BEASTIALITY STORIES

After divorcing my second wife in the late 1970s, I started to party again.

Met this woman, Mary, in a bar one night. Got pretty wasted and horny, so we decided to go to my place. On the way there, we passed an adult bookstore. She asked if I had ever been in there and Of course, I said yes because the owner was a customer and friend. She said she had never been because she was too shy to go alone.

I offered to escort her if she would like to check it out. She agreed. We went in and looked around then she asked what was through that door in the back, to which I said it was where you could preview the movies they had for sale. She said that she liked porn movies but had never seen one or two and wanted to check it out. I took her back, and several guys were standing around.

I selected a booth and inserted a couple of quarters. But that was all the quarters I had. When the time ran out, Mary was getting pretty horny and asked me to get more coins so we could watch more. I went up front to get change, and when I got back, there was a line at the door to my booth. When I got close enough to see, she was sucking this guy's cock. When she finished, the next guy stepped up. I counted four guys before I got to her and told her that I had porn movies at home.

She was enjoying herself because she was hesitant to leave. I put some movies on when we got home while she played with my dog, Bigboy. We watched movies and fucked for about an hour. I went to shower, and when I got back, Bigboy had jumped up on the couch between her legs and was licking her face. I didn't think much about it since he had never been with a woman; I figured he was enjoying the attention.

As I sat down, she said, "I think he likes me."

I laughed, saying, "He likes anybody who'll pet him."

Mary said, "That's not what I meant, his cock is against my pussy."

I said, "Oh, shit, do you want me to take him outside?"

She said, "No, actually, I'm still horny, and it feels good."

A couple of minutes later, she hurried further down on the sofa. "Yes..." she said, "that feels much better now he's inside me; I think I might just like this." About that time, Bigboy hit her hard, and she hollered, "Damn, he's big..."

"Do you want me to get him off you?" I asked.

"Don't you dare, I love this," she moaned. "Bigboy's getting bigger, much bigger. My god, how big is he? What's that, it feels like a knot?"

I said, "That's exactly what it's called, the knot. It's there to stop the dog's cum running out of the bitch to increase the chance of her getting pregnant. You see, dog semen is thin with a lower concentration of sperm, so they pump a lot in to make sure and then hold it there with the tie. Men's semen is thick and more concentrated, so we don't need so much quantity to get our mates pregnant or to tie them to make sure."

"It's getting huge and kinda scaring me. If it gets much bigger, I don't know if I can handle it."

I said, "You don't have a choice now. He's tied you and won't come out until he's finished, so you might as well relax and enjoy it."

"Oh, fuck, I just hope he doesn't get much bigger. That knot thing is huge, but he must be a foot long beyond it. I've never been fucked this deep before, he's hitting bottom. Holy fuck, he's cumming, and it's so hot. Now I'm cumming too."

Mary grabbed him around the neck and held on while she frantically fucked him back. I don't believe I've ever seen a woman orgasm that hard.

"Wow, he's still cumming," she said.

"Yep, he'll continue to do that until he comes out, probably after too."

"I love it; the more, the merrier."

Bigboy is holding still now, just resting, but she starts to slow fuck him and then starts cumming again, which evolves into a continuous orgasm. This gets Bigboy aroused, and he starts fucking her again. When he cums this time, she passes out. A few minutes later, she arouses and says, "That was wild. Is he finished now?"

I said, "I guess that's up to him."

She screws up and starts slowly fucking him again with the same result. This time the dog fucked her hard for about ten minutes before it cum.

After relaxing, he finally had enough and slipped out with a plop. I have seen many dog cocks, but never one that big. He was huge. He was at least ten to eleven inches before the knot, and with the size of it, that must have been eleven or twelve inches that he fucked her with. Thinking that she was done for the night, I was wrong; she slid off the sofa and under him and started sucking him off. The shaft alone must have a circumference of six to seven inches. I don't know if he liked it or was too tired to protest, but Bigboy stood for her long enough to get him off again and swallowed every drop.

She looked at me and smiled, saying, "After the fuck he just gave me, I just had to reward him, and besides, I love sucking cock as if you didn't already notice at the bookstore."

She took a shower and cleaned up a bit while I fixed us a drink and let Bigboy out to piss; it wasn't but a couple of minutes until the dog was scratching at the door again. I let him in, and the dog curled up in the corner for much-needed rest. He's been fucking for a good hour and a half.

We talked for a while because she had never been with an animal before and had many questions. After finishing our third drink, she petted Bigboy, telling him he was a good doggie. He got aroused again, pushed her over onto her knees, and mounted her doggy style. He jumped off a couple of times and was about half hard. With his undersized knot out the third time, he nailed her hard knot and all, which caused her to shriek, but he got right into it like a champ. He fucked her for about ten to fifteen minutes this time, and after resting a bit, he dismounted butt-to-butt until he shrunk enough to come out.

After that, she showered again and got dressed. On the way back to her car, she asked if she could come out again, and I told her sure. "I know Bigboy will be glad to see you," I said. If I'm not here, you know where the key is hidden, and you're welcome to let yourself in to see Bigboy."

She just laughed and said, "If I had a dog like Bigboy, I would probably fuck him to death."

Not surprisingly, I came home the next day and found them on the sofa tied. She said she could think of nothing but Bigboy all day, so she came out as soon as she got off work. They fucked off and on until eleven pm, with me getting a couple of blowjobs. This went on for about a week every day until I came home and found her there. Mary was on the sofa again, but to my surprise, a very young-looking girl was watching the action this time.

At first, she felt awkward but soon relaxed and told me, "Mary and I worked together. I had been confiding that my husband doesn't please me, and when Mary told me about a huge K9, I didn't believe it. So Mary invited me to come along and see for myself."

I said, "Well, do you believe it now?"

"Wow, what's not to believe? Bigboy has already fucked Mary twice, and she's been cumming her ass off. If I could only cum like that just one time, I would be a happy girl. I can't wait for my turn."

"Lisa, how old are you?"

"I'm 19, why?"

"Don't want to get in trouble with underage girls, that's why. You say your husband can give you what you want. Why is that?"

"Well, he has an extremely small dick that just doesn't do anything for me. I always have to masturbate, which helps but still leaves a lot of need."

"How big is it?" I ask, intrigued by the confession.

"He says it's average, but I measured it one morning when he was asleep, you know, the morning wood and his dick was barely four inches hard."

"Ouch, that's small. Have you ever been with anyone other than your husband, with a larger cock?"

"No, he's the only dick I've known until now."

"Bigboy would not be the right dog for you; he's very large."

"Yes, Mary told me, but I'm desperate. I need to get a real fuck but don't want to do it with another man because of possible jealousy issues."

"Well, if you're interested, I may still be able to help you. Bigboy has a couple of nephews out back in the kennel. I could let you try with one of them if you want. I'm sure they won't be nearly as large as him."

"Oh, god, yes, please."

I went out to get Duke, and by the time I got back, she was already nude, sitting on the sofa next to Mary.

She said, "I thought you said he was smaller than Bigboy?"

"No, the body size is the same, but I'm sure his cock is smaller.

"Not like my husband's, I hope," Lisa said.

"Not even close, young lady," I said. "He'll be big enough to give you what you want and need. Just lay back and let him get between your legs, then play with his ears; he likes that. Then, you can take his front legs, lift him onto your belly, and keep petting him. As young as he is, he will probably get excited quickly. Just keep easing down further on the sofa and pulling him closer until you feel his cock at the entrance. Once you get the tip inside, he will probably take over."

"Ah, yes, I feel it, and you're right. It's not as big as Bigboy, but it's much bigger than my husband's baby dick."

"OK, now slide a little further toward the front of the sofa."

That did it; Duke's breeding instincts took over, and he knocked the wind out of her. "Duke will do the rest now," I said. "You're in for the fuck of your life."

"I believe you because I came as soon as he started," Lisa moans. "You were also right about his size. He started growing as soon as he was in, and it's still getting bigger. I love this. Damn, I'm cumming again. I never dreamed that fucking could be so good. Ouch..." she suddenly grunts. "What is that big ball on his dick? It's getting really big.

"That's called the knot, and it will get so large that it won't come out until he's finished, maybe about thirty or forty-five minutes from now."

"Oh my god, my husband has never lasted more than two minutes."

"Well, he won't fuck much longer, but as long as he's inside, he will continue to throb and squirt, filling you with his cum."

"Uh-oh, he's started cumming. I thought his cock was hot, but his cum is scalding my insides now. I'm cumming with him. I can't believe this is the third time, and I love it even more."

"OK, hold him around the neck and shoulders so he can't get down too soon. Once he knows what you want him to do, he will probably just lay there and pump his spunk inside you. If he struggles, I will help hold him."

Turned out Duke is a natural; he simply lays there as if he's napping. After a short break, Lisa started the same thing as Mary, slowly fucking him. In just a couple of min, she was cumming again. The more she stroked, the harder she came until she was going crazy with orgasms. Then Duke started fucking her again.

Here I stand with two hot women fucking two of my dogs while they ignore me. Bigboy finished his third fuck before Duke, like before Mary slid off the sofa and sucked him off. I saw Lisa watching her, and I guess it gave her ideas, or maybe she was just transfixed by the size of Bigboy's cock. Sure enough, when Duke dismounted, I saw that his cock was only about seven inches, including the knot but still a good size in diameter, with a circumference of five inches.

I was right. Lisa watching Mary suck Bigboy's cock did give her ideas. Not sure if Lisa thought she was supposed to, or if she wanted to. I held Duke by the collar while Lisa sucked him somewhat reluctantly at first, then started getting into it, and so did Duke because he started to whine and thrust into her mouth. Again, Lisa took it like a champion allowing him to penetrate the knot, and

when he cum she swallowed every drop and kept on sucking.

When Lisa pulled off, she sat up with a big smile,, licking her lips. She said, "This is unbelievable. I did three things today I never dreamed of doing. First, I fucked a dog and had the most amazing orgasms of my life, not just one. I lost count of how many. Then I had oral sex for the first time, not with a man but with a big dick dog, and swallowed every drop of his cum, still wanting more. I feel like risking. I have never been with a man other than my husband. Would you mind if I sucked your cock?"

Lisa sure didn't have to ask twice.

She hit the daily double today and found out she's a dog fucker and a superb cocksucker.

"My husband doesn't know it yet but will buy me a big dog. Meantime, do you mind if I come back again with Mary because I saw Bigboy's cock and feel I will never be satisfied without trying it? I know that he's huge, but Mary took him and loved it; if she can, I can; please, I'll even let you fuck me first if that will help. After all, I have never fucked a man with a big cock, so I would like to cross that off my list.

"Okay, Mary has dibs on Bigboy, so if it's ok with her to take Duke while you take Bigboy, it's fine with me."

Mary said it was okay with her because she felt Bigboy would have a good one for her after he's finished.

"Did you say you had two other dogs, one more than Duke?" Lisa asked.

"Yes, his brother Prince," I said.

"Good, I can fuck Duke first, then Prince doggy-style while I suck Duke.

"Lisa, why don't you tell hubby that you and Mary have some things to do on Saturday that may take all day? That'll give you girls time to have all the fun you want. I'm sure the three of them will send you both home happy."

"Oh my god, I can't wait. I'm so fucking horny right now just talking about it. Would you mind if I brought a couple of joints?"

"You think you need it?"

"No, but when I masturbate, I get off much better if I smoke weed. I would like to see what it's like while being fucked."

"Okay, but only two. You and Mary can share."

"As I said before, I'm so horny talking about Saturday. Do you think Bigboy can go again now?"

"Not sure; I guess it's up to him. Why don't you sit on the sofa and call him over."

Sure enough, Bigboy took his position.

Mary said, "Why not have previews of Saturday? Bring Prince in, and let's get this show on the road."

"Hell, I'm horny too," I said.

"When we finish with them, we'll both suck your cock," Mary said.

"Okay, but remember, Prince has never fucked before, so his balls will be full."

"Oh, yummy, would you help me with him while I let Duke fuck me doggy style. I can suck out that delicious dog cum."

"Sure, but first, let's see what happens with Lisa and Bigboy," I told Mary. Then, to Lisa, I said, "Lisa, just like with Duke, ease forward on the sofa until you feel the tip at your entrance. Then, ease it in a bit. Once he feels your warmth, he'll take over."

"Oh my god, I can tell already that he's much bigger than Duke was, and he only has about an inch in. Yikes, he just shoved it all the way. It hurts a bit but feels great at the same time.

"He's not finished growing yet, Lisa," I said.

"Good, because I want more, and yes, he's still growing but already hitting bottom. God, he's not even finished growing, and I'm already cumming; this is gonna be one hell of a fuck. Mary, I see what you were talking about; now the knot is getting very big, causing him to go even deeper. This is fucking amazing. Mary, will the pain go away?"

"Yes, just give it a minute or two, and then you will start to enjoy it," Mary said.

"Damn, that knot is huge, and it feels like the tip is up in my belly. I don't know if I can enjoy it more than I do now. Hell, I'm in constant orgasm, and the dog hasn't even cum yet."

"Mary, I think she has everything under control," I said. "I'll be right back with Prince. Why don't you start with Duke?"

When I got back, Duke was hammering away. Mary said, "I have always liked young studs, now I like young dogs also. What he lacks in size, he makes up for in enthusiasm. You or prince one, get over here fast; I need a cock in my mouth."

Turns out, as expected, Prince was horny. Mary only stroked his sheath a couple of times before he was out. When Mary saw red, she took him in her mouth, and he started humping away. It only took a couple of minutes, and he was cumming like a gangbuster right down her throat. Mary struggled to keep it all in but kept on sucking for more. It only took Prince about the same time to recover, and I could tell Mary was in heaven.

He lasted longer this time, and he and Duke came about the same time. It only took Duke about five min to dismount. Mary said, "Please, bring him around here and put Prince on me. He has a much bigger cock, and I need that."

Prince may become as big as his uncle when fully mature. I see now why she was struggling with his cock in her mouth. Hell, it was down her throat because he must be at least nine inches from the knot. Although not as thick (but still very respectable), he will be a real woman-pleaser like his uncle. He also is a quick recovery because when I put his cock in her cunt, he takes over and starts giving her everything he has.

Mary started hollering, "Oh, god."

His knot is too big to go into her cunt, but Prince had a mind of his own and pressed forward. He got a good hold of her hips and rammed with all he had. Mary screamed bloody hell, but he was in and locked. The pain must have spurred Mary on because she started a continuous orgasm right away and was trying to get Duke's knot in her mouth. Mary was sucking him so good he didn't last long. After he finished cumming, Mary took her mouth off and told me that when Prince finished, she wanted to suck him again because he was the first to go so deep in her throat, and she loved it. She said that even though she enjoyed Duke, he wasn't long enough, and she couldn't get his knot in her mouth. Mary said that she would like to fuck Bigboy and suck Prince at the same time.

I decided I had better check on Lisa, but found her doing just great she said that he had just finished fucking her the third time. She added that she was kinda sad.

I asked, "Why?"

"Because I don't want him to stop, but I know he can't last forever. If I had a dog with a cock like this, I would let him fuck me any time he wanted, and my husband could like it or leave. I told you I've never fucked anyone other than my husband, but I want to say you can fuck me any time you want to. I owe you so much I could never do enough to thank you properly. From now on, if you do allow me to come here more often, then I want to fuck you before the dogs, then after the dogs, I want to suck your cock."

"Well, Mary and I have a surprise for you. She's now finishing up with Prince, and surprisingly he has a cock almost as big as Bigboy, not quite as thick, but maybe a bit longer. She has already deep-throated him while Duke was fucking her; now, when he dismounts, she wants to do it again."

"If Bigboy ever shrinks enough to come out of my tight pussy, I want to suck him also. I loved sucking Duke, but I doubt that I'll be able to take him to the knot like I did Duke. But I want to deep throat you if you'll let me, and will try to do Prince if I get a chance."

"So you like sucking cock and swallowing cum do you?"

"Yes, it surprised me, but when I was sucking Duke, I had an orgasm. Now I want more, lots more," Lisa said. "Mary told me how the two of you met and that sucking off strangers turned her on. Now that I know that I like sucking cocks, I would love to do that, but then I would be afraid that one of them would be my husband or someone that knows him and me. If it were in a different town, I would do it in a minute. Matter of fact, if you have eight or ten friends that would like a good blowjob and a show, you could bring them here, and I would suck all of them and then fuck all three dogs while they watch. Then suck all of them off again. That would be so exciting if you could arrange that. If some of them have big cocks, I'd be willing to let them fuck me if they agree to cum in my mouth instead of my pussy. I will take a sick day off from work if you can arrange that during the week. That way, Mary won't need to know about it."

"Well..." I said, "This is only Tuesday. How about I arrange it for Thursday?"

"The sooner, the better; I think I'm addicted to dick," Lisa said and laughed. "When I finish sucking Bigboy and take a shower, would you please fuck me? I just have to know what it's like to have a real human cock deep inside me."

"I would love to, and yes, I'll cum in your mouth rather than your pussy," I said. "Look, you saw Mary get the key from my hiding place; if something happens that she can't come out one night, you're welcome to come anytime."

“Really? That would be super; that way, I can have four big cocks all to myself.”

“Just don’t let all the dogs in at the same time. Without me here, they might start fighting over you.”

About this time, Bigboy slips out; she slides off the sofa and starts sucking him like a starving baby. After a few more minutes, Prince slips out, and Mary gets under him and devours his cock right down to the knot. Damn, how lucky can I be? I get to watch two sexy women fucking and sucking dogs, knowing that when they finish, I’m going to get some used pussy.

The End
