## BEASTIALITY STORIES

## Part One - Cum Hazard

In the stud farms of Highacre the breeders worked tirelessly to produce the strongest lines of their prize animals. But none were as passionate about their studs as Madam Viktoria, owner of Central Highacre Dragon Hatchery. She and her staff worked day and night to care for all the dragons in their care, from hatchlings to elders none were turned away. But her prize dragons were her six breeding dragons, the males, Hazard, Stallion and Longfang and the females, Ebony, Ivory and Sapphire.

Early one morning Madam Viktoria was doing the rounds of her stables; checking on the dragons and their nests when she spotted a young girl walking up the main path. Viktoria returned to her office to await the girl, she looked at her reflection in the mirror and smiled, perfect she thought, her hair combed neatly back into a tight pony tail and her riding leathers clinging tightly to her slim curvy form, in places the leather was almost see through and exposed her arse and breasts to the world but she was proud of her body.

The young girl nervously entered the office and looked around, "hello? I'm looking for Madam Viktoria, hello?" the girl said in a gentle voice, Viktoria stepped out of the office and flicked her hair from her face "hello little one, I am Madam Viktoria, but please just call me Viktoria" the girl looked her up and down seeing how her leather riding gear barely hid her breasts and showed every curve of her body, she stepped forward slowly and bowed gently before presenting an envelope to Viktoria "I am here for the advertised breeder position" she stayed bowed as Viktoria open the envelope to find a letter of recommendation from the college in Westernreach, she scanned the letter before putting it on her desk "would you like a tour little one?" the girl nodded and stood straight, a burning hunger to please in her young eyes.

Viktoria led the girl from the office and as they walked to the main stable asked "so what is your name little one?" the girl blushed and answered "Melody, but all my friends call me Mimi" they continued walking in silence until they reached the stable "well Mimi, this is our main stable, we house fifty dragons of varying age here, the buildings to the left and right are the champion stables, only experienced breeders and handlers are allowed in there for the oldest of our dragons are housed there, Nadir and BlutFang, if you know your history you will know why they are kept apart" Viktoria led Mimi through the main stable, naming each dragon and the breed of each as they passed until they came to a large oak door, Viktoria knocked twice and a moment later the door was pulled open by a young boy, no more than eighteen years old, he wore similar riding leathers to Viktoria but his chest was bare, his torso was drenched in sweat which ran down his bronzed muscled body, Viktoria waved him away and he returned to his previous task of clearing the empty pens around the room, Viktoria waved to the empty pens and said "these are the birthing pens, a couple of our dragons birth live young, they are very rare and treasured by the stable, you will see them soon" Mimi nodded in excitement and followed.

Viktoria led Mimi to one of the breeding halls, and showed her the six dragons who were currently sleeping in their stalls "these are the current breeding dragons, three male and three female" Mimi nodded and looked in awe at the dragons and laced her hands in front of her, Viktoria continued "the females, Ebony, Ivory and Sapphire and the males, Hazard, Longfang and Stallion" Viktoria walked to the edge of Hazards pen and tapped the wooden door, the dragon looked up and padded over a low purr rolling in its throat, Mimi shrank back thinking the dragon was growling, Viktoria saw her sudden fear and said "have no fear he is very friendly and he purrs like a cat when happy, come rub his snout" Mimi did as she was told and edged forward and gently ran her hand over the dragons snout, it gently rubbed its head against her hand and she smiled.

Viktoria watched for a minute as Mimi petted the dragon before saying "do you want to rub his belly? he likes that" Mimi nodded but noticed a lingering look in Viktoria's eye's, not mischief more like lust, Viktoria opened the pen and they both stepped in before Viktoria closed the pen once more, Mimi watched the dragon as it shuffled across the pen, she twirled a finger through her pig-tale and didn't notice Viktoria moving behind her until she whispered "keep doing that, he likes cute innocent girls" Mimi jumped and blushed "keep doing what Viktoria?" Viktoria grinned and moved to Hazards side and stroked his wing which covered the bulk of his body and said "don't play coy with me little one, I know about the rumours of this stable" Mimi blushed and nodded slowly before whispering "that is one reason I am here" Viktoria nodded and waved her over and gently stroked Hazards wing "I know, just so you know, Hazard likes young girls more than dragons".

Mimi stepped closer once again playing with her pig-tails and stroked Hazards wing, Hazard moved its wing aside to expose his bulk, Mimi gasped in surprise and went to Viktoria's side "he is so big!" Viktoria nodded and replied "we only suck we don't fuck, no one has yet managed to fuck one of our glorious dragons" Mimi nodded and moved a little closer and gently stroked Hazards cloaca, the dragons cock was already hanging out as she approached, she gently ran her hand over its length and shivered as she felt a rush of adrenaline course through her body, Hazard sniffed the air and its cock grew hard, Viktoria stepped closer and whispered "he can smell your lust, give it a little suck" Without thinking Mimi gently gripped the eighteen inch throbbing cock and started to suck the tip, after a few seconds she stopped and exclaimed "oh wow it is sweet" before waiting for a reply she began sucking again taking the whole head in her mouth, she had no hope of deep throating a dragon but she was determined to take all she could, she sucked slowly so not to gag on the huge cock in her mouth, as she sucked Viktoria watched with eyes full of lust and longing, it had been so long since she had had a young girl.

As Mimi sucked she slipped her hand between her legs and began playing with her clit, teasing the flesh around her wet and dripping pussy, she stopped sucking for a second to catch her breath, the dragon purred low and long almost a moan of pleasure Viktoria came up behind her and ran her hand over Mimi's young pert arse and whispered "don't forget to savour his pre-cum, it is sweet and addictive" Mimi licked at the fluid running from Hazard's cock and then ran her tongue around the tip, a low moan escaped her as the taste drove her lust to new heights, Hazard purred so low it sounded like a moan of pleasure, Mimi began sucking again, this time fast and hard trying to draw as much precum from Hazard as she could.

Viktoria slid her hand between Mimi's legs and began to tease her clit and gently sliding her fingers into her dripping pussy, while her other hand slid into Mimi's blouse and cupped her small yet pert breasts, Mimi stopped sucking and moaned in pleasure feeling Viktoria explore her body, in ecstasy she whispered "please can I try to ride?" Viktoria nodded and stepped away from Mimi and guided Hazard to lie on its back, the dragon complained but shuffled into position as Viktoria said "oh stop moaning you'll get more in a minute" Hazard huffed and settled on its back, Viktoria helped Mimi get into position, Hazard moved its head forward and gently nudged her head, Mimi in return kissed the end of its snout and got a low purr, it moved its front paws to gently hold her, Viktoria gasped "wow he likes you, it's rare he is so tender".

Mimi removed her panties and let them drop to the ground, they were soaked with her juices and smelled of pure lust, she gently gripped Hazard's cock and rubbed it against her dripping slit, Hazard rolled its head and purred long and loud, Viktoria watched and undid her riding leathers to slide her hand into the pants and began playing with herself, she knew there were dildo's and strap-ons in the chest by the back wall as she had put them there earlier that day, she fingered herself as she watched Mimi get ready to fuck her first dragon.

Mimi rubbed the throbbing dragon cock against her dripping pussy, getting the head all wet before

she slowly and gently lowered herself onto the tip, she felt the tip stretch her to a point she had never felt before but then it was in and she gasped in pleasure and exclaimed "oh god oh god it's so big" she stayed still for a moment as her body got over the initial shock of how big the cock was, she rubbed Hazard's belly and gently slid down a little more, taking an inch at a time until she couldn't physically take any more, half of Hazard's cock was buried in her dripping pussy as she gently began to ride, her every movement getting a purr of pleasure from Hazard and a gasp of ecstasy escaped her lips every time she took the cock deep, Viktoria watched Mimi ride the dragon cock "good, good, fuck that dragon cock, you got the job".

Mimi began to speed up her fucking arching her back as she took the dragon cock, she screamed in ecstasy and orgasm with every thrust of her hips, with every thrust she screamed "oh cum cum cum for me Hazard" the dragon thrashed its head in pure ecstasy, this was the first time it had been fucked by a human, with a roar of pleasure and ecstasy it rolled its hips and came, Hazard flooded Mimi's dripping pussy and womb with its cum that it leaked out of her while she was still on its cock.

She slowly climbed off Hazard's cock and gently licked at the cum that ran down the length of its cock, the taste was so sweet, like honey, she could feel the sheer amount of cum leaking out of her as she slowly got to the ground, she leant against Hazard as her knees gave out, Viktoria rushed to her side as Mimi collapsed from the sheer force of her orgasms, he carried her back to the staff quarters and lay her on her own bed, she would have one of the house keepers sort a room for her in the morning, Mimi was exhausted and was asleep before her head hit the pillow.

Viktoria cleaned her up as much as possible, there was some blood but that was to be expected after riding such a huge cock, she set aside some clean clothes for her but could not stop thinking about the cum in her pussy, she gently pulled Mimi's legs apart and gently licked at her hot, wet pussy, she could taste the cum inside her, she licked and licked as the cum began to leak out, Mimi moaned in her sleep and came again and again as Viktoria licked her, she was going to enjoy having this young little girl around, maybe when she woke Viktoria would fuck her, but for now she stripped off her riding leathers and climbed into bed beside Mimi and held her close.

After the fucking Hazard was returned to his pen with a troth of fresh cooked meat and a clean barrel of water. He curled up on his straw bed and was soon fast asleep, a smile creasing his reptilian features.

Viktoria led Mimi to the staff quarters, she had yet to prepare a room for her; but for tonight that could wait. Mimi was exhausted but also truly satisfied. Viktoria helped her into bed, stripping off her soiled clothes and giving her a night dress to wear. In the morning they could discuss what was expected of her if Mimi decided she wanted to stay at the Hatchery.

~~~~~

## **Part 2 - Ebony and Ivory**

A couple of days had passed since Mimi had first arrived at the Hatchery and she was beginning to feel settled in. Her new quarters were spacious and suited her needs well. Mimi had a small suite of rooms in the stable hands quarters just like every other stable hand that was employed at the far. Her suite had three rooms, the living room, bedroom and bathroom. This morning Mimi had a lesson with Viktoria about the history of the stables. Mimi left her quarters and made her way to the office building where Viktoria would be waiting for her.

Mimi passed through the main cloister where the stable hands took their meals and relaxed when not on shift. The sun shone down and warmed the pink stone of the cloister. The pillars glowed a soft red

in the morning sun. Taking a second to enjoy the warmth before continuing on to Viktoria's office.

Mimi knocked on the door before entering and called,  
"Viktoria, I am here for my lesson"

She walked in and sat at a small desk where Viktoria had laid a couple of books for her to study. Mimi picked up the first book and started. She was a few pages in when Viktoria came in dressed in her simple training robes that exposed the side of her breasts and the curve of her hips and waist. The robes shimmered in the light coming through the window. Viktoria beckoned for Mimi to follow her as she headed out of the office.

While they walked Viktoria began telling Mimi the history of the stables and why they had been established,

"These stables were founded by my Great Grandmother, Meesa Venic, to help bring the race of dragons back from extinction. The first dragons were obviously Nadir and BlutFang. But over time she found more eggs in the DragonKeep Mountains. The eggs were brought here and cared for until they hatched, giving the stable a mix of male and female dragons with which she could begin breeding"

Mimi nodded in understanding and followed as Viktoria led her to the main stables once more,  
"You will be working closely with four of the stable hands. Today I will introduce you and begin outlining your basic roles and responsibilities."

As they entered the stable where the stable boys should of been working they were nowhere to be seen. Viktoria and Mimi went from stall to stall. Many were clean but some still had the old used straw and hay that had yet to be cleared and replaced. Viktoria began to increase her pace as she looks for the stable boys, calling their names but getting no answer. Viktoria was getting more and more frustrated and annoyed at the boys absence. To distract herself from her anger she begins telling Mimi about her last encounter with the stable boys "well....." her eyes went glassy as she remembered the details.

Viktoria had been doing her weekly quarter check when found the stable boys in Titas' quarters. They had obviously been drinking a long time, their hands were all over each other as Viktoria walked into the room. Eric was on his knees between Titas' legs. Slowly and gently sucking on his rapidly growing cock. He kneaded his balls and took as much of his cock as deep into his throat as he could manage. Naith and Dane were locked in a slow but hard sixty-nine. Viktoria watched from the door, her own excitement growing by the second. Titas pushed Eric away and stood before bending him over the arm of the sofa. Gently he licked Eric's ass before sliding a finger in and then a second. Eric moaned in pleasure before saying,

"stop teasing me and fuck me"

Titas grinned and pulled his fingers out of Eric's ass before lining up his cock. He pressed gently against Eric's hole before pushing the head in. Eric gasped in pleasure and gently pushed back, taking Titus' nine inch cock to the balls in his ass. Titus began to gently thrust into Eric's ass making him moan and buck in pleasure.

Dane and Naith had stopped sucking each other and now moved in front of Eric so he could suck them both in turn. Titus gradually increased his pace until he was pounding Eric's ass and making him scream in pleasure.

Viktoria continued to watch from the doorway. She slid her hand between her legs and began rubbing her clit tenderly. As she watched Naith moved behind Dane before bending him over Eric so Eric could continue suck him. Naith thrust hard and deep into Dane's ass making him cry out and cum at the same time filling Eric's mouth and throat with his seed. Eric's ass tightened on Titas' cock, he could feel it throbbing in his ass. With a final thrust Titas' came hard in Eric's ass filling him with his cum, followed a minute later by Naith cumming in Dane. The four boys collapsed to the

ground and Viktoria stepped in and said,  
“room for another?”

Viktoria helped the boys clean themselves up before she began to suck and wank them. She knew the boys could fill her every hole and told them as much. Once they were all hard once more she had Eric lie on the floor, once he was settled she lowered herself onto him, her dripping pussy taking his cock easily. Viktoria began to ride him slowly, she took hold of Titas’ cock and wanked him gently while Dane moved round behind her and licked hungrily at her pussy and ass. She looked back over her shoulder and said between gasps,

“fuck it or make way for Naith”

Dane nodded and pressed his cock against her ass and slowly pushed in. Viktoria screamed and moaned in pure pleasure as she felt her pussy and ass filled with thick young cock. She let the boys pound her as she began sucking and wanking Naith and Titas. The boys began to pound her pussy and ass hard wanting to hear her scream for more.

In a wash of pleasure she came so hard her pussy erupted and she squirted all over Eric. He gripped her round pert breasts and sucked on the nipples as he continued to ram his cock deep into her pussy. He could feel Dane doing the same and saw the look of delight on his face as he screamed,  
“I’m gonna cum”

After a couple more thrusts they both buried their cocks to the balls in Viktoria’s pussy and ass and came at the same time filling her with cum.

She told them to go and clean themselves up while she straddled Titas and sank her ass onto his cock and pulled Naith into her pussy and moaned “fuck me my boys” they both began to pound her and within seconds she came again. The boys fucked her hard and fast, each trying to out do the other. Naith was the first to cum, he buried his cock in her pussy while his face was buried in her breasts. Titas came a second later and screamed in pure ecstasy as he filled her ass with cum.

Viktoria sent them to get cleaned up so she could get dressed to finish the quarter check. From the door Viktoria gave the boys their duties for the day before blowing them a kiss and leaving.

Viktoria finished telling Mimi the last time she had played with the boys and saw her cheeks were flushed and her lip trembled. Viktoria kissed her gently,

“what is wrong little one?”

Mimi blushed and whispered

“you have made me horny with that story”

Viktoria smiled and pushed Mimi into a clean stall before pushing her down to her knees and pulling aside her robe exposing her moist pussy,

“it made me horny too, now lick me”

Without a seconds hesitation Mimi began to lick Viktoria’s clit. Mimi licked from her clit to Viktoria’s ass hole and back, drawing gasps of pleasure from her until Viktoria stepped away and pulled off her robe completely,

“strip and lay on your back little one”

Mimi did as she was told and removed her riding leathers and lay down. Viktoria stood over her and smiled before kneeling beside Mimi and kissing her. After she broke the kiss she straddled Mimi’s face and began to tease her clit. Gently squeezing it between her finger and thumb.

Mimi started to lick again, driving her tongue as deep as she could into Viktoria’s pussy and ass, every probe of her tongue was met with a gasp of pleasure. Soon it was too much for Viktoria and she buried her face between Mimi’s legs. her tongue exploring every little fold of young flesh. She worked her tongue around Mimi’s clit as she gently slid two fingers into her pussy and one into her ass. Mimi moaned in pleasure and returned the gesture, sliding two fingers from each hand into Viktoria’s dripping pussy.

Viktoria screamed in pleasure and came so hard she squirted over Mimi’s face. Mimi swallowed what she could as Viktoria climbed off and replaced her robe.

Viktoria pulled a towel off the wall of the stall and helped Mimi get back into her leathers. They were a little tight but once broken in would fit her perfectly. They were about to leave the stable when Viktoria heard a voice she recognised as one of the stable boys.

She set off towards the voice but stopped short when she heard a dragon purr of pleasure. Viktoria stormed off in the direction of the purr with an expression of pure fury. Mimi tried to keep up but her leathers rubbed and she had to keep stopping. Viktoria crossed the yard into the next building, the female holding pen for the breeding pens.

As she enters sees the boys and watches for a moment to see what they are doing. Mimi comes up behind and and watches what is happening. She goes to speak but Viktoria gently puts a finger on her hips and shakes her head.

The four boys are in the middle of the holding pen with two of the female dragons. Viktoria recognises them instantly as Ebony and Ivory. The two dragons are on their backs with their tails twitching slightly in pleasure. Two boys were with each of the dragon.

They were stripped down to their leather riding shorts, their backs were covered with scratches from the dragons, they bled gently, not too deep. Scratches given in lust not malice. One of each pair of boys had their fists buried in the dragons pussy's up to the elbow. They thrust them in deep and slow. Pulling out one fist before sliding in the other. The second boy pleasing ebony was bent over her licking her clit.

Viktoria couldn't make out the boys from behind as they all looked similar, broad muscular backs and shoulder length dirty blond hair.

The other pair were doing exactly the same to Ivory. Fisting and licking her, making her purr in pleasure.

Viktoria moves around for a better look, the dragons see her but she signals them to stay. The boys are so caught up in their pleasure they don't see her. Mimi follows behind, a little fascinated with what the boys were doing. she knew there were some breeds of dragons that gave birth to live young and were very similar humans in their genitalia but she hadn't thought they would be that similar.

As Viktoria watched the two boys with Ebony pulled off their riding shorts to reveal their stiff throbbing cocks. She recognised them straight away, Titas and Naith, the two biggest cocks out of the four. They got as close as they could and slid their cocks into Ebony's pussy. They both groaned in pleasure as they began to fuck her. Gently they gripped each others ass cheeks as they thrust in, and began to speed up. Each thrust punctuated with a wet slap as they pounded Ebony's pussy. after a minute of pounding they slid a finger into each others ass holes and began to finger each other as they fucked the dragon.

Dane and Eric were still taking it in turns to fist Ivory. They watched what Titas and Naith were doing and tried to copy them.

As Dane fisted Ivory Eric licked around the cloaca and every few minutes they would swap around. After Danes third turn of fisting they removed their shorts and tried to copy the others. They both slid their throbbing cocks into Ivory's cloaca. It was painful at first because of her scales rubbing against them. But after a couple of seconds her cloaca was moist with dragon cum and they were able to fuck her easily. They saw the others begin to finger each other and did the same. Viktoria saw that Titas and Naith were the ringleaders of their little experiment while Dane and Eric were just copying everything they did.

All four boys were pounding into the dragons and Viktoria could see they were getting close to coming. She stepped out of hiding and yelled at the top of her voice,

"What the fuck are you doing"

The boys jumped and pulled out of the dragons, covering their pussy and cloaca in cum. They scrambled to grab their clothes as Viktoria stormed towards them, her robe flapping in the breeze and exposing her shaved pussy to them. They tried to cover their cocks but she yelled,

“stand up straight and arms at your sides”

They obeyed instantly dropping their cloths and standing straight. Mimi came out of hiding and walked up behind Viktoria her eyes drawn to the boys cocks.

Ebony and Ivory moaned and grumble as the pleasure ended abruptly before moving off to the other corner and began to lick each other clean. Their tongues exploring each other and tasting the cum dripping off them. Once they were clean they turned to watch what was happening, not fully understanding what was said but inquisitive as to what was going to happen.

Viktoria demanded to know what was going on and why the boys weren't working. When none could give her an answer that was a good enough reason she had them turn and lean against the pen wall. Viktoria went over to an equipment chest and pulled out four sets of riding cuffs and handed two sets to Mimi,

“put them around Dane and Eric's wrists and over the hooks on the wall, I'll do the same with Naith and Titas”

Mimi nodded and did as she was told, she didn't say a word to the boys as she bound their wrists and but them over the hooks. The boys whimpered not knowing what was going to happen but knew they were about to be severely punished.

Viktoria went back to the chest and pulled out a large strap-on, the cock was ten inches long and three inches wide. It was a smaller version of Hazards cock. Mimi helped her secure it in place with a leather harness. Viktoria handed Mimi a bottle of lube and told her to apply it generously to each boys ass. Mimi did as she was instructed and rubbed lube onto each of their ass holes before stepping back silently to watch.

Viktoria took a riding crop from the pen wall and walked behind the boys running the crop over the scratches on their backs. She continued doing this for ten minutes. When she could see that the boys were beginning to relax she struck them with the crop and reopened the cuts.

Not using her full strength but enough to leave red welts across each of their ass cheeks, she used the crop on each boy for a minute until their asses were red and raw, she yelled,

“You do not fuck the dragons when you are meant to be working and when you do not have permission”.

Viktoria cast the crop aside and went up behind Titas and gripped his shoulder before saying,

“You will all take your punishment like men, if not you will be fired”

Titas nodded but didn't say a word, knowing his carrier hung in the balance. Viktoria pressed the head of the strap-on against his ass and thrust in. In one motion she buried the entire length of the cock in his ass. Fucking him hard and fast for a minute before pulling out and sending him back to his quarters.

Viktoria did the same with Naith and Eric, fucking them both hard but they took the punishment and left the pen, gathering their cloths on the way out. She came to Dane and as she pressed the cock against his ass he bucked and pulled away pleading and begging.

Viktoria growled at him, low and furious. She took off the strap-on and cast it aside. She pulled the cuffs off the hook and took them off him before saying in a low monotone voice,

“Get your cloths, clear out your quarters and get out of my stables, you are fired and not welcome back”

Dane sobbed and cried and begged Viktoria to change her mind. she pulled him up by his hair and slapped him hard across the face and screamed “GET OUT”.

He grabbed his cloths and ran. By nightfall he had left the stables and began to make his way home to his parents in Imp. Ashamed he had lost the best job he would ever have.

After Dane had ran Viktoria collapsed to the floor and began crying. Mimi came over and without a second thought held her tight.

Viktoría sobbed because she hated having to punish her staff but knew that she had to. She called a couple of the off duty stable hands to get Ebony and Ivory into clean pens and retired to her quarters. Mimi stayed with her for the entire night to comfort her, they went to bed and cuddled gently as they both fell to sleep. Mimi now knew never to piss Viktoria off.

~~~~~

### **Part Three - Impregnation**

A month had passed since Mimi had first joined the Highacre dragon stables and she had completed her basic lessons and training. She was now a junior stable hand under the direction of Arryn, one of the senior stable hands. Mimi spent her evenings with Viktoria discussing the need for the breeding program they ran and began her more advanced lessons in dragonology and stable management. Viktoria had told her she wanted to train her to be her replacement when she retired. Mimi was both honoured and shocked at the proposal as she was still only a teenager but Viktoria explained it was because of how the dragons responded to her. With most of the stable hands the dragons ignored them and only responded to very few, these were the only ones allowed to ride them and perform medical exams. Dragons chose who they want to ride them not the other way around.

Arryn was a typical girl in her early twenties, full of life and always looking for fun. She was an average girl, her curly brunette hair came to her shoulders and she always wore it loose. She had the firm curves of a young adult but her eyes spoke of great sorrow. Arryn had come to Highacre after being fired from the last stable she worked at due to the fact the dragons were always trying to mate with her and the owner did not approve of this. It was then she learnt that she was one of the few women who could be impregnated by a dragon if that dragon breed birthed live young. When Arryn arrived at the Highacre stable she had explained the whole situation to Viktoria who took her in without a second thought. Viktoria had put her on the pills to prevent her being impregnated if she was mounted by one of the dragons again. At the mention of these pills there was a twinkle of mischief in Arryn's eye.

As Mimi dressed in her riding leathers she caught her reflection in the mirror, her raven black hair pulled into tight pigtails. She saw the curve of her hip and breast, though small they were firm and round. She turned on the spot to see her self more clearly. The leather clung tightly to her ass and emphasized the mound of her crotch. She was only eighteen years old but had the full figure of a woman. Mimi smiled and saw the glint of mischief in her bright blue eyes. Her slim angular face seemed so serious in contrast to the supple leathers she wore. She gently applied a little make up; blusher and lip gloss to highlight her high cheek bones and full lips. She looked down and admired how the leather shaped her legs, her slim calves moved up to slim yet strong thighs, slender yet not childlike. Mimi ran her hand over the leathers enjoying the feel, even though they chafed; she was getting used to them, she turned round and looked over her shoulder, admiring the shape of her ass in the leathers, round and firm like a fresh peach, she ran her hand over one cheek then the other before giving herself a little spank.

Later that day Mimi and Arryn were walking through the stables just chatting about the different breeds; Mimi was hungry for knowledge. Arryn explained that out of the twenty breeds of dragon they cared for only two were capable of giving birth to live young; the Fleshdrake and Enirvic. They had a breeding pair of each dragon and a couple of juveniles from each pair in the nursery. It was Mimi and Arryn's turn to clean the nursery the following day and she could barely control her excitement about being in with the juvenile dragons. Mimi had always wanted one as a pet but knew it wasn't possible, which is why she had come to the stable. They weren't pets but she got to work with them everyday and was paid to do something she loved.

That evening Mimi and Viktoria were in Mimi's quarters discussing what she had learned and Viktoria filled in any gaps that Arryn had missed. They sat and went through Mimi's notes on the breeds that could birth live young and Viktoria explained that some humans could be impregnated by these breeds. She pulled out a bottle of pills and told Mimi that she would have to start taking them so that if she was mounted by one of these dragons it couldn't impregnate her. Mimi nodded and put the pills by her bed so she wouldn't forget to take them. She leaned over and kissed Viktoria to say thank you for the warning. Viktoria's responding kiss was hot and passionate and showed what her true intentions had been for their meeting. Mimi giggled, knowing that Viktoria loved these kind of private sexual moments and that they should both make the most of them as they didn't happen often due to the business of the Ranch.

Viktoria lunged at the young girl and pinned her to the simple single bed. Mimi squealed in delight and threw her arms around her lover's shoulders to hold her tight. They writhed together almost silently for a while. The only sounds were the giggles and naughty whispers accompanied by the rustle of the thin bedsheets beneath them. Viktoria's elegant fingers glided through Mimi's hair, making the helpless girl whimper in sensual bliss and grind against her welcome assailant. The grinding forced a moan from the woman's lips which was soon echoed by her young lover as their writhing dance heated up; both pairs of hands caressing the other's body as their lips locked to stifle the noises. Viktoria ended up underneath the girl, giggling. This was totally new to her but Mimi knew what she was doing. Slowly she slid down the length of her Mentor's body until she was kneeling between her legs and grinning. She knew what Viktoria liked and how she liked it. She knew how to make her scream. Viktoria echoed the girl's grin before skilfully grabbing her hair and pulling Mimi's grinning face into her shaven mound. Mimi began greedily sucking and licking at Viktoria's swollen clit and labia. Working her tongue deep into Viktoria's soaking wet pussy Mimi drew first a moan then a scream of ecstasy from her lover. Viktoria worked her hands through Mimi's hair, pulling her harder into her dripping pussy. After several minutes of enthusiastic oral Mimi pulled her head from Viktoria's welcoming crotch and panted for breath. In this moment of peace Viktoria whispered in a husky pleasure-laden voice, "fuck me please baby-girl, there is a strap-on in my saddle bag"

Mimi grinned in youthful excitement and scrambled from her bed to the bag; retrieving the strap-on. Mimi gently slid it up her legs and into place. The strap-on had an additional smaller dong that fitted into Mimi's tight teen pussy to give her pleasure as she fucked her Mentor. She pulled a tube of lube from her underwear drawer and gently applied a generous amount of it to the phallus then stroked it gently as she approached the bed once more. The strap-on was the same one Viktoria had used on Mimi the first time they had fucked. It was eight inches long and four inches in circumference, made of a soft rubber that moved easily but was still firm enough to bring the receiver to orgasm.

Viktoria watched her approach; her legs slightly spread as she rubbed her swollen clit. Mimi gingerly climbed onto the bed holding the strap-on in front of her. Viktoria spread her legs a little wider as she gripped the phallus and guided Mimi into her welcoming pussy. As Mimi gently rocked her hips pushing the strap-on deeper and deeper into Viktoria she ran her hands all over her lover's body. Viktoria gently wrapped her legs around Mimi and used them to pull her deeper into her pussy. She groaned in pleasure as the phallus slid fully into her, filling her entirely. Mimi shuddered in sensory pleasure at seeing how she pleased Viktoria; her body shook with small orgasms as the dong in her pussy worked on her g-spot. Their breathing became heavy as Viktoria used her legs to control the speed and depth of Mimi's thrusts. As Mimi got used to using the strap-on she began to thrust a little faster making Viktoria moan and gasp in pleasure.

As she thrust the full length of the strap-on into Viktoria Mimi leant back, dragging her nails down the woman's flanks and making Viktoria gasp and buck in ecstasy. In return, Viktoria dug her fingers into Mimi's ass cheeks and screamed,

"Fuck me harder, harder, HARDER!"

Mimi grinned at Viktoria's demands. She took a firm hold of her Mentor's hips and pulled the strap-on out until only the tip remained inside Viktoria. The woman groaned at the sudden feeling of emptiness, but it was short lived as Mimi thrust the strap-on in hard and deep. Viktoria screamed in pleasure as Mimi continued her relentless pounding, a sheen of sweat breaking over her forehead at the effort of fucking Viktoria senseless.

Viktoria dug her nails into the girl's ass and screamed in utter delight as her pussy was pounded harder than ever before and more thoroughly than any man ever had; second only to when she had been fucked by one of her dragons.

Mimi panted in exertion as she fucked Viktoria. Both of them moaned and screamed in mutual pleasure as they climaxed simultaneously. Their fluids soaking the sheets beneath them.

Mimi collapsed onto Viktoria as her own orgasm slowly diminished. Her Mentor and lover held her close as she got her breathing under control. With deliberate care Mimi gently pulled the strap-on from Viktoria's dripping pussy. The phallus was drenched in her juices, Viktoria shuddered in pleasure before collapsing back onto the pillows. Mimi pulled the strap-on down before wiping it clean on her spare towel. Returning the toy to Viktoria's bag she smiled in contentment before returning to the bed and cuddling into her lover. They both drifted into a peaceful sleep, smiles from ear to ear at the mutual pleasure.

The following morning after a very restful sleep. Mimi and Arryn went to the nursery for their daily duties. As instructed Mimi had taken the pill first thing in the morning. She wasn't worried about being impregnated as she was currently on her period. She didn't mention the pills to Arryn as she wasn't sure if she ever fucked the dragons. She had soon learned that the dragons were very picky with who they mounted; and she didn't want to make Arryn uncomfortable if she wasn't one of the girls chosen.

As they entered the nursery Arryn warned Mimi to look out for Ebondrak and Pestral; both were males that had just reached sexual maturity and would mount anything they could to show which of them was more dominant. Mimi nodded, she understood, and followed Arryn into the main pen. Mimi's heart almost skipped a beat when she saw the number of dragons and eggs in the pen. There were twenty hatchlings rolling around in the warm ash in the centre of the pen; their squeaks and squeals of delight filled her heart with joy. There were at least a hundred eggs spread around the pen, some in clutches others on their own. She heard the beat of wings above her head and looked up to see juveniles the size of dogs flying around just below the ceiling. They set to work cleaning out the pens and separating out the broken egg shells to be sold on to the Alchemists guild at a later date.

After a couple of hours they stopped for a rest and sat by the ash pit. One of the hatchlings came out of the ash and climbed onto Mimi's lap, settled into a ball and fell asleep. She gently stroked the scales of its head and it purred quietly. Arryn got up and excused herself as she had to go to the toilet, Mimi was quite happy sat with the dragon on her lap.

After nearly ten minutes Mimi began to wonder where Arryn had gone so she removed the dragon from her lap and stood. She dusted herself down and was about to head off to the toilets as well when she heard Arryn scream. Mimi ran to where the scream had come from and found Arryn huddled in the corner. Two large juveniles stood a couple of feet away watching her intently, they were the size of large dogs. They prowled around while sniffing the air and Mimi knew straight away these were Ebondrak and Pestral. She whistled and called their names. They turned their heads to look at her, their tongues flicking as they tasted the air. At that moment she knew they could smell her blood and she cursed herself for not masking the scent.

Both dragons purred at her while they prowled around behind her. Mimi moved closer to Arryn to check if she was OK but in the process she made the mistake of turning her back on the two juveniles. Before Mimi had a chance to realize her mistake the two dragons leapt forward forcing her to the ground. With a gentle bite Pestral tore her riding leathers open exposing her moist, blood covered pussy. Mimi gasped in surprise but she didn't resist. Gently Pestral began licking the blood from her crotch; Arryn was dismayed at seeing the sudden look of pleasure on Mimi's face.

Ebondrak got up and slowly crept toward Arryn, tasting the air with flicks of his tongue. The dragon purred as it scented her arousal at seeing what was happening to Mimi. With gentle nudges of his snout Ebondrak pushed Arryn's legs wider apart, sniffing her intently. As he sniffed her moist pussy his penis slowly slid from its sheath and flopped down; its was nine inches in length with a flared head like that of a horse. Arryn watched his penis grow, her breathing coming faster as she knew what was to follow. It had been weeks since she had last played with one of the dragons and now her need to be fucked took over. Her fear was replaced with raw lust. Arryn moved slowly around the young dragon. She ran a hand over his soft new scales, they were like supple leather. He watched her as she moved and knelt beside him. With a gentle touch she began stroking his penis; drawing a purr of pleasure from deep within him. As her lust took over Arryn bent forward and began greedily sucking his solid penis.

Mimi gasped and moaned in delight as Pestral licked hungrily at her pussy. His forked tongue moved over her swollen labia and engorged clit better than any man ever had. When he stopped and moved away she let out a moan of hunger. Mimi looked back over her shoulder and watched as his penis slid from its sheath, smaller than Ebondrak's, it was only just seven inches. She knelt up on her knees and took hold of the leather at her crotch and pulled, tearing it further and exposing her full pussy and twitching anus. She had never had a cock in her ass before but she knew she wanted it. Mimi spat onto her fingers and rubbed them against her ass-hole before whistling and patting her toned ass cheek. Pestral prowled forward, his penis hardening at the scent of her lust. He gently mounted her, his penis pressing against her pussy. Before he could push in Mimi reached round and pulled it up so it pressed hard against her anus.

Arryn stopped sucking Ebondrak's penis; the head dripped with spit and pre-cum. She quickly glanced around to see what was happening to Mimi and saw her rub spit onto her ass. Arryn didn't enjoy anal but loved having her pussy fucked hard and deep. She knelt down in front of Ebondrak and wiggled her bum at him. She shuddered in barely controlled lust as she felt him sniff her dripping wet pussy. With gentle care he hadn't shown earlier Ebondrak mounted her, wrapping his forelegs around her waist. The feel of his soft scales drove her arousal even higher; she loved the feel of a dragon against her skin. With a single thrust he drove all nine inches of his penis deep into her. His knot, the size of a grapefruit, pressed against her swollen pussy but was too big to fit inside her tight passage.

Mimi watched with lust filled eyes as Ebondrak mounted Arryn. She could feel Pestral prodding against her anus. Every prod drove her lust higher and higher. With a grunt of desire Mimi pushed herself back and felt the head of his penis slide into her ass. She gasped in pleasure and rolled her hips. Apart from her fingers and her dildo's Mimi hadn't had a cock in her ass before and she wanted the feeling to last. Pestral began thrusting gently into her, pushing his penis an inch deeper with every thrust. When his knot pressed against her ass she moaned and rolled her hips pulling forward slightly. If he got his knot in she wouldn't have the pleasure of being fucked so hard and fast.

Ebondrak had pinned Arryn to the ground. His forelegs holding her tight while he rested his head on the centre of her back. She moaned and screamed in pleasure as his cock was driven deep into her. He began panting with his thrusts and licking Arryn's back. Arryn tried looking back to see what was happening to Mimi but the weight on her kept her head pinned against her arms. Ebondrak began to

thrust faster and harder, every thrust making her scream in uncapped pleasure.

Pestral increased the speed of his thrusts, driving his penis fully into Mimi's ass. The teen girl screamed like never before as she was filled with warm solid meat. She began thrusting her hips back into the dragon, feeling his knot press against her ass-hole with every push. The force of his fucking slowly edged her closer to Arryn and Ebondrak. The dragon panted with every thrust. Its claws digging into the flesh of Mimi's thighs as it held her tight. Mimi was moaning in utter ecstasy from having her ass fucked; she pushed back in time with Pestral's thrusts. The dragon panted louder as it began fucking her as hard as he was able. With a roar of pleasure Pestral thrust with all his strength, the force of the thrust pushing his knot into Mimi's ass. She gasped in surprise and pleasure as she felt the knot stretch her more than she had ever experienced. The dragon stopped thrusting as it came in her ass. The force of his orgasm felt like an explosion inside her; Filling her completely with dragon cum.

Ebondrak heard the other dragons pants of pleasure and increased his pace to match. He gripped Arryn firmly, his claws leaving welts along her stomach. The force and speed of his thrusts almost lifting Arryn off the ground. As the dragon kept up its relentless pace it slow shuffled Arryn round so she was facing Mimi. The two girls could see the utter pleasure of the experience written on each others faces. Ebondrak continued to fuck Arryn hard and fast. It was a rare treat he got to fuck one of the handlers and he was enjoying every second of it. With a gentle shift of his hips he began long fast strokes. Every thrust stretched Arryn's pussy more and more. Arryn looked up as Mimi screamed in surprise and saw that Pestral had stopped thrusting but still held her close. She could feel her own orgasm building to an extreme she had never experienced before. With a roar of pure animal lust Ebondrak thrust his entire length into Arryn's stretched pussy, he kept the pressure on until his swollen and engorged knot burst into her. Arryn screamed in pleasure and almost blackout at the sudden pain; the dragon was totally inside her, all nine inches and grapefruit knot. Ebondrak came and filled her pussy and womb with cum. He growled at Pestral and spread his wings in a dominant display; Arryn hanging off his penis.

The two dragons watched each other for a minute before Pestral lowered his head and folded his wings. For now Ebondrak was the dominant male. Both girls panted as their own orgasms began to subside. Their bodies drenched in sweat and covered in multiple scratches. Slowly the dragons knots shrunk to a point that they could pull them from the girls. The girls both came simultaneously as the knots were pulled free; they collapsed onto the ground and panted. Cum leaked from both of them, but Mimi also bled. Her ass had been stretched and now bled from the fucking she had taken. Neither of the girls could move for a moment as their bodies slowly adjusted to the orgasms that had just swamped them.

Once Ebondrak and Pestral had satisfied themselves they left the two girls in the corner. Mimi dragged herself over to Arryn and held her tight as they both cried. They had both enjoyed it but the dragons had lost control and had really pounded both of them. The dragons had been so strong they were powerless to stop them, they would both be bruised and scratched for a few days. Mimi pulled out her phone, called Viktoria, explained what had happened and told her where they were. Viktoria told them to stay put because she was coming to them. A couple of minutes passed and both girls were still weeping from the pain. Viktoria and four of the male stable hands entered the nursery and found the girls curled up in the corner. The stable hands carried them out and took them to the medical wing to have them checked over by the nurses. Viktoria was sure they weren't hurt but it was more of a precaution. She decided to give both girls the rest of the week off to recover because both were going to be sore.

The stable nurses checked over both girls and declared them physically fine but recommended that they rest for a couple of days and focus on their studies. They took a blood sample from each girl and

told them to return in five days for another blood test; purely to make sure they hadn't contracted any possible diseases from the dragons.

Five days passed and both girls reported to the nurses office for their blood test. The nurse took a small measure of blood from each girl and sent them back to their quarters. The first tests had come back clean but they didn't want to take any chances, the last thing the stable wanted as a new disease to start spreading. The nurse read the results from the second test; Mimi's results showed normal, her hormone levels were a little high but she attributed that to Mimi being on her period. But she was concerned about Arryn's results; she knew the girl was on the stables birth control pill but the levels didn't seem right.

She looked over the results again and immediately called Viktoria to tell her the results and then called Mimi and Arryn to her office. She wasn't going to enjoy this but it had to be done. A few minutes later all three arrived, Mimi and Arryn looked worried while Viktoria had an odd expression; one of joy and jealousy at the same time. The nurse gave Mimi her results and told her to be careful with the pills as she had taken too many and she could accidentally overdose which would lead to her hormones spiking again and a repeat of the other day. Mimi looked both worried and aroused at once, she glanced at Viktoria who smiled and winked before mouthing "later". The nurse then turned to Arryn and said,

"You are going to want to sit down sweetie..... you are pregnant."

Arryn burst into tears and looked at Viktoria crying,

"I'm so sorry, I forgot my pill a couple of times. I'm sorry, I'll pack my things and leave."

Viktoria shook her head and cuddled Arryn and told her to stop being silly and that she wasn't going anywhere, the stable would look after her and watch over her as she grew and carried the baby to term if that is what she wanted. Arryn wept in joy and nodded, she would keep the baby and be the stables first dragon mother.

~~~~~

## **Part Four - Mimi's dragon**

Mimi sat quietly on her bed. She had received a package that morning from her parents. The box was plain, wrapped in brown packaging paper and secured with brown twine. Her parents sent her one of these packages each month; normally they were made up of her favourite chocolate and new clothes but something felt different about this box, it was slightly heavier than the last she had received.

Mimi gently untied the twine before removing the paper. There was a letter taped to the top of the box; she opened the envelope and scanned the letter quickly, a smile spreading across her young innocent face. Putting the letter back in the envelope she put it in the draw by her bed where she kept all the letters from home; she would write back later when all her work was done.

Mimi opened the box and as usual there were her favourite chocolates but there was something else. A present wrapped in golden glitter covered paper. She giggled in excitement and tore the paper open, glitter going everywhere. Mimi screamed in delight at what she held in her hands.

At the sound of her scream Viktoria came running into the room with a look of worry and concern on her beautiful face. Mimi bounced up and down on the spot in joy and excitement; the look on her face banished all Viktoria's worries and she smiled at seeing the pure joy that filled the young girl. Mimi stopped bouncing when she saw Viktoria and held out the present her parents had sent her.

Viktoria smiled and took the present, her smile matching Mimi's. Her parents had sent her favourite stuffed dragon; a toy she had held onto for years. She had called it 'Mr Scaly' as a child and the name had stuck. Viktoria passed the dragon back and waved Mimi to follow,

"I have something for you"

Mimi put Mr Scaly on her pillow and followed Viktoria out of the room; wondering what she could possibly have for her.

Viktoria led Mimi to her office; there was something about her that Mimi couldn't quite put her finger on. A sense of excitement filled the air and Viktoria was more animated than normal. As they entered the office Mimi noticed a crate in the corner; that hadn't been there earlier. Mimi began looking around the room to see what else was different but everything else seemed the same. Viktoria sat at her desk before waving Mimi into the seat opposite her. She studied the girl for a few seconds; watching her scanning the room.

After a minute Viktoria smiled and stood; walked over to the crate before lifting off the lid. From inside the crate Mimi heard a gentle purring. Very gently Viktoria reached into the box and lifted out a small baby dragon. Mimi's eyes lit up at the sight of it; its scales were a vibrant purple and its eyes a deep green. She gently placed the baby dragon on her desk and sat once more; watching Mimi as she stared at the dragon in awe.

"Melody, this dragon needs you to raise it and train it, are you up to the task?"

Mimi nodded, her eyes never leaving the baby dragon in front of her. She barely registered what Viktoria had said.

She lifted the dragon carefully and left it get itself comfortable in her arms before she stood. It rested its head on her shoulder and began purring quietly. Viktoria smiled before waving at the crate, Mimi looked inside and saw a fluffy blanket on top of a bed of straw and ash. Gently lowering the dragon she put him back in the crate before turning to Viktoria and giving her a hug that convinced all her thanks and gratitude.

They spoke for a while, every so often interrupted by squeaks from the baby dragon. They both smiled as Mimi lifted the crate; it wasn't overly heavy but Mimi was glad her room wasn't far.

As Mimi set the crate down she cooed affectionately,

"Let's get you settled in Apollo"

The baby dragon clicked and squeaked happily in the crate. Mimi gently lifted Apollo from the crate before moving over to the bed and sitting down. The dragon curled up on her lap, its tongue flicking lazily as it scented the air and took in its new surroundings. Mimi gently stroked Apollo and was amazed how soft his scales were, even at such a young age some hatchlings had rough scales.

Viktoria gave Mimi the rest of the day off from her duties in the nursery so she could bond with Apollo. Just seeing the look of utter joy on the girl's face had made her smile. It was like those that brought them closer together. She decided to check in on them later to see how they were doing; but for now had her own duties to attend to.

Mimi watched Apollo as he began thoroughly exploring her room and his new home. He wandered around quite happily on her wooden floor, his little nails clicking and tapping with every step making Mimi giggle. He snuffled the corners, he investigated the open cupboards and he even tried squeezing himself underneath Mimi's bed. When she dragged him out by his chunky back legs he complained bitterly and scampered off; diving head first into the dirty laundry pile. Mimi could hear him sniffing and burying himself deeper into the mountain of clothing; mostly underwear and odd pieces of leather. Suddenly he ran out from the bottom of the pile, slightly panicked and with a pair of panties draped over his snout. In his haste he ran straight into Mimi's leg as she sat on the bed watching him. Carefully she picked him up, panties and all, and put him on the bed beside her. He was panting heavily and tossing his head around though he sat still. Mimi petted him slowly, from between his budding horns to the base of his tail until he began to calm down. He took big sniffs of the fabric in front of his face and started breathing heavily again, although not in panic this time. Mimi could recognize the sound of an aroused dragon and her senses told her that her little Apollo quite liked the hormones he could smell. She cooed at him again as she removed the worn panties

from his head and threw them back in the pile; his snout followed them for as long as possible without him having to leave his new mother.

Mimi resumed petting him with a new passion. She wanted to keep his arousal going as long as possible; maybe he'd be able to play like the bigger dragons. When Apollo lay on his side, belly towards her, she noticed that he was indeed reacting as his larger counterparts would. His cloaca had swollen and the tip of his penis had emerged. Mimi continued her petting, rubbing the base of his cloaca and whispering to him in a soothing voice. Apollo responded with clicks and squeaks of joy and pleasure; a gentle purr building in his throat. Slowly his penis emerged fully, it was only three inches long; but he was only a baby. Mimi gently tickled his chin as she slid her other hand into her shorts and rubbed her fingers over her wet slit. She ran her hand down his body and down to his cloaca once more; pulling her hand from her shorts and holding her fingers in front of his snout. Apollo sniffed eagerly and licked at her fingers, his cloaca pulsed as his arousal grew.

With her own arousal rising and heat building in her crotch Mimi stripped off her shorts, leaving her naked from the waist down. She sat on the bed with her legs spread; Apollo scented the air, his tongue flicking in and out of his mouth. He looked around to find the source of the scent; again Mimi ran her fingers over her wet pussy and held them to his snout. Mimi led him with her fingers, his tongue flicking over them. Inch by inch he moved closer to her; his tongue flicking with greater speed as the scent grew stronger. With her free hand she gently rubbed down his spine and tail, Apollo's snout was now only a couple of inches from her dripping pussy. He flicked his tongue to scent the air once more, the tip of his tongue caressed down her slit; his little body shook with glee at the taste.

Mimi cooed at him 'Good boy, my good little boy', Apollo squeaked in joy. She slowly spread her legs a little wider and lay back slightly, pulling his head closer to her so his snout was now pressed against her pussy. His tongue flicked out and ran over her clit; a wave of pleasure coursed through her body at the touch. A new wave of fluid leaked from Mimi's pussy which Apollo eagerly lapped up.

Mimi could feel her orgasm building but didn't want the experience to end. She gently pushed her legs closed; Apollo kept trying to get his snout back between her legs. Mimi giggled at his eagerness and opened her legs again; Apollo took his chance and went straight for her pussy, but in his haste and excitement didn't stop in time. Mimi gasped as the tip of his snout sunk an inch into her pussy. Apollo panicked a little and pulled back panting for breath. Mimi gently stroked his sides to show him everything was ok now he was free.

Slowly his breathing returned to normal but his penis had lost some of its hardness during the time he was stuck. Mimi dropped her hand back to the sheath and began gently rubbing and squeezing. Apollo clicked and squeaked in excited pleasure at Mimi's touch. With her spare hand she gently stroked from his head to tail and his little body shuddered beneath her fingers. Mimi smiled at his display of pleasure. She couldn't hold herself any longer and leant down, his bright green eyes followed her every move. She gently extended her tongue and ran it along the length of his young penis. Apollo rolled onto his back and spread his hind legs wider; his young penis now fully out of its sheath once more. Mimi began licking the length of Apollo's penis, running from the ring of his cloaca to the tip. Her hunger for cock grew to undeniable heights; all she wanted was to suck and taste cum, she didn't care if it was from a man or dragon. As her tongue ran around the pointed spade shape tip; her mouth watered. Mimi opened her mouth and gently took the tip between her teen lips. Apollo jerked his hips at the new sensation, making his penis slip fully into her mouth.

The taste of his young penis was like nothing Mimi had never experienced before. It was so sweet; she had expected it to be salty or at least fleshy so the nice taste took her by surprise. Gently and with care that she hadn't shown with the other dragons Mimi sucked Apollo's penis fully in her mouth. The little dragon squealed and writhed, pushing his penis deeper into her wet inviting

mouth. Being so young Apollo didn't know what was happening but the instinct he was born with had cut in and told him to fuck. His hips thrust with a mind of their own as his brain was swamped with pleasure. Mimi let Apollo enjoy himself; the feel and taste of his small penis only fuelling her own enjoyment.

Mimi gently stroked the young dragon's sides as she slowly rolled onto her back; lifting him as she moved. Apollo now straddled her head, his little legs either side of Mimi's neck with his tail slowly moving over her pert teen breasts. Apollo's base instinct now took over, his hips bucked faster and harder; driving his penis deep into her mouth. Mimi moaned in pleasure as the little dragon fucked her face, his penis pushing into the roof of her mouth as it was thrust to the rim of his cloaca. Mimi moved her right hand down her body while her left continued to stroke Apollo. As her hand reached her pussy she felt her own warm, sticky fluids flowing. She started to rub and tease her clit with her index and middle finger, squeezing her throbbing engorged clit between them before sliding her fingers deep into her dripping pussy. Apollo now thrust hard and fast into her mouth, his base instinct telling him to fuck as hard as possible. The little dragon grunted with every thrust, his penis dripping precum into Mimi's willing mouth. The taste was so sweet Mimi sucked harder to get more of Apollo's nectar. As Mimi assaulted her pussy with her fingers she felt the little dragon tense; a ripple ran under his scales as the pleasure over came him. With a squeal of delight he thrust his penis as deep as he could into Mimi's mouth. She moaned as she felt his semen burst from his penis and flood her throat. She tried to swallow as much as she could but some leaked from the corners of her mouth. With a click and squeak of contentment the little dragon climbed off Mimi's face; his little claws leaving tiny scratches on her chest and neck. He happily waddled over to her pillows where he curled up and watched her lazily as she continued to pound her pussy with three fingers.

Because Mimi had lost herself in the pleasure of playing with her dripping pussy she didn't hear the door to her bedroom creak open. One of the stable girls, Kaela, a young girl only a year older than Melody stood in the doorway. Her straight strawberry blonde hair usually fell down to her waist but for work she wore her hair in long pigtail plaits, each tied with a brightly coloured ribbon. Kaela watched in awe as the younger girl pounded her tight little pussy with three fingers and groped her breasts with the other hand. She took a silent step into the room; the scent intoxicating her and sound of masturbation ringing in her innocent ears. Kaela barely even noticed Apollo almost asleep on Mimi's pillow.

Slowly Kaela crept towards the bed because Melody's eyes were still firmly shut in the heat of her pleasure. She moved closer to the foot of the bed holding her breath. Her eyes darted nervously between Melody and the young dragon on the pillow. Melody was only now within reach; gently she reached out and began to caress Melody's breast while she leant forward and began to kiss the younger girl on her trembling lips.

Melody's eyes shot open but didn't push Kaela away. She opened her mouth a little wider before pushing her tongue into the older girl's willing mouth. Kaela slowly moved her hand down the younger girl's body; gently caressing her soft teen flesh. Melody moved her hand to the back of the other girl's head, pulling her close and kissing her deeply.

Melody moved her hand away from her dripping pussy; her fingers soaked in her fragrant juices. Kaela broke the kiss; she slid her hand between the teen's legs and began to tease her clit with the tip of her middle finger. Melody gasped in pleasure and began to suck her own juices from her fingers. Kaela slid a finger into Melody's dripping hole and explored the depths of her; moving her finger in slow circles. Every movement drew a gasp of ecstasy from Melody.

Kaela had played with some of the other girls at the Hatchery, but she had always watched Melody with Viktoria and envied the older woman's hold over the teen.

Moving her lips down Melody's neck and towards her breast, Kaela gently slid another finger into Melody's pussy; making her gasp and moan in pleasure. Kissing her sweet flesh sent flickers of pure joy down Kaela's spine. Melody gripped the sheets as the older girl explored her body; waves of pleasure coursing through her body. Kaela knew how to use her fingers; she pressed her thumb against Melody's clit and applied a gentle pressure while sliding a third finger into her dripping Pussy. The wet hole gripped her fingers tight as she slowly drew them in and out; her one aim to make Melody scream in pleasure.

The moans and cries of pleasure woke Apollo who turned his head to watch the two teen girls please each other; his tongue flicking out and tasting the air. The room smelt of sweat, pheromones and sex. The sweet tang of Melody's honey with the new aroma of Kaela's nectar. A shudder ran down the little dragon's spine as he watched, his scales rippling with excitement. He moved up to the headboard of the bed for a better view.

Melody tried to hold onto another orgasm as it wracked her body, she had lost count of how many times she had come since Kaela had begun exploring her body. She tilted her head back in ecstasy as Kaela drove her fingers deep into her young body. She saw Apollo moving and smiled to herself, now it was her turn to explore the other girl. She slid her hand up under the other girl's loose shirt and was surprised when her hand met her naked breast; Kaela was not wearing a bra. The other girl's breasts were not big but they were a perfect hand full, the flesh was soft while the breasts were firm. Melody kneaded the flesh of Kaela's breast drawing a moan of pleasure from the other girl. With her other hand she began undoing the buttons on Kaela shirt so she could strip her. Sliding her down between each button; her intent obvious. As the last button was freed and her Shirt fell open Kaela met Melody's hungry mouth with a passionate kiss that surprised them both.

Melody broke the kiss after a long hot minute and resumed removing Kaela's clothing. She moved her hands down the girls firm, toned stomach. Gripping the waist band of Kaela's work shorts, Melody pulled them over her slim hips and watched them drop to the floor. With an impish grin Kaela kicked her shorts into the washing pile across the room. Standing in front of Melody she waited as the teens eyes drank in every curve of her body. Kaela was a modern girl, she didn't like to have too much body hair, and her pubic region was a small trimmed triangle compared to Melody's trimmed bush.

Melody gently moved aside, making space on the bed for Kaela. Gingerly she climbed onto the bed. Melody moved down the bed, her mouth exploring the young delights of Kaela's body. She gently kissed and licked every inch of the other girl's body; her time with Viktoria had taught her many things and she used them now. Melody moved her hand between Kaela's legs and began to gently probe her dripping pussy with her fingers while her tongue worked on the older girl's clit. Kaela moaned and gasped with pleasure as Melody explored her. Within minutes the young blonde was screaming in orgasm, her entire body trembling as the pleasure gripped her and drove her to new heights of ecstasy. No boy had ever made her feel this way.

As Kaela's fragrant juices covered her fingers and mouth Melody sighed in pleasure; she loved the feeling of bring another girl to orgasm with just her fingers and tongue. The blondes' juices flowed from her dripping slit as Melody moves her head away. Slowly she kissed her way up Kaela's body until they were lying side by side. The other girl was breathing heavily after her orgasm and lay with her eyes closed as she thought about what Melody had done to her.

For a few minutes the two girls lay in each other's arms and enjoyed the closeness that only intimacy could bring. With a gentle kiss to the forehead Melody moved back slightly; enough to reach into her under bed drawer. Grasping around blindly she found what she was looking for; a present from Viktoria. She lifted the toy and showed it to Kaela before saying,

“Guess what’s coming next”

Kaela eyed the toy held before her, seven inches of formed Perspex; the length was covered with small bumps while the end was formed as a ball. The blonde licked her lips in anticipation as she spread her legs wide. Melody moved between Kaela’s legs once again and began rubbing the tip of the dildo over the other girls glistening pussy lips.

When the toy shone with Kaela’s juices, Melody lifted it to her lips and greedily licked the fragrant cum from its length. The young teen placed the tip of the dildo at the opening of Kaela’s pussy before gently sliding the first couple of inches into the older girl. Kaela Gasped as the first bumps slipped into her. The sensation was something she had never experience before. No cock she had ever taken had made her insides flutter with pure desire like that.

Melody gently pushed the toy deeper inch by bumpy inch. Every inch drew a gasp of pleasure from the blonde. She pushed it in until the ball that she was holding pressed against the older girls soaked lips. She held it in that deep as Kaela writhed in pleasure and uttered passionate moans. With a grin that was both devious and lust filled Melody turned the toy slowly. Kaela moaned and whimpered with every turn as the bumps of the toy stretched her insides. Juices ran freely from the blonde, the sheets beneath them were saturated with their cum.

Kaela screamed in uncontrollable ecstasy as the Melody filled her pussy with the dildo.

The young teen smiled at the reaction she had caused in Kaela; she enjoyed the toy daily and had squirted more than once. She slowly moved the dildo in an out of her new companion, gently twisting and turning with every motion.

Kaela moaned and wailed in pure delight as her dripping hole was stretched and teased by the toy.

Apollo watched, transfixed by the show in front of him. The hormones and pheromones filling the air teased his young senses. His tongue licked at the air as he savoured the scent carnal act taking place.

Kaela moved her legs so her knees were pressed against her chest; her hands gripping the back of her legs to hold them in place. The movement caused her pussy to open fully to Melody’s questing toy. The blonde screamed as the younger teen increased the pace of her thrusting; driving the dildo ball deep into her companion. The room was soon filled with the sound of a soaked pussy being fucked hard and fast. Kaela could feel another orgasm brewing but this one felt different, her muscles trembled and tightened; she suddenly felt the overwhelming urge to urinate. Screaming in pleasure and thrashing her head trying to hold back the feeling she began to cum. Melody watched every reaction on Kaela’s face as she pounded her pussy, she knew by the sound the older girl would squirt any second.

As Kaela screamed and moaned in orgasm Melody pulled the toy from her pussy hard and fast. The motion of the dildo being removed was more than the blonde could take and her body released an orgasm more powerful than she had ever experienced. A jet of girl cum sprayed from her pussy soaking the sheets and Melody. Kaela shook the violence of her orgasm, breathing hard and trembling. Melody dropped the toy onto the floor with an audible thump and moved to hold the older girl. Tears streamed down her face and a sheen of sweat covered her body. Unable to speak she moved into Melody’s arms and let the waves of pleasure slowly diminish.

The two girls lay in each other’s arms until they began to feel the first pangs of hunger. The sun was now descending towards the Horizon but neither cared how long they had stayed in each other’s embrace. Slowly they dressed and cleaned up the mess of the day, they both needed to shower but that could wait until they had eaten. With linked arms the girls left Melody’s room and headed for the kitchen to see what was on offer.

Apollo watched as the two girls left and moved back to the pillow on the bed; curling up and squeaking quietly he drifted off to sleep.

It had been an unusual day for Melody, but one she would not have changed for the world. She had her own dragon to train and a new companion to play with. She just hoped Viktoria didn't mind her playing with Kaela; she would need to talk with her about play partners at the hatchery.

~~~~~

## **Part Five - Damn Lizard**

Viktoria sat quietly at her desk, a pile of application forms for a Dragon Handler position in front of her. One of her prize studs, Stallion, needed a new handler because his last had recently retired. Viktoria didn't want to hire a woman for the position; knowing Stallions temperment and demeanor he would not listen to a female handler. Sadly so far all the applicants had been young boys fresh out of college with no real experience. She put down yet another form on the rejection pile; which was quickly growing. So far she had rejected roughly thirty applicants. With a sigh of frustration she picked up the next application. The first thing to catch her attention was the name, Solomon. No surname, just Solomon.

Reading through his application form she saw that he had gained experience working with large lizards at Highacre's Country Zoo and Tyrok's Reptile Sanctuary but he had no prior experience with dragons. Viktoria decided that it was worth giving him an try.

Viktoria called Solomon and invited him in for an interview; the voice on the other end of the phone was dark and sensual. His accent was one she had never heard before; maybe he was from Jager, over the ocean to the west of Highacre. Solomon agreed to come in for the interview later that day. Viktoria decided this would be a good experience for Melody, whom she was mentoring so that the girl could take over from her when she retired.

Viktoria and Melody drove to the main gate of the hatchery to meet Solomon. Melody let out a whistle of appreciation as he came into sight. He stood about six foot six, was well built and heavily muscled. His head was covered in thin braided dreadlocks but his face was clean shaven and displaying a smile that would melt any womans heart. His skin was as dark as the purest dark chocolate. Viktoria thought to herself "Oh, just like how I like my coffee... Strong and dark", she chuckled and the sound brought Melody back to her senses. Viktoria stopped their rover next to Solomon and as he climbed into the back he greeted them both. Melody felt a shiver run down her spine as his deep seductive voice wrapped around her senses. She caught Viktoria's eye and noticed that he was having the same effect on her Mentor; she hoped they would have chance to satisfy all their urges later.

During the drive back Viktoria asked Solomon to explain his experiences and why he had chosen to apply to the Hatchery when the Central Zoo was looking for experienced handlers aswell. He gladly explained his varied experiences and told them that he wanted to work at the Hatchery because he had worked with lizards from all over the world but had never worked with such nobel beasts as dragons. Melody nodded in understanding; working with dragons required skill and passion, if you had only one of these qualities the dragons would ignore you.

Viktoria slowed the rover to a stop outside the main male stable block. Climbing out of the vehicle carefully so as to not crease her suit, she led them into the building where the males were mostly resting from their earlier exercise. She walked at a slow pace so that Solomon had a chance to take everything in before they reached Stallions' pen. As dragons went Stallion was relatively small,

about the size of a large horse. He was the only male Equis dragon in the Hatchery. Solomon looked the dragon up and down and whistled in awe. Stallion raised his head and looked directly at Solomon, holding his gaze and daring the man to look away. Solomon held the dragons gaze, refusing to back down. Viktoria and Melody watched in silence, both not wanting to interrupt the fight for dominance. Finally Stallion relented and with a snort and shake of his head the dragon came forward and bent one knee before Solomon. To show his respect to the noble beast Solomon lowered his head; he was to be a Handler; an equal to the marvelous creature, not dominant over it.

Stallion raised his head before stepping up to the gate of the pen; meeting Solomon's gaze once more. But this was not a display of challenge but of acceptance. The dragon had refused twenty handlers already; leading Viktoria to believe he was as picky as she was. With total confidence Solomon opened the pen gate and stepped through; Viktoria was about to protest when Melody gently placed a hand on her arm. The young girl shook her head and nodded at Solomon who was knelt before Stallion; running his hands gently over each of the dragons legs. Stallion lifted each leg in turn and offered his taloned foot; Solomon took each foot with great care, inspecting the tough, hardened scales and claws. Slowly Solomon worked his way around every inch of the dragons body until all that remained was his scaled cloaca. Knowing he should finish his inspection or lose the dragons trust; Solomon knelt down again and took a gently grip of Stallion's cloaca. Stallion turned his head to look back at Solomon before blinking in consent. With a firm yet tender grip Solomon eased the dragons penis from its sheath; fourteen inches of firm warm meat slid from the cloaca making the girls watching gasp in appreciation. Solomon looked over Stallions penis and exclaimed 'Damn, lizard!' The dragon shook his head and snorted; mimicing a horse with the action. Solomon released his grip on the cloaca and stood. Turning to the girls he smiled, winked and joked, 'He's almost as big as me!'

Melody blushed at Solomon's joke but Viktoria decided to call him on it saying, 'Prove it'. A smile crossed the new Handlers face as he nodded. Turning to the girls Solomon unbuttoned his trousers and pulled out his cock. Fourteen inches of dark man meat hung between his legs. Melody stood open mouthed in shock, she had never seen one so big on a man. Viktoria stared at the cock, her eyes filled with hunger. Taking Melody by the hand she opened the pen gate and stepped in; dragging the open mouthed teen with her. Solomon watched her every move, he still had hold of his cock and was gently stroking it.

Stallion watched the two girls with interest; like some of the other dragons he had fucked the female Handlers and he had enjoyed it. His penis still hung from his cloaca and it twitched when he caught the scent coming off the girls. The dragon flicked its tongue and tasted the air; lustful hormones were radiating around the pen. Stallion snorted and stepped closer to them, his penis growing firmer as their scent grew stronger.

Viktoria knelt infront of Solomon, taking a firm grip of his cock before gently stroking the length. Slowly the length of meat grew, firmed and throbbed; the veins bulging in her grasp. Solomon growled in the back of his throat, a deep guttural sound that sent a thrill of anticipation down Viktoria's spine. The new Handler ran his hand over his new boss' head, her hair silky soft beneath his fingers. Melody watched with her breath hiked in her chest and her heart hammering beneath her breast. She had seen how Viktoria handled a regular man's cock and even some of the dragons; but never a monster like Solomon's. Taking a deep breath Viktoria sucked the head of Solomon's meat into her mouth. Her lips barely able to stretch around his girth. After a few seconds she pulled away while rubbing her jaw; this was going to be a challenge for her.

While Viktoria and Melody's attention had been fixed on Solomon none of them noticed Stallion moving around the pen. He moved up behind Melody; nudging her shoulder with his snout and nibbling at her hair. The teen jumped at the nudge; turning she looked straight into Stallion's eyes.

The dragon nudged her shoulder again and let a low purr rumble in his throat. Melody knew straight away what the dragon was after. Kneeling down by Stallions hind leg she gently gripped his penis and began working her tongue around the flared tip. Being an Equis dragon he resembled a horse in nearly every way, the only differences were the scales, wings and shape of his skull; even his penis was like a horses, long and firm with a flared tip. Melody knew she couldn't fit the tip in her mouth so she worked her tongue around it thoroughly. She had yet to be fucked by Stallion and knew just looking at him it was going to be a tight fit, if she managed to get it in at all.

Viktoria rose from her knees, her fingers still wrapped around Solomon's cock. She led him over to a stack of hay bales that were to be put in Stallion's pen. Carefully she climbed onto the first bale before turning round and laying on her back with her head hanging off the edge of the bale. She never let go of the monster meat in her grasp. Licking her lips she moved her hands round to Solomon's hips and gently pulled him towards her mouth. The new Handler saw what Viktoria was planning and took hold of his massive weapon. Rubbing the head of his cock over her lips Solomon grinned. Viktoria licked around the tip of his cock before opening her mouth as wide as she could. Slowly inch by inch Solomon pushed his meat deeper into Viktoria's mouth; after several inches he met the resistance of her throat muscles. Viktoria gagged as Solomon pushed the head of his cock into her throat; digging her fingers into the meat of his ass cheeks so he couldn't pull away. She closed her eyes, trying to relax her spasming throat. Spit leaked from the corners of her mouth as Solomon pulled back an inch so Viktoria could take a breath. Exhaling through her nose the Hatchery Mistress dug her fingers into Solomon's thighs and pulled him closer. The head of his cock passing the pulsing muscle that had resisted only a second before. Grunting and moaning in pleasure he pushed gently forward until all fourteen inches of his meat were buried in Viktoria's throat. He held it for a second before pulling back; his cock was slick with her spit. As the last of Solomon's monster left her throat Viktoria coughed, taking in a lungful of air before licking her lips.

Melody looked up from licking Stallion's penis and saw the new Handlers monster soaked in Viktoria's throat juices. The dragon stamped his rear foot and dragged his claws through the hay that covered the floor of his pen. Melody gently wanked the penis in her grasp with one hand while her other hand unbuttoned her khaki shorts. She tried to remove them with just the one hand but struggled. The teen stood and let her shorts fall to the floor before stepping out of them gracefully. All the while her fingers worked around the girth of Stallion's penis making him purr in pleasure.

Stallion turned his head and sniffed; his tongue flicking from his mouth as he tasted the air. He moved his head closer to Melody who watched him carefully. Gently reaching out Melody ran her hand over the dragons snout. A purr rumbled in his throat; his tail swinging gently and his wings twitching. The dragon sniffed at the teens crotch, his tongue tracing over the fabric of her panties. The feeling of the dragon's tongue against her crotch made Melody giggle; slipping her thumb into the waist band she pushed them down until they were loose enough to fall to the floor. Stallion licked eagerly at Melody's shaved mound; a ripple of pleasure running down his body and down hers.

Once Viktoria had caught her breath she sat up; looking over to watch what her protege was doing. She continued to wank Solomon, not wanting to lose the firmness of his monster. The feel of his cock in her hand was delightful and she was aching to have it filling and stretching her. But her curiosity of what Melody was doing was too great.

With her shorts and panties now on the floor Melody walked over to the nearest hay bale and bent over, resting her head on her arms as she looked back to see Stallion moving towards her. She saw his penis bounce with his stride and shuddered in anticipation. She quickly glanced the other way to see Viktoria and Solomon watching her intently. Melody could feel her juices running down her legs; the excitement and anticipation of being fucked by Stallion had made her aroused beyond belief. The

dragon moved up behind her and licked the juices flowing from the teen's pussy. With gentle precision Stallion mounted her, his forelimbs placed either side of Melody's shoulders. The flared head of his penis rubbed against her dripping slit making her moan in pleasure and longing. With a purr of pleasure Stallion thrust forward, the head of his penis straining to enter the young girl. With a grunt of effort the head popped in. Melody screamed in pain and ecstasy, her pussy was stretched more than it had ever been. She hadn't thought it possible but Stallion's penis was bigger than Hazard's, and she had barely managed to take that inside her. Her body shuddered beneath the dragon; she was surprised that he held still and didn't try to bury his full length in her like some of the younger dragons.

Viktoria watch with wide eyes as the flared tip of Stallion's penis sank into Melody. She kept Solomon's member gripped firmly in her hand. Moving round on the hay bale Viktoria opened her legs to Solomon; pulling him towards her. The new Handler saw the intent burning in her eyes and smiled. Taking hold of his cock he began rubbing the head over Viktoria's slit; her juices lubricating the tip. Looking into Viktoria's eyes Solomon gently applied pressure and pushed his monster into his new boss. Viktoria moaned as her pussy stretched to accomodate the massive cock. As the head of his cock sank fully inside Vitoria he massaged the length of his shaft. Slowly inch by inch Solomon sank deeper; He grunted when he met the resistance of her cervix. With eight inches of his cock buried inside Viktoria, Solomon wondered how much more she could take. Viktoria growled in pleasure; her hands running over the mans sides until she got to his waist. She dug her fingers into his sides and pulled him deeper into her. The tip of his cock pushed past her cervix making her cry out in pain and lust. Keeping her fingers firming dug into Solomon she pulled him deeper and deeper until she felt the head of his cock pressing against the roof of her womb. The sensation was almost more than she could bare; the pressure sending jolts of pleasure through her followed by waves of sickness. After a few minutes she had to stop him from thrusting, fearing the next thrust would make her lose her breakfast. Solomon pulled his length from her and massaged the shaft. Viktoria lay on her back and turned her head to watch Melody.

The young girl wailed and screamed in ecstasy as Stallion fucked her. Her wasn't burying his full length inside her and for that Melody was thankful. Her body shuddered as orgasm after orgasm flowed through her. Stallion started grunting with his thrusts. Slowly the spines along his back began to raise and stand firm. His wings shook and quaked as he slowly spread them. With a final grunt and a snarl Stallion buried nearly half his penis inside Melody; his tail twitching as he started to cum. Melody cried out in bliss as his hot semen flooded her insides. Stallion gently took a step back, his huge penis leaving Melody with a pop followed by a flood of cum. Melody lay shuddering as her last orgasm subsided.

Seeing Melody shudder Viktoria stood and went to her side. Gently she began stroking her sweat soaked hair; she whispered well done in the young girls ear before kissing her forehead. Solomon walked up behind Viktoria, still stroking his massive cock. Viktoria smiled back over her shoulder and wiggled her ass and said,

"stick that monster in my ass and fuck me till you cum!"

Solomon grinned and spat on Viktoria's anus. He pressed the head of his massive meat against her sphincter and pushed the head inside his boss. With a single thrust he buried nearly his entire length deep inside her. Viktoria screamed in orgasm as the new Handler began to pound his massive cock into her ass. Thrust after thrust making her orgasm again and again. The tightness of her ass had Solomon grunting with every thrust as Viktoria's ass muscles began milking his cock. He moaned and shook as he came, driving his cock fully into Viktoria. All fourteen inches of his meat filled her colon as he dumped his cum deep in her bowels. Viktoria shuddered as he slowly drew his cock out of her. As he pulled the head free she clenched her muscles as quickly as she could and waved at her bag sitting by the door to the pen. As Solomon picked up the bag Viktoria said,

"There is a buttplug in there, stick it in my ass!"

Solomon nodded and pulled out the plug. He had been expecting a tapered plug but this one was a large bulb. He spat on the plug before pushing it into Viktoria's ass.

The three of them slowly got dressed before Viktoria led them back to the rover. She had told them they were going back to her office to complete the paperwork and the job was his if he wanted it. Solomon had nodded smiling saying how could he possibly turn the job down if those were the perks. All three of them laughed as they drove back to the office. Viktoria called ahead and had one of the stewards prepare drinks for the three of them and arrange accommodation for Solomon in the main dorm.

Viktoria sat at her desk with Melody sprawled on the chaise under the window and Solomon sat in the arm chair across from her. Melody had fallen asleep in the car and Solomon had carefully carried her into the office; he would take her up to her room soon but wanted to get the paperwork done first. Viktoria squirmed in her chair, the plug in her ass now beginning to become uncomfortable. She handed the last of the papers over to Solomon to read and sign while she poured herself a glass of wine. A set of keys lay on the desk in front of her, they were for Solomon's room and for the garage. Once he had signed the last page Viktoria passed the keys over and said, "welcome to the family, I hope you enjoy working here"

Solomon thanked her before gently lifting Melody into his arms. Viktoria took her key to Melody's room and led the way.

As Solomon lay Melody on the bed Apollo climbed out of his box and clambered over to the young girl; curling up against her stomach. Solomon petted the small dragon before quietly creeping from the room. Viktoria led him to the kitchen so they could grab a bite to eat and discuss his duties as Stallion's handler.

Solomon knew it was going to be hard work but he relished the challenge; and only an idiot would turn down the perks of this job!
