BEASTIALITY STORIES

Hi Readers, I would like to add another adventure in the sexual world that my new husband has shown me...

So since I've met and married Garry, who is older than me, he has introduced me to a world of sexual fantasy that I could only dream of, I am now classed as a Party Girl / Slut, and I enjoy this new reputation with pride.

The following story is one that I have just got to share with the readers of this forum...

Garry had come home from work one day and was on his computer when he got a call to go straight back out for a quick quote on a job... I went into the Computer room to pick a nice book to read when I noticed that he had not turned the computer off and on the screen, once there was a site called Beastforum (now gone), there was some information on Gold Coast Beast Club,very interesting I thought,

Garry got home about an hour later, and I asked him straight up what the Gold Coast Beast Club he was looking at was.

He had a very distinct stare on him and came and sat down with me; he said that he had been talking to the owner of the club and asked what happens there; the owner said that he supplies K9S and Miniature Horses to overseas tourists and visitors who wish to have a holiday in Australia and some (Quality very discreet) time with there fetish of having sex with dogs or Horses that he has on the farm...

I told Garry I was very interested in learning more about this; Garry said, "Oh, you will be, baby. I have scheduled a meeting for tonight for a session with the miniature horse. I would love to see you take a horse cock in that pussy of yours. I said, Babe, I would not be able to take a cock that big in me, Garry said Honey, you take my cock, and mine is thick and tops out at 8.5in length; the horse cock is smaller in thickness but longer in length, around 14inch to 17inch.

I had to catch my breath when he said that.

So the time had arrived, and we were at this beautiful farm on the Gold Coast Hinterland talking to the owner of the Gold Coast Beast Club (name suppressed for discreetness), he asked if I was ready to take the horse cock. I said yep, looking forward to getting slammed hard by it, but a bit nervous. Of course, he said everything was fine, and he takes all safety precautions. I entered the stable, and Garry said I should be friendly with him (horse).

So I proceeded to pat him, rub him, and let him get the smell of me, I was patting him and rubbing, and for some reason, I kept looking down to see his cock, but it wasn't there??? Garry assured me that his cock would come out once I got into position, and he knew what you wanted.

I stripped naked, and the owner gave me a leather corset to put on. He said it's a little protection from the Hooves when he gets on top of you. The owner then pulled out this bench that could be adjusted to any size for a missionary to doggy. Garry asked me how did I want to take the horse cock in the front or from behind. I asked the owner which way was better for penetration. He said it did not matter because the horse cock will only go in so far until it hits your cervix. Then, it will just bend and won't go in any further. I opted for Missionary. I just love having the guy on top,

I took up my position on the bench, and the owner, with Garry s help, got me ready for my first horse cock. Garry put a lot of lube on my pussy and then started to rub Clit, which was already hot from just the excitement of the night, he stuck in a few fingers, and they went straight in. My pussy is a

lot bigger than it used to be due to all the fucking and GangBangs I have had,

Well, the moment of truth arrived, and the owner brought the Horse over to me. He proceeded to sniff my pussy, and he must of sense that this was ready to be fucked. He jumped up on the bench and proceeded to move closer to my pussy, I looked down, and I saw his penis emerge from its sheath. It became very stiff, and he was thrusting forward but kept missing, so I re-adjusted to give him a better angle, and then I felt his cock push on my pussy, and it felt really hard. He then gave a grunt and thrust forward, and his cock went straight into my pussy; OMG, it felt so long in there. Garry was right. He was not fat, but the length was amazing. He thrust hard at least 6 times, and I could feel my pussy filling up with his cum..... It was like someone shoved a hose up me and turned it on.

I loved the way he grunted as he was cumming in my pussy, his cock then started to go soft, but I was not satisfied; I wanted to cum as well. As I was laying there, Garry came over and said are you OK, I said yes, it felt great, and the feel of his Cum in me was nice, but I did not cum. Garry said, "Do you want another one, I said, " hell yeah, and with that, I saw the Owner bringing another Miniature Horse into the stable. This is the stud of the farm, and he likes to mount his ladies more than once.

He did not waste any time at all. I was about to lie down when he jumped up, and his weight pushed me back down on the bench. This Horse knew exactly where the hole of a human pussy was and pushed his fully erect cock straight up me; OMG, he was around the same thickness as the first. Still, he seemed to have a little bigger flange on the head of his cock, his thrust was harder than the last, and I could feel his cock in my pussy and rub on my clit; he was thrusting so hard that I was sliding on the bench. Garry had to hold me from going too far up and slipping off the side; this fuck I was getting was Amazing; I don't care what anyone thought of me, but I was getting the best and biggest cock in my pussy, AND I LOVED IT.....

I ended up coming with this horse, and from what Garry said to me, the amount of cum that gushed out of my pussy was like Niagara Falls, hahaha. When the beast finally pulled out, and the owner put him back in the stable, I thanked the owner. I turned to Garry and said did that make you guys horny, they both looked at each other and said heck yes, I opened my pussy with my hands and said well, I have a lot of Horse cum in there; I am sure two human cocks and cum is not going to make a difference, Garry turned to the owner and said go for it mate, the owner then dropped his pants and stuck his cock straight in me and started to thrust hard and fast like he was a horse, I have to admit tho I could only just feel him in me, but he seemed to like it and came in my pussy.. with a big smile.....

Garry and I discussed our actions and night on the way home. I said it was most incredible and would love to do it more. Still, I do enjoy being a party girl and getting GangBanged by guys more fun and would like to one day, maybe with our regular GangBang guys, put on a Horse show for them; Garry smiled and looked at me that way which you could see he was already planning it in his head.....

The End
