

Shortly afterwards, unnoticed, they became trapped in the steep walled grotto the only way out suddenly blocked by six huge genetically modified gorillas with stun pulse rifles leveled at them! The huge gorillas stood staring at the twelve women that were in various states of dress. Each member of the twelve-woman squad had frozen in place, each of them keenly aware of the very unwanted attention they were receiving in their partial states of undress...

Not one of the squad members were completely dressed, some were just wearing panties and bras, others just panties, the rest had panties, bras and their tattered tactical pants on. Their various states of dress exposing most of their athletic and very well-toned deeply tan-contrasted torsos, each one of the young, extremely fit, exceedingly attractive women being firmly voluptuous...

The gorillas stared at large, firm fettered and unfettered hard nipple breasts of tall athletic voluptuous women...

Their malevolent gazes wandered over flat muscular six-pack ripped stomachs and lower abdomens, the curvaceous tightly muscled firm buttocks that brief silk panties did not fully cover, some of the gorillas wondering at the strange decorative but attractive contrasted tan lines on the darkly tanned women, not knowing these were tan lines from the skimpy Rio-style string or G-string bikinis the women favored.

The twelve women stood growing ever more horrified at the gorilla's physical reactions to their various states of nudity, trying not to stare at the groins of the gorillas but finding their eyes rooted to the huge swollen purple orbs of their testicles - each the size of a cantaloupe hanging from a leathery black scrotum! Their flaccid obscene, bizarrely shaped huge phalluses had begun visibly swelling and incrementally becoming erect, slowly revealing their immense monstrous size - a full eleven hard swollen inches!

The twelve women were equally startled how thick their penises had swollen! More than two inches thick and clearly they were still swelling to an even larger girth!

The evenly spaced bumps on the penises had also swollen to a larger size, swollen warty bumps the size of marbles that made the penises look rough and menacingly brutal!

Each of the women could keenly see the grossly oversized phalluses throbbing powerfully jerking up and down, then, shocking each one of the women, the tips of the cocks copiously began seeping precum fluid which dangled in long flowing stringy strands, the hugely swollen shafts glistening in the sunlight from additional hormonal secretions...

The unguarded blatant malevolent displays of sexuality was gripping to each woman as they glanced at each other with trepidation! They were all well versed before the mission how the gorilla's exuded potent secretions quickly sexually affected women...

Not one of the twelve women could not help vivid images instantly flashing through their minds of the huge ribbed and rough penises trying to rape them!

Little consolation was to be found as the women knew the genetically altered gorillas and their humongous oversized cocks, despite their apparent cock size, could somehow based on all previous accounts, indeed rape them!

Despite their extensive physical and psychologically training, none of the women were unable to suppress their emotions, each woman imagining and growing extremely fearful of what the gorillas would do if they did try to assault them... or do in response to their frustrated attempts at coitus...

The gorillas moved to encircle the women...

In barely understood guttural words but plain harsh gestures with the stun pulse rifles, they herded the women to one side of the grotto against the nearly vertical walls, bunching them together and preventing escape by the tight confines of the small enclosed grotto.

One by one each woman despite their shock, outrage, embarrassment and humiliation at being captured and in various states of partial nudity, noted an intense irritable mood suddenly overtake them as well as a sudden intense warmth suffusing thru them...

Each of the squad member's irritation grew exponentially at the situation they were in, seething thoughts began churning in the captured women as each reflected how they are highly trained police special units, caught lounging around like beach bunnies in partial states of nudity, now being stared and lusted over by an inhuman bunch of huge freak modified gorillas!

Lisa had managed to snag her tattered clothing before being corralled with the others against the grotto wall, hurriedly she drew on her shirt. Maggie's attention was briefly riveted to Lisa's exposed tan-contrasted breast and hard nipple. In a low whispered voice, Maggie told Lisa to slowly cover her breast back up. A look of horror crossed Lisa's face as she looked down and saw a large portion of her breast and hard nipple exposed through a large tear in her tee-shirt.

Lisa, Maggie, and the others could see the six gorilla's breathing was agitated, as well as the guttural undertones of rudimentary conversation amongst each other, horrified seeing their ugly as sin cocks beginning to flex up and down with animalistic arousal. Slowly with unhurried movements, Maggie and Lisa started to pull on their tactical battle trousers...

~~~~~

PART 6 - PLAYED AND TOYED WITH

Four gorillas moved to cut out four of the women from the group of twelve: Lisa, Maggie, Joanna, and Marissa. One gorilla tried to touch Maggie, but she jumped back smartly at his brief scorching touch on her shoulder, shocked at the inhuman heat that emanated from the palm of his huge paw, her tactical pants not yet fastened, fell down to her ankles...

The gorilla again reached toward Maggie with one large powerful paw grabbing her by the shirt and yanking Maggie toward him, yanking so hard he tore off Maggie's shirt, Maggie now topless wearing only brief silk turquoise panties...

The gorilla placed his paw firmly on Maggie's shoulder and yanked her toward him, grabbing her from behind, and pressing Maggie tightly against his thick wide body, his monstrous erection pressing between the cheeks of her firm ass, reaching up in height, emerging way up over her tailbone, contrasting its true enormous size against Maggie's slim, athletic body!

The look of horror on Lisa's face drove Maggie into panic, feeling the humongous massive rough organ start slowly and repeatedly sliding up and down tightly pressing against her slick skimpy silk panties - up between the cleft of her buttocks! Maggie imagining in her mind the massive hot member as the size of a baseball bat!

As the gorilla continued sliding his huge rough thick cock up and down Maggie could feel his rough cock begin dragging her panties downwards! Mightily Maggie violently struggled to break free in her growing outrage but the gorilla was too strong and easily held her against his massive body.

As her skimpy panties were being inexorably drawn downwards, Maggie could feel the beginnings of copious fluid seeping from his monstrous cock against her back, could feel it running deep down the cleft of her buttocks, felt the gorilla's copious secretions run over her anus and then trickle onto the base of her pussy, oddly, she felt a tingling sensation begin in and around her most intimate areas. The gorilla pressed harder against her, Maggie could feel his whole body was powerfully vibrating, from the pre-mission briefings Maggie knew it was from his pent-up sexual tension and he was on the ragged edge of violent sexual rage...

All the members of the twelve woman squad dimly noted an intense warmth suffusing thru them as well as an intense irritable mood that suddenly overcame them, yet also feeling a sudden growing intense sexual heat in their loins! Startled they realized they have begun to feel the unwanted effects of the genetically modified gorilla's sex pheromones!

In horrid realization all twelve women felt an overwhelmingly intense, sexual lust begin suffusing through their minds and bodies in a never before experienced level! Their horror intensifying as each sensed an escalating, undeniable primal urge to be physically taken welling up inside each of them...

Two gorillas pointedly gestured at Marissa and Joanna as they rapidly spoke as they gestured at the four women that have been separated from the others.

Silence reigned...

Joanna, Marissa, and Lisa stood there shifting from foot to foot in front of the menacing gorillas as their huge semi-flaccid cocks visibly swelled ever thicker and got stiffer, their eyes glancing from the three gorillas to the one tightly holding Maggie against him as she squirmed to get free from his impossibly strong embrace.

The gorilla holding Maggie had repositioned her, forcing Maggie to stand astride and straddle his huge thick eleven inch long cock facing outwards! Now his humongous cock was protruding way out between her legs, pressed tightly up against her skimpy silk panty covered pussy, the contrast in thickness and length made horribly clear...

As equally clear was the gorilla's intentions as he slowly bodily dragged Maggie by her hips back and forth, forcing her thin panty clad pussy to slide along his secreting massive cock, her brief silk panties had now rolled well down past her hips...

Joanna, Marissa and Lisa both now were shifting on their feet, their thighs pressed tightly together, futilely trying to smother the growing flames of their artificially stimulated heated loins and obscure the spreading wetness of the crotch of their pants as they unsuccessfully tried to ignore the miniature donkey sized cock that Maggie was being forced to straddle and slide her barely covered pussy against, all the women trying to squelch the building red rage of their situation so as to maintain a focus, to try to overtake their captors since they outnumbered their captors 2:1.

One of the Gorillas slowly reached out and with one long huge finger extended and slowly began tracing the generous firm swells of Marissa's breasts through the outline of her shirt. Marissa started heavily breathing as the gorilla's finger moved toward Marissa's expanse of cleavage displayed by her partially button shirt, then slowly followed the swelled, busty contours downward until his finger was blocked by a button. Suddenly, he grasped a fistful of her shirt and in one violent motion yanked upwards! Buttons popped free and flew as Marissa's shirt was dragged over the top of her head and off her arms.

Marissa's large unfettered breasts were momentarily raised up by her shirt being ripped off then they bounced a couple of times as her hard nipple breasts settled back in position. The gorilla held Marissa's shirt in his hand, and he had a puzzled but amused look on his face as he examined her large, firm breasts, seemingly fascinated with the tanned and the untanned contrasted areas where the tiny diamond bikini top that she wore tanning had just barely covered her small areolas and tiny hard nipples.

Marissa, Joanna, and Lisa looked at each other with wide eyes, then, spurred on with a glance seeing how aggressive the gorilla was getting with Maggie, as one, they attempted to flee!

The gorillas slowly cavorted after them, repeatedly drawing near the three running women, plucking at their clothing, ripping off pockets from their pants and Joanna's shirt, popping her shirt buttons loose, then letting the women get slightly ahead then easily catching up to them again.

Soon Joanna's shirt was in tatters, completely unbuttoned with the shirt tails streaming behind her, their pants likewise had great rends in them showing vast expanses of tanned and very toned skin. Each time a new seam opened, a great triumphant roar went up from the Gorillas...

Another gorilla reached out and ripped Joanna's shirt off her as she ran, enjoying watching her considerable large and firm perky assets heave and bounce as she ran, the women's delightfully curved firm and toned athletic bodies and the way their long hair streamed out behind them as they ran to the mouth of the alcove further excited the mutated gorillas. The gorillas repeatedly blocked their way. The three women finally realizing there was no escaping turned to fight...

Like half naked Amazons, Marissa, Joanna, and Lisa repeatedly flung themselves at the Gorillas attacking them with their martial arts training, but the huge heavily muscled gorillas absorbed their blows with impunity, the gorillas toying with them as they pushed the women toward each other. All the women, especially Marissa, Joanna, and Lisa recognized amusement in the Gorillas expressions which infuriated them even more.

A mindless rage overcome the three women as they viciously fought and screamed at the Gorillas with now uncontrolled fury as the Gorillas playfully plucked at their remaining clothing – ripping off the remaining pockets until leaving their pants in complete tatters with great rends and nakedly exposed. Firm thighs and ass cheeks were exposed thru the rends of what remained of their pants. The three women seemed not to heed their near total nudity as they futile fought, Joanna and Marissa's bare hard nipple breasts heaving with their exertions.

Then a gorilla grasped Lisa and the tattered remains of her pants were yanked off. Lisa felt a long finger slip inside her panties... With a single pull the gorilla shredded her panties, leaving Lisa exposed to the gorilla's advances, pawing at her exposed genitals, her pubic hair just a thin decorative strip on her pubic mound...

Like all women have done since laser hair removal had been developed, her pubic area had most of the hair removed except for a small fanciful design on her pubic mound, so no more hassles with shaving, waxing or depilatory creams.

Lisa tried to shove her gorilla away but could not budge his massive heavy bulk. She flinched at the shock of being dragged toward him with one massive paw then Lisa was forcibly pressed against him, chest to chest, as his other paw slid under her left leg lifting her leg over... forcing Lisa to straddle the humongous full erection with widely splayed legs as he held her tightly clutched against him by her waist, the hot and slimy massive cock pressing hard against her naked pussy...

Startled, Lisa was shocked at the inhuman heat radiating from it!

Lisa could have sworn the gorilla was grinning at her, the seemingly grin growing bigger as he began dragging her tightly against him, forcibly slowly sliding her pussy back and forth the length of his long immensely thick stiff ugly inhuman cock. Lisa again shocked feeling the rough ribbed and bumpy texture of the ugly cock as the gorilla bodily dragged her sensitive pussy along his rough shaft, then one final shock struck Lisa as she realized his cock was also copiously weeping making her pussy slimy with his secretions, then as the realization struck her an intense tingling suddenly erupted upon and in her female genitalia!

Apparently amused at Lisa's stunned shocked reaction, the gorilla roughly pushed Lisa away, making her fall and sprawl out upon her back. Just as quickly, the gorilla knelt down and yanked Lisa's legs wide apart and dragged Lisa toward him until she lay prone on her back with her legs splayed widely up on either side of the gorilla's broad powerful hips!

His monstrously long and ugly thick cock lay on top of Lisa's flat muscular ripped stomach – reaching way past her naval! Again the gorilla seemed to grow even more amused seeing Lisa's shocked reaction as her eyes grew wide as she stared at the humongous weeping appendage jutting up between her legs, up over her flat hard stomach, waaay past her navel...

Then, the gorilla began sniffing Lisa. Inhumanly hot breath upon her neck. A long, powerful, sinuous, and very hot tongue that must have been six inches in length snaked out and began lavishing Lisa's small nipples which were already diamond hard due to the dire situation and the rough handling the four women were being subjected to. The gorilla repeatedly swiped his long hot tongue under and around Lisa's heaving breasts, alternating licking her small diamond hard nipples.

As the gorilla pulled slightly back from Lisa, his heavy humongous rough cock dragged against Lisa's stomach. Lisa could feel the tip of his cock copiously weep its secretions onto her lower flat belly at an impressive rate. Her stomach was saturated and slippery and the leakage was covering her pubic

mound and dribbling down onto her pussy, tingling sensations of her vagina suddenly intensifying from the secretions, then, Lisa was startled as she felt a slow, heated pulse began throbbing deep in her groin...

After a few very brief moments, the pulse repeated, even stronger. Lisa again felt the hot pulse but this one came sooner and even stronger than the last one. Just as she finished this thought another one surged powerfully thru her loins shocking her with astonishment at its intensity as a sudden heat blossomed within her suffusing her loins and with growing horror and trepidation, Lisa realized it was centered in her pussy...

Without warning the gorilla pulled back and roughly yanked Lisa's legs widely apart and held them widely splayed, his encircling powerful fingertips around her legs reminding her of their danger.

The gorilla easily without effort raised her legs up, pulling her pelvis upwards as the gorilla suddenly buried his head between the juncture of her thighs! Lisa repeatedly bucked her pelvis as she violently writhed to break the contact of her pussy with the inhuman mouth but the gorilla just hoisted her widely spread legs a bit higher...

Lisa felt his hot breath repeatedly snuffling her exposed sex. His head began pressing tightly against her, she could feel his hot mouth pressing with some force against her hairless pussy while his hot breath snorted upon the area of her clitoris. Suddenly Lisa shrieked as she felt his long powerful hot thick muscular six inch long tongue shoot out and begin forcing its way into her tight pussy! Lisa began thrashing and continued shrieking as the powerful tongue thrust ever deeper into her tight vaginal passage ravishing the interior of her vagina, repeatedly thrusting in and out of her vagina. Lisa frantically thrashing and twisting her body heedless of the powerful fingers that kept her legs splayed widely apart as the gorilla continued savaging her pussy with his six-inch long hot thick powerful tongue...

The genetically modified gorilla continued lasciviously ravishing Lisa's pussy with his powerful six inch long tongue. Lisa's shock and horror had begun giving way to being outraged as she thrashed about trying to break free from the powerful gorilla and from the shock of the oral assaulting of her pussy by a tongue that was just as large and long as the cocks of the few men she has had...

With one hand each, the two gorillas holding Joanna and Marissa, easily without effort, hoisted both women up to their eye level, leaving their feet dangling in the air as they were seemingly critically examined and appraised by them. The gorillas repeatedly yanked with their other hands at what little remained of their pants till they came off, leaving Marissa and Joanna clad in only silk string bikini panties that were partially down over their hips as the result of their pants being pulled off...

The gorillas openly admired Marissa and Joanna athletically fit bodies as they dangled from one hand of each of the gorillas. Even though they were genetically modified gorillas, Marissa and Joana could easily discern malevolent lust that emanated from their broad faces!

The gorillas stared at the women's firm toned and ripped lithe bodies, their every muscle well defined in their flat upper and lower abdomens, their full firm hard nipple perky breasts heaving with exertions, their strong toned legs and thighs, the tan lines from their string bikinis contrasted skin tones, their fingertips tracing tan lines.

Both women yelled and kicked at their captors each time they felt inquisitive fingers pushing against their silk bikini clad pussies as they were sexually toyed with...

The gorilla's approvals were physically manifested before the shocked eyes of the twelve women! The immense flaccid cocks on all six gorillas began flexing powerfully in several inches in either

direction, visibly swelling to greater girths - much, much larger in girth than any man! Loud, involuntary audible gasps erupted from the eight women held against the wall of the grotto seeing the movements of the massive and powerful eleven inch long cocks.

A gorilla took one of Marissa's nipples in his mouth and started sucking as hard as he could, eliciting painful screams from Marissa, then, the other gorilla latched onto Joanna's nipple as Marissa and Joanna screamed at their captors as their feet repeatedly lashed out at their inhuman captors.

The gorillas released their nipples, the gorillas clearly displaying mirth and amusement at the involuntarily bodily responses of Marissa and Joanna even as the two women railed and flailed against their captors with impunity. The other captives could clearly see the nipples of both women standing up firmly, redness on their breasts from the incredible suction that had been placed upon them.

Suddenly, Marissa and Joanna's brief silk bikini panties were ripped away, leaving them completely naked!

Shocked, the eight corralled women watched Marissa and Joanna suddenly being inverted by their feet, their heads dangling down, and staring right at them, monstrously huge hideous slimy raging hard cocks almost right in their faces!!!

The others saw the genetically modified gorillas raise Marissa and Joanna up by their legs, watched their legs being spread widely apart, watched as the Gorillas buried their faces into upturned naked pussies and began licking!

Marissa and Joanna felt the Gorillas lasciviously stroking their clits with their hot powerful tongues as each woman again started wildly flailing her arms doing her best to strike but fists just rebounded off hard chiseled broad chests and nails failed to render flesh. Their rage exponentially grew as their violent actions inadvertently made the immensely thick and hard slimy cocks repeatedly hit their faces, slime coating their lips, lips and their mouths instantly tingling from the slimy contact containing potent sex hormone and pheromone secretions. Then suddenly, Marissa and Joanna felt a surge of heat suffused their bodies! An intense heat that was a combination of rage and unbearable lust! Oral and dermal absorption of the penile secretions having an almost instantaneous affect upon the systems of the two women!

Repeated outrage indignant shrieks suddenly ripped from each woman as each felt impossibly long powerful tongues forcibly driving into their pussies to depths never before reached by human tongues! Their pussies lavishly tongue fucked and then alternately their anus's equally assaulted with gusto! Their clits sucked painfully hard engorging them even more. The blazing hot tongues much, much longer, immensely more powerful and immensely more flexible than any human tongue ravished both pussy and ass of the two women...

Maggie's own attentive gorilla seemed content, for now, with just smelling and touching her and tracing her tan lines as he continued slowing dragging her pussy back and forth along his rough bumpy cock. Maggie growing more horrified as moment by moment she could feel her pussy becoming increasingly inflamed with involuntary arousal as the potent secretions from the gorilla's cock penetrated through her thin silk panties, horror and rage growing feeling her panties gradually sliding off to the side, and then shock, feeling the bare skin on skin contact of the rough hideous bumpy eleven inch long inhuman cock against her outer labia.

Occasionally, an equally long powerful hot tongue would snake out and lick her neck or her bare breasts and nipples, but it seemed more intent on watching what the other gorillas did to Lisa,

Joanna and Marissa and their reactions – more as if he was a spectator at a sporting event!

Suddenly Maggie felt an inferno erupt between her legs! The intense sensation inexorably drawing her eyes downwards to where the massive slimy rough bumpy cock was seesawing up between her legs. Maggie's horror growing as she saw her panties completely displaced off to the side! Her horror at the extent her now exposed labia had hotly swollen to! How the hideous massive weeping cock was now seesawing up in-between her extremely swollen parted labia!

Lisa's loud shriek momentarily distracted Maggie from her own predicament. Lisa's long tanned athletic legs were trembling as the gorilla continued forcibly tongue-fucking Lisa's pussy! Her hard nipple breasts heaving up and down with her heavy breathing, her flat stomach undulating and her abdominal muscles fluttering under the massive oral assault.

Maggie was astounded by the intense violent oral sexual assault upon Lisa, Joanna, and Marissa! Maggie frozen as she watched Lisa's hips began an involuntarily sexual response bucking up and down upon the rapine thrusting six inch long tongue! Momentarily Maggie forgetting her own almost completely nude body and her own predicament and of the unusual intensifying tingling of her most intimate areas where the gorilla's copious secretions had come into contact...

The eight other captive women, tightly grouped together, stared at Marissa, Joanna and Lisa being lasciviously tongue raped by impossibly long and thick tongues, each astounded at Lisa's involuntary sexual response as she seemingly was fucking her pussy onto the gorilla's huge powerful tongue! The eight women pressed closely against each other, gaining strength in their numbers, yet each aware of the growing sexual heat emanating from their own bodies and the bodies tightly pressed against them as well as the increasing unduly rage...

The feet of the eight women shuffled nervously as hot thighs pressed tightly together. Each of them realized they were being affected by the gorilla's pheromones. With incredibility, every one of them were keenly aware that they were becoming increasingly aroused at the forced pleasuring Marissa, Joanna, and Lisa were being subjected to.

Several of them recognized that their own arousal began intensifying upon seeing Maggie's shirt being violently ripped off, then clothed in only her brief silk panties, Maggie being forced to straddle one of the gorilla's humongous cocks and his cock seesawing between her widely spread legs against her barely covered pussy. Others dimly recognized their arousal intensified during the chase when Marissa, Joanna, and Lisa's clothes were slowly ripped asunder. Other's recognized their arousal exponentially grew as near naked Marissa, Joanna and Lisa began physically attacking the gorillas...

Now Marissa and Joanna were being dangled upside down with their legs spread in a wide **V**! Their beautiful fully nude tan contrasted hard ripped bodies on full display, their firm full generous hard nipple breasts being pulled by gravity – and the gorillas' fully plunging what appeared to be six inch long tongues alternately into their pussies and asses!

Lisa was laid out on the ground, with her legs widely spread, a gorilla latched onto her pussy. Lisa's hard nipple breasts were heaving up and down with her heavy breathing, her flat ripped muscular stomach undulating and her abdominal muscles fluttering under the massive violent oral assault as they watched Lisa's hips in an involuntarily sexual response bucking up and down upon the rapine thrusting tongue. Lisa's bodily responses clearly evident to each one of them she was vainly trying to prevent from climaxing!

The looks of the eight women lingered at the hard monstrous shafts being displayed by each of the gorillas, their gazes torn away back to Marissa and Joanna each time one of them would renew a

scream of outrage. Then as one, the eight women were startled as Lisa emitted a shrieking piercing orgasmic scream that went on and on.....

With dread and horrible, unreasonable anticipation, they awaited what would happen next...

## **PART 7**

Suddenly the gorilla flipped Lisa over onto her stomach and knees, her firm curvaceous cute ass was roughly hoisted into the air, Maggie, Joanna, and Marissa soon found themselves in the same positions....

"NO! NO..No noooooo..."

Lisa diminutively wailed...

Maggie felt the huge genetically modified gorilla repeatedly snuffling her sex. With a lightening quick yank, her panties too were ripped off! Suddenly an incredibly powerful and incredibly hot tongue slashed through her swelling labia openly parting them again! Again, and again the gorilla repeatedly slashed his powerful hot tongue through Maggie's parted labia and over her now swollen clitoris as he lasciviously licked her pussy. To her disbelief, Maggie could feel her clit grow even harder, painfully hard! What more, Maggie could feel herself becoming intensely aroused despite the horrible situation they all were in!

Maggie sensed the tingling sensation in and around her pussy and anus she had previously felt had exponentially increased! Then the gorilla began darting his broad, long muscular tongue into her tight vaginal entrance! Maggie bore down with her Kegel muscles, trying to keep his tongue out but his tongue was just too powerful! She began to feel it snaking its undulating way into her vagina! Disbelief at the size and the heat of the powerful muscular organ! More incredible, disbelief at the depth the tongue was delving to, sinuously repeatedly slipping in and out of her pussy! Deeper than the few men she ever had! Deeper than any of her dildos!

After a minute or so Maggie felt the tongue withdraw then was immediately shocked feeling the sensation of the powerful tongue tip circling her tight anus! Quickly Maggie bore down with her sphincter creating a tight barrier to her most intimate erogenous area. But Maggie begin feeling the tongue tip batter away at her tight anal entrance!

Then Maggie despite how hard she clenched her anus felt tip of the tongue invade her ass! The tip began darting in and then back out, picking up speed as it thrust repeatedly forward and rapidly withdrew, only to be thrust forward again, the tip just barely penetrating past her anal ring.

It was not long before Maggie could no longer keep her sphincter tightly squeezed closed, and her defenses slowly but rapidly began to break down as she felt the tongue delve ever deeper past her clenching sphincter! Then Maggie felt her sphincter became involuntarily spasmodic as the tongue slowly began surging into her! Her spasming sphincter allowing greater access! Maggie felt the powerful hot tongue began lavishly tongue fucking her ass! Shocked that the gorilla could get his huge long tongue into her small tight ass! It wasn't until some time had passed that Maggie realized she was involuntarily undulating her hips in sexual response onto the deeply ravishing tongue...!!!

Then inhumanely hot hands gripped the cheeks of Lisa's firm tan-contrasted ass as the gorilla prepared to mount the lithe curvaceous statuesque blonde. The gorilla began to raise and lower himself against her body and her now widely splayed legs, all her erogenous zones nakedly bare and

open to the hot massive body pressed against her. Shortly thereafter, Lisa felt the just barely tolerable inhuman heat of his humongous slick rough cock against her pussy, than felt the slick ribbed rough cock began sliding against her swollen labia, the sensation making her labia involuntarily swell even further than it has ever before...

~~~~~

PART 8

Joanna and Marissa watched with mounting horror as Maggie was subjected to the same similar preparation as the gorilla's massive member further hardened and began to creep out over Maggie's firm small buttocks, emerging toward and then over her tailbone, starting to show the evidence of it's truly enormous length!

The look of horror on their faces drove Maggie into panic as she could only feel the humongous massive organ start slowly and repeatedly sliding up and down between the now open cleft of her parted naked ass cheeks! Maggie imagining in her mind, the massive hot member as the size of a baseball bat!

CLOSE!

The gorilla pulled back from Maggie to the point where the cock tip of his massive organ was now rubbing directly between the parted buttocks and began slowly gliding down to Maggie's pussy...

Likewise the same was now happening to Joanna, Marissa and Lisa...

Then, each woman felt something massive and hot briefly prodding at their tightly puckered anal entrances, which then slipped down between the cheeks of their asses, down to...

Hot tips of huge cocks touched highly aroused inflamed female sex...

The cock tips were exceedingly hot! The gorilla's body heat of 116 degrees Fahrenheit due to their genetically engineered physiology and high metabolism! Each of the women recoiling from the heat of it touching their incredibly sensitive pussies. Then each of the four women felt a heated cock tip glide over and then through the length of their own hairless pussies...

A surge of heat blossomed where the secretions from the cocks had touched their sex, followed almost instantaneously by all three women feeling themselves begin copiously secreting freely...

Once, twice, three times the cock tips gently glided over their anuses and pussies, each feeling the hard, ribbed and bumpy rough textures of the massive organs, all four women tightly clenching pussies and asses to prevent the intended further sexual violation of their bodies. However, on the fourth sliding pass, each felt the furrow of her swollen labia lips openly part in reaction to the caressing, sliding motion of the extremely hot cock tips and from the stimulation of the roughly ribbed and bumpy slimy shafts...

With shock, Lisa sensed her swollen labia had openly parted and now her parted labia was sliding on either side of the slimy cock as the massive shaft was slowly thrust up and down her swollen parted labia furrows!

Lisa could feel each hideous ridge and warty bump as the huge massive wide cock repeatedly sluiced back and forth through her swollen openly parted labia, the way the gorilla was leaning on her was also forcing her hard clit against the sliding ribbed and bumpy shaft.

Initially Lisa could not comprehend how her body involuntarily had shockingly sexually responded nor the quickness of the response! Then she remembered the gorillas had been modified to emit powerful sex hormones and pheromones, how they were biogenetically engineered to secrete sex stimulants from their penises and that was why their cocks were so slimy - that their precum as well contained powerful sexual stimulants!

Then Lisa forgot about all this, as she felt a tremendous pressure began to be exerted against her tight vaginal opening...

With painful short jabbing thrusts at their involuntarily aroused pussies, the gorillas tried to jam their monstrously oversized cocks in to vaginal entrances that were too tight and narrow that were not meant to accept, let alone accommodate, cocks anywhere near the thickness or length that were now attempting to rape into the four women!

The women felt the incredible heat and the slimy rubbing and pressing continuing against their inordinately swollen labia lips. The penis heads felt incredibly large and each of them quickly reassured themselves that the cocks would be too big to enter their tight vaginal openings, especially when each of the women were bearing down hard with her vaginal muscles. Lisa, Maggie, Joanna, and Marissa found scant relief with the realization that the immense penises were too huge to ever be able to penetrate...

The penile heads began alternately insistently jabbing, then rubbing and sliding up and down their pussies!

In shocked reaction, each of the three women felt the tight entrance to her inner region rubbed and pushed against as each felt an intense heat began coursing through her that centered at their tight vaginal openings. Each of the women in turn began to feel excruciating tremendous pressure exerted against too small and tight vaginal entrances as the gorillas attempted to jam the monstrous sized penis heads into them!

Each of the women began screaming anew in rage at the attempted forced sexual violation of their bodies. Their bare feet drummed against the sand at the unbearable pressure being bluntly forced against too tight entrances, vaginal muscles being painfully stretched as each of them felt as if they were going to be ripped and split as the huge monstrous cocks forcibly tried to rape into them!

SQUIRT!

All four women suddenly jumped and screamed even louder! Feeling hot powerful jets of 116-degree liquid heat pre-cum begin explosively squirting against their pussies and anuses! Despite their violent struggles to break free each were held fast in place by the massively strong gorillas.

Powerful jets of the copious liquid heat continued squirting onto exposed vaginas and anuses, each woman felt a powerful tingle swept thru their loins upon the liquid contact as the extremely potent and fast acting lubricating sexual hormone stimulants instantly started making their bodies sexually react involuntarily intensely and violently.

And then it felt like an intense fire of sexual heat had erupted on their genitals as blood was instantly diverted from other parts of their bodies which then suffused and swelled their groins and vaginal area with the diverted flow!

Female adrenaline and sex hormone glands went into instant hyper-drive overproduction dumping massive quantities of adrenaline and sex hormones into their systems! Each of the four women feeling an unbelievable swelling of their reproductive and sexual organs to enlarged states way

beyond any normal human conception!

Intense, unbelievable levels of sexual arousal beyond any human experience instantly surged through their bodies as each experienced an induced sexual libido way beyond any human experience!

In horror Lisa, Maggie, Joanna, and Marissa felt their labia lips engorge to a state neither one had ever experienced! Swelling with heat and blood and distending to a fullness like never before! Labia's visibly pulsating, openly spreading apart like the petals of a flower exposing their tight vaginal entrances. Their clitorises also were swelling way beyond normal human proportions becoming hypersensitive, plainly standing out and visibly throbbing with each thundering beat of their hotly pulsing blood.

Similarly, the hot jetting fluid had coated their exposed anuses that were revealed on all four women when they were pushed onto their hands, stomachs and knees and made to splay their knees widely apart parting their tight muscular curvaceous butt cheeks. Unbelievably, all four women felt a sense of arousal emanating from these exposed intimate areas as well, three of them having previously and more than once participating in this other form of sexual intercourse.

Their growing horror was almost outstripping the growing pleasure of intense arousal in this most intimate erogenous area - but pleasure quickly won...

Each of the four women could not resist looking under and seeing rivulets of precum flowing in a steady stream off her pussy, off her visibly throbbing protruding clit, shocked at the unbelievable abnormal size her clit had swollen to! Stared at the thickly ribbed and bumpy shafts as they repeatedly slid thru their opened and parted labia clefts, over hard swollen hypersensitive clitorises and then back down, bumping their vastly enlarged clitorises and inflaming sexual desires to a fevered pitch each had never before experienced by the physical feel of these enormous rough penises and the potent hyper-sexual stimulants that the penises were spreading over their genitalia!

Their disbelieving eyes intently focused on the long and massive ugly invaders seesawing back and forth through their swollen parted labia clefts and up and across their hard protruding throbbing clitorises, the cock tips reaching waaay past their navels before sliding backwards to begin again, each of them feeling continuous hot tingles in her erogenous zones!

The huge, hideous cocks!

They were soooo long, soooo thick, and oh sooo rough!!!

Each of the women were shocked with incredulous disbelief of the proportions the inhuman cocks had now swollen to - extremely vastly longer and much thicker than any of the dildos each woman had or ever tried! But it didn't take more than several seconds of distracted thoughts of the intense unbelievable pleasurable feeling of the hot 116 degree fluid jetting against them for the massive cocks to again find the tight entrances to their glistening, and now ready pulsating vaginal entrances...

Despite their involuntary artificially stimulated intense sexual arousal, each one of the women was startled at the renewed hot jabbing of the broad blunt spear at their tight vaginal openings!

One by one each felt the tip of the cock slide between her openly parted labial folds with ease, swollen openly distended heated labia lips spreading around the hot tips of the inhuman cocks, the cock heads being set in place but the rapidly widening thickness of the cock heads slowed and then stopped at the initial outer penetration of their tight vaginal entrances! Tight vaginal entrances were

strained as they didn't want to stretch enough to allow the thickening shafts to enter...

~~~~~

## PART 9

### *SQUIRT!*

Each woman was shocked into being stationary motionless!

The sensation of feeling as if just the tip of a massive hot spurting dildo was suddenly ejaculated with immense explosive jetting force directly into her pussy!

Each of the four women felt a powerful 116-degree jet of the potent lubricating sexual hormone stimulant being directly injected into and pass their tight vaginal openings!

In scant seconds the sexual stimulant precum liquid had their vaginal muscles involuntarily contracting in repeated powerful violent sexual contractions! A blazing heat suffused through their entire bodies! Their pussies felt as if they burst into an unquenchable sexual inferno at the same time an insane, unbearable, and undeniable urge to fuck something, *anything!* powerfully pulsed and thundered within their sexually spasming pussies!

Lisa, Maggie, Joanna, and Marissa each felt an unbearable and irresistible insatiable need to drive their pussies onto anything thick, hard and long to *FUCK!* To release the numerous tenuous orgasms each felt building within her, ready to explode like a series of nuclear bombs! Repeatedly, hot jets of sex stimulant laced pre-cum penetrated into the now rapidly involuntarily contracting vaginal openings and each one of the women felt like a hot liquid cock was fucking their pussies though no actual penetration by the massive cocks had yet occurred!

An irrational part of their minds wanted to feel the huge inhuman hot cocks begin fucking them! To assuage the insatiable sexual hunger that had erupted within their vaginas! To be monstrously completely filled like they have never been before! Their undeniable lustful feelings made them rage even madder that they were being subjected to attempted forceful rape by such monstrous creatures...

The genetically modified gorillas were impatient now, holding the women by their wrists with their hands held straight out behind their backs. The gorillas pulled back and then began thrusting forward against their tight vaginal openings, holding the women's pussies tightly against their massive cocks, trying to force their huge bestial cocks into human vaginas that were not evolved to handle cocks of this immense size...

Lisa, Maggie, Joanna and Marissa were caught off guard when each felt her back being forcibly flexed, arcing to an extreme curve hoisting their asses up into a mounting position! The gorillas pulled back again and this time Lisa Maggie, Joanna and Marissa instinctively flexed their abs and backs to take the blunt penile thrusts as they were bent back and held against the attempted impalement upon the massive inhuman bestial shafts, their pussies held tightly against the broad squirting tips of the cocks...

Near scalding hot jets of precum continued exploding past tight vaginal entrances and penetrating deep up inside the four women! Shocked to their cores by the powerful heated copious influx, each woman involuntarily relaxed just enough for the cockheads to wedge partially in each respective tight vaginal openings! Suddenly each one felt their vaginal openings stretched wider than had either of them ever experienced as fist sized penis heads wedged into their tight, narrow

entrances!

Unbelievably, the women felt even more stretching begin...

Again, the cockheads smashed into their now wet and barely opened tight vaginal entrances, stretching and forcing their vaginal entrances to dilate even more!

Lisa, Maggie, Joanna and Marissa renewed screams of rage and sexual pain at the unbearable pressure being bluntly forced against too tight entrances, vaginal muscles being painfully stretched as each of them felt as if they were going to be ripped and split apart as the huge monstrous cocks forcibly tried to rape into them! The four women groaned as the genetically modified gorillas pulled back for another thrust, again smashing against their vaginas, expanding their tight entrances even more as their legs wildly flailed about as piercing shrieks of sexual pain and rage rebounded against the grotto's walls.

Feeling the slight breech in the hot, super-tight confines of the human pussies the gorillas changed tactics...

The gorillas' pressed up against them, making small hard jabbing thrusts while holding their cock tips nestled in place pressed up against their too narrow vaginal entrances. Lisa, Maggie, Joanna, and Marissa were forced to flex their backs even more and arc it back to be able to take the hard jabbing thrusts. This position made the tip of the penis push against them at a new angle and for a split second each felt her vaginal muscles give!

Vaginal muscles were now too long strained trying to prevent their rapes and very gradually began tiring. With this, the tips of the cocks gradually began penetrating incrementally deeper, their swollen labia lips spreading around the broad flared coronal ridges of the monstrous size of the inhuman cocks.

Lisa, Maggie, Joanna and Marissa screams grew in pitch as each felt their tight vaginal entrances painfully stretch further and further, felt the coronal ridge of the cocks begin forcibly slipping past the nearly ripped band of their outer vaginal muscles. Piercing shrieks from all four women reached a crescendo as the coronal ridges slowly made it past the tautly stretched band of outer vaginal muscle. Unbelievably, each woman let out an even louder sudden piercing scream of outrage and pain feeling the broad penis head get past her tight outer muscular defense!

Each of the four women explosively blew out loud UNGGHHs! out of their mouths as their eyes got huge with the intense pressure each suddenly felt inside of her! Felt huge cock heads enter too tight entrances fully! Broad cockheads passing their entrances and burrowing into their narrow vaginal sheaths expanding their walls!

The incremental advance of their massive cock heads halted when their vaginal muscles spontaneously clamped down when each woman was tripped into Vaginismus spasms, trapping the cock heads within their constricted openings. The gorillas thrust repeatedly but their trapped cockheads were temporarily not penetrating any further...

Then Lisa, Maggie, Joanna, and Marissa erupted in loud continuous screams as each felt the fist-sized head pull out slightly and then thrust in again! Trying to go deeper, expanding their vaginal sheaths to its limits! Each woman felt the shafts suddenly stiffen even more than they had been, growing to an even more incredible thickness inside them, spreading them even more until they thought they would rupture! More so, each of the four women felt a sudden intense warmth suffuse within her in reaction to the potent sex stimulant secretions of the invading bestial cocks, which further drove their female sexual hormones into hyper overdrive production and inflamed their

arousals. In reaction, this allowed the massive cocks begin to penetrate deeper...

The brutal knobby ribbed members grated against silken, tightly clinging narrow vaginal passages that were in full Vaginismus spasms which slowed the massive raping invaders.

Bestial penises were not yet even a quarter of its monstrously long eleven inch length into hotly aroused vaginas as the gorillas brutally rape fucked their massive cocks slowly, but gradually deeper, into tightly gripping involuntarily convulsing female passages.

Lisa was finally able to let her breath out in a loud drawn-out shrieking scream from being filled as she has never before been filled! With each thrust into her, Lisa felt the creature's massive penis poking far beyond where anything else had gone before! Relentlessly jamming its huge cock into her tight pussy deep enough that she thought her insides will be forced out of her mouth on the next deep thrust! Low guttural moans escaped her lips as Lisa felt the massive cock incredibly slowly bury itself ever deeper inside! Lisa could only imagine this is what fist fucking must feel like!

The large hard shafts pushed deep within each of the women causing them to let out loud shrieks with each thrust. The penis was pulled back, only to be thrust inside again. Its thickness filling each of them expanding each vaginal sheath as it was moved in and out through their tight, convulsing clutching tunnels, their rippling too small vaginas keeping the violent thrusts slow.

Each of them could feel every slow hot painful wide inch advance deeper into their clutching spasming pussies even as the eleven inch long thick ribbed organ, visibly swelling to an even greater girth, began to slide deeper into each of them with each hard violent thrust. Low guttural moans escaped their lips as bestial cocks were slowly buried deeper inside, the deeper the massive bestial cocks went moans became shrieks, shrieks then became screams as the cocks thrust ever deeper, increasingly harder, ever more rapid, swelling to even greater girths...

The tempo of the thrusting slowly increased as the woman's bodies adjusted to the massive invaders. Without the stimulating pheromones and secretions drastically affecting each of them it would have been *almost* inhumanely possible to accept these massive cocks! The harsh breathing of the women increased as they expelled loud gasps in-between screams each time a massive cock pummeled into them.

Maggie was able to glimpse several glances at Lisa, astounded to see that the creature was able to penetrate Lisa with his seemingly miniature horse-sized cock, even more shocked that Lisa was able to stretch enough without tearing to accommodate the huge width of the cock! Now Maggie wondered if Lisa as well as the others could accommodate the long lengths as well. And what about her own predicament... Maggie was unable to tear her gaze away from Lisa and at the huge gorilla raping Lisa with his massive cock. Maggie visually seeing what was been done to Lisa that she herself could not see being done unto her...

~~~~~

PART 10

With violent bestial lusts unleashed the gorillas now began savagely raping waaay too small and waaay too tight human vaginas with seemingly miniature horse-sized cocks with girths swollen to more than two plus inches in width! Despite the sexual pheromones and slick penile stimulating secretions making their vaginas copiously seep, each woman felt as if she would be split in two! Piercing shafts of wet fire stabbed and roared through their pussies as the four gorillas held the four women tightly, using them as fuck playthings.

Every one of the women were only able to revert to loud breathless grunts, gasps and moans as they were subjected to powerful thrusts, each of them felt as if their hips may become dislocated as gorillas tried to lunge their massive hideous cocks into passages way too tight and way too small for their oversized appendages.

Oddly enough, each woman gradually realized the knobby ribbed cock brutally thrusting into them no longer grated inside her but had become actually extremely stimulating - each horrible exquisite inch! At almost the same time, the four women came to a point when each reached intense levels of rage as well as primal carnal desire artificially induced into them from the potent secretions of the genetically modified gorillas, each realizing she was on the brink of totally giving herself up to both sensations!

Their only saving grace making the monstrous brutal bestial rapes bearable was the same pheromones and secretions elevating their sexual ecstasy to unworldly highs just barely mitigating the intense pain of the massively thick and incredibly long eleven inch cocks being brutally fucked into them!

Lisa, like the other three, was terrified but then felt herself becoming quickly outraged as she felt her body rapidly began to betray her!

Each of the four women raging at the intimate brutal violation of her body!

Yet the precum and secretions of the genetically modified gorillas were involuntarily sexually stimulating an uncontrollable instinctive need to hump her pussy onto the massive raping cock! Each of them raging further as each felt her body involuntarily start to move with the rhythm of the creature, desirously responding to the rape, and uncontrollably, each of the four women began humping her pussy *FUCKING BACK!* Trying to wedge the two plus inch wide cocks into tight, highly aroused seething pussies! Hips bucked and twisted out of sheer reflex, backs arching uncontrollably as each of them started screaming, continuously, as the first blind twinges of body racking orgasms sent their warning throbs through their hypersensitized nerves...

With a tremendous shock, Lisa suddenly realized her clitoris had become hypersensitive! Lisa unable to contain herself bent her head and looked back between her legs...

What she saw blew her mind!

Her abdomen bulged out! Stretched further than humanly possible!

It looked like a baseball was under her skin moving up and down! Incredulous, Lisa realized that that her body was adjusting to it! Her eyes grew wide with incredulity, lust, and red rage as she saw how much of the huge and hideously ugly cock was still waiting outside her body to be forced into her! The copious secretions of the gorilla and her own uncontrolled secretions whipped up from the rapine fucking into a thick bubbling white froth surrounding her pussy and dripping off. Her entire body was shaking and trembling like a leaf in a storm from the massive influx of artificially induced sexual hormones and stimulants running amuck in her system.

Lisa was doubly shocked how unnaturally grossly swollen and distended her clitoris had become! Swollen way beyond any normal proportions, plainly standing out, visibly throbbing with each beat of her hotly pulsing blood. With a trembling hand, Lisa could not resist reaching beneath her and touching her greatly swollen clitoris...

Her tentative touch upon her clitoris sent Lisa into a spasming screaming orgasm!

She found she could not remove her manipulating fingers as she unwantedly prolonged her orgasm...

Each of the four women began feeling the huge hot throbbing massive cocks thrust deeper, spreading and stretching her pussy further than it had ever been! Being forced to push their hard swollen engorged clits onto the bumpy rough rigid cocks forcing their hyper swollen clits to ride against the long thrusting rough bumpy shafts. Each woman becoming more and more enraged feeling the massive rough cock spearing ever deeper as they continued fighting and jerking like an impaled frog - and impaled each of them were!

The violent resistance of each woman clearly encouraging their rapists as the gorillas became ever more violent and brutal in their fucking of the four women yet the incredible indescribable intense pleasurable sensations was eroding each woman's fight response. Then, persistent thrusts against their cervixes began as each felt a squirting cock tip repeatedly touch their cervixes and shockingly felt within them their swollen cervixes began to dilate...

The stimulant sex pheromones, hormones and penile secretions had now thoroughly done their intended engineered functions as each woman felt carnal primal savage desires rage anew and each let herself be carried over the brink as she rode into a sexual incandescent inferno!

Lisa, Maggie, Joanna, and Marissa instinctively widely spread their legs and deeply arched their backs - tilting firm curvaceous asses up into the massive raping cocks, forcing their grossly swollen and hypersensitive clits to ride hard against the rough bumpy thrusting cocks, screaming their outrage as fully unbridled savage bestial primal lusts that had lain suppressed within each woman burst free - never to be confined again...!

The other women watched, fearfully but intently horribly fascinated! Unable to tear their eyes away, seeing their impending fate, of massive bestial cocks thrusting into their friends, shocked at the sexual fury - shocked at the overwhelming sexual passions each of their friends were exhibiting as they frenziedly started fucking their rapists back!

The eight women knew their companions would never be the same again, nor would they be if the gorillas turned their bestial lusts upon them!!

The eight other captive women stared as inch after inch of rough impossibly massive cocks were repeatedly drawn out of too tight passages with loud schlepping noises and then plunged back in traveling deep inside almost to each woman's core! Firm curvaceous female buttocks quivering with each deep thrust as the gorillas repeatedly slammed into them, trying to drive the remainder of their oversized eleven inch cocks into each raging, convulsing, repeatedly climaxing woman. Huge cantaloupe-sized testicles swinging ever closer to up tilted pelvises till they were resoundingly thumping against firm shapely tan-contrasted asses – each woman now wildly thrashing her impaled pussy wildly from side to side, up and down, trying to painfully bend her rapist's thrusting cock! Every thrust seemingly bringing another shrieking climax from each of the four women, cascading body-racking orgasms captivating mind and body like an addictive drug...

Immensely swollen outer and inner labium's tightly clung to the massive organs as they were pumped in and out. The cocks were now somewhat but still not easily being plunged into them which further increased the passions of each woman as the hot massive more than two inch wide members pistoned into powerfully contracting clutching pussies, almost fully withdrawing, then again plunging deep into their tight rhythmical contracting vaginal depths...

“FUCK, FUCK, FUCK, YES!

FUCK ME YOU BASTARD!

SLAM MY CUNT - HARD!

FUCK ME!!!”

The crude emotional exuberant orgasmic cries passionately shrieked out by Lisa, then resoundingly joined in by Maggie, Joanna and Marissa shocked the other captive women to their cores as they stared with incredulous horror – and fascination!

The other captive women becoming increasingly incredibly horny beyond anything they had ever experienced from the airborne sex pheromones of the gorillas that accompanied an insane blinding rage building within each of the eight women! Affected by the emitted pheromones even from where they were being guarded they witnessed the most lustful, wildly erotic, horror fantasy pornographic scene each of them had ever seen! Even as the eight other captives watched, their four companions being subjected to violent savage rapes exhibited a renewed burst of maddened frenzy!

Lisa, Maggie, Joanna, and Marissa exhibiting unrestrained primal lust and fury of animalistic fucking! Watched each other as they incredibly tried to get more of the massive cocks to thrust in by their wide knee stances, arched back postures and thrusting back to meet the oncoming rapine thrusts slamming into them...

Lisa, Maggie, Joanna and Marissa could feel their breasts swelling from the sudden influx of massive quantities of hormones involuntarily triggered by their rapist's secretions, their nipples diamond hard as their full firm perky breasts jolted back and forth in time with each powerful pounding rocking thrust! The incredible force of the thrusting almost made each of the four women lose their balances as they were shifted around as each of them violently raged upon the thrusting rapine cocks even though they all had their knees widely splayed and their arms held behind them!

Then one, then the other of the four women were lifted bodily as the gorillas reared back, now holding the women in the air by their hips, freely thrusting the women up and down their massive shafts, their pussies impaled on throbbing massive organs, bulges sliding under flat ripped taut abdominal muscles as the monstrous cocks glided in and out of hotly aroused slick pulsating pussies.

The eight other captive women could not stop staring enthralled as the massive cocks withdrew and then thrust back in almost to their root! Only tight narrow cervical entrances preventing further penetration of the full eleven inches of cock! Even with the realization it was rape, there was an unfathomable horrible irresistible allure about it as the eight other captives stared fascinated as they watched Lisa, Maggie, Joanna, and Marissa actually savagely fucking their rapists back!

Each one of the eight other captives were all horribly horny more than any of them had ever been! Each woman felt her heart pumping faster, breathing heavier, an incredible sexual irresistible desire seething deep within their heated highly aroused weeping pussies to feel a cock thrusting into them! More than a few low lustful moans escaped from tightly clenched lips at the sight of the four women being raped by hideous monstrous cocks beyond imagination! How Lisa, Maggie, Joanna and Marissa each exhibited a wildly insane sexual frenzy as they savagely fucked back against their rapists as seemingly continuous shrieking orgasms exploded with body shaking ferocity from each of them...

The gorillas began setting the women back down. Each woman spreading her knees widely apart on her own volition to continue accepting the huge thrusting appendages even as they continued fighting against their brutal sexual assault! The eight waiting women could see each of them were furiously fucking back with everything they had! The sexual savageness of it all! The raw bestial lust expressed by both the huge gorillas as well as each woman being raped!

~~~~~

## **PART 11**

Violently and brutally, Lisa, Maggie, Marissa and Joanna were forcibly sexually ravished to excess! One after another earth shattering body racking orgasm thundered through each of their taut athletic quivering bodies to explode shrieking from wide open mouths!

The multiple almost continuous cascading orgasms along with the sexual stimulant secretions dilating their cervixes to allow even deeper penetrations...

With the cervical dilations of each woman beginning, it allowed rapine bestial cocks even deeper penetration, actually into their uteruses...

Eleven inches slowly thrust into their vaginas and pushed thru the tightly constricted cervical passages and then slightly withdrew. Then, each woman let out a loud drawn out unhindered lustful groan as a full eleven inches slowly slipped in and then partially withdrew. A seesawing thrusting began as each woman felt the tips of the humongous cocks pushing the back wall of their uteruses on each inward thrust... a thrusting that grew in tempo, that became ever more harder, ever more violent...

As Lisa, Maggie, Joanna and Marissa each felt the tip of the cock penetrate the entry of her womb each woman threw back their heads and released long howls! Sweat was running off their bodies in torrents as their painfully hard nipple breasts heaved as they felt the wide massively long cocks begin thrusting deep into their uteruses!

The women audibly sucking in huge breaths of air as the massive cocks thrust and began swelling in their tight uterine tunnels causing both women to begin Lamaze like rapid breathing in and out! With unbridled and never before exhibited primal passions unleashed from the very depths of the still resident primal areas of the human brain, all four women again began thrusting forward and backwards on the throbbing monster cocks more than two plus inches in width taking eleven inches in and out with each push and pull fucking the massive shafts like they have never done for any other lover as they mimicked the primal acts of our ancestral genes!

Each of the four women being raped began matching each brutal thrust unto her as each felt the gorillas entering her to the root! Their huge cantaloupe-sized testicles now resoundingly slapping against the firm tan contrasted cheeks of her ass, the thrusting more violent and faster now, large swollen breasts jolting with each pounding thrust! Lisa, Maggie, Marissa, and Joanna's entire bodies were in movement! Just as violently as their brutal rapists, each of them were pushing back, grinding herself against the huge hideous bestial cock in her pussy, buried all the way in her, embedded within her womb! Each in the throes of raging primal sexual ecstasy!

All thoughts blotted from their minds by the sheer, savage animalistic lusts that rampaged within each of them imparted by the potent sexual secretions of the genetically modified gorillas!

Fully eleven full massive bestial inches were sawing in and out of each woman as the thrusting increased in tempo and as more and more cock was withdrawn with loud sucking noises and then thrust back in with loud squishing noises. The massive cocks were now rapidly thrusting deeply in and out of their wombs, powerfully stimulating their wombs; amazingly, the girth of their bestial shafts more than two inches in width! The four impaled women now feeling the hot ejaculating precum deep within! Feeling not only the massive thrusting organs but also a building pressure of fluid akin to a water balloon being slowly filled inside their wombs, which combined, will soon culminate into an intense powerful first ever uterine orgasm for each of them!

~~~~~

PART 12

Lisa, Maggie, Marissa, and Joanna began feeling a swelling protuberance banging against their vaginal entrances, like a ball trying to be forced in, the stimulation of which set off renewed lustful primal violence of fucking back against their rapists! Several thrusts later and with a violent thrust

back from each woman the ball like protuberance passed through! Upon passage, each woman emitted a loud strange piercing shriek that was part pain and part orgasmic! Almost immediately, another shriek erupted from each of them as they felt the deeply embedded cock tips push firmly against the back wall of their uteruses!

The huge cocks started thrusting hard into them, deeply fucking into each of them, ravishing each unto the core of their womanhood! Each deep thrust reach into their uteruses and hit the back wall of the uterus, stretching their uteruses upwards into their body cavities, thrusting their full eleven plus inch cocks into them!

With each thrust, every woman emitted a high pitch orgasmic scream of being so completely so filled! Reveling in feeling every rough incredible massive inch slide in and out of their convulsing contracting pussies as it extracted one massive climax after another from their orgasmic bodies!!!

Lisa, Maggie, Marissa, and Joanna became dimly aware of a swelling just inside their vaginal entrances that was swelling to huge proportions and exerting tremendous pressure against their G-Spots! In their sexual depravity they did not notice the thrusting diminish as each woman strove to keep thrusting her body back against her thrusting rapist. Instead, each felt a wonderful hot hard fleshy bulge swelling to immense proportions inside them swelling to the size of a softball! Each woman ground their G-spot against the immensely growing bulge with unbridled primal lust! Feeling the intensifying incredible pressure against their sensitive G-Spots, feeling powerful hot jets squirting far and deeper into their bodies, a hot filling warmth developing and suffusing their entire abdomens...

The women loudly moaned un-abashedly, rocking their slim hips and cute firm asses into the wonderful thrusting bestial cocks, feeling huge pulsating throbbing bulges grind away at their G-Spots, feeling heavy huge balls slap against hard protruding sensitive clitorises, reveling in the jets of hot pre-cum that now spurted directly into their wombs!

The hot pre-cum was exploding deep into their wombs like a fire hose squirting hot water in powerful pulses; they could feel each jet of pre-cum hitting the walls of their wombs! It seemed endless! Moreover, each woman did not want it to end! They could feel their pussies and wombs swelling even further from the inside suffused with the blood rushing from other parts of their bodies to their sexual and reproductive organs as well as from the immense quantity of adrenaline and sexual hormones being dump into their systems triggered by the furiously intense fucking, and from the copious quantity of sex stimulating fluid being ejaculated into them. The softball size bulge kept the cock and pre-cum locked inside their pussies! There was nowhere for the immense building quantity of fluid to go...

Suddenly and almost simultaneously, Lisa, Maggie, Joanna, and Marissa were overwhelmed by the most intense repeated body racking, earth shattering, multiple orgasms they had ever experienced! Each of them loudly screamed with ecstasy as the triple whammy of uterine, G-Spot and clitoral orgasms overtook each of them which triggered each of the gorillas into their own powerful orgasms...

Suddenly all four women felt an incredible pressure inside their wombs as the cock heads flared to massive proportions inside and expand four times its normal size! Locking it tightly within each womb! Then each woman felt a large bulge slowly travel up the long lengths of the deeply embedded cocks toward the cock tip, then each felt the bulge reach the cock tips and felt the head flare even more... then an incredible voluminous amount of 116 degree semen explosively shot directly into their wombs with an immense powerful force!

Each of the four women felt copious hot cum shooting into them! Blasting the walls of their wombs! Lisa, Maggie, Joanna, and Marissa bodies violently reacted upon contact of the potent sex stimulant semen being copiously injected into them!

With the first of the explosive loads of semen delivered, in just microseconds their bodies began convulsing and jerking as if they were being electrocuted! Their bodies again hyper stimulated to produce massive quantities of their own sexual hormones and adrenaline swelling their reproductive organs further! Continuous piercing orgasmic shrieks continuously ripped thru the air rebounding off the walls of the small grotto.

The sensation of the ejaculations made the women even more wildly animalistic as each resoundly screamed out in endless shrieking orgasms as wave upon wave of incomprehensible pleasure cascaded through them as their vaginas wildly and repeatedly spasmed! Repeatedly their vaginas clenched and massaged the massive shafts, milking the huge ejaculating cocks as multiple orgasms exploded on top of the previous ones! Their fingers curled and extended and their backs frighteningly arched to a seemingly impossible angle every time the gorillas explosively ejected another copious load of lava hot cum into their tight lithe voluptuous writhing athletic bodies, their wombs filling and swelling.

Each woman felt her pussy and womb filled to what seemed to be never ending! The increasing fluid pressure combined with her blood and hormone swollen sexual and reproductive organs causing discomfort.

However, none of the four women were aware of this - only aware of a kaleidoscope of bright colors continuously bursting in their minds like exploding nova's as their bodies writhed, heaved and convulsed as the most powerful unending orgasm each had ever experienced racked and shattered their bodies from head to toes!

For three full minutes these powerful copious ejaculations were continuously pumped into Lisa, Maggie, Joanna, and Marissa filling their wombs completely!

Then their wombs began swelling to accommodate the copious semen still being pumped into them!

Visibly distending their once flat taut muscular abdomens from the volume the equivalent of more than six cups!

The eight other waiting women could not believe their eyes or ears of the incredible repeated displays of orgasmic bliss each of the four brutally raped women exhibited - and continued to exhibit! Their eyes popped wide with incredulity as they saw each woman's flat muscular abdomen visibly begin to bulge as if a few months pregnant from the amount of semen being pumped into them!

Finally, after each of the four raped women thought she was going to explode from the immense fluid quantity and internal pressure, the gorillas copious ejaculations diminished but did not quite stop as each woman could feel an occasional cock twitch, surge, and then another jet of hot cum explosively erupted inside them...

~~~~~

## **PART 13**

The softball size bulges swollen inside the entrances of their vaginas begin to shrink and after five minutes, the gorillas started tugging on the still quite sizeable bulges. Each gorilla held its victim by

the shoulder, and then started pulling their still too swollen knotted cocks from vaginas never intended to pass such large objects unless it was during childbirth. Lisa, Maggie, Joanna, and Marissa erupted in hysterical shrieks as the still swollen hard knots were slowly but painfully pulled out of their small narrow vaginal entrances...

First one slanted edge of the bulge very slowly edged out sideways, then the other side slowly edged out, and then the still massively swollen cocks very slowly slithered forth with loud prolonged schlepping noises. Each of the four women letting out loud sighs of relief as the knots passed out from within them, each woman now intently focused on the pleasurable sensations of the two plus inch wide cocks sinuously sliding out from them...

Then the still flared cock head tips begin to emerge, flared just like a horse's penis, momentarily hanging up in their tight vaginal entrances. With several repeated tugs, the flared spongy cock heads slowly eased out, revealing still flared cock heads the size of a large orange! All four cocks were still slightly ejaculating leaving each woman's vagina momentarily gaping from the size of the swollen members, the gorilla's grossly swollen seeping cocks dangling victorious between each woman's widely spread thighs...

With great spasming contractions, the greatly swelled wombs of the four women were now free to expel the immense prodigious quantities of semen that had been so forcibly pumped into them - in such copious quantities as to make each woman's formerly flat muscular abdomen look like she was pregnant!

Initial arcing spurts of pent-up voluminous cum explosively spewed out of each of their ravaged wombs and pussies!

Lisa, Maggie's, Joanna's and Marissa's formerly taut, flat muscular abdomens visibly distended from the volume, slowly returned to its original flat taut muscular definitions as cum continued to pour out in thick slimy white torrents.

Each of the women loudly moaning from the intense pleasurable feeling of the hot thick liquid emerging, their pelvises fluttering up and down. From the look on their faces and twitching bodies, the other eight women could tell they were in the midst of another series of long drawn out continuous wave of orgasms! Their swollen distended labia lips were still flared opened like the petals of a flower and pulsating slowly. Each contraction squirted cum out in an arching stream as each experienced a final and very vocal earth shattering orgasm from the outpouring sensations...!

The genetically engineered gorillas ejaculated semen in prodigious quantities - more than six full cups! Moreover, this amount did not include the copious amounts of precum! Once the pressure was released, Lisa, Maggie's, Joanna's and Marissa's wombs deflated like balloons, still copious thick white viscous semen the consistency of slime slowly oozed out...

Repeated gasps of outraged horrified amazement erupted from the eight other captives at the huge sizes of the withdrawn bestial cocks and at the amount of cum pouring from Lisa, Maggie, Joanna and Marissa.

Awed voices stated the same thing over and over again,

*"Look at the GIRTH and the LENGTH!"*

*"They must have been impaled on 11 inches of thick cock and each of them were FUCKING BACK against it as hard as they could!"*

*All that cum....*

~~~~~

PART 14

The eight other captive women huddled together felt a renewed heated sexual flush sweep up thru them, each keenly aware how their pussies were inflamed cores of intensely heated sexual arousal, their vaginas were copiously weeping with secretions...

The gorilla's heady musky sex pheromones were clouding the eight other captives minds, the dark sexual inflamed lusts of genetically modified rapist gorillas becoming their own...

Unbearable sexual desires surged within each of the eight other captive women, centered at the entrance to their pussies - of imaginary sensations of massive bestial cocks thrusting into them, completely filling them, reaching depths never before reached by man or dildo...

Inflamed highly aroused pussies wept, inner vaginal muscles contracting tightly against huge imaginary penises!

Holly felt Adriana and Giselle on either side of her press tightly against her, Holly feeling Adriana's hot long fingers high up her inner thigh, scant inches from her own highly inflamed aroused pussy pressing into her taut muscles tightly with incredible pent-up sexual tension each of them were unduly experiencing! Holly glanced at Adriana gripping her and it appeared as if she was warring with herself! Physically willing herself to keep her hand from encroaching further...

Holly saw Adriana's face twitch, then Adriana's fingers began incrementally sliding higher as Holly felt herself seemingly involuntarily shifting closer and widening her stance to Adriana's hot questing fingers as her own fingers reached out and sought heated aroused pussies...as did the other captives...

~~~~~

## **PART 15**

Collapsed on the sandy beach, the four raped women had been thoroughly and royally fucked senseless like none of them had ever been before or ever will again experience!

Still Lisa, Maggie, Joanna and Marissa were in the throes of continuing to experience bouts of blazing inflamed sexual arousal and intense desires due to the gorillas secreted hormones acting as a physical stimulant as well as a powerful aphrodisiac...

Thoroughly affected by the gorillas potent sex stimulant pheromones and hormones clouding their minds the twelve women had forgotten their pre-mission briefings of how the genetically modified gorillas also had the enhanced capability to rapidly and repeatedly reproduce the same enormous quantity of semen and precum within a brief spate of time, as benefited a multi-orgasmic species with an extremely high metabolism. The twelve women also forgot the portion of the mission briefing on how quickly the gorillas would be ready to rape again...

The eight other captive women were astounded and shocked at the seemingly rapid recovery of the gorillas as they watched their huge bestial shafts surge to renewed hardness! With their exceedingly high metabolisms the four gorillas in moments were eager to rape again with just as much voluminous semen to pump into their victims!

Lisa, Maggie, Joanna and Marissa were horrified with increasing outrage even as each of the captive women felt an overbearing fiery irresistible sexual lust blazing deep within them as the eight captive women watched as the gorillas repositioned themselves behind Lisa, Joanna, Marissa and Maggie, who had exhaustedly collapsed onto the sandy beach from their physical and emotional rage and sexual excesses...

The gorillas roughly yanked each woman back up until she was kneeling in a doggy position, asses lifted high in the air, then each gorilla started rubbing their cocks against their streaming pussies to coat them then started to thrust into their pussies again! Their huge eleven inch long fat bestial cocks *almost* entering with ease this time...

Renewed moans came from the four women as they again began to gyrate their pelvises around the thrusting cocks and thrust back unable to help themselves in not doing so under the powerful influence of the potent sex stimulant pheromones and hormones affecting both body and mind!

However, the gorillas then pulled their cocks out and laid them between the clefts of each of the women's firm curvaceous asses! Clearly the eight captives staring at the renewed rape of their four friends could see the monstrous lengths and thicknesses of the bestial cocks as they slid between their parted ass cheeks and thrust up over their tailbones! With shock and horror, the eight captives watched as the cock heads were placed against tight anuses and then saw huge cocks began to thrust against them!

Lisa and Joanna felt the wide blunt cockheads press against their tight anuses but then slide away toward their ravished but still hotly aroused pussies. In their still intensely delirious sexual state, at first each of the four women thought the gorillas where about to fuck her pussy again, the gorillas just teasing their asses made supersensitive and extremely erogenous by the secreted hormones...

Then Lisa and Joanna felt the cocks hit their anuses, press in slightly, each of them unable to resist gyrating around the tip, which due to the slickness made the cock tips then slide down and dip into their pussies again. The four women widely spread their legs and futilely tried capturing the cocks and guide it back into their pussies. This happened over and over again.

After several seconds of this being repeated the horrified thought hit each of the four women what the gorilla's actual intent is!

The four gorillas progressively got more persistent with the tips of their cocks at their tight anuses and with that realization came panic and even more outrage which resulted in Lisa, Maggie, Joanna, and Marissa breaking out in renewed frenzies of physical fighting rage against their inhuman rapists...

The gorilla holding Maggie captive was consumed with lust as he gazed at Maggie's tight tan-contrasted firm buttocks as Maggie desperately flung her shapely cute ass around as she tried to break free. A long thickly muscled arm reached out and the creature place a hand between Maggie's shoulder blades and slowly with relentless pressure, forced Maggie's upper torso downwards causing Maggie's firm curvaceous ass to tilt upwards...

Unable to break free from the immensely powerful gorilla, Maggie raged in near insane fury at her impending repeated assault! Once Maggie was forced into head down ass up position, the creature again stared with lust at the two beautiful human female erogenous zones laid bare to him, undecided which to have a go at first!

He stared at the small firm tan-contrasted beautiful moons of Maggie's parted ass-cheeks, his gaze dropping lower over her small tightly puckered anus, then slowly lower to her hairless vagina,

seeing that Maggie's swollen aroused labia had again openly parted in her head-down kneeling position, her clit swollen to an very large unnatural size by the potent sex hormones...

Each of the women would have been frozen in horror with the thought of the huge bestial cocks rape-fucking their tight asses but their instantly renewed maddened fury kept them raging!

Each woman clenched her anus as tightly as she could as they railed with flailing arms and kicking feet against their rapists! They felt huge cock heads pressing insistently against their tightly clenched anuses, then just as before, a powerful stream of 116-degree precum jetted past tightly squeezed sphincters and deep into their rectums...

Maggie felt the gorilla mount her and then with shock she felt him began slowly pushing his oversized monstrously inhuman sized penis against her tight anus! Maggie was terrified with the gorilla's now clear intentions on ravishing her tight ass with his huge cock!

Then Maggie experienced jet after powerful jet of penile secretions rocket directly past her anal entrance and surge deep up into her...

Each woman in turn froze and loudly moaned out as she felt the hot hormonal sex stimulant fluid jet again and again directly past her anal entrance and surge deep up into her!

Instantly the four women's anal muscles reacted powerful with involuntary contractions upon contact with the potent sex stimulant hormones in the gorillas precum! Their sphincter contractions intensified as more powerful jets of precum were injected past their convulsing tight anal rings. Four pairs of female thighs autonomously flexed as each felt the jetting tip probe her tight, narrow anus!

Inhuman cock heads pushing with increasing pressure until just the very tip began to enter!

Each began feeling a pulsing flood of hot precum jetting powerfully directly and deeply up into her rectum...

The sex stimulant hormones infused each woman with a renewed swirling zeal of intensely unbearable pleasure that demanded to be satiated by anything!

Surging up from her clenched opening into her flat taut abdomen, each woman in turn felt herself seemingly involuntarily wedging herself onto swelling thicknesses and felt her tight anus start to incrementally open to accept his immensely fat eleven inch long member...

~~~~~

PART 16

Suddenly, like a tight, sucking mouth, the small tight anal sphincter rings began slowly spreading and then slowly begin slipping around the mammoth cock heads!

Each woman began feeling in exquisite painful screaming detail each ridge and bump of the monstrous sized shaft as it incrementally begin passing her tightly gripping sphincter rings!

Each screaming woman displaying shocked disbelief that something that huge could actually go into her tight ass! Their screams of pain and sexual outrage echoing in the small grotto...

Stunned by the sensation, before they could stop it, Lisa, Maggie, Joanna, and Marissa found their anuses and sphincters being impossibly stretched until as if they felt they were going to rip! With continuous high pitched shrieks and screams all four women violently but with futility backlashed against their anal rapists! Tones legs and feet furiously drumming against the sand as the massive cocks slowly forced their way into too tight asses...

However, the loud high-pitched murdering female screams did not stop the gorillas - on the contrary it just encouraged them!

Fortunately the incredible pain each woman felt slightly let up as the humongous heads got past the two tight spasmodic sphincter rings of each woman, each woman now feeling a pulsing flood of hot fluid jetting powerfully directly and deeply up into her rectum...

The cock heads slowly incrementally slipped their way past their spasming sphincters into their incredibly tight hot confines. Their clouded minds reawakened with a shock as a different type of sexual pain tore through them, feeling as if her body would be split in two as the humongous cocks were forced into them! All four women screaming at the top of their lungs as the humongous cocks fucked ever deeper into them! Engorged members again growing thicker as the deeper it penetrated! Anuses rhythmically contracting powerfully from the hormonal secretions their repeated anal contractions inadvertently slowly drawing the cocks in...

Their incredible sexual pain made them physically rage insanely but that only further stimulated the potent secretions from their cocks... then incredibly, the intense pain slowly started to diminish...

Inch by inch, just by involuntary anal muscular contraction alone, colons stretched against now thickly swelling bestial shafts, muscles and artificially stimulated inflamed passions went insanely wild in each woman as the thrusting into her tight rippling confines began!

Lisa, Maggie, Joanna, and Marissa each raging in physical and vocal fury as she desiringly felt their bodies in autonomous sexual reaction start to slowly thrust back! Driving herself further and further down impaling themselves upon very long and very thick members...

The gorillas began slow short strokes into tight convulsing clinging passages, strokes being slowed by the tight grip of sphincter rings as well as the tight passages but relentlessly and gradually getting deeper. Each of them felt her tight anal ring repeatedly expand and then contract with each bump of the rough ribbed shaft, akin to a studded dildo, as it slowly and incrementally began rippling in and out of her tight ass and tightly clinging passage.

Maggie, somehow still able to retain some reasoning ability despite her artificially induced state and situation, suddenly realized the inhumanely huge penis invading her most intimate area should be by all reasoning still causing her unbearable pain! But the level of pain she was experiencing was becoming bearable, and through the pain, Maggie detected to her disbelief, an ever increasing undeniable overwhelming state of arousal!

Then the mid-section of the eleven plus inch long cocks began entering...

In turn, each woman again began shrieking loudly in renewed pain as the wider bulge of the organs' mid-section stretched virgin anal sphincters even more open! Regardless of their cries of pain, or possibly even spurred on by them, the rapacious beasts thrust their cruel huge cocks deeper inside Lisa, Maggie, Joanna and Marissa even faster and with greater strength!

Lisa, Maggie, Joanna and Marissa unwittingly began evoking both moans of pain and intense sexual desire as they became slowly adjusted to the width and ever increasing slow penetration and was able to slightly relax, assisted by remembering the visual images of each other experiencing numerous intense body racking volcanic orgasms!

Orgasms of such intensity, duration and frequency none of them had ever seen anyone experience or heard of let alone herself!

Orgasms that left them physically and mentally exhausted to the point where Lisa had even briefly fainted as her gorilla continued fucking her as if a rag doll until she regained consciousness as another massive orgasm ripped shrieking from her mouth!

Remembering what each of them had just experienced prevented the four women from succumbing to paralyzing fear. Maggie herself always having been multi-orgasmic and having always enjoyed anal sex, even experiencing orgasms - but never with anything as incredibly large as what these raping gorillas had stoutly slung between their legs!

Intense infernos of artificially induced sexual heat and undeniable lust once again began overwhelming and consuming Lisa, Maggie, Joanna and Marissa - the copious penile secretions containing powerful fast reacting sex hormone stimulants filtering through intestinal walls and into racing bloodstreams saturating their brains with a natural high and unspeakable erotic euphoria!

The four women's own sex hormone glands were again artificially stimulated into instant hyper-drive overproduction dumping massive quantities of sex hormones into the women's systems, each feeling the unbelievable swelling of her reproductive and sexual organs to vastly enlarged states way beyond any normal human condition of arousal.

Intense, unbelievable levels of renewed sexual arousal beyond any human experience again began surging through their bodies! Labia lips swelling to renewed fullness like never before, their swollen, distended heated labia lips visibly pulsating spreading apart like the petals of a flower exposing tight vaginal entrances. Their clits also again had swollen way beyond normal proportions and became hypersensitive, plainly standing out and visibly throbbing with each beat of their rapidly pulsing blood - every one of them experiencing a sexual libido way beyond any human experience!

In turn, each of the four women found if she began to sinuously move her backside as she tilted her ass up further most of the pain vanished and was overtaken by a great pressure of thrusting fullness that crept ever deeper into her as the creatures began feeding her long strokes as her now undeniable arousal rose! Lisa, Maggie, Joanna and Marissa grunting with each slow sinuous thrust of its long thick cock that gradually eased itself in a little bit deeper, opening up new virgin territory deeper inside their spasming colons...

Lisa, Maggie, Joanna and Marissa each felt an undeniable swirling zeal of intense pleasure surging up from her tightly clenching opening into her abdomen as the massive cocks stretched and filled her ass with massive quantities of precum! Then her muscles and inflamed passions started reacting wildly!

Each of the four women found herself irresistibly starting to slowly rock backwards!

Driving herself further and further down onto very long and very thick massive engorged members embedded in their asses!

Each woman again totally overwhelmed by their brutal sexual ravishment - then shortly, each let her mind shut down to free the enraged sexually aroused primal animal within her, and each began to madly fucking back...

~~~~~

Soon, Joanna and Maggie realized she had taken in almost eleven inches of immensely fat bestial cock comfortably! Shaky breaths escaped their lips, soon each woman felt their rapist gorillas begin to almost fully withdraw, slowly and deliberately, before smoothly plunging deeply back in to their unbearable aroused bodies...

Under the relentless buffeting of the gorillas bestial brutal anal rapes, the sweaty grunting women's affected minds secretly longed for the coming seminal volcanic flood that was sure to come as unbidden smiles came to their lips, each of them again remembering the numerous volcanic orgasms they had all just experienced! Then one after another, orgasms began ripping through their shuddering bodies!

The gorilla's tempos slowly built and a tingly feeling began in abnormally swollen and hypersensitive clitorises and deep within tightly clutching rectums and colons, spreading warmth throughout their bodies, signaling yet another series of repeated orgasms...

Their breathing became quicker, each breath raspier and harsher, more labored and louder, much louder as their already unbearable arousals grew ever more intense, each breath each one took exploded outwards with each powerful deep thrust inwards thru their rectums and up into their colons...

The incredible sensational feeling in clitorises, inside vaginas and deep within her spasming ass was excruciatingly pleasurable!

Each of the women felt ever more powerful climaxes pending to explode!

Pussies contracted involuntarily, clutching, grasping in time with anal contractions!

Each woman gasping with each deep plunging thrusts and then each had to begin rhythmically Lamaze breathing in and out in time with the massive bestial thrusts. The gorillas filled her in a delicious deep way; size and ribbed bumpy shaft creating a delicious friction and extreme fullness against the tightly clinging walls of her rectum and colon, while her outer and inner anal sphincter rings gripped his pistoning cock in a rippling pulsating tight intimate embrace.

Incredibly, each felt the cock within her growing even larger inside increasing the friction!

Artificially stimulated sexual delirium mounted as countless orgasm exploded like Novas in their brains and aftershocks reverberated through their nervous systems racking their shuddering bodies! Each of the four women were close to fainting from the onslaught her body was enduring, yet still intensely craving what she was feeling within her causing her body to sexually flush further! Their clutching passages wildly convulsing in powerful muscular spasms and contractions, causing their passages to become even tighter! The women's powerful contractions spurring each of the gorillas to more brutal and violent raping exertions...

~~~~~

PART 18

With incredulous horror, the eight other captive women stared horrified at the size of the massive cocks that each of their friends seemed intent on wantonly trying to impale herself on as the gorillas brutally thrust and raped into their asses even as each fought, railed, screamed, and clawed at their rapists! However, none of the others waiting could deny the intense unbearable stirrings of arousal in their own nether regions, knowing the same fate eventually awaited them...

Witnessing these ultimate extreme violations, the eight waiting women looking on were not conscious of their fear being totally replaced by blinding red rage, fury – and insane lust!

They were only conscious of two feelings – that of their blinding mad red rage and the unbearable intense sexual arousal that suffused thru their cores, their heated loins, and copiously seeping inflamed pussies – a level of arousal never before experienced that could be suppressed!

All it took was just a trigger to unleash the raging madness and the carnal desire to be satiated – and not one of them no longer cared with *WHAT* satiated that unbearable extreme sexual hunger...

Amber and Katy, by happenstance, were in back against the wall of the grotto behind six of the other captives. Amber had noted that by a quirk of the rock walls, a clean breeze wafting by, dispelling in a small area the worst of the heady sexual pheromones emitted by the gorillas that guarded them, and she and Katy huddled in the cleansing breeze.

Still Amber and Katy well knew they were still affected to some extent, but not nearly as were their six other captive companions who were in closer proximity to the gorillas. Their six other companions clearly visibly trembled with suppressed rage as well as intense arousal as their hard quivering nipples and fingers tightly pressed against soaked panties attested, their eyes riveted to the vicious vaginal and anal sexual assaults being inflicted upon their other four companions...

Both Amber and Katy watched as Adriana fingers slipped aside Holly's panties and firmly started stroking Holly's slick pussy, Holly immediately reacting by spreading her legs apart!

Amber and Katy noting the ease Adriana's fingers begin pumping in and out as Holly began sagging her intensely aroused inflamed pussy onto the thrusting fingers..., how Holly had then reached her hand toward Gisele, sliding the palm of her hand down the small of Gisele's back, down the cleft of her firm shapely ass, Gisele widely spreading her legs..., watched as Holly just as easily started frigging Gisele's hotly aroused slick pussy!

The two women unable to resist their unbearable arousals any longer, barely realizing what they themselves were doing but unable to stop, as if being irrevocably drawn like a moth to a flame, but this a sexual inferno blazing with each of them!

The six captive women in front of Amber and Katy pressed closer toward the two gorilla guards as the two gorillas watched Lisa, Maggie, Joanna and Marissa being mercilessly and violently raped! The half-naked bodies of the six women in front of Amber and Katy pressing close to each other, dancing on the balls of their bare feet, passionate hands groping and questing as they lustfully stared at their four companions once again being mercilessly and brutally rape-fucked as Lisa, Maggie, Joanna, and Marissa shrieked out continuous orgasmic body-racking screams!

Artificially stimulated pent-up heated sexual emotions and blinding raging fury were nearing a breaking point! It only needed a trigger for the six women captives in front of Amber and Katy to leap into the sexual melee...

Each of the rapist gorillas began madly thrusting into tight female backsides like jackhammers!

Pulling out until tight convulsing anal rings grasped broad cock heads before again brutally thrusting eleven inch long cocks more than two inches in width into firm upturned undulating asses!

With each quickening thrust heavy firm hard nipple breasts jolted with each pounding thrust! Initially bottom lips were bit to stifle loud screams but as Lisa, Maggie, Joanna and Marissa began to repeatedly climax they began relaxing beneath the gorillas, each splaying her knees as far apart as

possible, arching her pelvis up! Allowing the gorilla to exploit every inch of her as each could not resist rubbing hypersensitive abnormally swollen clits bringing herself over and over again into another shrieking orgasm...!

Amber and Katy observed how intently their six captive companions in front of them were under the influence of the gorilla's pheromones...

All six were unable to quit lustfully staring at the violent rape of their four friends since it first began as they caressed each other's bodies - as Amber and Katy themselves could not stop staring!

Unable to quit staring at the huge and hideous cocks that first assaulted vaginas now brutally and violently rape-fucked too tight asses! All eight women fascinated with the seemingly continuous massive orgasms each of the four women loudly shrieked! How Lisa, Maggie, Joanna, and Marissa violently fought against their rapists yet just as violently fucked them back - even with eleven plus inches of impossibly thick cocks raping into their asses!

Amber and Katy concluded their six friends had lost all their will power due to the close and prolonged exposure to the guardian gorilla's potent sex pheromones, enhanced by the visual graphic pornographic imagery of their four friends being violently rape-fucked! None of them no longer unable to resist the hot arousal blazing like infernos inside each of their pussies clearly being demonstrated by all six women who now held wide stances as they furiously friggd each other's pussies!

Amber and Katy watched as one after the other of their six companions began furiously finger fucking each other while they still intently stared at their four companions being raped! And despite Amber and Katy clearly seeing each of the six friends climax repeatedly, each of the six women still felt an unbearable continuing overwhelming need to feel something, *ANYTHING*, thrusting into their own pussies as each felt yet another orgasm lurking to be freed! As the six captive women in front of Amber and Katy have done for quite some time now, watching their four companions being raped having orgasm after orgasm forcibly explode from their heaving bodies, so they too furiously pumped each other's pussies to let free that next orgasm...

Amber and Katy were also quite keenly aware of their own growing unbearable arousal within themselves despite the slight clean breeze coming through the crack in the grotto's wall!

Each ones panties were thoroughly soaked! Their small nipples painfully hard and swollen, their blazing hot bare skin pressing against the other, the two women each fighting an unbearable urge to lock lips with the other! To thrust hands into the other's heated panties and roughly finger fuck the other, **HARD! VIOLENTLY HARD!**

Amber and Katy each sought the other's eyes, disparately hoping upon hope that something would happen to where they could slip away unnoticed, long enough to grab their masks and stun pulse rifles. If it did not happen soon, each realized they would involuntarily succumb to the other, and then all hope would be lost...

Amber and Katy each realized that if they did give in to their artificially stimulated passions, there would be no recovery...

Amber and Katy pressed their aroused half-naked heated bodies ever tighter against the other to get to the cleansing air; Katy's hand was slowly sliding up and down Amber's back, lightly caressing it...

Unheedingly and uncontrollably, Katy felt her hand exorbitantly drawn ever downwards till her hand was gliding in small circles in the small of Amber's nervous sweaty back, the tips of her fingers

repeatedly glancing across the top of Amber's brief silk panties, feeling the beginnings of the cleft that led down between her firm muscular ass-cheeks...

With flagging attention, Amber and Katy noted the two gorilla guards guarding them were becoming ever more distracted at the actions of their four raping companions, their glances becoming less frequent at the eight captives, though those glances lingered they concentrated at the furious frigging of fingers of six unbearably aroused hot pussies...

## **PART 19**

Ragged deep breaths were harshly and loudly knocked from Lisa, Maggie, Joanna and Marissa bodies as eleven plus inches of thick rough and bumpy hot flesh brutally tore into exquisitely tight back passages filling them completely!

Each woman feeling the swelling hard bulges bashing against tortured anal rings over and over until with powerful lunges each succumbed to the merciless pistoning!

Lisa, Maggie, Joanna and Marissa emitting piercing shrieks as they felt their anal rings of sphincter muscles exhaustedly give way and the swelling bulges force their way in! Felt that hot knot throb and swell as it grew inside rectums... The four women's intense sexual outrage being knotted riveting the intensified lustful attentions of all eight captives and their two guards...

In turn, Lisa, Maggie, Joanna, and Marissa felt the gorilla's cock began to throb powerfully and unbelievably began to swell further within her! The gorilla's powerfully pulled each woman hard against him and kept her pressed tightly against him with his oversized cock buried to its hilt deep inside her backside! The four women could feel the immense still swelling bulges forming inside her just past her inner sphincter! Visible trembles ran through each of their bodies as each felt the size increasing, begin to swell to unbelievable sizes...

Lisa, Maggie, Joanna and Marissa could feel the knot inflating and getting bigger and bigger to an incredible size until their rectums were completely filled then stretched with a knot impossibly large! Inner and outer sphincters strained to squeeze out the huge swelling knots but each woman was firmly plugged and tied with an ever-growing now softball sized knot!

As the knots continued to expand, the beginnings of doubt and the edge of fear started emerging within each of them that the immense swelling knot would rupture them! Then each woman felt the hips of her gorilla begin to shake, his head tilted as each of the gorillas began releasing sudden hot triumphant roars as he repeatedly drove deep into her ass with renewed furious effort as the gorilla's impending climaxes finally approach!

With unbearable overwhelming desire, Lisa, Maggie, Joanna and Marissa anticipated what was to come! Moments later each woman felt the thick long shaft in her clinging tightness start to powerfully pulse and swell further!

Felt the progression of a series of thick bulges pass through their tight sphincter rings and felt every inch of travel as the bulges slowly moved up toward the cock tip, then felt even more incredible pressure as the cock head suddenly flared deep inside her rectum and expand four times its normal size! The flaring exerting incredible pressure as it stretched the walls of her colon and then each felt the first of the bulges reach the deeply embedded cock tip...

Explosively, each woman felt seemingly endless titanic volcanic eruptions of tremendous pressure

and molten heat explode deep up in her ass filling her colon!

Flooding her belly with seemingly endless explosions of hot copious semen!

Repeated hot shuddering blasts exploded from powerfully lurching bestial members streaming deep up into her bowels as those enormous testes did their work pumping six plus cups of hot thick copious semen inside each woman in prodigious quantities!

Lisa, Maggie, Joanna, and Marissa each felt as if a hot water enema had repeatedly exploded deep in her gut – driving away and banishing any thought and worry of the immense growing proportions of the bulge still swelling just inside past her very tight sphincters...

Once again, Lisa, Maggie, Joanna and Marissa bodies violently instantly reacted upon contact of the potent sex stimulant semen being injected into them!

With the first of the explosive loads delivered, in just moments their bodies began convulsing! Jerking as if they were being electrocuted as their bodies were again hyper stimulated to produce massive quantities of their own sexual hormones and adrenaline!

Their reproductive organs swelled even further way beyond normal proportions!

Each woman intensely synergistically stimulated from the immense quantity of sexual hormones and sex stimulants being pumped into them from the mutant gorilla's huge cocks!

Piercing female orgasmic shrieks continuously ripped thru the air! Rebounding off the walls of the grotto, but again, neither Lisa, Maggie, Joanna and Marissa were aware of this – each only aware of a kaleidoscope of bright colors continuously bursting like nova's in their overstimulated minds as their bodies writhed, heaved and convulsed again and again and again as the most powerful unending orgasms each had ever experienced racked and shattered their bodies from head to toes!

Each of the four women could feel every beat of the beast's powerful hearts through the immense embedded organs that throbbed and pulsed inside each of them! Bellies soon aching as the immense deeply embedded cocks continued to pump its copious semen inside!

Each woman could intimately feel with hypersensitivity the massive penises repeatedly expanding! Swelling anew with each new spurt of cum that travelled up their eleven inch long shafts and out through the throbbing flared mushroom tips depositing its hot contents sooo deeply into their spasming colons...

For a seeming eternity Lisa, Maggie, Joanna and Marissa felt the hot voluminous streams repeatedly volcanically explode deep within her! Could intensely feel blast after hot blast exploding deep within her gut akin to a hot water hose being rapidly turned on and off, on and off repeatedly! Could feel an immense pressure building within their strained colons from the hot voluminous fluid being pumped in!

Each of the four women shuddered and started to orgasmically scream again!

Uncontrollably, louder and louder they screamed with each mind numbing contraction and each powerful eruption of the massive cocks deep within them filling her as never before with an enormous amount of hot cum! Throwing her over the edge again and again into another earth shattering body racking screaming orgasm!

Wave after wave of pure exhilaration washed over and through each woman as each of them slipped

into a world not experienced before!

All senses slowed down to a state of slow motion as each tried to press herself further upon the massive thick embedded shaft hotly fountaining so very deep within each of them as each woman writhed ecstatically upon the massive impaling cock as continuous orgasmic screams echoed off the walls of the small grotto...

The four gorillas continued to pump their thick voluminous hot semen into Lisa, Maggie, Joanna, and Marissa, each feeling every exquisite powerful hot ejaculation deep within her! The hot volume building into an incredible pressure and deep spreading suffusing heat. Again and again, each of the four women loudly screamed with incredible passions as body racking orgasms continually shattered their heaving sweaty writhing bodies as they hurled themselves bodily against their rapists! Trying to force the knot and massive cock deeper within their repeatedly climaxing bodies...

Amber's and Katy's wide incredulous eyes, like the six other captives, were locked onto the four loudly screaming climaxing women as they hurled their bodies against their rapists trying to further impale their asses onto the massive exploding cocks as geyser after geyser erupted within them spewing their steaming prodigious loads into the writhingly ecstatic women!

PART 20

As if a magnet drawn to steel, Katy felt the tips of her fingers broach the top of Amber's brief silk panties, then slowly start to slide down the hot sweaty cleft between Amber's firm small muscular ass-cheeks...

Momentarily, Amber closed her eyes as she felt Katy's questing hand and seeking fingers tips delve deeper, in an autonomous response Amber spreading her legs widely apart...

Katy's hand slid slickly down and around Amber's sodden heated pussy, cupping it, her thumb poised against Amber's tight anus, Amber feeling the gentle prying touch of her thumb there, arched her back slightly...

Teasingly, Katy circled her thumb against Amber's tight nether entrance, gently prodding, as Amber pushed back against Katy's thumb with a low lustful desirous moan, Katy's other fingers caressing Amber's swollen parted labia lips, sliding across her hard swollen clitoris...

Katy could feel Amber's tight anus rapidly clenching, releasing, then clenching again, trying to suck in her gently prodding thumb...

Katy started to rub Amber's pussy harder and a bit faster, applying a little pressure to her thumb as well, and her thumb tip began to gradually ease in..., at the same time Katy positioned two of her fingers to enter Amber's hungry hot tight pussy...

Impatient and desperate for sexual relief Amber pushed back hard! Forcibly sliding Katy's thumb into her exquisitely tight clenching convulsing ass and sliding Katy's two fingers into her highly aroused heated pussy!

Amber at the same time rapidly slid her own hand down Katy's flat muscular abdomen, thrusting her hand down the front of Katy's brief silk panties where her finger quickly found the tight slick heated opening into Katy's wet vagina...

Each woman desperately fought a losing battle as both Katy and Amber quickly sensed rapidly escalating orgasms surging to the surface to burst free minutely amazed how rapidly they were about to climax! The eyes of both women wide open, still staring at the violent and brutal yet entrancing explicit sexual displays of their four friends and their hideous rapists in front of them...

Two instincts violently warred within each of the eight other captives, one that urge her to fight and the other an overpowering irresistible sexual neediness that demanded the unbearable sexual urges within her be satiated!!!

~~~~~

## **PART 21**

After a time, the massive cocks and bulges in Lisa, Maggie, Joanna, and Marissa started to reduce in size...

Each gorilla slowly exerted a continuous pull as he held a woman's upturned ass – it still felt to each woman like she was trying to pass a baseball! Fortunately, the hormonal sexual stimulant had so thoroughly suffused and saturated their bodies was attenuating the pain and it was just a feeling of a massive pressure trying to emerge!

Finally the baseball sized bulges shrank further to begin slowly emerging...

The four gorillas, one by one, were able to slowly pull himself out of a tightly clenched still spasming ass which was still involuntarily rhythmically contracting from the powerful sexual stimulant secretions. Each of the four women loudly moaning feeling the huge massive cocks slowly receding from their convulsing anuses as the immensely eleven-inch long lengths began sinuously slipping out...

As the humongous eleven inch long cocks slowly and sinuously withdrew it made very loud prolonged slurping sounds as inch by slow inch withdrew from deep within. Then, as still widely flared cock heads hung up at anal entrances powerful orgasms suddenly ripped shrieking through each woman! And during the release of their orgasmic contractions final loud suction slurping POPs! were heard as the spongy cock heads were violently expelled by another orgasmic contraction!

Each of the eight captive women could plainly see the formerly flat muscular abdomens of Lisa, Maggie, Joanna, and Marissa were again visibly distended from the immense copious volume that had been pumped into each of them!

Suddenly, Lisa, Maggie's, Joanna's and Marissa's stomachs painfully started contracting!

Four streams of copious semen explosively and repeatedly began jetting out of still upturned asses!

Each of their tight asses repeatedly slowly contracting each contraction/relaxation cycle explosively jetting a powerful stream of hot viscous cum out of her convulsing ass for several feet! Each jetting stream eliciting a loud lustful moan from each of the four women as she felt the hot voluminous liquid repeatedly erupting like a hot geyser... her contracting abdomen visibly going down with each powerful squirt!

Astounded and shocked, the eight captive woman watched Lisa, Maggie, Joanna and Marissa experienced a final earth shattering body racking orgasm that was loudly shrieked echoing and rebounding from the grotto's walls!

Then all four women collapsed into sexual excess senselessness and mental and physical exhaustion...

Lisa, Maggie, Marissa, and Joanna laid totally senseless! Locked into an unworldly world of sexual excess and indescribable sexual pleasure!

All four women slowly sensuously writhing in a sexual stupor, slowly caressing their bodies. Their minds and bodies in extreme sensory sexual overload, awash in massively artificially induced sexual hormones and endorphins by the mutant gorilla's secretions.

Still an insatiable sexual inferno blazed unhindered through every inch of their beautiful statuesque voluptuous athletic bodies but each of them were thoroughly weakened and exhausted! Yet all four women at this point could still have been repeatedly fucked again and have orgasm after involuntary orgasm willingly wrung exploding from their beautiful bodies! But it would have been like fucking a silicone doll, each too weak to actively participate in their ravishment, each temporarily lost in sexual insanity, their minds solely focused on the release of that next body racking, earth shattering orgasm...

The four gorillas roughly pushed Lisa, Maggie, Marissa and Joanna together, amusement clear in their hideous bestial faces as they watched the four women slip, slide and writhe their cum covered slick bodies against each other, mouth locking against mouth, groins hotly grinding away at the other, hands hammering away at inflamed pussies as they futile tried to insert themselves...

Lisa, Maggie, Marissa and Joanna still felt an undeniable overwhelming wanton primal need to still be filled...to still be repeatedly fucked, coursing hotly through their lithe firm statuesque bodies, neither of them caring with *WHAT* they were fucked with - or *FUCKED BY!* The same sentiment now becoming the overwhelming dominant feeling in the eight other captives as all will and restraint became completely displaced by incredible, unbearable, undeniable blinding boiling lust and rage...

Amber and Katy deeply groaned as each felt an orgasm nearing the surface to erupt into a blinding colorful super nova of immense epic proportions! Both women intently staring as the six others were at Lisa, Maggie, Marissa, and Joanna...

Their unsatiated sweaty cum covered bodies sensually writhed against each other, hands violently hammering at each other's pussies, mouths locked in passionate embraces... and at four immense eleven inch long cocks already surging to renewed life and becoming upright, *again*...

The four genetically modified gorillas that had just vaginally and anally raped Lisa, Maggie, Joanna, and Marissa looked over to where the eight other captives were, incredibly their cocks again now raging to full hardness! The golden orbs of their eyes gleaming with renewed malicious malevolent lust and intent...

The trigger was pulled...

~~~~~

PART 22

The two remaining gorilla guards, sexually distracted and highly aroused after observing the other four gorillas vaginally and anally raping Lisa, Maggie, Joanna and Marissa while they were forced to guard the six other captives, grabbed two of the eight other captives - Amanda and Kiera!

The two gorillas quickly ripped their bras and soaked panties off and then hoisted the two

screaming, kicking naked women bodily up onto their massive weeping bestial phalluses and started violently assaulting them standing up!

The hips of the two gorillas making wild, thrusting movements up under the two women held suspended in the air as Amanda and Kiera were bodily hurled onto the rampaging eleven inch long cocks of the two immensely powerful gorillas!

Amanda and Kiera emitting high-pitched blood curdling murdering shrieks of pain with each deepening thrust despite their own wetness and intense arousals!

Their arms and legs wildly flailing! Bodies jerking like marionettes as each woman was rapidly jerked up and down as huge thick long cocks thrust upwards into too small and tight pussies! Being forcibly impaled upon the massive hideous rough cocks! Their massive cocks breaching their tight passages faster than their bodies could accommodate the massive intrusions despite each woman's own intense sexual arousals!

The brutal violent rape of Amanda and Kiera made the rape of the other four captives seem gentle by comparison!

The violent brutal spectacle of Amanda and Kiera being so viciously raped and their blood curdling shrieks as the rampaging massive cocks began forcing entry shocked Katy and Amber from their impending orgasms - and provided the trigger for the other captives!

Kristanna, Ashley, Natasha and Miranda surged forward screaming in fury and malice to attack the genetically modified Gorillas - and the beginnings of a raging lust fuck rape orgy began...!!!

Amber and Katy, unnoticed in the commotion of the insane sexual fury, rushed towards their weapons and their masks even as they felt themselves powerfully involuntarily drawn to the wild violent sexual melee! By the time Amber and Katy fitted their gas masks and grabbed a weapon they were momentarily distracted at the seemingly instant change that had overtaken Amanda and Kiera once their rape began and the potent pre-cum began injecting into them!

Both Amanda and Kiera were now intently trying to hurl their too small tight pussies onto the massive impaling cocks even as they continued gouging, kicking, and biting their rapists!

Both the gorillas and the two women equally seemingly intent on sexually assaulting the other as the two gorillas stood there with the two women hoisted up, the legs of the women now wrapped around the gorilla's waists! Their own shamelessly bucking, twisting pelvises hungrily answering thrust for thrust! Powerful gorilla hips thrusting upwards trying to wedge massive spurting cocks deeper into tight pussies working Amanda and Kiera into a desperate-to-orgasm sexual frenzy!

Their other four companions, Kristanna, Ashley, Natasha and Miranda were now violently attacking the other four gorillas! The gorillas hard raging cocks swinging around like hideous giant blunt weapons! Their eleven inch long erections glistening with copious secretions containing the potent sex stimulant hormones as the gorillas ripped the remaining clothing from the four women as they were either lifted bodily up preparatory to being impaled on once again copiously weeping massive cocks or forced down onto their backs with legs spread widely apart or made to kneel with their asses up doggy style!

Amber and Katy using their stun guns quickly stunned the six gorillas before they could start raping but then were shocked at the exhibited fury and sexual lust of Amanda, Kiera, Kristanna, Ashley, Natasha and Miranda as they expended their rage and insane lust against their semi-unconscious former captors and their still hard cocks!

Stunned, Katy and Amber stood there as they unbelievably watched their six companions began straddling the six prone gorillas and start fucking their massive hard cocks into their pussies!

Even in their semi-unconsciousness state, the six sexually charged gorillas maintained their erections and were instinctively bucking their hips upwards! Thrusting their massive cocks against and into intensely aroused *willing* tight pussies as the six women straddling the gorillas earnestly and with desirous heated passions strived to ride their six bucking charges... Katy and Amber momentarily believing they may have to stun their friends as well!

One by one, Katy and Amber zip tied their companion's arms, pulled each one off monstrous impaling cocks, zip tied their legs, fitted their gas masks, and then dragged them up wind from the gorillas. By the time Katy and Amber got to the last three, Amanda, Kiera, and Natasha, all three women had managed to work three-quarters of the huge cocks into them and were riding the gorillas hard! Hell bent for leather to get the rest in!

Amber and Katy went to pull off and restrain the last of their companions, Kiera, who was furiously humping herself onto the massive cock of the unconscious gorilla she was straddling. Just as furiously in her maddeningly red blinding fuck rage, Kiera locked her ankles around the gorilla's waist as she resisted being pulled off the monstrous cock she was so intent on fully impaling herself with! With a loud prolonged schlurp, Kiera shrieked with maddened unfulfilled sexual passions as she was slowly pulled screaming off the hideous monstrous cock by Amber and Kate - and it did take the strength of both women to pull off the lust insane Kiera violently resisting and screaming out with sexual frustrations!

Finally, the huge spurting cock tip sprang free from Kiera's tight pussy! Even unconscious, the gorilla's eleven inch cock was rock hard, jets of its potent hormone sexual stimulant precum arcing out in almost two-foot pulses!

~~~~~

## **PART 23**

With abnormal strength derived from her maddened sexual fury, rage and frustration Kiera violently wrestled with Katy to once again straddle the gorilla and resume fucking!

Katy bodily flung herself at Kiera who grabbed Katy as Kiera slipped off the other side of the gorilla inadvertently pulling Katy over the prone gorilla and making her sprawl out over the gorilla's bulging barrel like chest with her legs dangling on either side of the gorilla's immensely broad body...

Suddenly Katy let out a loud UMMPH! Kiera in her maddened lust fueled rage had jumped on top of Katy's back trying to wrestle her off to take her place! Kiera's actions and weight upon her back causing Katy to slide down the gorilla's barrel-like stomach, his physique, narrow waist and massive splayed legs forming a natural deep saddle that Katy found herself sliding into!

Katy's slide downwards was suddenly arrested by the hard humongous two plus inch width eleven plus inch long cock that speared upwards between her widely parted thighs! Only her wet thin brief silk mesh panties preventing the cock tip from penetrating her...

Katy was momentarily shocked at the inhumanely hot blunt penile sensation of what her barely covered pussy was tightly jammed against! She could acutely feel the inhuman heat emanating from the massive cock through her thin silk mesh panties as it wedged her skimpy panties into her labia! Frantically Katy tried to climb and slide out of the deep saddle of the gorilla's lower body, but she

was unable to with the weight of Kiera upon her back as her own knees dug down into the soft sand on either side of the gorilla's waist!

Amber was in the process of picking herself up after having tripped in the soft sand racing around the gorilla to subdue Kiera, having gotten a face full of sand in her sputtering mouth and eyes. While Amber tried clearing her eyes and mouth of the sand the violent struggle between Katy and Kiera continued further jamming Katy's mesh panty covered pussy harder against the broad blunt head of the gorilla's massive cock...

In the ensuing violent wrestling with Kiera still straddling her back and Katy unable to rise up from the gorilla due to Kiera's weight upon her back, Katy did not notice her slick wet brief silk panties gradually slipping to one side...

Not until Katy suddenly and very acutely suddenly felt her now bared pussy on intensely hot skin contact of the 116-degree hot cock tip as it suddenly wedged itself in-between her now nakedly exposed labia! Her pussy still aroused and wet from Amber just shortly ago finger fucking it!

Instinctively feeling where his cock needed to be the unconscious gorilla bucked his hips upon the intimate contact!

Jamming the tip of his immense broad cock head directly against Katy's tight and narrow vaginal entrance!

The gorilla's hips repeatedly bucked further jostling Kiera clinging to Katy's back as Kiera in her maddened frenzy of lust sat astride Katy's back as Katy laid sprawled on top of the gorilla!

Kiera was pulling hard on Katy's long golden hair as if they were reins! Forcibly pulling Katy's head backwards as the bucking hips of the gorilla and the weight of Kiera upon her back both conspiring to tightly wedge the monstrous cock tip directly at the entrance into Katy's vagina...

*SQUIRT!*

A powerful jet of hot precum copiously exploded against Katy's vaginal entrance! Blasting its way inwards! Shocking Katy into immobility as she felt as if a hot water hose had just blasted into her!

Then with incredulous disbelief, Katy instantly felt her body violently began physically sexually reacting to the potent pheromone and sexual stimulant precum!

Katy's mind shrieked at her to MOVE! However, at the same time Katy felt the cock tip wedge a bit deeper into her vaginal entrance!

The unconscious gorilla in autonomous sexual reflex now rapidly bucking its hips upwards!

Katy felt her tight and narrow vaginal entrance incrementally slowly begin to spread from the bucking jabbing onslaught of the huge juggernaut cockhead and the slick lubricating precum...

A blazing heat suffused through Katy's body! Her pussy felt as if it had burst into an unquenchable inferno at the same time as an insane, unbearable and undeniable urge to *FUCK* something, *ANYTHING*, powerfully pulsed within her pussy!

An insatiable unbearable neediness to drive her pussy onto anything thick and long and hard to *FUCK!*

To release the numerous tenuous orgasms she felt inexorably and rapidly building within her!

Again, the bestial cock exploded precum directly into her vagina, and Katy after that....

Finally, Amber's tears had flowed enough to flush the sand out of her eyes enabling Amber to see Kiera astride Katy's back as Katy lay sprawled over the prone gorilla. Kiera was pulling hard on Katy's hair arching Katy's head painfully backwards! The unconscious gorilla instinctively bucking under Katy! Slowly driving his monstrous cock ever deeper into Katy's pussy! Katy already explosively climaxing as Katy herself now was furiously trying to jam her tight pussy further onto the hideous humongous cock!

Amber yanked Kiera off securing her with zip ties, and then Amber dragged Kiera upwind where the others were. Amber turned around and ran back to Katy who was now furiously fucking herself onto the monstrous cock of the unconscious gorilla - already managing to have more than seven inches into herself!

Just as with Kiera and the others, Katy furiously resisted Amber from pulling her off the gorilla and his monstrous, hideous potent cock! Amber now realizing that even if protected from the gorilla's pheromones by the facemasks, if any of the potent gorilla's precum got anywhere near erogenous sensitive areas of their pussies or ass, the masks would not have mattered...

Amber was cautious about the way she tried to pull Katy off to avoid any of the copious precum that would jet two feet out from the cock tip once his cock was pulled out of her, yet Amber's delay enabling Katy to impale the monstrous cock a bit deeper in her... Amber finally decided the best way would be to get behind Katy and pull her off backwards towards the gorilla's feet.

Amber stood astride the gorilla's legs and then reached up and pulled Katy's arms behind her pulling her backwards. As Katy became vertical, the gorilla's bucking hips and Katy's weight suddenly surged the huge cock deeper into Katy as she let out astounding piercing shrieks of pain and climax!

Katy looked like she was standing astride the gorilla on the outstretched tips of her toes balancing on top of the massive upright cock impaled inside her! The extreme horrible length of visible cock that still lay awaiting outside her body ready for the moment to fully embed deep itself within Katy!

As Amber wrestled and pulled on Katy, Katy's shrieks became louder as she furiously fought from being pulled backwards and off the incredibly thick massive impaling cock while at the same time her violent actions driving the cock ever deeper into her upright body!

Instinctively the unconscious gorilla was still bucking up driving his cock deeper and deeper into Katy's pussy! Katy's unnerving undulating shrieks of pain and repeated climaxes echoing and rebounding off the grotto's walls!

Finally Amber reached the pivot point and Katy started falling backwards in slow motion..., the huge partially buried cock within her slowing her fall even as Amber kept pulling Katy backwards to drag her off the monstrous penetrating impaling cock.

Katy was now laying prone upon her back on the sand between the gorilla's spread tree-trunk like legs, her head pointing to the gorilla's feet, his humongous cock still jabbing up into but then suddenly *LOCKING* within her pussy as if an anchor as the head of the gorilla's cock flared inside Katy! Katy began letting out an unfathomable piercing shriek as her body went into continuous orgasmic convulsions! Katy's sudden violent reactions shocked Amber from pulling on Katy...

Amber was too late, again!

The unconscious gorilla had been stimulated enough to start ejaculating!

Katy's body violently instantly reacting upon contact of the potent sex stimulant semen that was now being explosively ejaculated into her with the unconscious gorilla's own climax!

With the first of the copious explosive loads delivered in just short moments Katy's body started convulsing and jerking as if Katy was being electrocuted!

Upon internal contact with the potent semen Katy's body was instantly hyper stimulated to produce massive quantities of sexual hormones and adrenaline! Swelling her reproductive organs further to an abnormally enlarged distended state as well as being intensely synergistically sexually stimulated from the immense quantity of sexual hormones and sex stimulants being pumped into her by the gorilla's cock!

However, Katy was unaware of all of these reactions!

Katy was only aware of a kaleidoscope of bright colors that continuously burst in her mind like super nova's as her body continuously writhed, heaved and convulsed as powerful unending combinations of G-Spot, Clitoral and Uterine orgasms racked and shattered her body from head to toes!

Amber repeatedly pulled backwards on Katy but the gorilla's huge cock would not come free of her pussy! Then Amber noticed the huge visible abnormal bulging of Katy's pubic mound and realized the gorilla had *KNOTTED* Katy like dogs do and started climaxing!

The gorilla's penis head flaring and expanding into a huge mushroom shape locking itself right in front of Katy's cervix as the spongy blood filled glans now a full four inches across from side to side created a tight seal of Katy's vaginal sheath! His cock exploding a huge massive load flooding Katy with his copious sex stimulant cum as Katy continuously shrieked and writhed and screamed...

Amber was shocked into standing still at what she was observing in such close-up sexual graphic detail!

The mostly exposed length of the more than two plus inch wide thick rigid cock powerfully pulsed, throbbed and repeatedly lurched with each pulse of potent sex stimulant semen as it pumped load after copious explosive load up into Katy's pussy!

Katy's body racking orgasms seemed to be relentlessly ongoing!

Amber stood there shocked as she saw Katy's formerly flat muscular abdomen start to form a bulge from the huge quantity of semen being pumped into her!

~~~~~

PART 24

Amber was unaware of time passing...

Totally absorbed as she was staring at the huge throbbing bestial cock embedded into Katy's pussy! Watching repeated bulges of fluid slowly traveling up the immense length pumping load after copious load into Katy, and Katy's violent orgasmic reactions in response to each load exploding into her...

Amber herself felt as if she was fighting a losing battle with her own intense unbearable arousal, undiminished even after putting on her face mask, she felt herself becoming ever more intensely sexually stimulated as she watched Katy in the throes of a seemingly continuous massive orgasm! Oh how Katy's body continually jerked and writhed and convulsed as orgasm after massive orgasm exploded from Katy! Never had she seen anyone climax so hard and powerfully, nor so intensely climax innumerable times as she had witnessed Katy and her other companions doing today!

Amber kept repressing an overwhelming thought, an undeniable urge, to experience the same extreme ecstasy as her friends have done! Knowing that after today and their exfiltration from the island she would never have the chance to experience it!

Repeatedly Amber buried her nearly unbearable sexual urges, forcing it back down, but the urges kept rebounding to the surface, each time a little bit faster, each time a little be more desirous, each time a little more intense...

Amber was now leaning backwards, heels planted in the soft sand, her legs straight as she held onto Katy's wrists with Katy's arms stretched straight out behind her, Amber using her entire weight to try to pull Katy off that horrible flared massive cock tightly locked within her! Unbelievably, Amber noticed that Katy's body was suspended off the ground! Such was the dual hold of the massively knotted cock and flared cock head locked within Katy's pussy!

Amber dug her heels in deeper and leaned backwards holding on to Katy's outstretched arms, Katy's body now completely suspended in the air! Suddenly the still too swollen knot popped out of Katy, Katy screaming bloody murder with the emergent pain, then after, several long inches the still hugely flared spongy cock head emerged with a loud slurping pop!

Katy fully released Amber fell backwards dragging Katy off the monstrous hideous cock. A seemingly endless copious amount of cum and precum spewing forth out of Katy's splayed open gaping pussy!

Avoiding the still jetting monstrous cock as it spewed forth high arcs of its potent sex stimulating semen, Amber quickly got up and dragged Katy clear. Amber was shocked seeing the still hugely swollen knot and flared cock head at this close distance, wondering in amazement how massively it must have flared inside Katy before it shrank down enough to let her pull Katy off it!

Suddenly, Amber was startled to feel an intense tingling surge blossom inside her own pussy!

A momentarily desire to experience herself what it feels like to have that huge cock knot her then the head flare inside her!

To feel explosion after explosion of copious precum and semen volcanically erupt within her! To blast deeply within her!

To experience the same continuous body racking, earth shattering thunderous orgasms that Katy and the rest of their friends continually had unto complete physical and mental exhaustion!!!

Amber dug deep to find new resolve and shook off those intense sexual desires and unbearable urges that threatened to consume her as they had so thoroughly done to her other eleven companions. With renewed frenzy, she set off dragging Katy upwind and zip tying her.

Amber zip-tied the gorillas as well and just for good measure, she got out the tranquilizer gun and darted each of the gorillas with Ketamine. Amber thought it was sexually obscene how the six huge mutant hybrid gorillas laid sprawled out on their backs, their massive eleven inch long cocks still

erect and lurching with a seemingly semi-sentient life of its own.

Yet Amber still found her eyes repeatedly being drawn to the lurching cocks as she rooted around in the field packs to find the tactical radio and call in for their extrication from the island. Amber felt her pussy hungrily throbbing each time she saw one of the massive erections lurch, her own intense sexual desires not yet waning...

Amber realized she would have to drag each one of her squad mates down to the water to wash off the precum and semen from their bodies and somehow flush what she could out of their pussies and anuses to help reduce the effects of the lingering sex stimulants. Amber quickly stripped out from one of the backpacks a hydration camelback and the drinking tube to use as a douche and enema to flush out what had been ejaculated into them, the semen quite obviously still greatly affecting each of her eleven companions!

Getting her gloves on, one by one Amber dragged her squad mates down to the water's edge and bathed them, each still writhing in a sexual delirium. One by one, Amber gave each of the eleven women douches and enemas to try to flush out what had been ejaculated into them. Yet this process stimulated each of the affected women into renewed rounds of orgasms and sexual delirium as each woman repeatedly climaxed during their internal flushing's!

As Amber bathed each woman, each of them reached their hands out to very intimately caress Amber's body during the process...

Amber, conducting her emergency ministrations could do little to fend off the roving questing hands, needing both of hers to hold the tubing in place, squeeze the camelback water bag and repeatedly refill it. Finally, with four women left to bathe and flush, Amber gave up trying to flinch her body out of the way to avoid questing hands and fingers and allow seeking fingers explore and delve into her own highly sensitized sexually stimulated erogenous areas to relieve to some of her own incredibly built-up sexual tension...

Over the course of the next few interminable hours while they awaited rescue, the women slowly regained their senses. All were totally exhausted in an extreme debilitated weakened state, yet each still experiencing a persisting, relentless unbearable urge to *FUCK!*

After what seemed an excruciating amount of time waiting, in which Amber fought a continuous urge to let herself loose sexually, even after letting four of the women have their way with her, with several resulting climaxes, Amber had almost convinced herself to actually fuck one of the gorillas!

Fortunately, just Amber's willpower was wavering the extrication team finally arrived. The six gorillas were again re-sedated, then secured in unbreakable individual sealed environmental capsules, loaded into the hovercraft, and the twelve woman squad were returned back to base on the Big Island for treatment.

## **PART 25**

For over the next twenty-four hours after their rescue, every one of the twelve women still felt an unbearable horniness! An intense need, an insatiable need, *to FUCK!* However, not one of them couldn't resist frequently masturbating in a fruitless endeavor to reduce the intense insatiable desire *to FUCK, to CLIMAX...* over and over and over *AGAIN!*

The medical staff finally had to sedate them, still, the women writhed with sexual delirium and

erotically tortured dreams, as evidenced by several of them masturbating even while in a drugged sleep...

Three more reconnaissance squads were covertly inserted at different points around the island. However on the third day none of the four squads had made their scheduled radio contact. On the fourth day each squad was able to reestablished contact, however the news was bad...

The genetically modified gorillas had ambushed each squad, the missions compromised, and each squad requested emergency extraction and medical attention as all had been repeatedly subjected to brutal bestial rapes...

## **PART 26**

One week later, after intense deliberations amongst the matriarchal leaders, the invasion was given the green light to proceed. Forewarned or not, this enclave was rated high priority, the most troublesome enclave remaining. It persisted in sending raiding parties to other islands and was the largest enclave known with 750 male members, not including the estimated 4500 women believed to be captives of the enclave.

An invasion force of ten thousand troops landed on the island, women making up 94% of the total troop numbers. The troops landed unopposed, however things were too quiet...

The first of several surprises awaited the invasion force...

Unbeknownst to the matriarchal leadership, the paranoid patriarchal extremists over the past several years had linked a series of deep extensive volcanic caves and tunnels throughout the island, each entrance a camouflaged and fortified bunker.

Eight hours in the invasion near dusk, the extremists launched a small rocket which exploded a powerful electromagnetic pulse (EMP) bomb at high altitude, frying and disrupting communications for two hundred miles. The communications blackout threw the invasion coordination into chaos...

The tunnel network and EMP bomb were not the only surprises the extremists had in store for the matriarchal troops...

Over the past several years, this enclave had been the primary research center for their nefarious breeding experiments. When the extremists' intelligence service discovered the timetable for the long anticipated invasion, they spent the last several months secretly relocating all the members of the surviving patriarchal enclaves and their genetically modified gorillas to this one island...

Additionally, the male misogynistic extremists had learned how to artificially produce mass quantities of especially highly concentrated synthetic versions of the gorilla's sex pheromones and penile sex stimulant hormonal secretions that induced uncontrollable sexual lust and rage.

Skin contact with the concentrated synthetic versions would within a few minutes induce in a woman or women, the same uncontrollable sexual lust and rage. If inhaled, even faster reaction times occurred.

The extremists had weaponized these highly concentrated sex pheromones and sex stimulants into mortar chemical bombs creating a large stockpile. As dusk fell, the mortar bombs were

indiscriminately launched into troop concentrations all around the island. Equipped only with half-face air purifying masks, their tropical weight uniforms did not provide any skin protection from the aerosolized mists that erupted spewing from the mortar bombs...

Then, 2000 rampaging genetically altered rapacious horny genetically modified gorillas surged forth from sally ports all around the twenty square mile island!

Darkness was the gorilla's friend with their exceptional natural night vision - and they could easily sniff out and trail for some distance human female pheromones then ambush the women troops!

Over the next three days, chaos reigned as squad after squad, platoon after platoon, company after company, regiment after regiment, of athletic, lithe voluptuous female soldiers succumbed to the horny gorillas!

To further spread chaos and outrage amongst the invasion force, the depraved extremists let loose their forty-eight genetically modified guard dogs that they had used to terrorize their female captives and utilized for their sordid sexual bestial amusement. The huge dogs were trained to run in packs of three, to track and hold whom they were pursuing.

The genetically engineered dogs were taller in height than Great Danes but thicker in body like Mastiffs and heavily muscled. They were over three feet tall at the shoulder and weighed more than 240 pounds. Shorthaired with large eyes with slitted pupils, long jaws bristling with fierce teeth, and like the genetically modified gorillas, also possessing grossly oversized genitalia...

The genetically engineered dogs also emitted the same sex stimulating pheromones that induced uncontrollable sexual lust and rage in women, as well as penile secretions and precum containing a powerful fast acting aphrodisiac...

The disorganized chaotic battle degenerated into a widespread insane lust rape orgy that spread exponentially! Most of the women in the invasion force brutally and repeatedly raped by the hybrid gorillas and huge dogs! The bestial rape orgy was only quelled early in the fifth day when the matriarchal forces exploded an experimental stun pulse bomb over the island, stunning for a few hours every living thing, long enough for reinforcements to land en masse with full chemical protective clothing.

Being a worldwide Utopian matriarchal society, there really was not a need for a military, and what military there was, it was nothing really more than a pacifist police force. This factor was also one of the reasons the invasion degenerated so quickly into chaos, primarily because the police forces were not trained in conducting military maneuvers and tactics.

The stun pulse bomb spoiled the plans for the extremists to seize the landing craft and ships of the invasion force and sail them to the other neighboring Hawaiian Islands to launch their sex chemical mortar bombs and unleash their genetically modified gorilla army to spread even more chaos. The extremist's overall plan was to distract authorities long enough for the extremists to seize a strategic point on Hawaii and negotiate from a fortified position.

Still, there were isolated pockets of gorillas and dogs that were not quickly reached and captured, who for weeks conducted raids upon small units of troops and scientists who were conducting intelligence activities and destroying chemical stockpiles and equipment. Each of these small units were normally released after a couple of days, each member having been ravished and fucked repeatedly into total exhaustion and insensibility.

Still, it was a miracle no one had been killed or seriously injured, even with both opposing sides

armed with only non-lethal stun rifles, stun pistols, and sonic grenades.

With the current world population of less than one billion people, specialized medical and psychological care centers for rape victims of gorillas were widely scattered around the world. The almost ten thousand female victims of the invasion force and the 4500 female captives held by the extremists were sent to these rehabilitation facilities for follow-up care and treatment.

Unwittingly and unknowingly, spreading a sexual affliction...

~~~~~

PART 27

All the rape victims of the gorillas and the dogs, 9,400 women of the invasion force and nearly 4,500 women captives of the enclave, underwent intensive psychological therapy.

Though the psych specialists persisted with their best efforts, they knew from past experiences with other victims that it would be futile to get the victims to forget the total sexual ravishment they underwent, nor would any of the victims ever be able put it behind her - how each of them had turned into insatiable sexual fucking banshees and actively fucked their animal rapists back! How in actuality genetically modified animals had fucked them and they in turn had fucked the animal back with every bit of sexual frenzy they possessed!

From treating prior victims the psych specialists and other medical specialists knew something mentally as well as physically had been permanently altered within each victim...

Each patient exhibited latent permanent persistent tendencies that that had imparted drastically reduced inhibitions to sexual taboos and mores - exhibiting the exact same symptoms identical to the sexual affliction that seemed to be spreading around the world...

During a group therapy session moderated and guided by three therapists that included the initial twelve women reconnaissance squad that was inserted prior to the invasion, along with a few others from the follow-on squads, the women quite openly and frankly discussed their experiences and what it felt like...

Amber and Katy describing what they witnessed their ten squad mates doing, and their own overpowering irresistible sexual urges they felt suffusing their bodies and minds drawing them in...

"If only you could have stepped out of your bodies and observed your own selves rutting with enthusiastic unrestrained passion with the gorillas! The huge cocks each of you were fucking as hard you could as you screamed and screamed and screamed in rage but also ecstasy! The intense passion, the sexual bliss each of you enthusiastically exhibited even as you violently fought your rapist! Then we were astounded seeing the massive knotting of the base of the penises locking you to the gorillas! We actually could visibly see the huge knot inside each of bulging your stomachs!"

Joanna and Maggie looked at the others, then Maggie hesitantly stated,

"If you could have only felt what we did! That thick hideously textured massive cock stretching and spreading us out like nothing we had ever experienced! Thrusting deeper than anything has ever before! Filling us completely!

The incredible sensations as we were knotted!

The knot powerfully pulsating, thundering deep inside our pussies! Feeling it swell to an incredible size pressing and rubbing against our G-spots inducing orgasm after orgasm!

Then the great flaring of thick penis heads immediately before ejaculation! The incredibly hot and copious semen exploding deep inside flooding our wombs! Feeling our wombs expand with the immense quantities repeatedly blasted into us!

The semen additionally stimulating and intensifying our sexual responses and experiences!

The beyond describable sensations as one massive orgasm after another continuously exploded within each of us! The internal nuclear explosions each of us felt as we experienced more than one simultaneous multiple clitoral, G-spot and vaginal orgasms that physically and mentally wracked us senseless!"

Every woman sitting there had a deep blush going, respiration noticeably had increased. More than one fidgeting as she sat there, vividly remembering each sensation as if it was just minutes ago! Each of them locked into an acute paroxysm of remembered shuddering intense sexual experiences... Hell! Even the therapists felt themselves affected by the incredibly detailed sexual descriptions.

One of the other woman spoke up, Brooke...

"I was with one of the other twelve member reconnaissance squads who got captured by a team of eight gorillas, and they had a pack of those freakishly huge genetically modified dogs that tracked us down...

Those damn dogs were the size of donkeys!

The gorillas brought us down to the beach and the gorillas starting raping eight of us! However they left the four of us free, we found out why when we made a break for it to get back to our weapons...

Those twelve genetically modified dogs were extremely well trained!

Three dogs acted in concert with each of us to stop us from running away! They were quite adroit at ripping our clothes off without biting us, rendering each of us nakedly defenseless. Then acting in concert, they seized us holding each one of us by our wrists and ankles and forcing us down onto our hands and knees, making us assume a *mounting* position...

Two of the dogs would hold one of us by each wrist while the third would mount us. The dogs holding us would exert just enough pressure to securely hold our wrists without breaking the skin unless we tried to yank them away."

Then in a low voice, Brooke said,

"Those damn canine abominations excreted those potent sex pheromones and so did those cocks of theirs! Just like those damned genetically modified gorillas!

Those damn dogs were not only the size of donkeys but also had cocks and balls the size of donkeys! And, and...., they *rape-fucked* us too!

Repeatedly!

After those freakishly huge genetically modified dogs had mounted us, those of us with long hair the

dogs bit our hair and pulled back hard as they were humping us, forcing each one of us to arch our backs, tilting our hips up! As long thick canine organs found our pussies and started to slide inside each of us involuntarily gasped at its incredible size and the inhuman heat! As more and more massive canine cock raped into us, we all started to writhe uncontrollably and instinctively we started fucking back!

We Couldn't Stop Ourselves From Fucking Back!

WE DIDN'T WANT TO!!!

The huge donkey size dog fucking me was pulling me back and forth with my own hips as he humped his huge and ever growing cock in and out of me but as he started to pump precum into me I instantly felt myself get wet - very wet! And the wetter I got the more he got into me... and the more hornier I got!

Each of us were terrifically affected with an unbearable insatiable sensation of needing to be thoroughly fucked like we had never been before! Once affected, each one of us were unable to resist these terrific sexual urges, and, and, the dogs no longer had to hold us...

I was so thoroughly overwhelmed with intense unbearable sexual desire I didn't think I could stand it much longer or stay conscious!

That huge cock was pounded into me like a jackhammer!

Those lightning-fast thrusts into me were incredibly stimulating! Only their incredible rapid pounding thrusts and their huge swelling cocks penetrating ever deeper kept me conscious! I felt my pussy stretched beyond its limit but there was no pain only intense pleasure!

After being subjected to the gorillas and the dog's sex pheromones and coming under the influence, none of us cared if we got fucked vaginally or anally - or care *WHAT* was fucking us, just that we got fucked and got to orgasm - repeatedly! Over and Over and Over!!!

It was as if each one of us was possessed and we possessed only a single thought - to feel those huge donkey sized cocks fuck us! To ram deeply into us! To make each one of us repeatedly orgasm with huge earth shattering climaxes!

We found out the dog's cocks had the same canine *and* equine characteristics as did those damn gorillas!

The dog raping me pumped into me brutally hard and I could feel a swelling bulge being pushed in and pulled out of me! I knew during sex dogs get tied with each other and that the male dog had a knot that would not come out until well after the dog climaxes, and I am on the tight side anyway...

I clawed at the ground to pull away but he still held me fast! Soon I felt his knot get too big to go into me but the damn dog kept banging away at my vaginal entrance until he finally forced it into me and sure enough it felt like it would rip me apart if it came back out!

I found myself having to push back against the huge dog affording him deeper entry into me to keep the knot from coming out before he fully tied me to prevent it from tearing my vaginal entrance!

Then his knot started swelling - to *softball size*!

Each of us felt as if our pelvises were being displaced due to its immense size! With the knot

swollen inside, this pressed my hard super-sensitized clit against his cock and my G-spot too!

Suddenly I am shaking! Racked with a new series of massively intense orgasms!

Then each of us experienced feeling the penis head flaring out like an horse does and locking against our uterus, ejaculating with explosive force scalding red-hot lava cum that completely flooded and swelled our wombs until we looked like we were a few months pregnant!

That hugely swollen blasted knot placed an incredible rubbing pressure on our G-spots and each one of us kept repeatedly involuntarily climaxing!

One blinding orgasm would start before the last one was finished!

I can vividly recall flailing around writhing as one after another immense orgasm exploded the likes I have never experienced before as his copious hot canine ejaculations pumped inside me as I was held tightly locked to that huge dog with that immense knot swollen inside me!

It seemed that one long continuous body-shattering orgasm assaulted us! It left us totally weak and exhausted!

The dog rape fucking me..., his knot held me suspended off the ground altogether!

Once the dog was able to pull his knot and cock out, cum that felt as hot as lava sprayed out of me all over my thighs and poured onto the ground below me. There was a lot of it... An unbelievable awful lot!

But then before any of us could react due to our exhaustion another dog quickly mounted me as the other dogs did to my squad mates! As soon as their cocks entered each of us again started to repeatedly climax under the renewed sexual assault from the second dog, or the third dog...

Those damn mutant dogs were ready to fuck *again* by the time the second dog got through fucking us!

After the second dog dismounted us, we simply waited on our hands and knees, too exhausted to move...

We all had our ass's tilted up and our shoulders and faces pressed flat to the ground, our arms outflung from our bodies as we waited to be mounted *again*..., and despite our exhaustion, each of us *desiringly* looked forward to being mounted again...

To tell you the truth, we all lost count how many times each of us were raped by either the dogs or the gorillas! Even being ass raped! With those huge knots swelling inside us we each had incredible repeated orgasms that thoroughly racked our bodies!

The dogs and the gorilla repeatedly fucked us countless times leaving each one of us a mewling, shuddering, weak mess of saliva, cum and sweat, writhing in a seemingly endless orgasmic bliss – but each of us still wanting more!!!

It was a horrifying yet sexually exhilarating experience!

None of us ever remember climaxing sooo many times or sooo intensely!

Each of us awash in a sexual delirium!

Our bodies and minds craved for unending sexual pleasure!

Some of us passed out from the repeated rape-fucks but also from the blindingly intense repeated climaxes!

Even though we all were fucked into total senseless exhaustion, each of us still felt an unbearable desire, an undeniable insistent yearning to *keep on fucking! To release that next blinding orgasm!*"

Brooke looked around, suddenly embarrassed at the realization of her exuberance...

Evident that her sexual experiences evidently outweighed the horrific brutal repeated bestial rapes she herself and her companions had underwent...

Two of the other women from the other squad, Carla and Jessica, cleared their throats and began speaking softly,

"We also were ambushed by the gorillas and had the same experiences as you all did - and they also had those huge freak genetically modified dogs with them!"

Carla and Jessica stopped and looked at each other, then continued,

"But we were perhaps subjected to an even *more* intense experience..., an incredibly horrible but indescribably intensely pleasurable one..."

We were forced, at least we think we were forced, to straddle the gorillas as they laid upon the ground, and, and, we very enthusiastically fucked them cowgirl style!

Then those freakishly huge dogs began mounting each one of us astride those damn gorillas and they started fucking our asses even as we continued fucking the gorillas at the same time!

Each one of us seemed to be in a continuous state of climax as we were being double-fucked! All of us felt as if we were going to be ruptured with two knots inside each of us once they were locked in and swelling to softball size,

But We Didn't Care!!!

Each of us was in a constant state of sexual delirium as incredible seemingly never-ending massive orgasms exploded within us! All each of us knew is that every one of us had passed out for some time from the intensity of the most incredible repeated intense orgasms that each of us had ever experienced and never will again! Even our friends who were anal virgins seemed insatiable and experienced equally blinding orgasms!"

Then Ashley spoke up:

I too was one of the ones that got rape fucked by those freak dogs...

I remember the raw primal unquenchable lust I felt unleashed within me and the immense sexual power of that huge dog mounted behind me - pile-driving my pussy with lightning speed! Fucking me with primal savage bestial lust - with a donkey-sized cock!

Fucking me with a force, speed, intensity and size that no man could ever possess!

Then later, getting my ass rape-fucked and knotted by another dog that to my horrified surprise unleashed within me the same incredible pleasures!

I never have been fucked in the ass before except by a small dildo!

I too lost count how many times I was fucked by the dogs ... *but I didn't care!*

All I wanted was to be kept getting fucked and repeatedly climax like I have never done before and never ever will again!"

Everyone in the therapy session were furiously blushing as they remembered their own experiences and thought about what they had seen that the other women had experienced...

The overwhelming insatiable ravenous sexual hunger and rage that totally took over mind and body, each woman in the therapy session vividly recalling the immense sexual satisfaction each one experienced – over and over again!

Carla and Jessica vividly recalling straddling a gorilla and taking on two huge genetically modified animals at once! How furiously each impaled themselves as they drove themselves repeatedly onto the massive animal shafts until fully embedded in both tight entrances! Vividly remembering the primal frenzy of intense sexual lust and insane blinding rage released from deep within each of them! How even now, each again secretly longed to feel that primal lust and incredible multiple orgasmic bliss exploding over and over and over! How even now, during this therapy discussion session, every one of them had felt their pussies become moist and a warmth suffusing their loins...

"But, But!" Lisa loudly stammered, drawing the attention of the others with her loud astonished exclamation,

"They Were Dogs!"

Carla and Jessica stared at Lisa, incredulous! Then they both hotly responded with Carla starting off,

"Lisa! We were just affected as you were! And you know that not one of us could have done *anything* to prevent from getting raped – nor prevented any one of us from fucking back *ANYTHING* with a cock!

Once we were affected by their sex pheromones and hormonal secretions not one of us in our squads cared that they were huge dogs – just like none of us cared they were gorillas!

Just like each one of you, we all were overwhelmingly, unbearably *and irresistibly horny!*

All each of us had was one single burning soul consuming thought – and that was to fuck, fuck *and FUCK Some More!"*

Then Jessica hotly stated,

"Those damn dogs had a huge hot donkey sized cock with that wonderful canine knotting and equine flaring capability and the same fantastic aphrodisiac capabilities as the damn gorillas!"

Then Carla loudly exclaimed, backing up her squad mate Jessica:

"HEY!

SEX IS SEX!

If It Feels Good And Harms No One Or No Thing Then Why The Hell Not!"

Everyone in the room slowly nodded in agreement. Lisa was quiet for a few moments, searching deep within herself trying to reconcile what was coming unbidden and unwanted to her realization, and to the others as well...

Suddenly everyone in the therapy session was shocked as long held institutional social and mental barriers were blasted open...

The other women went quiet as well, remembering, how some of them had fully engulfed cocks eleven inches in length and well more than two inches in width, not just in their pussies but anally as well - and some both at the same time!

At this moment each one's thoughts were solely occupied with vivid remembrances of the huge animal cocks they were fucked with but also how each had responded - fucking back with every bit of energy and sexual enthusiasm and insane rage they could muster!

Remembering how each felt their bodies and minds transformed and had sexually responded! Their thoughts dissolving totally and then re-centering - how each of them had turned into insatiable sexual fucking banshees...

Replying directly to Carla and Jessica, Lisa hesitantly spoke up,

"I apologize, and to everyone in this room..."

You all are right!

Ever since we have been rescued, I myself have been troubled with being so frequently damn horny with the need to be fucked! Repeatedly! By a huge hot fat cock!

I remember how I myself lost all self-control, like we all did...

How I got totally lost completely surrendering to uncontrollable mindless sexual frenzy never wanting to resurface!"

The three therapists exchanged glances amongst each other, an unspoken decision seemingly reached between them. Then one therapist started speaking:

"Carla and Jessica do bring up an interesting historical point,

"Hopefully, it will put all of you at ease..."

~~~~~

## **PART 28**

The three therapists in turn begin telling the group,

"You may be shocked to learn that there is a natural desire to have sexual relations with animals. It has always been with humankind. It is present not only psychologically but due to an inherent genetic trait also lies physically within the less evolved area of our human brain, and these desires are especially prevalent within women.

Psychologically it lies within our psyche, buried deeply within the unconscious of most human beings. Society tends to forget that the human species is also scientifically classified as an animal, which by evolutionary accident we have become what we are today.

However, there is still a core of the primal beast physically within us but deeply buried in the primitive area of our brains which allocates much of its energy and function to repressing and denying our still existent natural primitive animal instincts.

In other words, humans are still animals who mentally deny our own animality and try to repress their natural physical animalistic tendencies and desires.

Nevertheless, we still feel our physical natural animality and we project it into our external world; it is omnipresent in our art, science, literature, mythology, and our dreams. The pleasure center of our brains is located in the nucleus accumbens, and when it is sufficiently sexually stimulated we realize this in the vivid sexual fantasies we creatively imagine, the rear entry sexual position we subconsciously and instinctively undertake – and the deeply repressed sexual urges that are temporarily freed and then acted upon...

Extensive cave paintings and carvings from 40,000 to 25,000 ago have been discovered depicting humans and animals having sexual relations. Moreover, the fact that these drawings are so extensive and prevalent show that it was an integral part of a clan's family history. Researchers have concluded that this indicates prehistoric man was not bound by any self-image about sexuality and it was a common act.

Bestiality throughout antiquity was a very widespread and commonly accepted practice. This is evidenced by the many surviving frescos, friezes, tiles, sculptures and pottery depicting bestiality, as well as numerous archeological discoveries. And as we just mentioned, bestiality has long been portrayed in art, literature, and mythology.

The researchers William H. Masters and Virginia Johnson stated:

“Bestiality existed as a rather widespread practice in all the nations of antiquity of which we have adequate records. Where it is not specifically mentioned, it may be legitimately inferred on the basis of the over-all evidence.”

One of the other therapists began speaking,

“Indeed the overall historical evidence is overwhelmingly conclusive!

Bestiality themes are rich in Greek and Roman mythology portraying females having sexual relationships with horses, apes, bulls, goats and wolves as these animals were worshipped as fertility symbols and as gods disguising themselves as animals. Ancient Greeks engaged in public bestiality during religious celebrations such as the BACCHANALIA, in honor of the god Bacchus, and in the Temple of Aphrodite Parne, the Greek goddess of copulation.

In classical Greco-Roman tradition, gods appeared regularly as animals to have intercourse with humans, the offspring of these couplings rising to be heroes having characteristics of animal strength as a result of having an animal ancestor.

Numerous written documents exist showing Roman emperors, their wives, and Roman society as a whole enjoyed bestiality.

It was a prevalent practice in Roman society as it imitated the lives of their gods. The Romans commonly had public displays of bestiality acts at the Coliseum, the Circus Maximus, at smaller theatre venues similar to going to watch a small play, and at the lavish private parties the wealthy held.

In the Middle Ages, bestiality was most widespread from the fall of the Roman Empire in AD 476 to the discovery of America by Columbus. Animals were common everywhere and often shared the same roof with barns attached to houses as was the style back then because in Winter the body heat from animals helped warm the attached houses. Sexual intercourse with animals was further thought to have been healthy and a cure for many diseases.

As countless women over millennia had discovered, the shape of a canine penis and the knot intensely stimulates both the clitoris and the G-spot in any sexual position leading to very intense orgasms, especially the rear entry or doggy style position.

With equines, it is the massive shaft, the powerful thrusting, the momentary flaring of the head of the penis upon climax, and the immense forceful quantity of ejaculate that women had found so pleasurable.

In today's modern times, there are even case histories of women inadvertently or purposely having intercourse with dolphins and porpoises! Women described the sexual encounter as brief but very intense due to the nine to fourteen inch muscular prehensile flexible thick penises that powerfully undulates inside the vagina which ejaculates an immense volume of semen with great force! In addition, if there is more than one male dolphin or porpoise around, a woman has found herself experiencing intercourse multiple times before she makes it back to shore!

Dolphins and porpoises are one of the few species documented to have recreational sex for pleasure and only one of two species documented to rape! There is historical and archeological evidence that sex with dolphins and porpoises dates back to ancient times and are also based on the mythological stories that exist.

The casual attitude toward animals and sexual relations began to change when early Church fathers wrestled with our classical heritage and selected those elements they thought suitable for Christianity, discarding the powerful sexual mythology such as depicted by Satyrs, Minotaur's, Unicorns, and the half man/half beast Greek god PAN.

Historical scholars and researchers believe the discarding and suppression of classical sexual mythology was in part instituted by jealous and insecure men who were alarmed at the sexual responses and passions that could be unleashed from a woman by an animal other than a human male!

In response Church fathers and religious writers shaped their religious texts that animals and humans were separate and humans thus should not have sexual relations with animals. These suppressions were, and still are, cloaked in religious writings that were fictiously created by jealous men and perpetuated through the ages - a form of social and mental conditioning.

Then, along with misinterpreted and/or misbegotten religious beliefs and teachings, patriarchal societies began severely repressing women through extreme societal mores. Family and patriarchal societies not only imposed their socially conditioned ideas upon women but also upon the child. At this stage in their lives, children have not developed their intellect to a high degree and they are more controlled by their emotions, thus easily influencing or distorting the way he/she perceives his/her image.

This is why the psychological trauma of being raped by the gorillas and dogs struck you so hard! Then your psyche was really slammed when you felt yourself involuntarily responding and fucking back - and how fantastic it felt!"

The therapists then imparted to the group of women that an abundance of years of research and

archeological evidence from all around the world leaves no doubt that bestiality has always been an integral part of human life.

Scientific data gathered over the last sixty years, especially within the last forty years since the viral outbreak, has firmly proven that with our rapidly changing and enlightening modern matriarchal society and the advent of the Internet world wide web, bestiality is once again becoming commonplace - a natural modern societal progression that inadvertently has been accelerated by the vaccine which created a hugely disproportionate ratio of human females to males.

Just as the vaccine has made commonplace polygamous marriages between one man and more than one woman, and same sex marriages between women, women have had to find alternative and creative sexual outlets and marital conventions due to the greatly reduced male population - and amongst these are rediscovering natural urges and desires that for centuries had been artificially repressed within them! This is occurring ever more frequently as societal conditions continue to change and evolve as new attitudes or re-discovered attitudes are accepted and society worldwide transitions to a matriarchy.

And while today's society has an abundance of marvelous high tech devices - sex machines and even androids to provide sexual relief, it is still not a substitute for a real and warm flesh and blood penis!

Based on all accumulative research data, eighty-three percent of all women had thought about bestiality and had vivid sexual fantasies of engaging in it, and it is conservatively estimated that over seventy-one percent actually have had at least one or more intimate physical experiences with bestiality!

Then, with no hesitation, the therapists as one espoused the same philosophy:

"If It Physically And Mentally Harms No One And No Thing And Is Safe And Consensual,

Do What Feels Good!!!"

The three therapists then summarized that the majority of human beings never live according to their own natural nature...

Women having sexual fantasies that include animals is a mental escape from pent-up physical and mental stress imparted by outdated and misbegotten society rules, regulations and imposed religious values. It is our subconsciousness casting off the bonds of sexual denial and constraint to free the inherited genetic relic of our primal nature that over the centuries we were forced to both deny and ignore due to the inverted precepts of religion and patriarchal societies.

Conclusively the therapists stated that natural instinctive urges and desires to engage in sexual relations with an animal for sexual relief are perfectly normal! These feelings are an actual physical as well as a mental component of our human makeup. Only with today's modern enlightening society and technological advances are women once again free to fully unleash and explore their sexuality! To release ages-long socially repressed natural instincts and tendencies - and to fulfill perfectly *normal* desires.

The therapists explained that the extremist misogynist patriarchal scientist's had discovered the chemical means to near instantaneously release these long repressed natural desires, believing it would sow chaos and confusion in our matriarchal society! And as you in this group had experienced, the enclave researchers had devised an extremely potent aphrodisiac that is effective by inhalation or by skin contact that could be used as a chemical weapon that would near instantaneously unlock these repressed genetic sexual traits in women!

"I can't believe we are talking about this!" Maggie stated,

"But it does explain some things I myself have experienced! I have had a couple of boyfriends and girlfriends that have hinted about bestiality!

At first I was shocked when it first came up, then I realized I was being baited to see if I had any interest..."

Then two of the other women spoke up that they too had similar experiences with their boyfriends and girlfriends...

With Maggie's bold pronouncement, it was crystal clear to the other women that another avenue for sexual enjoyment and release was available for them, and always has been, except for a repressive patriarchal society that for centuries have propagated misbegotten sexual mores...

Stunned at the logic, supposition and the historical perspective, all the women in the therapy session stared at each other, the three therapists sitting there with hopeful anticipation...

Then a couple of them cracked a slight grin which then rippled among the others, then they all started laughing, the entire group dissolving in hysterical tear-laced laughter! Mental relief in shedding a cruelly repressive and maliciously conceived sexual taboo! A shared unspoken consensus reached of a new dimension that had just opened up!

The three therapists were pleased that each one of the women had successfully broken free of their psychological trauma and now would cease their incessant worrying.

The therapists then informed the group that their own research scientists have determined there is a surprise medical benefit of the secretions of the genetically altered gorillas and dogs. Their secretions contained a muscle relaxant and also had properties to impart a great elasticity to tissues and ligaments. This had allowed the women to be able to accommodate the huge penises and knots, "and as some of you have found out, two at the same time!"

"Our scientists have not yet figured out how the enclave scientists have managed to genetically alter the gorillas and dogs not only in size but also the animal's highly potent sex pheromones and hormones as they had destroyed all their research upon realization the enclave would be taken by our forces, and they have refused to speak about their methods.

However, our scientists are very excited they will be able to soon synthesize the sex pheromones and hormones because they have determined it will be greatly beneficial to administer to a woman in labor to greatly ease the birthing process to be almost completely pain free, to almost completely eliminate caesarian births, or the need for an episiotomy.

But, our scientist have not been able to isolate and remove the sex stimulating pheromones and hormones without changing the beneficial portions of the rest of the formulation. It would be odd to be in labor and delivering a baby while repeatedly climaxing!"

All the women again cracked up in laughter...

That evening, all the patients managed to get some sleep, but each one of the women had vivid dreams that fully explored the conversation they had, vivid dreams that turned into sexual fantasies, dreams each of them determined to make fantasy real...

PART 29 - EPILOUGE

After the invasion, all the genetically modified gorillas and dogs were finally captured and isolated to a remote Pacific island. The food supply delivered to them was heavily laced with drugs to suppress their sexual impulses and their violent tendencies. However despite extensive research nothing could be devised to suppress their extremely potent sexual lust stimulating pheromones, hormones and penile secretions.

The researchers studying the animals on the island had to wear respirators in the tropical heat when in the animals presence. After a few years, the genetically engineered gorillas, but not the dogs, had all died off naturally, if you can call it that. Their artificially engineered high metabolism and physiology of the gorillas dooming them to a short life of less than five years...

In the end, the few remaining patriarchal enclaves were captured and its members assimilated into the matriarchal societies, world peace was restored and harmony prevailed. After the last of enclave's nefarious laboratories were captured, it was months later that research was discovered that confirmed what the psychologists, psychiatrists, and medical specialists already suspected...

Upon exposure to the sexual secretions from the gorillas or dogs, the rape victim's behavioral inhibitory centers became permanently altered, drastically reducing inhibitions to sexual taboos and mores, leading to a lifelong proclivity for bestiality...

And for a few more additional years, in isolated spots around the world where the former patriarchal enclaves used to be, reports continued to emerge of genetically modified gorillas raping women. Additionally, for many more years there were reports of rapine attacks by huge dogs...

However, the sexual affliction was continuing to rampantly spread unchecked worldwide and the vaccine's use still had to be continued. While women could be carriers of the virus it did not affect them, but women could pass on the virus to their male sexual partners, therefore five year vaccine booster shots were required.

Over time, scientists, doctors and behavioral specialists noted the vaccine induced men to become ever more passive, which finally and fully eliminated the patriarchal type of society. All male aggression gradually disappeared which enabled a Utopian society to fully and completely emerge worldwide.

However, as with all societies, even this world-wide Utopian society, there was a black market element, as there always are people looking for that thrill, that edge, that advantage...

Some of the former enclave scientists used their chemical and genetic skills that had proven so effective during the last major campaigns, used those skills to happily make huge profits in the sex business!

Additionally, scientists at pharmaceutical companies synthesized the powerful and extremely potent fast reacting aphrodisiac hormones for human use. Beyond the aphrodisiac qualities, the drug was found to fantastically increase body toning which most women found irresistible not to utilize!

A huge black market in the drug bloomed. It took only three of the prescription pills to equal the natural concentration that the genetically modified gorillas and dogs possessed. Once dissolved and absorbed, the drug reacted almost instantaneously - turning a person into an almost insatiable fucking machine! However latent tendencies persisted after the drug wore off, and repeated usage at high dosages were found to drastically reduce other inhibitions to sexual taboos and mores...

Men who repeatedly utilized the black market concentration found their penises grew thicker and up to three to four more inches in length with a corresponding increase of volume of ejaculate!

However it was also easily determined who these men were as it had the unwanted side-effect of making their testicles vastly over-sized to a point of absurdity and ridicule....

Still, no man - or woman, ever lacked for sex partners...

Women too, over time, experienced another permanent affect from the vaccine...

Gradually women and medical and behavioral specialists noted decreasing long-held rigid societal taboos and mores regarding sex, women's behavioral inhibitory centers were being permanently affected by the vaccine...

Still the unresolved vastly disparate gender inequality continued to place severe societal pressure in the area of sexual behaviors, because no matter how sophisticated and realistic an artificial dildo, or sophisticated the sex machine or the sex androids that were commonplace and easily affordable, nothing replaces the feeling of a real, live squirting cock...

Some of the former enclave scientists found employment at animal pharmaceutical companies, recreating their genetic manipulation techniques and pheromonal/hormonal drugs to vastly increase the size of animal penises and testes as well as vastly increase semen quantity...

With the tremendous shortage of men, there were always plenty of women that would pay top dollar - to feel a large, hot, and very real cock thrusting and ejaculating into them!

Even if that cock belonged to a canine or an equine...

The vaccine affected women's behavioral inhibitory centers toward less stringent sexual mores, facilitating the purely natural progression of the eventual elimination of this misbegotten sexual taboo that was originally created by jealous men...

STRANGE BUT TRUE HISTORICAL FACT!

Blasts from the past: The Soviet Ape-Man Scandal

In February 1926, Russian biologist Ilia Ivanov set out for Guinea in French West Africa, where he planned to perform one of the world's most sensational experiments. Ivanov was an expert in artificial insemination and had used his ground-breaking methods to create an assortment of hybrid animals. Now he was going to try something even more radical - crossing an ape and a human.

His trip to Africa was expensive and its purpose highly questionable, yet the Bolshevik government not only sanctioned it but also financed it at a time when few Russians were allowed to leave the country. Why would so eminent a scientist risk his reputation? And why did the Bolsheviks back him?

It was the story with everything: secret papers, an evil Soviet dictator and a zealous zoologist hell-bent on breeding a creature that was half man, half ape.

When details of Ilia Ivanov's attempts to create an ape-human hybrid emerged in the 1990s from the newly opened Russian archives, they prompted a rash of lurid headlines. Ivanov became the "Red Frankenstein". His proposed liaisons were invariably dangerous. There was even the suggestion that he had been ordered to breed super-strong hairy warriors for what The Sun in London dubbed, "Stalin's mutant ape army".

At the start of the 20th century, Ivanov was internationally acclaimed for his pioneering work in artificial insemination (AI).

Ivanov having perfected his AI methods he was keen to see how they could be applied. His first big project was aimed at improving imperial Russia's equine bloodstock, using sperm from the best stallions. Before long, he was pondering the possibilities of hybridization: with AI, he reckoned he might be able to create novel types of domestic animal by crossing closely related species. Soon he had produced a zeedonk (zebra-donkey hybrid), a zubron (European bison-cow cross) and various combinations of rats, mice, guinea pigs and rabbits. In 1910, he told a gathering of zoologists that it might even be possible to create hybrids between humans and their closest relatives.

At that stage, Ivanov was simply speculating, but a decade and a revolution later, he was making plans to put theory into practice. In 1924, he put his proposals to the government. Despite the disapproval of the scientific establishment Ivanov got the go-ahead - and the funds to mount an expedition to Africa to collect apes. Documents show that the decision was pushed through by leading members of the Bolshevik government.

In February 1926, Ivanov set off for Africa. His first stop was Paris, where he won the enthusiastic support of the directors of the esteemed Pasteur Institute and the promise of access to the chimps at its new primate center in Guinea, then part of French West Africa. He reached Guinea in late March only to discover none of the chimps was mature enough to breed. He would have to return later in the year to capture some chimps of his own.

Ivanov passed the summer in Paris, where he spent some of his time at the Pasteur Institute working on ways to capture and subdue chimps, and some with the celebrated surgeon Serge Voronoff, inventor of an increasingly fashionable "rejuvenation therapy".

In a now notorious operation, Voronoff grafted slices of ape testes into those of rich and aging men hoping to regain their former vigor.

That summer, Voronoff and Ivanov made headlines by transplanting a woman's ovary into a chimp called Nora and then inseminating her with human sperm. While the press waited for the outcome, reporters turned their attention to Ivanov's unusual project. The idea of an ape-human hybrid was both shocking and fascinating. Was it possible? Were humans really that closely related to apes? What would the result be like? And what were the Soviets up to?

In November, Ivanov returned to Guinea, captured his chimps and with considerable difficulty eventually inseminated three of them with human sperm. By now, he had a second experiment in mind: to inseminate women with chimp sperm. Knowing that no local woman would agree, he planned to do this under the pretext of a medical examination, but the French governor forbade it.

None of the three female chimps conceived. Disappointed, Ivanov headed home with 20 chimps to stock a new ape nursery in the subtropical Soviet republic of Abkhazia. He knew now that his best chance of creating his hybrid was to find Soviet women willing to carry half-ape babies in the interests of science. In the event, only four chimps made it to Abkhazia and so while the nursery set about acquiring more apes, Ivanov looked for volunteers.

Documentation indicated at least five women were known to have volunteered. But although the nursery did get hold of an assortment of apes, they never flourished, and by the time Ivanov was ready to proceed the only adult male left was Tarzan, a 26-year-old orangutan.

Ivanov pressed on until fate dealt his project a fatal blow. Tarzan had a brain hemorrhage.

"The orang has died, we are looking for a replacement," Ivanov cabled the women he had lined up to receive Tarzan's sperm.

More chimps arrived in 1930 – but Ivanov fell victim to Stalin's widespread purge of scientists and academics and Ivanov was exiled to Kazakhstan. He was released the next year but died soon after.

"Five women offered to carry half-ape babies in the interests of science"

So why did Ivanov want so badly to produce a baby that was half-ape, half-human? And why did the Bolsheviks encourage him?

When Ivanov put his proposal to the Soviet Academy of Sciences he painted it as the experiment that would prove men had evolved from apes.

"If Ivanov had successfully crossed an ape and a human and produced viable offspring then that would mean Darwin was right about how closely related we are," says Alexander Etkind, a professor of history and cultural scientist.

When Ivanov approached the Soviet government, he stressed how proving Darwin right would strike a blow against religion, which the Bolsheviks were struggling to stamp out. Success would not only bolster the reputation of Soviet science but provide useful anti-religious propaganda to boot.

That might seem motive enough, yet as Etkind points out, some have suggested that the ageing Bolshevik leaders had something less intellectual in mind.

"There is conjecture that Ivanov was sent to Africa to bring back apes in order to provide them with glands for rejuvenation."

The Kremlin's doctors certainly dabbled in rejuvenation treatments and Ivanov did have links to Voronoff, but Etkind is not convinced.

"If you want to cover up a bizarre scheme to rejuvenate aging politicians then you wouldn't choose an even more bizarre project that's going to attract a lot of publicity," Etkind stated.

There is a third possible motive – that Ivanov's research was part of an ambitious plan to transform society. The high-ranking Bolsheviks who backed Ivanov were intellectuals who saw science as a means of realizing their dream of a socialist utopia.

"Politicians could change the political system, nationalize industries and turn farms into vast collectives – but the task of transforming people was entrusted to scientists," says Etkind. "The aim was to match people to the socialist design of Soviet society."

One way to do that was through "positive eugenics", using AI to speed up the spread of desirable traits – a willingness to live and work communally, for instance – and to get rid of "primitive" traits such as competitiveness, greed and the desire to own property.

"There were many projects aimed at changing humanity," Etkind says. "Ivanov's was the most extreme. But if he had succeeded then that would show that humans could be changed in radical and creative ways."

Etkind believes this is the most likely reason why the Bolsheviks backed the project and that it was also what motivated Ivanov, at least in part. Like many others, Ivanov was swept along by the Bolshevik dream, Etkind said. "He had proved that AI had the capacity to change nature, and testing

its limits was perfectly in tune with the revolutionary times.”

At the end of the day, Ivanov was a typical Russian intellectual. “His ends and means today sound truly radical. But if you think about it, a successful hybridization with apes and humans is no more fantastic than a “happy life in a communal apartment”.
