## BEASTIALITY STORIES

I have always masturbated and love to do it without any clothes on. I lay there and spread my thighs so I could enjoy myself. I was lying in my bed one night, and I was preparing for a masturbation marathon, which I do when I have plenty of time. I had all my toys out along with some lubricate and towels, as sometimes I squirt my climaxes out of my pussy. I normally would not have the boys in the room while I was masturbating b/c they get too excited, but both sneaked into the room that night.

I had put on a fuck video on the DVD player and was getting hot as I took my toys and started to play with them. I took a big dildo which I love and rubbed it up and down along my wet slit as I watched the movie. My legs were off the end of the bed slightly as I played with myself. It was starting to feel good as I began to enjoy the feeling of my electric dildo sliding across my cunt.

I glanced down and saw Bear between my thighs, watching me. I was sort of surprised to see him so close, but I continued to play with my wet snatch. I then took the initiative and reached my hand down to my wet pussy, coating my fingers in my hot juices. I then held my fingers out for Bear. He started licking the juice from my fingers. I patted the edge of the bed and asked him to get up there as I wanted him to lick my pussy. My wants were quickly answered as he put his paws on each side of my thighs and dipped his tongue to my waiting pussy. I spread my lips apart and pulled them upwards, exposing my wet cunt to him. His long tongue darted out and tasted my slit, licking me from the bottom to my clit. It felt so good as the shivers ran over me.

I started to slowly hunch my wet pussy to his probing tongue as he continued to lick my cunt. It was feeling so good now as I opened it so he could taste the small opening of the inside of my wet pussy. His tongue would lap at me as it would slightly enter my pussy, causing me to throw my ass towards him even more. I started to cum from his licking. It was so hard as the cum started to shoot from my pussy as I ejaculated my fluids. He lapped at me even more, licking my cum as it covered both his tongue and my thighs. I had never cum so much or so hard in my life as I did then. With his tongue licking at my slit and me cumming over and over again, I noticed his cock had gotten so big.

It was about 9 inches long and so big around. I knew he wanted to put it somewhere, and I knew just the place. I eased myself to where my ass was just on the bed as I brought him up to me, putting his paws on each side of me as I reached for his big cock. I felt his hot doggie dick in my hands as I guided it to my waiting pussy. I was so wet, and it slipped right in. I felt the tapered head as it slipped further into my cunt, spreading me so wide as it slid deeper. It was huge, and it felt so damn good as I wrapped my legs around his haunches, trying to take more of his big cock.

I could feel each inch as he pushed deeper inside me, making my pussy tingle with his hot cock. I looked down to see his cock buried in me as he hit my sweet spot, causing me to cum once again. The feeling of his big cock against my sweet spot caused me to cum every time he hunched his huge cock to me. I was cumming so much as I felt his cock going even deeper into my hot cunt.

Then it happened. His cock grew so big inside me as I felt it swell up and knew the knot had grown so huge. I usually don't allow their knots inside me b/c of the pain and possible tearing, but I wanted it this time. I knew exactly what was happening as I felt the big knot swelling inside my hot pussy. It just made me cum that much more as the big cock filled my cunt. I could feel the knot as it grew so large inside me, hitting my sweet spot and keeping me cumming over and over as that hot cock just sort of stuck there. I was working my pussy to him. Milking his big cock with every one of my strength as he slammed that cock to me. I knew that when he came, his cock would go down as I fucked him a little faster now.

Sure enough, I felt his cock as it pounded inside me, starting to swell as it throbbed. It felt so good

as his cock throbbed in my pussy, getting ready to pump his cum to me. I felt it as he started to cum, the huge cock pounding at my womb as it started to erupt his load of cum. I felt the heat from his cum as it coated my insides, making me cum each time the headshot a wad of cum into me. He was so full of cum as his huge cock pumped his hot juices to me. I could feel the head as it relaxed while he spurted his hot, yummy cum deep within my burning pussy as his knot became smaller in me. I was loving this!

When Bear was done, it was Max's turn. He, too, is large and has a cock as big as Bear. It didn't take too many times before I had his cock in my pussy while Bear watched. Then I decided that I was going to let them fuck both my pussy and my ass at the same time. I laid Bear down and got his cock hard as I guided him to my dripping pussy. Then I finally coached Max to mount me from the rear as I took his big cock and jacked it up and down for him as I got it good and hard. I reached down and took some of my juices and rubbed it on my asshole as I then guided his cock to me. I felt his cock head as it slid in past the small opening of my ass. He was so big as I felt his cock slip into my tight ass. It was feeling so good as his cock filled my ass, as I felt Bear's cock sliding to my sweet spot. There I was, being fucked in both my pussy and my ass by my two dogs and loving every minute as their big cocks filled me.

I let them fuck me as I fucked back to their huge cocks, cumming each time as Bear hit my special spot. I was waiting for both to cum as I felt their cocks began to swell so big in me as I climaxed over and over. I could feel both cocks as the knots swelled up, their knots growing so big as they fucked me. Then the feeling of both cocks as they shot their loads of hot, yummy, and loads of cum so deep within my body. I felt the hot fluids as they emptied their cum into me as I, too, came again. It was such a good feeling to have both of my dogs fucking me as their cocks filled me, and my wildest dreams came true again, being fucked by two cocks at one time.
