## **BEASTIALITY STORIES**

I awake at the sound of a blender. This is where my life starts. My name is Mike Stewart, and I think this will be another boring day at school, but boy, am I wrong. I drag myself into the shower and wash myself down. I get out and throw some clothes on. I walk downstairs and grab a bowl of Cheerios. It's finally time to walk through hell; I walk through the local park, about 5 minutes away from my house, to get to school. I finally walk in the front door and am greeted by a nice friendly "take that hat off!" from the principal.

I drag it off my head, and he smiles. I walk into my planning class with my friends sitting beside me, and I think it is the most unproductive and boring class in history. I realize it's 9:59, and I put my backpack on and wait while talking with my friend about Gears of War. Yeah, I know, pretty lame. I get into socials and it turns out we have to do this stupid Cariboo Gold Rush game on the laptops. I almost threw mine at the teacher because no matter how close I got to Barkerville, it always glitched and restarted. I head out of the class and into the room next door for lunch, the drafting room for the metal and wood shop.

I sit down and talk to my buddy about how stupid my friend is, who is married to a non-existent girl on his Facebook; I later realize she lives in London... England. I hear the bell ring and walk over to my peer-tutoring class, where I sit at the front of the room and watch grade 8's take notes or do whatever. The teacher finally asked me to go around and check on them, writing notes. One of the girls sitting near the back is the one I always check on first. Kelly...the nerdy, sexy, amazing, err... nerd. She is pretty hot, but in that nerdy kind of way; she is about 5'2 tall with short brown hair, an amazing ass, and nice perky tits.

I finally looked up from my table and realized it was 1:20, 10 minutes before we left for our next classes. I decided after only staring at that one girl I was going to make a move. I went up to her, not knowing what she would say, and asked her, "Do you want to come over after school so I can help you with your work?". "Definitely!" she replied without hesitation. I got through science easily and went to her locker. I had to wait about 5 minutes before she got there, and when she did, I jokingly said, "Where the hell have you been, young lady?". She thought I was serious, acted scared, and said, "Uhm... sorry."

"Don't worry," I said, "I was only kidding." We walked home through the park I came through on my way to school. Through the park, I caught glimpses of her looking at my crotch. We're about 5 minutes from my house when I say, "Uhm... my parents will probably be a little embarrassed when we get there just because you're 2 years younger than I am."

"Don't worry," she said.

We finally arrived at my house, and I took a deep breath and opened the door; no one was home. Right, they were at my sister's volleyball game. I told her to stick her binder on the table, and I went over and made a snack. I went and sat down, and instantly, through our glass table, I saw a trickle of cum run down the inside of her thigh; she was thinking something was going to happen.

I quickly kicked it out of my mind and said, "ok, let's get started." She reached over to grab her binder, and that's when her shirt lifted and exposed 4 inches of her thong running up her back. She turned back around, and luckily, she didn't see me staring. "Let's start with world religions," she said; I agreed. It was about an hour into the study session, and I had no idea what we were talking about, partly because I was extremely tired and I was also usually just looking at her boobs. I snapped to attention when I heard the word sex. I asked her what she said, and she replied, "Sorry? I was daydreaming". I now knew she wanted it. I said to her, "Let's watch some TV". We jumped

onto the couch, and I turned on the tv; the instant it flicked on, it was some hot pornstar getting ass and throat fucked.

I just sat there in shock, and I looked over and saw her blushing and had a tiny smile on her face. I quickly turned the TV off, and there was an awkward silence for about 15 seconds before I said, "Hold on, I need to pee-pee." she laughed at that. I jogged upstairs and locked the door, and the minute I was about to pull my jeans down, I heard a click, and the lock popped out of the door. I looked up and saw her feet entering, and she had undressed fully to her underwear. I sat there in amazement for about 30 seconds before she shot me that look (you know what I mean) and walked out. I finished my business and had a partial hard-on, partly because I didn't think her body would look that great. I was walking towards the stairs before I heard a creak behind me.

I looked behind and saw her bending over, which puffed out her little mound near her ass. I thought to myself, "This is a hot piece of 18-year-old ass... I'm fucking it now." I walked over, and I don't think she knew what was coming, and slid one hand down the back of her underwear and stuck my thumb into her pussy, and one hand under her bra, pinching her nipple. When I did this, she shuddered and let out a huge moan; I picked her up and threw her on my bed. By the time I knew it, she was on her knees, and 5 inches of my seven were down her throat. It never occurred to me that such a normal girl would be such a nympho slut, I felt her squeeze her throat muscles, and I instantly shot a huge load into her throat. I saw her eyes light up in shock as she tried to swallow it all.

I could feel her tongue lapping at the bottom of my shaft as if it were trying to free itself, so it swallowed all of my cum. I came to a stop, and I slid my dick out of her mouth as she finished sucking all the cum out. I never thought of her virginity, but the next thing I heard was amazing. "I want you to be my first," she said. "Are you sure?" I replied, and she nodded. I positioned her doggy style, and right before I asked her, "You ready?" she just said, "Yes," I put my dick inside her, and she gave out a little moan; I went a little further and felt some resistance. I pushed slightly to ensure she was ready, and she said, "Mhm."

I brought my dick back about half an inch and then rammed forward; I couldn't tell if it hurt her or if she enjoyed it because she was just staying still; then I slid my dick out, and I saw a little bit of blood run out onto my sheets. I then slid my dick back in, and she gave a shudder; I continued in and out slowly for about one minute until she started thrusting her hips onto me; this told me to go faster; I started going into the base of my cock. She started moaning a lot, and there was a lot of juice running out of her pussy which I rubbed around on her clit for extra stimulation; this made her cry out. As I started fucking her harder, she started talking dirty.

I only realized this minute, but my dog was sitting on the floor with his paws up on the bed, wagging his tail; I guess he could smell her pussy; this gave me a great idea. I fucked her a lot harder and faster now that I had a plan, and it was making my balls bubble up faster even thinking about it. I finally reached the point of no return, and I could start to feel the cum at the base of my shaft seeping forward with every thrust. I was about to say I'm gonna cum! But she beat me to it. "I'm gonna cu-" and her body started shaking, and loads of cum shot right at my dick and oozed out the sides of her pussy.

When this was taking place, I also came, and when I did, her back dipped as if I shoved a baseball bat up her. She finally collapsed on the bed, and I pulled my dick out of her, and it was followed by about a cup of both our cum. She wrapped her arms around me, and we kissed for about 10 minutes until I remembered my plan. I struggled out of her embrace and said, "Stay here. I've got something special". I left the room, got a blindfold and four ropes, grabbed the dog, and made him wait outside my room. I went in and said, "Don't look". I went over to her and draped the blindfold over her face.

All this time cum was dripping out of my dick and out her back.

I then got the ropes and tied one to her left hand and foot, put them under the bed, and led them to the other side, where I did the same to her hand and foot. She asked, still weary from her first orgasm, "What's going on?" I replied, "You'll see". I led the dog in, told him to be quiet, and put him on the bed. Instantly he smelt her pussy and dove straight into it with his mouth; she hadn't ever had someone eat her pussy, so she didn't know what a tongue felt like. The whole 5 minutes before getting fucked she was moaning and groaning and thrusting her cunt into the dog's face just like she had done with my cock earlier. The dog had had enough of eating, and I saw him jump off the bed, turn around, and then come back on.

I saw his 8 inches protruding from his furry sheath right next to her warm cunt; he positioned his cock right at the hole of her pussy and gave a massive push, and buried all 8 inches of himself into her. She let out a huge wail in pleasure; at this time, I had my camera, and I was taking pictures of almost every thrust and was getting a few pictures of her moaning. I thought it was time for his knot to form, and as I thought that, it did. I instantly saw her body's reaction as she stopped moving completely and released a huge "Uhhhhh." The knot was only about an inch in diameter then, but I knew it would grow to about 3 inches.

For the next few seconds, she ground her pussy up against the dog's cock, and then his knot grew immensely in size to about 3 inches wide. She let out a massive scream, and she started acting extremely frightened, probably because she had never been fucked by a dog. I could now see the dog's hind legs tensing up, and instead of plunging into her pussy, he was giving her short stabs; a few moments later, she screamed, "Uhh, uhh, I'm cumming!". This moment in my life was probably one of the most amazing because the seal between the dog's knot and her pussy was so tight her cum, mixed with the dog's, was shooting out like a fan on a water hose.

I finally saw her head droop onto the bed and the dog's knot decreasing in size. The instant he pulled it out, 2 cups of cum spilled out of her hairless cunt. I went over to her, and we passionately kissed for 5 minutes before I said, "So, how was your first dog fuck?". I took the blindfold off her face and noticed she had a tear running down her face, "I would've got him to stop if you asked, but it looked like you were having so much pleasure that I didn't want to bother you," She looked at me and said, "I loved it." I sighed in relief. She said, "Well, I've got to go now." "Alright," I said, "Let's have a shower then."

I turned the steam and the rain shower on, and we quickly jumped in. Within seconds she was on her knees again, sucking me off, she didn't flex her throat muscles, and I guessed she wanted me to fuck her again. I violently pushed her up against the wall; while I was kissing the back of her neck, I took my dick, placed it just under her pussy, and started rubbing it forward and back for about 20 seconds. I stopped and whispered to her, "You ready?" and before she could reply, I shoved my prick up her ass so fast that she couldn't even scream. She gasped for air for about 30 seconds while I was ripping her ass apart.

When she finally caught her breath, she was moaning so loud it was echoing off the walls; all you could hear was the sound of my dick plunging her and her moans. After 5 minutes, I started cumming loads into her ass; I guess she felt my cum hitting the back of her ass, and she started cumming too. She slumped down, and I dragged her over to the little seat, and we both sat down and made out for about 10 minutes straight. We got and dried off, and we walked downstairs; she gave me a huge French kiss and then left.

\*\*\*\*

My mom had just called me downstairs and started bitching at me. "Why have your marks gone so low in your classes?" she asked.

"I don't know," I replied, "I just... don't hand in some of the work."

"Well, that's going to change very soon!" "Starting now, you cannot use your Xbox, computer, or friends until you can achieve 65% in each class."

"But!"

"Take it up with your dad if you want..."

"Fuck that", I muttered. I knew if I told my dad, he'd just give me a worse grounding, like no biking, it doesn't sound too harsh, but biking is my life; I get out pretty much every day for X Country biking, that is, if I don't have a shit load of homework and usually ride for about 2 hours. I went back upstairs and moped around for the rest of the day. I occasionally went downstairs to go on the computer to see if anyone was on Facebook, especially Kelly, but I had no success. I got to the point of going mentally insane, and I called someone on my phone. I heard the other line click, and a smallish voice answered, "Hello?". "It's me," I said in a sexy voice.

I got a quick "Who the hell is me?" response from the girl. And I thought, "Oh shit, it's her sister," I asked politely for Kelly, and I heard her walking over and say, "Here, it's your creeper friend." I finally heard her say, "Hello?" and said, "I have to see you right now; I'm bummed out."

"Why?" she asked.

"My mom just removed the computer, Xbox, and friends."

"Oh, poor baby, what could you do without those precious commodities?"

"Just shut up and come over, will ya?"

"Ok, I'll be over in 30 minutes."

I hung up and threw the phone on the couch.

My dad was on a business trip in Europe, so I lied to my mom and said, "Dad wants you to go downtown to his office and pick up some of his work." She agreed.

I ran upstairs, showered, dressed, went downstairs, and waited. I'm glad my mom left because I don't think she'd like, or approve for that matter, me jizzing in an 18-year-old girl's snatch. I heard the gate buzz, went over to the intercom, and said in a British accent, "Oh, hello, please come in, miss." She approached the door and asked, "You have a butler?" "No, that was me," I replied, "Oh," she said awkwardly. I went over and gave her a huge kiss and grabbed her tit, and massaged her nipple; she let out a little moan and got goosebumps all over her. I took her over to the couch and turned on the TV; at first, we started watching some chick flick that she insisted on watching, but then I went up into the pornos and switched one on; immediately, there was a hot brunette getting double penetrated and throat fucked.

I started taking off my belt when I saw her hand drifting down to her crotch. I said, "Hey!" and she looked up, extremely embarrassed, "Oh my god!" she said, "Listen, I fucked you for the first time in your life. I'm pretty sure that you shouldn't be embarrassed about masturbating near me," I said, and with that, I pushed her back so that she was lying down. I took off her shirt and bra and then her

jeans and thong. I worked my way from kissing her mouth to her neck, down her chest, and biting her nipples with my lips as I got further.

I got down around her stomach and lingered there for about 30 seconds, just kissing the top of her pussy. This drove her insane; I finally went down on her, and I had two fingers inside her nice shaven dripping wet cunt. I forcefully stuck my pinky finger up her ass, and she gave a huge shutter and let out a moan.

"You like that?" I asked.

"Mmm..." is all I got from her.

Now she was grinding her crotch into my face as I sucked and licked her clit with my tongue and finger-banging her. Soon enough, she got that look on her face and moaned, "I'm cumming, I'm cumming!". Torrents of her love juice sprayed out onto my face without end. She finally stopped moaning and was now just wriggling around on the couch, massaging her wet pussy. I climbed back on top of her, and we started making out. About 5 minutes into the make-out session, I heard the door handle shutter and quickly looked up, no one was there, but the door was open. Our dog, who helped me fuck Kelly just 2 days ago, had a knack for opening doors by putting his front paws on the handle and just pulling, so I figured it was him.

We finished making out, and I went to close the door while she walked upstairs to go into my room. As I was walking away from the couch, I saw my dad's business partner walk out of his office. He saw me and said, "Oh my god, Mike, I'm so sorry." Then Kelly poked her head out of the stairwell and looked at him, and she was so shocked she just stood there. "Who's that?" he asked, "Your sister?"

"No, you idiot. She's my girlfriend, I guess," I replied sheepishly, and he had an awkward grin on his face.

I knew what he had in mind as I owed him big time; earlier that summer, I stayed at his home in Kelowna, BC, with all his friends, well, I guess my dad's friends, too. One day, we were out on his boat and just finished wakeboarding; we were completely smashed, and some people were starting to make out. Well, when we got back inside the house, his wife, or girlfriend at that time, was standing there completely naked and rubbing her pussy for us. Instinctively, he walked right over and started kissing, and then they walked into their bedroom and shut the door. Ten seconds later, she opened it again and said, "Where are my manners? Would you like to join us?". I couldn't believe it the hottest girl I had ever seen in my life was asking me and my dad's friend to double team her. Of course, I'm going to! So that's why I owe him. At first, I thought he was crazy, "You're like 39 years old, and she's 18; you can't fuck her. You'll go to jail".

"No, I won't, not if she doesn't tell anyone."

"Fine," I said

We both walked upstairs, and I told him to wait outside while I went in; when I got in, she asked, "Is he gone?" I told her that he had left and said, "Thank god he didn't see you naked." "Eww... He'd get ideas?" I don't know anyone who wouldn't want to be fucking an 18-year-old pussy, and by the way, he just thought I was jerking it". I then told her dog was going to fuck her again, and surprisingly she wanted me to rope her down to the bed again. How could I disagree? I went and got some ropes, and I quickly tied her down the same way I did last time. I called my dog upstairs and heard him thumping up the stairs. I got the dog in the room, told her not to look, and motioned for him to enter. I couldn't believe what I saw; he had at least 12 inches on him, and I thought I was big

with my 7 inches.

To put it into smaller terms, I was a dwarf. I got in front of her, and by this time, thinking about a 12-inch cock sliding in and out of my girlfriend, I was so hard. I put my dick in front of her mouth, and she tried to suck it, but I just rammed it in; I instantly grabbed the back of her head and began fuck her throat. Meanwhile, he positioned his "foot long," as I called it, at the entrance of her hot, wet, dripping pussy, I winked at him, and he stuck it into her. Instantly she knew this wasn't the dog and tried to scream, but she was muffled by my cock fucking her throat. I felt kind of bad for her because how many guys trick their 18-year-old girlfriends into getting fucked by a "Subway sandwich"? Not very many.

A few minutes into the fuck session, I bent over and whispered in her ear, "You better swallow pretty fast." Her eyes lit up with panic; I knew she loved cum, but not the amount I was about to give her. Thirty seconds later, I quickened my pace, and instantly, I shot ropes and ropes of my cum down into her throat. I could see she was having trouble, and the motion of her tongue trying to swallow all of it caused me to come some more; she was even more shocked; she kept on swallowing, and my god, it was the best thing I'd ever felt in my life. After I finished cumming into her throat, I took my dick and waved it around in her face, and said, "Suck it dry" she did as she was told. While she was cleaning me up (he) began cumming into her hot, wet cunt.

She looked at me and said, "Oh my god, this feels so good, Mike. I guess she could feel his cum shooting up her snatch and hitting her cervix, and this caused her to cum right back onto his 12-inch monster. He finally finished, and he was breathing pretty heavily, and she was just groaning and wriggling around on my bed in ecstasy. "Damn! For an 18-year-old, you sure know how to take a dick". I walked downstairs, let him out the gate, and then went back upstairs to Kelly. She was rolling around like she always does, massaging her pussy which still had cum oozing out of it, and was licking her lips from when I had throat fucked her. We had a long shower, and instead of just fucking her ass apart, I took it slow.

She was moaning less than she had while I had fucked her, but she seemed to enjoy it a lot more. She didn't think I was just with her, so I could fuck her all I wanted and tell my buddies how great this grade 8 was. I came in her after about 1 hour, the longest I had lasted with her. We got together, dried, and kissed downstairs until the door, where she once again left.

*The End*
