BEASTIALITY STORIES

I think I've bitten off more than I can chew, I'm having second thoughts. Here I am with an enormous horse cock between my legs and I not too sure anymore, but just then the horse bucks his hips and fucks about 4 inch of thick cock inside me, "OOOOOOHHHHHH FUCK"

I think I should rewind a little.... I'm Laura, I am 18 years old. I have a sexy little body with little boobs, I have brown hair and keep it fairly short. I shave myself down there and generally keep myself trim, clean, and in good shape.

A friend of mine (Samantha) has a horse (Major), a great big brown horse with a white face and socks. She has a stable for him at her home where she lives with her parents. When they go on holiday, Samantha always asks me to take care of Major for her. Of course, I have never refused, Samantha is my bestest friend and has been since we were toddlers. Her parents always give me a house key and ask me to check on the house too while they are away and they always get me something nice as a reward.

Anyway, on this occasion, I turn up the day after they leave and check the house. I had gotten dressed that day in a knee-length skirt and t-shirt, as i expected it to be hot, along with knee-high socks and no panties. Everything at the house is in order so I skip down to the stable to check on Major, he seems happy enough so I open the rear stable door and let him out into the paddock where he heads off for a run. I leave him there and go back to the house to make myself a cold drink as it is quite hot. I chill in the house and take the opportunity to have a nosey in Samantha's bedroom, well not really a nosey, I've been in there loads of times, I've even stayed over on lots of occasions. I sit on the bed while I drink my drink, idly looking at Samantha's stuff. Now, I don't know why, but I open Samantha's bedside drawer, a dildo, that's all I see... A DILDO.... I am staring in stunned silence. I shake my head and realise there are panties in the drawer too, but I can't stop looking at the dildo.

She never told me she had a dildo, I'm her best friend, I would've told her if I had one. I had to make do with a hairbrush handle or my fingers. I have been with a couple of guys before and had sex a few times, but my last boyfriend was a few months ago. I pick up the dildo out of the drawer and hold it. My heart flutters, and I begin to shake a little from nerves. I suddenly realise that what I have in my hand has, more than likely, been in my best friend's pussy hole. This thought arouses me somewhat, the dildo is pretty damn big i think to myself, it's must be 10inch long and a nice thickness, thicker and longer than the two boys I've been with. I lay back and lift my skirt then without much thought I rub the tip against my bare pussy, it's wet and lubed very quickly with my juices so I place the head right on my hole and gently apply pressure.

"oooh god" I speak out loud as the head slides in easily, I withdraw slightly and push again, this time pushing it to about 3 inches. I repeat this til the dildo is about 8 inches in me and I proceed to masturbate myself vigorously. After a couple of minutes I get a little worried about making a wet patch on the bed so I decide to lay on the floor. As I lay down I glance under the bed and I can't believe my eyes, I must be mistaken, I reach out and grab the object, by now I'm certain i know what I see to be correct. I take it out from under the bed and in the clear light my thoughts are confirmed, a horse dildo.... a fucking massive dildo shaped like a horses cock, what the actual fuck? "Surely Samantha doesn't use this" I think to myself, "but then why would she have it?" I reason.

I'm absolutely stunned but the more I look at it and handle it, the more I think about trying it myself. My heart is pounding but I stand the dildo on the floor and using the bed for support I gently lower myself on to the flared tip, I rub my pussy juice all round it then I push down. It's a little difficult as it's so large but I start to feel it enter me, it feels so big but so good too.

My arms are shaking, as I hold my weight, and my legs are weak, I slip, one of my hands slips off the bed and I'm slow to react as I slide down the huge dildo about 6 inch before I gain my balance, "Ooooooh my god", I cry out, expecting pain but getting, at worst, uncomfortable pleasure, "ok, that's one way to do it" I lift myself up so there's just the tip inside and I lower myself down again, "mmmm", up and down again this time I drop a little lower, "Oh my, aaaahhh" I moaned out in pleasure as as i drop to 8 inches then lift again. I'm starting to increase my speed as I thrust myself up and down on this huge phallus, my juices are running down and lubricating it as I go, 9 inch, 10 inch..."mmmm", "aaah", I'm trying to fuck this giant thing but my arms and legs are growing weaker and weaker, the weaker I get the lower I drop and the less I'm able to lift, I'm down to 12 inches and only lifting a couple of inch. I'm only half way down this gigantic prick but my movement is slowing as I weaken and my frustration builds, I realise I can't orgasm as I just loose it and impale myself, part of me wants to but the sensible part wins and I stop. I really enjoyed but because I was weaken and uncomfortable I couldn't orgasm. I decide to was the dildos and put them back where I found them, I'll get Major back in his stable and go home and masturbate properly in the comfort of my own room.

I get to the paddock and call Major, he comes trotting over and goes straight in the stable with no trouble, I follow him in and close the rear stable door, he has built up a sweat running round so I take him out the front and hose him down. In this heat he dries almost straight away and i take him back in the stable to give him a brush. He seems pretty chill but I notice him dipping his head behind me and sniffing near my skirt, I think nothing of it. As I get close to his rear, I'm brushing down his side and I see that his cock is out of his sheath, only about 7 or 8 inch but it makes me stir inside, I choose to ignore it and carry on brushing, as I brush down his rear leg his cock drops out completely, my mouth is hanging open, I've never seen him fully out, it must be 24 inch long. I back off and get a fuller view and as I do Major turns his head towards me and dips his nose under the front of my skirt. I hear him take a big sniff as he smells me then I remember I'm not wearing panties and because I was playing with the dildos I must have a sexy smell of pussy juice coming from under there.

I've just realised that it's my scent that has aroused Major and made his cock drop, this thought is making me super horny, a big majestic, powerful animal like this and I am turning him on, oh my god, that is such a turn on. I realise I'm getting wet again and this is going to be sensed by Major and in turn get me going even more. oh wow, we are turning eachother on, we are making eachother horny. Suddenly I'm aware of everything, every swing of his cock, the smell of the hay and musky horse, the cooling breeze blowing through the barn, my increasingly wet pussy... I'm reaching out my hand towards this huge penis.... what am I doing? I don't stop, my body has a mind of its own, my fingers touch and brush down the length and what a length it is. Major twitches slightly from this touch and his cock springs up, suddenly he is hard, I'm looking at an erect horse cock and it's just filling me with desire. I don't think I've ever been so aroused in my life, I can feel the wetness between my legs and Major can certainly smell it. My hand takes a hold of the erection and for the first time I'm holding a horse cock, my fingers barely wrapped round it, I'm reminded of the horse dildo, this is slightly bigger. I want to wank him, I want to fuck him, I want to suck him, I want to make his massive majestic cock cum... I'm empowered, a little human like me can have this affect on such an impressive beast, it's intoxicating. Before I know it my hand is stroking the length of the cock and at the same time pulling it sideways towards my mouth. Am I really going to do this? My mouth opens, I'm not in control, what is happening? My lips slide over the flared tip, which only just fits, and I take the first three inches in my mouth, he gently bucks, only about an inch, he's trying to hold back almost like he knows he can't ram my throat, oh I wish he could...."What?" I feel dirty just thinking it. Major gently bucks back and forth, just an inch and slowly fucks my mouth, it's amazing and I love it but I sense this is just a tease for him, he can't let go. I stand and look around, "What am I looking for? I really should just leave and go home", a hay bale with a blanket neatly folded on

top over in the corner, "That's convenient!", i drag the bale and open the blanket across it, it's the perfect height. I push it more under Major and start to position myself under him, my head between his front legs and my legs either side of his beautiful cock, my hand reaches down, places his cock on my pussy and rubs both our juices around to lube up.....

And here we are, back where I started. What am I thinking? This is insanity, I really am silly to do this, I need to leave now before this goes any further....Major bucks forward and shoves 4 inch of horse prick inside my cunt, "OOOOOHHH FUUUUCK", I try to push myself away but my shoulders are up against his front legs, I'm trapped with horse cock up me, my panic subsides slightly as i realise Major is just staying still, he doesn't move. The initial pain in my pussy is overthrown by increasing pleasure and I wriggle my hips to get the juices spread and slide another inch of cock in, "OOH you are fucking amazing Major, mmmmm, I love you", and I mean it.

Major bucks again, 3 more inches, "OH WOW, please be gentle" he withdraws and inch two and waits, "Oh you are so good, I really do love you" and bang he bucks again another 3 or 4 inches slides into me "HOLY FUCK, STOP" Major stands still. I've got roughly 10-12 inch of horse in my pussy and I can't think straight, I feel an orgasm building in the distance, a bead of pussy juice leaves my cunt and runs down over my arsehole, I'm hypersensitive, I feel everything, "Oh god, just fuck me Major, please just fuck me" and bang, he bucks again, he's got 14 or 15 inch in me and this time he pulls back and bucks again, over and over and over, "oooh fuck me, ooooh fuck me, jesus christ I'm going to cum aaaaahhh fuck...." I orgasm, my first ever orgasm on a horse cock, this is better than the horse dildo that seems so far away in my history. Major doesn't know I've just orgasmed, he is oblivious, he continues the thrust his powerful tool in and out of me, it seems like he is determined now, his animal instincts have taken over, the self control he showed at first is gone and so has mine, he ruts me now deeper with each thrust, another inch and another inch and another...."please Major, I'm going to cum again, oh fuck me mmmmmm god" he just carries on through my orgasm, another inch and another.... "I can't...i can't.... i can't breathe, I can't cum again.... oh god I'm cumming again fuuuuuccck" I don't know how much of his cock is in me and I don't care, my third orgasm rockets through my entire body, i can hear the sound of his cock scraping my vagina walls and bottoming out, i can hear it all inside my head, it's like he's fucking my cunt and my head at once. My third orgasm subsides and I take a second to look down and only see about 5 inch of cock, by my reckoning I have 18 or 19 inch of dick in me. "ok Major, that's enough" I breathe, "please stop I'm getting sore" but he can't, I feel his prick pulse and his flared head swells slightly, his whole prick feels harder suddenly he rams me with renewed vigour, "Oh god please stop, I can't take anymore" he rams forward another inch or two, "aaarrrrggghhh ouuuuuwwww noooo I can't take it all" he pulls back and fires forward again forcing more cock up my insides, "fucking hell Major, you're hurting me oooooowwww fuck" he stops but he's fully in me, I can't see any cock when I look down and i feel his body against my clit and pussy, I'm pretty certain i felt his balls slap my arse on the last thrust too. I'm breathing heavy and every breath seems to cause friction in my pussy, I'm acclimatising to his size and the pain ebbs away, all I feel is his cock pulsing, each pulse fires up more sensation in me and i feel a forth orgasm on the horizon, I know what he wants and I want it too....

"Go on, boy..." I say it softly but he understands and he pulls back about 8 inch, waits a split second, like he knows I'm waiting for it and slam, he powers it back in, "Oooooohh my god fuck me boy, fuck me Major, give me your cum..." the words leave my mouth and I'm a horse slut, my orgasm arrives quicker than I thought it would and takes me by surprise "OH, OOH, OOOH, OOOOH, OOOOOOHHH, AAAAAHHHHHHH I'M CUMMING, I'M CUMMING, I'M CUMMING" Major continues to ram my pussy and I tumble in to a constant orgasm, I thought it was done but it started again, and then again, and then on the forth straight orgasm just as I peak he rams to the hilt with a super hard cock and spills his first jet of cum inside me...the feeling is immense, it fills me with

warmth and wetness, it squeezes down the full length of his cock and sprays out between us, splashing us both just as he spurts again and again. This pushes me into my fifth and final orgasm in a row about 9 in total, his final jet of cum sprays my insides and I slump on the hay bale, my legs fall, my hands fall, my head falls back too, I'm done, utterly fucked in every sense, like never before. Major stands still for a minute and I feel his cock soften slightly, I feel a sadness and he slowly backs up and pulls his cock free with a plop and then my pussy gushes about a pint of horse cum down the blanket. Major carefully manoeuvres himself from over me, and I'm able to sit up. After a minute I'm able to stand on shaky legs, I lift the blanket to fold it and as I do I see more dried horse cum on the underside...."Oh Samantha, you dirty girl, just wait til you get home"
