BEASTIALITY STORIES

This happened back a few years ago when Craigslist still ran personal ads. That summer my boyfriend developed a oppression with filming me in different sexual situations. He would film me flashing truckers on the freeway, nude sunbathing at the lake or our backyard, answering the door semi nude for delivery guys totally nude for the girls to see their reactions. Now he wanted to film me having sex with different people. For some reason I thought maybe this might be fun. He started looking at Craigslist ads under the cuck section and would show me the guys he found. Finally I like one white guy tall looked nice but what I like he had a long pink cock. Maybe because my boyfriend was Hispanic I thought a change would be fun!

I was 31 at the time I couldn't have kids, I'm white very taned that year 5'5 130 lbs. My boyfriend like how white my tits and ass were when I took off my bikini. He got a hold of the Craigslist guy and explained what he wanted to film and of course he was all in! Saturday afternoon was the date. My boyfriend wanted to film in the backyard in the patio area that had a shade area with a built in bench it was big yard. There was bushes along the fence for privacy. All our neighbors had big yards.

Saturday came and I was nervous so I had a few drinks before he came maybe more than I should have. My boyfriend said don't worry you won't be doing anything you haven't done before! We had gone to swinger's clubs a few times the year before but he was wrong before the afternoon was over I would be doing something I've never done before! A pickup pulled up and out stepped the Craigslist guy but a German short hair dog jumped out too. He hadn't said anything about owning a dog he said he was sorry but he couldn't find anyone to watch him. He was a very nice dog white with brown spots, I noticed he had balls, The Craigslist guy said he's big for his breed 80 pounds and still growing I hope I can start breeding him. My boyfriend said no problem we're going to be in the backyard anyway. After some small talk about what my boyfriend wanted to film we went in the backyard the dog started exploring the yard. So far I like the Craigslist guy, guess that was a good thing if I was going to be sucking his cock in a few minutes!

I was wearing a white bathing suit cover its like a dress I had no underwear on you could see though it and he was wearing shorts and a t shirt. We smoked a joint so we could be relaxed then my boyfriend now Mr Director told him to take off his shorts and sit on the bench with me sitting next to him. I had put down some towels on the bench because they were wooden and I didn't want my bare ass on them. I sat next to him and he noticed I was not wearing panties. My boyfriend told me to pin my hair back so it doesn't cover my face and start playing with him then he started filming. I noticed that he had shaved his balls and around his cock nice touch I thought. I started rubbing his cock which was long but not thick but it was pointed not a mushroom head that I have seen. But he wasn't getting hard maybe he was nervous too. I told him to relax that I loved his pink color and holding it at the base wiggle it back and forth that seems to work because now he started getting hard he told me he didn't expect me to be so petty I said wow thanks for saying that boyfriend said kiss it and I lean over and kiss it licking the tip then gently sucked it I kept looking at those shaved pink balls. Maybe it was the drinks but I wanted his balls in my mouth. I started down to them kissing and licking his balls this really got him hard! This surprises them both because I don't do that to my boyfriend and the Craigslist guy is loving it! They would come out of my mouth with a sucking sound.

Now I lick back up to the tip of cock and was really getting in to it running my tongue around the tip then sucking it but now his dog that nobody was paying attention to runs up. The dog stuck his face almost in mine he wanted to know why I was eating his master so I took his cock out of my mouth and offered it to him. I would suck it and tease him with it! I held it and wave it in front of him The Craigslist guy said I don't think he likes cocks but maybe I have something he does. I said whats that? and he says open your legs let him see! I look at my boyfriend who's still filming and he said

yeah I didn't expect this! I have heard my girlfriends talk about dogs licking them but I thought they were kidding I thought it was kid stuff. But once when I was 16 I was at my friends house and her mom was at the store she said want to see what I taught my poodle to do? She took off her shorts and called her poodle then sat on the couch with the poodle in-between her legs the little guy lick up her pussy! I sat at the end of the couch and watched. She was enjoying it then asked me if I wanted to try it? Being young and open to new things I took off my shorts turned so my back was against the arm rest and open my legs my friend got on her knees next to me and was directing its head to my pussy, she put her hand on my pussy lips and open me up sticking one finger in me making circular movements. She said he needs to smell my juices but just as its started licking we heard her mom pull up in the driveway she let go of the poodle but with her finger still in me said "we'll try this again " but that never happened again. We got dressed and acted like nothing was going on. But now I had a second chance!

I was leaning over on the Craigslist guy so I just opened my legs the dog moves down and did a few licks wow that tickled I sat up and put one leg on the bench pulled up my dress and open my legs, the dog takes one sniff and starts licking my pussy slowly at first but then got going good! Now I knew what my friends were talking about! His tongue covers my whole cunt with one lick. Both my boyfriend and the Craigslist guy loved seeing this! Its the shape of his tongue and how he uses it! Now I put both my heels on the bench I tried to open my legs as wide as I could, I'm happy getting great head the dog basically has buried his snout in my cunt my boyfriend said don't forget about Craigslist guy so some how I grabbed his cock and started stroking him. My boyfriend got a few shots of this, me sitting next to him stroking his cock with a dog inbetween my legs with a look of delight on my face. Then said get in front of him and blow him, I reluctantly push the dog away and got up and put down a towel for my knees and started back blowing him. I wasn't thinking of the dog when I got in the doggie style position I wanted to show off my tan lined ass I was playing it up for the camera. But dog comes around and likes the position I'm in and starts licking my ass and pussy! I had been kiss on my ass before but not licked! He was licking in-between my ass cheeks then he hit my ass hole! the sensation is awesome! I'm sucking as best as I could but it's hard to concentrate with that tongue up my ass in few minutes I cum but the Craigslist guy did too filling my mouth with sperm, I had asked him before hand not too but with that tongue up my ass I just swallowed as much as I could I didn't care now, what I couldn't swallow drip down his cock I licked up the cum on his shaft and balls the licking I just got was wonderful. So I was just making a fool out of myself pretending I was more interested in his cock than the dogs tongue!

I had my head on his lap catching my breath when I felt the dogs front paws on my hips! I started to protest but my boyfriend said no go with it who knows when we get another chance like this! The dog was trying to screw me but his cock wasn't hard so all he was doing was ticking my ass cheeks with his slow motion pumps. The Craigslist guy said he didn't think he could screw me because he never has done it, I should of know better when I looked at him and asked "are you sure?" He said pretty sure he should stop soon. I thought if this is all hes going to do it's not bad so I played it up for the camera moaning and wiggling around like he was screwing me! My boyfriend came around to shoot me from a side view I smiled at the camera! I opened my legs more and continued wiggling and pumping back into him he was still soft but I could feel the tip of his cock coming out every other pump the slippery tip of his cock would tickle my ass hole I guess I should of know that if the tip out he's getting ready. But I wiggle too much because then he found my hole and took off.

It was amazing how fast he was pumping I just hung on to the Craigslist guy cock as the dogs cock getting bigger with every pump! I can hear him slapping my butt I surprised how good it feels but then he stopped and started blowing up like a balloon! I said whats happening? the Craigslist guy said he's getting his knot! It feels scary but good at the same time a minute later with a pop he pulled out and I cum again! My boyfriend said awesome! the Craigslist guy happy his dog not a

virgin anymore and I'm thinking how did this simple idea turns into this! I didn't have a smile on my face anymore just befudament!

The dog layed down licking his cock and I sat cleaning myself with the towel looking at him wondering what just happened and noticing how his cock looks with that knot, I hadn't thought much about dogs cocks but now this is very interesting his cock is huge. Its as big as some men I've seen. I said hey look he has a pink cock too! Me and my big mouth, my boyfriend and the Craigslist guy looked at each other and I knew what they were thinking! I could see the gears in their head turning I know they want me to blow him! I love sucking cocks and thought this couldn't be much different than a man or boys. When I used to babysit I sucked some of the boys so they would behave and go to sleep it was also fun to see their faces when they came in my mouth!

So I told my boyfriend put down the camera if you want me to do this and went over to the dog. My boyfriend put the camera down him and the Craigslist guy were sitting on the bench looking at me like little boys waiting to open Christmas gifts! I got on my knees and bent over him started rubbing his stomach and push him on his back and with my other hand grabbed his cock. I looked at them and smiled trying to be sexy then I put his cock in my mouth and started sucking him the taste wasn't that bad, different, but I've tasted worse, so I relaxed the shape was weird but once again I played it up for those 2 to watch. I would smiled at them and put his cock back in my mouth I would moan and would stick all his cock in my mouth then slowly pull it out with a popping sound then I would swallow it again almost to the knot! I wonder if he would cum like a man so far he was lasting longer than his owner I looked at him and almost laughed he had his mouth open with his tongue hanging out breathing fast I think he was enjoying this. I heard the Craigslist guy say she should ride him!

I looked at him and he told me get on him cowgirl style at first I didn't get it but then I thought oh yeah me on top. He was on his back already so I pulled up my dress and held his cock up and mounted him ! This was awesome I was in control! I pumped up and down not putting too much pressure on him the knot in his cock was like a stopper he could only go in so far! This felt awesome not like a man cock at all I bent forward my body on his but I pumped to hard and he slipped out now his cock was in-between my ass cheeks I kept pumping his cock all slippery the tip went in my ass hole but that was enough for me I had a huge orgasm! I pumped back and he went in some more this felt awesome because he was thinner than a human cock being all slippery I pumped it a few times and it went in as far as the knot I squeezed my ass cheeks together holding him in me, a few minutes I got a hold of myself and I got off of him he was really a good boy! I patted him and was going to get up but I see my boyfriend come over and get on his knees trying to stick his cock in my mouth I stopped with the dog and started on him I feel hands on my hips and the Craigslist guy rubbing his cock on my ass. Hes soft but trying to get hard oh no not that big thing in my ass but he didn't and finds my hole and fucking me good he doesn't have a knot so he is filling me with his cock!

They both came in no time my boyfriend first filling my mouth with cum again and the Craigslist guy pulling out and filling my ass cheeks with his cum. He didn't let go of me and started to rub his cock in between my ass cheeks using his cum like lube. My boyfriend put another tape in the camera and started filming. This was really getting me hot again I wiggle around but now he's hard and stuck his cock in my ass. Because of his cock being pointed it went in easy thankfully he didn't stick it all in but it felt like it! He's moaning saying you're ass is so tight! First his dog in my ass now him! I guess it was good to have the dog first to open me up because he wasn't as big as his owner. He's pumping hard then he cums in me! It feels like a gallon of sperm! He pulled out and my boyfriend gets a close up of it with sperm leaking out of me.

I told him thanks for the mess but he said don't move, he called his dog over and with me on all fours

covered in sperm he maneuver his dog to cleaned me up. He lick all the sperm they had squired on me off this felt awesome my face, my ass, my pussy if I could've cum again I would of but couldn't! But then I feel him getting on me again he finds my hole just fine this time! I close my eyes enjoying his fucking but when I opened them I see both the Craigslist and my boyfriend in front of me. So I sucked one then the other, back and forth what a gang bang! The dog came first but it took for ever to get those two to cum!

Finally it was over for me I went inside, the Craigslist guy and my boyfriend drank for awhile I heard my boyfriend said if you ever need someone to watch your dog let us know! But I knew what he was really thinking ! then he left. I wasn't hungry I was so full of cum, I took a shower and thought I didn't even take off my dress nobody played with my tits! I slept all night and most of the next day I was sore! A few days later I got my period I was relieved that at least I wasn't going to have puppies. About a month later my boyfriend called the Craigslist guy to ask if he wanted a copy of the tape, my boyfriend said really loud so I could hear oh your going on a trip sure we could watch him!
