BEASTIALITY STORIES

I was 18 at the time and still a virgin, although more and more often, I was playing with myself thinking about sex with girls.

I was lucky my cock was much bigger than all my friends, it was 9" long and nice and thick, and as I was on my way home from school, I would never have believed what had happened!

I took a shortcut through the neighbor's farm. As I passed the stables, I heard some strange sounds, so I decided to sneak a look. Quietly, I crept behind the large doors, peeked through the gap, and could hardly believe my eyes....

Beth, who was Farmer Joe's wife, was laid down on some hay bales naked, and she had her hand wrapped around a horse's massive rock-hard cock.

She had a beautiful body for her age (35), large breasts, and a slim waist, and I could see her other hand playing with her pussy which was completely shaved. As she slowly wanked off the cock, which was about 14" long, she also started licking all around the huge head, and as I watched, my cock also grew harder than ever before.

I undid my jeans and took it out, and wanked myself as I watched her, and after she had licked all over the head, I heard her moan with lust, and then she took it into her mouth and started sucking it.

After a few minutes, she said, "Why don't you come and join me so you can see much better, honey?" ... I froze, horrified at being caught, but just as I was about to run away, she said, "It's okay. I would like you to come beside me and watch ... please."

I put my cock away and did as I was asked and nervously moved into the barn and shuffled over next to her.. she smiled and said, "Well, let's start by seeing what's making that nice lump in your pants," and she leaned over and very quickly undid my jeans and pulled them and my undies down.

My cock was really hard, and she put her hand around it and told me I was lucky to have such a big one at my age. She slowly ran her tongue up and down the shaft and then all around the base of the head. "umm," I moaned, loving the sensation, which was making my knees tremble... soon my precum covered the head. I watched as she used her tongue to collect it all in her mouth, and after swallowing, Beth said, "Oh, that tastes so good," and she took my aching cock into her mouth.

As she sucked me, it felt amazing, but she soon stopped saying that she bet that none had ever done that before and then told me to fuck her while she sucked off the horse again!

I followed her instructions, and after rubbing my cock between her juicy pussy lips, I slowly eased up her until all 7" were inside, and as I slowly fucked her, I watched her lick and wank off the horse again... I could hardly believe what I was doing, she felt fantastic, her pussy gripping my cock as I fucked her, but when I saw her pull the massive cock from her mouth... horse's cum sprayed all over her face and breasts and dripped from the corners of her mouth as she gasped for air... "I'm Cumming, oh Jesus, ummmm," I cried out as I buried my cock deep inside her... Beth came too, and she greedily stuffed the cock back into her mouth, swallowing all the cum.

"Well, what's happening here then, babes?"

On hearing her husband's voice, I froze with horror expecting him to go crazy any moment, but instead, he stripped off completely and then moved over in front of me and said, "Well, son, if we are going to teach you all about sex you can see how good it feels to suck cock"

I was disgusted by the thought and wanted to say no, but I couldn't speak. I was so scared, "it's ok honey go on, suck his big cock. You'll love it, I promise," Beth said, trying to reassure me. "Go on, son suck me" I didn't think I had much choice, so I knelt and put my hand around his already hard 8" cock. As I slowly wanked him Beth took the horse away and fetched another which she tied to the rail. "do what I did to you, I promise you'll love it," Beth said so I started licking up. Down the shaft. Then as I licked around the base of the head I could hear Joe "ummm that's lovely" and then when his pre cum had covered all of the swollen head "lick it up, boy."

I decided to try and gather it all up and swallow it in 1 go to avoid the taste, which I was sure would be foul and make me feel sick. Still, I couldn't have been more wrong!... as I took it in my mouth and swallowed, it was impossible to avoid the taste as it slid down my throat... it was warm and slightly salty, and instantly, I loved it!! Both the feel and the taste, and without thinking or being told, I took his cock into my mouth.

As I sucked him, I wanked him off, and at the same time, I could see Beth sucking off the 2nd horse as she also watched me. I worked my mouth up and down, taking it all in my mouth, and then, just like me... when he saw his wife getting sprayed with horse cum I felt it grow in my mouth.

"oh... I'm going to fill that sweet mouth full of spunk."

Splat, he fired thick jets again and again into my mouth, and as I swallowed it, I loved the taste and feel even more than his pre cum... it was thicker, milky, meaty, and more salty.

I loved it so much again without being told; I carefully licked his cock clean, lapping up every drop. "See, honey, I said you would love it," Beth said with a smile.

My cock was hard again, and Joe said he wanted me to fuck him! While he licked his wife's pussy, id just come in, and after bringing a 3rd horse for Beth, I covered my cock with some lube he gave me.

Joe started to lick his wife, and I gently pushed my cock against his tight hole, and when the head slid inside, hearing him cry out with pain, I asked if I should take it out. He said no but to wait till the pain passed before moving, and in less than 30 seconds, I felt his muscles relax, and he said to put it all in.

I eased up inch by inch, and once in, I started to slowly fuck him, which felt good especially watching him lick my cum from his wife's pussy and her sucking off another huge cock!

"Go on, fuck his arse hard and fill it with your spunk; that looks so sexy," Beth moaned, and after 3 or 4 minutes, Joe told me to Fuck him hard and fast... I pulled out of him and then buried all 9" up in one go again and again, and when I started to cum, Beth made the cock in her mouth cum again too.

Beth was covered in thick horse's cum, and she told me and Joe to lick it all up; again, I hesitated, but Joe licked up a large mouthful, and after swallowing it, he said, "It's ok, so it tastes great; help me."

I started to run my tongue all over one of her breasts and filled my mouth... the cum was much thicker and less salty, but it tasted really good and instantly made me hungry for more. Greedily I licked up mouthful after mouthful of the creamy cum until both of us had swallowed every drop.

Joe said he wanted to fuck me next, and Beth told me that I would love it, so reluctantly, I started to lick her sweet pussy, and I felt him rub lots of cold gel all around my tight virgin hole. I felt him

gently tease his finger inside me, slowly taking his time working it deeper and deeper, which made my body shiver with pleasure.

Soon he was able to slide two fingers inside me, and I moaned with joy, but then when he pushed the head of his cock up me, I cried out in pain, telling him it was way too big!

They both told me to hang on, promising that it would quickly pass, so I went back to licking Beth's twat to try and focus on enjoying that and ignore the pain, and sure enough, in less than 30 seconds, it suddenly stopped.

The feeling then that took over made the pain worth enduring, and I felt like I was in heaven, and as he slipped inside me, stretching my hole with his lovely hard cock the intensity increased.

"Fuck me, oh fuck my arse Hard with your fat cock" I moaned, and he pulled it all the way out up to the head, and as he drove it up me in 1 go, I was in ecstasy.

In and out, he buried his cock until I felt his cock grow bigger and harder, and then as he fired his sperm deep inside me, my whole body shook with waves of pleasure that were so strong they took my breath away.

What happened next was unbelievable; Beth said she wanted to be fucked by one of the smaller horses, and when Joe returned with 2 of them, after tying one off for her to suck, I watched him start wanking off the other.

When its cock was fully erect, it was about 14" long, and once he had restrained the horse so it wouldn't be able to hurt his wife, he started rubbing the huge mushroom-shaped head over her wet pussy lips and clit.

He then pushed it inside, making Beth cry out in pain, but soon he knew by the noise she was making it had stopped, and he eased the massive cock up her until every inch was inside, and then he started sliding it in and out.

"Help me suck this lovely big cock"

Beth told me, and without hesitation, I did what she said, and I licked up and down the shaft, as she sucked it, and then I took it into my mouth as she licked the massive cock.

"Mmm, it's cumming, oh god, that feels so fucking good, ummm Jesus, it's filling my pussy full of hot cum"

I didn't need telling, and I started to wank off the horse hard and fast as Beth stuffed it into her mouth. After only a few seconds, I felt it grow hard in my hand, and I knew it was emptying its thick sperm down her throat.

Soon, Beth pulled it out and pushed it straight between my lips, and jets of warm spunk sprayed into my mouth. I drank it down greedily, loving the taste and feeling, and when it was finished, we both licked up the drops of sperm from the huge head and thick shaft.

After Joe had licked all of the sperm from Beth's dripping cunt he said it was his turn! And after he swapped the horses for two more, he lay down and told me to control the cock and just push the head inside and wait.

I followed his instructions, and after covering the cock with lots of lube, I guided it toward his hole,

and Beth started to lick and suck my already hard cock as she watched.

At first, it didn't want to go in because it was so big, but the horse pushed hard. As it slipped inside, Joe cried out loud in agony, but when I asked if I should pull it out, he told me no.

Once again, the pain soon passed, and he told me to push it deeper, so I worked the cock slowly inside him until, incredibly, all 13" were inside his stuffed stretched arse!!

In and out, I worked the huge cock until it started filling him with cum which made him yell with joy, and as I then watched him getting sprayed with cum from the other horse, I shot my load into Beth's mouth, and she lovingly swallowed every drop.

I was so turned on from watching him that I said I wanted to try, and after changing the horses, I lay down and took the cock in my hand, and again, Beth and I licked and sucked away.

This time, when I felt the head push inside me, the pain was 10 times worse than with Joe; somehow, though, I just managed to hang on long enough, and the pain again stopped. Then as the massive cock fucked me sliding in and out, it felt out of this world, and I almost passed out when it came; it was like a garden hose spraying warm water, and my whole body shook as I gasped for air. Lustfully I quickly made the cock start to fill my mouth, and Beth shared the thick tasty sperm with me.

I said I had to go, and they told me I was welcome to pop over tomorrow for more fun if I was up for it!

The End
