BEASTIALITY STORIES

When we were finished filming our Craigslist date sex tape. My boyfriend had offered him to watch his dog if he ever needed someone. Almost 2 months later he called asking if we could watch his dog. He was going on a business trip leaving Sunday afternoon till Wednesday.

My boyfriend though good this was good timing because he had been looking at the tape he filmed of us saying if he had only film this or that it would be so much better, now he would have a new chance to film. I knew what he was up to, but this time just me and the dog he didn't even ask me if I wanted to film again. The first time things just happened, but now I knew what it was like to had sex with a dog and I will admit but not to him, yeah I would do a round two! But I knew something about when someone wants a reshoot. When I was 19 in Jr. College I was working for a Professional Photographer she was a middle age woman who specialized in nude photography she had a little shop she used a 35 mm camera I would help her with the shoots holding lights putting oils on the models developing the films. One afternoon one of her clients that she had taken nude photos of was telling her that her boyfriend like the nude pics of her but would really like pics of her with a woman. She was I guess 33 very rich looking very nicely dressed. My boss was saying she didn't know were to get a model to shoot this afternoon when I walked in. She looked at me and asked what about her? My boss explained the situation to me and said she wouldn't show my face if I didn't want, but I didn't care. If they could use me for the model the lady would pay me too.

I had just gotten my first Brazilian waxing so I thought good time to show it off! The lady said "oh yes she would do please pose with me" so I said ok. I took off my clothes and layed on the set they had set up I got on my back the lady took off her clothes and I thought wow she's pretty hot as I looked at the lady take hers off. She was naked expect for the black stocking and garters she wanted to pose in. First my boss took some pics of us kissing, putting our hands on each other's pussy, our hands on each other tits then she layed inbetween my legs poseing like she was going to eat me. My boss started taking pictures first of her legs and ass then kissing the inside of my legs then my boss move to my shoulders shooting down giving directions of what she thought was a sexy pic. I thought wow this is easy money the lady said she loved my Brazilian waxing! even my boss said it was very sexy, she kissed and licked the inside of my legs looking at the camera with a sexy face but then the phone rang in the office and my boss said be right back.

Well she was still laying in between my legs her face inches from my pussy she said you know your really are beautiful and put her fingers on my pussy she looked at me and stuck two fingers in me I smiled and let a small moan out as she lowered her head and licked my pussy for real! I didn't say anything just enjoyed it she was good at it! we could hear my boss talking she was just licking away at my hairless pussy sucking my cit like it was a little cock She rubbed the cheeks of my ass with her fingers she then put her hands behind my knees pushing my legs up to expose my ass and started licking it, but then we heard my boss coming she stopped. I wondered for years why she stopped wasn't that what her boyfriend wanted to see! But back to the main story.

I was staying in shape swimming at my friends pool a few times a week if her husband was at work we would swim nude. Trying to swim away from my friend was a good work out because she likes to play torpedo.

She would try to torpedo me with her fingers! And sometimes she would but all in fun her other game is Jaws if she caught me she would eat me! But that's other story! I was now weigh 126lbs 5'4 I had cut my hair to my shoulders and had blonde highlights put in.

Sunday afternoon came and they pulled up and they got out. Rustie was just as friendly as ever. Craigslist guy had some food for him and told my boyfriend how to feed him. My boyfriend said he

looks bigger Craigslist guy said yes he's really big for his breed and I still haven't breed him. He looked at me and said expect the last time he was here we all laughed. He said he was running late but could he use the bathroom. My boyfriend took Rustie to the backyard and I carried the food in the house and showed him where the bathroom was. He told me I was looking good! He said he had been thinks about me at night and uses me to jack off looking at the tape we made. I asked him, me with you? or me with Rustie? He smiled and said both.

I put the food away and walked to the hall just as he came out of the bathroom. We were alone he hug me and we kissed. I could feel him getting hard, how much of a hurry are you? I got a minute he said as I squatted down and pulled down his pants and started sucking his pink cock. This time I was sucking hard and fast because I knew he was in a hurry felt his cock change I held his balls he held my head and moaned as he shot his load! This time I was ready and swallowed all of it sucking till he was soft. I got up wiping my mouth he said sorry but he got to go I'm going to miss my plane!

We walked outside just as my boyfriend came out of the backyard. He said see you guys Wednesday. My boyfriend said by, as he watched him drive away he said he's a nice guy I said yeah he is still tasting his cock in my mouth as we walked in the backyard. We sat in the shade area and my boyfriend rolled a joint and lit it. We smoked it and he was telling me how now we had time to film some stuff better. Great now he wants me to be a dog porn actress! Rustie comes up wagging his stump of a tail he sits down in front of me the tip of his cock pops out the way it does when male dogs sit. Without thinking I took off my sandal and rubbed his cock with my toes.

My boyfriend who has posted pics and videos of my feet on different sites and thinks my feet are pretty and from the many comments a few other do too. Jumps up to get his camera, I tell Rustie the things men think are sexy.

When he came back he sat across from us and said do it again I take off my sandals and started rubbing his cock and balls with my toes, I put his shaft in between my big toe and the others and jacked him up and down. Rustie thought thinks this is some sort of signal gets up and is sticking his head in-between my legs. I laughed telling him to stop be a good boy he jumping around trying to get at me.

Since the last time we had Rustie over a new neighbors move in next to us a older couple. The wife was nice but the old man would look at me like I was naked. Now my boyfriend sees him in the bushes trying to get a look he tells me and said should we let he see? When I would sunbathing I could see him jacking off looking at me. I guess me laughing and taking to Rustie got his attention.

My boyfriend said take off your shorts, I didn't think that was a good idea to let him see this but because I was high and I'm a natural exhibitionist I did. I took off my shorts and panties and Rustie thinks this is wonderful started sticking his nose in my pussy all excited I laughed at him saying let me sit down! I opened my legs and he started. I had been thinking about this and it was better than I remembered! He sticks his snout in my cunt and I can feel his tongue in me! where did he learn how to do this? But he stopped turned his head and barks but then started licking again.

My boyfriend turned to see what he barked at and sees the neighbor in a thin spot in the bushes trying to get a better look. He tells me to stand up and turned your body towards the bench and bend over I do and open my legs in this position the neighbor could see me, Rustie who can now get at my ass and pussy thinks is wonderful! But I didn't know that my boyfriend waved at the neighbor to get him even closer he's about 20 feet from me now he can see and hear me moaning! My boyfriend said he's jacking off not hiding at all. I don't care I can feel that I'm close with his nose in my ass and tongue on my cunt I had a good one shaking, my legs weak I look towards the neighbor surprised to see how close he was but just in time to see him shoot his load towards me! I smiled not

caring.

My boyfriend said let's go inside so I put my shorts on taking my time so the neighbor could watch and we headed towards the house my panties in my hand. I wondered how many times will he remember this to jack off? As we were walking we heard the neighbors wife calling him we saw him pulling up his pants I wonder what he told her what he was doing? I should have given him my panties

We smoked another joint and my boyfriend started in with his ideas how he wanted to film me in the bath with Rustie, in the kitchen making dinner and he comes in just lame stuff. I didn't like any and told him shouldn't you see if Rustie will do it first? The Craigslist guy said he still hasn't breed him except that afternoon when he breed me! He thought maybe I was right let's use the bed. I said no use the old couch the bed new. No he wants the bed now he kinda pissed me off I thought I'll fix him! We walked to the bedroom with Rustie following wondering what we are doing.

I took off my shorts and top then I thought this is the first time I'm totally naked in front of Rustie! He looks at me and I think he likes what he sees. I got on the bed and tapping it so Rustie would jump up. He's all excited not sure what to do I'm trying to pet him rubbing his cock and balls trying to get him to settle down. He was licking me everywhere he even licked my tits a few times making my nipples hard. I layed down letting him eat me. I rolled on my side opening my legs so he could get at my ass this feels awesome! I get in the doggie position he gets behind me and licked me a few times and got on! Its amazing how fast he pumps but at the same time that he enters me he grows in size till his cock is hard this is the second time I've done this so now I know was to expect. He pumping hard swinging my tits. He stopped and his knot gets big I bent down so just my ass is up. My boyfriend trying to do a close up sticking the camera up my ass. But he pulls out but this time his knot hurts a little he drips his dog cum on my bed and Im leaking cum too.

With a towel I wipe myself my boyfriend sits down on his chair and I think ok time to start getting his goat. I rolled on my back and got underneath Rustie who was standing panting with his pink cock hanging out. I started sucking his cock up and down like milking a cow! I never thought I would be giving a dog a b.j. but what I learned from our last meeting its really not that bad! What sperm was still on his cock I swallowed I was moaning and playing with my cunt I knew I was getting to my boyfriend!

I got back on my knees and called Rustie who actually listened to me. His cock is big and hard he jumps on and started pumping, the knot acts like a stopper so he only go in so far but the sound is awesome pop pop pop up against my cunt I played it up like it was the best fucking I ever had! Well actually it was petty close to the best. He would pull out of me then try to go back in but would slip his cock in my ass this felt awesome sexy ticking of my ass hole don't know if he came again I didn't feel anything but he stopped and got off.

He layed on his side licking his cock I moved in between his legs and rubbed his stomach till I could get him on his back so like I would with a man I'm in between his legs sucking his cock. Up and down to the knot and back to the tip with a smile I do it a few times I know this is getting to my boyfriend even more. He's probably thinking she doesn't she do that to me!

I stopped sucking but held on to his cock pointed it straight up and mounted him I had done this the first time when we filmed the porn video with his owner I pumped a few times to make sure he stays in then let go and started pumping for real this feels so good! I pulled him out grabbed his cock and guided it into my ass circled around my ass hole then I put the slippery tip in just the tip at first I pumped back into it as more goes in now then all the way to the knot! I let go and pump. I like anal but with Rustie he's not as thick as a man's cock its just the right size so I pump and have a huge

orgasm!

I sit for a minute squeezing my ass cheeks with his cock still in me I felt I might come again but I then get off it comes out with a pop. Now to really get my boyfriend. I bent over and suck his cock again! Just out of my ass then in my mouth! Smiling at the camera with his cock in my mouth! Finally my boyfriend said that's enough!

I got him! I layed on my side next to Rustie trying to hold him like a person rubbing my pubic hair on his side rubbing his stomach. My boyfriend wanted me to be a dog porn star without really asking me, but it turns out I had a great time I asked my boyfriend as sexy as I could how long is he going to be here?
